Rule 1336. A comprehensive set of floor plans shall show all structures and the specific location of each apartment in the project which may be by a system of dimensioned descriptions. The floor plans shall show each floor of each building including general and limited common elements, exterior boundaries of each unit, the number assigned to each unit, its size, location, area and volume. General and limited common elements shall be designated so that they may be differentiated from the unit areas and each other; each sheet shall have appropriate legends. The boundary limits of each co-owner's ownership shall be shown by a heavy black line around the perimeter of the unit. Normally the unpainted interior boundary walls and the unpainted ceiling and unfinished floors shall be such boundaries. Each unit's size and location in the structure shall be shown by including all measurements, including wall thickness, in sufficient detail to completely enclose and describe each unit. These measurements shall be dimensionally referenced to the corner of the structure corresponding to the corner referenced on the site plan. X, Y and Z planes or coordinates need not be established for each apartment. The area and volume for each unit shall be indicated on the plans. True north shall be indicated and if the structure is not oriented in a true north-south east-west direction, its orientation shall be clearly shown by indicating the bearing of the building walls or by showing the angle dimensions from a true north-south coordinate system.

History: 1954 ACS 67, p. 57, Eff. Apr. 27, 1971.

R 451.1337 Condominium subdivision plan; sections and elevations.

Rule 1337. (1) Cross and longitudinal sections of each building shall indicate the vertical boundaries of the units. The location of these vertical boundaries shall be identified and referenced to the United States coast and geodetic survey datum. The number of sections drawn and submitted shall be such that general and limited common elements and unit areas are clearly located. The boundary limits of the co-owner's ownership shall be shown by a heavy black line around the perimeter of the unit.

(2) Elevations shall show representative faces of the entire building or buildings, both above and below grade. Windows, doors and openings shall be shown. Vertical boundaries of common elements and units shall be identified and referenced to United States coast and geodetic survey datum.

History: 1954 ACS 67, p. 57, Eff. Apr. 27, 1971.

R 451.1338 Correction of plans.

Rule 1338. Condominium subdivision plans shall be submitted only in complete sets. Where review uncovers any error which requires correction of certain pages of the plan, insert pages will not be accepted but only complete sets of fully corrected plans. Where the signatures of all necessary persons have been affixed to the cover sheet of the condominium subdivision plan when first submitted, these signatures need not be obtained again in order to submit a corrected plan. However, the plan recorded with the county register of deeds shall be fully executed by the time of recording.

History: 1954 ACS 67, p. 57, Eff. Apr. 27, 1971.

R 451.1339 Assignment of value and references to plan and bylaws.

Rule 1339. (1) A master deed shall include:

(a) A statement assigning a value of 100 to the condominium project.

(b) The percentage of the value assigned to each apartment which shall be reasonable.

(c) A statement that the percentage of value shall not be changed except by unanimous consent of the co-owners expressed in an amendment to the master deed approved and recorded.

(2) A master deed shall contain a statement referring to the condominium subdivison plan and the condominium bylaws and shall incorporate them by reference.

History: 1954 ACS 67, p. 57, Eff. Apr. 27, 1971.

R 451.1340 Easements, common elements, and other provisions.

Rule 1340. (1) A master deed shall provide for reciprocal easements for a change of boundaries of apartments due to shifting, settling or moving of a building in the condominium project.

(2) A master deed shall provide for easements for installation, maintenance and service for all utilities including light, heat, power, sewer, water and communications.

(3) If the project is not served by an existing municipal water and sewerage system and any component of the system is not located on property to be owned by the condominium, an easement shall be obtained for repair and maintenance of such components, so long as the system continues to be used by the project.

(4) Such other easements as may be necessary for continued use and enjoyment of the project.

(5) A master deed shall contain a statement of the general and limited common elements. Main structural members, including but not limited to roofs, floors, ceilings, windows, doors and boundary walls, shall ordinarily be general common elements. Limited common elements shall be assigned to specific apartments in the master deed unless pursuant to approval by the administrator the power to amend the master deed to make such assignments is reserved to the developer.

(6) A master deed may contain such other provisions as may be deemed necessary or appropriate, if they do not conflict with the act or these rules.

History: 1954 ACS 67, p. 58, Eff. Apr. 27, 1971.

PART 4. BYLAWS IN A MASTER DEED

R 451.1341 General provisions.

Rule 1341. (1) The condominium bylaws shall be attached to and included in the master deed.

(2) The bylaws of a condominium shall contain the mandatory provisions of section 13 of the act and those provisions hereinafter set forth. As a part of the master deed, changes in the condominium bylaws shall be approved by the administrator before they are effective and the master deed or bylaws shall so state. Before recording an approved master deed, the condominium bylaws shall be attached as an exhibit. If the association of co-owners administering the affairs of the condominium project is a corporation, then its bylaws are hereinafter designated corporate bylaws and are not to be confused with the condominium bylaws.

(3) The bylaws shall state the name and location of the condominium project to which they are applicable, the purpose, whether residential or commercial, and any restrictions affecting the use of individual apartments or common elements.

History: 1954 ACS 67, p. 58, Eff. Apr. 27, 1971.

R 451.1342 Administration and membership provisions.

Rule 1342. (1) The bylaws shall designate the association of co-owners as responsible for management and administration of the common elements, property, easements and the affairs of the condominium project. The association of co-owners may form or organize an entity, or otherwise provide for independent management of the project. If a governmental agency participates in, guarantees or insures loans on a proposed condominium project, the association of co-owners shall be created and operated as a nonprofit corporation in accordance with applicable provisions of the Michigan general corporation laws. The bylaws may provide reasonable provisions for control of the project by the developer until completion of the project.

(2) Membership in the association of co-owners shall be limited to persons who own 1 or more apartments in the condominium project and each co-owner shall be a member of the association of co-owners.

History: 1954 ACS 67, p. 58, Eff. Apr. 27, 1971.

R 451.1343 Meetings.

Rule 1343. (1) An annual meeting of the members of the association of co-owners shall be held and other meetings may be provided for in the bylaws. A minimum of 10 days notice shall be provided.

(2) The presence in person or by written consent of ⅓ of the co-owners in number and in value shall constitute a quorum for holding a meeting. The bylaws may provide that a greater number shall constitute a quorum. A quorum shall be empowered to act on all matters affecting the condominium except as to matters where the act, the master deed or the bylaws require otherwise.

(3) The value of each vote shall be equal to the total percentage of value assigned to the apartments owned by such co-owner. Voting shall be by value except where it is required to be by number and value. The bylaws shall provide that no co-owner shall be entitled to vote at a meeting of the association of co-owners until he has presented evidence of ownership of an apartment in the condominium project to the association. The vote of a co-owner may only be cast in person, by the individual representative designated by the co-owner as provided by subrule (4) or by a proxy delivered to the secretary of the association before each meeting.

(4) A co-owner may file a written notice with the association of co-owners designating the individual who shall vote at meetings of the association of co-owners and receive notices and other communications from the association on behalf of such co-owner. The notice shall state the name and address of the individual representative designated, the numbers of the apartments owned by the co-owner, and the name and address of the persons, firm, corporation, partnership, association, trust or other legal entity who is the co-owner. The notice shall be signed by the co-owner. The individual designated may be changed by the co-owner at any time by filing a new notice as herein required.

(5) The bylaws shall state the majority required for approval or disapproval of any matter brought up at any meeting of the association of co-owners. This majority may be greater than required by the act.

History: 1954 ACS 67, p. 58, Eff. Apr. 27, 1971.

R 451.1344 Accounts.

Rule 1344. The books shall be maintained as required by section 13 of the act and shall be audited at least once each year by qualified independent auditors. The cost of such audit shall be an expense of administration. The right of

inspection by co-owners may be limited to a time and place specified in the bylaws.

History: 1954 ACS 67, p. 59, Eff. Apr. 27, 1971.

R 451.1345 Destruction or condemnation of property.

Rule 1345. The bylaws shall provide for the action to be taken in case of partial or complete destruction or partial condemnation of the condominium project and that action by a minimum of 75% of the co-owners in value and in number shall be determinative of whether to rebuild or repair the property. The bylaws shall set forth the rights of the co-owners and the procedures to be followed in case of a partial taking by condemnation or partial or complete destruction.

History: 1954 ACS 67, p. 59, Eff. Apr. 27, 1971.

R 451.1346 Mortgages.

Rule 1346. The bylaws shall provide that a co-owner who mortgages his apartment shall notify the association of co-owners of the name and address of its mortgagee and the association of co-owners shall maintain such information in a book entitled "Mortgages of Apartments." The association of co-owners, at the written request of a mortgagee of any such apartment, may notify the mortgagee of unpaid assessments due from the co-owner of such apartment. The association of co-owners shall furnish the individual mortgagees with complete information on all insurance carried by the association of co-owners.

History: 1954 ACS 67, p. 59, Eff. Apr. 27, 1971.

R 451.1347 Insurance.

Rule 1347. The bylaws shall provide that the association of co-owners shall carry insurance for fire and extended coverage, vandalism and malicious mischief, and if applicable liability and workmen's compensation, pertinent to the ownership, use and maintenance of the premises and that all premiums for insurance carried by the association shall be an expense of administration. The association may carry other insurance coverage, including cross-coverage for damages done by 1 co-owner to another.

History: 1954 ACS 67, p. 59, Eff. Apr. 27, 1971.

R 451.1348 Repair or modification of, and access to, apartments.

Rule 1348. (1) The bylaws shall provide that a co-owner who desires to make a repair or structural modification of his apartment shall first obtain written consent of the association of co-owners. The association need not give consent if such repair or modification might jeopardize or impair the structural soundness or safety or both of the project.

(2) The bylaws shall provide that any person designated by the association of co-owners shall have access to each apartment as necessary during reasonable hours upon notice to the occupant thereof for maintenance, repair or replacement of any of the common elements therein or accessible therefrom and shall have access to each apartment without notice for making emergency repairs necessary to prevent damage to other apartments, the common elements, or both.

History: 1954 ACS 67, p. 59, Eff. Apr. 27, 1971.

R 451.1349 Compliance with law and documents.

Rule 1349. The bylaws shall provide that all present and future co-owners, tenants, and any other persons or occupants using the facilities of the project in

any manner, are subject to and shall comply with the act, the master deed and bylaws, and the articles of association, rules and regulations adopted by the association of co-owners.

History: 1954 ACS 67, p. 60, Eff. Apr. 27, 1971.

R 451.1350 Settlement of disputes; other provisions; amendments.

Rule 1350. (1) The bylaws may provide for procedures, including arbitration, to resolve any dispute, claim or grievance arising out of or relating to the interpretation or the application of the master deed, the bylaws, or the management agreement, if any, or to any dispute, claim or grievance arising among or between co-owners or between co-owners and the association of co-owners or between a management company and the association of co-owners. If arbitration is requested by the parties to such a dispute, claim or grievance, then such dispute, claim or grievance may be submitted to arbitration and the parties shall accept the arbitrator's decision as final and binding. The bylaws may provide for the application of the commercial arbitration rules, as amended, of the American arbitration association. Any such procedure shall be definite.

(2) The bylaws shall provide that a co-owner shall not be precluded from petitioning a court to resolve a dispute, claim or grievance.

(3) The bylaws may contain such other provisions as may be deemed necessary or appropriate which are not in conflict with the act or these rules.

(4) The bylaws may be amended by the association of co-owners in accordance with section 11 of the act.

History: 1954 ACS 67, p. 60, Eff. Apr. 27, 1971.

PART 5. APPROVAL OF A MASTER DEED

R 451.1351 Applications.

Rule 1351. (1) A developer may apply for a certificate of approval of a master deed when the following are prepared and submitted in accordance with the act and these rules:

(a) The master deed, the condominium bylaws and the condominium subdivision plan.

(b) The exhibits specified in these rules.

(c) Such other information as may be required, either on the application form prescribed by the administrator, or otherwise.

History: 1954 ACS 67, p. 60, Eff. Apr. 27, 1971.

R 451.1352 Consent of mortgagees.

Rule 1352. Written consent of the mortgagees and other parties interested in the property being submitted to the condominium project shall be obtained, and evidence thereof shall accompany the application. The consent shall state, or be accompanied by a statement setting forth, the manner in which any such interest will be released at or before the time of conveyance of title to an apartment to a purchaser.

History: 1954 ACS 67, p. 60, Eff. Apr. 27, 1971.

R 451.1353 Evidence of title to property.

Rule 1353. A developer shall furnish with his application, a copy of the existing title policy on the land or an attorney's opinion letter showing merchantable title in the developer. If the developer does not have an insurable interest in the land, he shall furnish evidence satisfactory to the administrator that he will be able to transfer merchantable title to apartment purchasers. A copy of the purchasers'

proposed title insurance policies and a commitment to write such policies shall be furnished to the administrator.

History: 1954 ACS 67, p. 60, Eff. Apr 27, 1971

R 451.1354 Advice from other state agencies.

Rule 1354. The administrator may request advice from other state agencies in the following situations and may require that engineering reports, site reports, topographic and other maps and other data be furnished to facilitate such review:

(a) If the proposed condominium project is not to be served by an existing municipal water or sewerage system, the administrator shall notify the department of public health and the water resources commission who, after investigation, will inform the administrator whether in its opinion adequate provision has been made to protect the health of purchasers and the public, or what requirements are necessary to do so.

(b) If the proposed condominium project abuts a lake, stream or channel or lies wholly or in part within the floodplain of a lake, stream or channel the administrator shall notify the water resources commission and the local county drain commissioner, if any, who will inform the administrator whether in its opinion adequate provision has been made to protect the health, safety and welfare of purchasers and the public, or what requirements are necessary to do so.

(c) If the proposed condominium project abuts a state highway or trunkline, the administrator shall notify the department of state highways and, if it abuts a county road, it shall give notice to the county road commission, who in each case will inform the administrator whether in its opinion adequate provision has been made for the safety of entrance upon, and departure from, the state highway trunkline or county road, or what requirements are necessary to do so.

History: 1954 ACS 67, p. 60, Eff. Apr 27, 1971.

R 451.1355 Compliance with local ordinances.

Rule 1355. The act contemplates that a condominium project shall comply with zoning, building and other applicable local ordinances. The administrator will require that evidence of such compliance be submitted. This may include, but not be limited to, zoning approval, a building permit, certificate of occupancy and certificates of approval of any private roads, sewers or water systems.

History: 1954 ACS 67, p. 61, Eff. Apr 27, 1971.

R 451.1356 Management contracts.

Rule 1356. Initial contracts for management, rental operation or maintenance of the condominium project including contracts for nonpublic water and sewer, shall be submitted to the administrator for approval.

History: 1954 ACS 67, p. 61, Eff. Apr 27, 1971.

R 451.1357 Conversion of existing buildings.

Rule 1357. Where a developer proposes to establish a condominium project by conversion of an existing apartment building and where more than 1 year has elapsed since construction of the building, the administrator shall evaluate the building to determine whether it is suitable for conversion to a condominium project. The administrator may require the developer to comply with local building codes at the time of conversion. He may require evaluation of the plumbing, heating, electrical and structural components of the building and an appraisal of the property, to determine that the offer and sale of units will not tend

to work a fraud or imposition on the purchasers or on the public. The administrator may require the developer to provide prospective purchasers with copies or summaries of such reports, evaluations or appraisals.

History: 1954 ACS 67, p. 61, Eff. Apr. 27, 1971.

R 451.1358 Sectional developments.

Rule 1358. (1) Where a developer proposes to establish a condominium project in a series of sections or stages, the administrator shall require each section or stage to be established as an integrated condominium project, fully able to function independently even if subsequent sections are never completed. This shall not prevent merging sections as completed into the previously completed and recorded condominium project. The administrator shall require the developer to disclose to subscribers the scope of his proposed development.

(2) Where a developer properly reserves power to amend the master deed to merge subsequent sections into 1 integrated condominium without the vote of co-owners or others interested in the condominium, the master deed of each section shall disclose the scope of the proposed development, and state generally the maximum number of units to be included in the condominium project, a time limit within which expansion of the condominium will be completed and the manner in which percentages of value will then be modified.

History: 1954 ACS 67, p. 61, Eff. Apr. 27, 1971.

R 451.1359 Condominiums involving long-term leases.

Rule 1359. Where a developer proposes to establish a condominium project on a leasehold interest in land, a copy of the lease shall be filed with the administrator when the developer first applies for approval. The administrator may approve the proposed condominium project if it affirmatively finds that the terms of the lease are appropriate and reasonable, and that the offer and sale of the apartments will not tend to work a fraud or imposition on the purchasers or on the public. The lease shall provide that, in case of default, the lessor may proceed against only those co-owners who are in default as to their proportion of the lease payments. The lease may provide the lessor a lien against an individual unit for the amount of the defaulted payment. The administrator may require that individual leases between the lessor and each co-owner also be used. The master deed shall describe the lease and shall provide that a co-owner may elect to pay his proportionate lease rental directly to the lessor. A lease shall be for a term not less than 99 years, and at expiration the terms of renewal shall be subject to arbitration.

History: 1954 ACS 67, p. 61, Eff. Apr. 27, 1971.

R 451.1361 Plan of financing.

Rule 1361. A developer who proposes to use subscribers' funds as part of his financing of a project shall submit his plan of financing to the administrator for review. Before the developer may use purchasers' deposits as part of his financing of the project, he shall deposit with the escrow agent irrevocable letters of credit or guarantee bonds in the full amount of the purchasers' funds he desires to withdraw. The escrow agent shall release the purchasers' funds to the developer only up to the amount of the letters of credit or guarantee bonds. Letters of credit and guarantee bonds shall be in a form satisfactory to the administrator. The administrator shall be satisfied that the bank issuing a letter of credit and the escrow agent receiving it will be able to meet their commitments. Those arrangements shall be fully set forth in the escrow agreement and in the reservation and subscription agreement.

R 451.1363 Approval of master deeds and field inspection.

Rule 1363. (1) Approval of a master deed shall be by a separate order but shall not constitute a permit to sell. A certificate of approval of the master deed shall also be affixed to the cover sheet of the condominium subdivision plan.

(2) A site inspection at the expense of the developer as set forth in section 25 of the act may be conducted before approval of a master deed.

History: 1954 ACS 67, p. 62, Eff. Apr. 27, 1971.

PART 6. PERMIT TO SELL AND SALES

R 451.1371 Application for a permit to sell.

Rule 1371. (1) A permit to sell enables a developer to enter into binding contracts of sale and to convey individual apartments. The form of such contracts of sale shall be approved before use by the administrator. When the approved master deed has been recorded with the register of deeds and a certified copy returned to the administrator, the developer may request a permit to sell.

(2) Before obtaining a permit to sell a developer shall submit 1 complete set of the architectural plans with detailed specifications on 35mm microfilm jacket cards and shall certify that these prints are complete and correct and a true copy of those actually used to construct the project. This requirement may be waived for a conversion project where no architectural plans exist.

History: 1954 ACS 67, p. 62, Eff. Apr. 27, 1971.

R 451.1372 Conditional permit to sell.

Rule 1372. (1) A conditional permit to sell is a permit to sell containing such further conditions to be satisfied by the developer as the administrator may require. If the condominium buildings have not been constructed when the plan is submitted, the structures shall be designated in the plan as "proposed." A conditional permit to sell, except as specifically provided therein, is effective as a permit to sell and allows the developer to convey completed apartments and enter into binding contracts of sale. The administrator may issue a conditional permit to sell before actual completion of all apartments or the entire project. Such a permit may be issued only after completion of all aspects of the application for approval of the master deed and conditional permit to sell, including approval and recording of the master deed and bylaws of the condominium and the condominium subdivision plan.

(2) Funds paid for the purchase of an apartment and held in escrow may ordinarily be released to the developer only upon conveyance of such an apartment to the purchaser. In case the developer, pursuant to a conditional permit to sell conveys any apartment before issuance of a final permit to sell, the administrator may require the developer to retain in or deposit with an escrow agent sufficient funds or other security as determined by the administrator to insure the completion of those common elements necessary for use and enjoyment of the project.

(3) A final permit to sell will only be issued after completion of the project and the submission, approval and recording of the master deed with changes, if any, and the condominium subdivision plan certified "as built" by the architect, engineer, or surveyor.

History: 1954 ACS 67, p. 62, Eff. Apr. 27, 1971.

R 451.1373 Amendment of master deeds.

Rule 1373. (1) Amendment of a master deed shall require the written consent of all co-owners, mortgagees and other persons interested in the condominium

project. Where the developer reserves in the master deed the right to amend the master deed for a proper and stated purpose, the administrator may approve such amendment without consent of all the co-owners, mortgagees and other interested persons. Such purposes may include, but not be limited to, modification of percentages of value, reassignment of limited common elements, merger of sectional condominium developments or correction of minor errors in the master deed.

(2) Where the developer has received approval of a proposed condominium subdivision plan before construction of the buildings, a re-survey to bring the plans into conformity with buildings as actually built and to correct minor errors in the plans may be permitted by amendment of the master deed.

History: 1954 ACS 67, p. 63, Eff. Apr. 27, 1971.

R 451.1374 Advertising.

Rule 1374. (1) A project shall not be advertised or represented as a condominium until a permit to take reservations or a permit to sell has been granted to the developer. All advertising shall be submitted to the administrator and approved before use.

(2) Advertising, sales material and oral representations shall be truthful and accurate and intended to fully inform the public about the project. They shall not be framed in such a way as to create a false impression about the nature, status, quality or cost of a proposed condominium project or its location.

(3) A developer and his agent shall not represent to any person that the administrator has inspected or approved the quality, value or price of any apartment.

History: 1954 ACS 67, p. 63, Eff. Apr. 27, 1971.

R 451.1377 Conveyances of title.

Rule 1377. Title to a condominium apartment may not be tendered or conveyed by a developer until the apartment is substantially ready for occupancy and a permit to sell (either conditional or final) has been issued by the administrator.

History: 1954 ACS 67, p. 63, Eff. Apr. 27, 1971.

PART 7. HEARINGS

R 451.1381 Notice of intent to deny.

Rule 1381. (1) The administrator may deny approval of an application for a condominium project if a developer has failed to comply with the act or the rules promulgated pursuant thereto or the administrator's requirements thereunder, or if he affirmatively finds that the project as proposed or constructed will be detrimental to the health, safety or welfare of the purchasers or to the public. Before entering an order of denial, the administrator shall notify the developer by certified mail of its decision in a notice of intent to deny.

(2) The final decision shall be by further order.

(3) An order of denial will be entered after the expiration of 15 days after the date of mailing of the notice of intent to deny unless the developer requests in writing a hearing before the administrator within that time.

History: 1954 ACS 67, p. 63, Eff. Apr. 27, 1971.

R 451.1382 Conduct and notices.

Rule 1382. (1) A hearing shall be conducted by the administrator or by such person as it shall designate.

(2) A hearing shall be open to the public and shall be conducted in accordance with the administrative procedures act of 1969, being Act No. 306 of the Public Acts of 1969, as amended, and §§24.201 to 24.315 of the Michigan Compiled Laws.

(3) Parties shall be notified of a hearing by certified mail, at their last known address, which shall be posted at least 15 days before the date of hearing and shall state the date, time, place, issues involved and reasons for holding the hearing, and the applicable law.

History: 1954 ACS 67, p. 63, Eff. Apr. 27, 1971.

R 451.1383 Appearances, pleadings, briefs, and adjournments.

Rule 1383. (1) A party may appear at a hearing in person or by a duly authorized representative or attorney.

(2) A party may file a written answer to charges or claims made or may present an oral statement at the time of hearing. Copies of written pleadings and briefs shall be served on the administrator and all other parties at least 5 days before the date set for hearing.

(3) If any party fails to appear after proper service of notice, the administrator, if no adjournment is granted, may proceed with the hearing and make its decision in the absence of such parties.

(4) An adjournment or continuance may be granted by the administrator in its discretion, for good cause shown by a party to the hearing or on his own motion or after stipulation and agreement between all such parties, but a request for adjournment shall be made in writing at least 5 days before the date assigned for hearing.

History: 1954 ACS 67, p. 64, Eff. Apr. 27, 1971.

R 451.1384 Depositions.

Rule 1384. A deposition shall be taken only upon the order of the administrator upon a showing that it is impracticable or impossible to obtain necessary evidence otherwise. Where permitted, it shall be taken in accordance with the provisions for taking depositions in civil cases, as set forth in Michigan general court rules or other applicable court rules.

History: 1954 ACS 67, p. 64, Eff. Apr. 27, 1971.

R 451.1386 Orders.

Rule 1386. Within a reasonable time after completion of a hearing, the administrator shall send by certified mail to the last known address of the parties the decision or order which shall include findings of fact and conclusions of law.

History: 1954 ACS 67, p. 64, Eff. Apr. 27, 1971.

R 451.1387 Rehearings.

Rule 1387. A rehearing may be granted by the administrator upon application in writing by a party to the hearing or upon its own motion in accordance with the administrative procedures act of 1969. A rehearing shall be noticed and conducted in the same manner as an original hearing.

History: 1954 ACS 67, p. 64, Eff. Apr. 27, 1971.

HEARINGS

(By authority conferred on the director of commerce by sections 2 and 4 of Act No. 197 of the Public Acts of 1952, as amended, being §§24.102 and 24.104 of the Michigan Compiled Laws)

R 451.1901 Applicability of rules.

Rule 1. These rules apply to hearings conducted by the securities bureau in the administration of the following acts:

(a) Uniform securities act, being Act No. 265 of the Public Acts of 1964, as amended, and §§451.501 to 451.818 of the Michigan Compiled Laws.

(b) Horizontal real property act being Act No. 229 of the Public Acts of 1963, as amended, and §§559.1 to 559.31 of the Michigan Compiled Laws.

(c) Act No. 135 of the Public Acts of 1961, as amended, being §§451.451 to 451.468 of the Michigan Compiled Laws.

History: 1954 ACS 55, p. 51, Eff. Aug. 14, 1968.

R 451.1902 Requests for hearings.

Rule 2. A party requesting a hearing shall submit in writing a fair and accurate statement of the facts to the securities bureau and all interested parties. The facts shall be accepted as evidence unless a written answer is filed, denying the facts relied upon, with the securities bureau and all interested parties.

History: 1954 ACS 55, p. 51, Eff. Aug. 14, 1968.

R 451.1903 Notices of hearings.

Rule 3. Notice of a hearing before the securities bureau shall be by registered or certified mail, and shall state the date, time, place, issues involved and reasons for holding the hearing. The notice shall be mailed at least 10 days prior to the hearing.

History: 1954 ACS 55, p. 51, Eff. Aug. 14, 1968.

R 451.1904 Appearances and defaults.

Rule 4. (1) An appearance at a hearing shall be made either in person or by a duly authorized representative or counsel.

(2) If a person who has been previously served with notice of hearing fails to appear at a noticed hearing, the securities bureau may proceed with a hearing of the case and, on the evidence presented, may make the decision.

History: 1954 ACS 55, p. 51, Eff. Aug. 14, 1968.

R 451.1905 Adjournments and continuances.

Rule 5. No hearing shall be adjourned or continued except upon an order of the securities bureau or the department employee conducting the hearing. Unless waived by the securities bureau, a motion or request for an adjournment or a continuance shall be in writing, which instrument shall state concisely the reasons why an adjournment or continuance is necessary. No motion or request for an adjournment or continuance shall be considered unless it is filed with the securities bureau at least 5 days prior to the date assigned for the hearing, except upon order of the securities bureau, which exception will be granted only upon a showing that for reasons not within the control of the person or party making the motion or request, the motion or request could not be filed within the time limited.

History: 1954 ACS 55, p. 51, Eff. Aug. 14, 1968.

R 451.1906 Written answers; oral statements; briefs and arguments.

Rule 6. A person who has been served with a notice of hearing may file a written answer thereto prior to the date set for hearing, or at the hearing may appear and present an oral statement, on the charges contained in the notice of hearing. When written briefs or arguments are presented, a copy shall be served

upon the securities bureau and opposite parties at least 5 days prior to the date set for the hearing.

History: 1954 ACS 55, p. 52, Eff. Aug. 14, 1968.

R 451.1907 Stipulations.

Rule 7. The parties to a hearing before the securities bureau, by a stipulation in writing filed with the securities bureau or by a statement in the record, may agree upon the facts or any portion of the facts involved in the controversy, which stipulation shall be regarded and used as evidence in the hearing. Parties are requested to thus agree upon the facts when practicable.

History: 1954 ACS 55, p. 52, Eff. Aug. 14, 1968.

R 451.1908 Depositions.

Rule 8. A deposition shall only be taken upon written authority of the securities bureau where it is proved in writing to the securities bureau that it is impractical or impossible to otherwise obtain the evidence. Where a deposition is permitted, it shall be taken according to the rules for taking depositions in civil cases in the state of Michigan, being rules 302 and 304 to 309 of the Michigan general court rules of 1963, with all parties given an opportunity to cross-examine the witness under oath.

History: 1954 ACS 55, p. 52, Eff. Aug. 14, 1968.

CEMETERY COMMISSION

GENERAL RULES

R 456.1—R 456.52 Rescinded.

History: 1954 ACS 56, pp. 42-44, Eff. Nov. 14, 1968; rescinded 1954 ACS 63, p. 23, Eff. Aug. 14, 1970.

GENERAL RULES

(By authority conferred on the state cemetery commission by section 8 of Act No. 251 of the Public Acts of 1968, as amended, being §456.528 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 456.101 Definitions.

Rule 1. As used in these rules:

(a) "Act" means Act No. 251 of the Public Acts of 1968, as amended, being §§456.521 to 456.543 of the Michigan Compiled Laws.

(b) "Cemetery" means a cemetery or entity subject to the act.

(c) "Commission" means the state cemetery commission created by the act.

(d) "Remains" means human remains.

(e) "Memorials" means any object on which is inscribed the name and generally the inclusive dates of life of the deceased that is used to identify a grave.

(f) "Trainee" means a person who has not been previously licensed by the commission to sell interment rights, cemetery merchandise or services.

(g) "Business entity" means a group of persons formed into a corporation, association, organization, partnership or copartnership.

(h) "Agent" means a person who acts with authority for or in the place of another person in the sale of interment rights or cemetery merchandise and services.

(i) "Seller" means a person who offers for sale interment rights, cemetery merchandise or services.

(j) "Cemetery lots" means an area for earth interment.

(k) "Pre-need" or "advance of need" means interment rights, cemetery merchandise or services sold to a purchaser before time of death.

(l) "Turf top crypts" means a section of a cemetery in which preconstructed underground outside containers have been installed for use of interments.

(m) "Vendor" means a cemetery company or its authorized agents.

(n) "Interment right" means 1 of the following:

(i) Burial right (earth burial).

(ii) Entombment right (crypt).

(iii) Columbarium right (inurnment).

(o) "Escrow" means an unallocated account held pursuant to the terms of a written trust agreement.

History: 1954 ACS 63, p. 23, Eff. Aug. 14, 1970; 1954 ACS 79, p. 108, Eff. Apr. 11, 1974.

R 456.111 Rescission.

Rule 11. The General Rules of the predecessor state cemetery commission, being R 456.1 to R 456.52 of the Michigan Administrative Code and appearing on pages 4821 to 4823 of the 1968 Annual Supplement to the Code, are rescinded.

History: 1954 ACS 63, p. 23, Eff. Aug. 14, 1970.

PART 2. PERMITS, REGISTRATIONS, LICENSES, AND RECORDS

R 456.121 Permits, registrations, and licenses.

Rule 21. A permit, registration or license issued pursuant to the act is valid from July 1 to June 30. An application for a permit, registration or license shall be filed with the commission at least 30 days before July 1 of each year.

History: 1954 ACS 63, p. 23, Eff. Aug. 14, 1970.

R 456.122 Licensing of salespersons.

Rule 22. (1) A person who is in training to sell interment rights or cemetery merchandise or services shall apply forthwith for a trainee license on forms provided by the commission accompanied by the required fee of $10.00. At the end of 50 days a person holding a valid trainee license shall apply to the commission, on forms provided, for a regular license, accompanied by the required fee of $15.00.

(2) If a salesperson allows his license to lapse 1 year or more, he shall apply for a new license and not a renewal.

(3) A salesperson changing places of employment shall submit his current license to the commission for the issuance of a corrected license indicating the new place of employment.

(4) A cemetery required to register under the act or an agent of such cemetery, shall not employ a person required to be licensed unless the person has in possession a valid license issued by the commission or has submitted to the commission an application for a trainee license accompanied by the required fee.

(5) A person selling interment rights originally purchased for the use of himself or his immediate family or a person acting as a receiver, administrator or executor or otherwise acting under any order or authorization of a court is not required to be licensed.

History: 1954 ACS 63, p. 23, Eff. Aug. 14, 1970; 1954 ACS 79, p. 109, Eff. Apr. 11, 1974.

R 456.123 Property and unit descriptions.

Rule 23. (1) A cemetery shall file with the commission:

(a) A map containing a legal description of all land that has been purchased for cemetery purposes and adopted as part of the plan or design of the cemetery.

(b) Platted maps designating all locations of burial rights developed and completed for burial.

(2) A cemetery shall not sell or assign burial rights in a section or part of the cemetery which has not been developed and completed for burial unless a certified copy of the platted map designating burial rights contained in the section, has been filed with the commission.

(3) In case of a mausoleum, a burial structure or a columbarium, a cemetery shall file with the commission a substantial map or plat on which shall be delineated the sections, halls, rooms, corridors, elevations and other divisions with descriptive names and numbers. If a structure has not been completed for entombment or inurnment as of the effective date of this rule, the map shall be filed before any rights in this structure are sold.

History: 1954 ACS 63, p. 24, Eff. Aug. 14, 1970.

R 456.124 Ownership and location records.

Rule 24. (1) A cemetery shall keep a record of the ownership of all interment, entombment and inurnment rights in the cemetery.

(2) A cemetery shall keep record of all interments, entombments and inurnments showing the name, age, date of service, cemetery sections, lot numbers, grave number and, in case of a mausoleum or columbarium, all information necessary to easily locate an interment, entombment or inurnment.

(3) A cemetery shall keep a record of remains cremated in the cemetery and whether or not the cremated remains are interred, entombed or inurned on the premises.

(4) A cemetery shall keep records either in duplicate forms in separate buildings or in single copies within a container which has at least 1 hour fire proof rating. These records shall be available at all reasonable times to official inspection by the commission or any of its officers or agents.

History: 1954 ACS 63, p. 24, Eff. Aug. 14, 1970; 1954 ACS 79, p. 109, Eff. Apr. 11, 1974.

R 456.125 Records of future obligations.

Rule 25. On December 31 of each year a cemetery shall have available for examination by the commission, an annual statement or record as of its most recent fiscal year which ended at least 6 months prior to the December 31 date, certified to by the owners, or in case of a corporation by 2 directors or trustees, showing the financial status of all contractual liabilities and obligations for future performance of services by the cemetery corporation or the organization so obligated which is affiliated with the cemetery. This statement or record shall contain the following information:

(a) Complete description of the future performance obligations involved.

(b) Total cost of full performance of all obligations as of the date of statement.

(c) Complete information on the means, provision, trust or other vehicle which will assure fulfillment of all obligations, stating ledger and market values of the vehicle, its location, nature of investments and trustees including fees paid to trustees.

History: 1954 ACS 63, p. 24, Eff. Aug. 14, 1970.

R 456.126 Financial statements.

Rule 26. A cemetery shall have available each year for examination by the commission, an annual statement or record as of its most recent fiscal year. The statement shall be available 6 months after the end of the fiscal year. The statement or record shall be certified to by the owners, or in case of a corporation, by 2 directors or trustees, as to the financial condition of the cemetery entity or corporation. This statement or record shall contain substantially all of the following information:

(a) List of all assets, current and fixed, showing costs and depreciation.

(b) List of all liabilities, current and long term.

(c) Stockholders' equity.

(d) Statement of income and expenses.

(e) Information on all insurance coverage of cemetery assets and responsibilities.

History: 1954 ACS 63, p. 24, Eff. Aug. 14, 1970; 1954 ACS 79, p. 109, Eff. Apr. 11, 1974.

PART 3. ENDOWED CARE FUND, MERCHANDISE FUND, AUDITS, REPORTS, AND SALES

R 456.131 Sales of interment rights, cemetery merchandise or services.

Rule 31. (1) A contract or agreement in which payments are to be made as consideration toward the purchase or option to purchase of interment rights, cemetery merchandise or services and which is signed by a purchaser and a vendor, constitutes a sale as referred to in subsection (2) of section 7a of Act No. 12 of the Public Acts of 1869, as amended, being §456.107a of the Michigan Compiled Laws in subsection (2) of section 35a of Act No. 87 of the Public Acts of 1855, as amended, being §456.35a of the Michigan Compiled Laws and in subsections (1), (2), and (3) of section 16 of Act No. 251 of the Public Acts of 1968, as amended, being §456.536 of the Michigan Compiled Laws.

(2) If a cemetery uses sales contracts or purchase agreements that include interment rights, burial vaults, grave memorials or cemetery services, payments made by a purchaser in event of a death of either spouse shall apply first on the amount shown as charged for interment rights.

(3) All vendors shall comply with Act No. 227 of the Public Acts of 1971, being §§445.111 to 445.117 of the Michigan Compiled Laws, if sales are made at residences of purchasers.

History: 1954 ACS 63, p. 25, Eff. Aug. 14, 1970; 1954 ACS 79, p. 110, Eff. Apr. 11, 1974.

R 456.132 Gross proceeds from sales.

Rule 32. Gross proceeds received from a sale of interment rights, cemetery merchandise or services is the total of all funds received or credited to the vendor as payments from a purchaser or lending institution on behalf of a purchaser before an amount is deducted as security for an uncollectible account or an amount is deducted which is due the trust funds by contract which is charged the purchaser in addition to the purchase price. A record of monthly gross proceeds of sales shall be kept by a vendor. An interest or carrying charge payment or sales tax shall not be considered part of gross proceeds from sales if the interest, carrying charge or sales tax is separately stated in the purchase agreement and is recorded separately as a payment is made.

History: 1954 ACS 63, p. 25, Eff. Aug. 14, 1970; 1954 ACS 79, p. 110, Eff. Apr. 11, 1974.

R 456.133 Endowed care funds.

Rule 33. (1) An irrevocable endowed care fund, as referred to in section 16 of the act, shall be a trust fund administered by a trustee or trustees under the terms

Digitized by Google

of a written trust instrument which specifies the statutory and regulatory responsibilities of the trustee or trustees. The endowed care trust fund shall be kept separate and apart from all other funds, property or securities of the cemetery, cemetery corporation, association or trustee or trustees. The net income of the endowed care trust fund shall be paid only to the entity in possession, management, operation and control of the cemetery grounds and structures for the sole purpose of maintenance of the cemetery grounds or structures. Capital gains from the sale of an asset in the endowed care trust fund shall be considered a deposit to the principal or the corpus of the trust and as such shall not be considered a part of net income.

(2) The required funds due the endowed care trust fund shall be deposited only in an account, which is a legal depository of the corpus of the endowed care trust fund.

(3) Assets of the endowed care trust fund shall be deposited with a bank or trust company located in this state.

History: 1954 ACS 63, p. 25, Eff. Aug. 14, 1970; 1954 ACS 79, p. 110, Eff. Apr. 11, 1974.

R 456.134 Trust fund audits and records.

Rule 34. (1) If an audit of a trust fund obligation is made by the commission, an audit report shall be furnished to the party audited. The audit report shall contain the following information:

(a) Deposits made to the trust fund for the period of audit.

(b) Required deposits as per audit.

(c) Deficit or overage, if any.

(2) Deposit deficits shall be paid within 30 days from the date of the audit unless other arrangements are authorized in writing by the commission. Certification of the deposit shall be forwarded to the commission.

(3) A party in disagreement with a commission audit report may appeal for an adjustment by:

(a) Furnishing the commission with the party's contention of adequate proof of error.

(b) Requesting an informal hearing with the commission.

(c) Requesting a formal hearing with the commission.

(4) A cemetery shall have available in its registered office for examination by the commission, all records pertinent to the maintenance, establishment and reporting of its required trust funds.

History: 1954 ACS 63, p. 25, Eff. Aug. 14, 1970; 1954 ACS 79, p. 110, Eff. Apr. 11, 1974.

R 456.135 Endowed care fund reports.

Rule 35. The annual endowed care fund report required of a cemetery under the commission's authority shall be submitted in an original copy of the forms furnished by the commission. Photostat copies will not be accepted. If the space on a particular schedule of the form furnished by the commission is not large enough, a separate larger schedule shall be attached, and shall be in exactly the same form as the schedule in the commission report form.

History: 1954 ACS 63, p. 26, Eff. Aug. 14, 1970.

R 456.136 Sales tactics.

Rule 36. An organization or person selling interment rights, cemetery merchandise or services, pursuant to R 456.131 shall:

(a) Not use a sales presentation or advertisement which conceals or misstates a material fact.

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(b) Fully disclose to a purchaser in a conspicuous manner on the purchase agreement or contract that there will be a future cost for interment fees or installation of cemetery merchandise unless these costs are included in the sales price and so stated on the contract or agreement.

(c) Not mislead prospects to believe that the seller is in any way connected with an organization other than the entity which is selling the interment rights, cemetery merchandise or services.

(d) Not offer free interment rights, installation or care deposits to an organization, group or person if the free offer is accompanied by a requirement that other interment rights, cemetery merchandise or services be purchased or that the free offer is accompanied by the option of purchase of adjoining interment rights at a price which is inflated above regular comparable prices within the cemetery.

(e) Not sell interment rights supposedly at a substantial discount where in fact the actual price of the rights has been increased to cover the supposed discount.

(f) Not represent that the price of interment rights to a purchaser is a special price to him only, if another purchaser would be given the same price.

(g) Not use sales presentations which lead a purchaser to believe that interment rights, cemetery merchandise or services are being acquired at no cost and that the money required to be contributed by the purchaser is for maintenance or other expenses, whereas a different result follows.

(h) Not induce a purchaser to buy interment rights with promises or representations that future price increases will enable a purchaser to realize profits from the sale of his rights.

(i) Not promise, represent or agree as a condition of an interment right's sale, or sale of cemetery merchandise or services, to resell for, or repurchase from a purchaser, any right, cemetery merchandise or services.

(j) Not sell interment rights unless the specific location and description of the rights coinciding with the official platted records of the cemetery is specified in the sales agreement.

(k) Not sell interment rights in an earth interment section which is not completed for interment including lawn and landscaping, unless there is a comparable section completed for interment including lawn and landscaping in the same cemetery that is available at no additional cost to the purchaser in case of need, to which the purchaser agrees to transfer.

(l) Not sell interment rights in an earth interment section which is not developed as provided in subrule (7) of R 456.137, 48 months after the date of the first sale of rights in such section. If the section is not developed by that date, except for national emergency, all moneys paid by the purchaser shall be refunded on written request by the purchaser.

(m) Not accept a pre-need sales contract unless a minimum down payment of $10.00 is received from the purchaser at the time of sale.

(n) Not take a negotiable instrument, other than cash or a currently dated check or draft, as evidence of the obligation of the purchaser as a down payment.

(o) Not pay the down payment for the purchaser, or make an agreement with the purchaser that the down payment can be paid at a later date. This practice is commonly known in the cemetery industry as "fronting a sale."

(p) Not present a sales presentation and obtain purchaser's signature to a sales contract if the purchaser cannot read or speak English unless there is a disinterested person present who can explain fully to the purchaser what he is buying. The name and address of the disinterested person shall appear in his handwriting somewhere on the contract.

History: 1954 ACS 63, p. 26, Eff. Aug. 14, 1970; 1954 ACS 79, p. 111, Eff. Apr. 11, 1974.

R 456.137 Incomplete structures.

Rule 37. (1) A vendor who sells an interment right in a structure which is not then completed for interment shall:

(a) Stipulate in the sales agreement a specific period of time within which the structure shall be completed and ready for interment which shall be not more than 48 months after the date of the sales agreement, and that if the structure is not completed by that date, except for a national emergency, all moneys paid by the purchaser pursuant to the agreement shall be refunded.

(b) Determine the total construction cost of the structure.

(c) Determine the construction cost of the unit being sold and divide it by the amount of gross proceeds to be derived from the sale of the unit which figure shall be multiplied by 100 to obtain the construction cost percentage.

(d) Place the construction cost percentage of any gross proceeds payment in a special construction trust fund in a bank or trust company located in this state within 30 days after the date of the payment.

(2) The sum of construction costs of all units in a subrule (1) structure shall equal the total construction cost of the subrule (1) structure.

(3) Withdrawals from the construction fund can be made only to pay current construction costs as the construction of the structure progresses to the final completion.

(4) All vendors shall submit to the commission for approval, and before such sales are made, the following:

(a) Copy of contracts or purchase agreements.

(b) Maps required by subrule (2) of R 456.123.

(c) Estimated cost of the structure, including features and embellishments.

(d) Estimated amount of gross proceeds to be derived from the sale of the interment rights.

(e) A copy of sales brochures, promotional pamphlets and artist's rendering of the proposed structure if such items are used in the sales program.

(f) A copy of all proposed sales advertising or radio and television scripts used in these sales promotions.

(5) A vendor shall not sell or assign burial rights in any undeveloped part of the cemetery unless 15% of the gross proceeds received from the sales is deposited in a special fund under a written agreement in a bank or trust company located in this state. The fund shall be designated as a cemetery development fund, naming the new area. A copy of the written agreement shall be forwarded to the commission. Withdrawals from the development fund can be made only to pay current development costs as the development progresses to final completion. Upon final completion any undisbursed funds including earned income may be withdrawn by the vendor from the development fund.

(6) A vendor selling turf top crypts in an area that is not developed or ready for interments shall deposit 130% of the cost of each crypt sold into a special fund, under a written agreement, in a bank or trust company located in this state. The fund shall be designated as a cemetery development fund, naming the new area. A copy of the written agreement shall be forwarded to the commission. Withdrawals from the development fund can be made only to pay current development costs as the development progresses to the final completion. Upon final completion any undisbursed funds including earned income may be withdrawn by the vendor from the development fund. Vendors contemplating selling in an undeveloped cemetery area or undeveloped turf top crypt area shall submit to the commission the following information before sales are made:

(a) Estimated cost of the development, including features and all embellishments.

(b) Plat maps required by subrule (2) of R 456.123.

(c) A copy of sales brochures, promotional pamphlets and artist's rendering of the proposed developed area if such items are used in the sales programs.

(d) A copy of all proposed sales advertising or radio and television scripts used in these sales promotions.

(7) A developed cemetery area means an area containing grass or sod and landscaping of sufficient quality to present a good appearance, and section markers of durable material used to identify the location of interment rights in that area including any and all cemetery features promised the purchaser for that area. Deposits will be made to the development fund until an inspection of the area so developed is made by the commission. The inspection shall be made within 30 days after receipt of written request from the vendor. If the inspection is not made within 30 days, the vendor may terminate deposits to the development fund as required under subrule (5) and may withdraw any funds remaining in development fund. The commission shall approve or disapprove the area as ready for interment and the commission's failure to do so in writing within 30 days constitutes approval of the area.

History: 1954 ACS 63, p. 26, Eff. Aug. 14, 1970; 1954 ACS 79, p. 112, Eff. Apr. 11, 1974.

R 456.138 Permitting violations of R 456.136.

Rule 38. An organization including its officers which knowingly permits a person under employment, contract or sales control, either directly or indirectly, to violate any provision of R 456.136 is also guilty of the same violation.

History: 1954 ACS 63, p. 27, Eff. Aug. 14, 1970; 1954 ACS 79, p. 113, Eff. Apr. 11, 1974.

R 456.139 New cemeteries.

Rule 39. (1) In determining community need for a proposed new cemetery as required by section 13 of the act the commission shall use a 25-mile radius as a potential sales and service area in making a survey to determine the number of cemeteries, type of ownership and burial rights available to the public in that area.

(2) The commission shall require the applicant for a new proposed cemetery to have title in fee to at least 40 acres before final approval is granted.

(3) A newly established cemetery shall not sell or assign burial rights in any areas of the cemetery until at least 2 acres are developed, as required by subrule (7) of R 456.137 which development shall be located at the front or near the main entrance of the proposed cemetery.

History: 1954 ACS 79, p. 113, Eff. Apr. 11, 1974.

PART 4. CASKETS, EARTH BURIALS, ENTOMBMENTS, AND CREMATIONS

R 456.141 Temporary storage facilities.

Rule 41. When temporary storage is required, a cemetery shall provide a facility which affords reasonable protection from vandalism or desecration and complies with the local board of health requirements.

History: 1954 ACS 63, p. 27, Eff. Aug. 14, 1970.

R 456.142 Committal services.

Rule 42. (1) A cemetery shall provide that a committal service is handled in a dignified and respectful manner.

(2) A cemetery shall take all reasonable precautions to assure the safety of those attending a committal service.

History: 1954 ACS 63, p. 27, Eff. Aug. 14, 1970.

R 456.143 Caskets.

Rule 43. (1) A cemetery at all times shall handle caskets with dignity, respect and utmost care.

(2) If committal services are conducted in a cemetery at a place other than the place of final interment or entombment or the remains are to be held in temporary storage in the cemetery pending interment or entombment at a later time, a cemetery shall identify the casket by attaching to it a permanent type tag or label of plastic or other durable material at the time of the services with the name of the deceased, grave site or crypt location and other data as may be required for positive identification.

(3) Before an interment or entombment is made, a cemetery shall have a responsible representative verify the correctness of the grave site or crypt location and attest the verification on the permanent record of the interment or entombment.

(4) A cemetery shall not permit a casket to be opened within the cemetery grounds without permission of the next of kin except in case of cremation.

History: 1954 ACS 63, p. 27, Eff. Aug. 14, 1970.

R 456.144 Earth burials.

Rule 44. (1) A cemetery shall not make an interment unless a legally executed burial transit permit is received.

(2) A cemetery shall make an interment immediately following the committal service or receipt of remains if it does not interfere with the dignity of any other committal service. If weather conditions prevent an immediate interment, the cemetery shall obtain written authorization for delayed interment signed by the next of kin or authorized agent. The authorization shall specify the approximate hour and date of interment and place of temporary storage.

(3) Immediately following the committal service and interment, a cemetery shall fill a grave and as soon as settling is reasonably complete and weather conditions permit, shall sod, seed or adequately cover a grave with limestone chips, gravel or other suitable material.

(4) A cemetery shall cover a grave in which an unsealed outside container is used with at least 16 inches of earth over the outside container.

(5) A cemetery shall remove all equipment used in the committal service and in the interment immediately following the service and interment.

History: 1954 ACS 63, p. 27, Eff. Aug. 14, 1970.

R 456.145 Entombments.

Rule 45. (1) A cemetery shall not make an entombment unless a legally executed burial transit permit is received.

(2) A cemetery shall entomb the remains and permanently seal the crypt immediately following the committal services or receipt of the remains.

(3) If circumstances do not permit immediate entombment following a committal service or receipt of remains, the cemetery shall obtain written authorization for delayed entombment signed by the next of kin or authorized agent. The authorization shall specify the approximate hour and date of entombment and place of temporary storage of the remains.

History: 1954 ACS 63, p. 27, Eff. Aug. 14, 1970.

R 456.146 Cremations.

Rule 46. (1) A crematory shall not cremate remains unless it has:

(a) A legally executed burial transit permit authorizing the cremation.

(b) A written authorization from a person representing himself as being legally qualified to make the authorization and who in the opinion of the crematory authority is legally qualified to make the authorization and is 1 of the following:

(i) The surviving spouse.

(ii) A surviving child or parent.

(iii) A next of kin.

(iv) A person who has acquired the right to control disposition of the remains.

(2) A crematory shall cremate remains as soon as reasonably possible, but if cremation does not take place within a reasonable time after receipt of the remains, the crematory shall obtain written authorization for delayed cremation signed by the next of kin or authorized agent. The authorization shall specify the approximate hour and date of cremation and place of temporary storage.

(3) A crematory shall place cremated remains in a container properly marked as to the name of the deceased and date of cremation.

(4) A crematory at all times shall handle cremated remains with dignity, respect and utmost care.

History: 1954 ACS 63, p. 28, Eff. Aug. 14, 1970.

PART 5. GROUNDS, FACILITIES, AND BUILDINGS

R 456.151 Grounds.

Rule 51. (1) A cemetery grounds shall be maintained with a general cemetery care program at required intervals to assure an acceptable appearance.

(2) A cemetery grounds including maintenance service areas shall be kept free of trash and debris. Trash receptacles shall be provided.

(3) A pond, lake, waterway, fountain and other body of water on a cemetery shall be kept reasonably free of trash and odors.

(4) A cemetery's trees and shrubs shall be trimmed at regular intervals.

(5) An undeveloped cemetery property shall be screened by fencing or shrubs, or it shall be mowed or maintained in an attractive manner.

(6) A cemetery road shall be kept accessible and in reasonably good repair as the normal operation of the cemetery dictates.

(7) A grave which has settled shall be refilled as soon as reasonably possible.

(8) A grave marker or a monument shall be reset and trimmed as necessary.

(9) A dangerous condition in the cemetery shall be corrected immediately.

History: 1954 ACS 63, p. 28, Eff. Aug. 14, 1970.

R 456.152 Facilities.

Rule 52. (1) The name of the cemetery shall appear near the entrance on a permanent type sign, at least 3 square feet in size, and if the office is not located on the grounds, the location of the office shall be noted on the sign.

(2) A cemetery fence shall be kept in good repair.

(3) Identifying features or section markers of durable material shall be placed permanently in the ground to identify the named or numbered sections of the cemetery which shall coincide with a cemetery map.

(4) A grave shall be located by a permanent lot survey marker which shall be located in the ground within a reasonable distance of the grave and coinciding with a cemetery section on the map. Each grave in a single grave section shall be located by a permanent numbered grave marker.

(5) A lot survey marker shall be kept reasonably visible under normal weather conditions.

(6) A cemetery's grave decorations rules shall be posted or made available in printed form.

(7) Maintenance equipment not in use shall be stored in the maintenance service areas.

History: 1954 ACS 63, p. 28, Eff. Aug. 14, 1970; 1954 ACS 79, p. 113, Eff. Apr. 11, 1974.

R 456.153 Buildings.

Rule 53. A building, including a mausoleum, shall be kept in good repair.

History: 1954 ACS 63, p. 28, Eff. Aug. 14, 1970.

R 456.154 Rest rooms and public accommodations.

Rule 54. A cemetery shall maintain reasonable and acceptable rest rooms and public accommodations deemed necessary by the commission after inspection is made by a field investigator and a report submitted.

History: 1954 ACS 63, p. 28, Eff. Aug. 14, 1970.

PART 6. MERCHANDISE TRUSTS

R 456.161 Merchandise trust agreements.

Rule 61. (1) A vendor shall submit 2 copies of a written merchandise trust agreement to the commission for approval. In addition to other requirements, a merchandise trust agreement shall provide all of the following:

(a) That deposits made to the merchandise trust account by a vendor shall be invested by the trustee only in accordance with Act No. 177 of the Public Acts of 1937, as amended, being §§555.201 to 555.203 of the Michigan Compiled Laws, except that funds shall not be invested in life insurance policies on any person or invested in a company owned or operated by a cemetery or its authorized agent or in loans to any person directly connected with or employed by a cemetery or its agents.

(b) That deposits to the merchandise trust account shall be certified by an officer of the vendor or agents authorized by a vendor to act in its behalf.

(c) That withdrawals from the merchandise trust account shall be made on the presentation to the trustee of an affidavit certified by the vendor that the cemetery merchandise or services have been installed, delivered, performed or terminated. Withdrawals shall not be made in excess of the allocated deposit and vendor shall so certify. The trustee shall retain the affidavit as a permanent part of the trust records and the vendor shall keep a copy.

(d) That at least an annual accounting period shall be established and the trustee shall furnish to the vendor an accounting which shall contain the following information:

(i) A separate listing of all assets held by cost and fair market value with totals.

(ii) Total deposits made to the trust account during the reporting period and total to date.

(iii) Total withdrawals from the merchandise trust account during the reporting period and total to date.

(iv) A certification by the vendor to the trustee that the total assets of the merchandise trust account are at least equal to the total obligations as determined by the current deposits as required by subrule (1) of R 456.162.

(v) Net income including ordinary income and capital gains paid to vendor during the accounting period.

(e) That at any time the commission makes a determination that the merchandise trust account is underfunded to meet the total current obligations, the

commission may order the vendor to deposit all future trust income, as of the date of the order, to the principal of the merchandise trust account to be allocated in accordance with subdivision (b) until the total assets of the corpus of the merchandise trust account equals the total obligations as determined by the current deposits as required by subrule (1) of R 456.162.

(f) That the purpose of the merchandise trust account is to protect the purchaser and the commission may inspect the records of the vendor and trustee relating thereto.

(2) Assets of the merchandise trust funds established by a vendor or its authorized agents shall be deposited with a bank or trust company located in this state.

History: 1954 ACS 79, p. 113, Eff. Apr. 11, 1974.

R 456.162 Required deposits to merchandise trust account.

Rule 62. (1) When cemetery merchandise or services are sold to a purchaser, a vendor or an agent authorized by a vendor or acting on its behalf under an agreement or sales contract to sell cemetery merchandise or services shall deposit, on or before the last day of the month following the month of collection, the following amounts to a merchandise trust account and maintain such deposits until such time as the cemetery merchandise or services are installed, delivered, performed or terminated:

(a) One hundred thirty percent of the cost of each grave memorial that the vendor is obligated to furnish and install. A vendor representing more than 1 memorial manufacturer may take the average cost of all manufacturers the vendor represents in determining the 130% of cost if all manufacturers meet the specifications as contained in the purchase or sales agreement. At all times the total amount required to be on deposit in the merchandise trust account for obligations concerning grave memorials shall be not less than the current cost of all such obligations.

(b) The greater amount of either 70% of the gross proceeds received from the sale of each burial vault or 130% of the cost of each burial vault that the vendor is obligated to furnish and install. At all times the total amount required to be on deposit in the merchandise trust account for obligations concerning burial vaults shall be not less than 130% of the current costs of all such obligations.

(c) The greater amount of either 100% of the gross proceeds received from the sale of cremations, grave openings and closings or $100.00 for each cremation, grave opening and closing that the vendor is obligated to furnish.

(2) A vendor may withdraw from the merchandise trust account only after the cemetery merchandise or services are delivered, stored, installed, performed or terminated. The vendor may withdraw from the merchandise trust account only the current cost of grave memorials which are ordered by him and stored by the vendor or cast and stored by a memorial company. He may withdraw the balance only when the grave memorial is installed. A vendor may withdraw from the merchandise trust account only the current cost of a burial vault if he orders and stores the vault. He may withdraw the balance only when the vault is installed.

(3) A vendor storing grave memorials or burial vaults until time of need shall insure the memorials and vaults against fire and theft in an amount in excess of their total replacement cost. A current certificate of insurance coverage shall be filed with the commission annually.

(4) A vendor shall make deposits to the merchandise trust account as required by the act and when he does any of the following:

(a) Makes a pre-need cash sale.

(b) Sells the sale contract to a bank or lending institution.

(c) Receives prorated payments direct from a purchaser, generally referred to as a house account, unless the vendor has an approved merchandise escrow account as provided in R 456.163. The deposit required on a house account payment shall be as provided in R 456.163.

History: 1954 ACS 79, p. 114, Eff. Apr. 11, 1974.

R 456.163 Merchandise escrow account.

Rule 63. (1) A vendor may establish a merchandise escrow account in a bank or trust company located in this state under a written trust agreement approved by the commission into which he shall deposit payments on house accounts.

(2) The deposit required on a house account payment received from the sale of a grave memorial shall be a percentage of each payment made by a purchaser computed by dividing the sale price of the grave memorial into 130% of the cost of the memorial. Sales tax, finance or carrying charges and memorial maintenance trust deposits are not considered a part of the sale price in determining the percentage.

(3) The deposit required on a house account payment received from the sale of a burial vault is the greater of either 70% of each payment made by a purchaser or 130% of the cost of the burial vault. The deposit shall be computed as provided in subrule (2) for grave memorials.

(4) A vendor may make payments to a merchandise escrow account until the purchaser makes payment in full at which time the vendor shall transfer the deposit to the merchandise trust account.

(5) A vendor may withdraw from the merchandise escrow account only after the cemetery merchandise or services are delivered, stored, installed, performed or terminated.

(6) Merchandise escrow account deposits and withdrawals shall be certified to by the vendor as to their regularity and accuracy.

History: 1954 ACS 79, p. 115, Eff. Apr. 11, 1974.

R 456.164 Pre-existing merchandise trust accounts.

Rule 64. (1) A vendor having a merchandise trust, escrow or other depository account pre-dating the effective date of this rule, shall take appropriate measures to demonstrate annually to the satisfaction of the commission the assurance of fiduciary responsibility in the maintenance of the account and the financial integrity of the account to meet the current cost of the merchandise for which deposits were made to the pre-existing merchandise trust. If the total amount in a pre-existing account is inadequate to meet current obligations, the vendor shall present to the commission a satisfactory plan of good faith affirmative action to restore the deficit. R 456.162 does not apply to any contractual obligations entered into prior to the effective date of this rule except for withdrawal requirement as stated in subrule (2).

(2) A vendor continuing a pre-existing merchandise trust, escrow or other depository account shall furnish the commission an annual accounting on forms acceptable to the commission which shall contain the information required by R 456.125 and a certification that the total deposits are adequate to meet the total current cost of the merchandise for which deposits were made to the pre-existing merchandise trust, escrow or other depository account.

(3) Instead of complying with subrules (1) and (2) a vendor having a pre-existing merchandise trust, escrow or other depository account may close the account and deposit its assets in a merchandise trust under R 456.161 subject to all

the terms and conditions of the trust except that the vendor shall not be required to deposit an amount in excess of that necessary to meet current cost of total contractual obligations. If the amount deposited is inadequate to meet current obligations, the vendor shall present to the commission a satisfactory plan of good faith affirmative action to restore the deficit. The election in this section shall be made in writing with a copy to the commission.

History: 1954 ACS 79, p. 115, Eff. Apr. 11, 1974.

R 456.165 Record keeping, inspection, audit, and hearings.

Rule 65. A vendor shall maintain a monthly accounting record which indicates separately all cash proceeds received from the sale of interment rights, burial vaults, grave memorials or cemetery services. The vendor shall also maintain a monthly accounting record setting forth in detail all deposits to the merchandise trust account. This record shall include:

(a) Name and contract number of the purchaser.

(b) A description of the cemetery merchandise or services purchased.

(c) Amount to be credited to the purchaser's account.

(2) A vendor shall also maintain a monthly accounting record setting forth in detail all withdrawals from the merchandise trust account. This record shall include:

(a) Name and contract number of the purchaser.

(b) A description of the cemetery merchandise or services purchased.

(c) Amount withdrawn.

(d) Whether the cemetery merchandise or services were installed, delivered, performed or terminated.

(3) The records shall be available for inspection or audit at any time during regular business hours by the commission or its authorized agents. The records shall be maintained within the state either by the cemetery or in the office of its authorized agent.

(4) The commission may order a hearing on the current status of the merchandise trust account if it determines that one of the following has occurred:

(a) The trust is underfunded to meet current obligations.

(b) Required deposits were not made.

History: 1954 ACS 79, p. 116, Eff. Apr. 11, 1974.

R 456.166 Required reporting; financial statement.

Rule 66. (1) A vendor shall submit to the commission, 60 days after the accounting date established as required by R 456.161, on forms provided by the commission, all information deemed necessary by the commission to assure that the merchandise trust account is adequate to provide all of the cemetery merchandise and services the vendor is obligated to provide. A vendor shall submit a current financial statement when requested by the commission as provided in R 456.126.

History: 1954 ACS 79, p. 116, Eff. Apr. 11, 1974.

R 456.167 Sales contracts or agreements.

Rule 67. (1) Purchase agreements or sales contracts made with a purchaser of grave memorials shall contain at least the following descriptive information:

(a) Size of memorial.

(b) Material and specifications.

(c) Number of vases.

(d) Type of base.

(2) Purchase agreements or sales contracts made with a purchaser of burial vaults shall contain at least the following descriptive information:

(a) Size.

(b) Type (concrete, steel, plastic, etc.).

(c) Approximate weight.

(d) Approximate load strength specifications.

(3) The descriptive information may be contained in a separate certification attached to the sales contract or agreement.

History: 1954 ACS 79, p. 116, Eff. Apr. 11, 1974.

PART 9. HEARINGS

R 456.191 Statements of facts and appearances.

Rule 91. (1) A party requesting a hearing shall submit in writing a fair and accurate statement of the facts to the commission and all interested parties.

(2) An appearance at a hearing shall be made in person, by a duly authorized representative, or by counsel.

History: 1954 ACS 63, p. 29, Eff. Aug. 14, 1970.

R 456.192 Defaults.

Rule 92. If a person who has been properly served with a notice of hearing fails to appear at a noticed hearing, the commission or designated hearing officer may proceed with a hearing of the case brought before them and, on evidence presented, may make a decision.

History: 1954 ACS 63, p. 29, Eff. Aug. 14, 1970.

R 456.193 Answers, arguments, and briefs.

Rule 93. A person who has been served with a notice of hearing may file a written answer before the date of the hearing, and at the hearing may appear and present an oral statement on the charges contained in the notice of hearing. If a written argument or brief is presented, a copy shall be served on the secretary of the commission and all interested parties, at least 5 days before the date for the hearing.

History: 1954 ACS 63, p. 29, Eff. Aug. 14, 1970.

R 456.194 Adjournments and continuances.

Rule 94. A hearing shall not be adjourned or continued except on an order of the commission. A motion or request for an adjournment or a continuance shall be in writing, and shall state concisely the reasons why the adjournment or continuance is necessary. The motion or request shall not be considered unless it is filed with the secretary of the commission at least 5 days before the date assigned for the hearing, except on a showing that, for reasons not within the control of the person or party making the motion or request, the motion or request could not be filed within the time limited.

History: 1954 ACS 63, p. 29, Eff. Aug. 14, 1970.

R 456.195 Stipulations.

Rule 95. The parties to a hearing, by a stipulation in writing filed with the secretary of the commission, may agree on the facts or any portion of the facts involved in the controversy, which stipulation shall be regarded and used as evidence in the hearing. Parties are requested to agree on the facts when practicable.

R 456.196 Depositions.

Rule 96. A deposition shall be taken only on written authority of the commission if it is proved in writing to the commission that it is impractical or impossible to otherwise obtain the evidence. If a deposition is permitted, it shall be taken according to the rules for taking a deposition in a civil action in this state.

History: 1954 ACS 63, p. 29, Eff. Aug. 14, 1970.

PUBLIC SERVICE COMMISSION

INFORMAL REPARATION DOCKET CASES BEFORE COMMISSION

(By authority of Act No. 300 of the Public Acts of 1909, being §462.2 et seq. of the Michigan Compiled Laws)

R 460.1 Application for reparation.

Rule 1. The commission will entertain claims for applications for reparation, if filed with it within 2 years after the delivery of any shipment of freight at destination, under an informal docket when such applications are presented to it by the carrier, or carriers, which participated in the transportation of the property in which it is admitted that the rate charged was irregular or exorbitant, and supports such admission by a statement of the facts and uses as a basis for adjustment, a tariff which was subsequently published naming a rate lawfully applicable via the route over which the shipments moved. (See R 460.2.)

History: 1944 AC, p. 519; 1954 AC, p. 5601.

R 460.2 Informal reparation.

Rule 2. Informal reparation will be allowed in the following cases:

(a) Reparation on account of error in publishing rate.

(b) Reparation on account of the reestablishing of a rate formerly in effect, which rate was unintentionally omitted in a reissue of a tariff and the cancellation of which was overlooked when shipments moved.

(c) Reparation on account of rate or charge as assessed (which rate was lawful at time shipment moved), which rate is admitted by the carrier or carriers to be irregular or exorbitant, and should not have exceeded the rate subsequently established via the same route over which the shipments involved moved. (NOTE: Reparation will be allowed on this account only when the subsequently published rate was established to meet new traffic conditions, or circumstances, which the rate as assessed did not take into account or contemplate. This should not be construed to include cases in which a rate is reduced simply to meet competition of another carrier. Any regulation or rule which is used in connection with a rate or charge may be used as a basis for refund in informal reparation cases when such refund is sought on account of conditions or circumstances as outlined in subdivisions (a), (b), and (c) of this rule.)

History: 1944 AC, p. 519; 1954 AC, p. 5601.

R 460.3 Application for informal reparation; form.

Rule 3. All applications for informal reparation must conform to the commission's standard form in such cases.

History: 1944 AC, p. 519; 1954 AC, p. 5601.

R 460.4 Extension of principle upon which informal reparation order based.

Rule 4. When an informal reparation order has been made by the commission, the principle upon which it is based shall be extended to all like shipments, but no

refunds shall be made upon such like shipments except upon specific authority from the commission therefor.

History: 1944 AC, p. 519; 1954 AC, p. 5601.

R 460.5 Reparation award; assignment.

Rule 5. In awarding reparation, the commission will recognize an assignment by a consignor to a consignee or by a consignee to a consignor.

History: 1944 AC, p. 519; 1954 AC, p. 5601.

R 460.6 Order for refund.

Rule 6. The commission's order for refund on account of a reduced rate or changed tariff regulation will require the maintenance of such rates or regulation for at least 1 year as a maximum from the date on which the rates or rules sought to be applied became effective except that when refund is made, on account of error in publishing a rate or rule, the commission's order will not carry the 1-year clause. (NOTE: Attention is called to the fact that where carriers and shippers cannot agree in claims involving informal reparation, it is necessary under the statute in case the aggrieved person desires to submit the claim to the commission for adjustment, that the complaint be filed with this commission within 2 years after the delivery of the freight at destination.)

History: 1944 AC, p. 519; 1954 AC, p. 5601.

R 460.7 Applications; forms.

Rule 7. Applications on the commission's informal docket shall be made in the following form and all the requirements of this form must be complied with in every case:

INFORMAL DOCKET NO.

_____ Complainant
vs.
_____
_____ Defendant

Complainant's No. _____

Give reference to previous cases which involved the same rate situation _____

_____.

(If combination rate legally applicable, show each factor thereof.)

Rate legally applicable _____ per { ton / or _____ / cwt. } carload min. _____ for _____ ft. car

Tariff authority _____ M.P.S.C. No. _____, page ____, effective _____

Rate sought to be applied _____ per { ton / or _____ / cwt. } carload min. wt. _____ for _____ ft. car.

Tariff authority _____ M.P.S.C. No. _____, page ____, effective _____

_____

Aggregate freight charges at claimed rate would be $_____.

(Insert here such explanation as the case may require. If shipment was reconsigned, state date of reconsigning order, point of reconsignment, and tariff authority for reconsignment. If shipment was misrouted by carrier, state routing instructions given by consignor, and the proper route in detail; with specific admission that misrouting was caused by carrier's agent.)_____

_____

_____

_____

_____

_____

It is admitted that the rates or rules legally applicable at the time and over the route shipment moved were, under all circumstances and conditions then existing, irregular and exorbitant.

It is agreed that the order of the commission authorizing refund herein may require that the published tariff rates and rules upon which adjustment is based shall be maintained (as maximum) for a period of not less than one year from the date on which the rates or rules sought to be applied became effective.

The undersigned who makes this application in the name of his company certifies that he has familiarized himself with all the facts and figures upon which this application for reparation is made and knows the same to be correct.

Respectfully submitted,

I, _____, have carefully read the foregoing application and certify that the facts as therein set forth have been verified by a check against the accounts affected as audited under my direction, and I now certify that the records of this company show:

1. That the aggregate weight was _____ pounds.
2. That the aggregate freight charge actually collected and retained was $_____.
3. That the amount of the refund to which the above-named complainant {is / are} entitled, on the basis of the reduced rate, is $_____ and that the present weight is $_____ per {ton / cwt.}
4. The attached statement of billing, exhibit 1, corresponds to the checked billing of the auditing department.

_____
(Personal signature)

_____
(Comptroller or general auditor)

This certificate must be personally signed by the comptroller or the accounting officer in charge of freight revenue accounts, and not by a subordinate.

The foregoing certificate by the accounting officer of the applicant carrier must be used in every case and must show the aggregate charges on the shipments. But if the charges, or part of the charges were collected by another carrier or carriers, the following certificates will also be used, and in that event the above certificate, so far as the charges collected are concerned, will be understood to be based on and qualified by the assumed correctness of the following certificates.

If the applicant carrier did not collect the freight charges, the carrier which made the collection will use the following supplemental certificate; and if a third carrier collected part of the charges, the special certificate will also be used, and the supplemental certificate will be understood to be based on and qualified by the assumed correctness of the special certificate.

SUPPLEMENTAL CERTIFICATE

I, _____, the _____ of the _____ Rail _____ company, have carefully read the foregoing application and now certify that the records and accounts of this company, as audited under my direction, show:

1. That the aggregate weight was _____ pounds.
2. That the aggregate freight charge, actually collected and retained, was $ _____.
3. That the attached statement of billing, exhibit 1, corresponds to the checked billing of the auditing department of this company.

_____
(Comptroller or general auditor)

This certificate must be personally signed by the comptroller or the accounting officer in charge of freight revenue accounts, not by a subordinate.

When a carrier, other than the applicant and not the carrier using the supplemental certificate, has collected any part of the charges, the following special certificate will also be used:

SPECIAL CERTIFICATE

I, _____, the _____ of the _____.

_____
(Comptroller or general auditor)

This certificate must be personally signed by the comptroller or the accounting officer in charge of freight revenue accounts, not by a subordinate.

COMPLAINANT'S CERTIFICATE

I hereby certify that charges of $_____ on the shipments involved herein were paid and borne as such by _____ Co., and by no other.

By _____ Its _____.

Subscribed and sworn to before me this _____ day of _____, A.D. 19__.

(Seal) Notary Public _____

Instructions—Read carefully

1. Under section 10G of Act No. 300, Public Acts of 1909, as amended, and as interpreted by the commission, all claims for reparation are absolutely barred if not filed within 2 years from the date property was delivered.
2. This application should be accompanied by the original paid freight bills, which will be returned by the commission after the claim has been acted upon.
3. The commission will authorize payment only to the party who paid and bore the charges and not to an assignee. Where the application is for authority to refund to the consignee when the paper shows that the charges were paid by the consignor, or vice versa, the commission requires that a stipulation be filed with the application signed by the consignor, by the consignee, and by an executive or general officer of the carrier in substantially the following form:

Title. (Here insert names of complainant and defendants as in application to which stipulation relates.)

The undersigned _____, the consignor of the following described shipments (here insert date, car number, commodity, and points of origin and destination) and _____, the consignee thereof, and the undersigned _____ _____ Rail _____ Company, stipulate and agree that any order entered in the above-entitled informal complaint for a refund on account of the excessive freight charges collected on said shipment shall be in favor of (here insert name of consignor or consignee, as case may be).

_____ (Signature of consignor.) _____

PRACTICE AND PROCEDURE BEFORE COMMISSION

(By authority conferred on the public service commission by Act No. 3 of the Public Acts of 1939, as amended, and Act No. 254 of the Public Acts of 1933, as amended, being §§460.1 to 460.6 and 475.1 to 479.20 of the Michigan Compiled Laws)

PART 1. DEFINITIONS AND GENERAL PROVISIONS

R 460.11 Definitions.

Rule 1. As used in these rules:

(a) "Applicant" or "petitioner" means a party seeking approval, authority, a certificate of authority or of public convenience and necessity or other certificate, license, permit or exemption or other relief.

(b) "Complainant" means a party who files a complaint.

(c) "Party" to a proceeding before the commission means a person by or against whom a proceeding is commenced, or a person admitted by the commission to intervene in a proceeding pursuant to these rules.

(d) "Person" means an individual, partnership, corporation, association, body politic, or state agency.

(e) "Protestant" means a motor carrier rendering service or applying for authority to render service, likely to compete with the proposed motor carrier service of a motor carrier applicant, if the former carrier opposes the application of the latter carrier.

(f) "Respondent" means a party who is complained against, a party investigated or ordered to show cause, or a utility rendering service of the same sort within a municipality proposed to be served by any other utility.

History: 1954 ACS 54, p. 57, Eff. May 15, 1968.
Editor's note: Former R 460.11—R 460.36, deriving from 1954 AC, pp. 5605-5611, were rescinded by 1954 ACS 54, p. 67.

R 460.13 Applicability and construction of rules.

Rule 3. (1) These rules govern practice and procedure in all matters before the public service commission.

(2) These rules shall be liberally construed to secure just, economical, and expeditious determination of the issues presented.

History: 1954 ACS 54, p. 57, Eff. May 15, 1968.

R 460.14 Information, documents, and communications.

Rule 4. (1) Information as to established practice or procedure under these rules will be furnished to any person upon application to the secretary of the commission.

(2) Applications and other documents shall be in writing and shall conform to all requirements of these rules. The secretary of the commission, upon reasonable request, will advise as to the form of petition, answer or other papers necessary to be filed in any case and furnish such information from the files of the commission as will aid in a full presentation of material facts.

(3) Documents filed with the commission shall be printed, typewritten or otherwise mechanically reproduced, shall be upon paper 8½ inches by 11 inches in size, or folded to such size, or on such forms as may be hereafter supplied by the commission.

(4) Communications and documents shall be addressed to the Michigan Public Service Commission, Lewis Cass Building, Lansing, Michigan 48913. Communications and documents so directed are officially received.

History: 1954 ACS 54, p. 57, Eff. May 15, 1968.

R 460.15 Service of papers.

Rule 5. Notices, petitions, answers and other papers or copies thereof required to be served in a proceeding may be served either personally or by mail; and when a person has appeared by attorney, service upon such attorney is deemed proper service. When a paper is served, the person serving the paper shall file with the commission proof of service, or admission of service by the person served or his attorney, annexed to a copy of the paper served, so that the commission may know that the paper in question has been properly served and the date of the service. When copies of papers are sent to the commission and served by the commission, the commission will attach to the original of the paper, an affidavit of service signed by the person serving the same. Service on municipalities shall be similarly made on supervisors of townships and on clerks of other municipalities.

History: 1954 ACS 54, p. 58, Eff. May 15, 1968.

R 460.16 Proceedings; location; parties.

Rule 6. (1) Sessions of the commission will be held in Lansing or at any other place as the commission may direct at such days and hours as the commission may designate.

(2) Each party to a proceeding shall be known as a complainant, respondent, protestant, intervenor, applicant or petitioner according to the nature of the proceeding and the relationship of such party thereto.

History: 1954 ACS 54, p. 58, Eff. May 15, 1968.

R 460.17 Proceedings; participation by commission staff.

Rule 7. The commission staff may appear in any proceeding before the commission and through its witnesses present testimony as to the results of its accounting, engineering and economic investigations, field studies, inspections, other technical investigations and studies. The commission staff in any proceeding may file briefs, make statements of positions, or otherwise upon the record make recommendations, as it believes proper and lawful, based upon the evidence presented.

History: 1954 ACS 54, p. 58, Eff. May 15, 1968.

R 460.18 Decisions and transcripts.

Rule 8. A certified copy of the decision in any proceeding will be furnished free of charge to each party of record. Copies of transcripts and additional copies of decisions shall be furnished at such rates as are in accordance with current rules and regulations and statutes.

History: 1954 ACS 54, p. 58, Eff. May 15, 1968.

R 460.19 Computation of time.

Rule 9. In computing a period of time prescribed or allowed by rules of the commission in which an act is to be performed after a specific date, act or event, the day of the specific date, act or event is not included and the last day of the period is included, except when it is a Saturday, Sunday or legal holiday, the period runs until the end of the next day which is neither a Saturday, Sunday or legal holiday.

History: 1954 ACS 54, p. 58, Eff. May 15, 1968.

PART 2. INTERVENTION

R 460.21 Petitions.

Rule 11. (1) A person not defined herein as a complainant, respondent, protestant, applicant or petitioner, and who claims an interest in a pending

proceeding, may petition in the proceeding for leave to intervene. An original and 6 copies of a petition to intervene shall be filed with the commission at least 5 days prior to the date set for the hearing, and the petition when filed shall show service of copies thereof upon all parties to the proceeding. A petition to intervene which is not timely filed with the commission shall not be granted by the commission unless the denial of the petition is shown to be detrimental to the public interest or to be likely to result in a miscarriage of justice, and unless all parties, excluding intervenors, have an adequate opportunity to file answers as hereinafter set forth and to be heard with respect thereto. A motor carrier shall comply with the provisions of this rule except as provided in R 460.42.

(2) A petition to intervene shall set out clearly and concisely the facts supporting the petitioner's alleged right or interest, the grounds of the proposed intervention, and the position of the petitioner in the proceeding, so as fully and completely to advise the parties and the commission of the specific issues of fact or law to be raised or controverted.

History: 1954 ACS 54, p. 58, Eff. May 15, 1968.

R 460.22 Answers.

Rule 12. A party, except an intervenor, to a proceeding and the commission staff may file an answer to a timely petition to intervene on or before the date, if any, set for hearing upon the petition or on and before the date set for hearing upon the merits, whichever is earlier. An adequate opportunity to file an answer to a petition to intervene, which is not timely filed, shall be afforded to any such party and the commission staff.

History: 1954 ACS 54, p. 59, Eff. May 15, 1968.

R 460.23 Action by commission.

Rule 13. As soon as practicable after expiration of the time for filing an answer to a petition for intervention, the commission will grant or deny the petition in whole or in part, or if found to be appropriate may authorize limited participation. A person granted leave to intervene in whole or in part is an intervenor and shall be a party to the proceeding. The granting of a petition to intervene in whole or in part is not recognition by the commission that the intervenor may have rights to appeal from any order of the commission entered in that proceeding, except as otherwise provided by law.

History: 1954 ACS 54, p. 59, Eff. May 15, 1968.

R 460.26 Participation without petitions for intervention.

Rule 16. (1) A person may appear in a proceeding before the commission in lieu of a formal petition to intervene, if there is full disclosure of the identity of the person whose appearance is to be entered; the interest of such person in the proceeding and the position intended to be taken are fully and fairly stated; and the contentions of such person will be reasonably pertinent to the issues already presented and any right to broaden the issues unduly is disclaimed, as follows:

(a) In a proceeding to fix rates or investigate conditions of service of a carrier or utility subject to the jurisdiction of the commission, appearances by individual customers or ratepayers of such carrier or utility or by the duly authorized governmental representatives thereof.

(b) In a proceeding by a railroad company for authority for abandonment of a station or discontinuance or diminution of quantity or quality of service, appearances by other persons in interest.

(2) An appearance under this rule entitles the person to testify or make a statement of his position but he is not regarded as a party to the proceeding.

History: 1954 ACS 54, p. 59, Eff. May 15, 1968.

R 460.27 Proceedings; appearances.

Rule 17. In a proceeding, other than a motor carrier proceeding, a person entitled to enter an appearance in lieu of filing a formal petition for intervention shall file an original and 6 copies of an appearance with the commission at least 5 days prior to the date of hearing. The appearance shall set out clearly the information required by R 460.26 and when filed shall show service of copies thereof upon the applicant, complainant or respondent. A person who does not file the appearance required by this rule is not entitled to a notice of adjournment.

History: 1954 ACS 54, p. 59, Eff. May 15, 1968.

PART 3. COMPLAINTS

R 460.31 Contents and kinds.

Rule 21. (1) A complaint shall be limited to matters involving alleged unlawful or unreasonable acts, practices or omissions of a utility or carrier. A complaint may be either formal or informal and may be made by a person having good or sufficient reason therefor or by the commission on its own motion.

(2) An informal complaint shall be in writing and signed by complainant, and contain a concise statement of the facts involved and the name and address of the complainant and the party complained against. The commission will attempt to settle problems arising under an informal complaint without formal action when possible.

History: 1954 ACS 54, p. 59, Eff. May 15, 1968.

R 460.32 Formal complaints; copies and contents.

Rule 22. A formal complaint shall be in writing and an original and 6 copies shall be filed with the commission and as many additional copies as there are parties complained against, and shall contain:

(a) The full name and post office address of the complainant.

(b) The full name and post office address of each respondent.

(c) A full, clear and reasonably certain statement of the alleged unlawful or unreasonable acts, practices or omissions concerning which complaint is made, with reference where practicable to the sections of law, order or rules of which a violation is claimed.

(d) The signature of the complainant and the name and post office address of the complainant and his attorney, if any.

(e) Verification by the complainant. A complaint by an unincorporated association may be verified by any officer or director thereof.

History: 1954 ACS 54, p. 59, Eff. May 15, 1968.

R 460.33 Formal complaints; examination; dismissal.

Rule 23. Upon the filing of a formal complaint, the commission shall immediately examine it to ascertain whether it states a prima facie case of an unlawful or unreasonable act, practice or omission of a utility or carrier and conforms to these rules. If the commission believes that the complaint does not state a prima facie case or does not conform to these rules, it shall so notify the complainant or his attorney, and opportunity may be given to amend the complaint within a specified time. If the complaint is not so amended within such time, or such extension thereof as the commission for good cause shown may grant, or if the complaint as amended does not state a prima facie case or conform to these rules, it shall be dismissed.

History: 1954 ACS 54, p. 60, Eff. May 15, 1968.

R 460.34 Formal complaint; service of copies and notices to answer.

Rule 24. If the commission believes that the complaint, either as originally filed or as amended, does state a prima facie case and conforms to these rules, the commission shall serve upon each respondent a notice accompanied by a copy of the complaint requiring that the matter complained of be satisfied, or that the complaint be answered, within 20 days from the date of service thereof or within such further time as the commission may fix upon good cause shown. However, if a motion to dismiss a complaint is served as hereinafter permitted, no answer need be made unless the commission denies the motion or postpones its disposition until a hearing on the merits, and in either event the answer shall be made within 20 days after notice to the respondent of the commission's action.

History: 1954 ACS 54, p. 60, Eff. May 15, 1968.

R 460.35 Formal complaint; respondent's offers of relief.

Rule 25. If a respondent desires to satisfy the complaint, he may submit to the commission within the time allowed for the satisfaction or answer, a statement of the relief which he is willing to offer. On the acceptance of this offer by the complainant and approval of the commission, no further proceeding need be taken. If the offer of satisfaction is refused by the complainant, an answer shall be filed by the respondent within 20 days from the receipt by respondent from the commission of notice of the refusal.

History: 1954 ACS 54, p. 60, Eff. May 15, 1968.

R 460.36 Formal complaints; motions to dismiss and answers.

Rule 26. The defense that the complainant does not have a good or sufficient reason for making a formal complaint, that the complainant is without standing to make the complaint, or that a formal complaint fails to state a prima facie case or otherwise fails to conform to these rules, may be raised by motion to dismiss or answer at the option of the respondent. All other defenses to the complaint shall be raised by answer. An original and 6 copies of the motion to dismiss or answer, accompanied by proof of service of a copy thereof on the complainant shall be filed with the commission. The answer shall contain a specific denial of the material allegations of the complaint controverted by respondent and also a statement of new matters constituting an affirmative defense. If the answering party has no information or belief on the subject sufficient to enable him to answer an allegation of the complaint, he may so state in his answer and place his denial upon that ground.

History: 1954 ACS 54, p. 60, Eff. May 15, 1968.

R 460.37 Burdens of evidence and proofs.

Rule 27. In a complaint proceeding, the complainant has the burden of going forward with presentation of evidence unless otherwise ordered by the commission. The complainant has the burden of proof as to factual allegations relied upon as constituting the basis for the complaint and the respondent has the burden of proof with respect to affirmative defenses.

History: 1954 ACS 54, p. 60, Eff. May 15, 1968.

PART 4. HEARINGS

R 460.41 General provisions.

Rule 31. (1) A public hearing will be granted when required by statute, or when the commission may determine in a specific case.

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j

(2) Except as otherwise provided by statute, written notice of a hearing, at least 10 days before the date set therefor, shall be served upon all parties and such other persons as the commission directs, unless the commission determines a shorter or longer period of notice for good cause. The notice shall state the time, place and nature of the hearing and a short and simple statement of the matters to be considered.

(3) The Michigan public service commission information bulletin shall be issued biweekly and shall be mailed to all intrastate motor carriers and all other persons who subscribe therefor and shall be official notice of motor carrier hearings, orders and other action pertaining to motor carriers.

(4) The commission may appoint, as may be deemed necessary, and except as may be prohibited by law, any member of its staff or a duly authorized examiner to conduct hearings.

(5) A hearing before the commission shall be made a matter of record. It is not necessary that the record be transcribed in a proceeding unless a request for a transcript be made by a party or by the commission. A transcript shall be indexed to show the location of the testimony of each witness and the introduction of all exhibits.

History: 1954 ACS 54, p. 61, Eff. May 15, 1968.

R 460.42 Notices of intent to protest and petitions to intervene in motor carrier hearings.

Rule 32. A motor carrier desiring to participate in a motor carrier hearing as a protestant to an application for the issuance of a certificate or permit to perform transportation for hire, which protesting carrier is then either operating in the territory proposed to be served or applying to the commission for authority to do so, shall file with the commission a written notice of intent to protest signed by the carrier or his attorney, if any. The notice shall be filed not later than 10 days after publication of the official bulletin containing notice of the filing of the application giving rise to such motor carrier hearing. A motor carrier who desires to participate in the proceeding and who does not file a timely notice of intent to protest as required by this rule is not entitled to a notice of adjournment or other action by the commission prior to the hearing. A noncarrier desiring to participate in a motor carrier hearing shall file a formal petition for leave to intervene pursuant to R 460.21.

History: 1954 ACS 54, p. 61, Eff. May 15, 1968.

R 460.43 Prehearing conferences; stipulations.

Rule 33. (1) Prehearing conferences may be held at the discretion of the commission.

(2) The parties to a proceeding before the commission, by stipulation in writing filed with the commission or entered upon the record, may agree upon the facts or any portion thereof involved in the controversy, which stipulation shall be regarded and used as evidence in the determination thereof.

History: 1954 ACS 54, p. 61, Eff. May 15, 1968.

R 460.44 Exhibits.

Rule 34. (1) Direct testimony of a witness under oath may be offered in exhibit form if 7 copies of the exhibit are filed with the commission and a copy served upon all parties to the proceeding or their attorney of record at least 5 days in advance of the session of the hearing at which the exhibit is to be offered. However, the commission staff and all parties in attendance at the session of the

hearing at which the exhibit is offered may agree that any part of such 5 days may be waived. In the absence of such agreement, the commission may permit the offering of such exhibit after having given the commission staff and all parties who may be present a reasonable opportunity (not less than 24 hours) to examine it.

(2) When in the circumstances of a particular proceeding it is deemed necessary or desirable, the commission may direct that testimony to be given upon direct examination shall be reduced to exhibit form and be served and offered in the manner hereinbefore described. A reasonable period of time shall be allowed for the preparation of such an exhibit.

(3) In any case and upon request therefor, a party shall have the right, notwithstanding any provision of this rule, to have any witness on his behalf present his direct testimony orally before the commission. In any case, a witness whose testimony is submitted in exhibit form shall be made personally available for cross-examination upon request by a party or the commission staff. If the witness is not so made available, his testimony shall not be received in evidence.

(4) To the extent that it is received in evidence, testimony in exhibit form shall be fully copied into the record and shall be accorded the same weight and sufficiency as testimony adduced through oral examination. Nothing contained in this rule shall prevent the reading by witnesses of prepared direct testimony in proceedings before the commission.

History: 1954 ACS 54, p. 61, Eff. May 15, 1968.

R 460.45 Depositions, interrogatories, and discoveries.

Rule 35. The commission at its discretion, either upon its own motion or for good cause shown by a party to a proceeding, will issue an order to take a deposition, interrogatory or discovery. The taking and use of such deposition, interrogatory or discovery shall be in the same manner as in the circuit courts of this state or as otherwise provided by law, or by order of the commission on application of a party and good cause shown, except that this rule shall not enlarge, diminish, alter, or modify any of the provisions of R 460.44.

History: 1954 ACS 54, p. 62, Eff. May 15, 1968.

R 460.46 Initial procedures.

Rule 36. (1) A hearing will be opened with a concise statement of its nature and purpose. Appearances then will be entered on the record. Parties and the commission staff may make opening statements or appropriate motions.

(2) Changes in the time and place of the first session of the hearing in any proceeding will be granted only for good cause shown. Notices of changes in time and place, if granted, will be made only to parties to the proceeding and to persons who have appeared or who have petitions to intervene pending before the commission in accordance with these rules. After a hearing has been convened, an adjournment shall be in the discretion of the commission. The commission upon its own motion may change the time and place of any session.

History: 1954 ACS 54, p. 62, Eff. May 15, 1968.

R 460.47 Evidence; general provisions.

Rule 37. (1) The commission shall so far as practicable follow the rules of evidence applicable to proceedings in circuit courts, but may admit and give probative effect to any evidence which possesses probative value commonly accepted by reasonably prudent men in the conduct of their affairs. Rules of

privilege recognized by law shall be given effect. Incompetent, immaterial and unduly repetitious evidence may be excluded.

(2) Evidence, including records and documents in the possession of the commission of which it desires to avail itself, shall be offered and made a part of the record in the proceeding and no other factual information or evidence shall be considered in the determination of the case, except as otherwise provided by law. Documentary evidence may be received in the form of copies or excerpts, or by incorporation by reference.

(3) A party shall have the right of cross-examination and shall have the right to submit rebuttal evidence.

History: 1954 ACS 54, p. 62, Eff. May 15, 1968.

R 460.48 Evidence; judicial notice.

Rule 38. The commission may take notice of judicially cognizable facts and also of general, technical or scientific facts within its specialized knowledge. Parties shall be notified, either before or during the hearing or by reference in preliminary reports or otherwise, of the material so noticed, and they shall be afforded an opportunity to contest the facts so noticed. The commission may utilize its experience, technical competence and specialized knowledge in the evaluation of the evidence presented to it. This shall not be construed as permitting the commission to take notice of any evidence contrary to the provisions of any statute or other law.

History: 1954 ACS 54, p. 62, Eff. May 15, 1968.

R 460.49 Evidence; documents and exhibits.

Rule 39. (1) When evidence to be presented consists of technical matter or figures so numerous as to make oral presentation difficult to follow, it shall be presented in exhibit form, supplemented and explained, but not duplicated by oral testimony.

(2) Exhibits of documentary character shall be typed on 1 side only on sheets not exceeding 8½ inches by 11 inches or multiples thereof with a sufficient margin for binding, preferably 1½ inches to be left blank on the left side of each sheet. If an exhibit is in excess of 8½ inches wide, it shall be folded to be not more than 8½ inches by 11 inches if practicable. It is desirable that an exhibit of 2 or more sheets be stapled together and notation made at the top of the first sheet as to the number of sheets contained in the exhibit. An exhibit shall show at the top the docket number and provide space for the name of the witness and the number and date of the exhibit. All exhibits offered at a hearing shall be numbered in numerical sequence regardless of the identity of the party offering the same. The number of the exhibit shall be prefixed with a letter indicating the identity of the party offering the same. For example, the first exhibit, if submitted by a petitioner or an applicant, shall be marked "A-1"; and the second exhibit, if offered by a protestant, shall be marked "P-2."

(3) A party introducing documentary exhibits shall be prepared to furnish copies to all parties and may be required by the commission to furnish such copies.

(4) Documentary evidence may be submitted subsequent to the closing of the hearing upon stipulation of the parties.

(5) Written or printed documents and maps received in evidence will not be returned to the parties except with approval of the commission.

History: 1954 ACS 54, p. 62, Eff. May 15, 1968.

R 460.50 Arguments and briefs.

Rule 40. (1) Oral argument may be given before the commission at the commission's discretion, but shall be requested before or at the close of the hearing.

(2) Briefs may be filed at the discretion of the commission. A party shall indicate on the record at or before the close of the hearing whether he desires to file briefs. Unless otherwise directed by the commission, original briefs shall be filed within 20 days after the date of mailing the transcript, and reply briefs shall be filed within 10 days after the date by which original briefs are to be filed. An original and 6 copies of briefs shall be filed with the commission and copies shall be served upon all parties on or before the date of filing. Certification of such service shall be filed with the briefs. Briefs which contain a statement of evidence or facts claimed to be established by evidence shall include a reference to the specific portion of the record in which such evidence may be found.

History: 1954 ACS 54, p. 63, Eff. May 15, 1968.

R 460.51 Subpoenas.

Rule 41. (1) At any time in any proceeding, the commission may order a party or witness to attend and testify orally in open hearing. At the request of the commission staff or a party, subpoenas for attendance at a hearing shall be issued by any commissioner, the commission secretary, or acting secretary, upon application in writing to the commission. A subpoena may also command the person to whom it is directed to produce the books, papers, documents or tangible things designated therein which shall be specified in sufficient detail.

(2) The commission, upon motion made at or before the time specified in the subpoena for compliance therewith, may:

(a) Quash or modify a subpoena or subpoena duces tecum if it is unreasonable or oppressive or relates to irrelevant or immaterial evidence, or

(b) Condition denial of the motion, in the case of a subpoena duces tecum, upon the advancement by the person in whose behalf the subpoena is issued, of the reasonable cost of producing the books, papers, documents or tangible things, unless otherwise provided by law.

(3) A subpoena shall be issued under the seal of the commission, shall state the title of the proceeding and shall command each person to whom it is directed to attend and comply with the subpoena at a time and place therein specified.

History: 1954 ACS 54, p. 63, Eff. May 15, 1968.

R 460.52 Subpoenas; service; default in compliance.

Rule 42. A subpoena shall be served in the manner prescribed by law for like subpoenas in civil actions in circuit courts. It may be served at any place within the state. A subpoena duces tecum shall be served at least 4 days before the date specified for compliance. If a person fails to comply with a subpoena served upon him, or fails to attend or refuses to be sworn and testify, the commission may stay further proceedings until the subpoena is obeyed. If a person who so fails to obey the subpoena is a party to the proceeding, or an officer, member or employee of a party, the commission may strike all or any part of any pleading of such party, or refuse to allow such party to support or oppose designated claims and defenses, or delay the proceeding or any part thereof, or take such further action as the commission deems appropriate under the circumstances.

History: 1954 ACS 54, p. 63, Eff. May 15, 1968.

PART 5. REOPENINGS AND REHEARINGS

R 460.61 Reopening of hearings.

Rule 51. An application for reopening a hearing after final submission and prior to decision or order made by the commission shall be by verified petition only; and an original and 6 copies shall be filed with the commission. If the application for reopening is for the purpose of presenting further evidence, the nature and purpose of such evidence shall be briefly stated, the same shall not be merely cumulative, and good cause shall be shown for failure to produce such evidence at the original hearing. The application shall show service thereof on all other parties to the proceeding.

History: 1954 ACS 54, p. 64, Eff. May 15, 1968.

R 460.62 Rehearings.

Rule 52. An application for rehearing after a decision or order of the commission shall be by verified petition only. An original and 6 copies of the application shall be filed with the commission within 30 days from the issuance of the commission decision or order and notice thereof. An application for rehearing based upon claim of error shall specify all findings of fact and conclusions of law claimed to be erroneous with a brief statement of the ground of error. An application for rehearing based upon newly discovered evidence, upon facts and circumstances arising subsequent to the hearing, or upon consequences resulting from compliance with the decision or order, shall set forth fully the matters relied upon. The application shall show service thereof on all other parties to the proceeding.

History: 1954 ACS 54, p. 64, Eff. May 15, 1968.

R 460.63 Answers to reopening and rehearing applications.

Rule 53. Within 20 days following service of an application for rehearing or for reopening a hearing, any party may file with the commission his answer thereto, and in default thereof is deemed to have waived his objection to the granting of such application.

History: 1954 ACS 54, p. 64, Eff. May 15, 1968.

R 460.64 Proceedings within 90 days of dismissals.

Rule 54. When an application, petition or complaint has been noticed for hearing by the commission and has been dismissed by the commission on the ground that the party instituting the proceedings failed to appear or proceed, the commission within 90 days from the date of dismissal, shall refuse to accept for filing an application, petition or complaint relating to the same or substantially the same subject matter by the same party as contained in the proceedings which were dismissed.

History: 1954 ACS 54, p. 64, Eff. May 15, 1968.

PART 6. SPECIFIC UTILITY PROCEEDINGS

R 460.71 Railroad proceedings; highway crossings.

Rule 61. Any person, firm, corporation, body politic or highway authority may file an application with the commission requesting an investigation and hearing for crossing protection in accordance with Act No. 270 of the Public Acts of 1921, as amended, being §§469.1 to 469.13 of the Michigan Compiled Laws. Any person may file an informal or formal complaint as provided in these rules. In any such case whether the matter is instituted by complaint, application or petition, the

commission shall cause an investigation to be made of any crossing of any railroad with any highway, at which investigation interested parties may be represented. Notice of the proposed recommendations of the commission staff shall be forwarded to all parties. If no protest or request for hearing is filed within a period of time to be specified in such notice, the staff shall submit its recommendation to the commission. The commission shall then issue its order in the matter, either adopting or rejecting the staff recommendation in whole or in part as it sees fit. A protest or request for hearing shall specify with particularity the law and facts relied upon. A protest containing general allegations may be rejected.

History: 1954 ACS 54, p. 64, Eff. May 15, 1968.

R 460.72 Railroad proceedings; service alterations.

Rule 62. Whenever a railroad company desires to alter, discontinue or diminish the quality or quantity of service at or from any agency station, notice of intention to make such change shall be filed with the commission at least 45 days prior to the effective date of such change. Notice shall at the same time be mailed by the railroad company to all railroad patrons and to the clerk or other appropriate official of any city, village, county or township in which such station is located or at which service is rendered from that station. Copies of the notice shall also be posted at a prominent place at the station or stations affected. If a protest or request for hearing is not received within 45 days, the railroad company may proceed with tariff filing on statutory notice. If a protest or request for hearing is received within 45 days, or if it otherwise is deemed necessary in the public interest, the commission may at its discretion schedule for hearing the matter of the reasonableness or adequacy of the proposed service as provided by section 22 of Act No. 300 of the Public Acts of 1909, as amended, being § 462.22 of the Michigan Compiled Laws, and issue its order in accordance with its findings.

History: 1954 ACS 54, p. 64, Eff. May 15, 1968.

R 460.74 Public utility proceedings; new construction.

Rule 64. A gas or electric utility within the meaning of Act No. 69 of the Public Acts of 1929, being §§460.501 to 460.506 of the Michigan Compiled Laws, a natural gas pipeline company within the meaning of Act No. 9 of the Public Acts of 1929, being §§483.101 to 483.120 of the Michigan Compiled Laws, and a telephone company within the meaning of Act No. 206 of the Public Acts of 1913, as amended, being §§484.101 to 484.124 of the Michigan Compiled Laws, desiring to construct a plant, equipment, property or facilities for furnishing public utility service for which a certificate of public convenience and necessity is required by statute, and an oil pipeline within the meaning of Act No. 16 of the Public Acts of 1929, being §§483.1 to 483.11 of the Michigan Compiled Laws, desiring to construct facilities to transport commodities, oil or petroleum, or any other products thereof as a common carrier for which approval is required by statute, shall file with the commission an application for the necessary authority, together with 6 copies thereof. The application shall set forth or by exhibits attached thereto show the following: name and address of applicant; the city, village or township affected; the nature of the utility service to be furnished; except for telephone companies, the municipality from which the appropriate franchise or consent has been obtained, if required, together with a true copy of the franchise or consent; a full description of the proposed new construction or extension, including the manner in which the same will be constructed; and the names of all utilities rendering the same sort of service with which the proposed new construction or extension is likely to compete. A utility classified as a respondent

pursuant to R 460.11(f) may intervene, without petition, to file an answer or other responsive pleading to the application and be a party to the proceeding.

History: 1954 ACS 54, p. 65, Eff. May 15, 1968.

R 460.75 Public utility proceedings; issuance of securities.

Rule 65. A public utility desiring authorization for the issuance of stocks, bonds, notes or other evidences of indebtedness pursuant to Act No. 144 of the Public Acts of 1909, being §§460.301 to 460.303 of the Michigan Compiled Laws, shall file a petition together with 6 copies. The party upon whose application the securities are authorized shall pay into the state treasury the fee required by section 11 of Act No. 419 of the Public Acts of 1919, being §460.61 of the Michigan Compiled Laws. The petition shall contain or include as exhibits the items listed in R 460.76 and the following:

(a) The amount and terms of the proposed issue.

(b) A detailed and concise statement of the purpose for which the proceeds are to be used.

(c) A certified copy of any action by applicant's stockholders authorizing a change in applicant's capitalization.

(d) A certified copy of any resolution of applicant's board of directors approving issuance and sale of the securities for which approval is sought.

(e) If the proceeds are to be used for the acquisition of property, a detailed description of the property, from whom it is to be acquired, and the terms of the contract for such acquisition, if any. Names of owners of property to be acquired for right-of-way need not be set forth, but a general description of the proposed route shall be given.

(f) If the proceeds are to be used for the construction, completion, extension or improvement of public utility facilities, a concise description of the existing facilities and a complete statement as to the facilities proposed to be constructed.

(g) If the proceeds are to be used for the improvement or maintenance of service, a concise description of the existing service and the improvements or betterments proposed to be made.

(h) If the proceeds are to be used for the refunding of obligations, a description of the obligations sought to be refunded; the amount of the same, with their date of issue, date of maturity and all other material facts concerning them.

(i) The financial condition of the applicant at a date within a reasonable time prior to the date of the application shall be shown with particularity. The balance sheet as of a date, which shall not be more than 120 days prior to the date of application, and a statement of income and surplus for the 12-month period ending the same date, shall be annexed to the petition as a schedule.

History: 1954 ACS 54, p. 65, Eff. May 15, 1968.

R 460.76 Public utilities proceedings; additional items for petitions.

Rule 66. The petition shall also contain or include as exhibits the following:

(a) If the application is for the issuance of bonds under the security of an existing mortgage, a brief statement of the amount of bonds, if any, already issued upon such security.

(b) If the application is for the issuance of stock, a statement whether any franchise is capitalized either directly or indirectly.

(c) If proposed contracts, agreements, indentures or other written arrangements have been prepared in connection with the proposed issue and sale of stocks, bonds or other types of securities within the meaning of Act No. 144 of the Public Acts of 1909, copies of these documents shall be submitted with the application.

(d) If no contract, agreement or arrangement has been made for the sale or disposition of the stock, bonds, notes or other evidence of indebtedness proposed to be issued, there shall be annexed to the application, an affidavit of a competent person showing the amount which can probably be realized from the sale or disposition of the securities and the reasons for the opinion of the person making the affidavit.

(e) A clear statement of the intent of the applicant in good faith to use the proceeds for the purpose set forth in the application and a declaration that such funds are reasonably required for such lawful purposes.

History: 1954 ACS 54, p. 66, Eff. May 15, 1968.

R 460.78 Motor carrier proceedings; applications and petitions.

Rule 68. An application for a certificate or permit and any other petition concerning motor carrier matters shall be made upon forms provided by the commission. A petition for which no particular form has been provided, shall in general follow the requirements of these rules and the motor carrier rules, being R 460.101 to R 460.146 of the Michigan Administrative Code, as amended.

History: 1954 ACS 54, p. 66, Eff. May 15, 1968.

R 460.79 Motor carrier proceedings; issuance of securities.

Rule 69. A common carrier seeking authority to issue securities or evidence of indebtedness under Act No. 144 of the Public Acts of 1909 shall:

(a) Execute and file 2 copies of form 73.

(b) File 1 exact copy of the proposed articles.

(c) File 2 copies of an application drawn in a form of applicant's choosing and completely and exactly setting forth the facts in the case. The application shall specify all the things that the applicant would present orally before the commission if a hearing were held, and shall be certified to by someone connected with the applicant having complete knowledge of the facts.

(d) File 2 copies of the latest balance sheet of the company, if the application is for a company operating as an individual or partnership; if a new company, the proposed opening entries to the corporation shall be submitted. In either case, the statement shall be certified to by a person having full knowledge of the facts.

(e) Submit the statutory fee as required by Act No. 419 of the Public Acts of 1919. In determining the amount of stock that can be authorized for a proposed corporation, intangible items are excluded.

History: 1954 ACS 54, p. 66, Eff. May 15, 1968.

R 460.80 Motor vehicle common carriers; sales and transfers of capital stock.

Rule 70. A motor vehicle common carrier seeking authority to sell or transfer capital stock shall:

(a) File an application for authority to transfer stock in a form of applicant's choosing and completely and exactly setting forth the facts in the case. The application shall specify all the things that the applicant would present orally before the commission if a hearing were held and shall be certified to by an officer of the corporation.

(b) File a sworn affidavit by the seller of the stock setting forth his intent to sell or transfer shares of stock, the number of shares, the name of the corporation and the name of the prospective purchaser. This document is to be certified to by the seller.

(c) File a sworn affidavit by the prospective purchaser of the stock, setting forth his intent to purchase a certain number of shares of stock of the corporation,

Aug. 15, 1955; 1954 ACS 12, pp. 54, 55, Eff. Nov. 21, 1957; 1954 ACS 19, pp. 14, 15, Eff. Aug. 14, 1959; 1954 ACS 24, p. 30, Eff. Nov. 12, 1960; 1954 ACS 30, pp. 20-24, Eff. May 15, 1962; 1954 ACS 41, pp. 20-22, Eff. Feb. 14, 1965; rescinded 1954 ACS 66, p. 41, Eff. June 1, 1971.

UNIFORM SYSTEM OF ACCOUNTS FOR CLASS I MOTOR CARRIERS OF PASSENGERS AND PROPERTY

R 460.160—R 460.280

History: 1944 AC, pp. 551-609; 1954 AC, pp. 5637-5701; 1954 ACS 3, p. 20, Eff. Aug. 15, 1955.

Editor's note: R 460.160 to R 460.280 were promulgated by the public service commission. By request of the commission and pursuant to section 57 of Act No. 306 of the Public Acts of 1969, as amended, being §24.257 of the Michigan Compiled Laws, these rules are not published in the Michigan Administrative Code. Copies of the rules may be obtained upon application to the Public Service Commission, Long Commerce Park, Box 30221, Lansing, MI 48909.

UNIFORM SYSTEM OF ACCOUNTS FOR CLASS II MOTOR CARRIERS OF PASSENGERS AND PROPERTY

R 460.290—R 460.407

History: 1944 AC, pp. 610-643; 1944 ACS 18, pp. 52-60; 1954 AC, pp. 5701-5738; 1954 ACS 3, pp. 20, 21, Eff. Aug. 15, 1955.

Editor's note: R 460.290 to R 460.407 were promulgated by the public service commission. By request of the commission and pursuant to section 57 of Act No. 306 of the Public Acts of 1969, as amended, being §24.257 of the Michigan Compiled Laws, these rules are not published in the Michigan Administrative Code. Copies of the rules may be obtained upon application to the Public Service Commission, Long Commerce Park, Box 30221, Lansing, MI 48909.

UNIFORM SYSTEM OF ACCOUNTS FOR CLASS III MOTOR CARRIERS OF PASSENGERS AND PROPERTY

R 460.411—R 460.476

History: 1944 AC, pp. 643-686; 1954 AC, pp. 5738-5788; 1954 ACS 3, p. 21, Eff. Aug. 15, 1955.

Editor's note: R 460.411 to R 460.476 were promulgated by the public service commission. By request of the commission and pursuant to section 57 of Act No. 306 of the Public Acts of 1969, as amended, being §24.257 of the Michigan Compiled Laws, these rules are not published in the Michigan Administrative Code. Copies of the rules may be obtained upon application to the Public Service Commission, Long Commerce Park, Box 30221, Lansing, MI 48909.

ELECTRICAL SERVICE

(By authority of Act No. 106 of the Public Acts of 1909, being §460.551 et seq. of the Michigan Compiled Laws)

R 460.501 General.

Rule 1. (1) These rules apply to the methods and conditions of service to be employed by all electric public utilities supplying electrical energy which are or may hereafter be subject to the jurisdiction of the Michigan public service commission under the laws of the state of Michigan.

(2) For the purposes of these rules the following definitions apply:

(a) The word "commission" refers to the Michigan public service commission.

(b) The word "utility" refers to any person, firm, corporation, cooperative, association, or other agency including a municipality or other political subdivision, supplying or distributing electrical energy for lighting, power, heating, and other commercial, residential and industrial purposes.

(c) The word "customer" refers to the user of the electrical energy supplied by the utility.

(d) The word "approved" or "approval," unless otherwise defined, refers to compliance with the "national electrical code" as revised and approved from time to time by the American standards association.

(e) The term "service connection" shall be interpreted as including the span of conductors (or its equivalent in underground construction) from the supply line to the point of connection with the customer's outlet or wiring.

(3) These rules for electrical service may be amended by the commission from time to time, either upon its own motion, or upon the application of any customer or utility.

(4) Each utility may adopt such reasonable rules and regulations governing its relations with customers as it finds necessary and which are not inconsistent with these rules. Such rules and regulations, so adopted, shall be filed with the commission.

(5) Questions concerning the application or interpretation of any of these rules, whether arising from disagreements between the utility and customers or from other causes, and disagreements regarding any other service rules and regulations promulgated by any utility, may be referred by either party to the commission for a ruling.

(6) All records required by these rules shall be kept within the boundaries of this state, at the offices of the utility, and shall be available at all reasonable times for examination by an authorized representative of the commission; provided, however, that in specific cases the commission may at its own discretion or upon proper showing, authorize certain modifications of these requirements. All such records shall be carefully preserved for at least 1 year after they are completed, except as otherwise provided.

(7) There shall be kept by each utility a record of all formal written complaints received at its offices in regard to service. The record shall contain the name and address of the customer, class of service rendered, date and description of complaint, and nature and date of remedy applied.

(8) A copy of these rules, as published and furnished by the commission, also a copy of the rate schedule and rules and regulations of the utility as filed with the commission, shall be kept on file by each utility and open to public inspection; and suitable placards shall be conspicuously posted in the offices of the utility where consumers' bills are payable, calling the attention of the public to the fact that these rules and utility's schedules are so filed.

History: 1944 AC, p. 687; 1954 AC, p. 5788.

Editor's note: R 460.501 was rescinded by 1954 ACS 81, p. 123, Eff. Mar. 5, 1975, insofar as the rule applied to electrical residential utility service.

R 460.502 Transactions with customers.

Rule 2. Use of meters:

(a) The sale of electrical energy to customers shall be metered by suitable watthour meters. Exceptions to this rule are permitted in cases where the rating of the customer's equipment and the time schedule of its operation determine the use of energy within reasonable limits, as for example, street lighting, signaling systems, time-controlled water heating.

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(b) When rate schedules based on demand and energy charges are in force the use of demand meters is recommended. However, when demand meters are not installed, the use of reasonable demand factors applied to the connected load is preferable to the occasional measurement of demand.

(2) All watthour meters and all demand meters in service shall be scheduled to be read not less frequently than once in every 3 months, and an endeavor shall be made by the utility to have meters read on corresponding dates of each meter reading period.

(3) Information on bills:

(a) Bills rendered periodically to customers for metered service shall show the reading of the meter at the beginning and end of each period for which the bill is rendered, the number and kinds of units, class of rate and dates of meter readings, and any other data used in computing the bill so that the amount of the bill may be readily checked provided that special authority may be granted by the commission governing the information to be shown upon the bills if circumstances warrant.

(b) Any tax which the commission authorizes the utility to collect from its customers may be included in the total bill without being shown as a separate item. Such bills, however, shall contain a statement thereon to the effect that said bill includes the tax so imposed.

(4) The utility supplying electrical energy shall make a test of the accuracy of registration of a meter upon request of the customer, provided the utility is not required to make a test more frequently than once in 6 months. A report giving the results of the test shall be made to the customer and a complete record of the test shall be kept on file in the office of the utility.

Upon formal application to the commission a test will be made upon the customer's watthour meter or demand meter or the customer's demand by the engineering department of the commission, for the purpose of determining the accuracy of measurement of the energy supplied:

(a) For such a test of a watthour meter the sum of $5.00 and in case of a demand meter, or test of a demand the sum of $10.00 shall be deposited with the commission by the customer at the time of application for the test. If the meter is found to be slow or correct within the allowable limits for average error then the amount deposited shall be retained by the commission, but if the meter is found to be fast beyond the allowable limits for average error, then the sum deposited by the customer shall be returned to the customer and the same amount shall be paid by the utility to the commission.

(b) In cases where the test is of the demand established by occasional measurements, if the demand is found to be equal to or materially higher than the demand fixed by the utility, then the amount deposited shall be retained by the commission, but if the demand is found to be materially less than the demand fixed by the utility, then the amount deposited by the customer shall be returned to the customer and the same amount shall be paid by the utility to the commission.

(c) The utility and the customer may send representatives to be present during such tests.

(5) Adjustment of bills for meter errors:

(a) If the result of the tests of a customer's meters (made at the request of the customer) shows an average error greater than 4%, then the customer's bill for the period during which the meter error is known to have existed shall be recomputed and the account adjusted on the basis of test.

Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(b) When a meter has not registered all of the energy used for any period, then the utility shall be entitled to make a charge to the customer for an amount of energy estimated to have been used, such estimate being based upon the average of the amounts registered over similar periods preceding or subsequent thereto, or over corresponding periods in other years, and by other known factors having application thereto.

(c) If the duration of the meter error be not known, it shall be assumed to have existed for a period of half of the time between the discovery of the error and the latest preceding meter test, but not for a period of more than 6 months, and bills shall be recomputed on this basis.

(6) Surety deposits:

(a) Until a customer shall have established a satisfactory credit rating, a utility may require a reasonable deposit or guaranty of the account.

When a cash deposit is made, interest at the rate of 4% per annum on the deposit for the time the deposit is held by the utility and service given to the customer, shall be paid by the utility to the customer provided the deposit is held by the utility at least 6 months. Interest shall be payable on the return of the deposit, or annually upon demand of the customer. The utility shall issue to every customer from whom a deposit is received a certificate of deposit evidencing the transaction.

(b) If the account is satisfactorily guaranteed, the form prepared by the utility for such guaranty shall clearly state the maximum amount guaranteed, and the utility shall not hold the guarantor responsible for any additional amount unless the guarantor agrees to the same in writing.

(c) The utility shall provide reasonable ways and means whereby a customer who makes application for the return of his deposit or any portion of the same to which he may be justly entitled, shall not be deprived of such deposit or portion of the same, even though he may be unable to produce the original certificate of deposit.

(7) The difference between the gross and net bills allowed for prompt payment shall be forfeited by the customer if the net bill is not paid in full on or before the date on which the net bill is due. Failure to receive a bill properly rendered by the utility will not extend the net bill period. If the date on which the net bill is due falls on a Sunday or holiday the bill shall be due on the next business day. Customers mailing remittances before midnight of the last day of the net bill period shall receive the benefit of the net bill, the time of mailing to be determined from the postmark.

(8) Bills shall be delivered to the customer's premises at least 7 days prior to the discount date, except that weekly bills may be delivered at least 3 days prior to the discount date.

It is recommended that the utility make arrangements for the payment of bills by customers at local banks or other local agencies, and that no extra charge be made for such arrangements.

(9) If a bill for electric service to a customer remains unpaid 10 days after the net bill date, the utility shall then have the right to discontinue service to the delinquent customer on 5 days' written notice.

(10) Any electrical utility within the state of Michigan and subject to the jursidiction of this commission may refuse to connect to or render service to any customer, provided that such utility has received written notice from the office of the commissioner of Michigan state police, ex-officio state fire marshal, stating that the interior wiring on the premises of such customer has been condemned by such officer.

(11) Each utility shall file with the commission as part of its rules and regulations a statement of its line extension policy or policies. If a utility does not have on file with this commission a statement of its line extension policy or policies, the commission will determine how service shall be extended.

History: 1944 AC, p. 687; 1954 AC, p. 5789.

Editor's note: R 460.502 was rescinded by 1954 ACS 81, p. 123, Eff. Mar. 5, 1975, insofar as the rule applied to electrical residential utility service.

R 460.503 Service entrances.

Rule 3. (1) All service entrance conductors from the service connection which pass through or along partitions and walls of buildings up to and including the meter equipment shall be installed, up to and including the meter equipment, in continuous lengths of approved rigid metal conduit or electric metallic tubing and fittings or in continuous lengths of approved multi-conductor cable assemblies and fittings, or in approved busways, accessible only to authorized persons.

(2) Each customer's electric service shall be provided with an approved means for readily disconnecting the interior wiring from the source of supply.

(3) In general, the point of attachment of the service connection to the building shall be so located as to be accessible to the utility's distribution lines and as far as practicable at a point mutually acceptable to the customer and the utility.

(4) Sealing of service entrance equipment:

(a) When the service entrance equipment is installed on the supply side of the meter equipment, or when the entrance switch is combined with meter test facilities, the covers of the enclosing boxes for such equipment shall be so constructed that they can be either sealed or locked in the closed position, and the switch handles shall be so constructed that they can be locked or sealed in position and shall be marked so as to indicate, with the cover in the closed position, whether they are closed or open. However, in an emergency the customer may open a sealed or locked main-line fuse compartment for the purpose of replacing blown fuses, whereupon the utility shall be promptly notified that the seal has been so removed.

(b) When the metering equipment or the meter testing facilities are installed under seal on the supply side of the service entrance switch and cutout and not enclosed in the service switch and/or cutout box, the cabinet housing the service switch and cutout box need not be sealed nor locked.

(5) It is recommended that entrance switch boxes be of such size and switches so constructed as to make it possible for meter testers to perform the tests required by these rules with safety and convenience, except as the utility may elect to provide its own test facilities in a sealed or locked metal box separate and distinct from that containing the switch and cutout.

(6) The requirements of subrules (1), (2), (3), (4), (5), and (6) apply to installations made after the effective date of this order. The utility may at its own expense modernize any customer's service entrance installation in conformity with these rules and with its standard practice, but in case of unauthorized use of energy upon the part of a customer, the utility may require the customer to make such changes under these rules, in an existing installation as are necessary to prevent such unauthorized use as far as practicable.

History: 1944 AC, p. 689; 1954 AC, p. 5791.

R 460.504 Meters.

Rule 4. (1) Records:

(a) There shall be kept by the utility, during the life of the meter, a numerically arranged and properly classified meter record, giving for each meter owned or

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

used by the utility for any purpose, the identification number, date of purchase, name of manufacturer, serial number, type, rating, address of each customer on whose premises the meter has been in service, with the date of installation and removal, and a record of all tests and adjustments.

(b) Whenever any meter is tested there shall be made a separate detailed record of each test. This record shall contain all information necessary for identifying the meter, the reason for making the test, reading of dial before and after testing, conditions of accuracy before and after adjustment, and any other information and data which will permit a satisfactory and convenient checking of the test.

(c) There shall also be made and preserved, a periodical summary of all meter tests, showing the number of meters within certain limits of accuracy, and the intervals between tests.

(2) In general, meters installed out-of-doors shall be so located as to be accessible to the utility's lines for proper service connection and so far as practicable the location should be mutually acceptable to the customer and the utility.

(a) Where it is desired to install meters outside of buildings, they shall be so designed and so installed as to be unaffected by climatic conditions and reasonably secure from injury.

(b) Where it is desired to install meters inside of the customer's building, the meters shall be located as near as possible to the service entrance, in a clean, dry place, reasonably secure from injury, not subject to vibration, and readily accessible for reading and testing.

(c) In cases of multiple buildings such as 2-family flats or apartment buildings, if the meters are installed indoors they shall be located within the premises served or in a common location accessible to the tenants and the utility.

(3) The utility shall at all proper times have access to its equipment installed on customer's premises for the purpose of installation, inspection, maintenance, operation and removal, and it shall have the privilege of inspecting equipment used by the customer when the proper administration of the rates under which he is taking service requires such inspection. Neglect or refusal on the part of the customer to provide reasonable access shall be sufficient cause for discontinuance of service by the utility and assurance of access may be required before service is restored.

(4) The average error of a service watthour or demand meter shall be determined as follows:

(a) The error at light load, here defined as approximately 5-10% of the rated full load capacity of the meter for watthour meters, or 20% of the full scale indication for demand meters, shall be determined by taking the average of at least 2 errors, determined from as many separate tests on the same light load (except for thermal type demand meters for which 1 test will be sufficient), which errors must agree within ½%.

(b) In the same manner the error at heavy load, here defined as a load of approximately 75% to 100% of the rated full load capacity of the meter for watthour meters or 100% of the full scale indication for demand meters, shall be determined.

(c) The average error of the meter shall then be determined by taking an average of the error at light load and the error at heavy load, proper account being taken of the sign of these 2 errors; provided, however, that where the customer's connected load does not equal 75% of the rated full load capacity of the meter, the full connected load may be considered as heavy load for the purpose of the test.

(d) Whenever a service test made upon a service watthour meter or demand

Digitized by Google

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

meter, at the point of service, shows an average error greater than specified in the following subrules, the meter shall not remain in service unless adjusted to bring the average error within the specified limits.

(5) Meter testing equipment:

(a) Each utility shall provide and properly maintain, or have available, such meter laboratory, primary and secondary standards and other appliances as may be necessary for making the tests required by these rules. Such laboratory and its equipment shall be acceptable to the commission, and shall be available at all reasonable times for examination by an authorized representative of the commission.

(b) Where a utility elects to have available through arrangements with other utility or commercial testing laboratories, facilities for testing its meters, the laboratory and equipment of such utility or commercial laboratory shall conform to the requirements of this section.

(6) Each utility shall provide and properly maintain, or have available, such portable indicating electrical testing instruments and watthour meters (such as rotating standards) of suitable range and type as may be deemed necessary and satisfactory by the commission for testing service meters, switchboard indicating and recording meters and other electrical instruments in use.

Each portable standard shall at all times be accompanied by a certificate of accuracy, or a calibration card, signed by the proper authorities, giving the date when it was last adjusted and certified. Records of all such calibrations and certifications shall be kept available for examination by an authorized representative of the commission.

(7) All watthour meters and other instruments used as reference standards shall be tested with instruments of precision, adjusted and certified at least once every 6 months by an approved meter testing laboratory. Each such reference standard shall at all times be accompanied either by a certificate of accuracy or a calibration card, signed by the proper authorities giving the date when it was last adjusted and certified.

(8) Limits of accuracy:

(a) No meter which registers (creeps) at no load when the applied voltage is less than 110% of standard (normal) voltage shall be placed in service or allowed to remain in service.

(b) No watthour meter shall be placed in service which is in any way mechanically defective or which has incorrect constants or which has not been tested and adjusted to meet the following requirements:

(i) Average error not over 2% positive or negative.

(ii) Error at heavy load not over 1% positive or negative.

(iii) Error at light load not over 3% positive or negative.

(c) No demand meter shall be placed in service which is in any way mechanically defective or which has incorrect constants or which has not been tested and adjusted to meet the following requirements:

(i) Curve drawing instruments:

(A) Electrical element: Average error shall not exceed 2% of full scale indication.

(B) Timing element: Variation in rate shall not be greater than ¼% and in cases where the time of day is involved in the rate schedule the element shall not at any time indicate a difference of more than 10 minutes from correct time.

(ii) Integrating demand meters:

(A) Electrical element: Errors shall not exceed those specified for watthour meters in subrule (8)(a) and (b).

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(B) Timing element: When used to measure time interval only, error shall not exceed 2%. When used also to keep a record of time of day at which demand occurs, variation in rate shall not be greater than ¼%, and in cases where the time of day is involved in the rate schedule, the element shall not at any time indicate a difference of more than 10 minutes from corect time.

(iii) Lagged demand meters:

(A) Electromagnetic type: Average error shall not exceed 2% of full scale indication.

(B) Thermal type: Average error shall not exceed 4% of full scale indication.

(9) Frequency of tests—billing meters:

(a) Installation tests:

(i) Each watthour meter and each demand meter shall be checked for correct connection, proper mechanical condition, suitable location and good operating condition, in its permanent position in place of service, at the time of installation or within 30 days after installation.

(ii) Each watthour and each demand meter operating on a highly inductive circuit shall be tested in its permanent position within 30 days after installation, under conditions approximating as nearly as possible the conditions under which the meter will operate.

(iii) Each watthour meter and each demand meter installed with instrument transformers or shunts shall be tested jointly with transformers or shunts, unless the phase angle and ratio of transformation of the transformers or the calibration of the shunts is verified previous to the time of installation of the meter. Instrument transformers used for meters may be used for operating relays only when the total load does not exceed the rated capacity of the transformer, and provided also that the tests required by the first part of this rule be made with such relays or equivalent load connected to the transformer concerned.

(b) Periodic tests:

(i) Watthour meters—Each watthour meter in service shall be tested according to the following schedule:

(A) Two and 3-wire commutating type and mercury type meters, up to and including 50 amperes rated capacity of meter element, at least once every 24 months.

(B) Two and 3-wire commutating type and mercury type meters of over 50 and up to and including 500 amperes rated capacity of meter element, at least once every 12 months.

(C) Two and 3-wire commutating type and mercury type meters of over 500 amperes rated capacity of meter element, at least once every 6 months.

(D) Two and 3-wire single phase induction type meters up to and including 25 amperes rated capacity of meter element at least once every 72 months.

(E) Two and 3-wire single phase induction type meters of over 25 amperes rated capacity of meter element, at least once every 24 months.

(F) All polyphase induction type meters, up to and including 50 kilovolt amperes rated capacity of meter element, at least once every 24 months.

(G) All polyphase induction type meters of over 50 kilovolt amperes rated capacity of meter element, at least once every 12 months.

(ii) Demand meters—(Excepting thermal types)—Each demand meter, excepting the thermal types, shall be tested at least as often as the meter with which it is associated and as nearly as practicable at the same time.

(iii) Thermal type demand meters—Thermal type demand meters shall be tested according to the following schedule:

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(A) Thermal type meters up to and including 30 amperes rated capacity, at least once every 8 years.

(B) Thermal type meters of over 30 amperes rated capacity, at least once every 4 years.

(10) Frequency of tests—other meters:

(a) Watthour and demand meters—All stationmeters used for measuring total kilowatts load, total kilowatt-hours output and total kilowatt-hours purchased shall also be tested with the frequency required by subrule (9). All other station watthour and demand meters shall be maintained in accurate working order by testing at appropriate intervals.

(b) Indicating and recording meters—All station meters and instruments other than those specified in subdivision (a) of this subrule shall be compared with portable standards at appropriate intervals, and maintained in such adjustment and to such a degree of accuracy as is reasonable for each type and kind of meter and the purpose for which it is used. The engineering department of the commission may, in any particular case, prescribe such testing intervals as may seem to it appropriate for the meters concerned.

History: 1944 AC, p. 690; 1954 AC, p. 5791

Editor's note: R 460.504 was rescinded by 1954 ACS 81, p. 123, Eff. Mar. 5, 1975, insofar as the rule applied to electrical residential utility service.

R 460.505 System operating requirements.

Rule 5. (1) Standard and maintenance of frequency:

(a) Each utility supplying alternating current shall adopt definite standards of "normal" frequency subject to the approval of the commission, and shall file with the commission a statement showing the standards of frequency so adopted, as provided for in order no. 3096, entitled "Regulations Prescribing the Filing Procedure for Rate Schedules of Electric Utilities."

(b) Such frequencies shall be maintained within 5% of standard at all times during which service is supplied; provided, however, that momentary variations in frequency greater than 5%, which are not due to lack of reasonable care on the part of the utility in the selection and operation of equipment, shall not be considered a violation of this rule.

(2) Standard and maintenance of voltage:

(a) Each utility shall adopt definite standards of "normal" voltage, subject to the approval of the commission, as may seem desirable for all of the territory served or for each of several districts or classes of service into which the system may be divided, and shall file with the commission a statement showing the standards of voltage so adopted, as provided for in order no. 3096 entitled "Regulations Prescribing the Filing Procedure for Rate Schedules of Electric Utilities."

(b) For service rendered primarily for incandescent lighting purposes in incorporated cities, towns and villages having a population greater than 2,000 the voltage at the terminals of the service connection during the hours between sunset and 12 o'clock midnight shall be maintained within 5% above or 3% below the standard voltage adopted, and in all other localities between 7% above or 5% below the standard voltage; provided, however, that variations in voltage greater than those specified, which are caused by the operation of machines requiring large starting currents or by the action of the elements, and such momentary and unavoidable fluctuations as may naturally be due to station operation, shall not be considered a violation of this rule.

(3) Voltage survey and records. Each utility shall provide itself with 1 or more portable indicating voltmeters, and if serving more than 200 customers, shall have

Digitized by Google

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

1 or more graphic voltmeters, of a type acceptable to the commission and range suitable to the voltage supplied. By the use of such meters each utility shall make voltage surveys of sufficient number and extent as to determine the actual service furnished throughout the territory served, and ascertain whether or not such service is in compliance with the voltage requirements of these rules. A detailed record shall be kept of all such voltage surveys.

(4) Maintenance of continuity of service. Each utility shall make all reasonable efforts to prevent interruptions of service, and when such interruptions occur shall endeavor to reestablish service with the shortest possible delay. Whenever the service is necessarily interrupted or curtailed for the purpose of working on equipment it shall be done at a time which will cause the least inconvenience to customers, and those customers which may be seriously affected shall be notified in advance, except in cases of emergency. The utility shall keep adequate records of major interruptions to service giving the time, duration, extent and cause of such interruptions.

(5) System metering. Each utility shall install and maintain in accurate working order such instruments as may be necessary for indicating the frequency, voltage and output at its plants, and for making a daily record of voltage, kilowatts load, kilowatt hours output and kilowatt hours purchased for its plants. The utility shall meter its own use of electrical energy.

History: 1944 AC, p. 692; 1954 AC, p. 5794.

UNDERGROUND ELECTRIC LINES

(By authority conferred on the public service commission by section 7 of Act No. 106 of the Public Acts of 1909, section 5 of Act No. 419 of the Public Acts of 1919 and section 6 of Act No. 3 of the Public Acts of 1939, as amended, being §§460.557, 460.55, and 460.6 of the Michigan Compiled Laws)

R 460.511 Payment of difference in costs.

Rule 1. In the case of all underground extensions of electric distribution facilities as covered by these rules, the real estate developer or customer shall make a contribution in aid of construction to the utility in an amount equal to the estimated difference in cost between overhead and underground facilities. "Distribution facilities" means those operated at 15,000 volts or less to ground for wye connected systems and 20,000 volts or less for delta connected systems.

History: 1954 ACS 64, p. 56. Eff. Nov. 6, 1970.
Editor's note: For the effective dates of R 460.511 and R 460.514 to R 460.519, see R 460.519.

R 460.512 Extensions of residential distribution and service lines in the lower peninsula mainland.

Rule 2. (1) The distribution system in a new residential subdivision and an existing residential subdivision in the lower peninsula mainland in which electric distribution facilities have not already been constructed shall be placed underground, except that a lot facing a previously existing street or county road and having an existing overhead distribution line on its side of the street or county road shall be served with an underground service from these facilities and shall be considered a part of the underground service area.

(2) The owner or developer of such subdivisions shall be required to make a nonrefundable contribution in aid of construction to the utility in an amount equal to the sum of the lot front-foot measurements multiplied by an amount to be fixed or changed in appropriate rate-making proceedings, which amount shall be

Digitized by Google

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

considered to be the difference in cost between overhead and direct burial underground facilities.

(3) The front-foot measurement of each lot to be served by a residential underground distribution system shall be made along the contour of the front lot line. The front lot line is that line that usually borders on, or is adjacent to, a street. However, when streets border on more than 1 side of a lot, the shortest dimension shall be used. In case of a curved lot line that borders on a street or streets and represents at least 2 sides of the lot, the front-foot measurement shall be considered as ½ the total measurement of the curved lot line. Where a lot is served by an underground service from an overhead distribution line under the provision of rule 2(1), the lot front-foot measurement of the lot to be served shall be deleted.

(4) The construction provided for in subrule (2) includes the extension of electric distribution facilities to the lot line of each lot in the subdivision.

(5) The use of the lot front-foot measurement in these rules shall not be construed to require that the underground electric distribution facilities be placed at the front of the lot.

(6) The utility shall install, own, and maintain the service line from the property line to the customer's meter.

(7) For a normal installation, the developer or customer shall make a contribution in aid of construction to the utility in an amount equal to the product of the straight line distance in feet from the termination of the utility's facilities at the front or rear property line to a point directly below the customer's meter multiplied by an amount to be fixed or changed in appropriate rate-making proceedings. Where special routing of the service line is required by the customer, this amount per foot will apply to the route of the line as installed.

History: 1954 ACS 64, p. 56, Eff. Nov. 6, 1970; 1954 ACS 81, p. 109, Eff. Feb. 14, 1975; 1954 ACS 99, p. 151, Eff. Mar. 30, 1979.

R 460.513 Extensions of commercial and industrial lines in lower peninsula mainland.

Rule 3. (1) Commercial distribution and service lines in the vicinity of the customer's property and constructed solely to serve a customer or group of adjacent customers shall be placed underground. This will specifically include, but not be limited to, service to apartment house complexes and shopping centers.

(2) The developer or customer shall be required to make a contribution in aid of construction to the utility for a direct burial installation in an amount arrived at by multiplying the length in feet of the required trench by an amount to be fixed or changed in appropriate rate-making proceedings.

(3) Industrial distribution and service lines shall be placed underground at the option of the customer at a cost per trench foot to be fixed or changed in appropriate rate-making proceedings for direct burial installations as a contribution in aid of construction except as may otherwise be provided for in the utility's filed and approved extension rules.

History: 1954 ACS 64, p. 56, Eff. Nov. 6, 1970; 1954 ACS 81, p. 109, Eff. Feb. 14, 1975.

R 460.514 Costs in case of special conditions.

Rule 4. Where practical difficulties exist, such as frost or water conditions, rock near the surface, or where there are requirements for deviation from the utility's filed construction standards, the per foot charges in R 460.512 and R 460.513 will not apply, and the contribution in aid of construction will be equal to the estimated difference in cost between overhead and underground facilities but not less than the charge calculated under R 460.512 and R 460.513.

History: 1954 ACS 64, p. 57, Eff. Nov. 6, 1970.

R 460.515 Extensions of lines in other areas of state.

Rule 5. (1) Residential, commercial and industrial distribution and service lines shall be placed underground at the option of the developer or customer in areas of the state outside the lower peninsula mainland.

(2) If underground facilities are to be installed, the developer or customer shall be required to pay to the utility a contribution in aid of construction in an amount equal to the estimated difference in cost between overhead and underground facilities but not less than the amount calculated under R 460.512, R 460.513, and R 460.514.

History: 1954 ACS 64, p. 57, Eff. Nov. 6, 1970.

R 460.516 Replacement of existing overhead lines.

Rule 6. (1) Existing overhead residential, commercial and industrial electric distribution and service lines anywhere in the state shall be replaced with underground facilities at the option of the affected customer or customers.

(2) Before construction is started, the customer shall be required to pay the utility the depreciated cost (net cost) of the existing overhead facilities plus the cost of removal less the salvage value thereof and, also, make a contribution in aid of construction in an amount equal to the estimated difference in cost between new underground and new overhead facilities including, but not limited to, the costs of breaking and repairing streets, walks, parking lots and driveways, and of repairing lawns and replacing grass, shrubs and flowers.

History: 1954 ACS 64, p. 57, Eff. Nov. 6, 1970.

R 460.517 Underground facilities for convenience of utilities or where required by ordinances.

Rule 7. The utility shall bear the cost of construction where electric facilities are placed underground at the option of the utility for its own convenience or where underground construction is required by ordinance in heavily congested business districts.

History: 1954 ACS 64, p. 57, Eff. Nov. 6, 1970.

R 460.518 Exceptions.

Rule 8. Nothing in these rules shall prohibit a utility or a customer from applying to the public service commission for relief from the operation of these rules or prevent the commission from granting such relief if it finds such action to be in the public interest.

History: 1954 ACS 64, p. 57, Eff. Nov. 6, 1970.

R 460.519 Effective dates.

Rule 9. The mandatory undergrounding provisions of these rules take effect on January 1, 1971. The provisions for the contributions in aid of construction take effect for new underground construction upon publication in the Administrative Code or supplement thereto.

History: 1954 ACS 64, p. 57, Eff. Nov. 6, 1970.

ELECTRICAL LINES AND EQUIPMENT

R 460.521—R 460.572.

History: 1944 AC, pp. 706-830; 1954 AC, pp. 5807-5825 and pp. 5895-5938; 1954 ACS 49, pp. 148-228, Eff. Feb. 14, 1967; 1954 ACS 55, pp. 52-57, Eff. Aug. 14, 1968.

Editor's note: Former R 460.421 to R 460.429, appearing in 1954 AC, pp. 5795-5801, and former R 460.540 to R 460.549, appearing in 1954 AC, pp. 5826-5890, were rescinded by the public service commission.

Present R 460.521—R 460.572 were promulgated by the public service commission. By request of the commission and pursuant to section 57 of Act No. 306 of the Public Acts of 1969, as amended, being §24.257 of the Michigan Compiled Laws, these rules are not published in the Michigan Administrative Code. Copies of the rules may be obtained upon application to the Public Service Commission, Long Commerce Park, Box 30221, Lansing, Michigan 48909.

ELECTRIC POWER AND COMMUNICATION LINES

(By authority of Act No. 3 of the Public Acts of 1939, as amended, Act No. 106 of the Public Acts of 1909, and Act No. 171 of the Public Acts of 1893, as amended, being §§460.1 et seq., 460.551 et seq., and 469.31 et seq. of the Michigan Compiled Laws)

GENERAL

R 460.581 Scope.

Rule 1. These rules apply to the procedure to be followed by public utilities either privately, corporately, cooperatively or municipally owned or operated, and to industrial establishments and others (a) in obtaining the approval of the commission of specifications and plans for the construction, reconstruction and changes in operating conditions of electrical supply and communication lines and (b) in obtaining permits from the commission for the construction of railroad wire-crossings. (Note: These rules do not cover specifications or methods of construction to be followed. These matters are treated in the commission's order no. 1679, entitled "Rules and Regulations Governing the Construction, Maintenance and Operation of Electrical Supply and Communication Lines •••," to which reference should be made in the preparation of plans to be presented to the commission for its approval.)

History: 1944 AC, p. 835; 1954 AC, p. 5942.

R 460.582 Definitions.

Rule 2. For the purpose of these rules the following definitions apply:

(a) "Commission" refers to the Michigan public service commission.

(b) "Communication circuit" means a circuit for public or private communication or signal service, which operates at not exceeding 400 volts to ground or 750 volts between any 2 points of the circuit and the transmitted power of which does not exceed 150 watts. When the operating voltage is less than 150 volts, no limit is placed on the amount of transmitted power. (Note: Telephone, telegraph, messenger-call, clock, fire or police alarm, and other systems conforming with the above are included.)

This does not include circuits used to supply energy to railroad signalling systems and operating at not more than 750 volts between the 2 sides of the circuit and the transmitted power of which does not exceed 1,600 watts. Such circuits shall be considered as supply circuits.

(c) "Conflict" means a condition (as applied to pole lines) where 1 line is so situated with respect to a second line (except at crossings) that the overturning at the ground line of the first line will result in contact between its poles or conductors and the conductors of the second line, assuming that no conductors are broken in either line; provided, however, that lines on opposite sides of a highway, street or alley, are not considered as conflicting if separated by a distance not less than 60% of the height of the taller pole line, but in no case less than 20 feet.

(d) "Changes in operating conditions" refers to all such major changes in type of system, normal operating voltage, frequency or other operating conditions as will have a direct effect upon the safety of construction of lines or the inductive relations between lines.

(e) "Distribution system" refers to all primary and secondary electric supply lines from the generating plant, substation or other center of distribution to the

ultimate customer; and all communication lines from the central exchange office to the subscriber, that is to say, all exchange lines as distinguished from toll lines which are used principally for toll service.

(f) "Inductive interference" means an effect arising from the characteristics and inductive relations of electric supply and communication systems of such character and magnitude as would prevent the communication circuits from rendering service satisfactorily and economically if methods of inductive coordination were not applied.

(g) "Inductive exposure" means a situation of proximity between electric supply and communication circuits under such conditions that inductive interference must be considered.

(h) "Line" means a circuit or aggregation of circuits using the same supporting or containing structures, together with the supporting or containing structures themselves. The term as used in these rules includes lines supporting other electric supply or communication circuits or both.

(i) "Line crossing" means a situation where 1 or more wires or cables of 1 line cross over or under 1 or more wires or cables of another line.

(j) "Railroad wire-crossing" means a situation where 1 or more wires or cables cross over a railroad track.

(k) "Reconstruction" means rearrangement, or replacement with new equipment or construction, of any portion of an existing installation, but not including ordinary maintenance replacements.

(l) "Supply circuit" means a circuit, other than a communication circuit, used for transmitting a supply of electrical energy.

History: 1944 AC, p. 835; 1954 AC, p. 5942.

LINE CONSTRUCTION

R 460.583 Application to the commission.

Rule 3. (1) Except as modified in subrules (2) and (3) of this rule, any party planning the construction of a new line or planning reconstruction of, additions to or changes in the operating conditions of an existing line, shall file with the commission notice of intent to carry out such construction or changes, together with such descriptive information as is required in R 460.584, pertaining to the location and nature of such lines; and such construction or changes shall not be commenced until plans and specifications therefor have been approved by the commission; provided, however, that when such information has remained on file with the commission for at least 10 days, and no action toward approval or disapproval of the same has been taken by the commission, then construction may be begun without further delay; and provided further, that where construction standards pertaining to the type of line under consideration have been previously filed with the commission and approved by it, then construction may be begun immediately and carried out to completion in accordance with such construction standards as approved without further approval by the commission. (Note: In the case of telephone or telegraph lines where construction is to be done in accordance with the rules of the commission, this rule is not to be construed as requiring notice of intent and descriptive information when additional wires are installed from time to time on existing lines without exceeding the allowable ultimate capacity of the lines.)

(2) In cases of emergency or where it is impracticable to furnish the commission with definite and final information regarding the location of lines or certain required construction details before actual work is begun in the field, then the commission shall be furnished with such details as are then available, and where

approval is required by subrule (1) of this rule, temporary approval shall be applied for, and the issuance of such temporary approval may be construed as authority for commencing construction. As soon as possible thereafter the commission shall be furnished with definite and final information regarding the location of lines and such required construction details as were previously omitted; and where approval of same is required by subrule (1) of this rule, application for such approval shall then be made.

(3) Where construction standards pertaining to the type of line under construction have been previously filed in accordance with subrule (1) of this rule, the commission need not be notified or supplied with descriptive information for additions to, reconstruction of or changes in the operating conditions of an existing distribution line (unless such addition will parallel or duplicate existing structures of another utility either privately, corporately or cooperatively owned—see Act No. 69 of the Public Acts of 1929, being §460.501 et seq. of the Michigan Compiled Laws, and Act No. 206 of the Public Acts of 1913, being §484.101 et seq. of the Michigan Compiled Laws, in the utility's franchise or filed exchange territory; provided, each utility owning or operating a supply circuit or circuits, files with this commission as soon as practicable and every year thereafter, within 90 days following the close of the calendar year, a map or maps of its territory. Said map or maps shall preferably be at the scale of 1 inch to the mile and shall show county, township, and section lines, the outline of urban communities and all highways in the territory served by the utility. Highways on which electrical service is available for rural service shall be indicated by heavy lines and those in which service is not available by light lines. As soon as the data can be assembled, there shall be indicated on such maps, the approximate location of every farm home not having electrical service available and those not receiving service from existing lines.

History: 1944 A.C., p. 836; 1954 A.C., p. 5943.

R 460.584 Descriptive information.

Rule 4. (1) The information filed with the commission shall include, in duplicate, a detailed description showing the exact location of such construction or changes in construction, together with such maps, plans, elevations, profiles and other descriptive data which will enable the commission to determine within reasonable limits of accuracy the extent of compliance of such construction with the rules of the commission (see commission's order no. 1679). The description shall show all existing construction, all construction which is planned for immediate execution and such future additions and changes as can reasonably be foreseen, and shall contain the necessary information concerning the location of all communication circuits, supply circuits, railroads, bridges, viaducts, embankments, or other structures which may become involved by the proposed construction, together with the names of the owners of the same where available through reasonable effort.

(2) Descriptive data pertaining to the construction details of the proposed line shall be filed with the commission in accordance with the typical forms shown in appendix A, as far as possible. These forms are especially suitable for wood pole lines, and where the type of construction is of a different nature, such changes in the forms shall be made as will give the required equivalent information.

(3) Such information shall be accompanied by a statement of the arrangements which have been made between the various parties concerned in accordance with the provisions of R 460.585.

(4) The approval of such plans as are submitted according to the requirements of these rules shall be made for the commission by its chief engineer or other authorized representative by a stamp of approval. One set of such plans when approved shall be returned to the applicant.

(5) The approval of plans in accordance with the procedure herein set forth pertains only to the character of construction and does not confer any rights upon the applicant to carry out construction until all necessary local franchises, permits and authorizations have been secured and all legal requirements have been complied with.

History: 1944 AC, p. 836; 1954 AC, p. 5944.

R 460.585 Notices to others than the commission.

Rule 5. (1) Any party planning the construction of a new line which may create a line crossing, conflict or inductive exposure, or planning reconstruction of, additions to or changes in the operating conditions of an existing line at present involved in a line crossing, conflict or inductive exposure shall give due and timely written notice of such plans to all other parties who are known to be now or likely to be later concerned, so that if it appears necessary to any of the parties involved, due consideration will be given to any specific cooperative measures which may be advisable.

(2) In cases where only distribution systems are involved this rule will be considered as having been complied with when the parties concerned shall have reached satisfactory agreement relative to any cooperative measures.

(3) In case of difficulty encountered in finding the owners of any facilities, a reasonable effort to locate such owners and notification through the public press in general circulation in the locality affected shall be considered to be in compliance with this rule.

History: 1944 AC, p. 837; 1954 AC, p. 5944.

R 460.586 Beginning work.

Rule 6. The party planning construction of a line shall, if requested, except in cases of emergency, notify all other parties known to be concerned at least 7 days in advance of its intention to start work in the field in which the other parties are concerned. In cases of emergency, if requested, such notification shall be given before or at the time work is started in the field.

History: 1944 AC, p. 837; 1954 AC, p. 5945.

R 460.587 Not applicable to railroad wire-crossings.

Rule 7. No approval by the commission of plans for line construction shall include approval of the construction of any railroad wire-crossing which may be involved in such line construction. Separate approval is necessary for such wire-crossing as described in R 460.588 to R 460.592.

History: 1944 AC, p. 837; 1954 AC, p. 5945.

R 460.588 Application to commission.

Rule 8. (1) Any party planning the construction of a new railroad wire-crossing (open wire or in cable) over a railroad, or planning reconstruction of, additions to or changes in the operating conditions of an existing overhead railroad wire-crossing, shall file with the commission for each and every railroad company whose tracks are to be crossed a separate application for a permit to carry out such construction or changes. Such application shall be accompanied by such descriptive information as is required in R 460.589, pertaining to the location

and characteristics of such crossing, and construction or changes shall not be commenced until authorization has been given by the commission to do so, by the issuance of a standard railroad wire-crossing permit; provided, however, that in cases of emergency where it is impracticable to furnish the commission with definite and final information regarding certain required construction details before actual work is begun in the field, then an emergency railroad wire-crossing permit shall be applied for, and the issuance of such emergency permit may be construed as authority of the commission for beginning the proposed construction. As soon as possible thereafter the commission shall be furnished with definite and final information regarding such required construction details as were previously omitted and application made for the standard railroad wire-crossing permit; provided further, that where construction standards pertaining to the type of crossing under consideration have been previously filed with and approved by the commission, then construction may be begun as soon as a letter has been filed with the commission, stating that a proposed crossing is to be constructed in accordance with standards previously approved by the commission, designating the title and the docket number of the proceedings where the construction standards were approved, giving the exact location of the crossing; which letter shall have attached a waiver of hearing and the consent to the crossing on the part of the railroad company whose railroad will be affected by the crossing.

(2) Where the application is made under the last proviso, upon receipt of a letter, together with the waiver of hearing and consent on the part of the railroad, a permit number will be assigned to the crossing and the applicant will be advised that such assignment has been made. The applicant may begin construction as soon as the permit number for the crossing has been assigned. When the wire-crossing has been completed, the applicant shall notify the commission of that fact and shall file with the commission an affidavit that the construction was fully in accordance with the commission's standards applicable to such a crossing. (Note: In the case of existing crossings, always indicate this fact in the application, giving the number and date of any previous permit.)

(3) The law provides for a formal hearing before the commission in the matter of permits for railroad wire-crossings, unless waiver of hearing is granted on the part of the railroad company concerned. It is recommended that, before application is made to the commission for such permit, the party planning the construction of a railroad wire-crossing submit to the railroad complete information as to the details of such crossing and request written waiver of right of notice and hearing before the commission. When such waiver is granted, the application to the commission must be accompanied by such original waiver. (Note: Application for an emergency railroad wire-crossing permit may be made by telegraph, if found necessary, and waivers made in such manner will be honored by the commission. In such cases the emergency permit will be issued by telegraph, if requested. Confirmations of applications by telegraph should be sent by mail and permits issued by telegraph will be followed by written permit.)

History: 1944 AC, p. 837; 1954 AC, p. 5945; 1954 ACS 1, p. 33, Eff. Mar. 18, 1955.

R 460.589 Descriptive information.

Rule 9. (1) The information filed with the commission shall include, in duplicate, a detailed description showing the exact location of the crossing, together with all the construction details and other data which will enable the commission to determine within reasonable limits of accuracy the extent of compliance of such construction with the rules of the commission. (See commission's order no. 1679.) The description shall show all existing construction, all construction which

is planned for immediate execution and shall contain the necessary information concerning the location of all communication and supply circuits, railroads, bridges, viaducts, embankments or other structures which may become involved in the proposed construction, together with the names of the owners of the same.

(2) Descriptive data pertaining to the construction details of the proposed crossing shall be filed with the commission, as far as possible, in accordance with the typical forms in appendices B or C, whichever applies.

(3) Where the type of construction is of a different nature from that described in the typical forms, such changes in the forms shall be made as will give the required equivalent information.

(4) The approval of such plans as are submitted with applications for wire-crossing permits will be made for the commission by its chief engineer or other authorized representative by a stamp of approval. One set of such plans when approved will be returned to the applicant attached to the permit and shall be a part thereof.

(5) The issuance of a railroad wire-crossing permit pertains only to the exact location and character of construction specified in the plans attached to the permit, and does not confer any rights upon the applicant to carry out construction until all necessary franchises, permits and authorizations have been secured and all legal requirements have been complied with.

History: 1944 AC, p. 838; 1954 AC, p. 5945.

R 460.590 Refusal of waiver; procedure.

Rule 10. When the railroad company's waiver cannot be secured, written notice of the filing of an application for a railroad wire-crossing permit and notice of the time and place for any hearing of such application as may be set by the commission shall be given by the applicant to the railroad company concerned and to any other parties known to be concerned. Such notices shall be accompanied by a copy of all information submitted to the commission with the application, and shall be served at least 10 days before the time of hearing.

History: 1944 AC, p. 838; 1954 AC, p. 5946.

R 460.591 Wire-crossings created by railroads.

Rule 11. (1) Any party planning the construction of a new steam or electric railroad or planning reconstruction of, additions to (including extensions) or changes in the tracks, lines or other property of an existing steam or electric railroad which will create a railroad wire-crossing with an existing supply or communication line or which will cause changed conditions with respect to existing railroad wire-crossings shall give written notice of such plans to all other parties known to be concerned, so that due consideration will, if it appears necessary to any of the parties involved, be given to any specific cooperative measures which may be advisable.

(2) In case of difficulty encountered in finding the owners of any facilities then a reasonable effort to locate such owners and notification through the public press in general circulation in the locality affected shall be considered to be in compliance with this rule.

(3) Railroad wire-crossing permits shall be promptly secured by the owner or operator of the existing wire line in every case where a railroad wire-crossing is thus created or where there are material changes in the conditions at an existing crossing. In all such cases the railroad company shall cooperate with any party owning the wires involved in making application to the commission for a wire-crossing permit.

APPENDIX A

General Data Sheet for Proposed Electrical Line
(Supply or Communication)
(To be accompanied by drawings, plates 1 and 2, on following pages)

Note: Size of this data sheet to be 8½" x 11" or multiples thereof. This data sheet and drawings to be filed in duplicate.

Name of company

Name of line

Kind of line—Supply (transmission or distribution) or communication

Purpose of line

Location—Give a general description of the course of the line (show detailed location on drawing)

Circuits—Number, voltage, frequency, number of wires, phase, lightning protection wire, telephone, etc.

Poles and towers—Wood or steel poles, or steel towers; Material and size (in general)

Cross arms—Material and size (in general); Number, immediate construction; Number, future construction

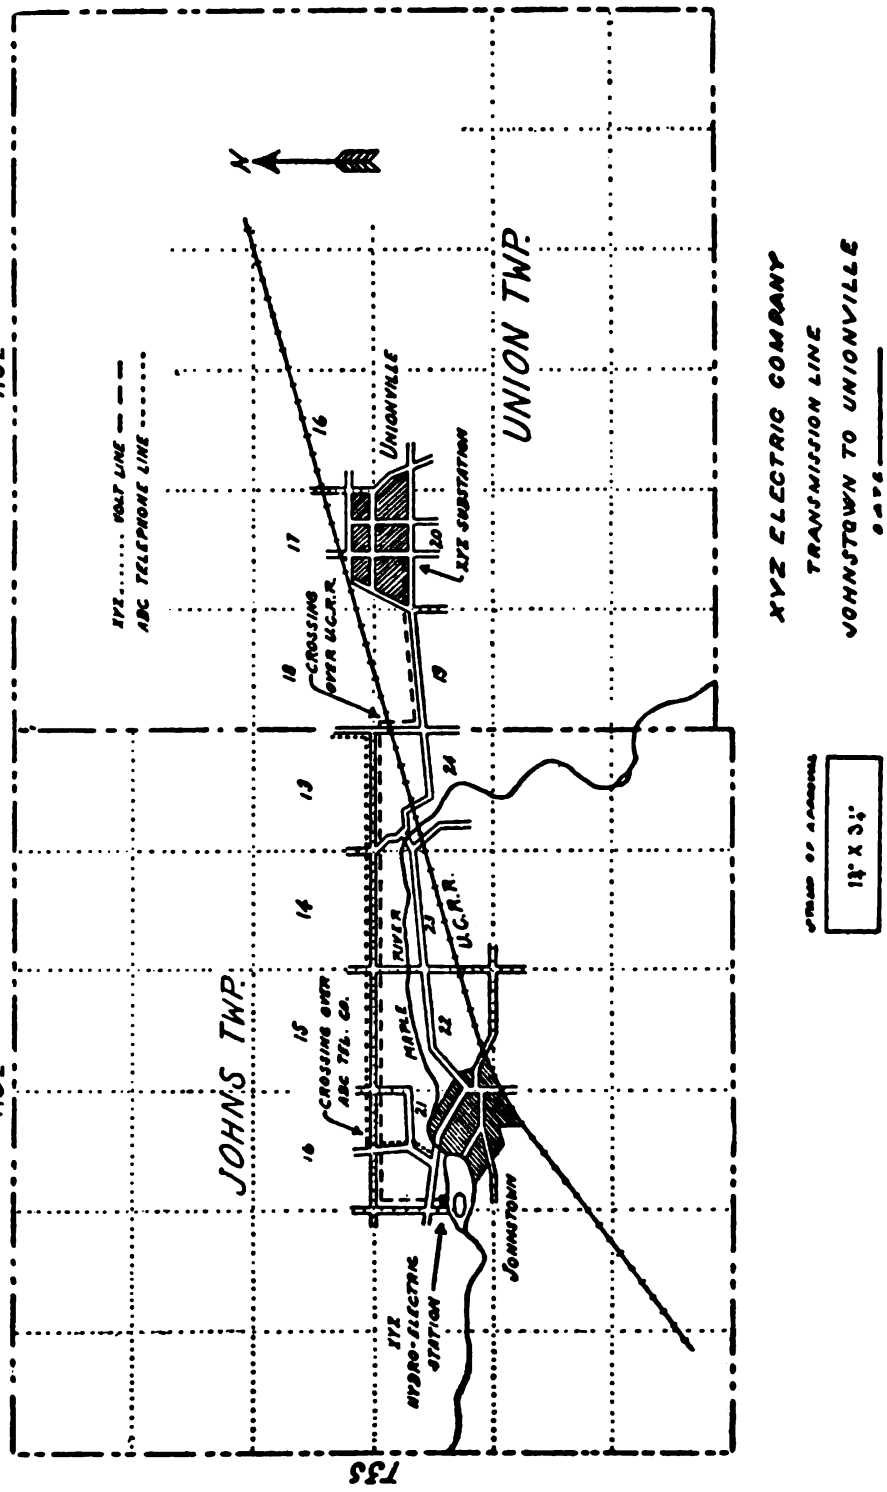
Pins—Material and size (in general); If metal, state if galvanized

Insulators—Make, type (pin or suspension), material and catalog number

Conductors—(By circuits); Open or in cable; Number and size; Material (give details; for example, if of copper, state whether soft, medium or hard-drawn); Solid or stranded; Bare or insulated

Railroad tracks crossed—Name and location of each; Overhead, underground or underbridge

Other lines—Give names of parties owning lines which will be paralleled or crossed by proposed line. Give statement of agreement concluded in each case.



History: 1944 AC, p. 839; 1954 AC, p. 5947.

APPENDIX B

Data Sheet for Overhead Supply Line Railroad Wire-Crossing
(To be accompanied by drawing, plate 3, on following page)

Note: Size of this data sheet to be 8½" x 11" or multiples thereof. Reference marks should be used on accompanying drawing, if necessary, to indicate items described on this data sheet. This data sheet and drawing to be filed in duplicate.

Name of company

Name of railroad

Name and location of crossing—Give name of street, city or village and county. If outside of city or village, give name of township, county, section number, survey number and range number. The distance of crossing from the nearest street intersection, station or other landmark should also be given.

Circuits—Describe each circuit giving voltage, frequency, number of wires, phase, lightning protection, telephone, etc.

Poles—Material,—southern pine, western cedar, etc.; Total length; Circumference at top; Circumference at ground line; Depth of setting; Kind of setting,—earth, rock, swamp, etc.

Guys—Number per pole, kind and size; Ultimate strength; Attachment to pole,—height above ground; Attachment to anchor,—distance from pole

Guy clamps—Number, kind and size

Guy insulators—Number, kind and size

Guy anchors—Kind and size; Depth of setting

Anchor rods—Material and size

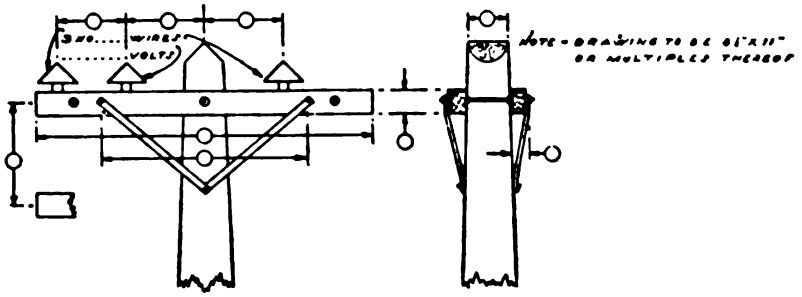
Cross arms—Material and size; Number, immediate construction; Number, future construction

Cross arm attachments—State of galvanized; Center bolts,—size; Spacers,—kind and size; Braces,—kind and size; Brace bolts,—kind and size at arm end; Brace bolts,—kind and size at pole end

Pins—Material, type and size; If metal, state if galvanized

Insulators—Make, type number, material and catalog number

Conductors—(by circuits) Number and size; Material (give details; for example, if of copper state whether soft, medium, or hard-drawn); Solid or stranded; Bare or insulated



Ties—Type (show by sketch); Tie wire,—material and size

History: 1944 AC, p. 842; 1954 AC, p. 5950.

APPENDIX C

Data Sheet for Overhead Communication Line
Railroad Wire-Crossing
(To be accompanied by drawing, plate 5, on following page)

Note: Size of this data sheet to be 8½" x 11" or multiples thereof. Reference marks should be used on accompanying drawing, if necessary, to indicate items described on this data sheet. This data sheet and drawing to be filed in duplicate.

Name of company

Name of railroad

Name and location of crossing—Give name of street, city or village and county. If outside of city or village, give name of township, county, section number, survey number and range number. The distance of crossing from the nearest street intersection, station or other landmark should also be given.

Poles—Material,—southern pine, western cedar, etc.; Class,—A, B or C; Total length; Circumference at top; Circumference at ground line; Depth of setting; Kind of setting—earth, rock, swamp, etc.

Guys—Number per pole, kind and size; Nominal breaking strength; Attachment to pole,—height above ground; Attachment to anchor,—distance from pole

Guy clamps—Number, kind and size

Guy insulators (if any)—Number, kind and size

Guy anchors—Kind and size; Depth of setting

Anchor rods—Material and size

Cross arms—Materials, size and pins per arm; Number, immediate construction; Number, future construction

Cross arm attachments—State if galvanized; Center bolts,—size; Spacers,—kind and size; Braces,—kind and size; Brace bolts,—kind and size at arm end; Brace bolts (or drive screws),—kind and size at pole end

Pins—Material, type and size; if metal, state if galvanized

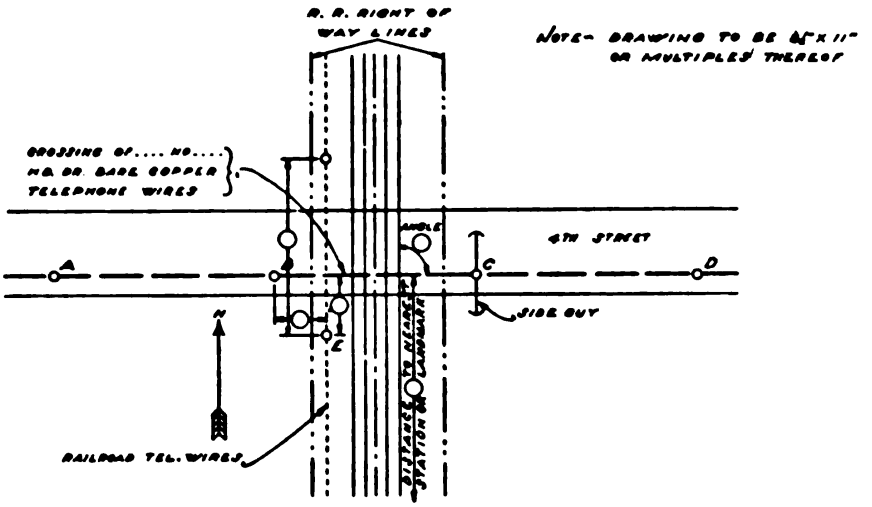
Insulators—Make, type and material

Conductors—Number and size; Material (give details; for example, if of copper state whether soft, medium or hard-drawn)

Messenger strand—Material, kind and size; Nominal breaking strength

Messenger strand attachments—Through bolt,—kind and size; Suspension clamp,—type; Safety strap,—type; Safety strap bolt (or drive screws),—kind and size; Reinforcing link bolts (or drive screws),—kind and size

Cable—Outside diameter; Weight per foot; Number of pairs



Cable rings—Material, type, spacing

History: 1944 AC, p. 844; 1954 AC, p. 5952.

UNIFORM SYSTEM OF ACCOUNTS FOR ELECTRIC UTILITIES

R 460.600—R 460.809 Rescinded.

History: 1944 AC, pp. 848-943; 1954 AC, pp. 5954-6074; rescinded 1954 ACS 24, p. 31, Eff. Jan. 1, 1961.

PRODUCTION AND TRANSMISSION OF NATURAL GAS

(By authority of section 5 of Act No. 9 of the Public Acts of 1929 and section 4 of Act No. 3 of the Public Acts of 1929, as amended, being §§483.105 and 460.4 of the Michigan Compiled Laws)

R 460.851 Scope and application.

Rule 1. These rules apply to the conduct of the business of all natural gas producers, gathering companies and transmitters which are or may hereafter be subject to the jurisdiction of the Michigan public service commission under the laws of the state of Michigan: provided, that when the production of natural gas is incidental to, and unavoidable to connection with, the production of oil or mineral water, R 460.860, R 460.861, R 460.862, R 460.864, R 460.865, R 460.866, R 460.867, R 460.869, R 460.870, and R 460.871 shall not apply, but special rules and regulations pertaining in each such case will be issued by the Michigan public service commission whenever necessary. The grouping of rules under the headings of production and transmission is for convenience only and the application of any rule is not restricted because of this fact.

History: 1944 AC, p. 960; 1954 AC, p. 6074.

R 460.852 Definitions.

Rule 2. For the purposes of these rules the following definitions apply:

(a) The word "commission" shall be defined to mean the Michigan public service commission.

(b) The words "producer" or "operator" shall be defined to mean any corporation, association or person now or hereafter controlling or being responsible for the control of any well, or of the production of gas therefrom.

(c) The term "well owner" shall mean any owner of a full working interest in any well, and the term "fractional well owner" shall mean any owner of a fractional working interest in any well.

(d) The word "transmitter" shall be defined to mean any corporation, association or person, now or hereafter engaging in the carrying or transporting of natural gas by pipe line or lines.

(e) The term "common purchaser" shall be defined to mean any transmitter engaging in the business of purchasing and transporting natural gas for hire, compensation or otherwise: provided, that factories or industries in this state may transport or transmit natural gas through pipe lines for their own use in plants located wholly within this state without constituting themselves common purchasers. (See sections 3 and 4 of Act No. 9 of the Public Acts of 1929.)

(f) The term "common carrier" shall be defined to mean any corporation, association or person purchasing or collecting natural gas and conveying or transmitting the same for hire, compensation or otherwise by pipe line or lines as a common carrier. (See section 6 of Act No. 9.)

(g) The words "gas" or "natural gas" as used in these rules shall, unless otherwise specifically provided, be defined to mean dry, merchantable, natural

gas, either dry gas as produced from a dry gas well or so-called casinghead gas after removal of gasoline vapors, or either such gas after dilution with other gas or gases, as distinguished from so-called casinghead gas before treatment for removal of gasoline vapors.

(h) The term "cubic foot" of gas as used in these rules shall have the following meanings:

(i) In cases where gas is supplied and metered to the ultimate consumer at the standard delivery pressure which may vary from 3 inches to 10 inches water column, a cubic foot of gas shall be defined to be that volume of gas which, at the temperature and pressure existing in the meter, occupies 1 cubic foot.

(ii) In cases where gas is supplied to purchasers through orifice or positive meters at other than standard delivery pressure as defined above, a cubic foot of gas shall be defined to be that volume of gas which, at 60 degrees Fahrenheit and at absolute pressure of 14.65 pounds per square inch, occupies 1 cubic foot; except that in cases where a different pressure base that is considered by the commission to be fair and reasonable is provided for in gas sales contracts or in rules or practices of a distributor such different pressure base shall be effective. (Corrections for temperature and pressure shall be made in accordance with Charles' law and Boyle's law respectively, except that, when the meter pressure is 125 pounds per square inch gauge or greater, correction shall be made for deviation from such laws (supercompressibility) in accordance with American gas association gas measurement committee report no. 3, "Orifice Metering of Natural Gas" dated April, 1955, or other procedures which may be approved by the commission.)

(iii) The cubic foot of gas for the purposes of measuring gas produced and purchased at wells shall be defined to be that volume of gas which, at an assumed temperature of 60 degrees Fahrenheit and an absolute pressure of 15.025 pounds per square inch, occupies 1 cubic foot: provided, that contracting parties may agree to any special method or procedure in measuring or determining temperatures that is considered by the commission to be reasonable. (Corrections for temperature and pressure shall be made in accordance with Charles' law and Boyle's law respectively, except that, when the meter pressure is 125 pounds per square inch gauge or greater, correction shall be made for deviation from such laws (supercompressibility) in accordance with American gas association gas measurement committee report no. 3, "Orifice Metering of Natural Gas" dated April, 1955, or other procedures which may be approved by the commission.)

(iv) The standard cubic foot of gas for testing the gas itself for heating value, etc., shall be that volume of gas which, when saturated with water vapor and at a temperature of 60 degrees Fahrenheit and under a pressure equivalent to that of 30 inches of mercury (mercury at 32 degrees Fahrenheit and under standard gravity) occupies 1 cubic foot. (Corrections for temperature and pressure shall be made in accordance with Charles' law and Boyle's law respectively, except that, when the meter pressure is 125 pounds per square inch gauge or greater, correction shall be made for deviation from such laws (supercompressibility) in accordance with American gas association gas measurement committee report no. 3, "Orifice Metering of Natural Gas" dated April, 1955, or other procedures which may be approved by the commission.)

(i) "Absolute open flow" is defined as the number of cubic feet of gas per 24 hours that would be produced by a well if the only pressure against the face of the producing sand in the well bore were atmospheric pressure.

(j) "Modified open flow" is defined as the absolute open flow of a well multiplied by the acreage factor applied to such well. (See R 460.865(2).)

History: 1944 AC, p. 980; 1954 AC, p. 6074; 1954 ACS 38, p. 80. Eff. May 15, 1964.

R 460.853 Qualifying clause.

Rule 3. The adoption of these rules shall in no way prevent the commission from altering or amending the same in due legal form, in whole or in part, or from requiring any other or additional services, appliances or standards, either upon its own motion or upon the application of any consumer, producer, transmitter or distributor.

History: 1944 AC, p. 961; 1954 AC, p. 6075.

R 460.854 Reference to commission.

Rule 4. In any case where the parties concerned shall fail to agree upon the application or the interpretation of any of these rules, or in case of disagreement regarding regulations promulgated by any producer, common carrier, common purchaser or distributor concerning service, the matter may be referred by either party to the commission for settlement.

History: 1944 AC, p. 961; 1954 AC, p. 6075.

R 460.855 Jurisdiction.

Rule 5. (1) The jurisdiction of this commission, according to Act No. 9 of the Public Acts of 1929, over all gas wells and over the production of gas from such wells shall begin at the time the production or preparation for production is started and shall continue and remain with the commission until production is abandoned. The operations of drilling, deepening, plugging and abandoning, and in fact all underground work on gas wells, is under the jursidiction of the supervisors of wells of the department of conservation. (Refer to the rules of the department of conservation covering the drilling, deepening and plugging of wells for natural dry gas.)

(2) Any gas well shall be considered as producing or preparing for production at such time as an application for a well connection permit has been filed with the commission, but in case connection with a line to take gas from any well for any purpose is made before an application for a well connection permit is filed, the commission's jurisdiction over such well shall begin when work of installing connections is started.

(3) During the period that gas wells are under the supervision of the commission it shall be the duty of the chief engineer, directly or through his authorized representatives:

(a) To enforce such rules as the commission may adopt to carry out the requirements of said act.

(b) To inspect the maintenance and operations of all gas wells with a view to preventing waste of gas, damage to gas producing strata or formation, or injury to life or property, and to issue in accordance with the natural gas acts, necessary instructions to guard against and prevent such waste, damage or injury.

(c) To determine the percentage of the open flow capacity of any gas well which may be utilized when in his opinion such action is necessary to protect the gas producing formation; and to specify the time and method for determining the open flow capacities of wells.

(d) To regularly gather data and compile statistics showing production of gas from all wells, fields or pools, and the value of the gas produced.

History: 1944 AC, p. 961; 1954 AC, p. 6075.

R 460.856 Availability of records.

Rule 6. All records required by these rules shall be kept in files within the boundaries of the state, at the offices of the producer or transmitter responsible

for such records, and shall be available at all reasonable times for examination by authorized representatives of the commission: provided, that temporary absence of records from the state that are necessary or convenient in the record system of a producer or transmitter are approved, and that in specific cases the commission may at its own discretion or upon proper showing, authorize other modifications of this provision. All such records shall be preserved for at least 3 years after they are made, except as otherwise provided.

History: 1944 AC, p. 981; 1954 AC, p. 6076.

R 460.857 Waste prohibited and defined.

Rule 7. (1) Natural gas shall not be produced, transmitted or distributed in the state of Michigan in such manner and under such conditions as to constitute waste.

(2) The term "waste" as used in these rules in addition to its ordinary meaning shall include (a) the permitting of any gas to wastefully burn, (b) the wasteful use of gas including the use of gas in its natural state in engines or pumps where its pressure is the main or direct operating force, unless such gas can be consumed after discharge from such engines or pumps for normal use for fuel purposes, (c) surface waste, which shall include the unnecessary blowing, release or escape of natural gas into the open air, and any unnecessary or excessive surface loss, including leakage, fire loss and loss or destruction incident to the manner of equipping, operating or producing of such well or wells, or by inefficient handling thereof, (d) underground waste, which shall include inefficient, excessive, or improper use or dissipation of the reservoir energy, including gas energy and water drive, of any pool; and the equipping, operating, or producing of any well or wells in such a manner as to reduce or tend to reduce the total quantity of gas ultimately recoverable from such pool, and the unreasonable damage to underground deposits from the operation, maintenance or production of gas; and (e) the intentional drowning with water of a gas stratum capable of producing gas (except that temporary drowning may become necessary as an exigency of drilling or repairing wells).

History: 1944 AC, p. 982; 1954 AC, p. 6076.

R 460.858 Fire prevention and control.

Rule 8. The commission recognizes that practically all gas well fires occurring after wells have been placed on production are due to improper wellhead design or carelessness and the attention of well owners and operators is particularly directed to the following R 460.859 and R 460.860 in order to eliminate this hazard.

History: 1944 AC, p. 982; 1954 AC, p. 6076.

PRODUCTION

R 460.859 Wellhead heaters.

Rule 9. Heaters for preventing freezing in wellhead connections shall be installed or reinstalled for service at the beginning of each winter, only after wellhead connections are checked for leakage, and after any leakages have been repaired and stopped. The products of combustion, or the burned fumes from gas or any other fuel, shall not be used in such heaters or in any other way to apply heat directly to wellheads or to thaw out connections. The points of air mixture for any flame at any wellhead heater shall be located at least 10 feet from the wellhead, and any burned exhaust gases shall be discharged from flue or chimney at least 8 feet from wellhead or wellhead connections and at least 4 feet higher than the top of wellhead connections. All heaters installed at or near wellheads shall be inspected at least once daily while in operation.

History: 1944 AC, p. 982; 1954 AC, p. 6076.

R 460.860 Wellhead fittings.

Rule 10. (1) Wellhead connections shall be designed and installed in accordance with principles of design and installation illustrated on plate 1A, appendix A, unless specific approval is secured in writing from the chief engineer.

(2) Master or control valve shall be installed with valve stem not less than 2, nor more than 4 feet above the ground level, provided that whenever tubing or siphon is installed in any well, the valve and wellhead fitting construction and spacing will necessarily be governed by special conditions in each separate case.

(3) Wheels on valves shall be left and secured in place to facilitate emergency opening or closing of valves with an emergency long stemmed wrench or key.

(4) A space free from surface obstructions shall be kept clear on the stem or wheel side of each control gate or valve, so that workmen can approach wells and use long stemmed wrenches or keys in opening or closing valves in case of fire.

History: 1944 AC, p. 982; 1954 AC, p. 6077.

R 460.861 Determination of well capacity.

Rule 11. (1) The producing or open flow capacities of wells to be used as a basis for proration shall be determined by the commission at its discretion, when necessary for the practical, equitable and economical operation of wells, pools or fields. The method of determining said capacity where practicable shall avoid the waste of gas encountered in the "open flow" test method, and shall make use of the United States bureau of mines production capacity test method that is based on observations of shut-in well pressure and the measurement of volumes of gas production at varying wellhead pressures, or of any improvements that may be approved by the commission.

(2) Capacity tests may also be made by producers, purchasers or transmitters with the approval of the commission. The commission may require that any applicant for such test shall make a sufficient showing of necessity for a test. All information obtained from such tests shall be promptly compiled and filed with the commission.

(3) When a producer is dissatisfied with a capacity test he may require the commission to redetermine the open flow capacity of the well by notifying it to that effect and depositing the sum of $10.00 with it. If the retest shows the original test to be materially in error, the deposit will be refunded, otherwise it will be retained as nominal compensation for the costs incurred in making the test.

(4) Records of tests of meters, well capacity tests or tests of specific gravity, chemical composition or heating value of gas made by or on the order of any producer, transmitter, purchaser, distributor, or consumer shall be available for information of the commission, and reports shall be filed with the commission when requested.

History: 1944 AC, p. 982; 1954 AC, p. 6077.

R 460.862 Well meters.

Rule 12. (1) No gas shall be withdrawn from wells for transportation or sale, nor for any other regular and extended uses, except for fuel for drilling on the same lease, or for use for domestic purposes by lessors (as usually specified in oil and gas leases), without being metered: provided, however, that the commission may approve in advance an estimate of the amount that will be required for a specific drilling operation off the lease. The commission's representatives shall have access to all meter houses and meters at all times.

(2) Each gas well completed after the effective date of this order shall be equipped with its own separate meter, except that:

(a) The commission may, in cases of small wells, permit the measurement of the gas from more than 1 well through a single meter.

(b) The commission, the interested well operator and the gas purchaser jointly may, in cases of large wells of identical operator control, agree to the measurement of the gas from more than 1 well through a single meter; provided that:

(c) In either case (a) or (b) of this subrule, the gas from only 1 well at a time shall be measured by a single meter, and that through the use of check-valves, "blind" discs or other device or means, lines from all wells except the 1 from which gas is being measured shall be completely closed so that the gas from any 2 or more wells shall not be in any way intermixed prior to measurement.

(3) Meters shall be located as close to wells as is reasonably practicable, considering accessibility and the possible desirability in some cases of grouping not more than 4 well meters in 1 meter house. Flow lines from wells to meters shall be constructed, maintained and operated in such manner that leakage losses and waste may be avoided, and these lines shall be patrolled regularly to check for leaks or breakage that may develop through unforeseeable and unavoidable accidents.

(4) In view of the latitude allowed in the location of meters and the probability that the "point of delivery" of gas at the wellhead will be some distance from the point of measurement, the gathering company or purchaser is charged with a high degree of care in preventing all gas loss between these 2 points and shall therefore arrange its operating procedure to that end.

(5) The commission shall have authority, upon notice to any purchaser or transmitter, to cause to be made such tests as it may deem necessary to determine the accuracy or other conditions of any meter or of its appurtenances, (see. R 460.907 and R 460.909 in "standards of gas service") and any such purchaser or transmitter shall be entitled to be present at any such test if he so elects.

(6) Upon written request by an interested well operator, well owner or fractional well owner, the commission shall cause to be made special tests of meter through which gas from a well is being measured for any purpose, and the applicant, the gas purchaser or transmitter, and other interested parties shall be entitled to be present when any such test is made. One such special test of a meter shall be made during any calendar year for a fee of $5.00; further special tests of the same meter during a calendar year may be made at the discretion of the commission upon written application of an interested well owner or operator presenting evidence of the necessity for such special test, for a fee of $15.00; but for any test after the first 1 during any calendar year, the commission may at its discretion add to the fixed fee of $15.00 a charge for all traveling and subsistence expenses incurred by its representatives in making such tests.

(7) Any application by an interested well owner or operator for a special meter test shall be accompanied by a deposit of the fixed fee for such test. If the test shows that the calculated measurements of gas are or have been in error more than 2% in favor of the gas purchaser, the deposit made by the well owner or operator shall be refunded to him, and the amount of such refund shall be paid to the commission by the gas purchaser.

(8) In cases where gas measurements are shown by meter tests to have been in error more than 2%, adjustments of accounts shall be made in favor of the party in interest who has been injured by reason of such errors, the measurement error indicated by the meter test being applied to all recorded gas measurements during the time such error has existed if such time is ascertainable, and if not ascertainable then said correction shall be made for ½ of the period since the meter was last tested and adjusted in a manner satisfactory to the commission; except that in

cases where a different basis of adjustment considered by the commission to be fair and reasonable is provided for in gas purchase contract such different basis shall be effective.

(9) No adjustments in accounts need be made if such adjustments amount to less than $2.00 per month.

History: 1944 AC, p. 963; 1954 AC, p. 6077.

R 460.863 Unmetered gas.

Rule 13. Lessors of lands who are using unmetered gas from wells located on their lands for domestic fuel in their principal houses or dwellings, and well operators or owners who are using unmetered gas from their wells for fuel for drilling on the same lease, shall so construct and maintain their lines and the fittings thereon that there shall be no leakage losses. No wasteful gas burners or other wasteful gas consuming appurtenances shall be used by these consumers of unmetered gas. The representatives of the commission shall require the immediate correction of any wasteful use of gas by these classes of consumers, and may prohibit the continued use of gas if such corrections are not made immediately.

History: 1944 AC, p. 964; 1954 AC, p. 6079.

R 460.864 Permit for well connection.

Rule 14. (1) The operator of each well shall, before gas is produced from such well, make application to the commission on form provided therefor, (form 15A, appendix A) for permission to sell gas from such well: provided, that application and permit shall not be required for making connection to pipe lines used exclusively for transporting or transmitting gas for fuel for drilling wells, or gas used in homes of lessors of lands on which wells are located.

(2) Any application for a standard well connection permit should be submitted to the commission not less than 15 days before the first day of the month during which it is expected that receiving, transmitting or purchasing of gas shall commence. Upon receipt from a well operator of a properly executed application for a well connection permit, the commission will issue well connection permit order (form 16A, appendix A) and will furnish a copy thereof to the purchaser or transmitter designated by the applicant operator, such copy to be furnished to the purchaser or transmitter at least 10 days before the first day of the monthly period used in accounting for gas. The commission will cause well capacity test to be made, and following such test will issue an allowable withdrawal order (form 17A, appendix A) to the well operator, and will furnish a copy thereof to the purchaser or transmitter on or before the first day of the monthly period used in accounting for gas.

(3) The purchaser or transmitter shall connect such well to its gathering system and prepare to receive, transmit or purchase gas during the next succeeding monthly period used in accounting for gas, provided that it has received the copy of the well connection permit from the commission at least 10 days before such date; that the operator has prepared and placed the well in condition to make such connection conveniently possible, and that obstacles or conditions beyond its reasonable control do not prevent such connection.

(4) In case of emergency a temporary well connection permit may be issued by wire upon receipt of an application by telegraph from well operator, giving the full name of the applicant, the full name of the well, the conservation department permit number, the date of well completion, and the open flow capacity of the well; and also a telegraphic statement from the prospective transmitter or common purchaser of gas that it will accept said well for connection. Such

telegraphic application must be followed within 10 days by the regular application required in subrule (1) of this rule.

(5) The commission and a transmitter or purchaser may at their option and discretion cooperate, if it is reasonably practicable, to issue orders, make well capacity tests, connect to wells and make provisions for receiving, transmitting or purchasing gas from a well if the application for temporary or standard well connection permit has not been filed with the commission as much as 15 days before the beginning of the monthly period used by the transmitter or purchaser in accounting for gas, but there shall be no obligation in such cases on the part of either the commission or the transmitter or purchaser to either commence or complete such orders, tests, connections or preparations to receive, transmit or purchase gas during the next succeeding monthly period.

(6) With each standard well connection permit there will be issued a metal plate bearing the permit number. This plate must be affixed to the wellhead substantially as shown on plate 1A, appendix A, and in case of loss or destruction must be immediately replaced. The original plate will be furnished without charge, but a nominal charge of 50 cents will be made for each replacement plate.

(7) When processed casinghead gas is to be transmitted for public use, application shall be made to the commission for a special connection permit before transmission by pipe line is begun. (See R 460.851.)

History: 1944 AC, p. 984, 1954 AC, p. 6079.

R 460.865 Taking of gas.

Rule 15. (1) Maximum withdrawal:

(a) General. The maximum withdrawal during any 12 months' period from any gas well shall average on a daily basis not more than 17½% of the current approved absolute daily open flow capacity of such well, such withdrawal being the allowable maximum annual withdrawal. Whenever a new open flow capacity test is made and approved by the commission, such new test will, upon notice to the producer and transmitter, become immediately effective in determining the maximum withdrawal. In order to provide for a variable seasonable demand, the following percentages of the last determined allowable maximum annual withdrawal may be taken, but not exceeded: In any 6 consecutive months, 66%; in any 1 month, 12½%; and in any 1 day, .6 of 1%.

(b) Special. The maximum withdrawal from Monroe gas wells located in the Walker-Talmadge oil field shall not exceed 50% of the last officially measured open flow of each such well.

(c) Special. The maximum withdrawal during any 12 months' period from any gas well in the Howell field shall average on a daily basis not more than 25% of the current approved absolute daily open flow capacity of such well, such withdrawal being the allowable maximum annual withdrawal. The allowance for seasonable variation in the rate of take as set forth in subrule (1)(a) shall continue to be based on the annual maximum allowable withdrawal determined as 17½% of the open flow, unless the allowance so determined shall be less than 25% in which case the 25% allowance shall prevail.

(d) Special. When a dry natural gas field has been depleted to such an extent that production has become merely a stripper operation, the commission may approve different maximum withdrawals than required by subrule (1)(a) if it finds that such different withdrawals will conserve gas and, in its opinion, support commercial production for a longer period than would otherwise be the case.

(2) Acreage factor. The acreage or area from which any well is considered to produce or draw gas shall enter into the determination of the take of gas from

such well, a well in the center of a square 40-acre tract of land being considered as unity, with an acreage factor of 1. The factor for a well producing from a square or rectangular tract of any area other than 40 acres shall be the area in acres allotted to such well divided by 40, and the factor for a well in the center of a base drilling or producing unit of 160 acres of land shall be 4; provided that:

(a) No side of the area allotted a well shall be farther from the well than the distance from the center point of the production area to the most distant side thereof, excepting that:

(i) In the case of a discovery well, this distance may be increased by as much as 330 feet for a well located on a 40-acre tract of land, and 990 feet for a well located on a 160-acre tract of land.

(ii) In the case of a well drilled off center of a production area because of topographical or other physical conditions, this distance may be increased by not to exceed 25% upon presentation to the commission of satisfactory proof, supported by a map and a written statement showing that a center location was prohibited. Every reasonable effort shall be made to drill wells at center locations.

(iii) The 16 gas wells drilled, or in the process of drilling, in the Cannon Creek gas field in the counties of Missaukee and Kalkaska prior to September 15, 1950, shall each be entitled to an acreage factor of 4, as long as the producing unit assigned to each is 160 acres, notwithstanding any other provisions of this rule.

(b) In addition to the above provisions, acreage factors shall be subject to the following limitations:

(i) The length of a production area shall not be greater than twice its width.

(ii) Production areas shall not overlap.

(iii) Any production area shall be entirely within the leasehold (or leaseholds in case 2 or more are pooled) on which the well to which it refers is drilled.

(iv) No acreage factor shall exceed 4 except in the Kawkawlin-Salina gas field, as it is now or may be hereafter defined by the supervisor of wells, wherein it may be increased to 16.

(v) The acreage factors for wells located on tracts that are neither square nor rectangular shall be determined by the commission in each individual case, following, insofar as they are applicable, the general principles applied herein.

(vi) In the following fields which have been developed with 40-acre drilling units, there shall be no acreage factor greater than 1, unless the operator or leaseholder shall secure and file with the commission written consent from all direct and diagonal offset 40-acre leaseholders upon whose holdings there are producing or productive gas wells.

Austin	Crystal
Six Lakes	Broomfield
New Haven-Sumner	Clare (McKay)
West Vernon	Vernon

(vii) No well drilled on a 40-acre location in any of the above fields shall be entitled to an acreage factor greater than 1 if such well is directly offset by more than 2 producing or productive wells with acreage factors of 1 or less.

(c) Traverse oil wells drilled in the Walker-Talmadge field prior to February 25, 1942, shall, when either deepened to produce gas from the Monroe formation or plugged back to produce gas from the Berea formation, receive acreage factors as provided by the attached map entitled plate 2a, but any Monroe or Berea gas wells drilled from the surface of the ground in the Walker-Talmadge oil field subsequent to February 25, 1942, shall receive acreage factors based on the usual provisions as stated in subrule (2)(a) and (b) of this rule.

(3) Minimum take:

(a) The minimum allowable take of gas from any well shall be 500,000 cubic feet per month, except under the following conditions:

(i) In no case shall the total gas taken from a well be larger than provided for in subrule (1).

(ii) The average minimum volume of gas production monthly per well shall be in conformity with the market demand when such market demand is not high enough to permit the taking of the full minimum allowable from all wells. Each operating month as used by the gas purchasers in a field shall be considered separately in administering the minimum take provisions herein, and, if the total sale or take of gas from any field or pool during any such monthly period is not sufficient to permit the taking of the full minimum allowable from each well, there shall be no carryover or balance of gas to be taken from such well, field, or pool under these minimum take provisions because of such deficiency in total market demand.

(iii) The minimum take of gas from any well having an acreage factor other than 1, as provided for in subrule (2), shall be modified or adjusted by multiplying the minimum allowable take of 500,000 cubic feet by such acreage factor, the resulting minimum take to be subject to the restrictions in subrule (3)(a)(i) and (ii) of this rule.

(b) The allowable take from any well that is not capable of producing as much gas as its allowable minimum under the operating conditions of the field in which it is located shall be the total amount of gas that such well is capable of producing under such conditions.

(c) For fields or pools wherein reservoir conditions and gas withdrawal operations do not permit the practical application of subrule (3)(a), special procedures applicable to such special conditions may be authorized by the commission, provided that any such special procedure shall accomplish the intents and purposes of the rule as closely as is practicably possible.

(4) Ratable taking or gas proration: All gas produced from a field or pool in excess of the minimum allowable provided for in subrule (3) shall be taken ratably from all wells that are capable of producing more than their minimum allowable take. Such excess shall be divided among such wells in proportion to their modified open flow capacities or any other method determined by the commission to be equitable or less wasteful, except that in no case shall the total gas taken from a well be larger than provided for in subrule (1).

(5) Proration schedules:

(a) Proration schedules and orders shall be prepared and issued by the commission. Such orders shall be revised not to exceed once each month, the effective date of any revision being the first day of the monthly period used by the gathering company, transmitter, or purchaser in accounting for gas.

(b) No proration schedule or production order affecting any well shall be made until after well connection permit has been issued.

(6) Well conditioning requirements:

(a) A well to go on proration or production shall have complied with the following requirements: The well and wellhead connections shall be installed in accordance with standards prescribed in R 460.860 of this order. The wellhead connections shall be tight and free from leakage. If there is evidence of underground leakage of gas or of water intrusion, the well shall be repaired to the satisfaction of the commission.

(b) In cases of wells where leaks, other defective well conditions, or water intrusion develop after a well has been placed on proration, the operator shall

Digitized by Google

make repairs promptly and to the satisfaction of the commission, and, if repairs have not been made within a reasonable time as determined by the commission, then such a well shall be taken off proration and shall not be returned to proration until the commission has been notified that repairs have been made and has approved a return to proration.

(c) After any gas well has been placed on proration, no deepening or plugging back work shall be started until the operator has notified the commission and the gas transmitter or purchaser, in writing, and until that operator has secured the approval, in writing, of the supervisor of wells of the department of conservation, of the deepening or plugging back plan, in conformity with the rules and regulations of such supervisor of wells.

(d) A well that is being either deepened or plugged back may be removed from proration:

(i) If, in the judgment of the commission, the showing indicates that the operation may affect the open flow capacity of the well.

(ii) If the operation is to consume a period of 10 days or more.

(iii) If the wellhead fittings remain altered in such a manner that reconnection with a pipe line cannot be made within 10 days after such fittings are removed.

(e) A well that has been removed from proration because of deepening or plugging back operations shall not be returned to proration until it has been placed in condition to resume production in a manner satisfactory to the supervisor of wells of the department of conservation and to the commission, and the gas transmitter or purchaser have been so advised in writing.

History: 1944 AC, p. 965; 1944 ACS 18, p. 45; 1944 ACS 25, p. 14; 1954 AC, p. 6080; 1954 ACS 1, p. 34, Eff. Mar. 18, 1955; 1954 ACS 12, p. 55, Eff. Nov. 21, 1957; 1954 ACS 89, p. 142, Eff. Nov. 23, 1976.

R 460.866 Production reports.

Rule 16. (1) Every operator of 1 or more gas wells shall file with the commission, on or before the twenty-fifth day of each month, producer's monthly report (form no. 18A or 18B, appendix A) giving full information as to production of gas from each well separately and such other data as is requested. This report shall be signed by the producer or by a responsible employee, whose capacity or title shall be indicated, and who is in position to know that the data or information given is correct. The commission may permit, upon application and satisfactory showing, a reporting interval of more than 1 month. If this gas production information is regularly furnished to the commission by the purchaser or transmitter of gas, based on information or data gathered by such purchaser or transmitter, the producer may be relieved of obligation to furnish data.

(2) Any gas used, whether metered or unmetered, for drilling or lease operating or other field fuel purposes on a lease other than the one from which it is produced shall be reported to the commission monthly by the gas producer on form 18B appendix A. Either the price per M. cubic feet of gas or the flat rate charge that is made shall be stated, and in the case of gas that is not metered the estimated approximate volume of gas used shall be stated.

History: 1944 AC, p. 967, 1954 AC, p. 6082.

R 460.867 Pumps or compressors.

Rule 17. No gas well, pool or field shall be placed under vacuum by the use of compressors, pumps or other devices except with the approval of the commission. If and when the placing of a vacuum in any well, pool or field is planned, application for approval shall be made to the commission, and the adjoining lease owners and operators of a pool or field who may be affected shall be given notice.

The commission may call a hearing on the subject, or may take such action as it deems advisable.

History: 1944 AC, p. 967; 1954 AC, p. 6083.

TRANSMISSION

R 460.868 Approval for pipe line project.

Rule 18. (1) Every transmitter shall file with the commission an application (see form 19A, appendix A), setting forth the necessity and practicability of such proposed transmission line or lines; and the commission shall, if its study of the proposed project shows that such line or lines will, when constructed and in operation, serve the convenience and necessities of the public, grant said application; and no construction shall begin prior to the granting of the application and the approval of the map, route and type of construction by the said commission; provided that this rule shall not apply to the laying of pipe lines used exclusively for transporting or transmitting gas for drilling purposes.

(2) The transmitter shall, as a part of the application, submit to the commission a map or plat of the proposed line or lines, showing the dimensions and character of such line or lines, its compressor stations, control valves and connections; an estimate of the cost of the project; an estimate of the proven reserves of gas available for transportation through the proposed line; and an estimate of the anticipated revenue, operating expenses and earnings of the project for a 5-year period.

(3) The transmitter's application shall, among other things, state (a) when said transmitter is a common purchaser the price to be paid producers for the gas and the price at which gas will be sold to distributors; (b) when said transmitter is a common carrier, the rates and fee which it will charge for the service to be performed by it. Certified copies of all executed or proposed contracts with producers or distributors shall be filed with the application, together with such additional information as the commission may require.

History: 1944 AC, p. 967; 1954 AC, p. 6083.

R 460.869 Requirements before transmitter may connect to gas wells.

Rule 19. Transmitters shall not connect with any gas well until a temporary or standard well connection permit has been issued by the commission. (This permit is not required for connecting lines exclusively for carrying gas for drilling purposes.)

History: 1944 AC, p. 968; 1954 AC, p. 6083.

R 460.870 Maximum taking of gas.

Rule 20. The transmitters in any field shall not at any time take gas from such field in greater total amounts than the sum of the withdrawal allowances of all connected individual wells as determined by R 460.865(1).

History: 1944 AC, p. 968; 1954 AC, p. 6083.

R 460.871 Proration among pipe lines and fields.

Rule 21. The allowable rates of withdrawal of gas for purposes of proration among producers and among several purchasers, transmitters or pipe lines from the same field, and the prorating of withdrawals among several fields shall be subject to approval by the commission. It shall be the duty of the commission to determine that production from any pool or field is not abandoned or unreasonably curtailed until recovery of all economically recoverable gas has been assured.

History: 1944 AC, p. 968; 1954 AC, p. 6083.

R 460.872 Discrimination.

Rule 22. (1) Common purchasers and common carriers are expressly prohibited from discrimination in amount of gas taken, price paid for or rates charged for like grades of natural gas or facilities as between producers or persons; and if a common purchaser or common carrier is likewise a producer, it shall not discriminate in favor of its own production or of production in which it may be interested directly or indirectly. The commission shall have authority to relieve any such common purchaser or common carrier, after due application, notice and hearing, from the obligation of purchasing or receiving gas from wells which due to variation in quality and pressure, or for economic reasons, are not at the time a practicable source of supply.

(2) Except in cases where exigency of service requires emergency measures, common purchasers or common carriers shall not abandon nor curtail withdrawals or purchases of gas from any pool or section of pool in favor of another pool or section thereof, because of temporary or permanent decline in reservoir or producing pressure without having first received the approval of the commission.

History: 1944 AC, p. 968; 1954 AC, p. 6084.

R 460.873 Patrolling and supervision.

Rule 23. It shall be the duty of all transmitters to closely supervise the operation of all their lines to the end that leakage may be kept at the lowest practical minimum. This shall include regular patrolling by competent employees and prompt attention to leaks discovered or to other conditions affecting the safe and efficient operation of pipe line systems.

History: 1944 AC, p. 968; 1954 AC, p. 6084.

R 460.874 Transmitter's or purchaser's reports and records.

Rule 24. (1) Every common purchaser, common carrier or transmitter of natural gas shall file with the commission on or before the twenty-fifth day of each month, for the last preceding month, gas transmitters monthly report (form 20A, appendix A), giving full information as to gas purchased from each producer and as to sales or deliveries. Said report shall be signed by the transmitter or by a responsible employee, whose capacity or title shall be indicated, and who is in a position to know that the data or information is correct.

(2) Meter charts shall be kept on file at the office of the transmitter, and the commission shall have access to all such records at any reasonable time. Also refer to R 460.902 in "standards of gas service."

History: 1944 AC, p. 968; 1954 AC, p. 6084.

R 460.875 Filing of rates, contracts, and regulations.

Rule 25. (1) Complete rate schedules, and rules and regulations governing each common purchaser's or common carrier's relations with its producers and distributors, shall be filed in compliance with commission order D-3096, or in pertinent superseding or modifying orders. In case all purchase contracts in a single field are identical, the filing of such contracts as provided in section 25(2) hereof, shall be considered as fulfillment by the common purchaser of this requirement.

(2) Every common purchaser or common carrier shall file with the commission a true and verified copy of any contracts for purchasing, receiving or supplying of gas within 30 days after the making thereof.

(3) No change shall be made in any filed rates, charges, rules or regulations without approval of the commission.

History: 1944 AC, p. 968; 1954 AC, p. 6084

Said application having been made pursuant to commission order No. D-2883 (revised), issued by authority of Act No. 9 of Public Acts of 1929, and Act No. 326, Public Acts of 1937, and a contract having been entered into with the operator of said pipe line for the taking of gas from the above well.

THEREFORE, IT IS ORDERED that applicant be permitted to construct the wellhead connections at the well as described, that _____ (Name of Transmitter) be permitted to connect its gathering lines thereto, and that production of gas shall be permitted in accordance with allowable withdrawal orders to be issued.

That the wellhead connections shall be substantially as shown on plate 1.A, appendix A, of Michigan Public Service Commission order No. D-2883.

That the allowable withdrawal of gas from the well shall be as set forth in allowable withdrawal orders as issued by the commission at such intervals as it may deem necessary.

localities where the said natural gas is to be utilized, the said sources and locality or localities being described as follows:

_____

_____

_____

_____

3. That attached hereto and made a part hereof is a map or plat of proposed line or lines, showing the dimensions and characters of such line or lines, compression stations, control valves and connections.

4. That attached hereto and made a part hereof is an exhibit showing the gas reserves served by the proposed main or mains.

5. That attached hereto and made a part hereof is a schedule of the rates and prices at which the applicant herein will receive gas at delivery stations and a schedule of rates or charges at which it will deliver gas to connecting carriers or distributing lines or customers, and, in case it is proposed to operate as a carrier for hire, a schedule of the rates and charges to be made for the services to be performed by the applicant.

6. That attached hereto and made a part hereof are certified copies of all contracts now signed for the purchase or sale of natural gas.

7. That attached hereto and made a part hereof is a carefully compiled estimate by expert engineers setting forth the total cost of the completed project.

8. That attached hereto and made a part hereof is a carefully prepared estimate by competent engineers showing the anticipated revenue, operating expenses and earnings for a five-year period.

And said petitioner, therefore, prays that the Michigan Public Service Commission, under the authority of Act No. 9, of the Public Acts of Michigan for the year 1929, may grant to said petitioner its approval of the said map or plat and of the construction of said line or lines and may determine that such line or lines, when constructed and in operation, will serve the convenience and necessity of the public.

PLATE 2A

Acreage Factors for Various Sized
Tracts in the Walker-Talmadge Oil Field.

Above well locations are on the normal 10-acre pattern used in Walker-Talmadge oil field.

Those well locations shown in solid black represent Traverse oil wells that may be deepened or plugged back to obtain gas production with acreage factors as stated. On tracts of 20 acres or more, operator may deepen or plug back only 1 of the wells shown in black in order to secure maximum allowable for the tract. The deepening or plugging back of a second well on the same tract, regardless of size of tract, shall not increase the allowable. If, at the option of the producer, any of the above Traverse wells, other than those in solid black, are deepened or plugged back, they shall receive the usual acreage factor prescribed by commission's order D-2883, effective May 1, 1940.

STANDARDS OF GAS SERVICE

(By authority of section 5 of Act No. 419 of the Public Acts of 1919 and section 6 of Act No. 3 of the Public Acts of 1939, being §§460.55 and 460.6 of the Michigan Compiled Laws)

R 460.891—R 460.914 Rescinded.

History: 1944 AC, pp. 978-983; 1944 ACS 23, p. 5; 1954 AC, pp. 6094-6100; 1954 ACS 14, p. 21, Eff. May 15, 1958; rescinded 1954 ACS 96, p. 116, Eff. July 21, 1978.

R 460.915 Service requests.

Rule 25. (1) A full and prompt investigation shall be made of each service request received. The words "service request" as used in this rule, shall be construed to mean reasonable request or application made to a utility for an investigation or a readjustment of its charges, facilities or service.

(2) A record shall be kept of all service requests, showing the name and address of the requesting applicant, the date and time of day the request is received, the nature of the request, the name of the investigator or interviewer, the date of the investigation or interview, the result of the investigation or interview, and the final adjustment or disposal of the service request.

History: 1944 AC, pp. 983, 984; 1954 AC, p. 6101.

Editor's note: R 460.915 was rescinded by 1954 ACS 81, p. 123, Eff. Mar. 5, 1975, insofar as the rule applied to gas residential utility service.

R 460.916 Rescinded.

History: 1944 AC, p. 984; 1954 AC, p. 6101; rescinded 1954 ACS 96, p. 116, Eff. July 21, 1978.

R 460.917 Meter readings.

Rule 27. All service meters shall be read not less frequently than once in every month, and an endeavor shall be made by the utility to read meters on the corresponding day of each meter reading period; provided, that special authority may be granted by the commission for the reading of meters less frequently than once a month if the circumstances warrant. If for reasons beyond the control of the utility it is impossible to read a meter for 2 successive monthly billing periods, it will be permissible for the utility to submit an estimated bill based upon past service records, the amount of such estimated bill to be adjusted as necessary when access to the meter is obtained.

History: 1944 AC, p. 984; 1954 AC, p. 6101.

Editor's note: R 460.917 was rescinded by 1954 ACS 81, p. 123, Eff. Mar. 5, 1975, insofar as the rule applied to gas residential utility service.

R 460.918 Information on bills.

Rule 28. Bills rendered periodically to consumers for metered service shall show the readings of the meter at the beginning and end of the period for which the bill is rendered, the number of volumetric units of gas consumed, dates of meter readings and price per unit. On all bills which are computed on any other basis than a definite charge per volumetric unit of gas consumed, the other factors used in computing the bill shall be clearly stated so that the amount of the bill may be readily computed and checked from the information appearing on the bill. The complete rate schedule for the class of service used shall appear on the bill, provided that special authority may be granted by the commission governing the information to be shown upon the bills if circumstances warrant.

History: 1944 AC, p. 984; 1954 AC, p. 6101.

Editor's note: R 460.918 was rescinded by 1954 ACS 81, p. 123, Eff. Mar. 5, 1975, insofar as the rule applied to gas residential utility service.

R 460.919, R 460.920 Rescinded.

History: 1944 AC, p. 984; 1954 AC, pp. 6101, 6102; 1954 ACS 96, p. 116, Eff. July 21, 1978.

R 460.921 Deposits.

Rule 31. (1) A utility may require, as a guarantee of payment for current bills, a reasonable cash deposit from a consumer or prospective consumer. The amount of such deposit shall not exceed the estimated maximum amount of gas bills that would accumulate before discontinuances of service for nonpayment of bills. Interest at the rate of 4% per annum on such deposits for the time such deposit is held by the utility shall be paid by the utility to the consumer, provided, such deposit is held by the utility at least 6 months. Interest shall be payable on the return of the deposit, or annually upon demand of the consumer, except that interest on deposits exceeding $50.00 shall be paid semiannually. There shall be kept by each utility a record of all deposits received from consumers, showing the name of each consumer, the location of the premises occupied by the consumer at the time of making the deposit and each successive location while the deposit is being retained, the date of making and amount of deposit, and the date and amounts of interest paid, and any other desirable information. Each utility shall issue to every consumer from whom a deposit is received, a receipt for the deposit, printed or engraved on good grade bond paper. When the consumer's credit shall have been satisfactorily established, the deposit and interest due shall be returned to the consumer. When service is discontinued the deposit with interest due shall be credited against the final account and the balance, if any, shall be returned to the consumer. Each utility shall provide means whereby a consumer who shall be entitled to a return of his deposit shall not be deprived of such deposit even though he may be unable to produce the original receipt for the deposit.

(2) A deposit will not be required from any consumer whose credit is satisfactory to the utility and any consumer's or prospective consumer's account may be guaranteed by a responsible party in lieu of a deposit. The form prepared by the utility for such guarantee shall clearly state the maximum amount guaranteed by such guarantor and the utility shall not hold the guarantor responsible for any additional amount unless the guarantor agrees to the same in writing.

History: 1944 AC, p. 985; 1954 AC, pp. 6102, 6103.

Editor's note: R 460.921 was rescinded by 1954 ACS 81, p. 123, Eff. Mar. 5, 1975, insofar as the rule applied to gas residential utility service.

R 460.922 Discounts or delayed payment charges.

Rule 32. The difference between the gross and net bills allowed for prompt payment shall be forfeited by the consumer if the net bill is not paid in full on or before the date on which the net bill is due; provided, however, that a utility may accept payment of the net bill after the due date under certain specific conditions which shall be set forth in its rules and regulations. Failure to receive a bill properly rendered by the utility will not extend the net bill period. If the date on which the net bill is due falls on a Sunday or holiday the bill shall be due on the next business day. Consumers mailing remittances before midnight of the last day of the net bill period shall receive the benefit of the net bill, the time of mailing to be determined from the postmark.

History: 1944 AC, p. 985; 1954 AC, p. 6103.

Editor's note: R 460.922 was rescinded by 1954 ACS 81, p. 123, Eff. Mar. 5, 1975, insofar as the rule applied to gas residential utility service.

R 460.923 Discontinuance of service.

Rule 33. If any bill for gas service rendered by a utility to a consumer remains unpaid for a period of 10 days after the expiration of the discount period, the utility shall have the right to discontinue such service upon 5 days' notice in writing of its intention to so discontinue, and such discontinuance shall be in effect until such bill, together with any other arrears, and with such charge for discontinuing and reconnecting the service as established and approved in the rate schedule, are paid; provided that, if the bill in question is paid under protest in order to secure continuity of service, the consumer affected shall be entitled to refund in case it shall later be shown that the bill was in error.

History: 1944 AC, p. 985; 1954 AC, p. 6103.
Editor's note: R 460.923 was rescinded by 1954 ACS 81, p. 123, Eff. Mar. 5, 1975, insofar as the rule applied to gas residential utility service.

R 460.924 Rates.

Rule 34. Each utility shall file complete rate schedules with the commission in compliance with commission order no. 3096, as amended, or with pertinent superseding or modifying orders.

History: 1944 AC, p. 985; 1954 AC, p. 6103.
Editor's note: R 460.924 was rescinded by 1954 ACS 81, p. 123, Eff. Mar. 5, 1975, insofar as the rule applied to gas residential utility service.

R 460.925 Access to public.

Rule 35. A copy of these rules, as published and furnished by the commission, also a copy of the rate schedule and rules and regulations of the utility as filed with the commission, shall be kept on file by each utility and open to public inspection; and suitable placards shall be conspicuously posted in the offices of the utility where consumers' bills are payable, calling the attention of the public to the fact that these rules and utility's schedules are so filed.

History: 1944 AC, p. 986; 1954 AC, p. 6103.
Editor's note: R 460.925 was rescinded by 1954 ACS 81, p. 123, Eff. Mar. 5, 1975, insofar as the rule applied to gas residential utility service.

R 460.926, R 460.927 Rescinded.

DEPARTMENT OF TRANSPORTATION

RAILROADS

(By authority of section 3 of Act No. 198 of the Public Acts of 1873, section 4 of Act No. 52 of the Public Acts of 1909, sections 5, 33, 34, 36, and 49 of Act No. 300 of the Public Acts of 1909, sections 3 and 5 of Act No. 419 of the Public Acts of 1919, section 2 of Act No. 102 of the Public Acts of 1927, sections 4 and 6 of Act No. 3 of the Public Acts of 1939, and section 3 of Act No. 156 of the Public Acts of 1941, being §§466.3, 469.204, 462.5, 462.33, 462.34, 462.36, 462.49, 460.53, 460.55, 469.82, 460.4, 460.6, and 470.103 of the Michigan Compiled Laws)

R 460.1451 Maintaining telephonic or audible signal devices and the operation of the same on manually operated snowplows on railroads in Michigan.

Rule 1. All Michigan railroads are ordered to cause all manually operated snowplows, or cars equipped with devices for the removal of snow from tracks, when used according to Act No. 102 of the Public Acts of 1927, to be equipped on or before November 1, 1944, with a telephonic device or with an electric signal bell equipment coupled to the locomotive or motor car handling such snowplow or car when in use, according to plans to be submitted to the commission for their approval. When electric signal bell is used the following communicating signals shall be used:

Number of Rings		Indication
2 Rings	when standing	start.
2 Rings	when running	stop at once.
3 Rings	when standing	back the train.
3 Rings	when running	stop at next passenger station.
4 Rings	when standing	apply or release air brakes.
4 Rings	when running	reduce speed.
5 Rings	when running	increase speed.

History: 1944 AC, p. 1183; 1954 AC, p. 6319.

R 460.1452 Filing of working time cards, train order blanks, and train releases.

Rule 2. Every railroad doing business within the state of Michigan whether operated by steam, electric or other motive power, shall, within 30 days from date hereof, deliver to the commission for its use 1 copy of each of its current working time cards, train order blanks and releases, and of all rules governing movement of trains not published in the foregoing, and shall hereafter so file all such working time cards, train order blanks, and releases, and rules for working trains, at once upon issuance of the same.

History: 1944 AC, p. 1183; 1954 AC, p. 6319.

R 460.1453 Mechanical and electrical signal protection at highway crossings of railroads.

Rule 3. (1) Whenever any mechanical or electrical signal protection, installed at any crossing of a highway by the tracks of a railroad in this state to warn highway traffic of the approach of engines and trains, be found inoperative, thereby failing to warn highway traffic of the approach of engines and trains, the company operating such railroad shall, as soon as possible, station at such crossing a watchman to warn highway traffic of the approach of engines and trains until such signals are restored to working order.

(2) With respect to the construction of highway crossing signals, the commission will from time to time issue approved plans and specifications as conditions may require.

History: 1944 AC, p. 1183; 1954 AC, p. 6319.

R 460.1454 Free transportation.

Rule 4. (1) Policemen and firemen in uniform and in the discharge of their duties are hereby designated as persons to whom common carriers may lawfully, at their option, issue or give free transportation as passengers within the limits of cities.

(2) Former employees of railroad companies who have retired from active work of all kinds by reason of old age, infirmity or permanent disability, and widows and dependent minor children of deceased railroad employees, are hereby designated as persons to whom common carriers may lawfully, at their option, issue or give free transportation.

(3) Necessary attendants of the Michigan department of conservation, not exceeding 6, and 1 messenger accompanying delivery of cans of fish or cases of fish eggs, not to exceed 30 in number, or returning from such delivery, are hereby designated as persons to whom common carriers may lawfully, at their option and on application from said department, issue or give free transportation as passengers.

(4) Necessary attendants of the United States department of interior (fish and wildlife service cars), not exceeding 6 in number, and 1 messenger accompanying delivery of cans of fish or cases of fish eggs, not exceeding 30 in number, or returning after such delivery, are hereby designated as persons to whom the Michigan Central railroad (New York Central railroad company, lessee), the New York Central railroad company, the Pere Marquette railway company, the Pennsylvania railroad, the Detroit and Mackinac railway company, the Ann Arbor railroad company, the Chicago and North Western railway company, the Duluth, South Shore and Atlantic railway company and the Minneapolis, St. Paul and Sault Ste. Marie railway company, common carriers, may lawfully at their option, and on application from said department, issue or give free transportation as passengers; provided that said transportation is to be used in connection with the planting of fish.

(5) Rate inspectors of the Michigan public service commission, duly appointed and bearing proper certificates, are hereby designated as persons to whom carriers may lawfully, at their option, issue or give free transportation, for use only while on official business pertaining to their work as inspectors.

(6) Lecturers and demonstrators, not exceeding 10 in number, are hereby designated as persons to whom common carriers may lawfully, at their option, issue or give free transportation as passengers upon special institute train.

(7) Employees of the international correspondence school, while actually travelling on railroads in this state for the purpose of instructing or educating railroad engineers and firemen in locomotive mechanics; and engineers, firemen, conductors or brakemen in the use of air brakes on railroad trains, are hereby designated as persons to whom common carriers may lawfully, at their option, issue or give free transportation as passengers within this state.

(8) The secretaries and managers of Michigan tourist resort and land settlement associations, which have been approved as such by the Michigan public service commission, are hereby designated as persons to whom the railroads of the state of Michigan may lawfully, at their option, issue or give free transportation as passengers while said persons are necessarily riding from place to place in the

state of Michigan in the interest of the work of said tourist and resort associations, and not otherwise.

(9) Such railroad companies operating as common carriers in this state as desire to do so may handle freight free, when consigned to regularly constituted relief committees for the relief of sufferers from forest fires, without filing tariffs to cover such movement and upon issuance by any such company of free billing order to its interested agents.

(10) Every railroad company doing business within the state of Michigan, whether operated by steam, electricity or other motive power, shall, on or before February 1, 1945, and on or before the same date in each and every year thereafter, file with the Michigan public service commission on forms to be furnished by said commission, a verified list of all free tickets, free passes and free transportation issued or given by it during the year ending the December 31 preceding, together with the full name and address of recipient thereof and the reason for issuing the same; provided that this shall not be deemed to require the filing of list of such free tickets, free passes and free transportation issued or given by it to its employees or their families, its officers, agents, surgeons, physicians or attorneys at law, and members of their families, or the officers, agents, attorneys and employees of other common carriers and their families.

(11) The several railroads of the state may, at their option, transport school-children to and from public or private schools between such points as is necessary for them to travel in order to attend said schools, whether located in the city, village or township in which the pupil resides, or in some other city, village or township, and on such days as said schools are in session, and under such other conditions as may be arranged between the officials of said transportation companies and the officers of said school district, or the parents of said pupils, at such a rate less than the regularly published fare as may be agreed upon, and the same shall not be deemed by this commission to be a violation of the law.

History: 1944 AC, p. 1183; 1954 AC, p. 6319.

R 460.1455 Construction of end platforms and platform steps on caboose and way cars.

Rule 5. All cabooses or way cars for use on lines of railroads within the state of Michigan shall be equipped according to plans to be submitted by the railroads to the Michigan public service commission for its approval.

History: 1944 AC, p. 1185; 1954 AC, p. 6321.

R 460.1456 Regulation of the speed of trains over interlocking crossings.

Rule 6. Effective January 1, 1945, all existing orders of approval for interlocking and derailing switch and signal systems and all general orders establishing speed limits over interlocked railroad crossings are hereby revised and amended to eliminate speed restrictions. This commission expressly reserves full power and authority under section 11050, being §462.34 of the Michigan Compiled Laws, to order and direct that the rate of speed of trains or cars passing over dangerous or defective tracks or interlockers shall be restricted until proper repairs have been made.

History: 1944 AC, p. 1185; 1954 AC, p. 6321.

R 460.1457 Abandonment and removal of tracks.

Rule 7. (1) Whenever it is proposed to discontinue service from, to or on sidetracks, spurs and branches or abandonment or removal of said sidetracks, spurs or branches, the public shall be given 10 days' notice of the proposed

discontinuance of service or abandonment, by posting a notice in the nearest open station and on the day of said posting, shall publish notice in a newspaper of general circulation in the community affected by such proposed discontinuance of service or abandonment.

(2) The railroad shall file with this commission an affidavit of a person having personal knowledge that said notice was posted in the nearest open depot or station, which affidavit shall state the place and time of the posting and shall have annexed thereto an exact copy of said notice. The railroad shall also file with the commission due proof of the publication of said notice in a newspaper of general circulation, as aforesaid. Such notice shall plainly state that any interested person desiring to protest the discontinuance of the service, or the abandonment of the tracks, must file his protest with the Michigan public service commission at Lansing, Michigan, and that to be effective such protest must be on file with the commission not later than 5 days after the effective date of said notice. Railroad companies shall not discontinue service from, to or on sidetracks, spurs and branches or abandon or remove said sidetracks, spurs or branches until 10 days after the effective date of said notice.

(3) If after the expiration of the 5 days following the 10 days' notice, no protest has been received by the commission or railroad against the discontinuance of service or the abandonment or removal of said tracks, the railroad shall have authority to discontinue service or abandon or remove said tracks. However, if protests are received by the commission, due notice shall be given fixing the time and place for a hearing of the protests by the commission, and the railroad shall forthwith be given notice of said hearing and they shall not discontinue service nor abandon the sidetracks until after hearing and a determination of the public convenience and necessity by the commission for the continuation of said service and maintenance of said tracks.

History: 1944 AC, p. 1185; 1954 AC, p. 6321.

R 460.1458 Application for permission to construct bridges, buildings, or other structures with less clearance than provided by law.

Rule 8. Any person who, at any time, desires to construct, erect or place, and thereafter maintain, over or adjacent to any railroad track or sidetrack which is a part of, or is in anywise connected with, any railroad, any bridge, structure, pole or other immovable obstruction, which shall be within, or any loading or unloading device, the immovable or fixed parts of which shall be within, the clear spaces over or adjacent to any such track which are provided for in Act No. 156 of the Public Acts of 1941, may make application on forms provided by the Michigan public service commission. Three or more copies of an application for such permission shall be submitted. Each copy of the application must be accompanied by a plan showing the location of the railroad track or sidetrack and of the proposed bridge, structure, pole or other immovable obstruction, or loading or unloading device, as the case may be, and the clear space afforded thereby from a perpendicular extending through the center line of said track, and above the plane of the top of the rails of said track. The application should be addressed to the Michigan Public Service Commission, Lansing, Michigan.

History: 1944 AC, p. 1185; 1954 AC, p. 6321.

R 460.1459 Reports of accidents.

Rule 9. Officials charged with the duty of reporting train accidents, train service accidents and nontrain accidents to this commission, shall cause a prompt report by telegraph to be sent to this commission of fatal accidents falling within

the aforesaid classes of accidents. The details of such accidents to be set forth on form T of the "monthly report of railway accidents" or on form I in case of nontrain accidents, which monthly accident report must be filed with this commission within 30 days following the month in which said accident occurred, and nonfatal accidents falling within the aforesaid classes of accidents need not be reported by telegraph but must be reported on form T of the "monthly report of railway accidents" or on form I in case of nontrain accidents within 30 days following the month in which said accident occurred, and in case of a train accident, as classified by the interstate commerce commission, bureau of statistics, resulting in the injury or death of trainmen or passengers, a telegraphic report must be filed with this commission as soon as the accident has been reported to the railroad officials, so that this commission may, if it deems necessary, cause an investigation to be made of said accident.

History: 1944 AC, p. 1186; 1954 AC, p. 6322.

SANITATION AND SHELTER FOR RAILROAD EMPLOYEES

(By authority of Act No. 419 of the Public Acts of 1919, being §460.51 et seq. of the Michigan Compiled Laws)

R 460.1461 Jurisdiction; discretion; request.

Rule 1. Adequate facilities of sanitation and shelter for railroad clerical, platform, freight house and express employees shall be provided by all railroad companies under the jurisdiction of this commission in accordance with the following rules, if in the judgment of the commission after investigation and hearing, if requested, such facilities, or any of them, are necessary for the health and welfare of said railroad employees.

History: 1954 ACS 20, p. 15, Eff. Nov. 14, 1959.

R 460.1462 Office employees.

Rule 2. Railroad offices such as general offices, freight offices, yard offices, ticket offices and express offices, shall be reasonably clean, heated and ventilated; further, the employer shall provide sufficient toilet facilities for female and male employees in those offices.

History: 1954 ACS 20, p. 15, Eff. Nov. 14, 1959.

R 460.1463 Employees performing service outdoors.

Rule 3. At locations where change of wearing apparel is required at which yard clerks, car checkers, freight house employees, mail and/or baggage handlers and express employees are employed, lockers will be provided at points where such employees are required to report for duty or are relieved from duty, and where 10 or more are employed, the locker area, which shall be partitioned and adequately heated and lighted, shall consist of not less than 80 square feet of clear floor space for each such 10 employees on duty at any 1 time. Where lockers are not now provided, a sufficient number of metal lockers shall be provided, the inside dimensions of which shall not be less than 72 inches high, 15 inches wide and 18 inches deep, save that, in such locations where larger lockers shall be deemed necessary, they shall be provided as shall be agreed to between the railroad company and its employees. Said lockers shall be equipped on the inside with a top shelf, and not less than 1 clothes hook on each side, a hanger bar, and also sufficient openings in the door for the purpose of ventilation. Tables and benches or chairs, in accordance with the number of employees using the facilities, shall be furnished.

History: 1954 ACS 20, p. 15, Eff. Nov. 14, 1959.

R 460.1464 General requirements.

Rule 4. The following standards shall apply to facilities of sanitation and shelter furnished for all railroad clerical, platform, freight house and express employees in office and yard service:

(a) Where running water and sewers are reasonably available or where physical conditions and laws, ordinances and public authorities permit the use of septic tanks in lieu of sewers, the employer shall provide hot and cold running water and suitable, adequate and convenient water closet and washing facilities, separate for each sex and plainly designated. Such facilities shall be adequately lighted, ventilated and maintained; every toilet shall be arranged so as to assure privacy in use; and flush toilets shall be provided in accordance with the following minimum requirements.

Number of Persons	Number of Toilets
1 to 10	1
11 to 24	2
25 to 49	3
50 to 100	5
100 or over	1 for each additional 25 persons

(b) Wherever urinals are provided, 1 urinal may be substituted for 1 toilet provided the number of toilets shall not be reduced to less than ⅔ the number shown in the above table.

(c) All inside toilet facilities shall be made of materials impervious and resistant to moisture, and shall be fitted with individual flush system. In the case of urinals, the water may be allowed to run continuously.

(d) The walls of compartments or partitions between toilet fixtures may be less than room height, but the top shall not be less than 5 feet from the floor and the bottom not more than 1 foot from the floor.

(e) An adequate supply of cool, sanitary water, satisfactory for drinking purposes, shall be made available. The company shall furnish individual drinking cups in all offices or other facilities where drinking fountains or bubblers are not furnished.

(f) During the period of the year in which insects are prevalent, screens will be furnished for the windows and doors.

History: 1954 ACS 20, p. 16, Eff. Nov. 14, 1959.

R 460.1465 Running facilities.

Rule 5. Baggage and express cars, when occupied by employees coming under the provisions of these rules, while moving in trains, either will have drinking water, toilet and washing facilities, or if not so equipped, will be so arranged in the train that employees required to ride such cars will have access to drinking water, toilet, and washing facilities.

History: 1954 ACS 20, p. 16, Eff. Nov. 14, 1959.

R 460.1466 Construction and maintenance of outside toilets used by employees.

Rule 6. (1) The commission may, after proper investigation, hearing and order in the matter, permit the installation and maintenance of outside toilet facilities, where it is found otherwise impractical to install inside toilet and urinal facilities.

(2) Where outside toilets are installed and maintained in accordance with the above paragraph, they shall be located on ground that is well drained and where there is no possibility of contaminating any drinking water supply.

(3) Suitable approach, such as concrete, gravel or cinder walk, shall be provided.

(4) All windows, ventilators, and other openings, except doors, shall be screened to prevent the entrance of insects. A separate ventilator duct, with hood, shall be provided for the vault, and shall extend above the roof.

(5) The entire installation must be kept clean and sanitary. Milk of lime (freshly slaked lime) or other equally effective disinfectant shall be used in the vault and in the urinal trough in sufficient quantities and at frequent intervals.

History: 1954 ACS 20, p. 16, Eff. Nov. 14, 1959.

R 460.1467 Existing facilities; continuance.

Rule 7. Any shelter and sanitary facilities which have been constructed and are presently being maintained in accordance with an agreement heretofore entered into between the parties in interest, and agreed to or ordered by the commission, shall be deemed a complete compliance with these rules, until such time as a specific complaint is filed with the commission claiming that, on account of changes made in the uses of the facilities, such facilities are inadequate; provided nothing herein shall be construed to abrogate or limit any agreement between the interested parties now in effect which provides for better or more adequate facilities, or to prevent the negotiation of such an agreement in the future.

History: 1954 ACS 20, p. 17, Eff. Nov. 14, 1959.

R 460.1468 Existing facilities; complaint.

Rule 8. In the absence of specific complaint, present facilities shall be deemed adequate. In the event of a complaint filed hereafter in respect of such facilities, and the commission shall find the same inadequate, the railroad company involved shall have a reasonable time in which to complete the work required in the light of the then existing situation, circumstances, and conditions.

History: 1954 ACS 20, p. 17, Eff. Nov. 14, 1959.

R 460.1469 Hearing.

Rule 9. In the event of any dispute or disagreement between any employee and any employer as to the intent, meaning and interpretation of any or all of the rules hereinabove set forth, the commission reserves unto itself the right to set a hearing thereon, and to issue appropriate order or orders, so as to effectuate and carry out the intent and purpose of said rules.

History: 1954 ACS 20, p. 17, Eff. Nov. 14, 1959.

R 460.1470 Relief; modification of rules.

Rule 10. Any railroad company being of the opinion that the application or enforcement of these rules, or any part thereof, at any particular place, will be unjust or unreasonable, may apply to the commission for relief therefrom, and the commission may, by written order, relieve said railroad company from the application of these rules, or any part thereof, at such place, or modify the same in such manner and to such extent as shall be just and reasonable.

History: 1954 ACS 20, p. 17, Eff. Nov. 14, 1959.

SANITATION AND SHELTER FOR RAILROAD EMPLOYEES

(By authority of Act No. 419 of the Public Acts of 1919, Act No. 9 of the Public Acts of 1929, as amended, and Act No. 3 of the Public Acts of 1939, as amended, being §460.51 et seq., §483.101 et seq. and §460.1 et seq. of the Michigan Compiled Laws)

R 460.1471 Definitions.

Rule 1. The words and phrases used herein shall be construed as follows, unless the context shall otherwise require:

(a) The term "localized facilities," when used herein, shall mean those facilities of sanitation or shelter for the welfare and health of railroad trainmen, enginemen and yardmen, which facilities are to be maintained at points where employees are required to report for duty or are relieved from duty.

(b) The term "highway crossing shanty," when used herein, shall mean a building at which public highway crossing watchmen are regularly stationed for performance of their duties.

(c) The term "running facilities," when used herein, shall mean those facilities of sanitation or shelter to be maintained on engines, trains or cabooses for the welfare and health of railroad trainmen, enginemen and yardmen.

(d) The term "camp facilities," when used herein, shall mean those facilities of sanitation or shelter for the welfare and health of maintenance of way employees, when such facilities are to be maintained at railroad camps of a permanent or seasonal nature, or are located in movable cars when used for housing maintenance of way employees.

(e) The term "crossing watchmen," when used herein, shall include such employees as are used in the flagging of public highway crossings or in the actual operation of manually controlled gates, public highway crossing signals, or other appurtenances having to do with the protection of such crossings.

(f) The term "section house facilities," when used herein, shall mean the shelter facilities maintained for maintenance of way employees at points where such employees report for duty or are relieved from duty.

History: 1944 ACS 18, p. 45; 1954 AC, p. 6323.

R 460.1472 Localized facilities.

Rule 2. Adequate localized facilities, as defined in R 460.1471(a), consisting, as in each location may be necessary, of the following facilities, installed and maintained as specified, shall be furnished by all railroad companies under the jurisdiction of this commission, if, in the judgment of the commission, such facilities, or any of them, are necessary for the welfare and health of the above-mentioned employees:

(a) There shall be provided a locker room, separate from the toilet room by solid partitions, where the employees may change their clothing. The area of such room shall not be less than 80 square feet of clear floor space for 10 employees, and adequate space to be added for additional employees.

Necessary benches and tables shall be provided.

(b) Where lockers are not now provided, a sufficient number of metal lockers shall be provided, the dimensions of which shall not be less than 72 inches high, 15 inches wide and 18 inches deep, save that, in such locations where larger lockers shall be deemed necessary, they shall be provided as shall be agreed to between the railroad company and its employees. Said lockers shall be equipped on the inside with a top shelf, and not less than 1 clothes hook on each side, a hanger bar, and also sufficient openings in the door for the purpose of ventilation.

(c) Where running water and sewers are reasonably available or where physical conditions and ordinances permit the use of septic tanks in lieu of sewers, hot and cold running water, sufficient wash bowls and shower facilities, and flush toilets in accordance with the following minimum requirements, shall be provided:

Number of Persons	Number of Toilets
1 to 10	1
11 to 24	2

Digitized by Google

Number of Persons	Number of Toilets
25 to 49	3
50 to 100	5
100 or over	1 for each additional 25 persons

(d) Wherever urinals are provided, 1 urinal may be substituted for 1 toilet, provided the number of toilets shall not be reduced to less than ⅔ the number shown in the above table.

(e) If practical, every toilet room shall be so located as to open to the outside light and air by windows or skylights.

(f) All inside toilet facilities shall be made of materials impervious and resistant to moisture, and shall be fitted with individual flush systems. In the case of urinals, the water may be allowed to run continuously.

(g) The walls of compartments or partitions between toilet fixtures may be less than room height, but the top shall not be less than 5 feet from the floor and the bottom not more than 1 foot from the floor.

(h) An adequate supply of cool, sanitary water, satisfactory for drinking purposes, shall be made available to all employees. Where necessary, this water shall be provided in suitable sanitary containers, conveniently placed for the use of the above-mentioned employees, and each container will be equipped with a faucet or other dispenser. The company shall furnish individual drinking cups.

(i) Locker and toilet rooms shall be adequately heated, ventilated, lighted, and provided with screens, and said facilities shall be kept reasonably clean by the employer.

History: 1944 ACS 18, p. 46; 1954 AC, p. 6323.

R 460.1473 Running facilities.

Rule 3. (1) Adequate toilet facilities shall be made available for trainmen, enginemen and yardmen, after hearing thereon and order by the commission, which toilet facilities shall be kept in a reasonably clean and sanitary condition.

(2) All yard diesels shall have the floors cleaned and the windows washed at reasonable intervals.

(3) All cabooses shall have the interior washed once each year. Road cabooses used on trains handling ore in open top equipment, and all yard and transfer cabooses, shall have the floors scrubbed or mopped once each month. Other road cabooses on any run shall have the floors scrubbed or mopped once each month, if the crew using same request it.

Windows on all cabooses shall be washed once a month, except in freezing weather.

(4) When required by the season of the year, doors and windows of cabooses shall be equipped with adequate metal stripping. Similarly, when required by the season of the year, cabooses shall be equipped with screen doors or screen panels, and windows on each side of each caboose shall be screened. Sliding screen windows, however, shall be deemed adequate.

(5) An adequate supply of cool, sanitary water, satisfactory for drinking purposes, shall be made available for the use of trainmen, enginemen and yardmen. Suitable sanitary containers, equipped with a faucet or other dispenser, shall be maintained on cabooses and locomotives, and individual drinking cups shall be furnished by the company.

(6) Every caboose used in any train in this state, regardless of service, shall be provided with a stove or other adequate means of heating. A sufficient amount of fuel for the trip or shift shall be made available.

(7) Baggage and express cars, when occupied by employees coming under the provisions of this act, will be so arranged in the train that employees required to ride such cars will have access to the drinking water, toilet and washing facilities provided in a coach in said train; and, if it is found impractical to so arrange said cars in the train, then drinking water, toilet and washing facilities must be furnished for the employees riding said cars upon formal order of and by the commission.

History: 1944 ACS 18, p. 46; 1954 AC, p. 6324; 1954 ACS 1, p. 35, Eff. Mar. 18, 1955.

R 460.1474 Crossing watchmen facilities.

Rule 4. (1) Adequate shelter shall be furnished for crossing watchmen, and said shelter shall be properly sealed and insulated against cold, and heated.

(2) If, in the judgment of the commission, it is practical, toilet and washing facilities will be furnished as the commission may require, after inspection and agreement or hearing in the matter.

History: 1944 ACS 18, p. 47; 1954 AC, p. 6324.

R 460.1475 Camp facilities.

Rule 5. (1) When employees are furnished meals in camp cars, as hereinbefore defined, adequate sanitary facilities and space shall be provided.

(2) Where cars, other than passenger coaches, are furnished for sleeping quarters, cars shall not house over 10 men each. Where passenger coaches are furnished, the commission may designate the number of men to be housed in each coach.

(3) All camp cars will be properly heated, ventilated, sealed and lighted, and, during the period of the year in which insects are prevalent, the doors and windows will be screened.

(4) All extra and permanent gangs will be furnished with shower car, with running hot and cold water. Adequate toilet facilities will be furnished for all employees.

(5) Camp man or janitor will be furnished for all gangs over 20 men for the purpose of keeping the cars and grounds in a clean and sanitary manner.

(6) When extra and permanent gangs are furnished with kitchen car or cars, the same shall be well equipped with adequate kitchen facilities. Such kitchen cars shall be maintained in a clean and sanitary condition.

History: 1944 ACS 18, p. 47; 1954 AC, p. 6325.

R 460.1476 Section houses.

Rule 6. Adequate shelter facilities, located in section houses or other suitable buildings, consisting, as in the individual case may be necessary, of the following appliances, installed and maintained as specified, shall be furnished by all railroad companies under the jurisdiction of this commission for regularly assigned maintenance of way employees, at points where such employees are required to report for duty or are relieved from duty, as, in the judgment of the commission, after investigation, and hearing, if requested, such facilities, or any of them, are necessary for the welfare and health of the above-mentioned employees:

(a) There shall be provided space, adequate for the number of employees using said facilities, where employees may change their clothing, furnished with tables and benches or chairs, in accordance with the number of employees using the facilities. Where lockers are not now provided, and the same are requested by the employees using the individual facility, a sufficient number of metal lockers shall be provided to meet the requirements of said employees.

(b) During the period of the year in which insects are prevalent, screens will be furnished for the windows and doors.

(c) The space designated as shelter will be partitioned, sealed and adequately heated and lighted.

(d) Where running water and sewerage facilities are reasonably available, flush toilets and washing facilities will be provided. Otherwise, an outside toilet will be furnished and maintained in accordance with the provisions of R 460.1477; provided, however, the provisions of this subdivision shall not be applicable where toilets and washing facilities are otherwise made reasonably available for maintenance of way employees.

(e) If necessary, a sufficient supply of running or well water will be made reasonably available, and individual drinking cups will be furnished.

History: 1944 ACS 18, p. 47; 1954 AC, p. 6325.

R 460.1477 Construction and maintenance of outside toilets when used by employees coming under the provisions of this act.

Rule 7. (1) The commission may, after proper investigation, hearing and order in the matter, permit the installation and maintenance of outside toilet facilities, where it is found otherwise impractical to install inside toilets and urinal facilities.

(2) Where outside toilets are installed and maintained in accordance with the above paragraph, they shall be located on ground that is well drained, and where there is no possibility of contaminating any drinking water supply.

(3) Suitable approach, such as concrete, gravel, or cinder walk, shall be provided.

(4) All windows, ventilators, and other openings, except doors, shall be screened to prevent the entrance of insects. A separate ventilator duct, with hood, shall be provided for the vault, and shall extend above the roof.

(5) The entire installation must be kept clean and sanitary. Milk of lime (freshly slaked lime), or other equally effective disinfectant, shall be used in the vault and in the urinal trough, in sufficient quantities and at frequent intervals. The floors, seats and urinals must be scrubbed as often as necessary.

History: 1944 ACS 18, p. 48; 1954 AC, p. 6325.

R 460.1478 Compliance.

Rule 8. Any shelter and sanitary facilities which have been constructed and are presently being maintained in accordance with an agreement heretofore entered into between the parties in interest, and agreed to or ordered by the commission, shall be deemed a complete compliance with these rules, until such time as a specific complaint is filed with the commission claiming that, on account of changes made in the uses of the facilities, such facilities are inadequate; provided nothing herein shall be construed to abrogate or limit any agreement between the interested parties now in effect which provides for better or more adequate facilities, or to prevent the negotiation of such an agreement in the future.

History: 1944 ACS 18, p. 48; 1954 AC, p. 6326.

R 460.1479 Application for relief from order.

Rule 9. Any railroad company being of the opinion that the application or enforcement of this order, or any part thereof, at any particular place, will be unjust or unreasonable, may apply to the commission for relief therefrom, and the commission may, by written order, relieve said railroad company from the application of this order, or any part thereof, at such place, or modify the same in such manner and to such extent as shall be just and reasonable.

R 460.1480 Adequacy of present facilities.

Rule 10. In the absence of specific complaint, present facilities shall be deemed adequate. In the event of a complaint filed hereafter in respect of such facilities, and the commission shall find the same inadequate, the railroad company involved shall have a reasonable time in which to complete the work required in the light of the then existing situation, circumstances and conditions.

History: 1944 ACS 18, p. 48; 1954 AC, p. 6326.

R 460.1481 Intent and purpose of rules.

Rule 11. In the event of any dispute or disagreement between any employee and any employer as to the intent, meaning and interpretation of any or all of the rules hereinabove set forth, the commission reserves unto itself the right to set a hearing thereon, and to issue appropriate order or orders, so as to effectuate and carry out the intent and purpose of said rules.

History: 1944 ACS 18, p. 48; 1954 AC, p. 6326.

STANDARDIZATION OF ELECTRICALLY OPERATED HALF-ROADWAY GATES

(By authority of Act No. 198 of the Public Acts of 1873 and Act No. 9 of the Public Acts of 1929, as amended, being §463.1 et seq. and §483.101 et seq. of the Michigan Compiled Laws)

R 460.1491 Purpose.

Rule 1. The purpose of these specifications is to provide for electrically operated half-roadway gates used in combination with standard highway crossing signals of the flashing-light type, for protection of highway traffic at railroad-highway crossings at grade.

History: 1944 ACS 18, p. 49; 1954 AC, p. 6326.

R 460.1492 Use.

Rule 2. Half-roadway gates shall be used in combination with flashing-light signals which are hereafter installed at highway crossings of multiple main tracks, unless otherwise decided; and may be used at other crossings if mutually agreed upon, subject to approval by the Michigan public service commission.

History: 1944 ACS 18, p. 49; 1954 AC, p. 6326.

R 460.1493 Design.

Rule 3. The assembled signal and gate shall conform to a design prescribed by the Michigan public service commission, a copy of which is attached hereto and made a part hereof.

History: 1944 ACS 18, p. 49; 1954 AC, p. 6327.

R 460.1494 Location.

Rule 4. Half-roadway gates shall preferably be placed on, or in close proximity to, the flashing-light signals.

History: 1944 ACS 18, p. 49; 1954 AC, p. 6327.

R 460.1495 Aspect.

Rule 5. (1) Half-roadway gates, when indicating the approach or presence of a train, shall present across the lane or lanes used by highway traffic approaching the crossing, the aspect of an arm equipped with red lights, being lowered, or at rest in the horizontal position, centered 3 feet, 6 inches above the top of highway surface.

(2) Half-roadway gates, when not indicating the approach or presence of a train, shall not obstruct, or interfere with, highway traffic.

History: 1944 ACS 18, p. 49; 1954 AC, p. 6327.

R 460.1496 Mechanisms.

Rule 6. (1) Gate operating mechanisms shall be of the double bearing type.

(2) Gate arm support shall be provided with facilities for adjusting torque of the gate.

(3) Torque for gate in the horizontal position shall be not less than 50 foot-pounds for any length of gate arm. Torque in the clear position shall be not less than 175 foot-pounds for minimum gate arm length and such additional amount as may be required, according to the length of the gate arm.

(4) Motors shall be D.C., for first voltage range operation.

(5) Mechanism employing power to assist the force of gravity when gate is being lowered may be used.

(6) The hold-clear device shall be so constructed that it will hold the gate arm in the clear position by application of electrical power and, upon the hold-clear magnet de-energizing, the gate shall assume the horizontal position by force of gravity.

(7) The mechanism shall be so constructed that if the arm shall strike or foul an object while being lowered, it will readily stop and, upon removal of the obstruction, it will assume the position that corresponds with the control apparatus.

(8) Mechanism cases shall be of metal, weatherproof, and of ample strength and size to properly house the apparatus and wiring contained therein.

(9) Gate shall operate uniformly and smoothly, and complete all movements without rebound or slap.

(10) All metal parts shall be given a finish coat of paint of white or aluminum.

History: 1944 ACS 18, p. 49; 1954 AC, p. 6327.

R 460.1497 Mounting.

Rule 7. (1) Gate may be mounted on flashing-light signal mast or on a pedestal supporting the flashing-light signal mast; where conditions require, it may be mounted on a mast or pedestal separate from the flashing-light signal support.

(2) Where gate mechanism is mounted on a mast, then such mast shall be of wrought steel pipe of standard weight, not less than 5 inches I.D., where gate mechanism is mounted on a pedestal, then such pedestal shall be of not less than 12 gauge steel adequately reinforced.

(3) Base shall be of adequate design and strength to support the load placed upon it; with holes for 1-inch anchor bolts.

(4) Anchor bolts shall be not less than 1-inch diameter and 36 inches in length.

(5) Concrete foundations shall be of such quality and dimension as to securely support the gate, or gate and signal.

History: 1944 ACS 18, p. 50; 1954 AC, p. 6327; 1954 ACS 13, p. 92, Eff. Feb. 14, 1958.

R 460.1498 Gate arm.

Rule 8. (1) Gate arm shall conform to the design prescribed by the Michigan public service commission, as shown on the attached plan, and shall be painted with black and white stripes.

(2) Gate arms shall be equipped, on the approach side, with crystal (clear) reflector buttons in each black stripe.

(3) Gate arm shall be equipped with not less than 3 red lights for single approach lane highway, and 1 additional red light for each additional approach lane.

(4) Lights shall be arranged to shine in both directions along the highway, and, so far as is practicable, shall be positioned so that no 1 vehicle standing within the limits of any highway traffic lane approaching the crossing, will obscure all these lights from the view of the drivers of following vehicles.

(5) Gate lamps shall provide an indication having a clear beam candlepower of not less than 20 in the horizontal plane at any angle up to 12¼ degrees on either side of the axis.

(6) On gate arm over 30 feet long a spring buffer rod of required length shall be used to insure that the gate, when lowered, will remain at the correct elevation over the highway throughout its entire length, unless such correct elevation can be maintained by internal buffing service of gate mechanism.

(7) Length of gate arm to be determined by the railroad and highway authorities, subject to the approval of the Michigan public service commission.

starting its descent, unless obstructed by severe weather or other unusual physical conditions.

(2) Gate arm shall reach full horizontal position before the arrival of any train at the crossing and shall remain in that position until the rear of any train has cleared the crossing.

(3) Gate arm lights shall operate at all times when the gate is not in its normal position. When gate is in operation the light nearest the tip of the arm shall burn steadily. The other arm lights shall flash alternately.

(4) Circuits shall be arranged so that failure of the gate mechanism to operate as intended will not prevent the lights on the gate arm from operating on the approach of a train.

(5) At installations where gates are operated automatically, and where railroad movements are of such a nature and frequency that unnecessary delays are thereby caused to highway traffic, special circuits shall be installed to avoid such delays, so far as may be practicable, unless the railroad company involved can obviate such delays by changes in its operation practices.

(6) All gate installations shall be provided with a controlling device for manual operation of the gates in case of emergency.

(7) Wire shall be sufficient size and battery of adequate capacity and voltage to clear the gate in the required time, under normal conditions.

History: 1944 ACS 18, p. 50; 1954 AC, p. 6328.

R 460.1500 Affidavit.

Rule 10. When the installation has been completed, the railroad company will file an affidavit with the Michigan public service commission to the effect that all its requirements have been complied with.

TRACK MOTOR CAR

(By authority of Act No. 37 of the Public Acts of 1949, being §469.521 et seq. of the Michigan Compiled Laws)

R 460.1511 Equipment.

Rule 1. (1) Any person, firm or corporation operating or controlling any railroads running through or within this state upon which railroads said person, firm or corporation causes to be operated any track motor car between 30 minutes before sunset and 30 minutes after sunrise, shall conform to this rule and the following rules.

(2) Each such track motor car shall be equipped with an electric headlight of sufficient candlepower to render visible for a distance of at least 300 feet ahead any track obstruction, landmark or warning signal, and with a red rear electric light of sufficient candlepower to be visible for a distance of at least 300 feet.

History: 1944 ACS 22, p. 12; 1954 AC, p. 6330.

R 460.1512 Nighttime operation.

Rule 2. No such track motor car shall be operated during the aforesaid nighttime period unless the prescribed equipment has been installed and has been inspected by duly authorized employees of the commission, nor shall such track motor car be operated during said nighttime period unless it shall have affixed to it in a readily visible place, a metal tag certifying that it has been inspected and certified as meeting the prescribed requirements, which said metal tag shall be furnished by the commission.

History: 1944 ACS 22, p. 12; 1954 AC, p. 6330.

R 460.1513 Notice of number of cars used during nighttime.

Rule 3. Each person, firm or corporation operating or controlling such track motor car shall notify the commission on or before July 1, 1950 of the number of such track motor cars used or intended to be used during the said nighttime period.

History: 1944 ACS 22, p. 12; 1954 AC, p. 6330.

R 460.1514 Effective date.

Rule 4. These rules shall take effect on July 1, 1950, with the exception of R 460.1513, which shall be immediately effective.

History: 1944 ACS 22, p. 12; 1954 AC, p. 6330.

INSPECTION OF TRACKS UPON WHICH PASSENGER TRAINS OPERATED

(By authority of Act No. 180 of the Public Acts of 1956, being §469.601 et seq. of the Michigan Compiled Laws)

R 460.1521 Track inspection personnel.

Rule 1. (1) All main line and branch line railroad tracks owned or operated by a railroad company in the state of Michigan, upon which passenger trains carrying paying passengers are operated, shall be inspected in accordance with this rule and the following rules.

(2) Each railroad company owning or operating such tracks shall assign a supervisory employee, or employees, above the rank of track foreman, to be in charge of the inspection.

History: 1954 ACS 14, p. 20. Eff. May 14, 1958.

Editor's note: For legislative alterations and abrogations of these rules, see Senate Concurrent Resolution No. 20 of the 1958 Regular Session of the Michigan Legislature.

R 460.1522 Frequency of inspection.

Rule 2. (1) All such tracks classified as "class A" shall be inspected not less than 3 days a week, unless specific authorization for any other requirement shall be obtained.

(2) All other tracks that do not conform to the specifications for class A tracks shall be inspected not less than 5 days a week, unless specific authorization for any other requirement shall be obtained.

History: 1954 ACS 14, p. 20, Eff. May 14, 1958.

R 460.1523 Switches; inspection.

Rule 3. Safety inspection of switches shall be made on foot at least twice each month. These rules do not apply to switches within automatic signal territory or centralized traffic control territory.

History: 1954 ACS 14, p. 20, Eff. May 14, 1958.

R 460.1524 Safety inspection of tracks; personnel; methods; objects of special attention; definition.

Rule 4. (1) Safety track inspections shall be made:

(a) By the track foreman or a qualified employee of the maintenance of way department of the railroad company owning or operating the tracks involved.

(b) Patrolling on foot or on track motor car, or other vehicle which shall be operated in a manner similar to motor cars. Motor cars or other vehicles used for such purpose shall be operated at a speed that will insure adequate safety inspection. Any such motor car, or other vehicle, shall be operated at a speed not to exceed 5 miles per hour at all railroad crossings, highway crossings and switches.

(c) Inspection of railroad crossings-at-grade, and track, shall include particular attention to the detection of unsafe conditions resulting from bad alignment, improper cross level, faulty gauge, loose ties, broken or missing bolts, and broken rails and angle bars.

(d) In all track safety inspections of highway crossings and crossing platforms, particular attention shall be given to the detection of unsafe conditions resulting from loose planking or obstructed flangeways.

(e) In the semimonthly foot track-safety inspection of switches, particular attention shall be given to the detection of unsafe conditions resulting from open or defective switch points, loose or missing bolts in heel fillers or blocking, defective guard rails or cracked frogs. Switches not in "automatic signal" or "centralized traffic control territory" shall be operated at least once each month to insure that they are in proper working order.

(f) Track inspection territory assigned to a track inspector shall not be more than 50 miles per day.

(g) Inspections of class A track shall be made at intervals not more than 65 hours, nor less than 36 hours, apart, unless otherwise ordered by the commission.

(h) When necessary to operate passenger trains over tracks not regularly used for passenger service, they shall be inspected not more than 72 hours prior to the operation of such passenger trains and shall be inspected as often as passenger trains are operated over such tracks, and if operated more than 4 days a week, section 2 of these rules shall apply.

(2) The following terms as used herein are defined as follows:

(a) "Class A tracks" shall conform to the following specifications:

Consisting of rails weighing 105 pounds per lineal yard, or heavier; ballast of crushed stone, 18 inches in depth or equivalent; treated cross ties 7″x9″x8′;

roadbed with adequate drainage; protected by automatic block signals or centralized traffic control.

(b) "Bad alignment" means deviation from the built-in or predetermined relation to the line stake location of the track at any given point in the total structure, whether curve, tangent or turnout such as would cause rough operation, undue strain or wear on track or rolling stock.

(c) "Improper cross level" means the settlement or heave in the track such as would cause one rail to leave a predetermined relation to the opposite rail so as to cause a condition of unbalance to rolling stock or to cause undue strain or wear to the track structure or to rolling stock.

(d) "Faulty gauge" means the reduction or enlargement of the predetermined space between 2 running rails such as would cause undue wear or strain on the track structure or rolling stock.

(e) "Loose ties" means ties which, due to not being surrounded and supported by well impacted ballast material and which are not tightly (railroad companies' current engineering specifications) fastened to the rail, are displaced from their predetermined spacing, angle to the running rails, or otherwise offer lack of intended support.

(f) "Defective switch point" means one which, due to wear, chipped end or top, has been bent out of its predetermined contour, lack of intended adjustment of position, or that fails to maintain the required snug fit on the closed side, or the required clear space on the open side.

History: 1954 ACS 14, p. 20, Eff. May 14, 1958.

R 460.1525 Additional inspections.

Rule 5. Nothing in these rules shall be construed as limiting the authority of this commission to order inspections in excess of those as set forth in R 460.1522 when, in the judgment of the commission, unusual or extraordinary conditions necessitate such additional inspections.

DEPARTMENT OF COMMERCE

PUBLIC SERVICE COMMISSION

UNIFORM SYSTEM OF ACCOUNTS— CLASS A, B, C, D, AND E TELEPHONE COMPANIES

R 460.1601—R 460.1931 Rescinded.

History: 1944 AC, pp. 1187-1300; 1954 AC, pp. 6331-6454; rescinded 1954 ACS 85, p. 38, Eff. Oct. 1, 1975.

INTRASTATE TELEPHONE SERVICES AND FACILITIES (ORDER NO. T-576-1944 REVISION)

(By authority of sections 3 and 13 of Act No. 206 of the Public Acts of 1913, section 5 of Act No. 419 of the Public Acts of 1919, and sections 4 and 6 of Act No. 3 of the Public Acts of 1939, being §§484.103, 484.113, 460.55, 460.4, and 460.6 of the Michigan Compiled Laws)

R 460.1951 Scope and application.

Rule 1. These rules, governing the furnishing of intrastate telephone services and facilities by companies subject to the jurisdiction of the Michigan public service commission apply to all said services and facilities except as may be otherwise provided in the approved tariff of a utility.

History: 1944 AC, p. 1300; 1954 AC, p. 6454.

R 460.1952 Definitions.

Rule 2. (1) "Base rate area"—The urban portion or portions of the exchange area surrounding and including the location of the central office or offices, as defined in the utility's local tariff. Within this area urban services (individual, 2-party, 4-party, and semipublic pay station services) are furnished at rates that do not vary with the distance from the central office.

(2) "Base rates"—The rates for urban classes of service within the base rate area.

(3) "Central office"—The inside plant including the switchboard (manual or dial, attended or unattended) with associated equipment, apparatus and wiring, used to establish connections between customers' lines or between such customers' lines and the trunk or toll lines to other central offices within the same or at other exchanges.

(4) "Classes of service"—Classes of service are: Business, residence, public, semipublic, etc.

(5) "Contract"—The service agreement between a customer and the telephone company under which facilities or communication services are furnished.

(6) "Customer"—The person, firm, corporation or association who contracts for facilities and is responsible for the payment of charges and compliance with the rules of the telephone company.

(7) "Customer's location"—For mileage purposes, the customer's location is taken as the junction point between the customer's service drop and the general plant facilities, or the junction point between the customer's outside and inside facilities, whichever point is most favorable to the customer.

(8) "Exchange"—The unit established for the administration of telephone service in a defined area, which unit usually embraces a town, village or city and its environs and for which there is a distinct or separate local tariff filing. It

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

includes all the plant facilities, including the lines, instruments and 1 or more central offices, used in furnishing telephone service within the area.

(9) "Exchange area"—The area served by an exchange.

(10) "Grades of service"—Grades of service are: Individual, 2-party, 4-party, multi-party, etc.

(11) "Instrumentalities"—A station together with associated inside wiring on the customer's premises, not including the drop and block wiring.

(12) "Premises"—A building or a portion of a building occupied by the customer in the conduct of his business, or as a residence.

(13) "Station"—A telephone instrument installed for the use of a customer.

History: 1944 AC, p. 1300; 1954 AC, p. 6454.

R 460.1953 Filing and posting of rates and regulations.

Rule 3. (1) There shall be kept on file and open for public inspection in the business offices of each telephone utility a copy of its rate schedules and its rules and regulations applicable within the area or areas served by each said business office. These rates and regulations shall be the same as filed with the commission.

(2) There shall also be posted in a conspicuous place in or about the said business office a public notice in large plain type stating that the rates and the rules and regulations applicable within the (named) service areas served by the business office, and as approved by the commission, are kept there and are open for public inspection.

(3) When the utility maintains no business office in an area and customer's accounts are payable at an agent's office it will suffice if a notice is posted there similar to the above modified to indicate that the rates and rules and regulations there applicable are on file and open to public inspection during specified business hours at a (named) nearby business office of the utility.

History: 1944 AC, p. 1301; 1954 AC, p. 6455.

Editor's note: R 460.1953 was rescinded by R 460.2216, 1954 ACS 90, p. 62, Eff. May 14, 1977, insofar as the rule applied to residential telephone service.

R 460.1954 General provisions.

Rule 4. (1) Oral or written applications for service and facilities become contracts upon the establishment of the service or facility.

(2) Unless otherwise specified, the minimum contract period for telephone exchange service is 1 month.

(3) In general, all equipment and apparatus necessary for the provision of a given service or facility will be furnished and maintained by the telephone company.

(4) The customer may be required to provide and maintain suitable housing or protective apparatus when equipment is installed in locations exposed to weather or other hazards.

(5) The furnishing of certain services or facilities may involve impairment of transmission or signalling, in which case the customer may be required to contract for such equipment or apparatus as is necessary, in place of or in addition to that regularly provided, to assure satisfactory service.

(6) A customer or user may not rearrange, disconnect, reconnect, remove or attempt to repair any apparatus or wiring installed by the telephone company, nor may the customer connect or use in connection with the telephone company's facilities any line, instrument or apparatus except upon the written consent of the telephone company.

(7) The service and facilities furnished are intended only for communications in which the customer or authorized user has a direct interest. Business telephone service, except joint user service, hotel branch exchange service or semipublic

service is furnished only for use by the customer and his employees, associates or representatives; residence telephone service is furnished only for the use of the customer and members of the customer's domestic establishment.

(8) Subscriber telephone service, as distinguished from public and semipublic telephone service, is not installed or allowed to remain on premises of a public or semipublic character unless so located that it is not readily available to the public or patrons of the customer except registered guests at hotels.

History: 1944 AC, p. 1301; 1954 AC, p. 6455

R 460.1955 Advance payments and deposits.

Rule 5. (1) Applicants may be required to pay at the time application is made for service all service connection charges, construction charges and installation charges that may be applicable.

(2) Applicants or customers whose credit rating is, or may become, unsatisfactory may be required at any time to make a suitable deposit to be applied upon termination of the service in payment of:

(a) Any unpaid charges for service rendered to the customer.

(b) Termination charges that may be applicable.

(c) Loss or damage of equipment (see R 460.1957(2) and (3)).

(3) Any balance of the amount deposited is returned to the customer at the time of termination of the contract or may be returned at any time previous thereto when a satisfactory credit rating has been established.

(4) An accurate record shall be kept by the telephone company of all sums deposited with it for surety, and the utility shall refund without regard of whether or not the customer produces a receipt or other evidence of such deposit.

(5) Simple interest of not less than the legal rate shall be paid annually on all sums retained on deposit for 30 days or more. No interest credit will be made on a deposit, or any portion thereof, after the date on which a notice of refund is deposited in the U.S. mail addressed to the last known address of the customer.

(6) The fact that a deposit has been made neither relieves the applicant or customer from complying with the telephone utility's rules as to advance payments and the prompt payment of bills when rendered, nor constitutes a waiver or modification of the regulations with respect to discontinuance of service for nonpayment of any sums due for service rendered.

(7) The amount of the deposit shall not exceed the estimated maximum amount of charges that would accumulate before discontinuance of service for nonpayment of bills.

History: 1944 AC, p. 1302; 1954 AC, p. 6456.

Editor's note: R 460.1955(2) to (7) were rescinded by R 460.2216, 1954 ACS 90, p. 62, Eff. May 14, 1977, insofar as the rules applied to residential telephone service.

R 460.1956 Payment for services and facilities.

Rule 6. (1) Unless otherwise provided the customers shall pay monthly in advance for local exchange services and facilities; and for other services and facilities including service connection, move, change, installation, additional message, and toll charges, the customers shall pay when billed.

(2) The customer is responsible for all charges originated at equipment contracted for by him and for messages received on which the charges have been reversed with the consent of the person answering the telephone.

(3) Where a customer is a subscriber for telephone service at 2 or more locations each subscription is a separate contract. In case of nonpayment of charges service may be discontinued on such contract as may be in default, but service shall not be denied on such contracts as are paid up and in good standing. Contracts for directory advertising or other things or services not directly

associated with the general telephone service offered by the utility are not enforceable by discontinuance or termination of telephone service.

(4) Charges and credits for a fractional part of a month shall be computed on the basis of a 30-day month; the period of service to commence with the day following the establishment of service and to end at the close of the day service is terminated.

History: 1944 AC, p. 1302; 1954 AC, p. 6456.

Editor's note: R 460.1956(3) was rescinded by R 460.2216, 1954 ACS 90, p. 62, Eff. May 14, 1977, insofar as the rule applied to residential telephone service.

R 460.1957 Termination of service.

Rule 7. (1) Contracts for service or facilities may not be terminated except upon advance notice to the telephone company, at which time there is due and payable all unpaid charges or guarantees for the period the service or facilities have been furnished, and all applicable minimum and termination charges.

(2) Upon termination of the service for any cause whatsoever except as provided in subrule (3) of this rule, equipment furnished by the telephone company shall be returned to the telephone company in good condition, reasonable wear excepted, and the customer will be held responsible for the value of equipment lost or destroyed or for the cost of restoring the equipment to its original condition.

(3) The customer will not be liable for loss of or damage to any of the utility's equipment because of fire or other cause beyond the control of the customer.

History: 1944 AC, p. 1302; 1954 AC, p. 6457.

R 460.1958 Cancellation for cause.

Rule 8. (1) Under the following conditions the utility without incurring liability may discontinue service or terminate a contract 5 days after furnishing a notice by depositing in the mails a letter addressed to the customer or his agent:

(a) In the event the customer neglects or refuses to comply with the rules and regulations of the utility and the said violation is not otherwise provided for.

(b) Upon the use of a service or facility for the purpose of reselling the service or performing a service in competition with any service offered by the utility.

(c) Upon improper use of a party line service, including interference with an equitable proportionate use of the service by other customers on the line, and upon notice the customer fails or refuses to contract for a higher grade of service.

(d) When the manner of use of the service by a customer differs from that contemplated for the class or grade of service contracted for, and upon notice, the customer fails or refuses to contract for a proper class or grade of service.

(2) Under the following conditions, discontinuance of service may be made by the utility without previous notice to the customer and without incurring any liability:

(a) In the event of the use of profane or indecent language over the facilities.

(b) In the case of abandonment of the station or the facilities, or the premises upon which they are installed.

(c) If the use of the service or facility by the customer, or the manner of such use, or the failure to contract for adequate facilities, or the attachment of any unauthorized instrument or device to the telephone company's lines or facilities, affects injuriously the efficiency of the general plant or services.

(d) If a service or facility is used in a manner which substantially impairs the service of a particular customer.

(e) Whenever the judge of any court of record having jurisdiction over criminal offenses, the attorney general of Michigan, or the United States attorney in and for any federal judicial district in Michigan, or the prosecuting attorney, shall

represent in writing to the telephone company that he has probable cause to believe that the service furnished at a designated location is being used in furtherance of the commission of a specified criminal offense, and in such writing shall request that such service be discontinued, it shall be, and with like effect as to both the telephone company and the customer as though the latter had of his own volition directed that the same be done.

History: 1944 AC, p. 1302; 1954 AC, p. 6457.

Editor's note: R 460.1958 was rescinded by R 460.2216, 1954 ACS 90, p. 62, Eff. May 14, 1977, insofar as the rule applied to residential telephone service.

R 460.1959 Inspection and repairs.

Rule 9. (1) Upon proper identification agents and employees of the utility are authorized to enter the premises of a customer at any reasonable hour for the purpose of inspecting, repairing, or removing instruments or lines and making collections from coin boxes.

(2) All expenses of maintenance and repair in connection with equipment, facilities and services furnished by the telephone company is borne by the utility unless otherwise provided.

History: 1944 AC, p. 1303; 1954 AC, p. 6457.

R 460.1960 Liability of the telephone company.

Rule 10. (1) In the event of an interruption to the service which is not due to the negligence or wilful act of the customer, upon notice and application by the customer an allowance will be made for the time the interruption continues. (See R 460.1956(4).)

(2) The liability of the telephone utility for damages arising out of mistakes, omissions, interruptions, delays, errors, or defects in transmission, occurring in the course of furnishing service or facilities and not caused by the negligence of the customer, shall in no event exceed an amount proportionate to the charge to the customer for the period of service during which such mistake, omission, interruption, delay, defect, or error in transmission occurs.

(3) The telephone utility is not liable for errors in or omissions from directories except in cases where a specific charge has been made for a listing; in no event shall the liability for such error or omission be beyond the amount of the specific charge.

(4) The telephone company is not liable for unavoidable defacement of or damage to the premises of a customer resulting from the attachment of the telephone company's equipment on such premises, or from the removal thereof.

(5) In the adjustment of charges because of an error in billing, refunds and charges will be made in the full amount when they can be determined; when the exact amount cannot be determined from the records, the maximum refund or charge will not exceed an estimated amount equal to such charge for a 3-year period.

(6) The customer has no property right in a telephone number and telephone numbers may be changed whenever the exigencies of the business so require.

History: 1944 AC, p. 1303; 1954 AC, p. 6457.

R 460.1961 Classification of service.

Rule 11. (1) The determination as to whether telephone service should be classified as business or residence is based on the character of the use made of the service. Service is classified as business service where the use is primarily or substantially of a business, professional, institutional or otherwise occupational nature, including, but not by way of limitation, those in the following categories:

(a) In offices, stores and factories, and in quarters occupied by clubs, lodges, fraternal societies, schools, colleges, libraries, hospitals and other business establishments.

(b) In residence locations where the place of residence is in the immediate proximity to a place of business and it is evident that the telephone in the residence quarters is or will be used for business purposes.

(c) In residence locations where an extension is located at a place where business rates would apply.

(d) In the residence of a practicing physician, dentist, veterinary, surgeon or other medical practitioner who has no service at business rates at another location.

(e) In any residence location where there is substantial business use of the service and the customer has no service elsewhere at business rates.

(2) Where the business use, if any, is incidental and where the major use is of a social or domestic nature, service is classified as residence if installed in a residence.

History: 1944 AC, p. 1303; 1954 AC, p. 6458.

R 460.1962 Directories.

Rule 12. (1) Directories are furnished as an aid to the use of the telephone service. A listing in the alphabetical section is provided each customer without extra charge. As an aid to the service, cross reference listings or alternate spelling of surnames may be provided. Listings are subject to the following:

(a) Listings are limited to information which is essential to identification.

(b) When clearness of the listing and identification of the customer are not impaired thereby, the listing is limited to 1 line. Additional necessary lines are furnished at no charge to the customer.

(c) A listing must be the actual name of the customer to whom service is rendered, or the name of a member, officer, employee or representative thereof, or the name of other business which the customer represents, controls or owns.

(d) No assumed name will be listed unless it is registered as required by law, and a name which is likely to mislead or deceive the public, or which is inserted for advertising purposes, will not be listed.

(e) Double name listings such as "XYZ Mfg. Co., John Doe, manager" are not permitted.

(2) Additional listings for which a charge is made are designated "extra listings." Extra listings must be contracted for by the customer, which customer is responsible for the charges. Extra listings are subject to the same rules as regular listings. Charges for extra listings are discontinued upon termination of the main station service or upon notice to the utility of cancellation of said listing.

(3) When the customer contracts for more than 1 individual line of the same class and at the same location, consecutive telephone numbers should be assigned, if available, in which case only 1 listing will be furnished.

(4) The telephone listing of a professional person such as a physician, dentist, minister, etc., may include the professional degree or title; and the residence telephone listing of a nurse may include the word "nurse."

(5) The liability of the telephone company with reference to directory errors and omissions is limited as is given in R 460.1960(3).

History: 1944 AC, p. 1304; 1954 AC, p. 6458.

R 460.1963 Construction charges.

Rule 13. (1) Special charges, not in excess of the additional cost, may be applied in addition to the usual service connection charges when an unusual investment or expense is involved and the estimated revenue does not reasonably compensate the telephone company. Examples of such cases are:

(a) Where facilities are provided in remote, rural or undeveloped sections.

(b) When conditions require the use of costly private right-of-way, or the provision of special equipment, or unusual and expensive methods of plant construction, installation or maintenance.

(2) Title to all construction provided wholly or partly by a customer, or wholly or partly at a customer's expense, is vested in the telephone company.

(3) When attachments are made to poles of others in lieu of providing construction for which the customer would be charged under the provisions hereof, the cost to the telephone company of such attachments is to be borne by the customer.

(4) The customer is required to pay construction charges as made by a foreign company providing facilities connecting with the facilities of the normal telephone company in order to provide foreign exchange service.

History: 1944 AC, p. 1304; 1954 AC, p. 6459.

R 460.1964 Miscellaneous services and facilities.

Rule 14. (1) An arrangement (facilities permitting) whereby a customer with individual line service at 2 separate locations upon different premises within the same central office area may answer calls for either main station at the other station location is known as combination service. There is no additional charge for this service, the charge for each main station being the established individual line rate according to the classification of the service at each of the premises as to business or residence character.

(2) Extension stations are additional stations used in connection with main station service; such stations are subject to the following conditions:

(a) Extension stations must be located in the same local service area as the associated main station.

(b) Extension stations must be located on the premises of the customer (or the joint user) and are restricted to his use and the use of members of his domestic establishment or his employees, except that extensions may be located upon another's premises if the use is restricted to incoming calls and a separate exchange service is provided at the other premises.

(c) Extension stations on premises other than those on which the main station is located (off-premises) are furnished subject to the availability of suitable facilities and only if a satisfactory grade of service can be maintained. Additional charges for circuit mileage are applicable in connection with all off-premises extensions.

(d) Separate telephone numbers or other distinctive designations are not assigned to extension stations nor is code ringing permitted. Extension stations are not listed in the directory. No additional free listings are allowed in connection with the main station on account of extension stations.

(e) Intercommunication between main and extension stations is not contemplated except as provided for by wiring plans or key systems.

(f) Extension stations are given the same classification, i.e., business or residence, as the main station with which they are associated.

(3) Foreign exchange service is exchange telephone service from an exchange other than the 1 from which service would normally be furnished. Foreign exchange service is furnished subject to the following conditions:

(a) Terminal facilities used by the customer of foreign exchange service furnished by means of extensions of exchange lines are usually furnished and maintained by the foreign exchange.

(b) Terminal facilities used by the customer of foreign exchange service furnished by means of toll facilities are usually furnished by the normal exchange.

(c) Foreign exchange customers are considered as subscribers to the foreign

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

exchange for billing purposes and are subject to the rules of both the normal exchange and the foreign exchange.

(d) Pay stations are not available upon the basis of foreign exchange service.

(e) Toll stations are not subject to foreign exchange service rules.

(f) Foreign exchange customers are entitled to a listing in the directory of the foreign exchange.

(g) The determination as to whether foreign exchange service will be provided by means of toll facilities or exchange facilities shall rest upon the exchanges involved inasmuch as existing arrangements of plant facilities are an important factor.

(4) Joint user service is an arrangement whereby a person or firm (designated a joint user) is permitted to use the service of a customer. Joint user service is subject to the following conditions:

(a) Joint user service is provided only in connection with individual line business service.

(b) The joint user must be located in the same office or offices as the customer, or in an office immediately adjacent thereto and connected therewith by passageways other than public passages.

(c) No separate ring numbers or distinctive station designations are assigned to joint users.

(d) Joint user service must be contracted for by the original customer who is required to assume responsibility for all charges incurred.

(e) Joint user service is not available to a customer engaged primarily in performing a service of a secretarial nature for the customer.

(f) A directory listing is provided for each joint user.

(g) Charges for joint user service date from the day such service is first rendered. The minimum charge for joint user service is for a period of 1 month.

(5) Mileage charges:

(a) Base rate area and exchange area boundaries. In the case of base rate areas, exchange areas and locality rate areas bounded by streets or highways, the area includes that side of the street or highway on which are located the general plant facilities. When such facilities are located on the near side, a customer located on the opposite side is considered to be within the area if he can be served by a drop wire using not more than 1 additional pole. When the facilities are located on the far side, a customer on that side is considered to be within the area if he can be served by means of a drop wire not requiring any additional poles.

(b) Exchange line mileage. For urban telephone service other than locality rate area service (see subdivision (d) below) furnished outside the base rate area, but within the exchange, line mileage charges apply based upon the air-line distance between the customer's location and the nearest point of the base rate area boundary.

(c) Foreign exchange line mileage. Foreign exchange line mileage charges according to the tariffs of the telephone company or telephone companies furnishing the service apply to exchange services located outside the exchange area (see also subrule (3) of this rule).

(d) Locality rate area. In specified outlying sections of exchanges a commuted exchange line mileage charge may be applied throughout the defined area to specified classes of service. The commuted mileage charge, plus the base rate for the classes of service specified, is the locality rate.

(6) Moves and changes:

(a) A move is a transfer of equipment from 1 location to another upon the same the same premises.

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(b) A change is a substitution of a different type or style of instrument, or a rearrangement of equipment or wiring, made at the request of the customer. A "change of name," or a "change of address" is not considered a change and is covered under service connection charges.

(c) Charges for moves or changes do not apply to the following cases:

(i) Changes in the type or style of instrument made at the time of installation or at the time of a charged-for move of that instrument.

(ii) Moves or changes made at the initiative of the telephone company for maintenance reasons, because of a change in method of operation, or for other reasons.

(iii) Changes made at the time of a service reclassification (e.g., 4-party service to 2-party service) provided such change is necessary because of the reclassification.

(7) Restoral of service:

(a) Restoral of service charges apply where service has been temporarily denied for nonpayment—but not terminated—or where on account of nonpayment of charges the telephone company's representative visits the premises of the customer to disconnect and remove the equipment and because of payment does not remove the equipment.

(b) Restoral of service charge does not apply where service has been terminated; in that event service is reestablished on the basis of a new application for service and the charges associated therewith apply (see service connection charges).

(8) Service connection charges:

(a) Service connection charges are applicable with the establishment of new and additional exchange telephone service—except nonguarantee public telephone service—as specified in the telephone company's tariff and are in addition to all other rates and charges.

(b) Changes of location of service from 1 premises to another are considered service connections.

(c) Where a service is continued intact but there is a change in the party known as the customer (change of interest) together with a change in the name by which the customer is known to the telephone company (change of name), service connection charges apply as specified for situations where the instrumentalities are in place. Where there is a "change of interest" without a "change of name," or a "change of name" without a "change of interest," by reason of the same no additional charges apply.

(d) Service connection charges do not apply in connection with the reclassification of a service; for example, party line service to individual line service or vice versa, individual lines to private branch exchange trunks, residence to business service, extension stations to main stations, etc.

(e) Service connection charges do not apply when a service is rendered inoperative by fire or other cause beyond the control of the customer which renders the premises unfit for occupancy and service is reestablished at another location. A service connection charge is made for transferring a temporary installation from one premises to another.

(f) Service connection charges do not apply to the reestablishment of service temporarily denied for nonpayment, provided the service has not been terminated (see subrule (7) of this rule).

(9) At exchanges where season service rates are authorized, such rates are applied where it is evident that the service will be retained only during a short or seasonal period in sections where it would otherwise be unnecessary for the

telephone company to maintain general plant facilities throughout the year.

(10) Suspension of service:

(a) Suspension of service rates apply when, upon the request of the customer, service is temporarily suspended for a period of 1 month or more.

(b) Bills are rendered at the reduced rates specified in the tariff on the regular billing periods during the period of suspension.

(c) The equipment is left on the premises and the customer's directory listing is preserved during the suspension period.

(d) Service is restored without charge at any time upon due notice from the customer.

(e) Full rates apply, calculated in accordance with R 460.1966(4), during periods when service is furnished, but at least 2 months' full rate rental must be paid between each suspension period.

History: 1944 AC, p. 1304; 1954 AC, p. 6459.

R 460.1965 Message toll telephone service.

Rule 15. Intrastate message toll telephone service, which consists in furnishing facilities for telephonic communication between customers located in different local service areas in Michigan, is governed by rules, regulations and rates filed with the Michigan public service commission in the tariff of the utility, or filed by another company with whose rules, regulations and rates the utility in question concurs, as set forth in its tariff book.

History: 1944 AC, p. 1307; 1954 AC, p. 6462.

R 460.1966 Public and semipublic service.

Rule 16. (1) Public telephone service:

(a) Public telephone service (or nonguarantee pay station service) is provided by the utility for the use of the general public wherever reasonably required.

(b) Directory listings are not provided, nor are extension stations permitted, unless required to meet a special condition, in which case they are furnished at no additional charge.

(c) Service connection, mileage, or other miscellaneous charges do not apply, nor is the owner of the premises held responsible for loss of or damage to the equipment, or loss of moneys.

(d) Public telephones are usually connected to individual lines, however, where the use of individual lines is not warranted (as in small resort areas) more than 1 public telephone may be connected to the same line. Public telephones are not connected to rural service lines.

(e) There is no minimum guarantee with respect to receipts, and the charges are 5¢ for each local call and the established rates for toll messages.

(2) Semipublic service:

(a) Semipublic service (or guarantee pay station service) in general is designed to meet telephone requirements at the following locations:

(i) At locations where the installation of a public telephone is not warranted but where there is a demand for service for transients.

(ii) At locations where there is a collective use of the service by guests, members, employees or occupants.

(iii) At locations where the demand for service is for a combination of transient and customer usage.

(b) Extension stations for answering incoming calls may be installed in connection with the service when such extensions are essential. The extension station must be on the same premises as (and in plain view of) the main station.

(c) Listings in the directory are provided pursuant to R 460.1962 of these rules.

(d) Collections from semipublic stations are made at intervals determined by the receipts. The amount due as of the collection date is the amount of the local message guarantee plus the amount due for toll messages. If the local receipts are less than the guarantee, the customer is required to pay the deficit. The guarantees on and receipts from all semipublic telephones furnished to a customer and installed on the same premises are considered collectively.

(e) Local receipts in excess of the guarantee for any collection period are not credited against deficits for any other period.

(f) The customer is required to:

(i) Redeem slugs and spurious, mutilated or foreign coins deposited in the collection device, at the value for which they were deposited.

(ii) Reimburse the telephone company for loss through theft of moneys from the collecting device.

(iii) Display public telephone signs furnished by the telephone company.

(g) All rules and charges applicable in connection with business main station service, unless otherwise provided, apply in connection with semipublic service.

History: 1944 AC, p. 1307; 1954 AC, p. 6462.

R 460.1967 Rural telephone service.

Rule 17. (1) Rural line service is furnished only by means of multi-party lines and may be either dial or manual type service.

(2) Rural line service is provided outside base rate areas only.

(3) Where the facility arrangements do not otherwise permit business and residence rural stations may be connected to the same line.

History: 1944 AC, p. 1308; 1954 AC, p. 6463.

R 460.1968 Service station service.

Rule 18. (1) Service station service consists of providing toll connections, switching local calls and providing directory listings to persons acting in joint association who furnish their own line and station facilities, and are located outside the base rate area but within the exchange area. Service station customers are required to conform with the following rules:

(a) Provide and maintain to required commercial standards station equipment and connecting lines and circuits of a type approved by the telephone company.

(b) Conform to the rules and regulations of the telephone company.

(c) The lines of service station associations having more than 1 central office line are considered collectively with respect to minimum guarantees.

(2) The telephone company provides and maintains the necessary circuit or circuits between the central office and a point on the base rate area boundary where the facilities of the telephone company and the service station association are joined.

(3) The telephone company provides 1 directory listing for each main service station.

(4) Service station customers are charged at regular rates for toll messages.

(5) Charges for switching and for toll service are billed against the service station association and not against individual members.

(6) In case of failure to conform to the telephone company's rules, treatment is applied to the association, not to individual members.

(7) Termination of a service station line at more than 1 central office or more than 1 toll station is not permitted nor may connection between service station

FILING PROCEDURE FOR RATE SCHEDULES, FRANCHISES, PERMITS, CONTRACTS, AND AGREEMENTS BY ELECTRIC, TELEPHONE, AND GAS UTILITIES (ORDER NO. 3096-1944 REVISION)

PART 1. GENERAL PROVISIONS

R 460.2001 Scope.

Rule 1. This order of the commission prescribes the procedure to be followed by all electric, gas, and telephone utilities in filing:

(a) Rate schedules.
(b) Rules and regulations.
(c) Standard forms.
(d) Franchises.
(e) Permits.
(f) Agreements.
(g) Contracts.

History: 1944 AC, p. 1309; 1954 AC, p. 6463.

R 460.2002 Definitions.

Rule 2. For the purposes of these rules the following definitions apply:

(a) The word "commission" refers to the Michigan public service commission.

(b) The term "rate schedule" shall refer to the rate or charge for a particular classification of service including all special terms and conditions under which service shall be furnished at such rate or charge.

(c) The term "rules" and/or "regulations" shall include the rules, practices, classifications, exceptions, and conditions observed by the utility in supplying service.

(d) The term "standard forms" shall include all standard contract or agreement forms for execution between the utility and its customers.

(e) The term "rate book" shall refer to the assembled "rate schedules," "rules," "regulations," and "standard forms" of the utility as filed with this commission.

History: 1944 AC, p. 1309; 1954 AC, p. 6463.

PART 2. RATE SCHEDULES

R 460.2003 General filing instructions.

Rule 3. (1) All rate schedules, rules, regulations, forms, etc., in the form prescribed shall be submitted to the commission in triplicate for filing. After acceptance, 1 stamped copy will be returned to the utility which shall be the notice to the utility that the filing has been accepted.

(2) All rate schedules submitted to the commission for filing should be accompanied by a letter of transmittal which lists the sheets being transmitted.

(3) It is recommended that where numerous filings are made, or are contemplated to be made, that the letters of transmittal be serially numbered so that each filing may be readily identified.

(4) If an acknowledgment of the filing is desired, the letter of transmittal should be sent in duplicate with a request that the duplicate be returned.

History: 1944 AC, p. 1309; 1954 AC, p. 6464.

R 460.2004 Size and form of rate schedules and rate books.

Rule 4. (1) All rate schedules, rules and regulations shall be filed with the commission in loose leaf form on 8½ x 11" sheets printed (or typewritten with standard type) on 1 side of the sheet only, and on a good grade of bond paper of durable quality. Sufficient margin shall be allowed on each sheet for a left-hand binding edge so that when the rate book is open all printed matter will be in view.

(2) The commission does not furnish blank forms for rate schedules nor binders for rate books. The utility shall supply durable binders for this purpose.

(3) Gas and electric utilities. Rate books shall consist of the following sections in the order named:

(a) Front cover.
(b) Title page.
(c) Table of contents—check list.
(d) Description of territory served.
(e) Index of communities served.
(f) Miscellaneous.
(g) Rules and regulations.
(h) Technical terms and abbreviations.
(i) Rate schedules.
(j) Standard forms and riders.
(k) Back cover.

(4) Telephone utilities. In general, the rate books of telephone utilities should contain in the order named:

(a) Front cover.
(b) Title page.
(c) Table of contents (See note A).
(d) General description of the territory served.
(e) General rules and regulations (See note B).
(f) General rates (See note B).
(g) Local rates (See note B).
(h) Exchange area map sheets (See note B).
(i) Back cover.

Notes:

A. Table of contents may be omitted in rate books of less than 20 sheets.

B. Where it is desirable or necessary to divide the filing into several rate books or sections, each book or section should follow the foregoing outline with respect to subdivisions (a), (b), (c), and (d) of subrule (4) following which the remaining material should be arranged in logical sequence within each book or section.

History: 1944 AC, p. 1309; 1954 AC, p. 6464.

R 460.2005 Numbering and general data to appear on each sheet.

Rule 5. (1) Every sheet in the rate book shall be numbered except the front and back covers. It is suggested that a decimal system of numbering, or its equivalent, be adopted so that a new or additional sheet may be inserted in its logical place in the proper section of the rate book.

(2) All rate books must be given a Michigan public service commission number (M.P.S.C. number) which shall appear in the upper left-hand corner of every sheet except the front and back covers. The first rate book issued by a utility shall be designated as M.P.S.C. No. 1, and any subsequent issue of a complete new rate book shall be given the next successive number, except as may otherwise be provided or directed. If the name of the utility is changed, the new rate book shall be M.P.S.C. No. 1.

(3) The first issue of every sheet in the rate book shall be marked "original sheet" in the upper right-hand corner of the sheet. As an example,

Original sheet No. 1.

(4) Revised sheets in the rate book shall be marked with the serial number of the revision in the upper right-hand corner and the number of the sheet it replaces. As an example,

First revised sheet No. 5.1
Cancels original sheet No. 5.1.

(5) Every sheet except the front and back covers shall have the issued date in the lower left-hand corner of the sheet and the name and title of the issuing officer of the utility.

(6) Every sheet containing a rate schedule, rule or regulation, standard form or rider shall have the effective date in the lower right-hand corner of the sheet.

The term "effective date" shall be construed as follows:

(a) On an original sheet, the effective date is the date on and after which the rate schedule or regulations shown on the sheet become effective.

(b) On a revised sheet, the effective date is the date on and after which the revision of the rate schedule or regulations becomes effective.

(7) Every sheet containing a rate schedule, rule or regulation, standard form or rider, approved by formal order of the commission, shall have the following notation at the bottom of the sheet:

Issued under authority of order No. _____ of Michigan Public Service Commission, dated _____.

(8) Each utility should adopt a system for indicating the nature and extent of the revision of rates or regulations contained on a revised sheet so that such revisions can be readily recognized. The revised portion may be printed in a different style of type, underlined, or otherwise marked with some symbol, such as,

C. To signify a changed regulation.
D. To signify a discontinued rate, treatment or regulation.
I. To signify an increase.
N. To signify a new rate or regulation.
R. To signify a reduction.
T. To signify a change in text but no change in rate or regulation.

History: 1944 AC, p. 1310; 1954 AC, p. 6465.

R 460.2006 Description of individual sheets.

Rule 6. (1) The front cover should adequately identify the volume as the rate book filed by the particular utility with the Michigan public service commission for the sale of electricity, gas or telephone service.

(2) The title sheet shall be a repetition of the front cover except that it shall be sheet number 1 of the rate book (upper right-hand corner) and shall have thereon all the general information required by section 5 of these rules.

(3) Table of contents:

(a) Each sheet of the rate book shall be listed by sheet number, including revision number and effective date, in a table of contents—check list.

(b) The table of contents—check list shall be amended whenever any change or addition is made in the rate book.

(c) The table of contents—check list shall be supplemented by a "topical" or "subject" index to facilitate the use of the rate book.

(d) On June 30 of each year, each utility shall notify the commission of the date of issue of the effective table of contents—check list.

(4) Description of territory served:

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(May be omitted if the information is shown on title sheet.)

(a) Gas and electric utilities: List the communities and the townships served. A map (8½ x 11 inches) showing the territory served should be included if available.

(b) Telephone utilities: A brief, general description of the territory, or a reference to description shown elsewhere in the tariffs, should be given. This may be placed on the title page (b) above, when the brevity of the description permits.

(5) Index of communities served and applicable rate schedules:

(a) This index should list each community and township served and indicate for each the rate schedules available to customers located therein.

(b) If the utility's rate schedules are uniform with respect to communities served (i.e., the same rates are available throughout all territory) this division of the schedules of rates may be omitted, providing the "description of territory served" is complete and each rate schedule clearly states that it is available throughout the utility's entire territory.

(6) Information of a general nature that does not belong under any of the specified captions should be placed in this section. If rates in certain communities are claimed to be governed by franchise, permits or agreements, it should be so stated.

(7) Regulations:

(a) This shall include all rules, regulations, practices, services, classifications, exceptions and conditions made or observed relative to the utility service furnished which are general and apply to all or many of the rate schedules or exchange areas served.

(b) The regulations shall be lettered or numbered and titled so that convenient reference can be made to them.

(c) If a general regulation does not apply to a particular rate schedule or exchange, that fact should be clearly stated.

(8) Full and concise information shall be given as to the meaning of all technical and special terms and abbreviations and of all reference marks used in the regulations or rate schedules.

(9) Rate schedules:

(a) All rate schedules shall be placed in and made a part of the rate book, except special contract rates. (See "contracts and agreements.")

(b) In case information pertaining to an individual rate schedule cannot be placed on 1 sheet, place the note "continued to sheet No. _____" at the bottom of the sheet and "continued from sheet No. _____" at the top of the next sheet.

(c) Gas and electric utilities:

(i) The sequence of arrangement for rate schedules in the rate book should be as follows:

(A) Rate schedules of general availability.

(B) Rate schedules for residential (domestic) service.

(C) Rate schedules for rural service.

(D) Rate schedules for commercial service.

(E) Rate schedules for industrial service.

(F) Rate schedules for municipal service.

(G) Rate schedules for miscellaneous or special services.

(ii) Only 1 rate schedule shall be placed on a single sheet.

(iii) The following information, if applicable, shall be shown in connection with every rate schedule:

(A) Who may take or use the service and the territory to which the rate is applicable.

(B) Hours service is available.

(C) Character of service, such as continuous, limited, standby, etc.

The current characteristics for electric service shall be stated and the heating value for gas service, unless shown elsewhere in the rate book for the entire territory served.

(D) Rate or rates.

(E) Discount or other terms of payment.

(F) Minimum charge.

(G) If rates are subject to contract or agreement, give number of contract or agreement form and the term required. If they are not, so state.

(H) If special rules or regulations apply to a rate and are not printed as a part of it, definite reference shall be made on the rate schedule sheet to such special rules which shall be printed elsewhere in the rate book.

(d) Telephone utilities (local exchange schedules):

(i) Local rates for no more than 1 exchange area shall appear on a sheet.

(ii) Applications of and exceptions to general regulations and rates should be clearly stated.

(iii) Sequence of arrangement for rate schedules in the rate book should be as follows:

(A) Rates and services within the base rate area.

(B) Rates and services outside the base rate area but within the exchange service area.

(C) Miscellaneous local rates and services if not shown in or if they differ from the general rates and services otherwise applicable.

(D) Map and/or written description of base rate area.

(E) Map and/or written description of exchange service area.

(10) Standard forms and riders:

(a) An exact copy of every uniform contract, agreement, service application or other form where the same pertains to subscribers and/or customers' services, etc., shall accompany the schedule to which it is applicable. If such standard forms are numerous they may be placed in a separate binder and proper reference made to them in the rate book.

(b) Each rider form shall be included with the contract or agreement to which it belongs.

(c) All such forms shall be given a number so that reference can be made to them.

(d) When any such form is changed, altered or amended the revised issue shall be filed with the commission before the form is used.

History: 1944 AC, p. 1311; 1954 AC, p. 6465.

PART 3. FRANCHISES, PERMITS, AND AGREEMENTS

R 460.2007 Certified copies to be filed.

Rule 7. (1) A certified copy of all franchises, agreements and/or permits granted by any municipality shall be filed with the commission.

(2) Where a franchise has been duly ratified by the electors the certification shall be as follows:

FRANCHISE CERTIFICATION

CONSUMER STANDARDS AND BILLING PRACTICES FOR ELECTRICAL AND GAS RESIDENTIAL SERVICE

(By authority conferred on the public service commission by Act No. 106 of the Public Acts of 1909, as amended, section 5 of Act No. 419 of the Public Acts of 1919, sections 4 and 6 of Act No. 3 of the Public Acts of 1939, as amended, and sections 3, 9 and 231 of Act No. 380 of the Public Acts of 1965, being §§460.551 to 460.559, 460.55, 460.4, 460.6, 16.103, 16.109, and 16.331 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS AND DEFINITIONS

R 460.2101 Application of rules.

Rule 1. These rules apply to all electric and gas public utilities which are or may hereafter be subject to the jurisdiction of the public service commission under the laws of the state.

History: 1954 ACS 81, p. 109, Eff. Mar. 5, 1975.

R 460.2102 Definitions.

Rule 2. (1) "Billing month" means a utility service consumption period of not less than 26 nor more than 35 days.

(2) "Complaint and information officer" means a member of the commission staff designated to perform responsibilities in accordance with these rules.

(3) "Complaint determination" means the written decision of a utility hearing officer with respect to any complaint filed regarding residential utility service.

(4) "Consumer services division" means the staff of the commission designated to perform responsibilities in accordance with these rules.

(5) "Customer" means any purchaser of electricity or gas supplied by a utility for residential purposes.

(6) "Cycle billing" means a system employed by a utility which results in the rendition of bills for utility service to various customers on different days of any one calendar month.

(7) "Delinquent account" means a bill rendered to a customer for utility service which remains unpaid at least 5 days after the due date of the bill.

(8) "Discontinuance of service" means a cessation of utility service not voluntarily requested by a customer.

(9) "Energy usage" means the consumption of electricity or gas sold by a public utility.

(10) "Estimated bill" means a bill rendered by a utility for energy use which is not calculated or computed by employing an actual reading of a meter or other measuring device.

(11) "Fuel clause" means the automatic adjustment approved by the commission to recognize variations in the cost of fuel for electric generation, purchased power or purchased gas from a base level.

(12) "In dispute" means any matter regarding a customer's utility service which is the subject of a pending disagreement, claim or complaint by a customer.

(13) "Informal appeal" means an appeal of a complaint determination of a utility hearing officer made to the consumer services division of the commission.

(14) "Informal appeal decision" means the written determination of the consumer services division with respect to an informal appeal.

(15) "Late payment charge" means a finance, service, carrying or penalty charge assessed by a utility upon the bill of a customer for the reason that any balance due and owing upon the bill remains outstanding beyond the period of time established for payment.

(16) "Residential service or use" means the provision of or use of electricity or gas for residential purposes.

(17) "Seasonally billed customer" means a residential customer billed on a seasonal basis in accordance with a utility tariff on file with the commission.

(18) "Settlement agreement" means a written agreement entered into by a customer and a utility which purports to resolve any matter in dispute between the parties or provides for the payment of moneys not in dispute over a reasonable period of time.

(19) "Termination" means a cessation of utility service voluntarily requested by the customer.

(20) "Utility" means a person, firm, corporation, cooperative, association or other agency subject to the jurisdiction of the public service commission, which distributes and sells electricity or gas for residential use.

(21) "Utility service charges" means the rates for utility service and other charges authorized by the commission as an integral part of utility service.

History: 1954 ACS 81, p. 109, Eff. Mar. 5, 1975.

R 460.2103 Discrimination prohibited.

Rule 3. A utility shall not discriminate against nor penalize a customer for exercising any right granted by these rules.

History: 1954 ACS 81, p. 110, Eff. Mar. 5, 1975.

R 460.2104 Form of proceedings.

Rule 4. The informal procedures required by these rules shall not constitute a contested case as defined by section 3 of Act No. 306 of the Public Acts of 1969, as amended, being §24.203 of the Michigan Compiled Laws.

History: 1954 ACS 81, p. 110, Eff. Mar. 5, 1975.

R 460.2105 Additional rules.

Rule 5. A utility may adopt such reasonable rules governing its relations with customers as are necessary and are not inconsistent with these rules. The rules shall be an integral part of the utility's schedule of rates and tariffs and approved by the commission.

History: 1954 ACS 81, p. 110, Eff. Mar. 5, 1975.

PART 2. BILLING AND PAYMENT STANDARDS

R 460.2111 Billing frequency.

Rule 11. A utility shall render a bill once during each billing month to every residential customer in accordance with approved rate schedules. Bills to seasonally billed customers and bills by a utility authorized to use a customer read and self-billing system shall be rendered in accordance with the tariff on file with the commission.

History: 1954 ACS 81, p. 110, Eff. Mar. 5, 1975.

R 460.2112 Estimated billing.

Rule 12. (1) A utility may estimate the bill of any residential customer every other billing month. A utility may estimate bills upon a different frequency upon a finding by the commission that such procedures assure reasonable billing accuracy. Any bill rendered on an estimated basis shall be clearly and conspicuously identified. A utility shall not render an estimated bill unless the estimating procedures employed by the utility and any substantive changes in those procedures have been approved by the commission.

(2) A utility may render estimated bills to seasonally billed customers in accordance with the tariff on file with the commission.

(3) Notwithstanding the provisions of subrule (1), a utility may estimate the bill of any residential customer if extreme weather conditions, emergencies, work stoppages or other circumstances of force majeure prevent actual meter readings.

(4) If the utility is unable to gain access to read a meter, the utility shall undertake reasonable alternative measures to obtain an actual reading including mailing or leaving postpaid pre-addressed postcards upon which the customer may note the reading. If the customer fails to comply with such alternative measures, or makes reading of the meter unnecessarily difficult, the utility may render an estimated bill notwithstanding subrule (1). When an actual reading cannot be obtained, the utility shall maintain accurate records of the reasons therefor and efforts it has made to secure the actual reading.

History: 1954 ACS 81, p. 110, Eff. Mar. 5, 1975.

R 460.2113 Customer meter reading.

Rule 13. A utility shall provide each customer with the opportunity to read and report energy usage as long as energy usage is reported on a regular and accurate basis and shall provide postpaid pre-addressed postcards for this purpose upon request. At least annually, a utility shall obtain an actual meter reading of customer usage in order to verify the accuracy of readings reported in this manner. This rule shall not prevent a utility from reading meters on a regular basis.

History: 1954 ACS 81, p. 111, Eff. Mar. 5, 1975.

R 460.2114 Equal monthly billing.

Rule 14. Notwithstanding R 460.2112, a utility may bill its customers in accordance with equal monthly billing programs at the election of the utility customer upon a finding by the commission that such programs assure reasonable billing accuracy.

History: 1954 ACS 81, p. 111, Eff. Mar. 5, 1975.

R 460.2115 Cycle billing.

Rule 15. A utility may bill its customers on a cyclical basis if the individual customer receives each billing on or about the same day of each billing month. If a utility changes meter reading routes or schedules, billing cycles may be altered upon 10 days' written notice to the affected customer.

History: 1954 ACS 81, p. 111, Eff. Mar. 5, 1975.

R 460.2116 Payment of bills.

Rule 16. A utility shall permit each residential customer at least 21 calendar days from the date of rendition of each bill for payment in full.

History: 1954 ACS 81, p. 111, Eff. Mar. 5, 1975.

R 460.2117 Computation of payment period.

Rule 17. The date of rendition of a utility bill for residential service shall be the date of physical mailing of the bill by the utility. If the last calendar day for remittance falls upon a Sunday, a legal holiday or any other day when the offices of the utility regularly used for the payment of customer bills are not open to the general public, the final payment date shall be extended through the next business day. The date of payment for remittance by mail is 2 days prior to receipt of the remittance.

History: 1954 ACS 81, p. 111, Eff. Mar. 5, 1975.

R 460.2118 Discounts and late payment charges prohibited.

Rule 18. After the effective date of these rules, a utility shall bill each customer for the amount of volumetric energy consumed, and any other approved charges in accordance with the net rates in the tariffs and schedules approved by and on file with the commission. A utility shall not employ any net/gross payment discount provision or assess any late payment charge in determining the amount of any bill due and owing by a residential customer.

History: 1954 ACS 81, p. 111, Eff. Mar. 5, 1975.

R 460.2119 Billing information.

Rule 19. Every bill rendered by a utility for residential utility service shall state clearly:

(a) The beginning and ending meter readings of the billing period and the dates thereof. Utilities authorized to use a customer read and self-billing system need not provide this information.

(b) The due date.

(c) Any previous balance.

(d) The amount due for energy usage.

(e) The amount due for other authorized charges.

(f) The total amount due.

(g) The statement that rate schedules, an explanation of how to calculate the accuracy of the bill, and an explanation of the fuel clause, if any, are available and will be mailed upon request.

(h) The statement, "Register any inquiry or complaint about this bill prior to the due date."

(i) The address and telephone number of the utility designating where the customer may initiate an inquiry or complaint regarding the bill as rendered or the service provided by the utility.

(j) The statement that, "This utility is regulated by the Michigan Public Service Commission, Lansing, Michigan."

History: 1954 ACS 81, p. 111, Eff. Mar. 5, 1975.

R 460.2120 Separate bills.

Rule 20. A utility shall render a separate billing as required by R 460.2119 for service provided at each residence or location and shall not combine 2 or more accounts without written authorization of the customer.

History: 1954 ACS 81, p. 112, Eff. Mar. 5, 1975.

R 460.2121 Special services.

Rule 21. A utility may include charges for special services together with charges for utility service on the same monthly bill if the charges for special

services are designated clearly and separately from the service account. If partial payment is made, the utility shall first credit all payments to the balance outstanding for utility service.

History: 1954 ACS 81, p. 112, Eff. Mar. 5, 1975.

PART 3. GUARANTEE OF PAYMENT AND SECURITY DEPOSITS

R 460.2131 Deposits; new service.

Rule 31. A utility shall not require a cash deposit or other guarantee as a condition of new service unless a customer has an unsatisfactory credit or service standing with the utility due to either of the following:

(a) The customer has outstanding a prior utility service account with the utility which accrued within the last 6 years and at the time of the request for service remains unpaid and not in dispute.

(b) In an unauthorized manner, the customer has interfered with or diverted the service of the utility situated or delivered on or about the customer's premises within the last 6 years if the finding of unauthorized interference or use is made and determined after notice and opportunity for hearing is provided to the customer pursuant to these rules and is not in dispute.

History: 1954 ACS 81, p. 112, Eff. Mar. 5, 1975.

R 460.2132 Deposits; existing service.

Rule 32. A utility shall not require a cash deposit or other guarantee as a condition of continued service unless a customer has an unsatisfactory credit or service standing with the utility due to either of the following:

(a) The service of the customer has been discontinued for nonpayment of a delinquent account not in dispute.

(b) In an unauthorized manner, the customer interfered with or diverted the service of the utility situated or delivered on or about the customer's premises if the finding of unauthorized interference or use is made and determined after notice and opportunity for hearing is provided to the customer pursuant to these rules and is not in dispute.

History: 1954 ACS 81, p. 112, Eff. Mar. 5, 1975.

R 460.2133 Other standards prohibited.

Rule 33. A utility shall not require a cash deposit or other guarantee as a condition of new or continued utility service based upon commercial credit standards, income, home ownership, residential location, race, color, creed, sex, age, national origin or any other criteria not authorized by these rules.

History: 1954 ACS 81, p. 112, Eff. Mar. 5, 1975.

R 460.2134 General deposit conditions.

Rule 34. A cash deposit required pursuant to these rules is subject to the following terms and conditions:

(a) A deposit required as a condition of new service due to a prior outstanding account not in dispute shall not exceed the lesser of the amount of the prior outstanding account or $100.00. The utility may also require payment of the prior outstanding account as a condition of new service.

(b) A deposit required as a condition of continued service due to discontinuance for nonpayment shall not exceed the lesser of an amount equal to the actual or estimated maximum monthly bill for service at the customer's premises or

$100.00. The utility may also require payment of the prior outstanding account as a condition of continued service.

(c) A deposit required for new or continued service due to unauthorized interference or use shall not exceed $100.00.

(d) Before requiring a deposit as a condition of continued service, the utility shall have offered the customer prior to discontinuance for nonpayment, the opportunity to enter into a settlement agreement as provided in part 6 of these rules.

(e) Interest at the rate of 6% per annum shall be payable on all deposits. Interest shall be credited semi-annually upon the service account of the customer or paid upon the return of the deposit, whichever occurs first. The commission by order may revise the annual interest rate not later than January 31 of each year after the effective date of these rules, after having given notice of the proposed revision by publication in 3 daily newspapers of general circulation, 1 of which shall be in the Upper Peninsula, and having afforded all interested parties the opportunity to comment upon the proposed interest rate.

(f) Upon termination of service, the deposit, with accrued interest shall be credited to the final bill and the balance shall be returned promptly to the customer.

(g) The credit of a customer shall be established and a deposit and accrued interest shall be refunded promptly by the utility upon satisfactory payment by the customer of all proper charges for utility service for a period of 9 successive months. For purposes of this subrule, payment is satisfactory if made prior to the issuance of a notice of discontinuation of service for nonpayment not in dispute. The utility may withhold the deposit funds pending the resolution of a discontinuance for nonpayment which is in dispute in accordance with these rules.

(h) A utility shall maintain a detailed record of all deposits received from customers, showing the name of each customer, the location of the premises occupied by the customer at the time of making the deposit and each successive location while the deposit is retained, the date of making and amount of deposit, and the date and amounts of interest paid.

(i) Each customer posting a cash deposit shall receive in writing at the time of tender of deposit funds a receipt as evidence thereof, which contains the following minimum information:

(i) Name of customer.

(ii) Place of payment.

(iii) Date of payment.

(iv) Amount of payment.

(v) Identifiable name and signature of the utility employee receiving payment.

(vi) Statement of the terms and conditions governing the receipt, retention and return of deposit funds.

(j) A utility shall provide means whereby a customer entitled to a return of his deposit is not deprived of deposit funds even though he may be unable to produce the original receipt for the deposit.

(k) A utility shall apply deposit standards uniformly as a condition of utility service to all residential customers.

History: 1954 ACS 81, p. 112, Eff. Mar. 5, 1975.

R 460.2135 Guarantee in lieu of deposit.

Rule 35. In lieu of a cash deposit required by these rules, a utility shall accept the written guarantee of a responsible party as surety for a customer service account.

History: 1954 ACS 81, p. 113, Eff. Mar. 5, 1975.

R 460.2136 Guarantee terms and conditions.

Rule 36. A guarantee accepted in accordance with these rules is subject to the following terms and conditions:

(a) It shall be in writing and shall be renewed in a similar manner at least annually.

(b) It shall state the terms of guarantee, the maximum amount guaranteed and that the utility shall not hold the guarantor liable for sums in excess thereof unless agreed to in a separate written instrument.

(c) Credit shall be established for the customer and the guarantor shall be released upon satisfactory payment by the customer of all proper charges for utility service for a period of 9 successive months. For purposes of this subrule, payment is satisfactory if made prior to the issuance of a notice of discontinuation of service for nonpayment not in dispute. The utility may withhold the release of the guarantor pending the resolution of a discontinuance for nonpayment in dispute in accordance with these rules.

History: 1954 ACS 81, p. 113, Eff. Mar. 5, 1975.

R 460.2137 Deposit refund.

Rule 37. A utility shall refund all cash deposits held as security for residential service currently in its possession and terminate all existing guarantees in lieu of deposits not maintained or executed in compliance with this part. A utility shall notify each customer that any deposit so refunded is pursuant to these rules. Interest on refunded deposits shall accrue in accordance with the interest rate paid by the utility on the effective date of these rules. A utility may apply all deposits subject to refund against existing arrearages not in dispute prior to refund.

History: 1954 ACS 81, p. 114, Eff. Mar. 5, 1975.

PART 4. UTILITY PROCEDURES

R 460.2141 Applicability.

Rule 41. These procedures shall be applicable to all customer inquiries and complaints made to a utility regarding residential utility service and charges therefor.

History: 1954 ACS 81, p. 114, Eff. Mar. 5, 1975.

R 460.2142 Complaint procedures.

Rule 42. (1) A utility shall establish procedures which will insure the prompt, efficient and thorough receipt, investigation and where possible, resolution of all customer inquiries, service requests and complaints regarding residential utility service and charges therefor.

(2) A utility shall obtain commission approval of any substantive changes in the procedures prior to implementation.

History: 1954 ACS 81, p. 114, Eff. Mar 5, 1975.

R 460.2143 Personnel procedures required.

Rule 43. A utility shall establish personnel procedures which as a minimum insure that:

(a) Qualified personnel shall be available and prepared at all times during normal business hours to receive and respond to all customer inquiries, service requests and complaints. A utility shall make necessary arrangements to insure that customers unable to communicate in the English language receive prompt and effective assistance.

(b) Qualified personnel responsible for and authorized to enter into written settlement agreements on behalf of the utility shall be available at all times during normal business hours to respond to customer inquiries and complaints.

(c) Qualified personnel shall be available at all times to receive and initiate response to customer contacts regarding any discontinuance of service and emergency conditions occurring within the utility's service area.

(d) Names, addresses and telephone numbers of personnel designated and authorized to receive and respond to the requests and directives of the commission regarding customer inquiries, service requests and complaints are current and on file with the consumer services division.

History: 1954 ACS 81, p. 114, Eff. Mar. 5, 1975.

R 460.2144 Utility hearing officers.

Rule 44. (1) A utility shall employ or contract with competent utility hearing officers who shall be notaries public and qualified to administer oaths and other supporting personnel as necessary to comply with part 6.

(2) Utility hearing officers so employed or contracted to comply with part 6 shall function exclusively in this capacity and shall not engage in any other activities for or on behalf of the utility.

(3) Utility hearing officers and utility hearing procedures shall be subject at all times to investigation and review by the commission to insure the impartiality and integrity of the hearing process.

History: 1954 ACS 81, p. 114, Eff. Mar. 5, 1975.

R 460.2145 Publication of procedures.

Rule 45. (1) A utility shall prepare a pamphlet which in layman's terms summarizes the rights and responsibilities of its customers in accordance with these rules and other applicable provisions.

(2) The pamphlet shall be displayed prominently and available at all utility office locations open to the general public and shall be mailed to each residential customer of the utility. Thereafter the pamphlet shall be delivered or mailed to each new customer of the utility upon the commencement of service and shall be available at all times upon request.

(3) The pamphlet shall contain information concerning, but not limited to:

(a) Billing procedures and estimation standards.

(b) Methods for customers to verify billing accuracy.

(c) Explanation of operation of fuel clauses.

(d) Customer payment standards and procedures.

(e) Security deposit and guarantee standards.

(f) Discontinuation and reconnection of service.

(g) Inquiry, service and complaint procedures.

(h) Public service commission consumer procedures.

(4) The cover of each pamphlet shall indicate conspicuously that the pamphlet is being provided in accordance with the rules of the commission and shall indicate in Spanish that the pamphlet or a translation thereof is available in Spanish. Upon request, a utility shall provide the pamphlet or a translation thereof in the Spanish language.

History: 1954 ACS 81, p. 115, Eff. Mar. 5, 1975.

R 460.2146 Public access to rules and rates.

Rule 46. A utility shall keep on file and provide public access to a copy of these rules, all other rules of the utility as filed with the commission regarding customer

service and a schedule of all residential rates and service charges together with an explanation of the operation of any applicable fuel clause at all offices of the utility. Suitable signs shall be posted conspicuously at each such location calling attention to the public that the rules, regulations and rate schedules are so filed and available for inspection. Upon request, the utility shall provide 1 copy of these rules or schedules to a customer without charge.

History: 1954 ACS 81, p. 115, Eff. Mar. 5, 1975.

R 460.2147 Reporting requirement.

Rule 47. A utility shall file a quarterly report within 20 days after the end of each calendar quarter with the consumer services division, which in detail contains information concerning:

(a) The payment performance of its customers in relation to established due and payable periods.

(b) The number and general description of all complaints registered with the utility.

(c) The number of discontinuation notices issued by the utility and the reasons therefor.

(d) The number of hearings held by the utility, the type of the dispute relating thereto and the number of complaint determinations issued.

(e) The number of written settlement agreements entered into by the utility and a synopsis of the terms, conditions and standards upon which the settlement agreements were entered into.

(f) The actual number of discontinuations of service and the number of reconnections.

(g) A critique of the performance of the consumer services division of the commission.

History: 1954 ACS 81, p. 115, Eff. Mar. 5, 1975.

R 460.2148 Inspection.

Rule 48. A utility shall permit authorized staff of the commission to inspect all of the utility's operations relating to customer service.

History: 1954 ACS 81, p. 115, Eff. Mar. 5, 1975.

PART 5. PHYSICAL DISCONTINUATION OF SERVICE

R 460.2151 Time of discontinuation.

Rule 51. (1) Subject to the requirements of these rules, a utility may discontinue service to a residential customer on the date specified in the notice of discontinuation or within a reasonable time thereafter only between the hours of 8:00 a.m. and 4:00 p.m.

(2) Service shall not be discontinued on a day, or a day immediately preceding a day when the services of the utility are not available to the general public for the purpose of reconnecting discontinued service.

History: 1954 ACS 81, p. 116, Eff. Mar. 5, 1975.

R 460.2152 Manner of discontinuation.

Rule 52. (1) At least 1 day preceding physical discontinuation of service, the utility shall make reasonable efforts to contact the customer by telephone to advise the customer of the pending action and what steps must be taken to avoid discontinuation.

(2) Immediately preceding the physical disconnection of service, the employee of the utility designated to perform such function shall identify himself to the customer or other responsible person then upon the premises and shall announce the purpose of his presence.

(3) The employee shall have in his possession the past due account of the customer and request any available verification that the outstanding claims have been satisfied or are currently in dispute. Upon the presentation of evidence which reasonably indicates that the claim has been satisfied or is currently in dispute, service shall not be discontinued.

(4) The employee may be authorized to accept payment and in such case shall not discontinue service if the customer then and there tenders payment in full together with a reasonable charge for sending the employee to the premises if provided in the utility's schedule of rates and tariffs.

(5) Payment may be made by the customer in any reasonable manner including personal check. Payment by personal check is not reasonable if the customer on a previous occasion within the last 3 years has tendered payment in this manner and the check has been returned for insufficient funds.

(6) If prior telephone contact has not been made as provided in subrule (1) and the customer or other responsible person is not in or upon the premises, the employee shall leave notice in a manner conspicuous to the customer that service will be discontinued on the next business day unless outstanding claims have been satisfied. If the customer or other responsible person has been telephonically contacted, service may be discontinued immediately.

(7) If the customer or other responsible person is not in or upon the premises upon the return of the employee, or upon the first visit if the customer or other responsible person does not respond when it reasonably appears that the premises are occupied, the employee may discontinue service.

(8) When service is discontinued, the employee shall leave notice upon the premises in a manner conspicuous to the customer that service has been discontinued and the address and telephone number of the utility where the customer may arrange to have service restored.

History: 1954 ACS 81, p. 116, Eff. Mar. 5, 1975.

R 460.2153 Medical emergency.

Rule 53. Notwithstanding any other provision of these rules, a utility shall postpone the physical discontinuation of utility service to a residential customer for a reasonable time not in excess of 21 days if the customer produces a physician's certificate or notice from a public health or social services official which states that physical discontinuation will aggravate an existent medical emergency of the customer, a member of his family or other permanent resident of the premises where service is rendered. The certificate shall identify the medical emergency and specify the period of time during which discontinuation will aggravate the circumstances. The postponement may be extended by renewal of the certificate or notice.

History: 1954 ACS 81, p. 116, Eff. Mar. 5, 1975.

R 460.2154 Restoration of service.

Rule 54. (1) After service has been discontinued, a utility shall restore service promptly upon the customer's request when the cause for discontinuation of service has been cured or satisfactory credit arrangements have been made.

(2) Every effort shall be made to restore service at all times upon the day restoration is requested and in any event, restoration shall be made no later than the first working day after the day of the request of the customer.

(3) The utility may charge the customer a fee reasonably related to the manner in which service was discontinued for restoration of that service, if provided in the utility's approved schedule of rates and tariffs.

History: 1954 ACS 81, p. 116, Eff. Mar. 5, 1975.

PART 6. DISCONTINUANCE OF SERVICE

R 460.2161 Discontinuance.

Rule 61. Subject to the requirements of these rules, a utility may discontinue service to a residential customer for 1 or more of the following reasons:

(a) Nonpayment of a delinquent account.

(b) Failure to post a cash security deposit or other form of guarantee.

(c) Unauthorized interference with or diversion or use of the utility service situated or delivered on or about the customer's premises.

(d) Failure to comply with the terms and conditions of a settlement agreement.

(e) Refusal to grant access at reasonable times to equipment installed upon the premises of the customer for the purpose of inspection, meter reading, maintenance or replacement.

(f) Misrepresentation of identity for the purpose of obtaining utility service.

(g) Violation of any other rules of the utility on file with and approved by the commission which adversely affects the safety of the customer or other persons or the integrity of the utility's energy delivery system.

History: 1954 ACS 81, p. 117, Eff. Mar. 5, 1975.

R 460.2162 Discontinuance of service prohibited.

Rule 62. (1) None of the following shall constitute sufficient cause for a utility to discontinue service:

(a) The failure of a customer to pay for merchandise, appliances, or services not approved by the commission as an integral part of the utility service provided by a utility.

(b) The failure of a customer to pay for concurrent service received at a separate metering point, residence, or location. In the event of discontinuation or termination of services at a separate residential metering point, residence, or location in accordance with these rules, a utility may transfer any unpaid balance to any other residential service account of the customer.

(c) The failure of a customer to pay for a different class of service received at the same or different location. The placing of more than 1 meter at the same location for the purpose of billing the usage of specific domestic energy using devices under optional rate schedules or provisions is not construed as a different class of service for the purpose of this rule.

(d) The failure of a customer, such as a landlord, to pay for service where service is used by another person, such as a tenant. A utility may discontinue service, however, in any of the following circumstances:

(i) If the customer supplies a written statement under oath that the premises are unoccupied.

(ii) If the premises are occupied, and the occupant agrees in writing to the discontinuation of service.

(iii) If it is not feasible to provide service to the occupant as a customer without a major revision of existing distribution facilities. Where it is feasible to so provide service, the utility, after providing notice as required in these rules, shall offer the occupant the opportunity to subscribe for service in his own name. If the occupant then declines to so subscribe, the utility may discontinue service

pursuant to these rules. A utility shall not attempt to recover, or condition service upon the payment of, any outstanding bills or other charges due upon the account of any other person.

(2) Utility service to any residential customer shall not be discontinued for nonpayment of a delinquent account, if before discontinuance of service, a government-funded service agency verifies, or the customer provides documentation to the utility, that application has been made to the agency by the customer for economic assistance which, if granted, will, to any extent, assist the customer in paying the delinquent account. The utility shall not discontinue service for at least 14 days after the date the verification is made or the documentation is provided. If a determination is made by the agency before the expiration of the 14-day period that the customer is eligible for assistance, and notice of the determination is provided to the utility, then the utility shall not discontinue service for at least 5 days after such notice is given to provide the customer with an opportunity to make full payment of the delinquent account or to enter into a settlement agreement with the utility.

History: 1954 ACS 81, p. 117, Eff. Mar. 5, 1975; 1954 ACS 99, p. 152, Eff. May 12, 1979.

R 460.2163 Notice of discontinuation of service.

Rule 63. (1) A utility shall not discontinue residential service pursuant to R 460.2161 unless written notice by first class mail is sent to the customer or personally served not less than 10 days before the date of the proposed discontinuance. Notice shall be sent to the account name and address and to the address where service is provided, if different. Service of notice by mail is complete upon mailing. A utility shall maintain an accurate record of the date of mailing.

(2) A utility shall permit a residential customer to designate a consenting individual or agency to receive a copy of any notice of discontinuation sent by the utility to the customer.

(3) If notice of discontinuation of service is issued pursuant to this rule, but the 10-day notice period pursuant to subrule (1) is extended by the operation of R 460.2162(2), then no additional written notice need be given by the utility before the discontinuation of service, except when required by R 460.2152(6).

History: 1954 ACS 81, p. 117, Eff. Mar. 5, 1975; 1954 ACS 99, p. 153, Eff. May 12, 1979.

R 460.2164 Form of notice.

Rule 64. Notice of discontinuation of service shall contain the following information:

(a) The name and address of the customer and the address of the service, if different.

(b) A clear and concise statement of the reason for the proposed discontinuation of service.

(c) The date, or within a reasonable time thereafter, on which service will be discontinued unless the customer takes appropriate action.

(d) The right of the customer to enter into a settlement agreement with the utility if the claim is for moneys not in dispute and the customer is presently unable to pay in full the amount due the utility.

(e) The right of the customer to file a complaint disputing the claim of the utility before the date of the proposed discontinuation of service.

(f) The right of the customer to request a hearing before a utility hearing officer if the complaint cannot be otherwise resolved and a statement that the

customer must pay to the utility that portion of the bill not in dispute within 3 days of the date that the hearing is requested.

(g) The right of the customer to represent himself or to be represented by counsel or other person of his choice in the complaint process.

(h) A statement that service will not be discontinued pending the resolution of a complaint filed with the utility in accordance with the rules of the Michigan public service commission.

(i) The telephone number and address of the utility where the customer may make inquiry, enter into a settlement agreement, or file a complaint.

(j) A statement advising the customer to contact a social service agency immediately if the customer believes he or she might be eligible for emergency economic assistance.

(k) A statement indicating that discontinuation of service may be postponed if a medical emergency exists in the customer's residence.

History: 1954 ACS 81, p. 118, Eff. Mar. 5, 1975; 1954 ACS 99, p. 153, Eff. May 12, 1979.

R 460.2165 Complaints and disputed claims.

Rule 65. (1) When a customer advises a utility prior to the date of the proposed discontinuation of service that all or any part of any billing as rendered is in dispute, the utility shall:

(a) Immediately record the date, time and place the complaint is made and mail postcard verification to the customer.

(b) Investigate the dispute promptly and completely.

(c) Advise the customer of the results of the investigation.

(d) Attempt to resolve the dispute informally in a manner mutually satisfactory to both parties.

(e) Provide the opportunity for each customer to enter into a reasonable settlement agreement in order to mutually settle the disputed claim or to satisfy any liability not in dispute.

(2) A customer may advise a utility that a claim is in dispute in any reasonable manner such as by written notice, in person or by a telephone call directed to the utility.

(3) A utility, in attempting to resolve the dispute in a mutually satisfactory manner, may employ telephone communication, personal meetings, on site visits or any other technique reasonably conducive to dispute settlement.

History: 1954 ACS 81, p. 118, Eff. Mar. 5, 1975.

R 460.2166 Hearing.

Rule 66. If the parties are unable to resolve the dispute in a mutually satisfactory manner, a utility shall afford a customer the opportunity for a hearing before a utility hearing officer. If the customer fails to request a hearing within 3 days from the date that the opportunity for hearing is offered or if the customer fails to pay the amount which represents that part of the bill not in dispute within 3 days of the date that the hearing is requested, the utility may exercise its rights pursuant to these rules.

History: 1954 ACS 81, p. 118, Eff. Mar. 5, 1975.

R 460.2167 Payment of amount not in dispute.

Rule 67. (1) If a customer requests a hearing before a utility hearing officer, he shall pay to the utility an amount equal to that part of the bill not in dispute.

(2) The amount not in dispute shall be mutually determined by the parties. The parties shall consider the customer's prior consumption history, weather varia-

tions, the nature of the dispute and any other pertinent factors in determining the amount not in dispute.

(3) If the parties are unable to mutually determine the amount not in dispute the customer shall pay to the utility 50% of the bill in dispute not to exceed $100.00 per billing period which shall represent the amount not in dispute.

(4) The amount not in dispute shall be subject to review at the hearing before the utility hearing officer in accordance with R 460.2169.

(5) Failure of the customer to pay to the utility the amount not in dispute within 3 days of the date that the hearing is requested shall constitute a waiver of the customer's right to the hearing, and the utility may then proceed to discontinue service as provided in part 5.

(6) If the dispute is ultimately resolved in favor of the customer in whole or in part, any excess moneys paid by the customer shall be refunded promptly with interest at 6% per annum.

History: 1954 ACS 81, p. 118, Eff. Mar. 5, 1975

R 460.2168 Notice of hearing.

Rule 68. (1) The customer and the utility shall be mailed or personally served written notice of the time, date and place of the hearing at least 10 days prior to the hearing.

(2) The notice shall describe the hearing procedures as contained in these rules.

(3) Failure of the customer or the utility to attend the hearing without due cause or prior request for adjournment constitutes a waiver of the right of that party to the hearing.

History: 1954 ACS 81, p. 119, Eff. Mar. 5, 1975

R 460.2169 Hearing procedures.

Rule 69. (1) A utility shall establish a hearing procedure which at a minimum provides that the customer and the utility:

(a) Have the right to represent themselves or to be represented by counsel or other person of their choice.

(b) Have the right to examine at least 2 days prior to a scheduled hearing a list of all witnesses who will testify and all documents, records, files, account data and similar material which may be relevant to the issues to be raised at the hearing.

(c) Have the right to present evidence, testimony and oral and written argument.

(d) Have the right to confront, question and cross-examine witnesses appearing on behalf of the other party.

(2) A hearing requested by the customer or his authorized representative shall be held at a time during normal business hours. A utility shall take reasonable steps to insure that customers unable to attend hearings due to physical incapacity shall not be denied the right to a hearing.

(3) The burden of proof is upon the utility in all cases.

(4) All witnesses appearing for either party shall testify under oath.

(5) All hearings shall be informal and the proceedings need not be recorded or transcribed. All evidence relevant to the dispute shall be received and the formal rules of evidence shall not apply.

(6) For each hearing held, the utility hearing officer shall compile a hearing record which contains:

(a) A concise statement in writing of the position of the utility relative to the dispute.

Digitized by Google

(b) A concise statement in writing of the position of the customer relative to the dispute. If the customer has not or is unable to reduce his position to writing, the hearing process shall provide a method for accomplishing this with the opportunity for proper acknowledgment by the customer.

(c) Copies of all evidence submitted by the parties.

(7) Upon the closing of the record, the utility hearing officer shall state his findings and decision orally and issue a complaint determination in a form approved by the commission which shall contain:

(a) A concise summary of the evidence and argument presented by the parties.

(b) The decision of the utility hearing officer based solely upon the evidence presented and the reason therefor.

(8) Upon the issuance of a complaint determination, the utility hearing officer shall orally advise the customer and the utility:

(a) That each party has a right to file by mail, telephone or in person, within 5 days after the date of issuance of the complaint determination, an informal appeal with the consumer services division of the commission.

(b) That if appealed, the decision of the utility hearing officer, including a finding that service may be discontinued, is stayed pending review by the consumer services division.

(c) Of the address and telephone number where the customer may file an informal appeal with the commission.

(9) Prior to issuance of a complaint determination, the utility hearing officer may propose to the parties a settlement of all matters in dispute. Acceptance of the proposed settlement by both parties is binding unless the utility fails or refuses to abide by the terms of the settlement. The agreement shall be reduced to writing and signed by both parties in the presence of the utility hearing officer.

(10) If, at the conclusion of the hearing, a utility hearing officer finds that the utility may discontinue service unless the customer complies with the complaint determination, he shall so notify the customer and authorize the utility to issue immediately and serve the customer or his representative personally with written notice in a form approved by the commission that service will be discontinued after 5 days unless compliance or payment occurs or the determination is appealed in accordance with these rules.

(11) At the conclusion of the hearing, the utility hearing officer shall serve the parties with a copy of the complaint determination, appeal information as provided in subrule (8) and where applicable, the settlement agreement or notice of discontinuation of service.

(12) The complaint determination, settlement agreement or notice of discontinuation of service shall be made part of the hearing record and together with other documents contained therein shall be certified by the utility hearing officer.

(13) The complaint determination is binding upon the parties unless appealed as provided in these rules.

History: 1954 ACS 81, p. 119, Eff. Mar. 5, 1975.

R 460.2170 Settlement agreement.

Rule 70. (1) If the utility and the customer arrive at a mutually satisfactory settlement of any claim in dispute or the customer does not dispute liability to the utility but claims inability to pay the outstanding bill in full, a utility shall offer the customer the opportunity to enter into a settlement agreement.

(2) A settlement agreement shall be in writing and signed by the customer or his representative and a representative of the utility authorized to enter into the agreement. A settlement reached by telephone shall be confirmed by the utility in

writing and mailed to the customer with instructions to sign a confirming copy and return it in a prepaid self-addressed return envelope as provided. The original settlement agreement shall be maintained on file by the utility for 2 years.

(3) Every settlement agreement entered into due to the customer's inability to pay the outstanding bill in full shall provide that service will not be discontinued if the customer pays a reasonable amount of the outstanding bill and agrees to pay a reasonable portion of the remaining outstanding balance in installments until the bill is paid.

(4) For purposes of determining reasonableness under these rules the parties shall consider the:

(a) Size of the delinquent account.

(b) Customer's ability to pay.

(c) Customer's payment history.

(d) Time that the debt has been outstanding.

(e) Reasons why debt has been outstanding.

(f) Any other relevant factors concerning the circumstances of the customer.

(5) A settlement agreement offered by a utility shall state immediately preceding the space provided for the customer's signature and in boldface print at least 2 sizes larger than any other used thereon, that "IF YOU ARE NOT SATISFIED WITH THIS AGREEMENT, DO NOT SIGN. YOU MAY FILE AN INFORMAL COMPLAINT AND HAVE A HEARING BEFORE A UTILITY HEARING OFFICER BEFORE YOUR SERVICE MAY BE TERMINATED.

IF YOU DO SIGN THIS AGREEMENT YOU GIVE UP YOUR RIGHT TO AN INFORMAL HEARING BEFORE A UTILITY HEARING OFFICER ON ANY MATTER INVOLVED IN THIS DISPUTE EXCEPT THE UTILITY'S FAILURE OR REFUSAL TO FOLLOW THE TERMS OF THIS AGREEMENT.".

History: 1954 ACS 81, p. 120, Eff. Mar. 5, 1975.

R 460.2171 Default of settlement agreement.

Rule 71. (1) If a customer fails to comply with the terms and conditions of a settlement agreement, a utility may discontinue service after notifying the customer in writing by personal service or first class mail:

(a) That the customer is in default of the settlement agreement.

(b) The nature of the default.

(c) That unless full payment of the claim is made within 10 days from the date of mailing, the utility will discontinue service.

(d) The date, or within a reasonable time thereafter, upon which service will be discontinued.

(e) That the customer has a right to request a hearing before a utility hearing officer only if the customer alleges that the utility has failed or refused to follow the terms of the settlement agreement.

(f) The address and telephone number where the customer may file the request for hearing with the utility.

(2) Upon determination by the utility hearing officer, a complaint determination and notice of proposed action shall be issued in accordance with R 460.2169.

(3) A utility is not required to enter into any subsequent settlement agreement with a customer until the terms of any previous settlement agreement have been fully executed.

(4) A utility is not required to enter into any subsequent settlement agreement with a customer who defaults upon the terms and conditions of a previous agreement.

R 460.2172 Res judicata.

Rule 72. A utility may treat a customer complaint or dispute involving the same question or issue based upon the same facts as res judicata and is not required to comply with these rules more than once prior to discontinuance of service.

History: 1954 ACS 81, p. 121, Eff. Mar. 5, 1975.

R 460.2173 Emergency discontinuation.

Rule 73. Notwithstanding any other provision of these rules, a utility may discontinue residential service temporarily for reasons of health or safety or in a state or national emergency.

History: 1954 ACS 81, p. 121, Eff. Mar. 5, 1975.

PART 7. COMMISSION APPEAL PROCEDURE

R 460.2181 Informal appeal.

Rule 81. Within 5 days from the date of service of a complaint determination of a utility hearing officer, either party may file an informal appeal with the consumer services division of the commission.

History: 1954 ACS 81, p. 121, Eff. Mar. 5, 1975.

R 460.2182 Filing procedure.

Rule 82. (1) An informal appeal may be filed in any reasonable manner. The informal appeal need not be in writing and may be initiated by telephone or in person at the offices of the commission.

(2) A written appeal need not be verified.

(3) The appealing party shall provide the following information to the commission:

(a) Name and address of the customer.

(b) Name of the utility involved.

(c) The nature of the original complaint in a clear and concise manner.

(d) The relief requested and whether the customer has pursued the remedies available with the utility complained of pursuant to these provisions.

History: 1954 ACS 81, p. 121, Eff. Mar. 5, 1975.

R 460.2183 Exhaustion of remedies.

Rule 83. The commission may require the customer to pursue remedies directly with the utility as provided in these rules prior to the acceptance for filing of an informal appeal. The commission specifically reserves the right to waive this rule when in equity and good conscience circumstances so require.

History: 1954 ACS 81, p. 121, Eff. Mar. 5, 1975.

R 460.2184 Informal appeal procedure.

Rule 84. (1) Upon filing, the appeal shall be assigned to a complaint and information officer of the consumer services division, or other officer or employee of the commission as the commission may designate, who shall reduce the appeal to writing and shall be responsible for:

(a) Advising the appealing party of the procedures of the commission by telephone or in writing.

(b) Advising the other party that an informal appeal has been filed.

(c) Issuing interim determinations as may be necessary in the proceedings.

(d) Reviewing or investigating the appeal as provided in these rules.

(e) Issuing an informal appeal decision.

(2) Upon notification by the commission that an informal appeal has been filed, the utility hearing officer shall forthwith file with the consumer services division the certified hearing record concerning the matter in dispute. The parties shall be bound by the evidence presented at the hearing and contained in the hearing record. The complaint and information officer shall not be required to receive or consider any additional evidence or information submitted by a party in arriving at the informal appeal decision.

(3) In all appeals filed pursuant to these rules, the utility has the burden of proof.

History: 1954 ACS 81, p. 122, Eff. Mar. 5, 1975.

R 460.2185 Interim determinations.

Rule 85. (1) After the receipt of the hearing record and pending the final resolution of an informal appeal, the complaint and information officer may issue an interim determination upon such terms and conditions as he deems appropriate. In the case of appeals regarding bills or deposits, the complaint and information officer may require a customer to pay the undisputed portion of a claim in order to continue the prohibition against the discontinuance of service as provided in these rules. The complaint and information officer may consider such amounts as reasonably appear to reflect the cost of utility service in determining the undisputed portion of a claim.

(2) If a customer fails to abide by the terms and conditions of an interim determination within 10 days of the date of personal service or mailing thereof by first class mail, the utility may discontinue service as provided in these rules.

History: 1954 ACS 81, p. 122, Eff. Mar. 5, 1975.

R 460.2186 Appeal review.

Rule 86. The complaint and information officer shall review the informal appeal thoroughly and when necessary conduct further investigation. New evidence may be offered by any party if the complaint and information officer determines that it is relevant and could not have been offered at the hearing before the utility hearing officer through the exercise of due diligence by the offering party. When further investigation is necessary, the complaint and information officer may request additional evidence or upon his own motion may hold an informal conference with the parties or their representatives at a time and place designated by the officer. If either party fails to appear at the informal conference without good cause shown or prior request for adjournment, the right of the absent party to appear at the conference shall be waived. At any informal conference, each party shall have the right to:

(a) Represent himself or to be represented by counsel or other person of his choice.

(b) Present oral and documentary evidence.

(c) Refute in a reasonable manner the evidence of the other party.

(d) Submit an oral or written statement of position.

History: 1954 ACS 81, p. 122, Eff. Mar. 5, 1975.

R 460.2187 Discontinuance pending decision.

Rule 87. A utility shall not discontinue residential service nor issue a notice of discontinuation relative to the matter in dispute pending the decision of the consumer services division unless pursuant to the terms of an interim determination.

History: 1954 ACS 81, p. 122, Eff. Mar. 5, 1975.

R 460.2188 Informal appeal decision.

Rule 88. The complaint and information officer or other employee so designated by the commission shall within 30 days issue a written informal appeal decision affirming, modifying or reversing the complaint determination. In reversing or modifying the complaint determination, the decision shall set forth the terms and conditions for continued service, discontinuation or a proposed settlement agreement as required by the facts and circumstances. The decision shall state the relevant findings of fact and the reasons for the decision.

History: 1954 ACS 81, p. 122, Eff. Mar. 5, 1975.

R 460.2189 Notice and discontinuation.

Rule 89. A copy of the informal appeal decision shall be served personally or sent by first class mail to the parties. Failure of either party to comply with the decision within 10 days from the date of service of mailing thereof shall permit the action or remedy as provided therein.

History: 1954 ACS 81, p. 123, Eff. Mar. 5, 1975.

R 460.2190 Res judicata.

Rule 90. The consumer services division may treat an informal appeal involving the same question or issue based upon same facts as res judicata and may dismiss without following every procedure set forth in these rules.

History: 1954 ACS 81, p. 123, Eff. Mar. 5, 1975.

R 460.2191 Formal appeal.

Rule 91. Either party may appeal the decision of the complaint and information officer by filing a formal complaint in accordance with the rules of practice and procedure before the commission. A party may proceed in accordance with the terms of the informal appeal decision unless otherwise ordered by the presiding officer assigned to the formal complaint.

History: 1954 ACS 81, p. 123, Eff. Mar. 5, 1975.

R 460.2192 Other remedies.

Rule 92. Nothing in these provisions shall be construed to prevent a party from pursuing appropriate legal and equitable remedies at any time prior to or after the issuance of any informal appeal decision.

History: 1954 ACS 81, p. 123, Eff. Mar. 5, 1975.

R 460.2199 Rescission.

Rule 99. Rules 6, 25, 27, 28, 31 to 35 of the Standards of Gas Service being R 460.896, R 460.915, R 460.917, R 460.918, R 460.921 to R 460.925 of the Michigan Administrative Code and appearing on pages 6095 and 6101 to 6103 of the 1954 volume of the Code and rules 5, 7, 8, 10, 11, 14 to 17 and 28 of the Rules of Electric Service, being R 460.501, R 460.502 and R 460.504 of the Michigan Administrative Code and appearing on pages 5788 to 5792 of the 1954 volume of the Code, are rescinded insofar as they apply to electrical and gas residential utility service.

History: 1954 ACS 81, p. 123, Eff. Mar. 5, 1975.

RESIDENTIAL TELEPHONE SERVICE

(By authority conferred on the public service commission by sections 3 and 13 of Act No. 206 of the Public Acts of 1913, section 5 of Act No. 419 of the Public Acts of 1919, sections 4 and 6 of Act No. 3 of the Public Acts of 1939, and sections 3, 9,

and 231 of Act No. 380 of the Public Acts of 1965, being §§484.103, 484.113, 460.55, 460.4, 460.6, 16.103, 16.109, and 16.331 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS AND DEFINITIONS

R 460.2211 Application of rules.

Rule 1. These rules apply to all telephone public utilities which are or may hereafter be subject to the jurisdiction of the public service commission under the laws of the state.

History: 1954 ACS 90, p. 61, Eff. May 14, 1977.

R 460.2212 Definitions.

Rule 2. As used in these rules:

(a) "Billing month" means a telephone service usage period of not less than 28 nor more than 31 days.

(b) "Complaint" means a written or oral request or allegation with respect to any aspect of residential telephone service that is not resolved to the satisfaction of the customer within 1 billing month after the receipt of the complaint by the telephone utility.

(c) "Complaint and information officer" means a member of the commission staff designated to perform responsibilities in accordance with these rules.

(d) "Complaint determination" means the written decision of a utility hearing officer with respect to a complaint filed regarding residential telephone service.

(e) "Consumer services division" means the staff of the commission designated to perform responsibilities in accordance with these rules.

(f) "Customer" means a purchaser of residential telephone service offered by a telephone utility.

(g) "Cycle billing" means a system employed by a telephone utility in which different customers are billed on different days of any 1 calendar month.

(h) "Delinquent account" means a bill rendered to a customer for telephone service which remains unpaid at least 5 days after the due date of the bill.

(i) "Discontinuation of service" means a cessation of telephone service not voluntarily requested by a customer.

(j) "In dispute" means any matter regarding a customer's utility service which is the subject of a pending disagreement, claim, or complaint by a customer.

(k) "Informal appeal" means an appeal of a complaint determination of a utility hearing officer made to the consumer services division of the commission.

(l) "Informal appeal decision" means the written determination of the consumer services division with respect to an informal appeal.

(m) "Late payment charge" means a finance, service, carrying, or penalty charge assessed by a utility upon the bill of a customer for the reason that a balance due and owing upon the bill remains outstanding beyond the period of time established for payment.

(n) "Seasonally billed customer" means a residential customer billed on a seasonal basis in accordance with a telephone tariff on file with the commission.

(o) "Settlement agreement" means a written agreement entered into by a customer and a utility purports to resolve a matter in dispute between the parties or provides for the payment of moneys not in dispute over a reasonable period of time.

(p) "Suspension of service" means a temporary curtailment of telephone service voluntarily requested by a customer for a period of time not less than 1 month nor more than 1 year.

(q) "Telephone adjustment clause" means an automatic adjustment clause, if and when approved by the commission, to recognize variations in the cost of providing telephone service from a base level.

(r) "Telephone utility" means a person, firm, corporation, cooperative association, or other agency subject to the jurisdiction of the public service commission, which offers telephone service for residential use.

(s) "Termination" means a cessation of telephone service voluntarily requested by the customer.

(t) "Telephone service charges" means the rates for telephone service provided by the telephone utility.

(u) "Unauthorized" means unlawful or prohibited by a Michigan public service commission order.

History: 1954 ACS 90, p. 61, Eff. May 14, 1977.

R 460.2213 Discrimination prohibited.

Rule 3. A telephone utility shall not discriminate against nor penalize a customer for exercising a right granted by these rules.

History: 1954 ACS 90, p. 62, Eff. May 14, 1977.

R 460.2214 Nature of proceedings.

Rule 4. The informal proceedings required by these rules shall not constitute contested cases as defined by section 3 of Act No. 306 of the Public Acts of 1969, being §24.203 of the Michigan Compiled Laws.

History: 1954 ACS 90, p. 62, Eff. May 14, 1977.

R 460.2215 Adoption of additional rules.

Rule 5. A telephone utility may adopt such reasonable rules governing its relations with customers as are necessary and are not inconsistent with these rules. The rules shall be an integral part of the utility's schedule of rates and tariffs and approved by the commission.

History: 1954 ACS 90, p. 62, Eff. May 14, 1977.

R 460.2216 Rescission.

Rule 6. Rules 3, 5.2 to 5.7, 6.3, and 8 of the rules entitled "Rules and Regulations Governing the Furnishing of Intrastate Telephone Services and Facilities," being R 460.1953, R 460.1955.2 to R 460.1955.7, R 460.1956.3, and R 460.1958 of the Michigan Administrative Code and appearing on pages 6454 to 6457 of the 1954 volume of the code, are rescinded insofar as they apply to residential telephone service.

History: 1954 ACS 90, p. 62, Eff. May 14, 1977.

PART 2. BILLING AND PAYMENT STANDARDS

R 460.2221 Billing frequency.

Rule 21. A telephone utility shall, after the initial bill for new service is rendered, render a bill once during each billing month to every residential customer or in accordance with approved rate schedules and tariffs.

History: 1954 ACS 90, p. 62, Eff. May 14, 1977.

R 460.2222 Billing cycle.

Rule 22. A telephone utility may bill its customers on a cyclical basis if the individual customer receives each billing on or about the same day of each billing

month. Billing cycles may be altered upon 10 days' written notice to the affected customer.

History: 1954 ACS 90, p. 62, Eff. May 14, 1977.

R 460.2223 Payment of bills.

Rule 23. A telephone utility shall permit each residential customer at least 21 calendar days from the date of rendition of each bill for payment, in full, except when the customer has had service discontinued pursuant to R 460.2255 within the preceding 12 months and the customer's current toll bill exceeds 6 times the average residential toll bill for the company in the previous 12 months. In the latter case, the telephone utility may demand payment on the date following rendition of the bill. Five days thereafter, the bill will be deemed delinquent in accordance with R 460.2212(h) and the notice required by R 460.2257 may then be sent to the customer. All other provisions of parts 5 to 7 of these rules are then applicable.

History: 1954 ACS 90, p. 62, Eff. May 14, 1977.

R 460.2224 Computation of payment period.

Rule 24. The date of rendition of a telephone utility bill for residential service shall be the date of physical mailing of the bill by the utility. If the last calendar day for remittance falls upon a Sunday, legal holiday, or any other day when the offices of the utility regularly used for the payment of customer bills are not open to the general public, the final payment date shall be extended through the next business day. The date of payment of remittance by mail is 2 days prior to receipt of the remittance.

History: 1954 ACS 90, p. 62, Eff. May 14, 1977

R 460.2225 Discounts and late payment charges prohibited.

Rule 25. After the effective date of these rules, a telephone utility shall bill each customer for telephone service and any other approved charges in accordance with the net rates in the tariffs and schedules approved by, and on file with, the commission. A telephone utility shall not employ a time payment discount provision or assess a late payment charge in determining the amount of a bill due and owing by a residential customer.

History: 1954 ACS 90, p. 62, Eff. May 14, 1977.

R 460.2226 Billing information.

Rule 26. Each bill rendered by a telephone utility for residential telephone service shall clearly state:

(a) The beginning and ending dates of the billing period.

(b) The due date.

(c) Any previous balance.

(d) The telephone number for which the bill is rendered.

(e) The total amount due for local service charges and designated as payment in advance for 1 month of service.

(f) An itemized statement of all other authorized charges.

(g) The total amount due for other authorized charges.

(h) An itemized statement including the date, time, duration, type, location, applicable charge, and telephone number for each message toll call.

(i) The total amount due for all message toll charges.

(j) An itemized statement of all taxes due.

(k) The amount due under any applicable telephone adjustment clause.

(l) The total amount due.

(m) The statement that rate schedules for local exhange service rendered are available and will be mailed upon request.

(n) The address and telephone number of the telephone utility, designating where the customer may initiate an inquiry or complaint regarding the bill as rendered or the service provided by the utility.

(o) The statement: "This utility is regulated by the Michigan Public Service Commission, Lansing, Michigan."

History: 1954 ACS 90, p. 63, Eff. May 14, 1977.

R 460.2227 Separate bills.

Rule 27. A utility shall render a separate billing, as required by R 460.2226, for service provided at each residence or location if requested to do so by the customer.

History: 1954 ACS 90, p. 63, Eff. May 14, 1977.

R 460.2228 Partial payment.

Rule 28. Unless otherwise specified by the customer, if partial payment of a bill is made, the utility shall first credit all payments to the balance outstanding for telephone service.

History: 1954 ACS 90, p. 63, Eff. May 14, 1977.

R 460.2229 New services and changes in services.

Rule 29. (1) Not later than 10 days after the completion of an order for new service or a change in service which results in a tariff change, the utility shall provide to the customer, in writing, a copy of an itemized statement of the services ordered, including all present charges therefor, as well as a pamphlet approved by the commission showing general residential services available and the charges therefor.

(2) A residential customer shall have the right, within 30 days of receiving a bill for new services or changed services, to cancel or reduce any such service or portion of service without further service charge.

History: 1954 ACS 90, p. 63, Eff. May 14, 1977.

PART 3. GUARANTEE OF PAYMENT; SECURITY DEPOSITS

R 460.2231 Cash deposit as a condition of new service.

Rule 31. A telephone utility shall not require a cash deposit or other guarantee as a condition of new service unless a customer has an unsatisfactory credit or service standing with the utility due to either of the following:

(a) The customer has a prior telephone service account which is past due with a telephone utility, which accrued within the last 6 years and which, at the time of the request for service, remains unpaid and not in dispute.

(b) The customer has, in an unauthorized manner, interfered with the service of the telephone utility situated or delivered on or about the customer's premises within the last 6 years, if the finding of unauthorized interference or use is made and determined after notice and opportunity for hearing is provided to the customer pursuant to these rules and is not in dispute.

History: 1954 ACS 90, p. 63, Eff. May 14, 1977.

R 460.2232 Cash deposit or other guarantee as condition of continued service.

Rule 32. A utility shall not require a cash deposit or other guarantee as a

condition of continued service unless a customer has an unsatisfactory credit or service standing with the utility due to 1 of the following:

(a) The service of the customer has been discontinued for nonpayment of a delinquent account not in dispute.

(b) In an unauthorized manner, the customer interfered with the service of the utility situated or delivered on or about the customer's premises, if the finding of unauthorized interference or use is made and determined after notice and opportunity for hearing is provided to the customer pursuant to these rules and is not in dispute.

History: 1954 ACS 90, p. 64, Eff. May 14, 1977.

R 460.2233 Prohibited standards for requiring cash deposit or other guarantee.

Rule 33. A telephone utility shall not require a cash deposit or other guarantee as a condition of new or continued utility service based upon commercial credit standards, income, home ownership, residential location, race, color, creed, sex, age, national origin, or any other criteria not authorized by these rules. This rule does not prohibit a telephone utility from ensuring that agreements with customers who may be incompetent, such as minors, are made in such a manner, and with such persons, as to be legally binding.

History: 1954 ACS 90, p. 64, Eff. May 14, 1977.

R 460.2234 Cash deposit; terms and conditions.

Rule 34. A cash deposit required pursuant to these rules is subject to the following terms and conditions:

(a) A deposit required as a condition of new service due to a prior outstanding account not in dispute shall not exceed the lesser of the amount of the prior outstanding account or $100.00. The telephone utility may also require payment of the prior outstanding account, if due and owing to the serving telephone utility, as a condition of new service.

(b) A deposit required as a condition of continued service due to discontinuance for nonpayment shall not exceed the lesser of an amount equal to the actual or estimated maximum monthly bill for service at the customer's premises or $100.00. The utility may also require payment of the prior outstanding account as a condition of continued service.

(c) A deposit required for new or continued service due to unauthorized interference or use shall not exceed $100.00.

(d) Before requiring a deposit as a condition of continued service, the telephone utility shall have offered the customer, prior to discontinuance for nonpayment, the opportunity to enter into a settlement agreement as provided in part 6 of these rules.

(e) Interest at the rate of 6% per annum, or at such other percentage per annum as the commission may from time to time establish, shall be payable on all deposits. Interest shall be compounded or credited semiannually upon the service account of the customer or paid upon the return of the deposit, whichever occurs first.

(f) Upon termination of service, the deposit, with accrued interest, shall be credited to the final bill and the balance returned promptly to the customer.

(g) The credit of a customer shall be established, and a deposit and accrued interest shall be refunded promptly by the telephone utility, upon satisfactory payment by the customer of all proper charges for telephone service for a period of 9 successive months. For purposes of this subrule, payment is satisfactory if made prior to the issuance of a notice of discontinuation of service for nonpay-

ment not in dispute. The telephone utility may withhold the deposit funds pending the resolution of a discontinuance for nonpayment which is in dispute in accordance with these rules.

(h) A telephone utility shall maintain a detailed record of all deposits received from customers, showing the name of each customer; the location of the premises occupied by the customer at the time of making the deposit; each successive location while the deposit is retained; the date the deposit was made; the amount of the deposit; and the date and amounts of interest paid.

(i) Each customer posting a cash deposit shall receive in writing, at the time of tender of deposit funds, a receipt as evidence thereof, which shall contain the following minimum information:

(i) Name of customer.

(ii) Place of payment.

(iii) Date of payment.

(iv) Amount of payment.

(v) Identifiable name and signature of the telephone utility employee receiving payment.

(vi) Statement of the terms and conditions governing the receipt, retention, and return of deposit funds.

(j) A telephone utility shall provide means whereby a customer entitled to a return of his deposit is not deprived of deposit funds, even though he may be unable to produce the original receipt for the deposit.

(k) A telephone utility shall apply deposit standards uniformly as a condition of telephone service to all residential customers.

History: 1954 ACS 90, p. 64, Eff. May 14, 1977.

R 460.2235 Guarantee in lieu of cash deposit.

Rule 35. In lieu of a cash deposit required by these rules, a telephone utility shall accept the written guarantee of a responsible party as surety for a customer service account.

History: 1954 ACS 90, p. 65, Eff. May 14, 1977.

R 460.2236 Guarantee; terms and conditions.

Rule 36. A guarantee accepted in accordance with these rules is subject to the following terms and conditions:

(a) It shall be in writing and shall be renewed in a similar manner at least annually.

(b) It shall state the terms of guarantee, the maximum amount guaranteed, not to exceed $100.00, and that the telephone utility shall not hold the guarantor liable for sums in excess thereof.

(c) Credit shall be established for the customer, and the guarantor shall be released, upon satisfactory payment by the customer of all proper charges for telephone service for a period of 9 successive months. For purposes of this subdivision, payment is satisfactory if made prior to the issuance of a notice of discontinuation of service for nonpayment not in dispute. The telephone utility may withhold the release of the guarantor pending the resolution of a discontinuance for nonpayment in dispute in accordance with these rules.

History: 1954 ACS 90, p. 65, Eff. May 14, 1977.

R 460.2237 Refund of cash deposits; termination of guarantees.

Rule 37. On or before the effective date of these rules, a telephone utility shall refund all cash deposits held as security for residential telephone service currently

in its possession and terminate all existing guarantees in lieu of deposits not maintained or executed in compliance with this part. A telephone utility shall notify each customer that any deposit so refunded is pursuant to these rules. Interest on refunded deposits shall accrue in accordance with the interest rate paid by the telephone utility on the effective date of these rules. A telephone utility may apply all deposits subject to refund against existing arrearages not in dispute prior to refund.

History: 1954 ACS 90, p. 65, Eff. May 14, 1977.

PART 4. TELEPHONE UTILITY PROCEDURES

R 460.2241 Applicability.

Rule 41. The procedures of this part shall be applicable to all customer inquiries and complaints made to a telephone utility regarding residential telephone service and charges therefor.

History: 1954 ACS 90, p. 65, Eff. May 14, 1977.

R 460.2242 Complaint procedures.

Rule 42. (1) A telephone utility shall establish procedures, consistent with these rules, which insure the prompt, efficient, and thorough receipt, investigation, and, where possible, resolution of all customer inquiries, service requests, and complaints regarding residential telephone service and charges therefor.

(2) A telephone utility shall obtain commission approval of any substantive changes in the procedures prior to implementation.

History: 1954 ACS 90, p. 65, Eff. May 14, 1977.

R 460.2243 Personnel procedures.

Rule 43. A telephone utility shall establish personnel procedures which, as a minimum, insure that:

(a) Personnel shall be available and prepared during normal business hours to receive and respond to all customer inquiries, service requests, and complaints. A telephone utility shall make necessary arrangements to insure that customers unable to communicate in the English language receive prompt and effective assistance.

(b) Personnel responsible for, and authorized to enter into, written settlement agreements on behalf of the telephone utility shall be available during normal business hours to respond to customer inquiries and complaints.

(c) Personnel shall be available at all times to receive and initiate response to customer contacts regarding any discontinued service and emergency conditions occurring within the telephone utility's service area.

(d) Names, business addresses, and telephone numbers of personnel designated and authorized to receive and respond to the requests and directives of the commission regarding customer inquiries, service requests, and complaints shall be on file with the consumer services division.

History: 1954 ACS 90, p. 65, Eff. May 14, 1977.

R 460.2244 Utility hearing officers.

Rule 44. (1) A telephone utility shall employ or contract with competent utility hearing officers, who shall be notaries public or qualified to administer oaths, and other supporting personnel as necessary to comply with part 6.

(2) Utility hearing officers so employed or contracted to comply with part 6 shall not engage in any other activity for, or on behalf of, the utility.

(3) Utility hearing officers and utility hearing procedures shall be subject at all times to investigation and review by the commission to insure the impartiality and integrity of the hearing process.

History: 1954 ACS 90, p. 66, Eff. May 14, 1977.

R 460.2245 Publication of procedures.

Rule 45. (1) A telephone utility shall provide for its customers a pamphlet which, in layman's terms, summarizes the rights and responsibilities of its customers in accordance with these rules and other applicable provisions.

(2) The pamphlet shall be displayed prominently, shall be available at all telephone utility office locations open to the general public, and shall be mailed to each residential customer of the telephone utility. Thereafter, the pamphlet shall be delivered or mailed to each new customer of the telephone utility upon the commencement of service, and shall be available upon request.

(3) The pamphlet shall contain information concerning, but not limited to:

(a) Billing procedures.

(b) Methods for customers to verify monthly billings.

(c) Explanation of operation of any telephone adjustment clause.

(d) Customer payment standards and procedures.

(e) Security deposit and guarantee standards.

(f) Discontinuation and reconnection of telephone service.

(g) Inquiry, service, and complaint procedures.

(h) Public service commission consumer procedures.

(4) The cover of each pamphlet shall indicate conspicuously that the pamphlet is being provided in accordance with the rules of the commission, and shall indicate in Spanish that the pamphlet, or a translation thereof, is available in Spanish. Upon request, a telephone utility shall provide the pamphlet, or a translation thereof, in the Spanish language.

History: 1954 ACS 90, p. 66, Eff. May 14, 1977.

R 460.2246 Public access to rules and rates.

Rule 46. A telephone utility shall keep on file, and provide public access to, a copy of these rules, all other rules of the telephone utility as filed with the commission regarding customer service, and a schedule of all residential rates and service charges, together with an explanation of the operation of any applicable telephone adjustment clause, at all offices of the telephone utility. Suitable signs shall be posted conspicuously at each such location, and at all collection points and agencies, calling attention to the public that the rules, regulations, and applicable rate schedules are so filed and available for inspection. Upon request, the telephone utility shall provide 1 copy of these rules and the rate schedules applicable to the customer's usage.

History: 1954 ACS 90, p. 66, Eff. May 14, 1977.

R 460.2247 Quarterly report.

Rule 47. (1) Class A telephone utilities, as defined by the commission, shall file a quarterly report within 20 days after the end of each calendar quarter with the consumer services division, which, in detail, contains information concerning:

(a) The amounts billed and collected in relation to established due and payable periods.

(b) The number and general description of all complaints registered with the telephone utility.

(c) The number of discontinuation notices issued by the telephone utility and the reasons therefor.

(d) The number of hearings held by the telephone utility, the type of the dispute relating thereto, and the number of complaint determinations issued.

(e) The number of written settlement agreements entered into by the telephone utility and a synopsis of the terms, conditions, and standards upon which the settlement agreements were entered into.

(f) The actual number of discontinuations of service and the number of reconnections.

(g) A critique of the performance of the consumer services division of the commission.

(2) Class B, C, and D telephone utilities, as defined by the commission, shall file a report containing the above information upon the request of the commission staff.

History: 1954 ACS 90, p. 66, Eff. May 14, 1977.

R 460.2248 Telephone directory; information.

Rule 48. A telephone utility shall publish on a page preceding the alphabetical listings of each telephone directory, in a prominent manner and without charge, the following information:

(a) The telephone numbers and address of the telephone utility where the customer may make inquiry or file a complaint regarding telephone service.

(b) The telephone numbers and address of each electric, gas, and water utility within the directory geographical distribution area where a customer of such utilities may make inquiry or complaint regarding utility service.

(c) The telephone numbers and address of the Michigan public service commission and its consumer services division where a customer of a utility subject to commission jurisdiction may make inquiry or complaint regarding utility service.

History: 1954 ACS 90, p. 67, Eff. May 14, 1977.

R 460.2249 Inspection.

Rule 49. A telephone utility shall permit members and employees of the commission to inspect all of the telephone utility's operations, including those relating to customer service.

History: 1954 ACS 90, p. 67, Eff. May 14, 1977.

PART 5. DISCONTINUATION OF SERVICE

R 460.2251 Time of discontinuation.

Rule 51. (1) Subject to the requirements of these rules, a telephone utility may discontinue service to a residential customer on the date specified in the notice of discontinuation, or within a reasonable time thereafter, only between the hours of 8 a.m. and 4 p.m.

(2) Service shall not be discontinued on a day, or a day immediately preceding a day, when the services of the utility are not available to the general public for the purpose of reconnecting discontinued service.

History: 1954 ACS 90, p. 67, Eff. May 14, 1977.

R 460.2252 Manner of discontinuation.

Rule 52. (1) At least 1 day preceding physical discontinuation of service, the telephone utility shall make reasonable efforts to contact the customer by

telephone to advise the customer of the pending action and of what steps must be taken to avoid discontinuation.

(2) If physical discontinuation of telephone service is effectuated within the residence of the customer, the employee of the telephone utility designated to perform such function:

(a) Shall identify himself to the customer, or other responsible person then upon the premises, and shall announce the purpose of his presence.

(b) Shall have in his possession a copy of the past due account of the customer, and shall request any available verification that the outstanding claims have been satisfied or are currently in dispute. Upon the presentation of evidence which reasonably indicates that the claim has been satisfied or is currently in dispute, service shall not be discontinued.

(c) May be authorized to accept payment and, in such case, shall not discontinue service if the customer then and there tenders payment in full, together with a reasonable charge for sending the employee to the premises if provided in the utility's schedule of rates and tariffs. Payment may be made in any reasonable manner, including personal check. Payment by personal check may be refused if the customer has, on a previous occasion within the last 3 years, tendered payment in this manner and the check has been dishonored, excluding bank error.

(d) Shall leave notice, in a manner conspicuous to the customer, that service will be discontinued on the next business day unless outstanding claims have been satisfied, if prior telephone contact has not been made as provided in subrule (1) and the customer or other responsible person is not in or upon the premises. If the customer or other responsible person has been telephonically contacted, service may be discontinued immediately.

(e) May discontinue service if the customer or other responsible person is not at the residence upon the return of the employee, or upon the first visit if the customer or other responsible person does not respond when it reasonably appears that the premises are occupied.

(f) Shall leave notice at the residence, in a manner conspicuous to the customer, that service has been discontinued, and shall leave the address and telephone number of the telephone utility where the customer may arrange to have service restored.

(g) If the employee designated to effectuate discontinuance at a residence is not authorized to, or cannot, accomplish the functions described in subdivisions (b) to (f), another employee may be designated to perform the functions, subject to the constraints of this rule.

History: 1954 ACS 90, p. 67, Eff. May 14, 1977.

R 460.2253 Medical emergency.

Rule 53. Notwithstanding any other provision of these rules, a telephone utility shall postpone the physical discontinuation of utility service to a residential customer for a reasonable time, not in excess of 21 days, if the customer produces a physician's certificate, or notice from a public health or social services official, which states that physical discontinuation will aggravate an existing medical emergency of the customer, a member of the family, or other permanent resident of the premises where service is rendered. The certificate shall identify the medical emergency and specify the circumstances. When the utility is notified telephonically that such a medical emergency exists, the utility shall permit a reasonable time for the customer to produce the certificate or notice. The postponement may be extended by 1 renewal of the certificate or notice.

History: 1954 ACS 90, p. 68, Eff. May 14, 1977.

R 460.2254 Restoration of service.

Rule 54. (1) After service has been discontinued, a telephone utility shall restore service promptly upon the customer's request when the cause for discontinuation of service has been cured or satisfactory credit arrangements have been made.

(2) Every effort shall be made to restore service at all times upon the day restoration is requested, and, in any event, restoration shall be made no later than the first working day after the day of the request of the customer.

(3) The telephone utility may charge the customer a fee for restoration of service, as provided in the telephone utility's approved schedule of rates and tariffs.

(4) Payment may be made by the customer in any reasonable manner, including personal check. Payment by personal check may be refused if the customer has, on a previous occasion within the last 3 years, tendered payment in this manner and the check has been dishonored, excluding bank error.

History: 1954 ACS 90, p. 68, Eff. May 14, 1977.

R 460.2255 Discontinuance of service; reasons.

Rule 55. Subject to the requirements of these rules, a telephone utility may discontinue service to a residential customer for 1 or more of the following reasons:

(a) Nonpayment of a delinquent account.

(b) Failure to post a cash security deposit or other form of guarantee.

(c) Unauthorized interference with or use of the telephone utility service situated on or about the customer's premises.

(d) Failure to comply with the terms and conditions of a settlement agreement.

(e) Refusal to grant access at reasonable times to equipment installed upon the premises of the customer for the purpose of inspection, maintenance, or replacement.

(f) Misrepresentation of identity for the purpose of obtaining telephone utility service.

(g) Improper use of a party line service, including interference with an equitable proportionate use of the service by other customers on the line.

(h) Violation of any other rules of the telephone utility on file with, and approved by, the commission, which adversely affects the safety of the customer or other persons or the integrity of the utility's telephone system.

History: 1954 ACS 90, p. 68, Eff. May 14, 1977.

R 460.2256 Discontinuance of service; insufficient cause.

Rule 56. None of the following shall constitute sufficient cause for a telephone utility to discontinue service:

(a) The failure of a customer to pay for goods or services not approved by the commission.

(b) The failure of the customer to pay for concurrent service received at a separate residence or location. In the event of discontinuation or termination of service at a separate residential location in accordance with these rules, a telephone utility may transfer any unpaid balance to any other residential service account of the customer.

(c) The failure of the customer to pay for a different class of service received at the same or different location.

(d) Failure of the customer to pay for service provided in the name of another customer.

History: 1954 ACS 90, p. 69, Eff. May 14, 1977.

R 460.2257 Notice of discontinuation of service.

Rule 57. (1) A telephone utility shall not discontinue residential service pursuant to R 460.2255 unless written notice by first class mail is sent to the customer or personally served at least 10 days prior to the date of the proposed discontinuance. If discontinuance of a service is sought pursuant to R 460.2255(a) such notice shall not be sent prior to the time the account becomes delinquent. Notice shall be addressed to insure delivery. Service of notice by mail is complete upon mailing, unless proven otherwise. A telephone utility shall maintain an accurate record of the date of mailing.

(2) A notice of discontinuance of service shall not be issued if a customer has pending with the telephone utility a complaint concerning the bill upon which the notice is based.

History: 1954 ACS 90, p. 69, Eff. May 14, 1977.

R 460.2258 Form and contents of notice.

Rule 58. Notice shall be clearly legible and contain the following information:

(a) The name and address of the customer and the address of the service, if different, unless the customer has otherwise requested.

(b) A clear and concise statement of the reason for the proposed discontinuance of service.

(c) The date, or within a reasonable time thereafter, on which service will be discontinued unless the customer takes appropriate action.

(d) The right of the customer to enter into a settlement agreement with the telephone utility if the claim is for moneys not in dispute and the customer is presently unable to pay in full the amount due on the telephone utility.

(e) The right of the customer to dispute the claim of the telephone utility prior to date of the proposed discontinuance of service.

(f) The right of the customer to request a hearing before a utility hearing officer if the dispute cannot be otherwise resolved, and a statement that the customer must pay to the telephone utility that portion of the bill not in dispute within 3 days of the date that the hearing is requested.

(g) The right of customers to represent themselves, or to be represented by counsel, or to be assisted by other persons of their choice in the complaint process.

(h) A statement that service will not be discontinued pending the resolution of a complaint or claim filed with the telephone utility in accordance with the rules of the Michigan public service commission.

(i) The telephone number and address of the telephone utility where the customer may make inquiry, enter into a settlement agreement, or file a complaint.

History: 1954 ACS 90, p. 69, Eff. May 14, 1977.

R 460.2259 Disputed billing.

Rule 59. (1) When a customer advises a telephone utility, prior to the date of a proposed discontinuation of service, that all or any part of a billing as rendered is in dispute, the telephone utility shall:

(a) Immediately record the date, time, and place the disputed claim is made, and advise the customer that an investigation will be made.

(b) Investigate the dispute promptly and completely.

(c) Advise the customer of the results of the investigation.

(d) Attempt to resolve the dispute informally in a manner satisfactory to both parties.

(e) Provide the opportunity for each customer to enter into a reasonable settlement agreement in order to mutually settle the disputed claim or to satisfy any liability not in dispute.

(2) A customer may advise a telephone utility that a claim is in dispute in any reasonable manner, such as by written notice, in person, or by a telephone call directed to the telephone utility.

(3) A telephone utility, in attempting to resolve the dispute in a mutually satisfactory manner, may employ telephone communication, personal meetings, on site visits, or any other technique reasonably conducive to dispute settlement.

History: 1954 ACS 90, p. 70, Eff. May 14, 1977.

PART 6. HEARING; SETTLEMENT AGREEMENTS

R 460.2261 Hearing; condition.

Rule 61. If the parties are unable to resolve the dispute in a mutually satisfactory manner, a telephone utility shall afford a customer the opportunity for a hearing before a utility hearing officer. If the customer fails to request a hearing within 3 days from the date that the opportunity for hearing is offered, or if the customer fails to pay the amount which represents that part of the bill not in dispute within 3 days of the date that the hearing is requested, the telephone utility may proceed to discontinue service pursuant to these rules.

History: 1954 ACS 90, p. 70, Eff. May 14, 1977.

R 460.2262 Payment of amount not in dispute.

Rule 62. (1) If a customer requests a hearing before a utility hearing officer, the telephone utility may require the customer to pay an amount equal to, but no more than, that part of the bill not in dispute.

(2) The amount not in dispute shall be mutually determined by the parties. The parties shall consider the customer's prior billing history, the nature of the dispute, and any other pertinent factors in determining the amount not in dispute.

(3) If the parties are unable to mutually determine the amount not in dispute, the telephone company may require the customer to pay to the telephone utility 50% of the amount in dispute, not to exceed $100.00 per billing period.

(4) The amount not in dispute and the amount in dispute shall be subject to review at the hearing before the utility hearing officer in accordance with R 460.2264.

(5) Failure of the customer to pay to the telephone utility the amount not in dispute, or 50% of the amount in dispute, may constitute a waiver of the customer's right to the hearing, and the telephone utility may then proceed to discontinue service as provided in part 5.

(6) If the dispute is ultimately resolved in favor of the customer, in whole or in part, any excess moneys paid by the customer shall be refunded promptly, with interest at 6% per annum.

History: 1954 ACS 90, p. 70, Eff. May 14, 1977.

R 460.2263 Notice of hearing.

Rule 63. (1) The customer and the utility shall be mailed, or personally served, written notice of the time, date, and place of the hearing not less than 10 days prior to the hearing.

(2) The notice shall describe the hearing procedures as contained in these rules.

(3) Failure of the customer or the utility to attend the hearing without due cause or prior request for adjournment constitutes a waiver of the right of that party to the hearing.

History: 1954 ACS 90, p. 70, Eff. May 14, 1977.

R 460.2264 Hearing procedures.

Rule 64. (1) A telephone utility shall establish a hearing procedure which, at a minimum, provides that the customer and the utility:

(a) Have the right to represent themselves, or to be represented by counsel, or to be assisted by a person of their choice.

(b) Have the right to examine, not less than 2 days prior to a scheduled hearing, a list of all witnesses who will testify at the hearing and all documents, records, files, account data, and similar material which may be relevant to the issues to be raised at the hearing.

(c) Have the right to present evidence and testimony, as well as oral and written arguments.

(d) Have the right to confront, question, and cross-examine witnesses appearing on behalf of the other party.

(2) A hearing requested by the customer or an authorized representative shall be held at a time during normal business hours. A telephone utility shall take reasonable steps to insure that customers unable to attend hearings due to physical incapacity shall not be denied the right to a hearing.

(3) The burden of proof is upon the telephone utility in all cases.

(4) All witnesses appearing for either party shall testify under oath.

(5) All hearings shall be informal, and the proceedings need not be recorded or transcribed. All evidence relevant to the dispute shall be received, and the rules of evidence need not be adhered to.

(6) For each hearing held, the utility hearing officer shall compile a hearing record which contains:

(a) A concise statement, in writing, of the position of the telephone utility relative to the dispute.

(b) A concise statement, in writing, of the position of the customer relative to the dispute. If the customer has not reduced, or is unable to reduce, his position to writing, the hearing process shall provide a method for accomplishing this, with the opportunity for proper acknowledgment by the customer.

(c) Copies of all exhibits submitted by the parties.

(7) Upon the closing of the record, the utility hearing officer shall state his findings and decision orally, and shall issue a complaint determination containing the following:

(a) A concise summary of the evidence and arguments presented by the parties.

(b) The decision of the utility hearing officer, based solely upon the evidence presented, and the reason therefor.

(8) Upon the issuance of a complaint determination, the utility hearing officer shall orally advise the customer and the telephone utility:

(a) That each party has a right to file by mail, telephone, or in person, within 5 days after the date of issuance of the complaint determination, an informal appeal with the consumer services division of the commission.

(b) That if appealed, the decision of the utility hearing officer, including a finding that service may be discontinued, is stayed pending review by the consumer services division.

(c) Of the address and telephone number where the customer may file an informal appeal with the commission.

(9) Prior to issuance of a complaint determination, the utility hearing officer may propose to the parties a settlement of all matters in dispute. Acceptance of the proposed settlement by both parties is binding on them. The agreement shall be reduced to writing and signed by both parties in the presence of the utility hearing officer.

(10) If, at the conclusion of the hearing, a utility hearing officer finds that the telephone utility may discontinue service unless the customer complies with the complaint determination, he shall so notify the customer and authorize the telephone utility to issue immediately, and serve the customer or his representative personally with, written notice, in a form approved by the commission, that service will be discontinued after 5 days unless compliance or payment occurs, or the determination is appealed, in accordance with these rules.

(11) At the conclusion of the hearing, the utility hearing officer shall serve the parties with a copy of the complaint determination, appeal information as provided in subrule (8), and, where applicable, the settlement agreement or notice of discontinuation of service.

(12) The complaint determination, settlement agreement, or notice of discontinuation of service shall be made part of the hearing record and, together with other documents contained therein, shall be certified by the utility hearing officer.

(13) The complaint determination is binding upon the parties unless appealed as provided in these rules.

History: 1954 ACS 90, p 70, Eff May 14, 1977.

R 460.2265 Settlement agreement; conditions; forms; contents.

Rule 65. (1) If the telephone utility and the customer arrive at a mutually satisfactory settlement of a claim in dispute, or if the customer does not dispute liability to the telephone utility but claims inability to pay the outstanding bill in full, a telephone utility shall offer the customer the opportunity to enter into a settlement agreement. The offer shall be limited to the claim in dispute or the delinquent account, and shall not encompass current or future billings.

(2) A settlement agreement shall be in writing and signed by the customer, or his representative, and a representative of the utility authorized to enter into the agreement. A settlement reached by telephone shall be confirmed by the telephone utility in writing and mailed to the customer, with instructions to sign a confirming copy and return it in a prepaid, self-addressed return envelope as provided. The original settlement agreement shall be maintained on file by the utility for 2 years.

(3) Every settlement agreement entered into due to the customer's inability to pay the outstanding bill in full shall provide that service will not be discontinued if the customer pays a reasonable amount of the outstanding bill and agrees to pay a reasonable portion of the remaining outstanding balance in installments until the bill is paid.

(4) For purposes of determining reasonableness under these rules, the parties shall consider the following:

(a) Size of the delinquent account.

(b) Customer's ability to pay.

(c) Customer's payment history.

(d) Time that the debt has been outstanding.

(e) Reasons why the debt has been outstanding.

(f) Any other relevant factors concerning the circumstances of the customer.

(5) A settlement agreement offered by a telephone utility shall, immediately preceding the space provided for the customer's signature and in boldface print at least 2 sizes larger than any other used thereon, contain the following statement:

"If you are not satisfied with this agreement, do not sign. You may file an informal complaint and have a hearing before a utility hearing officer before your service may be terminated.

If you do sign this agreement, you give up your right to an informal hearing

before a utility hearing officer on any matter involved in this dispute, except the telephone utility's failure or refusal to follow the terms of this agreement."

History: 1954 ACS 90, p. 72, Eff. May 14, 1977.

R 406.2266 Noncompliance with settlement agreement; notice; waiver; subsequent agreement.

Rule 66. (1) If a customer fails to comply with the terms and conditions of a settlement agreement, a telephone utility may discontinue service after notifying the customer, in writing, by personal service or first class mail:

(a) That the customer is in default of the settlement agreement.

(b) The nature of the default.

(c) That unless full payment of the claim is made within 10 days from the date of mailing, the telephone utility will discontinue service.

(d) The date, or within a reasonable time thereafter, upon which service will be discontinued.

(e) That the customer has a right to a hearing before a utility hearing officer only if the customer alleges that the telephone utility has failed or refused to follow the terms of the settlement agreement, or alleges that the customer has in fact complied with the terms of the settlement agreement.

(f) The address and telephone number where the customer may file the request for hearing with the telephone utility.

(2) If a settlement agreement is reached as the result of a customer claim in dispute following a notice of discontinuance, the failure of the customer to abide by the terms of the settlement agreement during the first 60 days after the agreement is made constitutes a waiver of the notice required by subrule (1) of this rule.

(3) Upon determination by the utility hearing officer, a complaint determination and notice of proposed action shall be issued pursuant to R 460.2264.

(4) A telephone utility is not required to enter into any subsequent settlement agreement with a customer until the terms of any previous settlement agreement have been fully executed.

(5) A telephone utility is not required to enter into a subsequent settlement agreement with a customer who defaults upon the terms and conditions of a previous agreement.

History: 1954 ACS 90, p. 72, Eff. May 14, 1977.

R 460.2267 Res judicata.

Rule 67. A telephone utility may treat as res judicata a customer complaint or dispute involving the same question or issue and based upon the same facts as were decided in a previous customer complaint, and is not required to comply with these rules more than once prior to discontinuance of service.

History: 1954 ACS 90, p. 73, Eff. May 14, 1977.

R 460.2268 Emergency discontinuation.

Rule 68. Notwithstanding any other provisions of these rules, a telephone utility may discontinue residential service temporarily for reasons of health or safety, or in a state or national emergency.

nation of a utility hearing officer, either party may file an informal appeal with the consumer services division of the commission.

(2) An informal appeal may be filed in any reasonable manner. The informal appeal need not be in writing and may be initiated by telephone or in person at the offices of the commission.

(3) A written appeal need not be verified.

(4) The appealing party shall provide the following information to the commission:

(a) Name, address, and telephone number of the customer.

(b) Name of the telephone utility involved.

(c) The nature of the original complaint in a clear and concise manner.

(d) The relief requested and whether the customer has pursued the remedies available with the telephone utility complained of pursuant to these rules.

History: 1954 ACS 90, p. 73, Eff. May 14, 1977.

R 460.2272 Exhaustion of remedies.

Rule 72. The commission may require the customer to pursue remedies directly with the telephone utility as to the subject matter of these rules, and as provided in these rules, prior to the acceptance for filing of a complaint or an informal appeal. After the exhaustion of a customer's remedies with the utility, the commission may require a customer to file an informal appeal prior to the acceptance of a formal complaint. The commission specifically reserves the right to waive this rule when, in equity and good conscience, circumstances so require.

History: 1954 ACS 90, p. 73, Eff. May 14, 1977.

R 460.2273 Informal appeal; assignment; reduction to writing; duties of officer or employee of commission; filing certified hearing record; evidence; burden of proof.

Rule 73. (1) Upon filing, the informal appeal shall be assigned to a complaint and information officer of the consumer services division, or other officer or employee of the commission as the commission may designate, who shall reduce the appeal to writing and shall be responsible for:

(a) Advising the appealing party of the procedures of the commission by telephone or in writing.

(b) Advising the other party that an informal appeal has been filed.

(c) Issuing interim determinations as may be necessary in the proceedings.

(d) Reviewing or investigating the appeal as provided in these rules.

(e) Issuing an informal appeal decision.

(2) Upon notification by the commission that an informal appeal has been filed, the utility hearing officer shall promptly file with the consumer services division the certified hearing record concerning the matter in dispute. The parties shall be bound by the evidence presented at the hearing and contained in the hearing record. The complaint and information officer shall not be required to receive or consider any additional evidence or information submitted by a party in arriving at the informal appeal decision, except evidence that tends to show that the hearing record is incomplete, inaccurate, or does not otherwise fairly summarize the evidence presented at the hearing.

(3) In all appeals filed pursuant to these rules, the telephone utility has the burden of proof.

R 460.2274 Interim determinations.

Rule 74. (1) After the receipt of the hearing record and pending the final resolution of an informal appeal, the complaint and information officer may issue an interim determination upon such terms and conditions as he deems appropriate. In the case of appeals regarding bills or deposits, the complaint and information officer may require a customer to pay the undisputed portion of a claim in order to continue the prohibition against the discontinuance of service as provided in these rules. The complaint and information officer may consider such amounts as reasonably appear to reflect the cost of telephone utility service in determining the undisputed portion of a claim.

(2) If a customer fails to abide by the terms and conditions of an interim determination within 10 days of the date of personal service or mailing thereof by first class mail, the telephone utility may discontinue service as provided in these rules.

History: 1954 ACS 90, p. 74, Eff. May 14, 1977.

R 460.2275 Informal appeal; review; further investigation; new evidence; informal conference; rights of parties.

Rule 75. The complaint and information officer shall review the informal appeal thoroughly and, when necessary, conduct further investigation. New evidence may be offered by a party if the complaint and information officer determines that it is relevant and could not have been offered at the hearing before the utility hearing officer through the exercise of due diligence by the offering party. When further investigation is necessary, the complaint and information officer may request additional evidence or, upon his own motion, may hold an informal conference with the parties or their representatives at a time and place designated by the officer. If either party fails to appear at the informal conference without good cause shown or prior request for adjournment, the right of the absent party to appear at the conference shall be waived. At any informal conference, each party shall have the right to:

(a) Represent himself, or to be represented by counsel, or to be assisted by a person of his choice.

(b) Present oral and documentary evidence.

(c) Refute in a reasonable manner the evidence of the other party.

(d) Submit an oral or written statement of position.

History: 1954 ACS 90, p. 74, Eff. May 14, 1977.

R 460.2276 Discontinuance pending decision.

Rule 76. A telephone utility shall not discontinue residential service nor issue a notice of discontinuation relative to the matter in dispute pending the decision of the consumer services division, unless pursuant to the terms of an interim determination.

History: 1954 ACS 90, p. 74, Eff. May 14, 1977.

R 460.2277 Informal appeal decision; issuance; contents; serving or mailing copy; effect of noncompliance.

Rule 77. (1) The complaint and information officer, or other employee so designated by the commission, shall, within 30 days after the filing of the certified hearing record, issue a written informal appeal decision affirming, modifying, or reversing the complaint determination or an interim determination pursuant to R 460.2275. In reversing or modifying the complaint determination, the decision shall set forth the terms and conditions for continued service, discontinuation of

service, or a proposed settlement agreement as required by the facts and circumstances. The decision shall state the relevant findings of fact and the reasons for the decision.

(2) A copy of the informal appeal decision shall be served personally or sent by first class mail to the parties. Failure of either party to comply with the decision within 10 days from the date of service or mailing thereof shall permit the action or remedy as provided therein.

History: 1954 ACS 90, p. 74, Eff. May 14, 1977.

R 460.2278 Res judicata.

Rule 78. The consumer services division may treat as res judicata an informal appeal involving the same question or issue and based upon the same facts as were decided in a previous informal appeal, and may dismiss the subsequent informal appeal without following every procedure set forth in these rules.

History: 1954 ACS 90, p. 75, Eff. May 14, 1977.

R 460.2279 Formal complaint; filing; procedure; other remedies.

Rule 79. (1) Either party may appeal the decision of the complaint and information officer by filing a formal complaint in accordance with the rules of practice and procedure before the commission. A party may proceed in accordance with the terms of the informal appeal decision, unless otherwise ordered by the presiding officer assigned to the formal complaint.

(2) Nothing in these rules shall be construed to prevent a party from pursuing appropriate legal and equitable remedies at any time prior to or after the issuance of an informal appeal decision.

TECHNICAL STANDARDS FOR GAS SERVICE

R 460.2301—R 460.2384

History: 1954 ACS 96, p. 116, Eff. July 21, 1978.

Editor's note: R 460.2301 to R 460.2384, pertaining to technical standards for gas service, were adopted by the public service commission. Upon request of the commission and pursuant to section 57 of Act No. 306 of the Public Acts of 1969, as amended, being §24.257 of the Michigan Compiled Laws, these rules will not be published in Michigan Administrative Code publications. Copies of the rules may be obtained upon application to the Public Service Commission, Long Commerce Park, Box 30221, Lansing, Michigan 48909.

RESIDENTIAL CONSERVATION PROGRAM STANDARDS

(By authority conferred on the public service commission by section 6c of Act No. 3 of the Public Acts of 1939, as amended, being §460.6c of the Michigan Compiled Laws)

R 460.2401 Definitions.

Rule 1. As used in these rules:

(a) "Act" means Act No. 3 of the Public Acts of 1939, as amended, being §460.1 et seq. of the Michigan Compiled Laws.

(b) "Commission" means the public service commission.

(c) "Current" means that a customer has complied with appropriate tariff provisions of the public utility governing the payment of bills and these rules, and, in addition, means and includes residential customers who have entered and are up to date on budget payment or equal payment plans, and customers who offer to enter or who have entered and are complying with settlement agreements as provided by the commission's Consumer Standards and Billing Practices, Electrical and Gas Residential Service, being R 460.2101 et seq. of the Michigan Administrative Code.

(d) "Energy conservation program" means a program by which residential

conservation measures are made available to some or all of a public utility's residential customers.

(e) "Multiple-family dwelling" means and includes such living facilities as cooperatives, condominiums, and apartments, provided that each household within the dwelling has normal household facilities, such as a bathroom, individual cooking, and a kitchen sink. "Multiple-family dwelling" does not include such living facilities as penal or corrective institutions, motels, hotels, dormitories, nursing homes, tourist homes, military barracks, hospitals, special care facilities, or any other facilities primarily associated with the purchase, sale, or supplying, for profit or otherwise, of a commodity, product, or service by a public person, entity, organization, or institution.

(f) "Public utility" means a company furnishing gas or electricity for public use at rates approved or prescribed by the commission.

(g) "Residential conservation measures" means conservation devices, services, and materials, including, but not limited to, caulking weatherstripping; modification or adjustment of furnaces and flues to improve their efficiency; furnace ignition systems; clock thermostats; ceiling, attic, wall, floor, and water heater insulation; storm windows and doors, multiglazed windows and doors, heat-absorbing or heat-reflective glazed windows and door materials; and, where cost effective as a means of reducing demand for energy supplied by the utility, devices to utilize solar, wind, or thermal energy, installed or furnished on the residential premises of a public utility's residential customers.

(h) "Residential customer" means a person who receives gas or electric service from a public utility for residential use by that person or others in a single-family dwelling, individual flat or apartment, or a multiple-family dwelling.

History: 1954 ACS 100, p. 95, Eff. Aug. 16, 1979.

R 460.2402 Application for approval of energy conservation program.

Rule 2. A public utility may apply to the commission for authorization of an energy conservation program. In respect to each such application, there shall be an opportunity for a contested case hearing upon reasonable notice as provided in rate cases before the commission. In respect to each application filed after the effective date of these rules, there shall be a public hearing held in the service territory of the public utility for the purpose of obtaining public comment on the energy conservation program. Interested parties may participate in accordance with the commission's rules entitled "Practice and Procedure Before the Commission," being R 460.11 et seq. of the Michigan Administrative Code, and Act No. 306 of the Public Acts of 1969, as amended, being §24.201 et seq. of the Michigan Compiled Laws. The commission's staff shall participate in each such proceeding.

History: 1954 ACS 100, p. 96, Eff. Aug. 16, 1979.

R 460.2403 Proposing inclusion of different residential conservation measures in program; order; jurisdiction.

Rule 3. Any interested person may propose or oppose the inclusion in an energy conservation program of residential conservation measures different from, or in addition to, those proposed by the public utility. Following the entry of an order authorizing an energy conservation program, the commission shall retain jurisdiction to consider the inclusion in such a program of residential conservation measures different from, or in addition to, those included in the program as approved. Any interested person may petition for the exercise of such jurisdiction or oppose inclusion of such measures in an energy conservation program.

R 460.2404 Determination of residential conservation measures to be included in energy conservation program.

Rule 4. The commission shall determine which residential conservation measures shall be included in an energy conservation program. The commission shall consider residential conservation measures proposed to be included in an energy conservation program on the basis of their potential for conserving gas or electricity; safety; cost effectiveness; reliability; and applicability to the residential premises of the public utility's residential customers. The proponent of the inclusion of any residential conservation measure in an energy conservation program shall have the burden of proving the extent to which the safety thereof has been or will be determined by public agencies with jurisdiction or responsibility in respect to safety or by private organizations with recognized competence in respect to safety. Where the cost benefit of residential conservation measures which qualify for interest-free financing pursuant to R 460.2409 of these rules varies significantly by type, brand, or make of residential conservation measure, more than 1 type, brand, or make of conservation measure may be included in an energy conservation program, but the variation in cost benefit among the types, brands, or makes of residential conservation measures shall be disclosed to the customer as part of the information requirements of R 460.2406 of these rules. A public utility or a subsidiary of a public utility shall not manufacture or obtain profit from the manufacture of a residential conservation measure used in an energy conservation program approved pursuant to these rules.

History: 1954 ACS 100, p. 96, Eff. Aug. 16, 1979.

R 460.2405 Including costs in general utility rates.

Rule 5. Upon commission authorization, a public utility may include in its general rates for utility service the costs of money, bad debt expense, administrative costs and all or part of the cost of residential energy audits associated with an energy conservation program. Such costs shall be recovered by a charge included equally in the price of every metered unit of gas or electricity sold subject to commission jurisdiction, without regard to the amount of gas or electricity consumed by a customer. The inclusion of such costs in general utility rates shall not continue after the costs arising from an approved energy conservation program have been recovered. The commission shall authorize the charges to be included equally in the price of gas or electricity and periodic changes thereto in proceedings limited to determining the amount of the costs of the energy conservation program which were or are to be reasonably and prudently incurred by the public utility and which are to be recovered through such charges and the level of the charge necessary to recover such costs.

History: 1954 ACS 100, p. 97, Eff. Aug. 16, 1979.

R 460.2406 Providing cost benefit information to customer.

Rule 6. Each residential customer to whom residential conservation measures are offered or furnished under an energy conservation program shall be provided with cost benefit information regarding such residential conservation measures as they apply to the customer's residence. The standards and methodology used to provide this cost benefit information or to provide cost benefit information under any program authorized by these rules shall be authorized by the commission. Due to the fact that no 2 dwellings have exactly the same potential for energy conservation even where dwellings have been constructed in a similar fashion, because physical location, habits of occupants, and structural integrity differ, it may be necessary to render an estimate of energy savings for a specific residence on the basis of energy conservation efficiency to be expected, on the average,

from installation of specific energy conservation measures in residences with characteristics similar to the residence under consideration. If an estimate of energy conservation efficiency incorporates any averages, that fact shall be clearly disclosed to the residential customer. If such cost benefit information pertains to residential conservation measures to be installed by contractors, as referred to in R 460.2408, the residential conservation customer shall be informed as to whether costs are based on an actual contractor bid for the customer's premises or an estimate thereof.

History: 1954 ACS 100, p. 97, Eff. Aug. 16, 1979.

R 460.2407 Installation of conservation devices and materials.

Rule 7. Conservation devices and materials installed under an energy conservation program, unless personally installed by the residential customer, shall be installed by a contractor holding both of the following:

(a) A valid residential builder's license or a residential maintenance and alteration contractor's license issued by the Michigan department of licensing and regulation under Act No. 383 of the Public Acts of 1965, as amended, being §383.1501 et seq. of the Michigan Compiled Laws.

(b) Other contractors' licenses required by applicable local or municipal codes or reciprocal licensing provisions.

History: 1954 ACS 100, p. 97, Eff. Aug. 16, 1979.

R 460.2408 List of contractors; availability; grouping of customers' premises.

Rule 8. (1) As part of an energy conservation program, the public utility shall prepare, or cause to be prepared, for its service area a list or lists of contractors who do all of the following:

(a) Hold the required licenses.

(b) Maintain coverage as prescribed by law in respect to insurance.

(c) Enter into a contract in a form authorized by the commission which contains, among other things, a full warranty of work performed and materials furnished.

(2) A list of qualified contractors for the appropriate area shall be made available to each residential customer who decides to have devices or materials installed under the energy conservation program. A residential customer selecting contractors who are not on the list described in subrule (1) may obtain the benefits of residential conservation programs as described in R 460.2409 and R 460.2410, if such contractors demonstrate to the public utility compliance with subdivisions (a), (b), and (c) of subrule (1).

(3) If the residential customer makes no selection of a contractor, that customer's premises, with the consent of the customer, may be grouped with other customers' premises in the same area, and the installation of devices and materials for the group shall be performed by the lowest qualified bidder. Groupings of premises pursuant to this rule shall be in a number to achieve economies of scale without unduly impairing the ability of private contractors to bid for such work. Where possible, bids to determine the average cost of performing such work for a residence typical of residences within a specific geographical area shall be taken prior to offering residential conservation measures to residential customers so as to give such customers a basis for price comparison and cost effectiveness. Applications for bids issued to contractors for work to be performed pursuant to this subrule shall include criteria for wage levels and other conditions which will ensure that the largest possible percentage of local contractors has an opportunity to bid competitively for work performed pursuant to this subrule.

History: 1954 ACS 100, p. 98, Eff. Aug. 16, 1979.

R 460.2409 Payment for residential conservation measures that repay costs of installation; contracts.

Rule 9. (1) Residential conservation measures, as defined in R 460.2401(g) above, or as included in an authorized energy conservation program pursuant to R 460.2403 above, that will repay the costs of installation (costs of installation are those costs determined to prevail on or around the filing date of an energy conservation program) within 7 years or less from energy savings (calculated using energy costs in effect at the filing date of the energy conservation program), and which are installed as part of an authorized energy conservation program, shall be paid for under contracts that do not charge interest to residential customers contracting for such measures. Audits, inspections, or other verification of the applicability of only those residential conservation measures which repay the costs of installation within 7 years or less from energy savings to a customer's residence may be included in an energy conservation program and, if so included, shall be performed by the utility at no direct charge to the customer. Charges for all other audits, inspections, or verifications shall be as authorized by the commission.

(2) No penalty shall be imposed by the lender for payment of all or any portion of the outstanding balance due on any contract prior to the date such payment would otherwise be due.

History: 1954 ACS 100, p. 98, Eff. Aug. 16, 1979

R 460.2410 Financing of residential conservation measures.

Rule 10. (1) A utility may refer its customer to a financial institution in the business of lending for financing of the installation of residential conservation measures in lieu of providing funds directly to, or on behalf of, the customer.

(2) As part of an authorized energy conservation program, the utility may contract to collect payments for conservation measures at no fee to the financial institution, absorb bad debt expenses, and subsidize the loan in an amount up to the difference between the interest rate, as listed in R 460.2409, and the lower of the interest rate, including use of deferred taxes, that the utility would have to pay for capital at or around the time of the filing of the energy conservation program, or an interest rate which is negotiated between the utility and the financial institution. However, residential customers may not be charged any additional fee or interest charge by the financial institution under the loan contract provided for in this provision.

History: 1954 ACS 100, p. 98, Eff. Aug. 16, 1979.

R 460.2411 Including costs of money and cost of bad debt expense in general utility rates.

Rule 11. Notwithstanding any other provision of these rules, costs of money and costs of bad debt expense related to an authorized energy conservation program may be included in general utility rates as provided in R 460.2405, if the commission finds that the energy conservation program is apt to result, in the foreseeable future, in lower rates for all utility ratepayers than could be achieved without the energy conservation program.

History: 1954 ACS 100, p. 99, Eff. Aug. 16, 1979.

R 460.2412 Eligibility to receive loans; securing contract by security interest.

Rule 12. (1) All residential customers who are owners of the residence in which they live and who are current in their payment of the utility bills of the utility company offering the loan are eligible to receive loans.

(2) All tenants who are residential customers and who are current in their payment of the utility bills of the utility company offering the loan, and who secure permission to install residential conservation measures from their landlords, as well as an agreement that the landlord will inform subsequent tenants of any such tenant's obligation to make payments on an energy conservation program contract, are eligible to receive loans.

(3) Contracts pursuant to an energy conservation program may be secured by a statement of lien or other security interest.

History: 1954 ACS 100, p. 99, Eff. Aug. 16, 1979.

R 460.2413 Informing solicited customers of availability of conservation measures pursuant to state and federal programs.

Rule 13. All utilities implementing energy conservation programs shall inform those of their customers who are solicited to participate in a utility conservation program of conservation measures that are available pursuant to state or federal programs which are applicable to a significant proportion of the customers of the public utility. This information shall be provided to utility customers before such customers agree to participate in a conservation program authorized by the act.

History: 1954 ACS 100, p. 99, Eff. Aug. 16, 1979.

R 460.2414 Construction of rules.

Rule 14. Nothing contained in these rules shall be construed to prohibit or modify gas or electric utility conservation programs in effect before June 5, 1978, without prior notice and hearing before the commission.

History: 1954 ACS 100, p. 99, Eff. Aug. 16, 1979.

PRESERVATION OF RECORDS

R 460.2501—R 460.2582

History: 1954 ACS 28, pp. 14-44, Eff. Jan. 1, 1982.

Editor's note: R 460.2501 to R 460.2582, pertaining to the preservation of records of utilities, were adopted by the public service commission. Upon request of the commission and pursuant to section 57 of Act No. 306 of the Public Acts of 1969, as amended, being §24.257 of the Michigan Compiled Laws, these rules will not be published in Michigan Administrative Code publications. UNIFORM SYSTEM OF ACCOUNTS FOR CLASS A AND B ELECTRIC UTILITIES

R 460.9001, R 460.9019

History: 1954 ACS 89, p. 145, Eff. Nov. 12, 1976.

Editor's note: R 460.9001 and R 460.9019, relating to a uniform system of accounts for class A and B electric utilities, were adopted by the public service commission to implement Act No. 106 of the Public Acts of 1909, being §460.551 et seq. of the Michigan Compiled Laws. By request of the commission and pursuant to section 57 of Act No. 306 of the Public Acts of 1969, being §24.257 of the Michigan Compiled Laws, these rules are not published in Michigan Administrative Code publications. They may be obtained upon application to the Public Service Commission, Law Building, Lansing, Michigan 48926.

UNIFORM SYSTEM OF ACCOUNTS FOR CLASS A AND B GAS UTILITIES

R 460.9021, R 460.9039

History: 1954 ACS 89, p. 145, Eff. Nov. 12, 1976.

Editor's note: R 460.9021 and R 460.9039, relating to a uniform system of accounts for class A and B gas utilities, were adopted by the public service commission to implement Act No. 419 of the Public Acts of 1919, as amended, being §460.51 et seq. of the Michigan Compiled Laws. By request of the commission and pursuant to section 57 of Act No. 306 of the Public Acts of 1969, being §24.257 of the Michigan Compiled Laws, these rules are not published in Michigan Administrative Code publications. They may be obtained upon application to the Public Service Commission, Law Building, Lansing, Michigan 48926.

UNIFORM SYSTEM OF ACCOUNTS FOR CLASS A AND B TELEPHONE COMPANIES

R 460.9041, R 460.9059

History: 1954 ACS 85, p. 37, Eff. Oct. 1, 1975.

Editor's note: R 460.9041 and R 460.9059, relating to a uniform system of accounts for class A and B telephone companies, were adopted by the public service commission to implement Act No. 206 of the Public Acts of 1913, as amended, being §484.101 et seq. of the Michigan Compiled Laws. By request of the commission and pursuant to section 57 of Act No. 306 of the Public Acts of 1969, being §24.257 of the Michigan Compiled Laws, these rules are not published in Michigan Administrative Code publications. They may be obtained upon application to the Public Service Commission, Law Building, Lansing, Michigan 48926.

UNIFORM SYSTEM OF ACCOUNTS FOR CLASS C AND D TELEPHONE COMPANIES

R 460.9060, R 460.9079

History: 1954 ACS 85, p. 38, Eff. Oct. 1, 1975.

Editor's note: R 460.9060 and R 460.9079, relating to a uniform system of accounts for class C and D telephone companies, were adopted by the public service commission to implement Act No. 206 of the Public Acts of 1913, as amended, being §484.101 et seq. of the Michigan Compiled Laws. By request of the commission and pursuant to section 57 of Act No. 306 of the Public Acts of 1969, being §24.257 of the Michigan Compiled Laws, these rules are not published in Michigan Administrative Code publications. They may be obtained upon application to the Public Service Commission, Law Building, Lansing, Michigan 48926.

UNIFORM SYSTEM OF ACCOUNTS FOR CLASS A AND B WATER UTILITIES

R 460.9081, R 460.9099

History: 1954 ACS 85, p. 38, Eff. Oct. 1, 1975.

Editor's note: R 460.9081 and R 460.9099, relating to a uniform system of accounts for class A and B water utilities, were adopted by the public service commission to implement Act No. 419 of the Public Acts of 1919, as amended, being §460.51 et seq. of the Michigan Compiled Laws, and Act No. 3 of the Public Acts of 1939, as amended, being §460.1 et seq. of the Michigan Compiled Laws. By request of the commission and pursuant to section 57 of Act No. 306 of the Public Acts of 1969, being §24.257 of the Michigan Compiled Laws, these rules are not published in Michigan Administrative Code publications. They may be obtained upon application to the Public Service Commission, Law Building, Lansing, Michigan 48926.

UNIFORM SYSTEM OF ACCOUNTS FOR WATER UTILITIES

R 460.10000—R 460.12726 Rescinded.

History: 1954 ACS 27, pp. 32-214, Eff. Aug. 14, 1961; rescinded 1954 ACS 85, p. 38, Eff. Oct. 1, 1975.

SERVICE SUPPLIED BY WATER UTILITIES

R 460.13101—R 460.13707

History: 1954 ACS 36, pp. 15-27, Eff. Nov. 14, 1963.

Editor's note: R 460.13101 to R 460.13707, pertaining to service supplied by water utilities, were adopted by the public service commission. Upon request of the commission and pursuant to section 57 of Act No. 306 of the Public Acts of 1969, being §24.257 of the Michigan Compiled Laws, these rules are not published in Michigan Administrative Code publications. They may be obtained upon application to the Public Service Commission, Law Building, Lansing, Michigan 48926.

MICHIGAN GAS SAFETY CODE

R 460.14001—R 460.14999

History: 1954 ACS 71, p. 73, Eff. May 31, 1972; 1954 ACS 75, p. 60, Eff. Apr. 14, 1973; 1954 ACS 82, p. 145, Eff. Dec. 27, 1974; 1954 ACS 88, p. 122, Eff. July 6, 1976; 1954 ACS 92, p. 46, Eff. Aug. 16, 1977; 1954 ACS 97, p. 85, Eff. Oct. 28, 1978; 1954 ACS 100, p. 99, Eff. July 21, 1979.

Editor's note: R 460.14001 to R 460.14999, pertaining to safety standards for pipeline facilities and the transportation of gas, were adopted by the public service commission to implement Act No. 165 of the Public Acts of 1969, being §§483.151 to 483.162 of the Michigan Compiled Laws. Upon request of the commission and pursuant to section 57 of Act No. 306 of the Public Acts of 1969, being §24.257 of the Michigan Compiled Laws, these rules are not published in Michigan Administrative Code publications. They may be obtained upon application to the Public Service Commission, Law Building, Lansing, Michigan 48926.

MOTOR CARRIERS

(By authority conferred on the public service commission by section 6 of article 5 of Act No. 254 of the Public Acts of 1933, as amended, being §479.6 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 460.15001 Definitions.

Rule 1. (1) The words and phrases used herein shall have the meanings given them by the motor carrier act.

(2) "Motor carrier act" means Act No. 254 of the Public Acts of 1933, as amended, being §§475.1 to 479.49 of the Michigan Compiled Laws.

History: 1954 ACS 66, p. 41, Eff. June 1, 1971.

R 460.15019 Rescission.

Rule 19. Rules (1) to (66) of the rules applicable to motor carriers, being R 460.101 to R 460.146 of the Michigan Administrative Code and appearing on pages 5611, 5620 to 5626, 5628 and 5631 to 5637 of the 1954 volume of the Code and in the Annual Supplements hereinafter listed, are rescinded.

Annual Supplements	Pages
1955	134, 135 and 137 to 139
1957	742 to 746
1959	1250, 1253 and 1254
1960	1533
1962	2659 to 2662
1964-65	3389 to 3392

History: 1954 ACS 66, p. 41, Eff. June 1, 1971.

PART 2. CERTIFICATES AND PERMITS

R 460.15021 Applications.

Rule 21. An application shall be typewritten or legibly printed and shall be executed in accordance with the motor carrier act on forms supplied by the commission.

History: 1954 ACS 66, p. 41, Eff. June 1, 1971.

R 460.15022 Interstate applications.

Rule 22. (1) A motor carrier engaged in transportation in interstate or foreign commerce shall register its interstate commerce commission certificate or permit and extensions thereto. The application for registration shall be in the form and contain the information requested and no operations commenced until an order authorizing operations has been issued by the commission.

(2) A motor carrier engaged in transportation of property in interstate or foreign commerce, within the prescribed interstate commerce commission commercial zone of a city having a population of 500,000 or more, shall have a commercial zone registration (permit) before commencing operations.

History: 1954 ACS 66, p. 41, Eff. June 1, 1971.

R 460.15023 Hearings and copies of orders.

Rule 23. (1) An application or petition will not be set for hearing (where a hearing is required) until all of the statutory requirements and rules have been met.

(2) A person may advise the commission in writing of an interest in a particular proceeding and thereafter the commission shall mail the person a copy of all orders entered in the proceeding.

History: 1954 ACS 66, p. 41, Eff. June 1, 1971

R 460.15024 Commencement of operations.

Rule 24. When a new or extended authority in intrastate commerce has been issued, operations thereunder shall not commence until 20 days after service of the commission order.

History: 1954 ACS 66, p. 41, Eff. June 1, 1971.

R 460.15025 Fixed route carriers.

Rule 25. A certificate of public convenience and necessity issued to a common carrier operating over fixed (regular) routes and between fixed termini shall be construed to include intermediate points on the routes unless the points are expressly excluded.

History: 1954 ACS 66, p. 41, Eff. June 1, 1971.

R 460.15026 Limitations imposed by permits.

Rule 26. A permit granted and issued to a contract carrier shall contain the names of all persons for whom the contract carrier shall be authorized to transport property. A contract carrier shall not engage in any other or different operations or transport for any other or additional persons than those named in its permit without having obtained a new or amended permit covering the new operation or persons. A new or amended permit shall be obtained in the manner prescribed for procurement of an original permit.

History: 1954 ACS 66, p. 41, Eff. June 1, 1971.

R 460.15027 Reclassification of carriers.

Rule 27. (1) The commission may reclassify carriers of persons or property when it determines from its records that it is necessary. Upon application of a carrier or other interested person, the commission shall consider whether a carrier should be reclassified. A proposed reclassification shall be noticed in the bi-weekly information bulletin at least 10 days before any action thereon.

(2) A reclassification shall be effected and an application for reclassification considered without a hearing unless otherwise ordered by the commission upon its own motion or upon written request for hearing by a carrier involved or by other interested persons. If a hearing is ordered by the commission, due notice shall be given in the same manner as a hearing on an application for a certificate of public convenience and necessity and a contract carrier permit under the motor carrier act.

(3) In the absence of objection, the commission may issue proper authority to all carriers which it reclassifies.

History: 1954 ACS 66, p. 42, Eff. June 1, 1971.

R 460.15028 Primary business.

Rule 28. A person engaged in any other business or enterprise who transports property by motor vehicle for business purposes, unless the transportation is within the scope and in the furtherance of a primary business enterprise (other than transportation) of the person, is deemed to be conducting a motor-carrier-for-hire operation in evasion of the motor carrier act.

History: 1954 ACS 66, p. 42, Eff. June 1, 1971.

R 460.15029 Double and multiple certification of equipment.

Rule 29. (1) An application for authority for double or multiple certification of equipment shall be submitted by all the carriers involved on forms to be furnished by the commission and shall contain a verified statement of the facts relied upon by the applicants. The application shall be noticed in the bi-weekly information bulletin. Unless a protest is filed within 10 days after the date of publication, the commission may grant the authority requested without a hearing.

(2) A protested application shall be scheduled for hearing in the usual manner. A protest shall be in writing and set forth justifiable reasons.

(3) A vehicle operating under double or multiple certification shall be under the direction and control of the carrier under whose authority the operation is being performed. Double or multiple certification may not be used to effect a tacking or interlining of 2 or more authorities.

History: 1954 ACS 66, p. 42, Eff. June 1, 1971.

R 460.15030 Interruption of service.

Rule 30. (1) An order authorizing discontinuance of service shall not extend beyond 1 year. A common motor carrier seeking authority for discontinuance beyond the initial 1-year period shall advise the commission. The commission shall consider facts submitted in support of the request and may further extend the discontinuance upon proof that it is in the public interest. The commission may schedule the matter for hearing. After a discontinuance of service has been in effect for a total of 3 years, a further extension of the discontinuance will not be granted. If service under the authority is not reinstated at that time, the commission shall revoke the authority.

(2) A contract carrier shall notify the commission in writing within 30 days of its discontinuance or abandonment of any part of its permitted contract operations giving the reasons therefor.

History: 1954 ACS 66, p. 42, Eff. June 1, 1971.

PART 3. INSURANCE

R 460.15031 Liability to passengers.

Rule 31. Before authority is issued by the commission, proper evidence from an insurance company approved by the commissioner of insurance shall be submitted to the commission showing that the carrier has in effect insurance indemnifying the carrier against damages for injuries to passengers and their property in at least the minimum amounts hereinafter prescribed. The insurance shall be written to expire not earlier than December 31 of the calendar year during which the authority is issued or written to continue in force and effect until cancelled.

R 460.15032 Cargo insurance.

Rule 32. A carrier, except a contract carrier, shall secure and keep in force cargo insurance in an amount to fully cover and protect all property received by it for transportation insofar as the carrier is liable under any law applicable to it. This rule does not apply to transportation of the following commodities:

Ashes, wood or coal
Bituminous concrete (also known as blacktop or amosite), including mixtures of asphalt paving
Brick
Cement, dry, in containers or in bulk
Cement building blocks
Cinders, coal
Coal
Coke
Commercial fertilizer and ingredients
Corn cobs
Cottonseed hulls
Cut flowers
Feeds, animal, poultry and fish
Fish scrap
Forest products; viz: logs, billets or bolts, native wood, Canadian wood or Mexican pine; pulpwood, fuelwood, wood kindling; and wood sawdust or shavings (shingle tow) other than jewelers' or parafined
Garbage
Gravel, other than bird gravel
Ice
Iron ore
Lime and limestone
Lumber
Manure
Meat scraps
Ores in bulk, including ore concentrates
Peat moss
Pallets and pallet stock
Poles and piling, other than totem poles
Rubbish
Salt, in bulk or in bags
Sand, other than asbestos, bird, iron, monazite, processed or tobacco sand
Scrap iron
Scrap steel
Shells, clam, mussel or oyster

Slag, other than slag with commercial value for the further extraction of metals
Slate, crushed or scrap
Soil, earth or marl, other than infusorial, diatomaceous, tripoli, or inoculated soil or earth
Stone, unglased and unmanufactured, including ground agricultural limestone
Sugar beet pulp
Sugar beets
Waste, liquid and solid
Water, other than mineral or prepared water
Other materials or commodities, of low value, upon specific application to and approval by the commission.

History: 1954 ACS 66, p. 43, Eff. June 1, 1971.

R 460.15033 Liability to third persons.

Rule 33. All carriers shall secure and keep in force a public liability and property damage insurance policy for the protection of persons other than its passengers in amounts ordered by the commission. The minimum amounts of the policy shall be as follows:

$100,000.00	1 person liability
300,000.00	all persons liability
50,000.00	property damage

History: 1954 ACS 66, p. 44, Eff. June 1, 1971.

R 460.15035 Uniform indorsements.

Rule 35. An insurer of motor carriers shall attach to and make a part of each policy, issued by it to cover obligations imposed upon motor carriers by the motor carrier act, the uniform indorsements on forms approved or provided by the commission for cargo insurance policies and for public liability and property damage policies.

History: 1954 ACS 66, p. 44, Eff. June 1, 1971.

R 460.15036 Authentication of policies and notices of cancellation.

Rule 36. A policy required to be filed with the commission, and indorsements attached thereto, shall be signed by an authorized agent of the issuing insurance company. The insurance policy shall be a certified copy of the policy delivered to the insured. The insurance company shall notify the commission and the policyholder by registered mail 10 days before any policy executed in behalf of a carrier subject to the jurisdiction of the commission is to expire by way of cancellation or limitation.

History: 1954 ACS 66, p. 44, Eff. June 1, 1971.

R 460.15038 Self-insurance.

Rule 38. (1) Application, upon forms prescribed by the commission, may be filed by a motor carrier of passengers or property for authority to qualify as a self-insurer. The application may be approved after hearing, in amounts no lower than those prescribed in R 460.15031 and R 460.15033 if the applicant has furnished a true and accurate statement of its financial condition, and any other evidence deemed necessary to adequately protect the public, which establishes to the satisfaction of the commission the ability of the motor carrier to satisfy contingent obligations for personal injury, public liability, property damage or cargo liability without affecting the stability or permanency of the business of the

motor carrier. Appropriate approval to self-insure shall be in lieu of an insurance policy and satisfy the rules of the commission otherwise applicable.

(2) A carrier holding authority to self-insure shall furnish the commission additional statements of financial condition and other information when required by the commission.

History: 1954 ACS 66, p. 44, Eff. June 1, 1971.

PART 4. IDENTIFICATION OF VEHICLES

R 460.15041 Issuance and attachment to vehicles.

Rule 41. The commission shall issue proper and sufficient identification for each self-propelled motor vehicle operated under authority of the commission. The identification shall be attached in a conspicuous location upon the front of a tractor and truck and upon the rear of a bus and shall remain upon the vehicle for which issued until the vehicle is removed from service and the commission advised accordingly.

History: 1954 ACS 66, p. 44, Eff. June 1, 1971.

R 460.15042 Plates.

Rule 42. (1) Upon issuance of a certificate, permit or registration, the commission shall issue a metal plate for each self-propelled motor vehicle covered by the certificate, permit or registration. The plate shall be attached in a conspicuous location upon the front of a tractor and truck and upon the rear of a bus. The plate shall remain upon the vehicle for which issued at all times unless application has been made to the commission for permanent retirement of the vehicle from operation or in case the vehicle is undergoing repairs necessitating the removal.

(2) The commission may exempt a vehicle engaged in interstate commerce from the requirements of this rule and R 460.15043.

(3) A plate shall expire automatically on December 31 of the year for which the plate was issued.

(4) The loss or destruction of a plate shall be reported to the commission. A substitute plate may be obtained upon making proper application upon forms furnished by the commission and payment of a fee of $2.00.

History: 1954 ACS 66, p. 44, Eff. June 1, 1971.

R 460.15043 Cards.

Rule 43. (1) A separate card will be issued for each self-propelled motor vehicle covered by a certificate, permit or registration. The card shall be carried with the vehicle for which it is issued to permit it to be easily inspected.

(2) In case of loss or destruction of a card, a substitute card may be obtained upon making proper application upon forms furnished by the commission and payment of a fee of $1.00.

History: 1954 ACS 66, p. 45, Eff. June 1, 1971.

R 460.15045 Names and accounting numbers.

Rule 45. (1) The name and address of the motor carrier shall be placed in a conspicuous place on both sides of its power vehicle in plain letters and numbers not less than 3 inches in height and affixed to a permanent part of the vehicle.

(2) A vehicle shall be given a separate accounting number. The number shall be placed on both sides of the power vehicle in a conspicuous place in plain numbers not less than 3 inches in height.

(3) The letters M.P.S.C. and the file number of the motor carrier shall be placed in a conspicuous place on both sides of the power vehicle in plain letters and numbers not less than 1 and ½ inches in height.

(4) The numbers and letters shall thereafter remain upon the vehicle so long as it is operated under jurisdiction of the commission.

History: 1954 ACS 66, p. 45, Eff. June 1, 1971.

R 460.15046 Summary of authority.

Rule 46. Effective with the date of this rule no self-propelled motor vehicle shall be operated under any certificate, permit or registration issued by the commission unless the motor vehicle shall at all times have in the cab thereof an approved summary of the operating authority of the motor carrier as issued and supplied by the commission. The summary shall be kept in a clean and legible condition at all times.

History: 1954 ACS 66, p. 45, Eff. June 1, 1971.

R 460.15048 Added equipment.

Rule 48. The operation of added equipment shall not begin, and added equipment shall not be placed in service, until identification has been issued and attached to the vehicle.

History: 1954 ACS 66, p. 45, Eff. June 1, 1971.

PART 5. TRANSFER OF CERTIFICATES, PERMITS, AND EQUIPMENT

R 460.15051 Applications; fees; statements as to claims.

Rule 51. When there is to be a transfer of ownership of a certificate or permit, application shall be filed with the commission. A filing fee, together with either of the following statements shall accompany the application:

(a) A statement containing the written undertaking of the transferee, duly signed, witnessed and acknowledged and sworn to before a notary public or other officer empowered to administer oaths, assuming the liability of the transferor and agreeing to pay all claims against the transferor as of the date of the commission's order approving the transfer.

(b) A statement of all claims against the transferor of which he has either knowledge or notice at the time of the filing of the application for approval of the transfer. The statement shall set forth the name of each claimant, his last known address, the amount of the claim and whether the transferor disputes all or part of the claim. It shall be subscribed and sworn to by the transferor before a notary public or other officer empowered to administer oaths. The transferor shall give reasonable notice to all claimants of filing of the application for approval of the transfer and the statement shall clearly describe the method used in notifying claimants. The statement shall contain a full description of the consideration for the agreement to transfer, and when the consideration for the agreement is the payment of money in whole or in part, a consent to a deposit with an escrow agent of the moneys or securities received. If the consideration exceeds the total amount of the claims, the statement shall contain a consent to deposit the part thereof necessary to assure payment of the claims. At any hearing which may be necessary on the application for approval of the transfer, the commission shall determine whether an escrow agent should be appointed and what terms and conditions should be imposed by the agreement. The purpose of the escrow shall be to afford an opportunity for claimants to have claims adjudicated and paid.

R 460.15052 Claims defined.

Rule 52. "Claims" means unpaid claims of shippers arising out of the transferor's failure and neglect to collect and pay over C.O.D. moneys and claims for damages where goods have been damaged after delivery to the transferor and before delivery to the consignee, by a person or persons including other carriers, for whose action the transferor may be liable.

History: 1954 ACS 66, p. 46, Eff. June 1, 1971.

R 460.15053 Notices and hearings on transfers.

Rule 53. Upon filing an application for transfer, notice of filing will be published in the commission's biweekly information bulletin. If no protest is filed within 10 days after the publication date, the application may be acted upon without hearing. If a protest setting forth valid reasons therefor is timely filed, the commission may schedule the application for hearing.

History: 1954 ACS 66, p. 46, Eff. June 1, 1971.

R 460.15054 Approval and consummation of transfers.

Rule 54. (1) An application shall be approved if it appears that the proposed transferee is fit, willing and able to perform the service authorized by the operating rights sought to be transferred, that the rights of claimants against the transferor have been considered, and that the provisions of the motor carrier act and the rules of the commission have been complied with. Otherwise, the application shall be denied.

(2) When a transfer is approved, the parties shall consummate the transfer at any time within 30 days after service of the commission order, unless extended by commission order. The parties shall advise the commission in writing of the date of consummation.

History: 1954 ACS 66, p. 46, Eff. June 1, 1971

R 460.15056 Change of names.

Rule 56. A motor carrier shall not change its name without filing the proper application and receiving commission approval.

History: 1954 ACS 66, p. 46, Eff. June 1, 1971.

R 460.15058 Emergency substitution of equipment.

Rule 58. (1) An emergency is considered to exist for the purpose of this rule, when by reason of breakdown or an unusual temporary demand for transportation, a motor carrier finds it necessary to provide additional motor vehicles for a limited period.

(2) Upon request by a motor carrier, accompanied by payment of $3.00 per card, the commission may issue prenumbered special identification cards to the carrier with no refund for unused cards.

(3) When a motor carrier is required by an emergency to use equipment not bearing commission identification plates, the motor carrier, in ink or by typewriter, shall enter upon a special identification card duly issued to the motor carrier, the date on which the equipment is to be used, the description and identification of the equipment in the manner indicated on the form of the card prescribed by the commission. The motor carrier, officer, agent or employee of the motor carrier who authorizes use of the card shall sign the card. The cards so filled out shall be placed and kept in the equipment during the use thereof.

(4) A card shall not be used for more than 24 hours. If the emergency requires the use of the equipment for a longer period, a new card shall be issued for each day the vehicle is in use. Immediately after use of an emergency card, it shall be returned to the commission with a written report of the reason for the use.

(5) The commission shall be the sole judge of the extent to which a motor carrier may use emergency equipment and special identification cards and reserves the power to deny or curtail their use and to require the motor carrier to register additional vehicles.

(6) A vehicle operating under a special identification card shall be under the control and direction of the motor carrier issuing the card and shall be used only within the scope of the authority of that motor carrier. A card may not be used to effect a tacking or interlining of 2 authorities.

History: 1954 ACS 66, p. 46, Eff. June 1, 1971.

PART 6. LEASING, CHARTERS, AND INTERLINE ARRANGEMENTS

R 460.15061 Leasing.

Rule 61. The leasing of a motor vehicle for transportation of property or persons to a person other than to a regulated carrier is prohibited as a "device or arrangement" as defined in subsection (o) of section 1 of article 1 of the motor carrier act, constituting an evasion of that act unless the parties to the lease conduct their operation according to the terms of the lease agreement, which shall be in writing and provide that the vehicle shall be operated by the lessee or an employee thereof and the operation and use of the vehicle shall be subject to lessee's supervision, direction and control for the full period of the lease. The lessor or any employee of the lessor shall not qualify as an employee of the lessee.

History: 1954 ACS 66, p. 47, Eff. June 1, 1971.

R 460.15063 Charter or special coach operations.

Rule 63. (1) "Charter" or "special coach business" means transportation of a group of persons with a common purpose and under a single contract, requiring the exclusive use of a passenger carrying vehicle to travel to a particular destination or destinations.

(2) A common carrier of passengers shall not do a charter or special coach business of transporting chartered parties between the same points or over the same routes so frequently as to constitute a regular service.

(3) A common carrier of passengers shall not transport a group of passengers to whom individual tickets have been sold or with whom separate or individual transportation arrangements have been made from or to any point or points except those upon its regular route or routes.

(4) A common carrier of passengers authorized to perform seasonal operations over regular routes may not do a charter or special coach business except during the period in which such regular route operation may be performed.

History: 1954 ACS 66, p. 47, Eff. June 1, 1971.

R 460.15065 Interline tickets.

Rule 65. Where 2 or more common carriers of passengers cannot agree to the establishment of interline ticket arrangements, the commission, upon proper petition being filed, shall conduct an investigation. If justified, the commission shall prescribe interline ticket arrangements for use between the carriers. The commission shall consider whether the carriers involved have in effect a system of accounting which will permit easy checking and accounting for revenues and expenditures in connection with the interline ticket arrangement.

History: 1954 ACS 66, p. 47, Eff. June 1, 1971.

R 460.15067 Through rates.

Rule 67. Where 2 or more common carriers cannot agree to the establishment of through joint rates, the commission, upon proper petition being filed, shall conduct an investigation. If justified, the commission shall prescribe through joint rates for application by the carriers. The commission shall consider whether the carriers involved have in effect a system of accounting which will permit easy checking and accounting for revenues and expenditures in connection with through joint rates.

History: 1954 ACS 66, p. 47, Eff. June 1, 1971.

PART 7. TIME TABLES, ROUTES, AND TARIFFS

R 460.15071 Time table contents and posting.

Rule 71. (1) A common carrier of passengers shall file with the commission a time table showing the time of arrival and departure of its buses at each regular station or stop, and the number of trips to be made daily over each route. A time table shall bear a number printed in bold type on the upper left-hand corner of the title page. Editions of time tables shall be numbered consecutively. A time table shall bear an issuing date and an effective date.

(2) A copy of the time table shall be posted in a conspicuous place in each waiting room of the carrier.

History: 1954 ACS 66, p. 47, Eff. June 1, 1971.

R 460.15072 Time table changes.

Rule 72. (1) A notice of a change in a time table shall be filed with the commission and be posted, as required at least 10 days before a change is to be effective. The commission may order changes to be made upon shorter notice. A change in or addition to a time table shall be made by reissuing or supplementing the time table. A new time table superseding a previous time table shall cancel the previous time table.

(2) Where more than 1 common carrier of passengers operate over a route or part of a route, no change shall be made in the time table of any competing carrier except upon filing with each competitor and connecting carrier, at least 10 days in advance of the effective date of the change, a copy of the schedule, and filing with the commission proof that a copy has been served upon each competitor and connecting carrier. The commission may order changes to be made upon shorter notice. Upon complaint or by its own action, the commission may change or adjust the schedules as necessary in the public interest.

History: 1954 ACS 66, p. 47, Eff. June 1, 1971.

R 460.15074 Detours.

Rule 74. (1) A carrier shall not allow its motor vehicles to be operated over any route other than that prescribed in its certificate or permit without express consent of the commission, unless the prescribed route is blocked or otherwise rendered temporarily impassable.

(2) Where the route or part of the route of the motor carrier is closed by a public authority, the detour prescribed by the public authority shall become the authorized route of the carrier until the regular route is reopened for public travel, unless otherwise ordered by the commission.

History: 1954 ACS 66, p. 48, Eff. June 1, 1971.

R 460.15075 Governmental changes in highways.

Rule 75. (1) When a route of a motor carrier is slightly changed or relocated, but does not serve new territory, the motor carrier may travel on the new route without application to or order by the commission. When the highway a motor carrier is entitled to travel is changed to include territory not served by the motor carrier, the motor carrier shall not travel the new route until authority is granted to it on application to and order by the commission.

(2) The changing of the number of a highway by a governmental authority shall not affect the rights of a carrier. If the number of a highway is given to another highway, the motor carrier has no right to travel the newly numbered highway, but has the right to travel the route originally granted.

(3) When the location or designation of a route in a certificate or permit is changed by a governmental authority, the certificate or permit holder in its next application for renewal shall indicate the changes by a precise statement showing the official designations of the route before and after the change, and precisely describe any change in location of the designated route which has occurred.

History: 1954 ACS 66, p. 48, Eff. June 1, 1971.

R 460.15077 Tariffs.

Rule 77. A motor carrier shall file with the commission tariffs showing all rates and fares, charges, rules, regulations, classification and practice governing the transportation of persons or property transported under its authority. Separate tariffs shall be filed covering passenger fares and freight rates. The tariffs shall be published, filed and posted in the form and manner prescribed by the commission in its motor carrier tariff circulars.

History: 1954 ACS 66, p. 48, Eff. June 1, 1971.

R 460.15078 Suspension of tariffs.

Rule 78. A petition for suspension of tariffs shall indicate the tariffs affected by commission number, specifically refer to the items against which protest is made, and state the grounds for protest. A suspension of tariffs will not ordinarily be considered unless a petition for suspension is made in writing at least 10 days before the effective date of the tariffs. Five copies of the petition shall be filed.

History: 1954 ACS 66, p. 48, Eff. June 1, 1971.

PART 8. SHIPPING DOCUMENTS AND PAYMENT OF FREIGHT CHARGES

R 460.15081 Shipping documents.

Rule 81. (1) A motor carrier receiving property for transportation between points on its routes and a shipper tendering property for transportation shall execute a contract consistent with the motor carrier act and the rules of the commission.

(2) A vehicle operated by a motor carrier shall be accompanied by the carrier's bill of lading (or copy thereof), manifest, travel order or freight bill, which, individually or collectively, shall contain the following information: consignor, consignee, commodity, origin, destination and quantity or other unit described in the carrier's currently effective tariff.

History: 1954 ACS 66, p. 48, Eff. June 1, 1971.

R 460.15082 Freight bills; contents.

Rule 82. Upon payment of freight charges, a motor carrier, on request, shall surrender to the person paying the charges the original freight bill and shall indicate thereon the receipt of all charges paid and the date of payment. No

specific form is prescribed, but the bill when presented shall show the following information respecting the shipments covered thereby:

(a) Point of origin.
(b) Shipper.
(c) Destination.
(d) Consignee.
(e) Name of transfer point or points, and name or initial of each motor carrier participating in the haul, in a joint line.
(f) Date of shipment.
(g) Weight or quantity of shipment or other unit corresponding to carrier's tariff.
(h) Proper description of the property transported.
(i) Rates applied for the service.
(j) Any other charge incidental to the transportation.

History: 1954 ACS 66, p. 49, Eff. June 1, 1971.

R 460.15084 Collect on delivery charges (C.O.D.).

Rule 84. (1) A common motor carrier of property shall remit each C.O.D. collection directly to the consignor or other person designated by the consignor as payee promptly and within 10 days after delivery of the C.O.D. shipment to the consignee. If the C.O.D. shipment moves in interline service, the delivering carrier, at the time of remittance of the C.O.D. collection to the consignor or payee, shall notify the originating carrier of the remittance.

(2) A common carrier of property handling C.O.D. shipments as a delivering carrier shall maintain a record of C.O.D. shipments received for delivery in such manner and form as will plainly and readily show the following information with respect to each shipment:

(a) Number and date of freight bill.
(b) Name and address of shipper or other person designated as payee.
(c) Name and address of consignee.
(d) Date shipment delivered.
(e) Amount of C.O.D.
(f) Date collected by delivering carrier.
(g) Date remitted to payee.
(h) Check number or other identification of remittance to payee.

History: 1954 ACS 66, p. 49, Eff. June 1, 1971.

R 460.15085 Credit for freight charges.

Rule 85. Upon taking precautions deemed by a common motor carrier to be sufficient to assure payment of the tariff charges within the credit period, it may relinquish possession of freight in advance of payment of charges and may extend credit in the amount of the charges to shippers for 7 days, excluding Saturdays, Sundays and legal holidays. When the freight bill covering a shipment is presented to the shipper on or before the day of delivery, the credit period shall run from the first 12 o'clock midnight following delivery of the freight. When the freight bill is not presented to the shipper on or before the date of delivery, the credit period shall run from the first 12 o'clock midnight following presentation of the freight bill.

History: 1954 ACS 66, p. 49, Eff. June 1, 1971.

R 460.15086 Credit for additional charges after freight relinquished.

Rule 86. When a common motor carrier has relinquished possession of freight and collected the tariff charges presented by it as the total amount of such

charges, and another freight bill for additional freight charges is thereafter presented to the shipper, the motor carrier may extend credit in the amount of the additional charges for 30 calendar days, to be computed from the first 12 o'clock midnight following presentation of the subsequently presented freight bill.

History: 1954 ACS 66, p. 49, Eff. June 1, 1971.

R 460.15088 Presentation and payment of freight bills.

Rule 88. (1) A freight bill for transportation charges shall be presented to a shipper within 7 calendar days after the first 12 o'clock midnight following delivery of the freight. When a freight bill is presented by United States mail, the postmark shall be considered to be the time of presentation of the bill.

(2) Mailing by a shipper of a valid check, draft or money order, which is satisfactory to the motor carrier, in payment of freight charges within the credit period constitutes collection of the charges within the credit period. The postmark shall be considered as the time of mailing.

History: 1954 ACS 66, p. 50, Eff. June 1, 1971.

PART 9. EQUIPMENT AND FACILITIES

R 460.15091 Condition and inspection of equipment.

Rule 91. Equipment used in the transportation of passengers or property for hire shall be kept in a sanitary and safe condition at all times, and shall be subject to inspection at all reasonable times by inspectors of the commission.

History: 1954 ACS 66, p. 50, Eff. June 1, 1971.

R 460.15092 Heaters.

Rule 92. A motor vehicle shall not be heated by means of a device employing fire or flame, except a carrier of property may use a heating device employing fire or flame in a motor vehicle where it is shown that such heating device is of safe construction and so placed or affixed as not to constitute a fire hazard under ordinary road service conditions. A motor vehicle may use combustion type heaters approved by underwriters' laboratories, inc.

History: 1954 ACS 66, p. 50, Eff. June 1, 1971.

R 460.15093 Windshields.

Rule 93. A motor vehicle windshield shall be free of discoloration or other damage in that portion extending upward from the height of the topmost portion of the steering wheel, but not including a 2-inch border at the top and 1-inch border at each side of the windshield or each panel thereof, except that discoloration and damage are allowable as follows:

(a) Coloring or tinting applied in manufacture, for reduction of glare.

(b) A crack not over ¼ inch wide, if not intersected by another crack.

(c) A damaged area which can be covered by a disc ¾ inch in diameter, if not closer than 3 inches to another damaged area.

History: 1954 ACS 66, p. 50, Eff. June 1, 1971.

R 460.15094 Exit doors.

Rule 94. A passenger vehicle shall have an emergency door at the rear or rear left side, or, in lieu thereof, shall be provided with emergency escape push-out or kick-out windows. The windows shall be in the form of a parallelogram having dimensions of not less than 18 inches by 24 inches, and shall contain an area of not less than 400 square inches. There shall be a sufficient number of push-out or kick-out windows in each vehicle to provide at least 67 square inches of escape area per seat, including the driver's seat, and not less than 40% of the total area shall

be on 1 side of the vehicle. The emergency escape push-out or kick-out windows shall be conspicuously marked by sign or light, and shall always be kept in good working order so passengers may readily escape through the windows in an emergency.

History: 1954 ACS 66, p. 50, Eff. June 1, 1971.

R 460.15095 Tires.

Rule 95. A motor vehicle shall not be operated on tires which have been worn so smooth as to expose any tread fabric or which have a defect likely to cause failure. A bus shall not be operated on a tire which does not have tread configurations on that part of the tire which is in contact with the road surface. A bus shall not be operated with regrooved, recapped or retreaded tires on the front wheels.

History: 1954 ACS 66, p. 50, Eff. June 1, 1971.

R 460.15096 Lights.

Rule 96. Lights required to be displayed by law or these rules shall not be obscured at any time.

History: 1954 ACS 66, p. 50, Eff. June 1, 1971.

R 460.15097 Speedometers.

Rule 97. A motor vehicle shall be equipped with a speedometer indicating vehicle speed in miles per hour and which shall be operative with reasonable accuracy.

History: 1954 ACS 66, p. 50, Eff. June 1, 1971.

R 460.15098 Floors.

Rule 98. The flooring in a motor vehicle shall be substantially constructed, free of unnecessary holes and openings, and shall be maintained so as to minimize the entrance of fumes, exhaust gases or fire. A floor shall not be permeated with oil or gasoline, and shall have the interior surface in good condition.

History: 1954 ACS 66, p. 51, Eff. June 1, 1971.

R 460.15101 Shifting cargo protection.

Rule 101. A motor vehicle carrying cargo such as beams, pipes, sheet steel and heavy rolls which are subject to shifting and could penetrate or crush the driver's compartment, in addition to having the load securely fastened or braced, shall be provided with header boards or similar devices of sufficient strength to prevent shifting and penetration. A motor vehicle shall be so constructed or be equipped with adequate cargo fastening devices so the load will not penetrate the cargo compartment wall when subjected to maximum braking deceleration of which the vehicle is capable.

History: 1954 ACS 66, p. 51, Eff. June 1, 1971.

R 460.15103 Bus driveshaft protection.

Rule 103. A driveshaft extending lengthways under the floor of the passenger compartment of a bus, except a bus having a seating capacity of 8 or fewer persons, shall be protected by means of at least 1 guard or bracket at that end of the shaft which is provided with a sliding connection (spline or other such device) to prevent the whipping of the shaft in case of failure thereof or of any of its component parts. A shaft contained within a torque tube shall not require any device.

R 460.15104 Standee line or bar in buses.

Rule 104. A bus designed and constructed to allow standees shall be plainly marked with a line of contrasting color at least 2 inches wide or equipped with some other means to indicate to a person that he is prohibited from occupying a space forward of a perpendicular plane drawn through the rear of the driver's seat and perpendicular to the longitudinal axis of the bus. A bus shall have clearly posted at or near the front, a sign with letters at least ½ inch high stating that it is a violation of rules for a bus to be operated with a person occupying the prohibited area. The requirement of this rule does not apply to a bus being transported in driveaway-towaway operation or to a level of the bus other than the level in which the driver is located nor shall it be construed to prohibit any seated person from occupying permanent seats located in the prohibited area if the seats are so located that persons sitting therein will not interfere with the driver's safe operation of the bus.

History: 1954 ACS 66, p. 51, Eff. June 1, 1971.

R 460.15105 Aisle seats in buses.

Rule 105. A bus, except a bus having a seating capacity of 8 or fewer persons, shall not be equipped with aisle seats unless the seats are so designed and installed as to automatically fold and leave a clear aisle when they are unoccupied. A bus shall not be operated if any seat therein is not securely fastened to the vehicle. This section does not apply to a bus while engaged exclusively in transportation of agricultural workers in charter transportation if the bus carries not to exceed 8 passengers on temporary folding seats located in the center aisle.

History: 1954 ACS 66, p. 51, Eff. June 1, 1971.

R 460.15106 Fifth wheel mounting and locking.

Rule 106. (1) The lower half of every fifth wheel mounted on a truck-tractor or dolly shall be securely affixed to the frame thereof by U-bolts of adequate size, securely tightened, or by other means providing at least equivalent security. The U-bolts shall not be of welded construction. The installation shall not cause cracking, warping or deformation of the frame. Adequate means shall be provided to positively prevent the shifting of the lower half of a fifth wheel on the frame to which it is attached.

(2) The upper half of every fifth wheel shall be fastened to the motor vehicle with at least the security required for the securing of the lower half to a truck-tractor or dolly.

(3) Locking means shall be provided in every fifth wheel mechanism, including adapters when used, so that the upper and lower halves may not be separated without operation of a positive manual release. A release mechanism operated by the driver from the cab will meet this requirement. On a fifth wheel designed and constructed as to be readily separable, the fifth wheel locking device shall apply automatically on coupling.

History: 1954 ACS 66, p. 51, Eff. June 1, 1971.

R 460.15107 Fifth wheel locations.

Rule 107. (1) The lower half of a fifth wheel shall be so located that, for any condition of loading, the relationship of the position of the kingpin to the rear axle or axles of the towing motor vehicle results in proper distribution of the total gross weight on the motor vehicles to the axles and does not unduly interfere with the steering, braking or maneuvering of the towing motor vehicle, or otherwise contribute to unsafe operation of the motor vehicles comprising the combination.

(2) The upper half of a fifth wheel shall be so located as to accomplish proper distribution of weight to the axles and safe movement of the combination of motor vehicles in all turning maneuvers.

History: 1954 ACS 66, p. 52, Eff. June 1, 1971.

R 460.15108 Explosives and dangerous articles.

Rule 108. A carrier transporting explosives and dangerous articles shall comply with the provisions of dangerous articles, tariff no. 13 and supplements and reissues thereof as published by American trucking associations, inc., agent.

History: 1954 ACS 66, p. 52, Eff. June 1, 1971.

R 460.15109 Fire extinguishers.

Rule 109. At least 1 fire extinguisher shall be carried on a motor vehicle and have physical characteristics and fire extinguishing ability equivalent to or better than fire extinguishers which qualify under classification B of the standards of underwriters' laboratories, inc. The extinguisher shall use an extinguishing agent which does not need protection from freezing and shall be properly filled and securely mounted in a bracket. The minimum size shall be a 4-pound, dry-chemical type, or an extinguisher of another type having equivalent capacity. A motor vehicle used for transportation of passengers shall not use a type of fire extinguisher or fire extinguishing device prohibited by section 21a of Act No. 207 of the Public Acts of 1941, as amended, being §29.21a of the Michigan Compiled Laws. A passenger carrying vehicle having a seating capacity of 8 or fewer persons shall carry a dry chemical fire extinguisher of not less than 2¼-pound capacity.

History: 1954 ACS 66, p. 52, Eff. June 1, 1971.

R 460.15111 Warning devices; kinds.

Rule 111. (1) A motor vehicle shall not be operated over the highways of this state at any time without carrying in an accessible place 1 of the following combinations of warning devices:

(a) Three liquid burning emergency flares which satisfy the requirements of SAE Standard J597, "Liquid Burning Emergency Flares," and 3 fusees and 2 red flags.

(b) Three electric emergency lanterns which satisfy the requirements of SAE Standard J596, "Electric Emergency Lanterns," and 2 red flags.

(c) Three red emergency reflectors and 2 red flags.

(d) Three red emergency reflective triangles.

(2) In the alternative it shall be deemed a compliance with this rule if the person operating a motor vehicle carries in the vehicle 3 portable reflector units or 3 red emergency reflective triangles on standards of an approved type.

(3) A portable reflector unit shall not be approved unless it is so designed and constructed that it will reflect red light clearly visible for a distance of at least 300 feet under normal atmospheric conditions at nighttime when directly in front of lawful upper beams of head lamps.

History: 1954 ACS 66, p. 52, Eff. June 1, 1971.

R 460.15112 Warning devices; display at time of disablement.

Rule 112. Warning devices shall be displayed as follows:

(a) A lighted fusee shall be immediately placed on the roadway at the traffic side of the motor vehicle unless electric lanterns are displayed.

Digitized by Google
Original from UNIVERSITY OF MINNESOTA

(b) Within the burning period of the fusee and as promptly as possible 3 lighted flares (pot torches) or 3 electric lanterns shall be placed on the roadway as follows:

(i) One at a distance of approximately 100 feet in advance of the vehicle.

(ii) One at a distance of approximately 100 feet to the rear of the vehicle each in the center of the lane of traffic occupied by the disabled vehicle.

(iii) One at the traffic side of the vehicle approximately 10 feet rearward or forward thereof.

History: 1954 ACS 66, p. 52, Eff. June 1, 1971.

R 460.15113 Warning devices for vehicles transporting inflammables.

Rule 113. (1) When a vehicle used in the transportation of inflammable liquids in bulk, or transporting compressed inflammable gases is disabled upon a highway, the driver of the vehicle shall display upon the roadway the following lighted warning devices:

(a) One red electric lantern shall be immediately placed on the roadway at the traffic side of the vehicle.

(b) Two other red electric lanterns shall be placed to the front and rear of the vehicle in the same manner prescribed for flares.

(2) When a vehicle of a type specified in subrule (1) is disabled, the use of flares, fusees or any signal produced by flame as a warning signal is prohibited.

History: 1954 ACS 66, p. 53, Eff. June 1, 1971.

R 460.15114 Flags.

Rule 114. When a motor vehicle of a type referred to in R 460.15112 and R 460.15113 is disabled upon the traveled portion of a highway or the shoulder thereof, outside of a municipality at any time when the display of fusees, flares or electric lanterns is not required, the driver of the vehicle shall display 2 red flags upon the roadway in the lane of traffic occupied by the disabled vehicle, 1 at a distance of approximately 100 feet in advance of the vehicle, and 1 at a distance of approximately 100 feet to the rear of the vehicle.

History: 1954 ACS 66, p. 53, Eff. June 1, 1971.

R 460.15115 Reflector units.

Rule 115. In the alternative it shall be deemed compliance with R 460.15112 to R 460.15114 if 3 portable reflector units on standards of an approved type are displayed at the times and under the conditions specified either during the daytime or at nighttime. The portable reflector units shall be placed on the roadway in the locations prescribed for the placing of electric lanterns and lighted flares.

History: 1954 ACS 66, p. 53, Eff. June 1, 1971.

R 460.15116 First aid kits.

Rule 116. On a passenger-carrying vehicle subject to commission regulations there shall be 1 first aid kit complying with the following:

(a) The kit shall be of heavy duty 10-unit type or larger.

(b) The case and the cover shall be substantially constructed of sheet steel, wood, fiber or other durable material. If made of sheet steel, the case and cover shall be of metal at least number 24 U.S. gage (nominal).

(c) The case and cover shall be so constructed, including corners, covers and closure means, that it shall be reasonably dust and weather proof when the cover is in the closed position, or the kit shall be mounted in a protected location within the passenger compartment and be reasonably dust and weather proof.

(d) If made of sheet steel or other metal, the case shall be designed and constructed so the cover may be easily opened to an angle of 90 degrees to 100 degrees with the case and a substantial stop shall be provided at the angle of full opening. The stop shall not interfere with smooth operation of the cover.

(e) If made of metal, the cover shall be attached to the case by at least 2 substantial hinges or by a continuous piano-type hinge. If nonmetallic, the cover shall be attached by either a sliding or hinged joint. If hinged, it shall be as prescribed for metallic construction.

(f) The dimensions of the case shall permit the contents to be easily extracted and yet maintain the contents in a relatively fixed position.

History: 1954 ACS 66, p. 53, Eff. June 1, 1971.

R 460.15117 First aid kit contents.

Rule 117. (1) The first aid kit shall contain at least the contents prescribed in not less than the quantities prescribed, in either of the 2 following types of kits:

(a) Unit type kit

4-inch bandage compress	1 package
2-inch bandage compress	1 package
1-inch adhesive compress	2 packages
40-inch triangular bandage with 2 safety pins	1 package
Burn ointment	1 package
Iodine applicator or applicator of other antiseptic solutions of, at least, equivalent bacteriological properties	1 package
Wire or wood splint	1 package
Tourniquet	1 package

(b) Commercial type unit

3-inch by 3-inch sterile gauze pads	package of 12
Gauze bandages as follows (each package opened to be replaced by unopened package):	
1-inch by 10 yards	3 packages
2-inch by 10 yards	2 packages
3-inch by 10 yards	1 package
¾-inch adhesive compress	package of 24
1-inch by 2½ yards adhesive tape	1 roll
40-inch triangular bandage with 2 safety pins	1 package
Burn ointment	1-ounce tube
Iodine applicator or applicator of other antiseptic solution of, at least, equivalent bacteriological properties	1 package
Wire or wood splint	1 package
Tourniquet	1 package
Scissors	1

(2) A kit shall be provided with instructions for the use of the contents. The contents of the kit shall conform either to the requirements contained in federal specification GG-K-391(a) (October 19, 1954), as amended March 3, 1959, or the standards as found in the fifteenth revision of the pharmacopoeia of the United States and supplement no. 2 thereof dated September 1, 1958, except the 40-inch triangular bandage in the commercial type kit may be nonsterile and not compressed in the required manner if the package containing it clearly indicates the contents are not sterile, and except no specification type scissor is required. Federal specification GG-K-391(a) and amendments may be obtained from the Superintendent of Documents, Washington 25, D.C.

R 460.15119 Passenger terminals.

Rule 119. Motor carriers of passengers providing terminals shall keep them in a clean and sanitary condition with adequate washroom facilities, heat, and light and free of vermin and litter.

History: 1954 ACS 66, p. 54, Eff. June 1, 1971.

PART 10. OPERATION OF VEHICLES

R 460.15121 Driver's physical condition.

Rule 121. (1) A driver shall not drive or be required or permitted to drive a motor vehicle while his ability or alertness is so impaired through fatigue, illness or any other cause as to make it unsafe for him to begin or continue to drive.

(2) A driver shall not drive or be required or permitted to drive a motor vehicle, be in active control of a vehicle, or go on duty or remain on duty, when under the influence of an alcoholic beverage or liquor, regardless of its alcoholic content, nor shall a driver drink such a beverage or liquor while on duty.

(3) A driver of a passenger vehicle shall not smoke a cigar, cigarette, tobacco or other substance in the vehicle while he is driving.

History: 1954 ACS 66, p. 54, Eff. June 1, 1971.

R 460.15122 Driver distractions and interference.

Rule 122. (1) A driver while driving a passenger vehicle shall not engage in unnecessary conversation or other activity tending to distract his attention from operation of the vehicle.

(2) A motor vehicle shall not be driven when the load or other object obscures the view ahead, or to the right or left sides, interferes with the free movement of the driver's arms or legs, prevents his free and ready access to the accessories required for emergencies, or prevents the free and ready exit of any person from the cab or driver's compartment.

History: 1954 ACS 66, p. 54, Eff. June 1, 1971.

R 460.15124 Passengers and freight on passenger vehicles.

Rule 124. (1) A passenger vehicle shall not be loaded excessively so as to interfere with the driver's handling of the vehicle.

(2) A passenger vehicle shall not carry more than 1 passenger in the front seat, unless the driver's seat is separated from the front seat of the vehicle, except that where the front seat of the vehicle is 54 inches wide 2 passengers may be carried in the seat, and where the front seat is wider than 54 inches an additional passenger may be carried for each additional 18 inches of width.

(3) A passenger vehicle transporting baggage, express or freight shall not be driven unless the articles are stowed in a manner which will assure:

(a) Unrestricted freedom of motion to the driver for proper operation of the vehicle.

(b) Unobstructed passage to all exits by any person.

(c) Adequate protection to passengers and other persons from injury as a result of the displacement or falling of the articles.

History: 1954 ACS 66, p. 54, Eff. June 1, 1971.

R 460.15126 Miscellaneous provisions.

Rule 126. (1) A motor vehicle shall not be driven unless the tailgate, tailboard, tarpaulins, doors, all equipment and rigging used in the operation of the vehicle, and all means of fastening the load, are securely in place.

(2) A motor vehicle shall not be driven with the source of motive power disengaged from the driving wheels except when the disengagement is necessary to stop or shift gears.

(3) A driver shall not attach or permit any person to attach a lighted fusee or other flame-producing emergency signal to any part of a motor vehicle.

(4) A passenger vehicle shall not be fueled in a closed building with passengers aboard.

History: 1954 ACS 66, p. 55, Eff. June 1, 1971.

PART 11. REPORTS

R 460.15131 Annual and quarterly reports.

Rule 131. (1) On or before March 31 of each year, a motor carrier holding authority from the commission shall file an annual financial report with the commission on duplicate forms to be furnished by the commission. The report shall be prepared from the carrier's books, which shall be kept strictly in accordance with the uniform system of accounts for motor carriers of passengers and property. The report shall cover the last preceding calendar year of the carrier. A fiscal year may be used with prior commission approval. One copy complete in every detail shall be filed with the commission and 1 shall be retained by the carrier as a part of its permanent records. An annual report for a class I or a class II motor carrier shall be filed and verified by a responsible officer having control of the accounts of the carrier. A copy of the carrier's annual report filed with the interstate commerce commission will be accepted as the annual report.

(2) The commission may require class I and class II carriers of passengers and property to file quarterly reports of operating revenues and operating expenses and other data on forms to be furnished by the commission.

History: 1954 ACS 66, p. 55, Eff. June 1, 1971.

R 460.15133 Accident reports.

Rule 133. A motor carrier shall immediately notify the commission of all accidents in which any of its motor vehicles are involved where the accidents result in loss of life or injury to passengers, employees or other persons. Accident reports shall be filed upon forms supplied by the commission, except that a carrier required to file accident reports with a federal agency may file a completed copy of the federal report form.

History: 1954 ACS 66, p. 55, Eff. June 1, 1971.

MOTOR CARRIER SAFETY

(By authority conferred on the public service commission by section 4 of Act No. 181 of the Public Acts of 1963, being §480.14 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 460.16101 Definitions.

Rule 101. As used in these rules:

(a) "Business district" means the territory contiguous to a highway when 50% or more of the frontage thereon for a distance of 300 feet or more is occupied by buildings in use for business.

(b) "Driveaway-towaway operation" means an operation in which 1 or more motor vehicles, new or used, constitute the commodity being transported when 1 or more sets of wheels of any such motor vehicle or motor vehicles are on the roadway during the course of transportation, regardless of whether the motor vehicle being transported furnishes the motive power.

(c) "Driver" means a person who drives a motor vehicle.

(d) "Gross weight" means the combined weight of a motor vehicle and any load thereon.

(e) "Hazardous materials" means all solids, liquids, and gases listed in 49 C.F.R. 172.101.

(f) "Lightweight vehicle" means a motor vehicle that: (i) has a gross vehicle weight of 10,000 pounds or less in the case of a single vehicle, or a gross combination weight of 10,000 pounds or less in the case of an articulated vehicle, or (ii) has a gross weight, including its load and the gross weight of any vehicle being towed by the motor vehicle, of 10,000 pounds or less. The term "lightweight vehicle" does not include a vehicle that is being used to transport hazardous materials of a type or quantity that requires the vehicle to be marked or placarded pursuant to 49 C.F.R. 177.823.

(g) "Logged hours" means the time spent by a driver actually driving a motor vehicle, which time is recorded in the driver's records or his service file.

(h) "Motor carrier" means a carrier of property by motor vehicle, except as otherwise specifically provided.

(i) "Motor vehicle" means a vehicle which is self-propelled or a vehicle which is propelled by electric power obtained from overhead trolley wires, but not operated upon rails.

(j) "Pole trailer" means a vehicle without motive power, possibly of variable wheel base, designed to be drawn by another vehicle and attached to the towing vehicle by means of a "reach" or "pole," or by being "boomed" or otherwise secured to the towing vehicle, and ordinarily used for transporting long or irregular-shaped loads such as poles, pipes, or structural members capable generally of sustaining themselves as beams between the supporting connections.

(k) "Residence district" means the territory contiguous to a highway not comprising a business district when the frontage on such highway for a distance of 300 feet or more is mainly occupied by dwellings or by dwellings and buildings in use for business.

(l) "Semitrailer" means a vehicle with or without motive power, other than a pole trailer, designed for carrying persons or property and for being drawn by a motor vehicle and so constructed that some part of its weight and that of its load rests upon or is carried by another vehicle.

(m) "Trailer" means a vehicle with or without motive power, other than a pole trailer, designed for carrying property or persons and for being drawn by a motor vehicle and so constructed that no part of its weight rests upon the towing vehicle. A semitrailer equipped with an auxiliary front axle, known as a dolly, shall be deemed to be a trailer.

(n) "Truck" means a motor vehicle designed, used, or maintained primarily for the transportation of property.

(o) "Truck tractor" means a motor vehicle designed and used primarily for drawing other vehicles and not so constructed as to carry a load other than a part of the weight of the vehicle and load so drawn.

(p) "Vehicle" means any conveyance of any type whatsoever operated upon the highways.

History: 1954 ACS 94, p. 121, Eff. Jan. 5, 1978.

R 460.16105 Applicability of rules to vehicles used for purposes other than designed.

vehicles operated by a motor carrier to transport its employees to and from their place of work in the regular course of the carrier's business. Likewise, if a motor vehicle of one type is used to perform functions normally performed by a motor vehicle of another type, the requirements of these rules shall apply to that motor vehicle and to its operation in the same manner as though the motor vehicle were actually a motor vehicle of the latter type.

History: 1954 ACS 94, p. 122, Eff. Jan. 5, 1978.

R 460.16110 Observance of duties or prohibitions.

Rule 110. Whenever in these rules a duty is prescribed for a driver or a prohibition is imposed upon a driver the motor carrier shall require observance of that prescription or prohibition. If the motor carrier is a driver, the motor carrier shall likewise be bound thereby.

History: 1954 ACS 94, p. 123, Eff. Jan. 5, 1978.

R 460.16115 Applicability of rules generally.

Rule 115. These rules apply to all carriers of property by motor vehicle.

History: 1954 ACS 94, p. 123, Eff. Jan. 5, 1978.

R 460.16120 Adoption by reference generally.

Rule 120. The standards and federal regulations listed in this rule are incorporated by reference and adopted as a part of these rules. Copies of the adopted standards and regulations are available for inspection and distribution at cost at the offices of the Public Service Commission, 6545 Mercantile Way, P.O. Box 30221, Lansing, Michigan 48909. Copies of adopted standards and regulations may also be obtained as follows:

(a) The following standards may be obtained from the Society of Automotive Engineers, 400 Commonwealth Drive, Warrendale, Pennsylvania 15096 at the stated cost:

(i) SAE Standard J583c, "Fog Lamp," $0.40.

(ii) SAE Standard J579c, "Head Lamps," $0.40.

(iii) SAE Standard J578b, "Color Specifications for Electric Signal Lighting Devices," $0.40.

(iv) SAE Standard J594f, "Reflex Reflectors," 1977. $3.50.

(v) SAE Standard J163, "Cable Terminals," $0.40.

(vi) SAE Standard J1401 formerly SAE 40 R1, "Automotive Brake Hoses," 1952. $0.40.

(vii) SAE Standard J844c, "Air Brake Tubing and Pipe," 1970. $1.20.

(viii) SAE Standard J1401, "Hydraulic Brake Hose," 1967. $0.40.

(ix) SAE Standard J1402b, "Air Brake Hose," 1971. $1.20.

(x) SAE Standard J1403, "Vacuum Brake Hose," 1968. $1.20.

(xi) SAE Standard J476, "Dryseal Pipe Threads," 1971. $8.00.

(xii) SAE Standard J684c, "Trailer Couplings and Hitches—Automotive Type," July, 1970. $0.80.

(xiii) SAE Standard J597, "Liquid Burning Emergency Flares," 1977. $0.40.

(xiv) SAE Standard J596, "Electric Emergency Lanterns," 1977. $0.40.

(b) The following standards may be obtained from the National Fire Protection Association, 470 Atlantic Avenue, Boston, Massachusetts 02210 at the stated cost:

(i) "Standards for the Storage and Handling of Liquefied Petroleum Gases," 1976 edition. $4.25.

PART 2. QUALIFICATIONS OF DRIVERS

R 460.16201 Purpose and scope of rules; compliance.

Rule 201. (1) The rules in this part establish minimum qualifications for persons who drive motor vehicles as, for, or on behalf of motor carriers with respect to the qualifications of their drivers.

(2) The rules in this part, and in other parts of these rules, do not prevent a motor carrier from imposing more stringent or additional qualifications, requirements, examinations, or certificates than are imposed by these rules.

(3) A motor carrier who employs himself as a driver shall comply with both the rules in this part that apply to motor carriers and the rules in this part that apply to drivers.

History: 1954 ACS 94, p. 124, Eff. Jan. 5, 1978.

R 460.16202 Definitions.

Rule 202. As used in this part:

(a) "Employs a person as a driver" means that a motor carrier requires or permits a person to drive a motor vehicle, whether or not the vehicle is owned by the motor carrier, in furtherance of the business of the motor carrier.

(b) "Farm vehicle driver" means a person who drives only a motor vehicle that is controlled and operated by a farmer; not being used in the operations of a common or contract carrier; not carrying hazardous materials of a type or quantity that requires the vehicle to be marked or placarded pursuant to 49 C.F.R. 177.823, but is being used to transport to or from a farm either agricultural products, farm machinery, farm supplies, or both farm machinery and farm supplies.

(c) "Motor carrier" means a motor carrier, as defined in R 460.16101, and the agents, officers, representatives, and employees of a motor carrier who are responsible for the hiring, supervision, training, assignment, or dispatching of drivers.

History: 1954 ACS 94, p. 124, Eff. Jan. 5, 1978

R 460.16203 Knowledge of rules required.

Rule 203. Each motor carrier and each driver shall know, and be familiar with, the rules in this part.

History: 1954 ACS 94, p. 124, Eff. Jan. 5, 1978

R 460.16204 Aiding or abetting violations.

Rule 204. A person shall not aid, abet, encourage, or require a motor carrier or a driver to violate the rules in this part.

History: 1954 ACS 94, p. 124, Eff. Jan. 5, 1978

QUALIFICATION AND DISQUALIFICATION OF DRIVERS

R 460.16205 Qualifications of drivers.

Rule 205. (1) A person shall not drive a motor vehicle unless that person is qualified to drive a motor vehicle. Except as provided in R 460.16222, a motor carrier shall not require or permit a person to drive a motor vehicle unless that person is qualified to drive a motor vehicle.

(2) Except as provided in R 460.16220 to R 460.16223, a person is qualified to drive a motor vehicle if that person:

(a) Is at least 18 years old except as otherwise provided in R 460.16205a below.

(b) Can read and speak the English language sufficiently to converse with the general public, to understand highway traffic signs and signals in the English language, to respond to official inquiries, and to make entries on reports and records.

(c) Can, by reason of experience or training, or both, safely operate the type of motor vehicle which the person drives.

(d) Can, by reason of experience or training, or both, determine whether the cargo the person transports, including baggage in a passenger-carrying vehicle, is properly located, distributed, and secured in or on the motor vehicle which the person drives.

(e) Is familiar with methods and procedures for securing cargo in or on the motor vehicle which the person drives.

(f) Is physically qualified to drive a motor vehicle pursuant to R 460.16215.

(g) Has been issued a currently valid Michigan chauffeur's license or permit.

(h) Has prepared and furnished the motor carrier that employs him with the list of violations or the certificate required by R 460.16210.

(i) Is not disqualified to drive a motor vehicle under R 460.16206.

(j) Has successfully completed a driver's road test and has been issued a chauffeur's license or a certificate of road test which the motor carrier that employs him has accepted as equivalent to a road test pursuant to R 460.16212.

(k) Has taken a written examination and has been issued a certificate of written examination pursuant to R 460.16213, or has been issued a certificate of written examination which the motor carrier that employs him has accepted as equivalent to a written examination pursuant to R 460.16214.

(l) Has completed and furnished the motor carrier that employs him with an application for employment pursuant to R 460.16207.

History: 1954 ACS 94, p. 124, Eff. Jan. 5, 1978.

R 460.16205a Additional qualifications of drivers of hazardous materials in tank vehicles in bulk.

Rule 205a. A driver of a motor vehicle or combination of vehicles with a gross vehicle weight in excess of 40,000 pounds transporting hazardous materials in a tank vehicle or vehicles in bulk shall meet the following additional experience and training qualifications:

(a) Have attained the age of 21.

(b) Have not less than 3,000 logged hours experience driving vehicles with a gross vehicle weight in excess of 40,000 pounds.

(c) If a driver has not less than 3,000 logged hours experience driving motor vehicles with a gross vehicle weight in excess of 40,000 pounds, other than those transporting hazardous materials in a tank vehicle in bulk, and is to be employed driving a truck tractor-semitrailer combination with a gross vehicle weight in excess of 40,000 pounds transporting hazardous materials in a tank vehicle in bulk, the employer shall provide or cause to be provided to such driver not less than 80 hours of training in the operation of a truck tractor-semitrailer combination transporting hazardous material in a tank vehicle in bulk. Not less than 60 hours of such training shall be on the road in a truck tractor-semitrailer tank vehicle and shall be recorded in the driver's service file. The person providing such training shall provide a certificate of training to the driver upon completion of the training period and the employer shall place a photocopy of the certificate in the driver's service file.

(d) If a driver has not less than 3,000 logged hours experience driving truck tractor-semitrailer-trailer combinations other than those transporting hazardous materials in tank vehicles in bulk, and is to be employed driving truck tractor-semitrailer-trailer combinations transporting hazardous materials in tank vehicles in bulk, the employer shall provide or cause to be provided to such driver not less than 80 hours of training in the operation of truck tractor-semitrailer-trailer combinations transporting hazardous materials in tank vehicles in bulk. Not less than 60 hours of such training shall be on the road in a truck tractor-semitrailer-trailer combination of tank vehicles and shall be recorded in the driver's service file. The person providing such training shall provide a certificate of training to the driver upon completion of the training period and the employer shall place a photocopy of the certificate in the driver's service file.

(e) If a driver has not less than 3,000 logged hours experience driving truck tractor-semitrailer combinations or trucks with a gross vehicle weight in excess of 40,000 pounds, whether or not such experience included transporting hazardous materials in a tank vehicle in bulk, and is to be employed driving truck tractor-semitrailer combinations transporting hazardous materials in tank vehicles in bulk,

the employer shall provide or cause to be provided to such driver not less than 120 hours of training in the operation of truck tractor-semitrailer-trailer combinations transporting hazardous materials in tank vehicles in bulk. Not less than 90 hours of such training shall be on the road in a truck tractor-semitrailer-trailer combination of tank vehicles and shall be recorded in the driver's service file. The person providing such training shall provide a certificate of training to the driver upon completion of the training period and the employer shall place a photocopy of the certificate in the driver's service file.

(f) If a driver is a motor carrier he shall be given training by another person who shall provide a certificate of training to the driver upon completion of the training period required under subdivision (c) or subdivision (d) above.

(g) The training set forth in subdivisions (c), (d), and (f) of this rule shall be given by a person who has not less than 3,000 logged hours experience driving truck tractor-semitrailer-trailer combinations and who has at least, as a part of those 3,000 hours or in addition thereto, 400 logged hours experience driving truck tractor-semitrailer-trailer combinations transporting hazardous materials in tank vehicles in bulk.

(h) A driver operating a truck tractor-semitrailer or a truck tractor-semitrailer-trailer transporting hazardous materials in a tank vehicle or vehicles in bulk shall have a certificate of training in his possession while driving the vehicle.

History: 1954 ACS 94, p. 125, Eff. Jan. 5, 1978.

R 460.16206 Disqualification of drivers.

Rule 206. (1) A driver who is disqualified shall not drive a commercial motor vehicle. A motor carrier shall not require or permit a driver who is disqualified to drive a commercial motor vehicle.

(2) A driver is disqualified, for the duration of the loss of his privilege, to operate a commercial motor vehicle on public highways, either temporarily or permanently, by reason of the revocation, suspension, withdrawal, or denial of an operator's or chauffeur's license, permit, or privilege, until that license, permit, or privilege is restored by the authority that revoked, suspended, withdrew, or denied it.

(3) A driver who is convicted of, or forfeits bond or collateral upon a charge of, a disqualifying offense specified in subrule (4) is disqualified for the period of time specified in subrule (5) if the offense was committed after the effective date of these rules, and the offense was committed while the driver was driving a motor vehicle in the employ of a motor carrier or in the furtherance of a commercial enterprise in interstate, intrastate, or foreign commerce.

(4) The following offenses are disqualifying offenses:

(a) Operating a motor vehicle while under the influence of alcohol, an amphetamine, a narcotic drug, a formulation of an amphetamine, or a derivative of a narcotic drug.

(b) A crime involving the knowing transportation, knowing possession, or unlawful use of amphetamines, narcotic drugs, formulations of an amphetamine, or derivatives of narcotic drugs.

(c) Leaving the scene of an accident which results in personal injury or death.

(d) A felony involving the use of a motor vehicle.

(e) Operating a motor vehicle in the transportation of hazardous materials in a tank vehicle or vehicles in bulk without having met the requirements of R 460.16205.

(5) From the first offense, a driver is disqualified for 1 year after the date of his conviction or forfeiture of bond or collateral if, during the 3 years preceding that

date, he was not convicted of, and did not forfeit bond or collateral upon a charge of an offense that would disqualify him under this rule. From a subsequent offense, a driver is disqualified for 3 years after the date of his conviction or forfeiture of bond or collateral if, during the 3 years preceding that date, he was convicted of, or forfeited bond or collateral upon a charge of an offense that would disqualify him under this rule.

History: 1954 ACS 94, p. 126, Eff. Jan. 5, 1978.

BACKGROUND AND CHARACTER

R 460.16207 Application for employment.

Rule 207. (1) Except as provided in R 460.16220 to R 460.16223, a person shall not drive a motor vehicle unless that person has completed and furnished the motor carrier that employs him with an application for employment that meets the requirements of subrule (2).

(2) The application for employment shall be made on a form furnished by the motor carrier. Each application form shall be completed by the applicant, shall be signed by him, and shall contain the following information:

(a) The name and address of the employing motor carrier.

(b) The applicant's name, address, date of birth, and social security number.

(c) The addresses at which the applicant has resided during the 3 years preceding the date on which the application is submitted.

(d) The date on which the application is submitted.

(e) The issuing state, number, and expiration date of each unexpired motor vehicle operator's or chauffeur's license or permit that has been issued to the applicant.

(f) The nature and extent of the applicant's experience in the operation of motor vehicles, including the type of equipment, such as buses, trucks, truck tractors, semitrailers, full trailers, and pole trailers, which the applicant has operated.

(g) A list of all motor vehicle accidents in which the applicant was involved during the 3 years immediately preceding the date the application is submitted, specifying the date and nature of each accident and any fatalities or personal injuries caused thereby.

(h) A list of all violations of motor vehicle laws or ordinances, other than violations involving parking only, of which the applicant was convicted or forfeited bond or collateral during the 3 years immediately preceding the date the application is submitted.

(i) A statement setting forth in detail the facts and circumstances of any denial, revocation, or suspension of a license, permit, or privilege to operate a motor vehicle that has been issued to the applicant, or a statement that no such denial, revocation, or suspension has occurred.

(j) A list of the names and addresses of the applicant's employers during the 3 years immediately preceding the date the application is submitted, together with the dates he was employed by, and his reason for leaving the employ of, each employer.

(k) The following certification and signature line, which shall appear at the end of the application form and be signed by the applicant:

This certifies that this application was completed by me, and that all entries on it and information in it are true and complete to the best of my knowledge.

Date _____ (Applicant's signature) _____

(3) A motor carrier may require an applicant to provide information in addition to the information required by subrule (2) on the application form.

(4) Before an application is submitted, the motor carrier shall inform the applicant that the information he provides pursuant to subrule (2)(j) may be used, and the applicant's prior employers may be contacted for the purpose of investigating the applicant's background as required by R 460.16208.

History: 1954 ACS 94, p. 126, Eff. Jan. 5, 1978.

R 460.16208 Investigation and inquiries.

Rule 208. (1) Except as provided in R 460.16220 to R 460.16223, each motor carrier shall make the following investigations and inquiries with respect to each driver it employs, other than a person who has been a regularly employed driver of the motor carrier for a continuous period which began not less than 30 days prior to the effective date of these rules. An inquiry shall be made into the driver's driving record during the preceding 3 years to the appropriate agency of every state in which the driver held a motor vehicle operator's license or permit during those 3 years. Also, an investigation shall be made of the driver's employment record during the preceding 3 years.

(2) The inquiry to state agencies required by subrule (1) shall be made in the form and manner which those agencies prescribe. A copy of the response by each state agency shall be included in the driver's qualification file.

(3) The investigation of the driver employment record required by subrule (1) shall be made within 30 days of the date his employment begins. The investigation may consist of personal interviews, telephone interviews, letters or any other method of obtaining information that the carrier deems appropriate. Each motor carrier shall make a written record with respect to each past employer who was contacted. The record shall include the past employer's name and address, the date he was contacted, and his comments with respect to the driver. The record shall be retained in the motor carrier's files as part of the driver's qualification file.

History: 1954 ACS 94, p. 127, Eff. Jan. 5, 1978.

R 460.16209 Annual review of driving record.

Rule 209. Except as provided in R 406.16220 to R 406.16223, each motor carrier shall, at least once every 12 months, review the driving record of each driver it employs to determine whether that driver meets the minimum requirements for safe driving or is disqualified to drive a motor vehicle pursuant to R 460.16206. In reviewing a driving record, the motor carrier shall consider any evidence that the driver has violated applicable provisions of the motor carrier safety rules and the hazardous materials rules. The motor carrier shall also consider the driver's accident record and any evidence that the driver has violated laws governing the operation of motor vehicles, and shall give great weight to violations, such as speeding, reckless driving, and operating while under the influence of alcohol or drugs that indicate that the driver has exhibited a disregard for the safety of the public. A note, setting forth the date upon which the review was performed and the name of the person who reviewed the driving record, shall be included in the driver's qualification file.

History: 1954 ACS 94, p. 127, Eff. Jan. 5, 1978.

R 460.16210 List of violations.

Rule 210. (1) Except as provided in R 406.16220 to R 406.16223, each motor carrier shall, at least once every 12 months, require each driver it employs to prepare and furnish it with a list of all violations of motor vehicle traffic laws and

ordinances, other than violations involving parking only, of which the driver has been convicted, or on account of which he has forfeited bond or collateral during the preceding 12 months.

(2) Each driver shall furnish the list required by subrule (1). If the driver has not been convicted of, or forfeited bond or collateral on account of, a violation which must be listed, he shall so certify.

(3) The form of the driver's list or certification shall be prescribed by the motor carrier. The following form may be used to comply with this rule:

MOTOR VEHICLE DRIVER'S CERTIFICATION

I certify that the following is a true and complete list of traffic violations, other than parking violations, for which I have been convicted or forfeited bond or collateral during the past 12 months.

Date of Conviction	Offense	Location	Type of Vehicle Operated

If no violations are listed above, I certify that I have not been convicted or forfeited bond or collateral on account of any violation required to be listed during the past 12 months.

(Date of Certification)	(Driver's Signature)
(Motor Carrier's Name)	(Motor Carrier's Address)
(Reviewed by: Signature)	(Title)

(4) The motor carrier shall retain the list or certificate required by this rule, or a copy of it, in its files as part of the driver's qualification file, for not less than 3 years after the driver's employment by the motor carrier ceases.

History: 1954 ACS 94, p. 128, Eff. Jan. 5, 1978.

EXAMINATIONS AND TESTS

R 460.16211 Road test.

Rule 211. (1) Except as provided in R 460.16212 and R 460.16220, a person shall not drive a motor vehicle unless that person has first successfully completed a road test and has been issued a certificate of driver's road test pursuant to this rule.

(2) The road test shall be given by the motor carrier or a person designated by it. However, a driver who is a motor carrier shall be given the road test by another person who has not less than 1,750 logged hours experience in driving motor vehicles of the same type and gross vehicle weight or of the same type and greater gross vehicle weight than the motor vehicle type for which the driver-examinee is to be certified. The requirements of this rule are in addition to the requirements of R 460.16205 above.

(3) The road test required by this rule shall be given by a person who has not less than 1,750 logged hours experience in driving motor vehicles of the same type or of a greater gross vehicle weight rating than the motor vehicle type for which

the driver-examinee is to be certified. The requirements of R 460.16205 are not in substitution of, but are in addition to, the requirements of this rule.

(4) The road test shall be conducted in such a manner as to enable the person who gives it to evaluate the skill of the person who takes it at handling the motor vehicle and associated equipment which the motor carrier intends to assign to him. As a minimum, the person who takes the test shall be tested while operating the type of motor vehicle which the motor carrier intends to assign to him, on his skill at performing each of the following operations:

(a) The pretrip inspection required by R 460.16307.

(b) Coupling and uncoupling of combination units, if the equipment he may drive includes combination units.

(c) Placing the vehicle in operation.

(d) Use of the vehicle's controls and emergency equipment.

(e) Operating the motor vehicle in city traffic.

(f) Operating the motor vehicle while passing other vehicles.

(g) Turning the vehicle.

(h) Braking, and slowing the vehicle by means other than braking.

(i) Backing and parking the vehicle.

(j) Operating the motor vehicle on a 4-lane highway for a distance of not less than 10 miles.

(5) The motor carrier shall provide a road test form on which the person who gives the test shall rate the performance of the person who takes it at each operation or activity which is part of the test. After he completes the form, the person who gave the test shall sign it.

(6) If the road test is successfully completed, the person who gave it shall complete a certificate of driver's road test in substantially the form prescribed in subrule (7).

(7) The form for the certificate of driver's road test is substantially as follows:

CERTIFICATION OF ROAD TEST

Driver's Name _____

Social Security No. _____

Operator's or Chauffeur's License No. _____

State _____

Type of Power Unit _____ Type of Trailer(s) _____

This is to certify that the above-named driver was given a road test under my supervision on _____ 19__ consisting of approximately _____ miles of driving.

It is my considered opinion that this driver possesses sufficient driving skill to operate safely the type of commercial motor vehicle listed above.

_____ _____

(Signature of Examiner) (Title)

_____

(Organization and Address of Examiner)

(8) A copy of the certificate required by subrule (5) shall be given to the person who was examined. The motor carrier shall retain in the driver qualification file of the person who was examined:

(a) The original of the signed road test form required by subrule (4).

(b) The original, or a copy, of the certificate required by subrule (5).

History: 1954 ACS 94, p. 128, Eff. Jan. 5, 1978.

R 460.16212 Equivalent of road test.

Rule 212. (1) In place of, and as equivalent to, the road test required by

R 460.16211, a person who seeks to drive a motor vehicle may present, and a motor carrier may accept, 1 of the following:

(a) A valid operator's license which has been issued to him by a state that licenses drivers to operate specific categories of motor vehicles and which, under the laws of that state, licenses him after successful completion of a road test in a motor vehicle of the type the motor carrier intends to assign to him.

(b) A copy of a valid certificate of driver's road test issued to him pursuant to rule 211 within the preceding 3 years.

(2) If a driver presents, and a motor carrier accepts, a license or certificate as equivalent to the road test, the motor carrier shall retain a legible copy of the license or certificate in its files as part of the driver's qualification file.

(3) A motor carrier may require a person who presents a license or certificate as equivalent to the road test to take a road test, or any other test of his driving skill, as a condition to his employment as a driver.

History: 1954 ACS 94, p. 129, Eff. Jan. 5, 1978.

R 460.16213 Written examination.

Rule 213. (1) Except as provided in R 460.16214 and R 460.16220, a person shall not drive a motor vehicle unless he has first taken a written examination and has been issued a certificate of written examination pursuant to this rule.

(2) The objective of the written examination is to instruct prospective drivers in these rules as they relate to commercial vehicle safety. It is an instructional tool only, and a person's qualifications to drive a motor vehicle under the rules in this part are not affected by his performance on the examination.

(3) The written examination shall be given by the motor carrier, or a person designated by it, on a form prescribed by the motor carrier.

(4) Prior to, and during, the examination, the person who takes it shall be permitted to examine and consult a copy of these rules in addition to any other material explaining the provisions of these rules that the motor carrier may provide. There is no time limit for completing the examination, and persons taking it shall be so advised in advance.

(5) The examination shall consist of 65 questions, covering the examinee's knowledge of the Michigan public service commission's motor carrier safety rules and the federal department of transportation regulations relating to the transportation of hazardous materials, being 49 C.F.R. 171 et seq. However, a person who is being examined with a view to employment as the driver of a motor vehicle which will not transport hazardous materials of a type or quantity that requires the vehicle to be marked or placarded pursuant to 49 C.F.R. 177.823, need not answer questions 58 to 65 on the examination.

(6) After the examinee completes the examination, the person administering it shall mark those questions which were answered incorrectly and indicate which rule covers each incorrectly answered question. The examinee shall then read the appropriate rule or rules and correct all previous errors that the examinee made.

(7) A driver who is a motor carrier shall be administered the written examination by a district supervisor of the field operations division of the public service commission's office of motor transportation affairs.

(8) When all incorrect responses have been corrected and the examiner is satisfied that the examinee understands the applicable rules, a certificate of written examination shall be issued to the examinee.

(9) A copy of the certificate required by subrule (8) shall be given to the person who was examined. The motor carrier shall retain, in the driver qualification file of the person who was examined, the following:

(a) The original, or a copy, of the certificate required by subrule (8).
(b) The questions asked on the examination.
(c) The person's answer to those questions.

History: 1954 ACS 94, p. 130, Eff. Jan. 5, 1978.

R 460.16214 Equivalent of written examination.

Rule 214. In place of, and as equivalent to, the written examination required by R 460.16213, a person who seeks to drive a motor vehicle may present, and a motor carrier may accept, a valid certificate of written examination issued pursuant to that rule within the preceding 3 years. If a motor carrier accepts a certificate as equivalent to the written examination, it shall retain a legible copy of the certificate in its files as part of the driver's qualification file. A motor carrier may require a person who presents a certificate as equivalent to the written examination to take the written examination prescribed in R 460.16213 or participate in any other instructional process designed to acquaint him with the provisions of these rules.

History: 1954 ACS 94, p. 130, Eff. Jan. 5, 1978.

PHYSICAL QUALIFICATIONS AND EXAMINATIONS

R 460.16215 Physical qualifications for drivers.

Rule 215. A person shall not drive a motor vehicle unless the person is physically qualified to do so and has on his person the original, or a copy, of a certificate, issued from a physician licensed to practice medicine or osteopathy in the state of Michigan, stating that the person is physically qualified to drive a motor vehicle. A person is physically qualified to drive a motor vehicle if he:

(a) Has not lost a foot, leg, hand, or arm.

(b) Does not have an impairment of the use of a foot, leg, hand, fingers, or arm or some other defect or limitation which interferes with his ability to control and safely drive a motor vehicle.

(c) Does not have a current clinical diagnosis of diabetes mellitus requiring insulin for control.

(d) Does not have a current clinical diagnosis of myocardial infarction, angina pectoris, coronary insufficiency thrombosis, or any other cardiovascular disease of a variety known to be accompanied by syncope, dyspnea, collapse, or congestive cardiac failure.

(e) Does not have a current clinical diagnosis of a respiratory dysfunction which is likely to interfere with his ability to control and drive a motor vehicle.

(f) Does not have a current clinical diagnosis of high blood pressure likely to interfere with his ability to operate a motor vehicle safely.

(g) Does not have a current clinical diagnosis of rheumatic, arthritic, orthopedic, muscular, neuromuscular, or vascular disease which is likely to interfere with his ability to control and drive a motor vehicle safely.

(h) Does not have any medical history or clinical diagnosis of epilepsy or any other condition which is likely to cause loss of consciousness or any loss of ability to control a motor vehicle.

(i) Does not have a medical history or clinical diagnosis of a mental, nervous, psychiatric, organic, or functional condition which is likely to interfere with his ability to drive a motor vehicle safely.

(j) Has distant visual acuity of at least 20/40 in each eye without corrective lenses; distant binocular acuity of at least 20/40 in both eyes, with or without corrective lenses; field of vision of at least 70 degrees in the horizontal meridian in

each eye; and the ability to recognize the colors of traffic signals and devices showing standard red, green, and amber. Visual acuity shall be measured by the Snellen test.

(k) First perceives a forced whispered voice in the better ear at not less than 5 feet, with or without the use of a hearing aid, or, if tested by use of an audiometric device, does not have an average hearing loss in the better ear greater than 40 decibels at 500 Hz, 1,000 Hz, and 2,000 Hz, with or without a hearing aid when the audiometric device is calibrated to American national standard, formerly ASA standard, Z24.5—1951.

(l) Does not use an amphetamine, narcotic, or any habit-forming drug.

(m) Has no current clinical diagnosis of alcoholism.

History: 1954 ACS 94, p. 130. Eff. Jan. 5, 1978.

R 460.16216 Medical examination; instructions for forms; medical examiner's certificate.

Rule 216. (1) Except as provided in subrule (2), the medical examination shall be performed by a physician licensed to practice medicine or osteopathy in the state of Michigan.

(2) A licensed optometrist may perform so much of the medical examination as pertains to visual acuity, field of vision, and the ability to recognize colors as is specified in R 460.16215(j).

(3) The medical examination shall be performed, and its results shall be recorded, substantially in accordance with the following instructions, on form MCSR-216.

INSTRUCTIONS FOR PERFORMING AND RECORDING PHYSICAL EXAMINATIONS

The examining physician should review these instructions before performing the physical examination. Answer each question yes or no where appropriate.

The examining physician should be aware of the rigorous physical demands and mental and emotional responsibilities placed on the driver of a commercial motor vehicle. In the interest of public safety, the examining physician is required to certify that the driver does not have any physical, mental, or organic defect of such a nature as to affect the driver's ability to operate safely a commercial motor vehicle.

General information. The purpose of this history and physical examination is to detect the presence of physical, mental, or organic defects of such a character and extent as to affect the applicant's ability to operate a motor vehicle safely. The examination should be made carefully and at least as complete as indicated by the attached form. History of certain defects may be cause for rejection or indicate the need for making certain laboratory tests or a further, and more stringent, examination. Defects may be recorded which do not, because of their character or degree, indicate that the certification of physical fitness should be denied. However, these defects should be discussed with the applicant, and he should be advised to take the necessary steps to insure correction, particularly of those defects which, if neglected, might lead to a condition likely to affect his ability to drive safely.

General appearance and development. Note marked overweight. Note any posture defect, perceptible limp, tremor, or other defects that might be caused by alcoholism, thyroid intoxication, or other illnesses. The rules provide that a driver shall not use a narcotic or other habit-forming drug.

Head and eyes. When other than the Snellen chart is used, the results of such test shall be expressed in values comparable to the standard Snellen test. If the applicant wears corrective lenses, these should be worn while applicant's visual acuity is being tested. If appropriate, indicate on the medical examiner's certificate by checking the box, "qualified only when wearing corrective lenses." In recording distance vision, use 20 feet as normal. Report all vision as a fraction, with 20 as numerator and the smallest type read at 20 feet as denominator. Note ptosis, discharge, visual fields, ocular muscle imbalance, color blindness, corneal scar, exophthalmos, or strabismus, uncorrected by corrective lenses. Monocular drivers are not qualified to operate commercial motor vehicles under existing federal motor carrier safety regulations. If the driver habitually wears contact lenses, or intends to do so while driving, there should be sufficient evidence to indicate that he has good tolerance and is well adapted to their use. The use of contact lenses should be noted on the record.

Ears. Note evidence of mastoid or middle ear disease, discharge, symptoms of aural vertigo, or Meniere's syndrome. When recording hearing, record distance from patient at which a forced whispered voice can first be heard. If audiometer is used to test hearing, record decibel loss at 500 Hz, 1,000 Hz, and 2,000 Hz.

Throat. Note evidence of disease, irremediable deformities of the throat likely to interfere with eating or breathing, or any laryngeal condition which could interfere with the safe operation of a motor vehicle.

Thorax and heart. Stethoscopic examination is required. Note murmurs and arrhythmias, and any past or present history of cardiovascular disease, of a variety known to be accompanied by syncope, dyspnea, collapse, enlarged heart, or congestive heart failures. Electrocardiogram is required when findings so indicate.

Blood pressure. Record with either spring or mercury column type of sphygmomanometer. If the blood pressure is consistently above 160/90 mm. Hg., further tests may be necessary to determine whether the driver is qualified to operate a motor vehicle.

Lungs. If any lung disease is detected, state whether active or arrested; if arrested, state your opinion as to how long it has been quiescent.

Gastrointestinal system. Note any disease of the gastrointestinal system.

Abdomen. Note wounds, injuries, scars, or weakness of muscles of abdominal walls sufficient to interfere with normal function. Any hernia should be noted if present. State how long and if adequately contained by truss.

Abnormal masses. If present, note location, whether tender, and whether or not applicant knows how long masses have been present. If the diagnosis suggests that the condition might interfere with the control and safe operation of a motor vehicle, more stringent tests must be made before the applicant can be certified.

Tenderness. When noted, state where most pronounced, and suspected cause. If the diagnosis suggests that the condition might interfere with the control and safe operation of a motor vehicle, more stringent tests must be made before the applicant can be certified.

Genito-urinary tract. Urinalysis is required. Acute infections of the genito-urinary tract, as defined by local and state public health laws; indications from urinalysis of uncontrolled diabetes; symptomatic albuminuria in the urine; or other findings indicative of health conditions likely to interfere with the control and safe operation of a motor vehicle disqualify an applicant from operating a motor vehicle.

Neurological. If positive Romberg is reported, indicate degrees of impairment. Pupillary reflexes should be reported for both light and accommodation. Knee jerks are to be reported absent only when not obtainable upon reinforcement and

as increased when foot is actually lifted from the floor following a light blow on the patella. Sensory vibratory and positional abnormalities should be noted.

Extremities. Carefully examine upper and lower extremities. Record the loss or impairment of leg, foot, toe, arm, hand, or fingers. Note any and all deformities, the presence of atrophy, semi-paralysis, paralysis, or varicose veins. If a hand or finger deformity exists, determine whether sufficient grasp is present to enable the driver to secure and maintain a grip on the steering wheel. If a leg deformity exists, determine whether sufficient mobility and strength exist to enable the driver to operate pedals properly. Particular attention should be given to, and a record should be made of, any impairment or structural defect which may interfere with the driver's ability to operate a motor vehicle safely.

Spine. Note deformities, limitation of motion, or any history of pain, injuries, or disease, past or presently experienced, in the cervical or lumbar spine region. If findings so dictate, radiologic and other examinations should be used to diagnose congenital or acquired defects, spondylolisthesis, and scoliosis.

Recto-genital studies. Diseases or conditions causing discomfort should be evaluated carefully to determine the extent to which the condition might be handicapping while lifting or pulling, or during periods of prolonged driving that might be necessary as part of the driver's duties.

Laboratory and other special findings. Urinalysis is required, as well as such other tests as the medical history or findings upon physical examination may indicate are necessary. A serological test is required if the applicant has a history of luetic infection or present physical findings indicate the possibility of latent syphilis. Other studies deemed advisable may be ordered by the examining physician.

Diabetes. If insulin is necesary to control a diabetic condition, the driver is not qualified to operate a motor vehicle. If mild diabetes is noted at the time of examination and it is stabilized by use of a hypoglycemic drug and a diet that can be obtained while the driver is on duty, it should not be considered disqualifying. However, the driver must remain under adequate medical supervision.

The physician must date and sign his findings upon completion of the examination. Findings are to be reported on form MCSR-216 available from the Michigan Public Service Commission, 6545 Mercantile Way, Lansing, Michigan, 48909.

mutually select a physician to conduct an examination to determine whether that person is physically qualified to drive a motor vehicle. The physician designated to examine the person shall be fully aware of the person's complete medical history and of the nature of the work the person would perform if he were found physically and otherwise qualified to drive a motor vehicle. As a minimum, the examining physician shall be informed of the type, size, and weight of the vehicles the person would drive, the distances he would traverse, the number of hours he would spend in an on-duty status, and the related duties which the person would be required to perform, such as loading, unloading, climbing onto and descending from vehicles, and making repairs en route. If the designated physician determines that the person is physically qualified to drive a motor vehicle, a motor carrier may accept that medical examiner's certificate issued to the person pursuant to R 460.16216.

History: 1954 ACS 94, p. 133, Eff. Jan. 5, 1978.

FILES AND RECORDS

R 460.16219 Driver qualification files.

Rule 219. (1) Each motor carrier shall maintain a driver qualification file for each driver it employs. A driver's qualification file may be combined with his personnel file.

(2) The qualification file for a driver who has been a regularly employed driver of the motor carrier for a continuous period which began more than 30 days prior to the effective date of these rules shall include:

(a) The medical examiner's certificate of his physical qualification to drive a motor vehicle or a legible copy of the certificate.

(b) The note relating to the annual review of his driving record required by R 460.16209.

(c) The list or certificate relating to violations of motor vehicle laws and ordinances required by R 460.16210.

(d) Any other matter which relates to the driver's qualifications or ability to drive a motor vehicle safely.

(3) The qualification file for a regularly employed driver who has not been regularly employed by the motor carrier for a continuous period which began not less than 30 days prior to the effective date of these rules shall include:

(a) The documents specified in subrule (2).

(b) The driver's application for employment completed pursuant to R 460.16207.

(c) The responses of state agencies and past employers to the motor carrier's inquiries concerning the driver's driving record and employment pursuant to R 460.16208.

(d) The certificate of driver's road test issued to the driver pursuant to R 460.16211(5), or a copy of the license or certificate which the motor carrier accepted as equivalent to the driver's road test pursuant to R 460.16212.

(e) The questions asked, the answers the driver gave, and the certificate of written examination issued to him pursuant to R 460.16213, or a copy of a certificate which the motor carrier accepted as equivalent to a written examination pursuant to R 460.16214.

(4) The qualification file for an intermittent, casual, or occasional driver employed under R 460.16222 shall include:

(a) The medical examiner's certificate of his physical qualification to drive a motor vehicle or a legible copy of the certificate.

(b) The certificate of driver's road test issued to the driver pursuant to R 460.16211(5) or a copy of the license or certificate which the motor carrier accepted as equivalent to the driver's road test pursuant to R 460.16211.

(c) The questions asked, the answers the driver gave, and the certificate of written examination issued to him pursuant to R 460.16213, or a copy of a certificate which the motor carrier accepted as equivalent to a written examination pursuant to R 460.16214.

(d) The driver's name, his social security number, and the identification number, type, and issuing state of his motor vehicle operator's license.

(5) The qualification file for a driver furnished by another motor carrier and employed under R 460.16223 shall include:

(a) The medical examiner's certificate of his physical qualification to drive a motor vehicle or a legible copy of the certificate.

(b) A copy of a certificate from the motor carrier that regularly employs the driver, stating that the driver is fully qualified to drive a motor vehicle under the rules in this part.

(6) Each driver's qualification file shall be kept at the motor carrier's principal place of business for as long as a driver is employed by that motor carrier and for 3 years thereafter.

History: 1954 ACS 94, p. 134, Eff. Jan. 5, 1978.

LIMITED EXEMPTIONS

R 460.16220 Drivers employed 30 days prior to effective date of rules.

Rule 220. The provisions of R 460.16207, relating to applications for employment; R 460.16208, relating to investigations and inquiries; R 460.16211, relating to road tests; and R 460.16213, relating to written examinations, do not apply to a driver who has been a regularly employed driver of a motor carrier for a continuous period which began not less than 30 days prior to the effective date of these rules, as long as he continued to be a regularly employed driver of that motor carrier. Such a driver is qualified to drive a motor vehicle if he fulfills the requirements of subdivisions (a) to (i) of R 460.16205(2), relating to qualifications of drivers. For purposes of this rule, "regularly employed driver" means a driver who, in any period of 7 consecutive days, is employed or used as a driver solely by a single motor carrier.

History: 1954 ACS 94, p. 134, Eff. Jan. 5, 1978.

R 460.16221 Drivers of lightweight vehicles.

Rule 221. (1) The following rules in this part do not apply to a person who drives only a lightweight vehicle:

(a) R 460.16207 to R 460.16210, relating to disclosure of, investigation into, and inquiries about the background, character, and driving record of drivers.

(b) R 460.16211 to R 460.16214, relating to road tests and written examinations.

(c) R 460.16215 to R 460.16217 to the extent that they require a driver to be medically examined, to obtain a certificate of medical examination, and to carry a medical examiner's certificate on his person.

(d) R 460.16219, relating to maintenance of files and records.

(2) A person who is 18 years of age or older and who is otherwise qualified to drive a motor vehicle under the rules in this part, including the modifications of those rules specified in subrule (1), may drive a lightweight vehicle.

History: 1954 ACS 94, p. 135, Eff. Jan. 5, 1978.

R 460.16222 Drivers furnished by other motor carriers.

Rule 222. (1) A motor carrier may employ a driver who is not a regularly employed driver of that motor carrier without complying with the rules in this part with respect to the driver if:

(a) The driver is a regularly employed driver of another motor carrier.

(b) The motor carrier that regularly employs the driver furnishes a certificate that the driver is fully qualified to drive a motor vehicle under the rules in this part.

(c) The motor carrier that uses the driver has in its files a copy of the medical examiner's certificate for that driver.

(2) A motor carrier that obtains a certificate pursuant to subrule (1)(b) shall retain a copy of that certificate and a copy of the driver's medical examination certificate in its files for 3 years.

History: 1954 ACS 94, p. 135, Eff. Jan. 5, 1978.

R 460.16223 Drivers of articulated (combination) farm vehicles.

Rule 223. The following rules do not apply to a farm vehicle driver, as defined in R 460.16202, who is 18 years of age or older and who drives an articulated motor vehicle:

(a) Subdivisions (a), (h), (j), (k), and (l) of R 460.16205(2) relating to driver qualifications in general.

(b) R 460.16207 to R 460.16210, relating to disclosure of, investigation into, and inquiries about the background, character, and driving record of drivers.

(c) R 460.16211 to R 460.16214, relating to road tests and written examinations.

(d) R 460.16215 and R 460.16217, to the extent that they require a driver to be medically examined and to have a medical examiner's certificate on his person.

(e) R 460.16219, relating to maintenance of files and records.

History: 1954 ACS 94, p. 135, Eff. Jan. 5, 1978.

PART 3. DRIVING OF MOTOR VEHICLES

R 460.16301 Compliance generally.

Rule 301. (1) Every motor carrier and its officers, agents, representatives, and employees responsible for the management, maintenance, operation, or driving of motor vehicles, or the hiring, supervising, training, assigning, or dispatching of drivers, shall be instructed in, and comply with, the rules in this part.

(2) These rules do not prohibit a motor carrier from requiring and enforcing more stringent rules relating to safety of operation.

History: 1954 ACS 94, p. 135, Eff. Jan. 5, 1978.

R 460.16302 Compliance with laws, ordinances, and rules.

Rule 302. Every motor vehicle shall be operated pursuant to the laws, ordinances, and rules of the jurisdiction in which it is being operated. However, if a requirement of these rules imposes a higher standard of care than that law, ordinance, or rule, these rules shall be complied with.

History: 1954 ACS 94, p. 135, Eff. Jan. 5, 1978.

R 460.16303 Operation by impaired driver.

Rule 303. A driver shall not operate a motor vehicle, and a motor carrier shall not require or permit a driver to operate a motor vehicle, while the driver's ability or alertness is so impaired, or so likely to become impaired, through fatigue, illness, or any other cause, as to make it unsafe for him to begin or continue to

operate the motor vehicle. However, in a case of grave emergency, where the hazard to occupants of the vehicle or other users of the highway would be increased by compliance with this rule, the driver may continue to operate the motor vehicle to the nearest place at which that hazard is removed.

History: 1954 ACS 94, p. 136, Eff. Jan. 5, 1978.

R 460.16304 Narcotics, amphetamines, and other dangerous substances.

Rule 304. (1) A person shall not operate, or be in physical control of, a motor vehicle if he possesses, is under the influence of, or is using any of the following substances:

(a) A narcotic drug or any derivative thereof.

(b) An amphetamine or any formulation thereof, including, but not limited to, "pep pills" and "bennies."

(c) Any other substance, to a degree which renders him incapable of safely operating a motor vehicle.

(2) A motor carrier shall not knowingly require or permit a driver to violate subrule (1).

(3) Subrule (1) does not apply to the possession or use of a substance administered to a driver by, or under the instructions of, a physician who has advised the driver that the substance will not affect his ability to operate a motor vehicle.

(4) As used in this rule, the word "possession" does not include possession of a substance which is manifested and transported as part of a shipment.

History: 1954 ACS 94, p. 136, Eff. Jan. 5, 1978.

R 460.16305 Intoxicating liquor.

Rule 305. (1) A person shall not:

(a) Consume an intoxicating liquor, regardless of its alcoholic content, or be under the influence of an intoxicating liquor, within 4 hours before going on duty or operating, or having physical control of, a motor vehicle.

(b) Consume an intoxicating liquor, regardless of its alcoholic content, or be under the influence of an intoxicating liquor, while on duty, or while operating, or being in physical control of, a motor vehicle.

(c) Be on duty or operate a motor vehicle while he possesses an intoxicating liquor, regardless of its alcoholic content. However, this subdivision does not apply to possession of an intoxicating liquor which is manifested and transported as part of a shipment.

(2) A motor carrier shall not require or permit a driver to:

(a) Violate any provision of subrule (1).

(b) Be on duty or operate a motor vehicle if, by his general appearance, conduct, or other substantiating evidence, he appears to have consumed an intoxicating liquor within the preceding 4 hours.

History: 1954 ACS 94, p. 136, Eff. Jan. 5, 1978.

R 460.16306 Schedules to conform with speed limits.

Rule 306. A motor carrier shall not schedule a run, or shall not permit, or shall not require the operation, of a motor vehicle between different locations in such a period of time as would necessitate the vehicle being operated at speeds greater than those prescribed by the jurisdictions in or through which the vehicle is being operated.

R 460.16307 Parts and accessories; requirements.

Rule 307. A motor vehicle shall not be driven unless the driver thereof has satisfied himself that the following parts and accessories are in good working order, nor shall any driver fail to use, or make use of, such parts and accessories when and as needed:

(a) Service brakes, including trailer brake connections.
(b) Parking or hand brake.
(c) Steering mechanism.
(d) Lighting devices and reflectors.
(e) Tires.
(f) Horn.
(g) Windshield wiper or wipers.
(h) Rear-vision mirror or mirrors.
(i) Coupling devices.
(j) Windshield washers.
(k) Windshield defrosters.

History: 1954 ACS 94, p. 136. Eff. Jan. 5, 1978.

R 460.16308 Emergency equipment; inspection and use.

Rule 308. A motor vehicle shall not be driven unless the driver thereof has satisfied himself that the emergency equipment required by R 460.16459 is in place and ready for use, and a driver shall not fail to use or make use of such equipment when and as needed.

History: 1954 ACS 94, p. 137. Eff. Jan. 5, 1978.

R 460.16309 Safe loading.

Rule 309. (1) A person shall not drive a motor vehicle, and a motor carrier shall not require or permit a person to drive a motor vehicle, unless:

(a) The vehicle's cargo is properly distributed and adequately secured as specified in R 460.16460 to R 460.16463.

(b) The vehicle's tailgate, tailboard, doors, tarpaulins, spare tire, and other equipment used in its operation, and the means of fastening the vehicle's cargo, are secured.

(c) The vehicle's cargo, or any other object, does not obscure the driver's view ahead or to the right or left sides, interfere with the free movement of his arms or legs, prevent his free and ready access to accessories required for emergencies, or prevent the free and ready exit of any person from the vehicle's cab or driver's compartment.

(2) Except as provided in subrule (3), the driver of a truck or truck tractor shall:

(a) Assure himself that the provisions of subrule (1) have been complied with before he drives the vehicle.

(b) Examine the vehicle's cargo and its load-securing devices within the first 25 miles after beginning a trip, and cause any adjustments to be made to the cargo or load-securing devices, other than steel strapping, as may be necessary to maintain the security of the vehicle's load.

(c) Reexamine the vehicle's cargo and its load-securing devices periodically during the course of transportation, and cause any adjustments to be made to the cargo or load-securing devices, other than steel strapping, as may be necessary to maintain the security of the vehicle's load. A periodic reexamination and any necessary adjustments shall be made when the driver makes a change of his duty status, or after the vehicle has been driven for 3 hours, or after the vehicle has been driven for 150 miles, whichever occurs first.

(3) The provisions in this rule do not apply to the driver of a sealed vehicle who is ordered not to open it to inspect its cargo or to the driver of a vehicle that is loaded in a manner that makes inspection of its cargo impracticable.

History: 1954 ACS 94, p. 137, Eff. Jan. 5, 1978.

R 460.16310 Corrective lenses to be worn.

Rule 310. A driver whose visual acuity meets any of the minimum requirements of R 460.16215 only when he wears corrective lenses shall wear properly prescribed corrective lenses at all times while driving. If a driver wears contact lenses while driving, he shall have a spare lens or set of lenses on his person when he drives.

History: 1954 ACS 94, p. 137, Eff. Jan. 5, 1978.

R 460.16311 Hearing aid to be worn.

Rule 311. A driver whose hearing meets the minimum requirements of R 460.16215(k) only when he wears a hearing aid shall wear a hearing aid and have it in operation at all times while he is driving. The driver shall also have in his possession a spare power source for use in the hearing aid.

History: 1954 ACS 94, p. 137, Eff. Jan. 5, 1978.

R 460.16312 Railroad grade crossings; stopping required.

Rule 312. (1) Except as provided in subrule (3), the driver of a motor vehicle specified in subrule (2) shall not cross a railroad track or tracks at grade unless he first stops the vehicle within 50 feet of, and not closer than 15 feet to, the tracks; thereafter listens and looks in each direction along the tracks for an approaching train; and ascertains that no train is approaching. When it is safe to do so, the driver may drive the vehicle across the tracks in a gear that permits the vehicle to complete the crossing without a change of gears. The driver shall not shift gears while crossing the tracks.

(2) The following motor vehicles shall stop at railroad grade crossings as provided in subrule (1):

(a) A motor vehicle transporting any quantity of chlorine.

(b) A motor vehicle which, pursuant to the regulations of the department of transportation, is required to be marked or placarded with 1 of the following markings:

(i) Explosives A.
(ii) Explosives B.
(iii) Poison.
(iv) Flammable.
(v) Oxidizers.
(vi) Compressed Gas.
(vii) Corrosives.
(viii) Flammable Gas.
(ix) Radioactive.
(x) Dangerous.

(c) A cargo tank motor vehicle, whether loaded or empty, used for the transportation of any hazardous material, as defined in the regulations of the department of transportation, or for the transportation of any liquid having a flash point below 200 degrees Fahrenheit, as determined by the standard method of test for flash point of the American Society for Testing and Materials, 1916 Race Street, Philadelphia, Pa. 19103, as set forth in ASTM D-56-61, ASTM D-92-57, or ASTM D-93-62, and referenced by the National Fire Protection Association, 470 Atlantic Avenue, Boston, Massachusetts 02210, in pamphlet no. 385, 1964 edition.

(d) A cargo tank motor vehicle transporting a commodity which, at the time of loading, has a temperature above its flash point as determined by the same standard method of testing as prescribed in subdivision (c).

(e) A cargo tank motor vehicle, whether loaded or empty, transporting a commodity under special permit pursuant to 49 C.F.R. 170.13.

(3) A stop need not be made at:

(a) A streetcar crossing, or railroad tracks used exclusively for industrial switching purposes, within a business district as defined in R 460.16101.

(b) A railroad grade crossing when a police officer or crossing flagman directs traffic to proceed.

(c) A railroad grade crossing controlled by a functioning highway traffic signal transmitting a green indication which, under local law, permits the vehicle to proceed across the railroad tracks without slowing or stopping.

(d) An abandoned railroad grade crossing which is marked with a sign indicating that the rail line is abandoned.

(e) An industrial or spur line railroad grade crossing marked with a sign reading "Exempt Crossing." Such "Exempt Crossing" signs shall be erected only by or with the consent of the state highway department or local road commission.

History: 1954 ACS 94, p. 137, Eff. Jan. 5, 1978.

R 460.16313 Railroad grade crossings; rate of speed; due caution.

Rule 313. Motor vehicles, other than those listed in R 460.16312, shall, upon approaching a railroad grade crossing, be driven at a rate of speed which permits the motor vehicle to be stopped before reaching the nearest rail of the crossing and shall not be driven upon or over the crossing until due caution is taken to ascertain that the course is clear.

History: 1954 ACS 94, p. 138, Eff. Jan. 5, 1978.

R 460.16314 Drawbridges; rate of speed.

Rule 314. A motor vehicle shall, upon approaching a drawbridge, be driven at a rate of speed which permits the motor vehicle to be stopped before reaching the lip of the draw, and shall proceed only when the draw is completely closed.

History: 1954 ACS 94, p. 138, Eff. Jan. 5, 1978.

R 460.16315 Hazardous conditions; extreme caution.

Rule 315. Extreme caution in the operation of a motor vehicle shall be exercised when hazardous conditions, such as those caused by snow, ice, sleet, fog, mist, rain, dust, or smoke, adversely affect visibility or traction. Speed shall be reduced when such conditions exist. If conditions become sufficiently dangerous, the operation of the vehicle shall be discontinued and shall not be resumed until the vehicle can be safely operated.

History: 1954 ACS 94, p. 138, Eff. Jan. 5, 1978.

R 460.16316 Turn signals; required and prohibited use.

Rule 316. (1) A motor vehicle turn shall be signaled for a distance of not less than 100 feet in advance of, and during, the turning movement by flashing the turn signals at the front and the rear of the vehicle on the side toward which the turning movement is made.

(2) Turn signals shall be flashed to indicate the direction of vehicle movement prior to and during entry of the vehicle into the traffic stream from a parked position.

(3) Turn signals shall be flashed to indicate the direction of vehicle movement continuously for a distance of not less than 100 feet in advance of, and during, the turning movement of the vehicle from 1 traffic lane to another.

(4) Turn signals shall not be flashed on one side only on parked or disabled vehicles.

(5) Turn signals shall not be used as courtesy or "do pass" signals to operators of vehicles approaching from the rear.

History: 1954 ACS 94, p. 139, Eff. Jan. 5, 1978.

R 460.16317 Use of seat belts.

Rule 317. A motor vehicle which has a seat belt assembly installed at the driver's seat shall not be driven unless the driver properly restrains himself with the seat belt assembly.

History: 1954 ACS 94, p. 139, Eff. Jan. 5, 1978.

STOPPED VEHICLES

R 460.16318 Unattended vehicles; precautions.

Rule 318. A motor vehicle shall not be left unattended until the parking brake is securely set and all reasonable precautions are taken to prevent the movement of the vehicle.

History: 1954 ACS 94, p. 139, Eff. Jan. 5, 1978.

R 460.16319 Stopping, parking, or leaving vehicle.

Rule 319. A motor vehicle shall not be stopped, parked, or left standing, whether attended or unattended, upon the traveled portion of a highway outside of a business or residential district when it is practicable to stop, park, or leave the vehicle off the traveled portion of the highway. If conditions make it impracticable to move the motor vehicle from the traveled portion of the highway, the driver shall make every effort to leave all possible width of the highway opposite the standing vehicle for the free passage of other vehicles, and he shall take care to provide a clear view of the standing vehicle as far as possible to the front and rear.

History: 1954 ACS 94, p. 139, Eff. Jan. 5, 1978.

R 460.16320 Stopped vehicles; emergency signals.

Rule 320. (1) Whenever a motor vehicle is stopped upon the traveled portion of a highway or the shoulder of a highway for any cause, other than necessary traffic stops, the driver of the stopped vehicle shall immediately flash the 2 front and 2 rear turn signals simultaneously as a vehicular traffic hazard warning and shall continue the flashing until he places the warning devices required by subrules (2) and (3) in use on the highways. The flashing signals shall be used during the time the warning devices are picked up for storage before movement of the vehicle. The flashing lights may be used at other times while a vehicle is stopped in addition to, but not in lieu of, the warning devices required by subrule (2).

(2) Except as provided in subrule (3), whenever a vehicle is stopped upon the traveled portion of a highway or the shoulder of a highway for any cause other than necessary traffic stops, the driver shall, as soon as possible, but in any event within 10 minutes, place the warning devices with which his vehicle is equipped pursuant to R 460.16459, which shall be either 3 emergency reflective triangles, 3 electric emergency lanterns, 3 liquid-burning emergency flares, or 3 red emergency reflectors. The warning devices shall be placed in the following manner:

(a) One at the traffic side of the stopped vehicle, within 10 feet of the front or rear of the vehicle.

(b) One at a distance of approximately 100 feet from the stopped vehicle in the center of the traffic lane or shoulder occupied by the vehicle and in the direction toward traffic approaching in that lane.

(c) One at a distance of approximately 100 feet from the stopped vehicle in the center of the traffic lane or shoulder occupied by the vehicle and in the direction in which traffic in that lane is moving.

(3) The following special rules apply to the placement of warning devices:

(a) The driver of a vehicle equipped with liquid-burning flares or pot torches shall first place a fusee at the locations specified in subrule (2).

(b) Except as provided in subdivision (c) relative to business and residential districts, during the period lighted lamps are not required, 3 emergency triangles shall be placed as specified in subrule (2) or 2 red flags as specified in subrule (2)(b) and subdivision (c) below. The placement shall be made within 10 minutes after the vehicle is stopped.

(c) The placement of warning devices is not required within the business or residential district of a municipality, except during the time lighted lamps are required and when street or highway lighting is insufficient to make a vehicle clearly discernable at a distance of 500 feet to persons on the highway.

(d) If a motor vehicle is stopped within 500 feet of a curve, crest of a hill, or other obstruction to view, the driver shall place the warning signals required by subrule (2) in the direction of the obstruction to view at a distance of 100 feet to 500 feet from the stopped vehicle so as to afford ample warning to other users of the highway.

(e) If a motor vehicle is stopped upon the traveled portion or the shoulder of a divided or 1-way highway, the driver shall place the warning devices required by subrule (2) so that 1 warning device is at a distance of 100 feet in the direction of approaching traffic. The devices shall be placed in the center of the lane or shoulder occupied by the vehicle. The driver shall place 1 warning device at the traffic side of the vehicle within 10 feet of the rear of the vehicle.

(f) If gasoline or any other flammable liquid, combustible liquid, or gas seeps or leaks from a fuel container or a motor vehicle stopped upon a highway, an emergency warning signal producing a flame shall not be lighted or placed except at such a distance from the liquid or gas as assures the prevention of a fire or explosion.

(4) Subrules (2) and (3) do not apply to the operations of a lightweight vehicle.

History: 1954 ACS 94, p. 139, Eff. Jan. 5, 1978.

R 460.16321 Emergency signals; flame-producing.

Rule 321. A driver shall not attach, or permit a person to attach, a lighted fusee or other flame-producing emergency signal to any part of a motor vehicle.

History: 1954 ACS 94, p. 140, Eff. Jan. 5, 1978.

R 460.16322 Emergency signals; explosive or flammable cargoes.

Rule 322. A driver shall not use, or permit the use of, any flame-producing emergency signal for protecting a motor vehicle transporting class A or B explosives, for protecting a cargo tank motor vehicle used for the transportation of a flammable liquid or flammable compressed gas, whether loaded or empty, for protecting a motor vehicle using compressed gas as a motor fuel. In lieu thereof, emergency reflective triangles, red electric lanterns, or red emergency reflectors shall be used, the placement of which shall be in the same manner as prescribed in R 460.16320(1) and (2).

History: 1954 ACS 94, p. 140, Eff. Jan. 5, 1978.

USE OF LIGHTED LAMPS AND REFLECTORS

R 460.16323 Lighted lamps generally.

Rule 323. A motor vehicle shall not be driven upon the highway unless the lamps required by part 4 are lighted during the period from ½ hour after sunset to ½ hour before sunrise, and at any other time when there is not sufficient light to render clearly discernable persons and vehicles on the highway at a distance of 500 feet.

History: 1954 ACS 94, p. 140, Eff. Jan. 5, 1978.

R 460.16324 Lighted lamps; stopped or parked vehicles.

Rule 324. If a motor vehicle is parked or stopped upon a highway within a business or residential district of a municipality, whether attended or unattended, during the period from ½ hour after sunset to ½ hour before sunrise, at least 1 white or amber light shall be displayed on the traffic side of the motor vehicle, visible from a distance of 500 feet to the front of the motor vehicle, and at least 1 red light, visible from a distance of 500 feet to the rear shall be displayed. The headlamp beam, if in use, shall be dimmed or depressed. Lamps need not be lighted, however, if there is sufficient highway lighting to make clearly discernable persons and vehicles at a distance of 500 feet, unless lighted lamps are required by local ordinance.

History: 1954 ACS 94, p. 140, Eff. Jan. 5, 1978.

R 460.16325 Upper and lower headlamp beams.

Rule 325. During the times when lighted lamps are required, every driver shall obey the following:

(a) He shall use the upper distribution of light when there is no oncoming vehicle within 500 feet. However, a lower distribution of light may be used when fog, dust, or other atmospheric conditions make it desirable for reasons of safety, and when within the confines of municipalities where there is sufficient light to render clearly discernable persons and vehicles on the highway at a distance of 500 feet ahead.

(b) When within 500 feet of an oncoming vehicle, he shall use a distribution of light or composite beam so aimed that the glaring rays are not projected into the eyes of the oncoming driver, and such distribution of light shall also be used when following another vehicle within 300 feet.

History: 1954 ACS 94, p. 140, Eff. Jan. 5, 1978.

R 460.16326 Obscured lamps or reflectors.

Rule 326. A motor vehicle shall not be driven when any of the required lamps or reflectors are obscured by the tailboard, by any part of the load, by dirt, or by other conditions.

History: 1954 ACS 94, p. 141, Eff. Jan. 5, 1978.

ACCIDENTS AND LICENSE REVOCATIONS

R 460.16327 Accidents generally; duties of driver.

Rule 327. A driver of a motor vehicle involved in an accident from which there results injury to, or death of, any person or persons, or property damage of any kind, regardless of the amount, shall:

(a) Stop immediately.

(b) Take all necessary precautions to prevent a further accident at the scene.

(c) Render all reasonable assistance to injured persons, although movement of injured persons by a driver should not be undertaken if likely to cause further injury.

(d) Give to any person, demanding the same, his name and address; the name and address of the motor carrier for whom he is then driving; and the state tag registration number of the vehicle involved. If requested, he shall exhibit his chauffeur's or operator's license.

(e) Report all details of the accident, as soon as practicable after its occurrence, to the motor carrier then using his services.

History: 1954 ACS 94, p. 141, Eff. Jan. 5, 1978.

R 460.16328 Striking unattended vehicle.

Rule 328. If a moving motor vehicle strikes a vehicle standing unattended upon a highway, the driver of the former shall immediately stop and endeavor to locate the custodian of the unattended vehicle, and, if his reasonable effort to do so is unsuccessful, the driver of the vehicle doing the striking shall place, securely and conspicuously in or on that unattended vehicle, his name and address and that of the motor carrier for whom he is then driving.

History: 1954 ACS 94, p. 141, Eff. Jan. 5, 1978.

R 460.16329 Notification of license revocation, suspension, or withdrawal.

Rule 329. A driver who receives a notice that his license, permit, or privilege to operate a motor vehicle has been revoked, suspended, or withdrawn shall notify the motor carrier that employs him of the contents of the notice before the end of the business day following the day he received it.

History: 1954 ACS 94, p. 141, Eff. Jan. 5, 1978.

FUELING PRECAUTIONS

R 460.16330 Fueling motor vehicle; prohibitions.

Rule 330. A driver or employee of a motor carrier shall not:

(a) Fuel a motor vehicle with the engine running, except when it is necessary to run the engine to fuel the vehicle.

(b) Smoke or expose any open flame in the vicinity of a motor vehicle being fueled.

(c) Fuel a motor vehicle unless the nozzle of the fuel hose is continuously in contact with the intake pipe of the fuel tank.

(d) Permit, insofar as practicable, any other person to engage in such activities as are likely to result in fire or explosion.

History: 1954 ACS 94, p. 141, Eff. Jan. 5, 1978.

R 460.16331 Reserve fuel.

Rule 331. A supply of fuel for the propulsion of a motor vehicle or for the operation of accessories shall not be carried on a motor vehicle except in a properly mounted fuel tank or tanks.

History: 1954 ACS 94, p. 141, Eff. Jan. 5, 1978.

PROHIBITED PRACTICES

R 460.16332 Unauthorized persons not to be transported.

Rule 332. (1) Unless specifically authorized in writing to do so by the motor carrier under whose authority the motor vehicle is being operated, a driver shall

not transport a person, or permit a person to be transported, on a motor vehicle. When such authorization is issued, it shall state the name of the person to be transported, the points where the transportation is to begin and end, and the date upon which the authorization expires. A written authorization shall not, however, be necessary for the transportation of:

(a) Employees or other persons assigned to a vehicle by a motor carrier.

(b) A person transported when aid is being rendered in case of an accident or other emergency.

(c) An attendant delegated to care for livestock.

(2) This rule does not apply to the operation of motor vehicles controlled and operated by a farmer and used in the transportation of agricultural commodities or products thereof from his farm or in the transportation of supplies to his farm.

History: 1954 ACS 94, p. 142, Eff. Jan. 5, 1978.

R 460.16333 Driving by unauthorized person.

Rule 333. Except in case of emergency, a driver shall not permit a motor vehicle to which he is assigned to be driven by a person not authorized to drive the vehicle by the motor carrier in control thereof.

History: 1954 ACS 94, p. 142, Eff. Jan. 5, 1978.

R 460.16334 Riding within closed vehicles without proper exits.

Rule 334. A person shall not ride within the closed body of a motor vehicle unless there are means, on the inside thereof, of obtaining exit. The means of exit shall be in such condition as to permit ready operation by the occupant.

History: 1954 ACS 94, p. 142, Eff. Jan. 5, 1978.

R 460.16335 Sleeper berth; transfer to or from.

Rule 335. A person shall not transfer to or from a sleeper berth while a motor vehicle is in motion unless by means of a direct access between the cab and the berth.

History: 1954 ACS 94, p. 142, Eff. Jan. 5, 1978.

R 460.16336 Carbon monoxide; use of vehicle when detected.

Rule 336. A person shall not dispatch or drive a motor vehicle, or permit any passengers thereon, when the following conditions are known to exist, until such conditions are remedied or repaired:

(a) Where an occupant has been affected by carbon monoxide.

(b) Where carbon monoxide has been detected in the interior of the vehicle.

(c) When a mechanical condition of the vehicle is discovered which is likely to produce a hazard to the occupants by reason of carbon monoxide.

History: 1954 ACS 94, p. 142, Eff. Jan. 5, 1978.

R 460.16337 Open flame heaters; operation.

Rule 337. An open flame heater used in the loading or unloading of the commodity transported shall not be in operation while the vehicle is in motion.

History: 1954 ACS 94, p. 142, Eff. Jan. 5, 1978.

R 460.16338 Motive power; disengagement.

Rule 338. A motor vehicle shall not be driven with the source of motive power disengaged from the driving wheels, except when such disengagement is necessary to stop or to shift gears.

History: 1954 ACS 94, p. 142, Eff. Jan. 5, 1978.

PART 4. PARTS AND ACCESSORIES NECESSARY FOR SAFE OPERATION

R 460.16401 Compliance.

Rule 401. A motor carrier, and its officers, agents, drivers, representatives, and employees directly concerned with the installation and maintenance of equipment and accessories, shall comply and be conversant with the requirements and specifications of this part. A motor carrier shall not operate a vehicle, or cause or permit it to be operated, unless it is equipped pursuant to such requirements and specifications.

History: 1954 ACS 94, p. 142, Eff. Jan. 5, 1978.

R 460.16402 Additional equipment and accessories.

Rule 402. These rules shall not be construed to prohibit the use of additional equipment and accessories, not inconsistent with or prohibited by these rules, if such equipment and accessories do not decrease the safety of operation of the motor vehicles on which they are used.

History: 1954 ACS 94, p. 142, Eff. Jan. 5, 1978.

LIGHTING DEVICES, REFLECTORS, AND ELECTRICAL EQUIPMENT

R 460.16403 Lamps and reflectors; small trucks.

Rule 403. A truck less than 80 inches in overall width shall be equipped as follows:

(a) On the front, there shall be not less than 2 headlamps and an equal number on each side, 2 turn signals, 1 on each side.

(b) On the rear, there shall be 2 tail lamps, 1 on each side; 2 stop lamps, 1 on each side; 2 turn signals, 1 on each side; and 2 reflectors, 1 at each side.

History: 1954 ACS 94, p. 143, Eff. Jan. 5, 1978.

R 460.16404 Lamps and reflectors; large trucks.

Rule 404. A truck 80 inches or more in overall width shall be equipped as follows:

(a) On the front, there shall be not less than 2 headlamps and an equal number on each side; 2 turn signals, 1 on each side; 2 clearance lamps, 1 on each side; 3 identification lamps, mounted on the vertical centerline of the vehicle or the vertical centerline of the cab where different from the centerline of the vehicle, except that, where the cab is not more than 42 inches wide at the front roofline, a single lamp at the center of the cab shall be deemed to comply with the requirements for identification lamps. No part of the identification lamps or their mounts shall extend below the top of the vehicle windshield.

(b) On the rear, there shall be 2 tail lamps, 1 on each side; 2 stop lamps, 1 on each side; 2 turn signals, 1 on each side; 2 clearance lamps, 1 on each side; 2 reflectors, 1 on each side; 3 identification lamps mounted on the vertical centerline of the vehicle. However, the identification lamps need not be lighted if obscured by a vehicle towed by the truck.

(c) On each side, there shall be 1 side-marker lamp at or near the front; 1 side-marker lamp at or near the rear; 1 reflector at or near the front; and 1 reflector at or near the rear.

History: 1954 ACS 94, p. 143, Eff. Jan. 5, 1978.

R 460.16405 Lamps and reflectors; truck tractors.

Rule 405. A truck tractor shall be equipped as follows:

(a) On the front, there shall be not less than 2 headlamps, an equal number on each side; 2 turn signals, 1 on each side; 2 clearance lamps, 1 on each side; 3 identification lamps, mounted on the vertical centerline of the vehicle or the vertical centerline of the cab where different from the centerline of the vehicle, except that, where the cab is not more than 42 inches wide at the front roofline, a single lamp at the center of the cab shall be deemed to comply with the requirement for identification lamps. No part of the identification lamps or their mountings shall extend below the top of the vehicle windshield.

(b) On the rear there shall be 1 tail lamp; 1 stop lamp, 2 reflectors, 1 on each side; and, unless the turn signals on the front are so constructed (e.g., double faced) and located as to be visible to passing drivers, 2 turn signals on the rear of the cab, 1 on each side.

History: 1954 ACS 94, p. 143, Eff. Jan. 5, 1978.

R 460.16406 Lamps and reflectors; large semitrailers and full trailers.

Rule 406. (1) A semitrailer or full trailer 80 inches or more in overall width, except converter dollies, shall be equipped as follows:

(a) On the front, there shall be 2 clearance lamps, 1 on each side.

(b) On the rear, there shall be 2 tail lamps, 1 on each side; 2 stop lamps, 1 on each side; 2 turn signals, 1 on each side; 2 clearance lamps, 1 on each side; 2 reflectors, 1 on each side; and 3 identification lamps mounted on the vertical centerline of the vehicle. However, the identification lamps need not be lighted if obscured by another vehicle in the same combination.

(c) On each side, there shall be 1 side-marker lamp on or near the front; 1 side-marker lamp on or near the rear; 1 reflector on or near the rear; and, in the case of semitrailers and full trailers 30 feet or more in length, at least 1 additional side-marker lamp at optional height and at least 1 additional reflector, the additional side-marker lamp or lamps, and reflector or reflectors, to be at or near the center, or at approximately uniform spacing in the length, of the vehicle.

(2) A converter dolly is a motor vehicle with a fifth wheel lower half or equivalent mechanism, the attachment of which vehicle converts a semitrailer to a full trailer. Each dolly, when towed singly by another vehicle, and not as part of a full trailer, shall be equipped with 1 stop lamp, 1 tail lamp, and 2 reflectors on the rear. Lighting devices or reflectors are not required on the front or sides of a dolly.

History: 1954 ACS 94, p. 143, Eff. Jan. 5, 1978.

R 460.16407 Lamps and reflectors; small semitrailers and full trailers.

Rule 407. A semitrailer or full trailer less than 80 inches in overall width shall be equipped so as to have, on the rear, 2 tail lamps, 1 on each side; 2 turn signals, 1 on each side; 2 reflectors, 1 on each side; and 2 stop lamps, 1 on each side.

History: 1954 ACS 94, p. 144, Eff. Jan. 5, 1978.

R 460.16408 Lamps and reflectors; pole trailers.

Rule 408. Every pole trailer shall be equipped as follows:

(a) On the rear, there shall be 2 tail lamps, 1 on each side; 2 stop lamps, 1 on each side; 2 turn signals, 1 on each side; 2 reflectors, 1 on each side, placed to indicate the extreme width of the pole trailer; 3 identification lamps mounted on the vertical centerline of the pole trailer or, in lieu thereof, mounted on the vertical centerline of the rear of the cab of the truck tractor drawing the pole trailer and higher than the load being transported.

(b) On the rear of vehicles with projecting loads, lamps shall be placed pursuant to R 460.16410.

(c) On each side, there shall be 1 amber side-marker lamp at or near the front of load; 1 amber reflector at or near the front of the load; on the rearmost support for the load, 1 combination marker lamp, showing amber to the front and red to the rear and side, mounted to indicate maximum width of the pole trailer; and on the rearmost support for the load, 1 red reflector.

History: 1954 ACS 94, p. 144, Eff. Jan. 5, 1978.

R 460.16409 Lamps and reflectors; combinations in driveaway-towaway operations.

Rule 409. Combinations of motor vehicles engaged in driveaway-towaway operations shall be equipped as follows:

(a) On the towing vehicle:

(i) There shall be, on the front, not less than 2 headlamps, an equal number on each side; 2 turn signals and 2 clearance lamps, 1 on each side.

(ii) There shall be, on the rear, 1 tail lamp and 1 stop lamp.

(b) On the towed vehicle of a tow-bar combination, the towed vehicle of a single saddle-mount combination and on the rearmost towed vehicle of a double or triple saddle-mount combination, or on a vehicle full-mounted on a saddle-mount:

(i) There shall be, on each side and near the rear, 1 side-marker lamp.

(ii) There shall be, on the rear, 1 tail lamp; 1 stop lamp; 2 turn signals; 2 clearance lamps; 2 reflectors, 1 on each side; and, if any vehicle in the combination is 80 inches or more in overall width, 3 identification lamps.

(c) On the first saddle-mounted vehicle of a double saddle-mount combination, and on the first and second saddle-mounted vehicles of a triple saddle-mount combination, there shall be, on each side and near the rear, 1 side-marker lamp.

History: 1954 ACS 94, p. 144, Eff. Jan. 5, 1978.

R 460.16410 Lamps on motor vehicles with projecting loads.

Rule 410. (1) A motor vehicle transporting a load which extends beyond the width, or having projections beyond the rear, of the vehicle shall be equipped with the following lamps in addition to other required lamps:

(a) For loads projecting beyond the sides of the motor vehicles:

(i) The foremost edge of the projecting load at its outermost extremity shall be marked with an amber lamp visible from the front and side.

(ii) The rearmost edge of the projecting load at its outermost extremity shall be marked with a red lamp visible from the rear and side.

(iii) If any portion of the projecting load extends beyond both the foremost and rearmost edge, it shall be marked with an amber lamp visible from the front, side, and rear.

(iv) If the projecting load does not measure over 3 feet from front to rear, it shall be marked with an amber lamp visible from the front, side, and rear, but if the projection is located at or near the rear, it shall be marked by a red lamp visible from the front, side, and rear.

(b) Motor vehicles transporting loads which extend over 4 feet beyond the rear of the motor vehicle, or which have tailboards or tailgates extending over 4 feet beyond the body, shall have these projections marked as follows:

(i) On each side of the projecting load, 1 red lamp visible from the side, located so as to indicate maximum overhang.

(ii) On the rear of the projecting load, 2 red lamps, visible from the rear, 1 on each side and 2 red reflectors visible from the rear, 1 on each side, located so as to indicate maximum width.

(2) Requirements for the placement of flags on vehicles with projecting loads are provided by R 460.16455.

History: 1954 ACS 94, p. 144, Eff. Jan. 5, 1978.

R 460.16411 Requirements for turn signaling systems.

Rule 411. Every motor vehicle shall be equipped with a signaling system that, in addition to signaling turning movements as required by R 460.16316, shall have a switch or combination of switches that cause the 2 front turn signals and the 2 rear turn signals to flash simultaneously as a vehicular traffic hazard warning required by R 460.16320(1). The system shall be capable of flashing simultaneously with the ignition of the vehicle turned on or off.

History: 1954 ACS 94, p. 145, Eff. Jan. 5, 1978.

R 460.16412 Clearance lamps to indicate extreme width and height.

Rule 412. Clearance lamps shall be mounted so as to indicate the extreme width of the motor vehicle, not including mirrors, and as near the top thereof as practicable. However, when rear identification lamps are mounted at the extreme height of the vehicle, rear clearance lamps may be mounted at optional height. Also, when the mounting of front clearance lamps at the highest point of a trailer results in such lamps failing to mark the extreme width of the trailer, the lamps may be mounted at optional height, but must indicate the extreme width of the trailer. Clearance lamps on truck tractors shall be so located as to indicate the extreme width of the truck tractor cab.

History: 1954 ACS 94, p. 145, Eff. Jan. 5, 1978.

R 460.16413 Combination of lighting devices and reflectors.

Rule 413. (1) Except as provided in subrules (2) to (4), 2 or more lighting devices and reflectors, whether or not required by the rules in this part, may be combined optically if each required lighting device and reflector conforms to the applicable rules in this part and neither the mounting nor the use of a non-required lighting device or reflector impairs the effectiveness of a required lighting device or reflector, or causes that device or reflector to be inconsistent with the applicable rules in this part.

(2) A turn signal lamp shall not be combined optically with either a head lamp or other lighting device, or combination of lighting devices, that produces a greater intensity of light than the turn signal lamp.

(3) A turn signal lamp shall not be combined optically with a stop lamp, unless the stop lamp function is always deactivated when the turn signal function is activated.

(4) A clearance lamp shall not be combined optically with a tail lamp or identification lamp.

History: 1954 ACS 94, p. 145, Eff. Jan. 5, 1978.

R 460.16414 Lighting devices to be electric.

Rule 414. Lighting devices shall be electric, except that red, liquid-burning lanterns may be used on the end of loads such as poles, pipes, and ladders projecting to the rear of the motor vehicle.

History: 1954 ACS 94, p. 145, Eff. Jan. 5, 1978.

R 460.16415 Requirements of head lamps and auxiliary road lighting lamps.

Rule 415. (1) Head lamps and auxiliary road lighting lamps shall be mounted so that the beams are readily adjustable, both vertically and horizontally, and the mounting shall be such that the aim is not readily disturbed by ordinary conditions of service.

(2) A truck and truck tractor shall be equipped with a headlighting system composed of not less than 2 head lamps, not including fog or other auxiliary lamps, with an equal number on each side of the vehicle. The headlighting system shall provide an upper and lower distribution of light, selectable at the driver's will.

(3) For the purposes of this rule, fog, adverse-weather, and auxiliary road-lighting lamps, when installed, are considered to be a part of the headlighting system. Such lamps may be used in lieu of head lamps, under conditions making their use advisable, if there is at least 1 such lamp conforming to the appropriate SAE standard for such lamps on each side of the vehicle.

(4) Head lamps shall be constructed and installed so as to provide adequate and reliable illumination, and shall conform to the appropriate specification set forth in the SAE standards for electric head lamps for motor vehicles or sealed-beam head lamp units for motor vehicles.

History: 1954 ACS 94, p. 145, Eff. Jan. 5, 1978.

R 460.16416 Requirements for lamps other than head lamps.

Rule 416. (1) All lamps shall be permanently and securely mounted in workmanlike manner on a permanent part of the motor vehicle, except that temporary lamps on motor vehicles being transported in driveaway-towaway operations and temporary electric lamps on projecting loads need not be permanently mounted nor mounted on a permanent part of the vehicle. The requirement for 3 identification lamps on the centerline of a vehicle is met as to location by 1 lamp on the centerline, with the other 2 at right and left. All temporary lamps shall be firmly attached.

(2) All required exterior lamps shall be so mounted as to be capable of being seen at all distances between 500 feet and 50 feet under clear atmospheric conditions during the time lamps are required to be lighted. The light from front clearance lamps and front identification lamps shall be visible to the front; the light from side-marker lamps shall be visible to the side; the light from rear clearance, rear identification, and tail lamps shall be visible to the rear; and the light from projecting load-marker lamps shall be visible from those directions required by R 460.16410. This subrule shall not be construed to apply to lamps on 1 unit which are obscured by another unit of a combination of vehicles.

(3) All required lamps, except lamps already installed on vehicles tendered for transportation in driveaway and towaway operations, shall be marked with the manufacturer's or supplier's name or trade name and shall be marked with the particular SAE designation that is proper for the use to which the lamp is being put on the motor vehicle.

(4) The color of exterior lighting devices, not otherwise specified in these rules, shall be as follows:

(a) Front clearance and identification lamps, and side-marker lamps, except those at or near the rear, shall, when lighted, display an amber color.

(b) A lighted red lamp of any character shall not be displayed at any place other than on the rear or on the sides near the rear, except that this prohibition does not apply to lamps on projecting loads as specified in R 460.16410, or to rear-facing lenses of turn signals.

(c) Rear clearance and identification lamps, the side-marker lamps at or near the rear, and any other lamps mounted on the rear, or on the sides near the rear, shall, when lighted, display a red color, except as specified by R 460.16408 and R 460.16410 and as permitted by subdivisions (d) to (f).

(d) The stop lamp or lamps, and the turn signals on or facing the rear of a motor vehicle, shall be red, yellow, amber, or any shade of color between red and yellow. The turn signals facing the front of a motor vehicle shall be white, amber, or any shade of color between white and amber.

(e) The back-up lamp or lamps, showing white to amber to the rear, may be mounted on the rear of any vehicle if such lamp or lamps can be lighted only when the vehicle is in reverse gear or when a pilot lamp readily visible to the driver is burning to indicate that such back-up lamp or lamps are lighted.

(f) White lamps may be used for the purpose of illuminating license plates on a vehicle.

(g) This rule shall not be so construed as to prohibit the use of motor vehicles in combination if such motor vehicles are separately lighted as required by R 460.16403 to R 460.16409.

(h) Whenever reference is made in these rules to the colors red, amber, or white, such colors shall be as prescribed in the SAE standard color specification for electric lamps.

(5) Exterior lighting devices shall be of the steady-burning type, except turn signals on a vehicle; stop lamps when used as turn signals; warning lamps on school buses when operating as such; and warning lamps on emergency and service vehicles authorized by state or local authorities. However, lamps combined into the same shell or housing with a turn signal may be turned off by the same switch that turns the signal on for flashing, and may be turned on again when the turn signal, as such, is turned off. This requirement shall not be construed to prohibit the use of turn signals to give vehicular traffic hazard warning signals as required by R 460.16320.

(6) Stop lamps on a motor vehicle, or combination of motor vehicles, shall be actuated upon application of any of the service brakes. However, such actuation is not required upon activation of the emergency feature of trailer brakes by means of either manual or automatic control on the towing vehicle. Also, stop lamps on a towing vehicle need not be actuated when service brakes are applied to the towed vehicle or vehicles only, and a stop lamp need not be actuated as such when it is used as a turn signal or when it is turned off by the turn signal switch as provided in subrule (6).

History: 1954 ACS 94, p. 146. Eff. Jan. 5, 1978.

R 460.16417 Requirements for reflectors.

Rule 417. (1) Required reflectors shall be mounted upon the motor vehicle at a height not less than 15 inches nor more than 60 inches above the ground on which the motor vehicle stands, except the reflectors shall be mounted as high as practicable on motor vehicles which are so constructed as to make compliance with the 15-inch requirement impractical. The reflectors shall be so installed as to perform their function adequately and reliably, and, except for temporary reflectors required for vehicles in driveaway-towaway operations or required on projecting loads, all reflectors shall be permanently and securely mounted in workmanlike manner so as to provide the maximum of stability and the minimum likelihood of damage. Required reflectors, otherwise properly mounted, may be securely installed on flexible strapping or belting if, under conditions of normal operation, they reflect light in the required directions. Required temporary

reflectors mounted on motor vehicles during the time they are in transit in any driveaway-towaway operation shall be firmly attached.

(2) Required reflectors, except those already installed on vehicles tendered for transportation in driveaway and towaway operations, shall conform to the requirements for class A reflectors in the SAE recommended practice or SAE standard reflex reflectors and be marked with the particular SAE designation that is proper for class A reflectors.

(3) Reflectors on the rear and those reflectors nearest to the rear on the sides, except those referred to in subrule (4), shall reflect a red color. All other reflectors, except those referred to in subrule (4), shall reflect an amber color. However, this requirement shall not be construed to prohibit the use of motor vehicles in combination if such motor vehicles are separately equipped with reflectors as required by R 460.16403 to R 460.16409. Wherever reference is made to the colors red or amber for reflectors, such colors shall correspond to the requirements in the SAE standard, color specification for electric lamps.

(4) Retroreflective surfaces other than required reflectors may be used if:

(a) Designs do not resemble traffic control signs, lights, or devices, except that straight edge striping resembling a barricade pattern may be used.

(b) Designs do not tend to distort the length or width, or both, of the motor vehicle.

(c) Such surfaces shall be not less than 3 inches from any required lamp or reflector, unless of the same color as the lamp or reflector.

(d) A red color shall not be used on the front of any motor vehicle, except for display of marking or placards required by 49 C.F.R. 177.823.

(e) Retroreflective license plates required by state or local authorities may be used.

History: 1954 ACS 94, p. 147, Eff. Jan. 5, 1978.

R 460.16418 Wiring specifications.

Rule 418. Wiring for both low tension and high tension circuits shall be constructed and installed so as to function reliably and adequately, and shall conform to the appropriate requirements in the SAE standard for insulated cable or by wiring which is mechanically and electrically at least equal to such cable. Required lamps shall be connected to the source of power with stranded wire. The source of power and the electrical wiring shall be of such size and characteristics that required lamps shall, when lighted, be capable of being seen not less than 500 feet under clear atmospheric conditions during the time lamps are required to be lighted. This rule shall not be so construed as to prohibit the use of the frame or other metal parts of a motor vehicle as a return ground system, provided that, for truck tractor-semitrailer combinations, the truck tractor is electrically bonded to the semitrailer.

History: 1954 ACS 94, p. 147, Eff. Jan. 5, 1978.

R 460.16419 Wiring to be protected.

Rule 419. Wiring shall, when possible, be grouped together and protected by nonmetallic tape, braid, or other covering capable of withstanding severe abrasion, or shall be protected by being enclosed in a metallic sheath or tube. Wiring shall be properly supported. Wiring shall not be so located as to be likely to be charred, overheated, or enmeshed in moving parts. Insofar as is practicable, wiring shall not be adjacent to any part of the fuel system. The edges of all holes in metal through which the wiring passes, unless the wiring is metal-covered, shall be rolled or bushed with a grommet of rubber or other suitable material.

History: 1954 ACS 94, p. 147, Eff. Jan. 5, 1978.

R 460.16420 Grounds.

Rule 420. The battery ground and trailer return ground connections on a grounded system shall be readily accessible. The contact surfaces of electrical connections shall be clean and free of oxide, paint, or other nonconductive coating.

History: 1954 ACS 94, p. 148, Eff. Jan. 5, 1978.

R 460.16421 Battery installation.

Rule 421. Every storage battery on every vehicle, unless located in the engine compartment, shall be covered by a fixed part of the motor vehicle or protected by a removable cover or enclosure. Removable covers or enclosures shall be substantial and shall be securely latched or fastened. The storage battery compartment and adjacent metal parts, which might corrode by reason of battery leakage, shall be painted or coated with an acid-resisting paint or coating, and shall have openings to provide ample battery ventilation and drainage. Wherever the cable to the starting motor passes through a metal compartment, the cable shall be protected against grounding by an acid and waterproof insulating bushing. Wherever a battery and a fuel tank are both placed under the driver's seat, they shall be partitioned from each other, and each compartment shall be provided with an independent cover, ventilation, and drainage.

History: 1954 ACS 94, p. 148, Eff. Jan. 5, 1978.

R 460.16422 Overload protective devices.

Rule 422. The current to all low tension circuits shall pass through overload protective devices, except that this requirement is not applicable to battery-to-starting motor or battery-to-generator circuits, ignition and engine control circuits, horn circuits, electrically operated fuel pump circuits, or electric brake circuits. Protective devices for electric circuits on every motor vehicle, the date of manufacture of which is subsequent to June 30, 1953, except motor vehicles being transported in driveaway-towaway operations, shall be arranged so that either the head lamp circuit or circuits shall not be affected by a short circuit in any of the other lighting circuits on the motor vehicle, or, if the head lamp circuit is protected in common with other electrical circuits, the protection device shall be an automatic reset overload circuit breaker.

History: 1954 ACS 94, p. 148, Eff. Jan. 5, 1978.

R 460.16423 Detachable electrical connections.

Rule 423. Electrical wiring between towing and towed vehicles shall be contained in a cable or cables or entirely within another substantially constructed protective device. All such electrical wiring shall be mechanically and electrically adequate and shall be free of short or open circuits. Suitable provision shall be made in every such detachable connection to afford reasonable assurance against connection in an incorrect manner or accidental disconnection. Detachable connections made by twisting together wires from the towed and towing units are prohibited. Precaution shall be taken to provide sufficient slack in the connecting wire or cable to accommodate, without damage, all normal motions of the parts to which they are attached.

History: 1954 ACS 94, p. 148, Eff. Jan. 5, 1978.

R 460.16424 Wiring; installation.

Rule 424. Electrical wiring shall be systematically arranged and installed in a workmanlike manner. All detachable wiring, except temporary wiring connec-

tions for driveaway-towaway operations, shall be attached to posts or terminals by means of suitable cable terminals which conform to the SAE standard for cable terminals or by cable terminals which are mechanically and electrically at least equal to such terminals. The number of wires attached to any post shall be limited to the number which such post was designed to accommodate. The presence of bare, loose, dangling, chafing, or poorly connected wires is prohibited.

History: 1954 ACS 94, p. 148, Eff. Jan. 5, 1978.

BRAKES

R 460.16425 Required brake systems.

Rule 425. (1) A truck, truck tractor, or a combination of motor vehicles shall have brakes adequate to control the movement of, and to stop and hold, the vehicle or combination of vehicles.

(2) A truck, truck tractor, or combination of motor vehicles shall have both of the following:

(a) A service brake system that conforms to the requirements of R 460.16436.

(b) A parking brake system that conforms to the requirements of R 460.16426.

(3) A truck, truck tractor, or combination of motor vehicles manufactured on or after July 1, 1973, shall have an emergency brake system that conforms to the requirements of R 460.16436(2) and consists of either emergency features of the service brake system or system separate from the service brake system. A control by which the driver applies the emergency brake system shall be located so that the driver can readily operate it when he is properly restrained by a seat belt assembly provided for his use. The control for applying the emergency brake system may be combined with either the control for applying the service brake system or the control for applying the parking brake system. However, all 3 controls may not be combined.

(4) If the brake systems specified in subrules (2) and (3) are interconnected in any way, they must be designed, constructed, and maintained so that, upon the failure of any part of the operating mechanism of 1 or more of the systems, except the service brake actuation pedal or valve, the vehicle has operative brakes and, in the case of a vehicle manufactured on or after July 1, 1973, the vehicle has operative brakes capable of performing as specified in R 460.16436(2).

(5) A motor vehicle to which the emergency brake system requirements of motor vehicle safety standard no. 105, being 49 C.F.R. 571.105, applied to the time of its manufacture, conforms to the requirements of subrule (4) if it is maintained in conformity with the emergency brake requirements of standard no. 105 in effect on the date of its manufacture, and if it is capable of performing as specified in R 460.16436(2), except upon structural failure of its brake master cylinder body or effectiveness indicator body.

History: 1954 ACS 94, p. 148, Eff. Jan. 5, 1978.

R 460.16426 Parking brake system.

Rule 426. (1) A singly driven motor vehicle, as well as a combination of motor vehicles, shall at all times be equipped with a parking brake system adequate to hold the vehicle or combination on any grade on which it is operated under any conditions of loading on a surface free from ice or snow.

(2) The parking brake system shall at all times be capable of being applied in conformance with the requirements of subrule (1) by either the driver's muscular effort, or by spring action, or by other energy. However, if such other energy is depended on for application of the parking brake, then an accumulation of such energy shall be isolated from any common source and used exclusively for the operation of the parking brake.

(3) The parking brake system shall be held in the applied position by energy other than fluid pressure, air pressure, or electric energy. The parking brake system shall be such that it cannot be released unless adequate energy is available upon release of the parking brake to make immediate further application with the required effectiveness.

History: 1954 ACS 94, p. 149, Eff. Jan. 5, 1978.

R 460.16427 Brakes required on all wheels.

Rule 427. A motor vehicle shall be equipped with brakes acting on all wheels. This requirement does not apply to:

(a) A full trailer, semitrailer, or pole trailer of a gross weight not exceeding 3,000 pounds if the gross weight of any such full trailer or pole trailer, no part of the load of which rests upon the towing vehicle, does not exceed 40% of the gross weight of the towing vehicle, and if the gross weight of the towing vehicle, and if the gross weight of any such semitrailer or pole trailer, part of the load of which rests upon the towing vehicle, does not exceed 40% of the gross weight of the towing vehicle when connected to such semitrailer or pole trailer.

(b) A vehicle being towed in a driveaway-towaway operation, if the combination of vehicles is capable of complying with the performance requirements of R 460.16436. Only such brakes on the vehicle or vehicles being towed in driveaway-towaway operations need be operative as may be necessary to insure compliance with the performance requirements of R 460.16436. This subdivision is not applicable to a motor vehicle towed by means of a tow-bar when any vehicle is full-mounted on such motor vehicle or any combination of motor vehicles utilizing 3 saddle-mounts.

(c) Trucks and truck tractors having 3 or more axles. Such trucks need not have brakes on the front wheels. When such vehicles are equipped with not less than 2 steerable axles, the wheels of 1 such axle need not be equipped with brakes.

History: 1954 ACS 94, p. 149, Eff. Jan. 5, 1978.

R 460.16428 Breakaway and emergency braking.

Rule 428. (1) A motor vehicle, if used to tow a trailer equipped with brakes, shall be equipped with means for providing that, in case of breakaway of such trailer, the service brakes on the towing vehicle are sufficiently operative to stop the towing vehicle.

(2) A truck or tractor equipped with air brakes, when used for towing other vehicles equipped with air brakes, shall be equipped with 2 means of activating the emergency features of the trailer brakes. One of these means shall operate automatically in the event of reduction of the towing vehicle air supply to a fixed pressure, which shall not be less than 20 pounds per square inch nor more than 45 pounds per square inch. The other means shall be a manually controlled device readily operable by a person seated in the driving seat. Its emergency position or method of operation shall be clearly indicated. In no instance may the manual means be so arranged as to permit its use to prevent operation of the automatic means. The automatic and manual means required by this rule may be, but are not required to be, separate.

(3) A truck tractor and truck, when used for towing other vehicles equipped with vacuum brakes, shall have, in addition to the single control required by R 460.16433 to operate all brakes of the combination, a second manual control device which can be used to operate the brakes on the towed vehicles in emergencies. Such second control shall be independent of brake air, hydraulic, and other pressure, and independent of other controls, unless the braking system

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

is so arranged that failure of the pressure on which the second control depends causes the towed vehicle brakes to be applied automatically. The second control is not required by this rule to provide modulated or graduated braking.

(4) A trailer required to be equipped with brakes shall be equipped with brakes of such character as to be applied automatically and promptly upon breakaway from the towing vehicle, and means shall be provided to maintain application of the brakes on the trailer in such case for not less than 15 minutes.

(5) Air brake systems installed on towed vehicles shall be so designed, by the use of "no-bleed-back" relay emergency valves or equivalent devices, that the supply reservoir used to provide air for brakes shall be safeguarded against backflow of air to the towing vehicle upon reduction of the towing vehicle air pressure.

(6) The requirements of subrules (2) to (4) are not applicable to motor vehicles in driveaway-towaway operations.

History: 1954 ACS 94, p. 150, Eff. Jan. 5, 1978.

R 460.16429 Brake tubing and hose.

Rule 429. (1) Brake tubing and brake hose shall:

(a) Be designed and constructed in a manner that insures proper, adequate, and continued functioning of the tubing or hose.

(b) Be installed in a manner that insures proper continued functioning of the tubing or hose.

(c) Be long and flexible enough to accommodate, without damage, all normal motions of the parts to which it is attached.

(d) Be suitably secured against chafing, kinking, or other mechanical damage.

(e) Be installed in a manner that prevents it from contacting the vehicle's exhaust system or any other source of high temperatures.

(f) Conform to the applicable requirements of subrules (2) to (4).

(2) Except as provided in subrule (4), brake hose installed on a motor vehicle on or after October 1, 1973, shall conform to 1 of the following specifications:

(a) As to hydraulic brake hose, the society of automotive engineers standard J1401, January, 1967.

(b) As to air brake hose, the society of automotive engineers standard J1402b, June, 1971.

(c) As to vacuum brake hose, the society of automotive engineers standard J1403, June, 1968.

(3) Except as provided in subrule (4), brake hose installed on a motor vehicle before October 1, 1973, shall conform to either of the following:

(a) The applicable specification set forth in subrule (2).

(b) The applicable specification in the SAE standard for automotive brake hoses published in the 1952 edition of the SAE handbook.

(4) Coiled nylon brake tubing may be used for connections between towed and towing vehicles if such tubing complies with each of the following:

(a) The tubing conforms to the requirements for type 3B nylon tubing set forth in society of automotive engineers standard J844c, air brake tubing and pipe, December, 1970.

(b) The coiled tubing has a straight segment (pigtail) at each end that is not less than 2 inches in length and is encased in a spring guard or similar device which prevents the tubing from kinking at the fitting at which it is attached to the vehicle.

(c) The spring guard or similar device has not less than 2 inches of closed coils or similar surface at its interface with the fitting and extends not less than 1 to 1½ inches into the coiled segment of the tubing from its straight segment.

History: 1954 ACS 94, p. 150, Eff. Jan. 5, 1978.

R 460.16430 Brake tubing and hose connections.

Rule 430. All connections for air, vacuum, or hydraulic braking systems shall:

(a) Be adequate in material and construction to insure proper continued functioning.

(b) Be designed, constructed, and installed so as to insure, when properly connected, an attachment free of leaks, constrictions, or other defects.

(c) Have suitable provision in every detachable connection to afford reasonable assurance against accidental disconnection.

(d) Have the vacuum brake engine manifold connection at least ⅜ inch in diameter.

History: 1954 ACS 94, p. 151, Eff. Jan. 5, 1978.

R 460.16431 Brake lining.

Rule 431. The brake lining on every motor vehicle shall be so constructed and installed as not to be subject to excessive fading and grabbing, and shall be adequate in thickness, means of attachment, and physical characteristics to provide for safe and reliable stopping of the motor vehicle.

History: 1954 ACS 94, p. 151, Eff. Jan. 5, 1978.

R 460.16432 Brakes to be operational.

Rule 432. (1) Except as provided in subrules (2) to (5), all brakes with which a motor vehicle is equipped shall at all times be capable of operating.

(2) A motor vehicle may be equipped with a device to reduce the braking effort upon its front wheels or, in the case of a 3-axle truck or truck tractor manufactured before March 1, 1975, may be equipped with a device to remove the braking effort upon its front wheels, if that device conforms to, and is used in compliance with, subrules (3) or (4).

(3) A manually operated device to reduce or remove the front-wheel braking effort shall not be:

(a) Installed in a motor vehicle other than a truck or truck tractor.

(b) Installed and operable in a truck or truck tractor manufactured on or after March 1, 1975.

(c) Used, except when the vehicle is operating under adverse road conditions, such as wet, snowy, or icy roads.

(4) An automatic device to reduce the front-wheel braking effort shall not:

(a) Be installed in a motor vehicle unless that vehicle is equipped with an air mechanical brake system or a hydraulic brake system utilizing compressed air.

(b) Be operable by the driver except upon application of the control that activates the braking system.

(c) Reduce the braking force when the air pressure that transmits brake control application forces exceeds the vehicle's air compressor cut-in pressure.

(5) Subrule (1) does not apply to:

(a) A disabled vehicle being towed.

(b) A vehicle being towed in a driveaway-towaway operation which is exempt from the general provision of R 460.16427(b).

History: 1954 ACS 94, p. 151, Eff. Jan. 5, 1978.

R 460.16433 Single valve to operate all brakes.

Rule 433. A motor vehicle, the date of manufacture of which is subsequent to June 30, 1953, which is equipped with power brakes, shall have the braking system so arranged that 1 application valve shall, when applied, operate all the service brakes on the motor vehicle or combination of motor vehicles. This requirement shall not be construed to prohibit motor vehicles from being equipped with an additional valve to be used to operate the brakes on a trailer or trailers. This rule shall not be applicable to driveaway-towaway operations unless the brakes on such operations are designed to be operated by a single valve.

History: 1954 ACS 94, p. 151, Eff. Jan. 5, 1978.

R 460.16434 Reservoirs required.

Rule 434. (1) As provided in subrule (4), every truck and truck tractor made after June 30, 1953, and using air or vacuum for braking, shall be equipped with reserve capacity or a reservoir sufficient to insure a full service brake application with the engine stopped without depleting the air pressure or vacuum below 70% of that pressure or degree of vacuum indicated by the gauge immediately before the brake application is made. For purposes of this rule, a full service brake application is considered to be made when the service brake pedal is pushed to the limit of its travel.

(2) A truck and truck tractor, when equipped with air or vacuum reservoirs and regardless of date of manufacture, shall have such reservoirs so safeguarded by a check valve or equivalent device that, in the event of failure or leakage in its connection to the source of compressed air or vacuum, the air or vacuum supply in the reservoir shall not be depleted by the leak or failure.

(3) Means shall be provided to verify that the check valve is in working order. Means other than loosening or disconnection of a connection between the source of compressed air or vacuum and the check valve, and necessary tools for the operation of such means, shall be provided to prove that the check valve is in working order. The means shall be readily accessible either from the front, side, or rear of the vehicle, or from the driver's compartment. The means for verifying the operation of the check valve shall be as follows:

(a) In air brake systems with 1 reservoir, the means shall be a cock, valve, plug, or equivalent device arranged to vent a cavity having free communication with the connection between the check valve and the source of compressed air or vacuum.

(b) Where air is delivered by a compressor into 1 tank or compartment (dry tank) only, with the required check valve between the tanks or compartments, a manually operated drain cock on the first (wet) tank or compartment shall serve as a means herein required if it conforms to the requirements herein.

(c) In vacuum systems, stopping the engine shall serve as the required means, the system remaining evacuated as indicated by the vacuum gauge.

(4) This rule applies to all property-carrying vehicles and combinations of property-carrying vehicles having 3 or more axles.

History: 1954 ACS 94, p. 152, Eff. Jan. 5, 1978.

R 460.16435 Warning devices and gauges.

Rule 435. (1) In the manner and to the extent specified in subrules (2) to (5), a truck or truck tractor shall be equipped with a signal that provides a warning to the driver when a failure occurs in the vehicle's service brake system.

(2) Relative to hydraulic brakes, a vehicle manufactured on or after July 1, 1973, and having service brakes activated by hydraulic fluid shall be equipped with a warning signal that performs as follows:

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(a) If federal motor vehicle safety standard no. 105, being 49 C.F.R. 571.105, was applicable to the vehicle at the time it was manufactured, the warning signal shall conform to the requirements of that standard.

(b) If federal motor vehicle safety standard no. 105 was not applicable to the vehicle at the time it was manufactured, the warning signal shall become operative, before or upon application of the brakes, in the event of a hydraulic-type complete failure of a partial system. The signal shall be readily audible or visible to the driver.

(3) Relative to air brakes, except as provided in subrule (7), a vehicle, regardless of the date it was manufactured, having service brakes activated by compressed air (air-mechanical brakes) or a vehicle towing a vehicle having service brakes activated by compressed air (air-mechnical brakes) shall be equipped and shall perform as follows:

(a) The vehicle shall have a low air pressure warning device that conforms to the requirements of either of the following:

(i) If federal motor vehicle safety standard no. 121, being 49 C.F.R. 571.121, was applicable to the vehicle at the time it was manufactured, the warning device shall conform to the requirements of that standard.

(ii) If federal motor vehicle safety standard no. 121 was not applicable to the vehicle at the time it was manufactured, the vehicle shall have a device that provides a readily audible or visible continuous warning to the driver whenever the pressure of the compressed air in the braking system is below a specified pressure, which shall be at least ½ of the compressor governor cutout pressure.

(b) The vehicle shall have a pressure gauge which indicates to the driver the pressure in pounds per square inch available for braking.

(4) Relative to vacuum brakes, except as provided in subrule (7), a vehicle, regardless of the date it was manufactured, having service brakes activated by vacuum or a vehicle towing a vehicle having service brakes activated by vacuum, shall be equipped with both of the following:

(a) A device that provides a readily audible or visible continuous warning to the driver whenever the vacuum in the vehicle's supply reservoir is less than 8 inches of mercury.

(b) A vacuum gauge which indicates to the driver the vacuum in inches of mercury available for braking.

(5) Relative to hydraulic brakes applied or assisted by air or vacuum, except as provided in subrule (7), a vehicle having a braking system in which hydraulically activated service brakes are applied or assisted by compressed air or vacuum shall be equipped with both a warning signal that conforms to the requirements of subrule (2) and a warning device that conforms to the requirements of either subrule (3) or (4).

(6) The warning signals, devices, and gauges required by this rule shall be maintained in operative condition.

(7) Subrules (3) to (5) do not apply to property-carrying vehicles and combinations of property-carrying vehicles which have less than 3 axles and either were manufactured before July 1, 1973, or have a manufacturer's gross vehicle weight rating of 10,000 pounds or less.

History: 1954 ACS 94, p. 152, Eff. Jan. 5, 1978.

R 460.16436 Brake performance.

Rule 436. (1) Upon application of its service brakes, a motor vehicle or combination of motor vehicles shall, under any condition of loading in which it is found on a public highway, be capable of:

(a) Developing a braking force at least equal to the percentage of its gross weight specified in the table in subrule (4).

(b) Decelerating to a stop from 20 miles per hour at not less than the rate specified in the table in subrule (4).

(c) Stopping from 20 miles per hour in a distance, measured from the point at which movement of the service brake pedal or control begins, that is not greater than the distance specified in the table in subrule (4).

(2) Upon application of its emergency brake system and with no other brake system applied, a motor vehicle or combination of motor vehicles shall, under any condition of loading in which it is found on a public highway, be capable of stopping from 20 miles per hour in a distance, measured from the point at which movement of the emergency brake control begins, that is not greater than the distance specified in the table in subrule (4).

(3) Conformity to the stopping-distance requirements of subrules (1) and (2) shall be determined under the following conditions:

(a) Any test shall be made with the vehicle on a hard surface that is substantially level, dry, smooth, and free of loose material.

(b) The vehicle shall be in the center of a 12-foot-wide lane when the test begins, and shall not deviate from that lane during the test.

(4) The vehicle brake performance table is as follows:

Type of motor vehicle	Service brake systems			Emergency brake systems
	Braking force as a percentage of gross vehicle or combination weight	Deceleration in feet per second per second	Application and braking distance in feet from initial speed of 20 m.p.h.	Application and braking distance in feet from initial speed of 20 m.p.h.
A. Property-carrying vehicles.				
(1) Single unit vehicles having a manufacturer's GVWR of 10,000 pounds or less.	52.8	17	25	66
(2) Single unit vehicles having a manufacturer's GVWR of more than 10,000 pounds, except truck tractors. Combinations of a 2-axle towing vehicle and trailer having a GVWR of 3,000 pounds or less. All combinations of 2 or less vehicles in driveaway or towaway operation.	43.4	14	35	85
(3) All other property-carrying vehicles and combinations of property-carrying vehicles.	43.5	14	40	90

Note: (a) There is a definite mathematical relationship between the figures in columns 2 and 3. If the decelerations set forth in column 3 are divided by 32.2 feet per second per second, the figures in column 2 will be obtained. For example, 21 divided by 32.2 equals 65.2%. Column 2 is included in the tabulation because certain brake testing devices utilize this factor.

(b) The decelerations specified in column 3 are an indication of the effectiveness of the basic brakes, and as measured in practical brake testing are the maximum decelerations attained at some time during the stop. These decelerations as measured in brake tests cannot be used to compute the values in column 4 because the deceleration is not sustained at the same rate over the entire period of the stop.

The deceleration increases from zero to a maximum during a period of brake-system application and brake-force buildup. Also, other factors may cause the deceleration to decrease after reaching a maximum. The added distance which results because maximum deceleration is not sustained is included in the figures in column 4, but is not indicated by the usual brake-testing devices for checking deceleration.

(c) The distances in column 4 and the deceleration in column 3 are not directly related. "Brake-system application and braking distance in feet" (column 4) is a definite measure of the overall effectiveness of the braking system, being the distance traveled between the point at which the driver starts to move the braking system controls and the point at which the vehicle comes to rest. It includes the distance traveled while brakes are being applied and the distance traveled while the brakes are retarding the vehicle.

(d) The distance traveled during the period of brake-system application and brake-force buildup varies with vehicle type, being negligible for many passenger cars and greatest for combinations of commercial vehicles. This fact accounts for the variation from 20 to 40 feet in the values in column 4 for the various classes of vehicles.

(e) The terms "GVWR" and "GVW" refer to the manufacturer's gross vehicle weight rating and the actual gross vehicle weight, respectively.

GLAZING AND WINDOW CONSTRUCTION

R 460.16437 Glazing in specified openings.

Rule 437. (1) Whenever glazing is used in the windshield, window, door, or any other opening into a truck or truck tractor, except vehicles engaged in armored car service, such glazing shall conform to the requirements contained in the American standard safety code for safety glazing materials for glazing motor vehicles operating on land highways, Z26.1A-1964, of the American National Standards Institute, Inc., 1430 Broadway, New York, N.Y. 10018. However, glazing conforming to ANSI Code, Z26.1-1950, is acceptable for vehicles manufactured prior to January 1, 1966.

(2) A motor vehicle windshield shall be free of discoloration or other damage in the portion thereof extending upward from the height of the topmost portion of the steering wheel, but not including a 2-inch border at the top and a 1-inch border at each side of the windshield or each panel thereof, except that discoloration and damage as follows are allowable:

(a) Coloring or tinting, applied in manufacture, for reduction of glare.

(b) A crack not over ¼ inch wide, if not intersected by any other crack.

(c) A damaged area which can be covered by a disc ¾ inch in diameter if not closer than 3 inches to any other such damaged area.

(3) A motor vehicle shall not be operated with a label, sticker, decalcomania, or other vision-reducing matter covering any portion of its windshield or windows at either side of the driver's compartment. However, stickers required by law may be affixed at the bottom of the windshield if no portion of a label, sticker, decalcomania, or other vision-reducing matter extends upward more than 4½ inches from the bottom of the windshield.

History: 1954 ACS 94, p. 155, Eff. Jan. 5, 1978.

R 460.16438 Window construction.

Rule 438. Every truck and truck tractor, except vehicles engaged in armored car service, shall have, in addition to the area provided by the windshield, at least 1 window on each side of the driver's compartment, which window shall have sufficient area to contain either an ellipse having a major axis of 18 inches and a minor axis of 13 inches or an opening containing 200 square inches formed by a rectangle 13 inches by 17¾ inches with corner arcs of 6 inches maximum radius. The major axis of the ellipse and the long axis of the rectangle shall not make an angle of more than 45 degrees with the surface on which the unladen vehicle stands. However, if the cab is designed with a folding door or doors, or with clear openings where doors or windows are customarily located, then windows shall not be required in such locations. Windows, if otherwise capable of complying with this rule, shall not be obstructed by bars or other such means located either inside or outside the windows, such as would hinder the escape of occupants, unless such bars or other such means are so constructed as to provide a clear opening at least equal to the opening provided by the window to which it is adjacent.

History: 1954 ACS 94, p. 155, Eff. Jan. 5, 1978.

FUEL SYSTEMS

R 460.16439 Fuel systems generally.

Rule 439. (1) This rule applies to systems for containing and supplying fuel for the operation of motor vehicles or for the operation of auxiliary equipment installed on, or used in connection with, motor vehicles.

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j

(2) A fuel system shall be located on the motor vehicle so that:

(a) No part of the system extends beyond the widest part of the vehicle.

(b) No part of a fuel tank is forward of the front axle of a power unit.

(c) Fuel spilled vertically from a fuel tank while it is being filled does not contact any part of the exhaust or electrical systems of the vehicle, except the fuel level indicator assembly.

(d) Fill pipe openings are located outside the vehicle's passenger compartment and its cargo compartment.

(e) A fuel line does not extend between a towed vehicle and the vehicle that is towing it while the combination of vehicles is in motion.

(3) A fuel tank shall be securely attached to the motor vehicle in a workmanlike manner.

(4) A fuel system shall not supply fuel by gravity or syphon feed directly to the carburetor or injector.

(5) If a fuel system includes a selection control valve which is operable by the driver to regulate the flow of fuel from 2 or more fuel tanks, the valve shall be installed so that either of the following conditions exists:

(a) The driver may operate it while watching the roadway and without leaving his driving position.

(b) The driver shall stop the vehicle and leave his seat in order to operate the valve.

(6) A fuel line which is not completely enclosed in a protective housing shall not extend more than 2 inches below the fuel tank or its sump. Diesel fuel crossover, return, and withdrawal lines which extend below the bottom of the tank or sump shall be protected against damage from impact. Every fuel line shall be:

(a) Long enough and flexible enough to accommodate normal movements of the parts to which it is attached without incurring damage.

(b) Secured against chafing, kinking, or other causes of mechanical damage.

(7) When pressure devices are used to force fuel from a fuel tank, a device which prevents the flow of fuel from the fuel tank if the fuel feed line is broken shall be installed in the fuel system.

History: 1954 ACS 94, p. 155, Eff. Jan. 5, 1978.

R 460.16440 Liquid fuel tanks.

Rule 440. (1) Application of this rule shall be as follows:

(a) A liquid fuel tank manufactured on or after January 1, 1973, and a side-mounted gasoline tank shall conform to this rule.

(b) A diesel fuel tank manufactured before January 1, 1973, and mounted on a vehicle other than a bus shall conform to subrule (3)(f) relative to the fill-pipe cap.

(c) A gasoline tank, other than a side-mounted gasoline tank, manufactured before January 1, 1973, and mounted on a vehicle other than a bus shall conform to subrule (3)(a) to (i).

(2) As used in this rule:

(a) "Liquid fuel tank" means a fuel tank designed to contain a fuel that is used to propel a vehicle.

(b) "Side-mounted" fuel tank is a liquid fuel tank which, if mounted on a truck tractor, extends outboard of the vehicle frame and outside of the plain view outline of the cab, or, if mounted on a truck, extends outboard of a line parallel to the longitudinal centerline of the truck and tangent to the outboard side of a front tire in a straight ahead position. In determining whether a fuel tank on a truck or truck tractor is side-mounted, the fill pipe is not considered to be a part of the tank.

(3) Construction of liquid fuel tanks shall comply with the following requirements:

(a) Joints of a fuel tank body shall be closed by arc-, gas-, seam-, or spot-welding, by brazing, by silver soldering, or by techniques which provide heat resistance and mechanical securement at least equal to those specifically named. Joints shall not be closed solely by crimping or by soldering with a lead-based or other soft solder.

(b) The fuel tank body shall have flanges or spuds suitable for the installation of all fittings.

(c) The threads of all fittings shall be dryseal American standard taper pipe thread or dryseal SAE short taper pipe thread, specified in society of automotive engineers standard J476, as contained in the 1971 edition of the "SAE Handbook," except that straight nontapered threads may be used on fittings having integral flanges and using gaskets for sealing. Not less than 4 full threads shall be in engagement in each fitting.

(d) Drains or other bottom fittings shall not extend more than ¾ of an inch below the lowest part of the fuel tank or sump. Drains or other bottom fittings shall be protected against damage from impact. If a fuel tank has drains, the drain fittings shall permit substantially complete drainage of the tank. Drains or other bottom fittings shall be installed in a flange or spud designed to accommodate it.

(e) Except for diesel fuel tanks, the fittings through which fuel is withdrawn from a fuel tank shall be located above the normal level of fuel in the tank when the tank is full.

(f) A fill pipe shall be designed and constructed to minimize the risk of fuel spillage during fueling operations and when the vehicle is involved in a crash. The fill pipe and vents of a fuel tank having a capacity of more than 25 gallons of fuel shall permit filling the tank with fuel at a rate of not less than 20 gallons per minute without fuel spillage. Each fill pipe shall be fitted with a cap that can be fastened securely over the opening in the fill pipe. Screw threads or a bayonet-type joint are methods of conforming to the requirements of this subdivision.

(g) A liquid fuel tank with a capacity of more than 25 gallons of fuel shall have a venting system which, in the event the tank is subjected to fire, prevents internal tank pressure from rupturing the tank's body, seams, or bottom opening, if any.

(h) The body and fittings of a liquid fuel tank with a capacity of more than 25 gallons of fuel shall be capable of withstanding an internal hydrostatic pressure equal to 150% of the maximum internal pressure reached in the tank during the safety venting systems test specified in subrule (5).

(i) A fuel tank shall be equipped with a nonspill air vent, such as a ball check. The air vent may be combined with the fill-pipe cap or safety vent, or it may be a separate unit installed on the fuel tank.

(j) If the body of a fuel tank is readily visible when the tank is installed on the vehicle, the tank shall be plainly marked with its liquid capacity. The tank shall also be plainly marked with a warning against filling it to more than 95% of its liquid capacity.

(k) A liquid fuel tank manufactured on or after January 1, 1973, shall be designed and constructed so that the tank cannot be filled, in a normal filling operation, with a quantity of fuel that exceeds 95% of the tank's liquid capacity and so that, when the tank is filled, normal expansion of the fuel does not cause fuel spillage.

(4) A liquid fuel tank shall be capable of passing the tests specified in subrules (5) and (6).

(5) The procedure and required performance for the safety venting system test

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j

are specified by this subrule. Fill the tank ¾ full with fuel, seal the fuel feed outlet, and invert the tank. When the fuel temperature is between 50 degrees Fahrenheit and 80 degrees Fahrenheit, apply an enveloping flame to the tank so that the temperature of the fuel rises at a rate of not less than 6 degrees Fahrenheit and not more than 8 degrees Fahrenheit per minute. The safety venting system required by subrule (3)(g) shall activate before the internal pressure in the tank exceeds 50 pounds per square inch, gauge, and the internal pressure shall not thereafter exceed the pressure at which the system activated by more than 5 pounds per square inch despite any further increase in the temperature of the fuel.

(6) The procedure and required performance for the leakage test are specified by this subrule. Fill the tank to capacity with fuel having a temperature between 50 degrees Fahrenheit and 80 degrees Fahrenheit. With the fill-pipe cap installed, turn the tank through an angle of 150 degrees in any direction about any axis from its normal position. The tank or any fitting shall not leak more than a total of 1 ounce by weight of fuel per minute in any position the tank assumes during the test.

(7) Each side-mounted liquid fuel tank shall be capable of passing the tests specified in subrules (8) and (9) as well as the tests specified in subrules (5) and (6).

(8) The procedure and required performance for the drop test are specified in this subrule. Fill the tank with a quantity of water having a weight equal to the weight of the maximum fuel load of the tank and drop the tank 30 feet onto an unyielding surface so that it lands squarely on 1 corner. The tank or any fitting shall not leak more than a total of 1 ounce by weight of water per minute.

(9) The procedure and required performance for the fill-pipe test are specified in this subrule. Fill the tank with a quantity of water having a weight equal to the weight of the maximum fuel load of the tank and drop the tank 10 feet onto an unyielding surface so that it lands squarely on its fill pipe. The tank or any fitting shall not leak more than a total of 1 ounce by weight of water per minute.

(10) A liquid fuel tank shall be legibly and permanently marked with the month and year of its manufacture and with a certificate that it conforms to the provisions in this rule applicable to the tank. The certificate for a liquid fuel tank manufactured on or after July 1, 1973, shall be in the form set forth in either subdivision (a) or (b) below:

(a) If a tank conforms to all provisions in this rule pertaining to side-mounted fuel tanks the certificate shall read: "Meets all FHWA side-mounted tank requirements."

(b) If a tank conforms to all provisions in this rule pertaining to tanks which are not side-mounted fuel tanks the certificate shall read: "Meets all FHWA requirements for non-side-mounted fuel tanks." The form of certificate specified in subdivision (a) or (b) may be used on a liquid fuel tank manufactured before July 1, 1973, but it is not mandatory for liquid fuel tanks manufactured before that date.

History: 1954 ACS 94, p. 156, Eff. Jan. 5, 1978.

R 460.16441 Liquefied petroleum gas systems.

Rule 441. (1) A fuel system that uses liquefied petroleum gas as a fuel for the operation of a motor vehicle or for the operation of auxiliary equipment installed on, or used in connection with, a motor vehicle shall conform to the standards for the storage and handling of liquefied petroleum gases of the National Fire Protection Association, 470 Atlantic Avenue, Boston, Massachusetts 02210, as follows:

(a) A fuel system installed before December 31, 1962, shall conform to the 1951 edition of the standards.

(b) A fuel system installed on or after December 31, 1962, and before January 1, 1973, shall conform to division IV of the June, 1959 edition of the standards.

(c) A fuel system installed on or after January 1, 1973, and providing fuel for propulsion of the motor vehicle shall conform to division IV of the 1969 edition of the standards.

(d) A fuel system installed on or after January 1, 1973, and providing fuel for the operation of auxiliary equipment shall conform to division VII of the 1969 edition of the standards.

(e) A fuel system installed on or after the effective date of these rules and providing fuel for the operation of auxiliary equipment shall conform to the 1974 edition of the standards.

(2) When the provisions in this rule require a fuel system to conform to a specific edition of the standards, the fuel system may conform to the applicable provisions in a later edition of the standards specified in this rule.

(3) The tank of a fuel system shall be marked to indicate that the system conforms to the standards.

History: 1954 ACS 94, p. 158, Eff. Jan. 5, 1978.

COUPLING DEVICES AND TOWING METHODS

R 460.16442 Coupling devices and towing methods; driveaway-towaway operations excepted.

Rule 442. (1) When 2 or more vehicles are operated in combination, the coupling devices connecting the vehicles shall be designed, constructed, and installed, and the vehicles shall be designed and constructed, so that, when the combination is operated in a straight line on a level, smooth, paved surface, the path of the towed vehicle does not deviate more than 3 inches to either side of the path of the vehicle that tows it.

(2) Relative to fifth wheel assemblies:

(a) The lower half of a fifth wheel mounted on a truck tractor or converter dolly shall be secured to the frame of that vehicle with properly designed brackets, mounting plates or angles, and properly tightened bolts of adequate size and grade, or devices that provide equivalent security. The installation shall not cause cracking, warping, or deformation of the frame. The installation shall include a device for positively preventing the lower half of the fifth wheel from shifting on the frame to which it is attached. The upper half of a fifth wheel shall be fastened to the motor vehicle with at least the same security required for the installation of the lower half on a truck tractor or converted dolly.

(b) A fifth wheel assembly shall have a locking mechanism. The locking mechanism, and any adapter used in conjunction with it, shall prevent separation of the upper and lower halves of the fifth wheel assembly unless a positive manual release is activated. The release may be located so that the driver can operate it from the cab. If a motor vehicle has a fifth wheel designed and constructed to be readily separable, the fifth wheel locking devices shall apply automatically on coupling.

(c) The lower half of a fifth wheel shall be located so that, regardless of the condition of loading, the relationship between the kingpin and the rear axle or axles of the towing motor vehicle properly distributes the gross weight of both the towed and towing vehicles on the axles of those vehicles, does not unduly interfere with the steering, braking, and other maneuvering of the towing vehicle, and does not otherwise contribute to unsafe operation of the vehicles comprising

the combination. The upper half of a fifth wheel shall be located so that the weight of the vehicles is properly distributed on their axles and the combination of vehicles operates safely during normal operation.

(3) A full trailer shall be equipped with a tow-bar and a means of attaching the tow-bar to the towing and towed vehicles. The tow-bar and the means of attaching it shall:

(a) Be structurally adequate for the weight being drawn.

(b) Be properly and securely mounted.

(c) Provide for adequate articulation at the connection without excessive slack at that location.

(d) Be provided with a locking device that prevents accidental separation of the towed and towing vehicles. The mounting of the trailer hitch, pintle hook, or equivalent mechanism on the towing vehicle shall include reinforcement or bracing of the frame sufficient to produce strength and rigidity of the frame to prevent its undue distortion.

(4) A full trailer and a converter dolly used to convert a semitrailer to a full trailer shall be coupled to the frame, or an extension of the frame, of the motor vehicle which tows it with 1 or more safety devices to prevent the towed vehicle from breaking loose in the event the tow-bar fails or becomes disconnected. The safety device shall meet the following requirements:

(a) The safety device shall not be attached to the pintle hook or any other device on the towing vehicle to which the tow-bar is attached. However, if the pintle hook or other device was manufactured prior to July 1, 1973, the safety device may be attached to the towing vehicle at a place on a pintle hook forging or casting if that place is independent of the pintle hook.

(b) The safety device shall have no more slack than is necessary to permit the vehicles to be turned properly.

(c) The safety device, and the means of attaching it to the vehicles, shall have an ultimate strength of not less than the gross weight of the vehicle or vehicles being towed.

(d) The safety device shall be connected to the towed and towing vehicles and to the tow-bar so as to prevent the tow-bar from dropping to the ground in the event it fails or becomes disconnected.

(e) Except as provided in subdivision (f), if the safety device consists of safety chains or cables, the towed vehicle shall be equipped with either 2 safety chains or cables or with a bridle arrangement of single chain or cable attached to its frame or axle at 2 points as far apart as the configuration of the frame or axle permits. The safety chains or cables shall be either 2 separate pieces, each equipped with a hook or other means for attachment to the towing vehicle, or a single piece leading along each side of the tow-bar from the 2 points of attachment on the towed vehicle and arranged into a bridle with a single means of attachment to be connected to the towing vehicle. When a single length of cable is used, a thimble and twin-base cable clamps shall be used to form the forward bridle eye. The hook or other means of attachment to the towing vehicle shall be secured to the chains or cables in a fixed position.

(f) If the towed vehicle is a converter dolly with a solid tongue and without a hinged tow-bar or other swivel between the fifth wheel mounting and the attachment point of the tongue eye or other hitch device, then:

(i) Safety chains or cables, when used as the safety device for that vehicle, may consist of either 2 chains or cables or a single chain or cable used alone.

(ii) A single safety device, including a single chain or cable used alone as the safety device, shall be in line with the centerline of the trailer tongue.

(iii) The device may be attached to the converter dolly at any point to the rear of the attachment point of the tongue eye or other hitch device.

(g) Safety devices, other than safety chains or cables, shall provide strength, security of attachment, and directional stability equal to, or greater than, safety chains or cables installed pursuant to subdivisions (e) and (f).

(h) When 2 safety devices, including 2 safety chains or cables, are used and are attached to the towing vehicle at separate points, the points of attachment on the towing vehicle shall be located equally distant from, and on opposite sides of, the centerline of the towing vehicle. Where 2 chains or cables are attached to the same point on the towing vehicle, and where a bridle or a single chain or cable is used, the point of attachment shall be on the longitudinal centerline of the towing vehicle. A single safety device, other than a chain or cable, shall also be attached to the towing vehicle at a point on its longitudinal centerline.

History: 1954 ACS 94, p. 158, Eff. Jan. 5, 1978.

R 460.16443 Coupling devices and towing methods; driveaway-towaway operations.

Rule 443. (1) Not more than 3 saddle-mounts may be used in any combination and not more than 1 tow-bar may be used in any combination. When motor vehicles are towed by means of triple saddle-mounts, the towed vehicles shall have brakes acting on all wheels which are in contact with the roadway.

(2) Carrying vehicles on the towing vehicle shall be regulated as follows:

(a) When adequately and securely attached by means equivalent in security to that provided in subrule (10)(b), a motor vehicle or motor vehicles may be full-mounted on the structure of a towing vehicle engaged in a driveaway-towaway operation.

(b) A motor vehicle or motor vehicles may not be full-mounted on a towing vehicle unless the relationship of such full-mounted vehicles to the rear axle or axles results in proper distribution of the total gross weight of the vehicles and does not unduly interfere with the steering, braking, or maneuvering of the towing vehicle, or otherwise contribute to the unsafe operation of the vehicles comprising the combination.

(3) Carrying vehicles on towed vehicles shall be regulated as follows:

(a) When adequately and securely attached by means equivalent in security to that provided in subrule (10)(b), a motor vehicle or motor vehicles may be full-mounted on the structure of towed vehicles engaged in a driveaway-towaway operation.

(b) A motor vehicle shall not be full-mounted on a motor vehicle towed by means of a tow-bar unless the towed vehicle is equipped with brakes and is provided with means for effective application of brakes acting on all wheels and is towed on its own wheels.

(c) A motor vehicle or motor vehicles shall not be full-mounted on a motor vehicle towed by means of a saddle-mount unless the centerline of the kingpin, or equivalent means of attachment of such towed vehicle, shall be so located on the towing vehicle that the relationship to the rear axle or axles results in proper distribution of the total gross weight of the vehicle and does not unduly interfere with the steering, braking, or maneuvering of the towing vehicle or otherwise contribute to the unsafe operation of vehicles comprising the combination, and unless a perpendicular to the ground from the center of gravity of the full-mounted vehicles lies forward of the centerline of the rear axle of the saddle-mounted vehicle.

(d) If a motor vehicle towed by means of a double saddle-mount has any vehicle full-mounted on it, the saddle-mounted vehicle shall at all times, while so

loaded, have effective brakes acting on those wheels which are in contact with the roadway.

(4) Tow-bars of the type which depend upon the bumpers as a means of transmitting forces between the vehicles shall not be used to tow a motor vehicle weighing more than 5,000 pounds.

(5) A motor vehicle towed by means of a saddle-mount shall have the motion of the front wheels restrained if, under any condition of turning such wheels, they will project beyond the widest part of either the towed or towing vehicle.

(6) Unless the steering mechanism is adequately locked in a straight-forward position, all motor vehicles towed by means of a saddle-mount shall be towed with the front end mounted on the towing vehicle.

(7) A motor vehicle or motor vehicles shall not be towed in driveaway-towaway operations by means other than tow-bar or saddle-mount connections which shall meet the requirements of this rule. For the purposes of this part, coupling devices, such as those used for towing house trailers and employing ball and socket connections, shall be considered as tow-bars. Also, motor vehicles or parts of motor vehicles adequately, securely, and rigidly attached by devices meeting the requirements of subrule (14) shall be considered as 1 vehicle in any position in any combination.

(8) Tow-bars shall comply with the following requirements:

(a) A tow-bar shall be structurally adequate and properly installed and maintained. To insure that it is structurally adequate, it shall at least meet the requirements of the following table:

Gross weight of towed vehicle (pounds)[1]	Longitudinal strength in tension and compression[2]		Strength as a beam (in any direction concentrated load at center)[3]
	All tow-bars	New tow-bars acquired and used by carrier after Sept. 30, 1948	
	Pounds	Pounds	Pounds
Less than 5,000	3,000	6,500	3,000
5,000 and over but less than 10,000	6,000	(1)	(1)
10,000 and over but less than 15,000	9,000	(1)	(1)

Note:

[1]The required strength of tow-bars for towed vehicles of 15,000 pounds and over gross weight, and of new tow-bars acquired and used after September 30, 1948, for towed vehicles of 5,000 pounds and over gross weight, shall be computed by means of the following formula: Longitudinal strength = gross weight of towed vehicle x 1.3 strength as a beam-gross weight of towed vehicle x 0.6.

[2]In testing, the whole unit shall be tested with all clamps, joints, and pins so mounted and fastened as to approximate conditions of actual operation.

[3]This test shall be applicable only to tow-bars which are, in normal operation, subjected to a bending movement, such as tow-bars for house trailers.

(b) The tow-bar shall be so constructed as to freely permit motion in both horizontal and vertical planes between the towed and towing vehicles. The means used to provide the motion shall be such as to prohibit the transmission of stresses under normal operation between the towed and towing vehicles, except along the longitudinal axis of the tongue or tongues.

(c) The means used to transmit the stresses to the chassis or frames of the towed and towing vehicles may be either temporary structures or bumpers or

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

other integral parts of the vehicles. However, the means used shall be so constructed, installed, and maintained that, when tested as an assembly, failure in such members shall not occur when the weakest new tow-bar which is permissible under subrule (8)(a) is subjected to the tests given therein.

(d) On tow-bars, adjustable as to length, the means used to make such adjustment shall fit tightly and not result in any slackness or permit the tow-bar to bend. With the tow-bar supported rigidly at both ends and with a load of 50 pounds at the center, the sag, measured at the center, in any direction shall not exceed 0.25 inch under any condition of adjustment as to length.

(e) Adequate means shall be provided for securely fastening the tow-bar to the towed and towing vehicles.

(f) The tow-bar shall be provided with suitable means of attachment to, and actuation of, the steering mechanism, if any, of the towed vehicle. The attachment shall provide for sufficient angularity of movement of the front wheels of the towed vehicle so that it may follow substantially in the path of the towing vehicle without cramping the tow-bar. The tow-bar shall be provided with suitable joints to permit such movement.

(g) The tow-bar shall be so designed, constructed, maintained, and mounted as to cause the towed vehicle to follow substantially in the path of the towing vehicle. Tow-bars of such design or in such condition as to permit the towed vehicle to deviate more than 3 inches to either side of the path of a towing vehicle moving in a straight line are prohibited.

(h) Trailer couplings used for driveaway-towaway operations of passenger car trailers shall conform to society of automotive engineers standard no. J684c, trailer couplings and hitches—automotive type, July, 1970.

(i) Every tow-bar acquired and used in driveaway-towaway operations by a motor carrier shall be plainly marked with the following certification of the manufacturer thereof, or words of equivalent meaning:

> This tow-bar complies with the requirements of the Federal Highway Administration for (maximum gross weight for which tow-bar is manufactured) vehicles.
> Manufactured _____
> (Month and year)
> By _____
> (Name of manufacturer)

(j) Safety devices, in case of tow-bar failure or disconnection shall be provided as follows:

(i) The towed vehicle shall be connected to the towing vehicle by a safety device to prevent the towed vehicle from breaking loose in the event the tow-bar fails or becomes disconnected. When safety chains or cables are used as the safety device for that vehicle, not less than 2 safety chains or cables meeting the requirements of subdivision (ii) of this subdivision shall be used. The tensile strength of the safety device and the means of attachment to the vehicles shall be at least equivalent to the corresponding longitudinal strength for tow-bars required in the table set forth in subdivision (a). If safety chains or cables are used as the safety device, the required strength shall be the combined strength of the combination of chains and cables.

(ii) If chains or cables are used as the safety device, they shall be crossed and attached to the vehicles near the points of bumper attachments to the chassis of the vehicles. The length of chain used shall be no more than necessary to permit free turning of the vehicles. The chains shall be attached to the tow-bar at the point of crossing or as close to that point as is practicable.

(iii) A safety device, other than safety chains or cables, shall provide strength, security of attachment, and directional stability equal to, or greater than, that provided by safety chains or cables installed in accordance with paragraph (ii) of this subdivision. A safety device, other than safety chains or cables, shall be designed, constructed, and installed so that, if the tow-bar fails or becomes disconnected, it does not drop to the ground.

(9) As used in this part:

(a) "Kingpin" means that device which is used to connect the upper half to the lower half in such manner as to permit relative movement in a horizontal plane between the towed and towing vehicles.

(b) "Lower half" of a saddle-mount means that part of the device which is securely attached to the towing vehicle and which maintains a fixed position relative thereto, but does not include the kingpin.

(c) "Saddle-mount" means a device, designed and constructed as to be readily demountable, used in driveaway-towaway operations to perform the functions of a conventional fifth wheel.

(d) "Upper half" of a saddle-mount means that part of the device which is securely attached to the towed vehicle and maintains a fixed position relative thereto, but does not include the kingpin.

(10) The upper half of a saddle-mount shall comply with all of the following requirements:

(a) The upper half shall be securely attached to the frame or axle of the towed vehicle by means of U-bolts or other means providing at least equivalent security.

(b) U-bolts used to attach the upper half to the towed vehicle shall be made of steel rod, free of defects, so shaped as to avoid at any point a radius of less than 1 inch. However, a lesser radius may be utilized if the U-bolt is so fabricated as not to cause more than 5% reduction in cross-sectional area at points of curvature, in which latter event the minimum radius shall be $\frac{1}{16}$ inch. U-bolts shall have a diameter not less than required by the following table:

Diameter of U-Bolts in Inches

Weight in pounds of heaviest towed vehicle	Double or triple saddle-mount			
	Front mount	Middle or front mount	Rear mount	Single saddle-mount[1]
Up to 5,000	0.625	0.5625	0.500	0.500
5,000 and over	0.6875	0.625	0.5625	0.5625

Note:

[1] The total weight of all the vehicles being towed shall govern. If other devices are used to accomplish the same purposes as U-bolts, they shall have at least equivalent strength of U-bolts made of mild steel. Cast iron shall not be used for clamps or any other holding devices.

(c) The distance between the most widely separated U-bolts shall not be less than 9 inches. The distance between the most widely separated points where the upper half supports the towed vehicle shall not be less than 9 inches, except that saddle-mounts employing ball and socket joints shall employ a device which clamps the axle of the towed vehicle throughout a length of not less than 5 inches.

(d) Upper halves of the cradle-type using vertical members to restrain the towed vehicle from relative movement in the direction of motion of the vehicles shall be substantially constructed and adequate for the purpose. Such cradle-mounts shall be equipped with at least 1 bolt or equivalent means to provide against relative vertical movement between the upper half and the towed vehicle. Bolts, if used, shall be at least ½ inch in diameter. Devices using equivalent means

shall have at least equivalent strength. The means used to provide against relative vertical motion between the upper half and the towed vehicle shall be such as not to permit a relative motion of over ¼ inch. The distance between the most widely separated points of support between the upper half and the towed vehicle shall be not less than 9 inches.

(e) Lateral movement of the towed vehicle shall be controlled as follows:

(i) Towed vehicles having a straight axle or an axle having a drop of less than 3 inches, unless the saddle-mount is constructed pursuant to subrule (13)(b), shall be securely fastened by means of chains or cables to the upper half. The chains or cables shall be at least 3/16-inch diameter and shall be secured by bolts of at least equal diameter.

(ii) Towed vehicles with an axle with a drop of 3 inches or more, or connected by a saddle-mount constructed pursuant to subrule (13)(b), need not be restrained by chains or cables if the upper half is so designed as to insure against such relative motion.

(iii) Chains or cables shall not be required if the upper half is so designed as positively to provide against lateral movement of the axle.

(11) The lower half of any saddle-mount shall comply with the following requirements:

(a) U-bolts used to attach the lower half to the towing vehicle shall be made of steel rod, free of defects, so shaped as to avoid at any point a radius of less than 1 inch. However, a lesser radius may be utilized if the U-bolt is so fabricated as not to cause more than 5% reduction in cross-sectional area at points of curvature, in which latter event the minimum radius shall be 1/16 inch. U-bolts shall have a total cross-sectional area not less than as required by the following table:

Total Cross-Sectional Area of U-Bolts in Square Inches

Weight in pounds of heaviest towed vehicle	Double or triple saddle-mount			Single saddle-mount[1]
	Front mount	Middle or front mount	Rear mount	
Up to 5,000	1.2	1.0	0.8	0.8
5,000 and over	1.4	1.2	1.0	1.0

Note:

[1]The total weight of all the vehicles being towed shall govern. If other devices are used to accomplish the same purpose as U-bolts, they shall have at least equivalent strength of U-bolts made of mild steel. Cast iron shall not be used for clamps or any other holding devices.

(b) Adequate provision shall be made by design and installation to provide against relative movement between the lower half and the towing vehicle, especially during periods of rapid acceleration and deceleration. To insure against shifting, designs of the tripod-type shall be equipped with adequate and securely fastened hold-back chains or similar devices.

(c) Swaying shall be controlled as follows:

(i) Adequate provision shall be made, by design and installation, to provide against swaying or lateral movement of the towed vehicle relative to the towing vehicle. To insure against swaying, lower halves designed with cross-members shall have such cross-members fastened to the vertical members by not less than 2 bolts on each side. Such bolts shall be of at least equivalent cross-sectional area as those required for U-bolts for the corresponding saddle-mount as given in the table in subdivision (a). The minimum distance between the most widely separated points of support of the cross-member by the vertical member shall be

3 inches as measured in a direction parallel to the longitudinal axis of the towing vehicle.

(ii) The lower half shall have a bearing surface on the frame of the towing vehicle of such dimensions that the pressure exerted by the lower half upon the frame of the towing vehicle shall not exceed 200 pounds per square inch under any conditions of static loading. Hardwood blocks or blocks of other suitable material, such as hard rubber, aluminum, or brake lining, if used between the lower half and the frame of the towing vehicle, shall be not less than ¼-inch thick, 3 inches wide, and a combined length of 6 inches.

(iii) Under no conditions shall the highest point of support of the towed vehicle by the upper half be more than 24 inches, measured vertically, above the top of the frame of the towing vehicle, measured at the point where the lower half rests on the towing vehicle.

(d) Hardwood blocks of good quality may be used to build up the height of the front end of the towed vehicle if the total height of such wood blocks shall not exceed 8 inches and if not more than 2 separate pieces are placed upon each other to obtain such height. However, hardwood blocks, not more than 4 in number, of a total height not to exceed 14 inches, may be used if the total cross-sectional area of the U-bolts used to attach the lower half of the towing vehicle is at least 50% greater than that required by the table contained in subdivision (a), or, if other devices are used in lieu of U-bolts, they shall provide for as great a resistance to bending as is provided by the larger U-bolts above prescribed. Hardwood blocks shall be not less than 4 inches in width, and the surfaces between blocks or block and lower half of block and upper half shall be planed and so installed and maintained as to minimize any tendency of the towed vehicle to sway or rock.

(e) The cross-member, which is that part of the lower half used to distribute the weight of the towed vehicle equally to each member of the frame of the towing vehicle, if used, shall be structurally adequate and properly installed and maintained adequately to perform this function.

(f) Materials, other than suitable metals, shall not be used as the cross-member, and wood may not be used structurally in any manner that results in its being subject to tensile stresses. Wood may be used in cross-members if supported throughout its length by suitable metal cross-members.

(g) The lower half shall be capable of supporting the loads given in the following table. For the purpose of a test, the saddle-mount shall be mounted as normally operated and the load applied through the upper half:

Minimum Test Load in Pounds

Weight in pounds of heaviest towed vehicle	Double or triple saddle-mount			Single saddle-mount[1]
	Front mount	Middle or front mount	Rear mount	
Up to 5,000	15,000	10,000	5,000	5,000
5,000 and over	30,000	20,000	10,000	10,000

Note:
[1]The total weight of all the vehicles being towed shall govern.

(12) The kingpin of a saddle-mount shall comply with the following requirements:

(a) Kingpins shall be constructed of steel suitable for the purpose, free of defects, and having a diameter not less than required by the table which follows.

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j

If a ball and socket joint is used in place of a kingpin, the diameter of the neck of the ball shall be at least equal to the diameter of the corresponding solid kingpin given in the table which follows. If hollow kingpins are used, the metallic cross-sectional area shall be at least equal to the cross-sectional area of the corresponding solid kingpin. The diameter of the solid kingpin shall be in accordance with the following table:

Diameter of Solid Kingpin in Inches

Weight in pounds of heaviest towed vehicle	Double or triple saddle-mount							
	Front mount		Middle or front mount		Rear mount		Single saddle-mount[1]	
	Mild Steel	H.T.S.[2]	Mild Steel	H.T.S.[2]	Mild Steel	H.T.S.[2]	Mild Steel	H.T.S.[2]
Up to 5,000.....	1.125	1.000	1.000	0.750	0.875	0.750	0.875	0.750
5,000 and over	1.500	1.125	1.250	1.000	1.000	0.875	1.000	0.875

Note:
[1]The total weight of all the vehicles being towed shall govern.
[2]High-tensile steel is steel having a minimum ultimate strength of 65,000 pounds per square inch.

(b) If a kingpin bushing is not used, the kingpin shall fit snugly into the upper and lower halves, but shall not bind. Those portions of the upper or lower halves in moving contact with the kingpin shall be smoothly machined with no rough or sharp edges. The bearing surface thus provided shall not be less than the radius of the kingpin.

(c) The kingpin of all new saddle-mounts acquired and used shall be snugly enclosed in a bushing at least along such length of the kingpin as may be in moving contact with either the upper or lower halves. The bearing surface thus provided shall not be less in depth than the radius of the kingpin.

(d) The kingpin shall be so designed and installed as to restrain the upper half from moving in a vertical direction relative to the lower half.

(13) Saddle-mounts shall comply with all of the following requirements:

(a) The upper and lower halves shall be so constructed and connected that the bearing surface between the 2 halves shall not be less than 16 square inches under any conditions of angularity between the towing and towed vehicles. However, saddle-mounts using a ball and socket joint shall have a ball of such dimension that the static bearing load shall not exceed 800 pounds per square inch, based on the projected cross-sectional area of the ball. In addition, saddle-mounts having the upper half supported by ball, taper, or roller-bearings shall not have such bearings loaded beyond the limits prescribed for such bearings by the manufacturer thereof. The upper half shall rest evenly and smoothly upon the lower half, and the contact surfaces shall be lubricated and maintained so that there shall be a minimum of frictional resistance between the parts.

(b) All saddle-mounts acquired and used shall provide for angularity between the towing and towed vehicles due to vertical curvatures of the highways. Such means shall not depend upon either the looseness or deformation of the parts of either the saddle-mount or the vehicles to provide for such angularity.

(c) The saddle-mount shall be so designed, constructed, maintained, and installed that the towed vehicle or vehicles follow substantially in the path of the towing vehicle without swerving. Towed vehicles shall not deviate more than 3 inches to either side of the path of the towing vehicle when moving in a straight line.

(d) Where necessary, provision shall be made to prevent the bending of the frame of the towing vehicle by insertion of suitable blocks inside the frame channel to prevent kinking. The saddle-mount shall not be so located as to cause deformation of the frame by reason of cantilever action.

(e) A saddle-mount shall not be located at a point to the rear of the frame of a towing vehicle.

(f) All nuts used on bolts, U-bolts, kingpins, or in any other part of the saddle-mount shall be secured against accidental disconnection by means of cotter-keys, lock-washers, double nuts, safety nuts, or equivalent means. Parts shall be so designed and installed that nuts shall be fully engaged.

(g) The saddle-mount shall be so designed that it may be disassembled and each separate part inspected for worn, bent, cracked, broken, or missing parts.

(h) Every new saddle-mount acquired and used in driveway-towaway operations by a motor carrier shall have the upper half and the lower half separately marked with the following certification of the manufacturer thereof, or words of equivalent meaning:

This saddle-mount complies with the requirements of the Federal Highway Administration for vehicles up to 5,000 pounds (or over 5,000 pounds):
Manufactured _____
(Month and year)
By _____
(Name of manufacturer)

(14) Requirements for devices used to connect motor vehicles or parts of motor vehicles together to form 1 vehicle are as follows:

(a) The front axle of 1 motor vehicle intended to be coupled with another vehicle as described in subrule (7) shall be attached with U-bolts meeting the requirements of subrule (10)(b).

(b) The rear axle of 1 vehicle shall be coupled to the frame of the other vehicle by means of a connecting device which, when in place, forms a rectangle. The device shall be composed of 2 pieces, top and bottom. The devices shall be made of 4-inch by ½-inch steel bar, bent to shape, and shall have the corners reinforced with a plate not less than 3 inches by ½ inch by 8 inches long. The device shall be bolted together with ¾-inch bolts and not less than 3 shall be used on each side. Wood may be used as spacers to keep the frames apart, and such wood shall be not less than 4 inches square.

History: 1954 ACS 94, p. 159, Eff. Jan. 5, 1978.

MISCELLANEOUS PARTS AND ACCESSORIES

R 460.16444 Tires.

Rule 444. (1) A motor vehicle shall not be operated on a tire that has fabric exposed through the tread or sidewall.

(2) A tire on the front wheels of a truck or truck tractor shall have a tread groove pattern depth of not less than 4/32 of an inch when measured at any point on a major tread groove. The measurements shall not be made where tie bars, humps, or fillets are located.

(3) Except as provided in subrule (2), tires shall have a tread groove pattern depth of not less than 2/32 of an inch when measured in a major tread groove. The measurement shall not be made where tie bars, humps, or fillets are located.

(4) A truck or truck tractor shall not be operated with regrooved tires on the front wheels which have a load carrying capacity equal to, or greater than, that of 8.25-20 8 ply-rating tires.

History: 1954 ACS 94, p. 167, Eff. Jan. 5, 1978.

R 460.16445 Sleeper berths.

Rule 445. (1) The size of a sleeper berth shall be not less than that prescribed by the following table:

Date of installation on motor vehicle	Length measured on centerline of longitudinal axis (inches)	Width measured on centerline of transverse axis (inches)	Height measured from highest point of top of mattress (inches)[1]
Before January 1, 1953	72	18	18
After December 31, 1952 and before October 1, 1975	75	21	21
After September 30, 1975	75	24	24

Note:

[1]In the case of a sleeper berth which utilizes an adjustable mechanical suspension system, the required clearance can be measured when the suspension system is adjusted to the height to which it would settle when occupied by a driver.

(2) A sleeper berth installed on a motor vehicle on or after January 1, 1953, shall be generally rectangular in shape, except that the horizontal corners and the roof corners may be rounded to radii not exceeding 10¼ inches.

(3) A sleeper berth shall be constructed so that an occupant's ready entrance to, and exit from, the sleeper berth is not unduly hindered.

(4) A sleeper berth shall not be installed in, or on, a semitrailer or a full trailer, other than a house trailer. A sleeper berth located within the cargo space of a motor vehicle shall be securely compartmentalized from the remainder of the cargo space. A sleeper berth installed on or after January 1, 1953, shall be located in the cab or immediately adjacent to the cab, and shall be securely fixed with relation to the cab.

(5) Except as provided in subrule (6), there shall be a direct and ready means of exit from a sleeper berth into the driver's seat or compartment. If the sleeper berth was installed on or after January 1, 1963, the exit shall be a doorway or opening not less than 18 inches high and 36 inches wide. If the sleeper berth was installed before January 1, 1963, the exit shall have sufficient area to contain an ellipse having a major axis of 24 inches and a minor axis of 16 inches.

(6) A sleeper berth installed before January 1, 1953, shall either conform to the requirements of subrule (5) or have not less than 2 exits, each of which is not less than 18 inches high and 21 inches wide, located at opposite ends of the vehicle and usable by the occupant without the assistance of any other person.

(7) A sleeper berth which is not located within the driver's compartment and has no direct entrance into the driver's compartment shall be equipped with a means of communication between the occupant and the driver. The means of communication may consist of a telephone, speaker tube, buzzer, pull cord, or other mechanical or electrical device.

(8) A sleeper berth shall be properly equipped for sleeping. Its equipment shall include:

(a) Adequate bedclothing and blankets.

(b) One of the following:

(i) Springs and a mattress.

(ii) An innerspring mattress.

(iii) A cellular rubber or flexible foam mattress not less than 4 inches thick.

(iv) An air mattress of sufficient thickness when inflated to prevent "bottoming-out" by a driver when he is lying on the air mattress while the vehicle is in motion.

(c) A design and construction which will permit the mattress and bedclothing to be readily removed for cleaning.

(9) A sleeper berth shall have louvers or other means of providing adequate ventilation. A sleeper berth shall be reasonably tight against dust and rain.

(10) A sleeper berth shall be located so that leaks in the vehicle's exhaust system or fuel system do not permit fuel, fuel system gases, or exhaust gases to enter the sleeper berth. A sleeper berth shall be located so that it is not overheated or damaged by reason of its proximity to the vehicle's exhaust system.

(11) A motor vehicle manufactured on or after July 1, 1971, and equipped with a sleeper berth shall be equipped with a means of preventing ejection of the occupant of the sleeper berth during deceleration of the vehicle. The restraint system shall be designed, installed, and maintained to withstand a minimum total force of 6,000 pounds applied toward the front of the vehicle and parallel to the longitudinal axis of the vehicle.

History: 1954 ACS 94, p. 167, Eff. Jan. 5, 1978.

R 460.16446 Heaters.

Rule 446. (1) As used in this rule, "heater" means a device, or assembly of devices or appliances, used to heat the interior of a motor vehicle.

(2) The installation or use of the following types of heaters is prohibited:

(a) Any type of exhaust heater in which the engine exhaust gases are conducted into or through a space occupied by persons, or a heater which conducts engine compartment air into any such space.

(b) Any type of heater employing a flame which is not fully enclosed. However, such heaters are not prohibited when used for heating the cargo of tank motor vehicles.

(c) Any type of heater from the burner of which there could be spillage or leakage of fuel upon the tilting or overturning of the vehicle in which it is mounted.

(d) A heater which takes air, heated or to be heated, from the engine compartment or from direct contact with any portion of the exhaust system, as well as a heater which takes air in ducts from the outside atmosphere to be conveyed through the engine compartment, unless the ducts are so constructed and installed as to prevent contamination of the air so conveyed by exhaust or engine compartment gases.

(e) A stove or other heater employing solid fuel, other than wood charcoal.

(f) Portable heaters used in a space occupied by persons, except the cargo space of a motor vehicle which is being loaded or unloaded.

(3) Heaters shall comply with the following specifications:

(a) A heater shall be so located or protected as to prevent contact therewith by occupants, unless the surface temperature of the protecting grilles or of any exposed portions of the heaters, inclusive of exhaust stacks, pipes, or conduits, shall be lower than would cause contact burns. Adequate protection shall be afforded against igniting parts of the vehicle or burning occupants by direct radiation. Wood charcoal heaters shall be enclosed within a metal barrel, drum, or similar protective enclosure, which enclosure shall be provided with a securely fastened cover.

(b) Effective guards shall be provided for the protection of passengers or occupants against injury by fans, belts, or other moving parts.

(c) A heater and heater enclosure shall be securely fastened to the vehicle in a substantial manner so as to provide against relative motion within the vehicle during normal usage or in the event the vehicle overturns. A heater shall be so

designed, constructed, and mounted as to minimize the likelihood of disassembly of any of its parts, including exhaust stacks, pipes, or conduits, upon overturn of the vehicle in or on which it is mounted. Wood charcoal heaters shall be secured against relative motion within the enclosure required by subdivision (a), and the enclosure shall be securely fastened to the motor vehicle.

(d) When either in normal operation or in the event of overturn, there is or is likely to be relative motion between the fuel tank for a heater and the heater, or between either of such units and the fuel lines between them, a suitable means shall be provided at the point of greatest relative motion so as to allow this motion without causing failure of the fuel lines.

(e) Hoses for all hot water and steam heater systems shall be specifically designed and constructed for that purpose.

(f) A heater employing an electrical apparatus shall be equipped with electrical conductors, switches, connectors, and other electrical parts of ample current-carrying capacity to provide against overheating. An electric motor employed in a heater shall be of adequate size and so located that it cannot be overheated. Electrical circuits shall be provided with fuses or circuit breakers, or both, to provide against electrical overloading. All electrical conductors employed in, or leading to, a heater shall be secured against dangling, chafing, and rubbing, and shall have suitable protection against any other conditions likely to produce short or open circuits. Electrical parts certified as proper for use by underwriter's laboratories, inc., shall be deemed to comply with the foregoing requirements.

(g) If a separate storage battery is located within the personnel or cargo space, such battery shall be securely mounted and equipped with nonspill filler caps.

(h) A heater employing the combustion of oil, gas, liquefied petroleum gas, or any other combustible material shall be provided with substantial means of conducting the products of combustion to the outside of the vehicle. This requirement shall not apply to heaters used solely to heat the cargo space of motor vehicles where such motor vehicles or heaters are equipped with means specifically designed and maintained so that the carbon monoxide concentration never exceeds 0.2% in the cargo space. The exhaust pipe, stack, or conduit, if required, shall be sufficiently substantial and so secured as to provide reasonable assurance against leakage or discharge of products of combustion within the vehicle and, if necessary, shall be so insulated as to make unlikely the burning or charring of parts of the vehicle by radiation or by direct contact. The place of discharge of the products of combustion to the atmosphere, and the means of discharge of such products, shall be such as to minimize the likelihood of their reentry into the vehicle under all operating conditions.

(i) The design and construction of a combustion-type heater, except cargo space heaters permitted by the exception to subdivision (h) and unenclosed flame heaters used for heating cargo of tank motor vehicles, shall be such as to provide against the leakage of products of combustion into air to be heated and circulated. The material employed in combustion chambers shall be such as to provide against leakage because of corrosion, oxidation, or other deterioration. Joints between combustion chambers and the air chambers with which they are in thermal and mechanical contact shall be so designed and constructed as to prevent leakage between the chambers, and the materials employed in such joints shall have melting points substantially higher than the maximum temperatures likely to be attained at the point of jointure.

(j) Gravity or siphon feed shall not be permitted for heaters using liquid fuels. Heaters using liquid fuels shall be equipped with automatic means for shutting off the fuel or for reducing such flow of fuel to the smallest practicable magnitude in

the event of overturn of the vehicle. Heaters using liquefied petroleum gas or fuel shall have the fuel line equipped with automatic means at the source of supply for shutting off the fuel in the event of separation, breakage, or disconnection of any of the fuel lines between the supply source and the heater.

(k) Heaters subject to subrule (1) and not provided with automatic controls shall be provided with telltale means to indicate to the driver that the heater is properly functioning. This requirement shall not apply to heaters used solely for the cargo space in semitrailers or full trailers.

(l) Automatic means, or manual means if the control is readily accessible to the driver without moving from the driver's seat, shall be provided to shut off the fuel and electrical supply in case of failure of the heater to function for any reason, or in case the heater should function improperly or overheat. This requirement shall not apply to wood charcoal heaters or to heaters used solely to heat the contents of cargo tank motor vehicles, but wood charcoal heaters shall be provided with a controlled method of regulating the flow of combustion air.

(m) A combustion-type heater, except wood charcoal heaters, the date of manufacture of which is subsequent to December 31, 1962, and every wood charcoal heater, the date of manufacture of which is subsequent to September 1, 1953, shall be marked plainly to indicate the type of service for which such heater is designed and with a certification by the manufacturer that the heater meets the applicable requirements for such use; for example, "Meets I.C.C. Bus Heater Requirements" or "Meets I.C.C. Flue-Vented Cargo Space Heater Requirements." After December 31, 1967, such certification shall read "Meets FHWA Bus Heater Requirements" or "Meets FHWA Flue-Vented Cargo Space Heater Requirements."

History: 1954 ACS 94, p. 168, Eff. Jan. 5, 1978.

R 460.16447 Windshield wipers.

Rule 447. (1) Every truck and truck tractor having a windshield shall be equipped with not less than 2 automatically operating windshield wiper blades, 1 on each side of the centerline of the windshield, for cleaning rain, snow, or other moisture from the windshield. The blades shall be in such condition as to provide clear vision for the driver, unless 1 such blade is so arranged as to clean an area of windshield extending to within 1 inch of the limit of vision through the windshield at each side. However, in driveaway-towaway operations, this rule shall apply only to the driven vehicle. In addition, 1 windshield wiper blade suffices under this rule when such driven vehicle in a driveaway-towaway operation constitutes part or all of the property being transported and has no provision for 2 such blades.

(2) Every truck and truck tractor, the date of manufacture of which is subsequent to June 30, 1953, which depend upon vacuum to operate the windshield wipers, shall be so constructed that the operation of the wipers is not materially impaired by change in the intake manifold pressure.

History: 1954 ACS 94, p. 170, Eff. Jan. 5, 1978.

R 460.16448 Defrosting device.

Rule 448. A truck and truck tractor having a windshield, when operating under conditions such that ice, snow, or frost is likely to collect on the outside of the windshield, or condensation on the inside of the windshield, shall be equipped with a device or other means, not manually operated, for preventing or removing such obstructions to the driver's view. This rule shall not apply in driveaway-

towaway operations when the driven vehicle is a part of the shipment being delivered.

History: 1954 ACS 94, p. 170, Eff. Jan. 5, 1978.

R 460.16449 Rear-vision mirrors.

Rule 449. Every truck and truck tractor shall be equipped with 2 rear-vision mirrors, 1 at each side, firmly attached to the outside of the motor vehicle and so located as to reflect to the driver a view of the highway to the rear along both sides of the vehicle. In driveaway-towaway operations, the driven vehicle shall comply with the provision of this rule.

History: 1954 ACS 94, p. 170, Eff. Jan. 5, 1978.

R 460.16450 Horn.

Rule 450. A truck, truck tractor, and driven motor vehicle in a driveaway-towaway operation shall be equipped with a horn and actuating elements which shall be in such condition as to be capable of emitting sound audible, under normal conditions, from a distance of not less than 200 feet.

History: 1954 ACS 94, p. 170, Eff. Jan. 5, 1978.

R 460.16451 Speedometer.

Rule 451. Every truck and truck tractor shall be equipped with a speedometer indicating vehicle speed in miles per hour, which shall be operative with reasonable accuracy. However, this requirement shall not apply to a driven vehicle which is part of a shipment being delivered in a driveaway-towaway operation if such driven vehicle is equipped with an effective means of limiting its maximum speed to 45 miles per hour. Also, the requirement shall not apply to a towed vehicle.

History: 1954 ACS 94, p. 170, Eff. Jan. 5, 1978.

R 460.16452 Exhaust system location.

Rule 452. (1) No part of the exhaust system of a motor vehicle shall be so located as would be likely to result in burning, charring, or damaging the electrical wiring, the fuel supply, or any combustible part of the motor vehicle.

(2) The exhaust system of a truck and truck tractor shall discharge to the atmosphere at a location to the rear of the cab or, if the exhaust projects above the cab, at a location near the rear of the cab.

History: 1954 ACS 94, p. 170, Eff. Jan. 5, 1978.

R 460.16453 Floors.

Rule 453. The flooring in all motor vehicles shall be substantially constructed, free of unnecessary holes and openings, and shall be maintained so as to minimize the entrance of fumes, exhaust gases, or fire. Floors shall not be permeated with oil or gasoline, and shall have the interior surface in good condition.

History: 1954 ACS 94, p. 170, Eff. Jan. 5, 1978.

R 460.16454 Rear end protection.

Rule 454. A motor vehicle, except truck tractors, pole trailers, and vehicles engaged in driveaway-towaway operations, the date of manufacture of which is subsequent to December 31, 1952, which is so constructed that the body, or the chassis assembly if without a body, has a clearance at the rear end of more than 30 inches from the ground when empty, shall be provided with bumpers or devices serving similar purposes which shall be so constructed and located that:

(a) The clearance between the effective bottom of the bumpers or devices and the ground shall not exceed 30 inches with the vehicle empty;

(b) The maximum distance between the closest points between bumpers or devices, if more than 1 is used, shall not exceed 24 inches;

(c) The maximum transverse distance from the widest part of the motor vehicle at the rear to the bumper or device shall not exceed 18 inches;

(d) The bumpers or devices shall be located not more than 24 inches forward of the extreme rear of the vehicle; and

(e) The bumpers or devices shall be substantially constructed and maintained so that the body, chassis, or other parts of the vehicle afford the rear end protection contemplated shall be deemed to be in compliance with this rule.

History: 1954 ACS 94, p. 171, Eff. Jan. 5, 1978.

R 460.16455 Flags on projecting loads.

Rule 455. A motor vehicle having a load which extends beyond the sides or more than 4 feet beyond the rear shall have the extremities of the load marked with a red flag, not less than 12 inches square, at each point where a lamp is required by R 460.16410.

History: 1954 ACS 94, p. 171, Eff. Jan. 5, 1978.

R 460.16456 Television receivers.

Rule 456. A motor vehicle equipped with a television viewer, screen, or other means of visually receiving a television broadcast shall have the viewer or screen located in the motor vehicle at a point to the rear of the back of the driver's seat if such viewer or screen is in the same compartment as the driver, and the viewer or screen shall be so located as not to be visible to the driver while he is driving the motor vehicle. The operating controls for the television receiver shall be so located that the driver cannot operate them without leaving the driver's seat.

History: 1954 ACS 94, p. 171, Eff. Jan. 5, 1978.

R 460.16457 Seats, seat belt assemblies, and seat belt assembly anchorages.

Rule 457. (1) A truck and truck tractor manufactured on or after January 1, 1965, and before July 1, 1971, shall be equipped with a type 1 or type 2 seat belt assembly which conforms to federal motor vehicle safety standard no. 209, being 49 C.F.R. 571.209, installed at the driver's seat and at the right front outboard seat, if the vehicle has one. The vehicle shall also have seat belt assembly anchorages which conform to the location and geometric requirements of federal motor vehicle safety standard no. 210, being 49 C.F.R. 571.210, for each seat belt assembly that is required by this subrule.

(2) A truck and truck tractor manufactured on or after July 1, 1971, except a truck or truck tractor being transported in driveaway-towaway operation and having an incomplete vehicle seating the cab configuration, shall conform to the requirements of federal motor vehicle safety standard no. 208, being 49 C.F.R. 571.208, relating to installation of seat belt assemblies, and federal motor vehicle safety standard no. 201, being 49 C.F.R. 571.201, relating to installation of seat belt assembly anchorages.

(3) A truck and truck tractor manufactured on or after January 1, 1972, except a truck or truck tractor being transported in driveaway-towaway operation and having an incomplete vehicle seating and cab configuration, shall conform to the requirements of federal motor vehicle safety standard no. 207, being 49 C.F.R. 571.207, relating to seating systems.

(4) Whenever this rule requires conformity to a federal motor vehicle safety standard, the vehicle or equipment shall conform to the version of the standard that is in effect on the date the vehicle is manufactured, or on the date the vehicle is modified to conform to the requirements of this rule, whichever is later.

History: 1954 ACS 94, p. 171, Eff. Jan. 5, 1978.

R 460.16458 Vehicle interior noise levels.

Rule 458. (1) The interior sound level at the driver's seating position of a motor vehicle shall not exceed 90 db(A) when measured pursuant to subrule (2).

(2) The test procedures for measuring noise levels shall be as follows:

(a) Park the vehicle at a location so that no large reflecting surfaces, such as other vehicles, signboards, buildings, or hills, are within 50 feet of the driver's seating position.

(b) Close all vehicle doors, windows, and vents. Turn off all power-operated accessories.

(c) Place the driver in his normal seated position at the vehicle's controls. Evacuate all occupants except the driver and the person conducting the test.

(d) Use a sound level meter which meets the requirements of the American national standards institute standard ANSI S1.4-1971 specification for sound level meters, for type 2 meters. Set the meter to the A-weighting network, "fast" meter response.

(e) Locate the microphone, oriented vertically upward, 6 inches to the right of, in the same plane as, and directly in line with, the driver's right ear.

(f) With the vehicle's transmission in neutral gear, accelerate its engine to either its maximum governed engine speed if it is equipped with an engine governor, or its speed at its maximum rated horsepower if it is not equipped with an engine governor. Stabilize the engine at that speed.

(g) Observe the A-weighted sound level reading on the meter for the stabilized engine speed condition. Record that reading if the reading is not influenced by extraneous noise sources, such as motor vehicles operating on adjacent roadways.

(h) Return the vehicle's engine speed to idle and repeat the procedures specified in subdivisions (f) and (g) until 2 maximum sound levels within 2 db of each other are recorded. Numerically average those 2 maximum sound level readings.

(i) The average obtained pursuant to subdivision (h) is the vehicle's interior sound level at the driver's seating position for the purpose of determining whether the vehicle conforms to the requirement of subrule (1). However, a 2 db tolerance over the sound level limitation specified in that subrule is permitted to allow for variations in test conditions and variations in the capabilities of meters.

History: 1954 ACS 94, p. 172, Eff. Jan. 5, 1978.

EMERGENCY EQUIPMENT

R 460.16459 Emergency equipment generally.

Rule 459. (1) Except for a lightweight vehicle, a truck, truck tractor, and driven vehicle in a driveaway-towaway operation shall be equipped pursuant to this rule.

(2) Except as provided in subrule (6), a power unit shall be equipped with a fire extinguisher that is properly filled and located so that it is readily accessible for use. The fire extinguisher shall be securely mounted on the vehicle. The fire extinguisher shall be designed, constructed, and maintained to permit visual determination of whether it is fully charged and in proper operating condition.

Digitized by Google

The fire extinguisher shall have an extinguishing agent that does not need protection from freezing. The fire extinguisher shall not use a vaporizing liquid that gives off vapors more toxic than those produced by the substances shown as having a toxicity rating of 5 or 6 in the underwriters' laboratories classification of comparative life hazard of gases and vapors. Fire extinguishers are to be inspected and maintained in accordance with national fire protection association pamphlet no. 10, 1974 edition.

(3) A power unit that is used to transport hazardous materials shall be equipped with a fire extinguisher having an underwriters' laboratories rating of 10 B:C or more. After the effective date of these rules, replacement fire extinguishers shall have an underwriters' laboratories rating of 2A 20 B:C or more.

(4) A power unit that is not used to transport hazardous materials shall be equipped with either a fire extinguisher having an underwriters' laboratories rating of 5 B:C or more, or 2 fire extinguishers, each of which has an underwriters' laboratories rating of 4 B:C or more. After the effective date of these rules, replacement fire extinguishers shall have an underwriters' laboratories rating of 2A 10 B:C or more.

(5) A fire extinguisher required by subrule (3) or (4) shall be labeled or marked with its underwriters' laboratories rating and shall meet the requirement of subrule (1).

(6) For purposes of subrules (2) to (5), a power unit is used to transport hazardous materials only if the power unit or a motor vehicle towed by the power unit is marked or placarded pursuant to 49 C.F.R. 177.823. Subrules (2) to (5) do not apply to the driven unit in a driveaway-towaway operation.

(7) At least 1 spare fuse or other overload protective device, if the devices used are not of a reset type, shall be provided for each kind and size used. In driveaway-towaway operations, spares located on any 1 of the vehicles are deemed adequate.

(8) One set of tire chains for at least 1 driving wheel on each side shall be provided during the time when likely to encounter conditions requiring them, except that this requirement shall not apply to motor vehicles engaged in driveaway-towaway operations if such motor vehicles are not operated when such conditions exist.

(9) Except as provided in subrule (10), 1 of the following combinations of warning devices shall be provided:

(a) As to vehicles equipped with warning devices before January 1, 1974, 1 of the warning device systems specified below may be used until replacements are necessary:

(i) Three liquid-burning emergency flares which satisfy the requirements of SAE standard J597, liquid burning emergency flares, as well as 3 fusees and 2 red flags.

(ii) Three electric emergency lanterns which satisfy the requirements of SAE standard J596, electric emergency lanterns, and 2 red flags.

(iii) Three red emergency reflectors which satisfy the requirements of subrule (12) and 2 red flags.

(iv) Three red emergency reflective triangles which satisfy the requirements of subrule (11).

(v) Three bidirectional emergency reflective triangles that conform to the requirements of federal motor vehicle safety standard no. 125, being 49 C.F.R. 571.125.

(b) As to vehicles equipped with warning devices on and after January 1, 1974, 3 bidirectional emergency reflective triangles that conform to the requirements

Digitized by Google

of federal motor vehicle safety standard no. 125, being 49 C.F.R. 571.125, may be used. Fusees, liquid-burning emergency flares, and red electric lanterns that conform to subdivision (a) may be used to supplement the emergency reflective triangles.

(10) Liquid-burning emergency flares, fusees, oil lanterns, or any signal produced by a flame, shall not be carried on a motor vehicle transporting class A or B explosives, on any cargo tank motor vehicle used for the transportation of flammable liquids or flammable compressed gas, whether loaded or empty; or on a motor vehicle using compressed gas as a motor fuel.

(11) Requirements for emergency reflective triangles manufactured before January 1, 1974, are as follows:

(a) A reflector shall be a collapsible equilateral triangle, with legs not less than 17 inches long and not less than 2 inches wide. The front and back of the exposed leg surfaces shall be covered with red reflective material not less than ¼ inch in width. The reflective surface, front and back, shall be approximately parallel. When placed in position, 1 point of the triangle shall be upward. The area within the sides of the triangle shall be open.

(b) The reflecting material covering the leg of the equilateral triangle shall comply with either of the following:

(i) The requirements for reflex-reflector elements made of red methyl methacrylate plastic material, meeting the color, sealing, minimum candlepower, wind test, vibration test, and corrosion resistance test of sections 3 and 4 of federal specification RR-R-11,85, dated November 17, 1966.

(ii) The requirements for red reflective sheeting of federal specification L-S-300, dated September 7, 1965, except that the aggregate candlepower of the assembled triangle, in 1 direction, shall be not less than 8 when measured at 0.2 divergence angle and -4 degrees incidence angle, and not less than 80% of the candlepower specified for 1 square foot of material at all other angles shown in table II, reflective intensity values, of L-S-300.

(c) A reflective triangle shall be so constructed that when the triangle is properly placed, the reflective surfaces shall be in a plane perpendicular to the plane of the roadway surface with a permissible tolerance of ±10 degrees. Reflective triangles which are collapsible shall be provided with means of holding the reflective surfaces within the required tolerance. Such holding means shall be readily capable of adjustment without the use of tools or special equipment.

(d) A reflective triangle shall be of such weight and dimensions as to remain stationary when subjected to a 40 mile per hour wind when properly placed on any clean, dry, paved road surface. The reflective triangle shall be so constructed as to withstand reasonable shocks without breakage.

(e) A set of reflective triangles shall be adequately protected by enclosure in a box or other adequate container, specially designed and constructed so that the reflectors may be readily extracted for use.

(f) A red emergency reflective triangle designed and constructed to comply with the requirements of this subrule shall be plainly marked with the certification of the manufacturer that it complies with these requirements.

(12) A red emergency reflector shall conform in all respects to the following requirements:

(a) A reflector shall be composed of not less than 2 reflecting elements or surfaces on each side, front and back. The reflecting elements, front and back, shall be approximately parallel.

(b) A reflecting element or surface shall meet the requirement for a red class A reflector contained in the SAE recommended practice, reflex reflectors. The

aggregate candlepower output of all the reflecting elements or surface in 1 direction shall not be less than 12 when tested in a perpendicular position with observation at ⅓ degree, as specified in the photometric test contained in the above-mentioned recommended practice.

(c) If the reflector or the reflecting elements would be adversely affected by dust, soot, or other foreign matter, or by contacts with other parts of the reflector or its container, then such reflecting sufaces shall be adequately sealed within the body of the reflector.

(d) A reflector shall be so constructed that, when the reflector is properly placed, every reflecting element or surface is in a plane perpendicular to the plane of the roadway surface. Reflectors which are collapsible shall be provided with means for locking the reflector elements or surfaces in the required position. Such locking means shall be readily capable of adjustment without the use of tools or special equipment.

(e) A reflector shall be of such weight and dimensions as to remain stationary when subjected to a 40 mile per hour wind when properly placed on any clean, dry, paved road surface. The reflector shall be so constructed as to withstand reasonable shocks without breakage.

(f) A set of reflectors, and the reflecting elements or surfaces incorporated therein, shall be adequately protected by enclosure in a box, rack, or other adequate container specially designed and constructed so that the reflectors may be readily extracted for use.

(g) A red emergency reflector designed and constructed to comply with the requirements of this subrule shall be plainly marked with the certification of the manufacturer that it complies with these requirements.

(13) A fusee shall be adequate, reliable, and capable of burning at least 15 minutes, and shall comply with the specifications of the Bureau of Explosives, 2 Pennsylvania Plaza, New York, N.Y. 10001, dated December 15, 1944, and be so marked.

(14) Red flags shall be not less than 12 inches square, with standards adequate to maintain the flags in an upright position.

History: 1954 ACS 94, p. 172, Eff. Jan. 5, 1978.

PROTECTION AGAINST SHIFTING OR FALLING CARGO

R 460.16460 Protection against shifting or falling cargo generally.

Rule 460. (1) This rule applies to trucks, truck tractors, semitrailers, full trailers, and pole trailers. Each of those motor vehicles shall, when transporting cargo, be loaded and equipped to prevent the shifting or falling of the cargo in the manner prescribed by subrule (2). In addition, each cargo-carrying motor vehicle shall conform to the applicable provisions in R 460.16461, R 460.16462, and R 460.16463.

(2) A cargo-carrying motor vehicle shall be equipped with devices which provide protection against shifting or falling cargo and which meet the requirements of 1 of the following options:

(a) Under option A, the vehicle shall have sides, sideboards, or stakes, and a rear endgate, endboard, or stakes. Such devices shall be strong enough and high enough to assure that cargo does not shift upon, or fall from, the vehicle. The devices shall not have an aperture large enough to permit cargo in contact with 1 or more of the devices to pass through the devices.

(b) Under option B, the vehicle shall have at least 1 tiedown assembly that meets the requirements of R 460.16461 for each 10 linear feet of lading or fraction thereof. However, a pole trailer or an expandable trailer, transporting metal

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

articles under the special rules in subrules (3) and (4), is required only to have 2 or more of those tiedown assemblies at each end of the trailer. In addition, the vehicle shall have as many additional tiedown assemblies meeting the requirements of R 460.16461 as are necessary to secure all cargo being transported either by direct contact between the cargo and the tiedown assemblies or by dunnage which is in contact with the cargo and is secured by tiedown assemblies.

(c) Under option C, for vehicles transporting metal articles only, a vehicle transporting cargo which consists of metal articles shall conform to either subdivisions (a), (b), or (d), or to the special provisions for transportation of metal articles set forth in subrules (3) and (4).

(d) Under option D, the vehicle shall have other means of protecting against shifting or falling cargo which are similar to, and at least as effective as, those specified in subdivisions (a), (b), or (c).

(3) The rules in this subrule and in subrule (4) apply to a motor vehicle transporting cargo consisting of metal articles if that vehicle does not conform to subrule (2)(a), (b), or (d). A motor vehicle transporting property consisting of metal articles shall, regardless of whether the rules in this subrule and in subrule (4) apply to it, conform to the requirements in R 460.16461, relating to securement systems, R 460.16462, relating to blocking and bracing of cargo, and R 460.16463, relating to front-end structure requirements. Whenever a motor carrier transports 1 or more coils of metal which, individually or as a combination banded together, weigh 5,000 pounds or more, the coils shall be secured in the following manner:

(a) As to coils with eyes vertical, 1 or more coils which are grouped and loaded side by side in a transverse or longitudinal row shall be secured by the following:

(i) A tiedown assembly against the front of the coil or row of coils, restraining against forward motion.

(ii) A tiedown assembly against the rear of the coil or row of coils, restraining against rearward motion.

(iii) A tiedown assembly over the top of each coil or transverse row of coils, restraining against vertical motion. The same tiedown assembly shall not be used to comply with more than 1 of the requirements of this subdivision.

(b) As to coils with eyes crosswise, a coil or transverse row of coils loaded side by side and having approximately the same outside diameters shall be secured by:

(i) A tiedown assembly through the eye of each coil, restricting against forward motion and making an angle of less than 45 degrees with the horizonal when viewed from the side of the vehicle.

(ii) A tiedown assembly through the eye of each coil, restricting against rearward motion and making an angle of less than 45 degrees with the horizontal when viewed from the side of the vehicle.

(iii) Timbers, having a nominal cross section of 4 by 4 inches or more, and a length which is at least 75% of the width of the coil or row of coils, tightly placed against both the front and rear sides of the coil or row of coils and restrained to prevent movement of the coil or coils in the forward and rearward directions.

(iv) If coils are loaded to contact each other in the longitudinal direction, and relative motion between coils, and between coils and the vehicle, is prevented by tiedown assemblies and timbers, only the foremost and rearmost coils shall be secured with timbers, and a single tiedown assembly, restricting against forward motion, may be used to secure any coil, except the rearmost one, which shall be restrained against rearward motion.

(c) As to coils with eyes lengthwise, a coil or transverse row of coils having approximately equal outside diameters and loaded side by side, or a longitudinal row of coils having approximately equal outside diameters and loaded end to end, shall be secured as follows:

(i) The coil or coils shall be restrained against side-by-side and fore-and-aft movement by 1 or more tiedown assemblies over the top of each coil or transverse row, or by 2 or more tiedown assemblies through the eye of each coil or longitudinal row, or by 1 or more tiedown assemblies, crossing from 1 side of the vehicle to the other, through the eye of each coil or longitudinal row of coils in a transverse row.

(ii) Timbers having a nominal cross section of 4 by 4 inches or more shall be tightly placed against the sides of each coil or against the outboard sides of each transverse row of coils which are loaded side by side so that the timbers restrain against side-to-side movement.

(iii) If, pursuant to subdivision (i), only 1 tiedown assembly over the top of each coil or transverse row of coils is used to restrain against side-to-side movement and fore-and-aft movement, timbers having a nominal cross section of 2 by 4 inches or more, and which are firmly secured to longitudinal blocking, shall be tightly placed against the front and back of each coil, each longitudinal row of coils, and each transverse row of coils in a manner which restricts foward and rearward movement.

(d) Timber which is used for blocking shall be sound lumber which is free of defects, such as knots or cracks, that materially reduce its strength.

(e) Timbers need not be used on vehicles which have depressions in the floor or are equipped with other restraining devices which perform the functions specified for timbers by the provisions in this rule.

(f) As used in this rule, the word "nominal," when used to describe timber, means commercially dressed sizes generally designated by the dimensions indicated.

(4) Securing of miscellaneous metal articles shall be controlled by this subrule. Except as provided in subdivision (d) of this subrule, whenever a motor carrier transports metal articles consisting of cut-to-length bars, plates, rods, sheet and tin mill products, billets, blooms, ingots, slabs, structural shapes, or pipe and other tubular products, and those articles, either individually or as a combination of articles banded or boxed together and handled as a single unit, weigh more than 2,000 pounds, the article shall be secured in the following manner:

(a) A single article, a group of articles, or a combination of articles loaded side by side across the width of the vehicle shall be secured by at least 1 tiedown assembly over its top for at least every 8 feet of its length and not less than 2 tiedown assemblies securing each individual article or combination of articles banded or otherwise secured together and handled as a single unit. However, articles which individually have a length of 8 feet or less, and which are securely butted against each other in the fore-and-aft direction, may be secured by metal angles secured by tiedown assemblies, or they may be secured by a timber having a nominal cross section of 4 by 4 inches or more placed longitudinally over the articles and secured by tiedown assemblies. Tiedown assemblies may not be located beyond the ends of the article which they secure.

(b) If articles are tiered and each tiered article rests securely on the 1 beneath it, the tier may be secured in the same manner as a single level of those articles is secured pursuant to this rule.

(c) Pole trailers shall either comply with the requirements of subdivisions (a) and (b) or have not less than 2 tiedown assemblies securing the load to the forward bolster and not less than 2 tiedown assemblies securing the load to the rear bolster.

(d) This subrule does not apply to special loads consisting of machinery or fabricated structural items, such as beams, girders, and trusses, which are fastened

by special methods. However, those loads shall be securely and adequately fastened to the vehicle.

(5) This rule does not apply to a vehicle transporting 1 or more articles which, because of their size, shape, or weight, are carried on special-purpose vehicles or are fastened by special methods. However, an article carried on that vehicle shall be securely and adequately fastened to the vehicle.

(6) Containers designed for the transportation of containerized, intermodal cargo and having integral securement devices shall be fastened to the chassis of the motor vehicle with securement devices that prevent them from being unintentionally unfastened. The securement devices shall restrain the container from moving more than ½ inch forward, more than ½ inch aft, more than ½ inch to the right, more than ½ inch to the left, or more than 1 inch vertically when the container is subjected to the following accelerations relative to the vehicle:

Direction of force relative to longitudinal axis of vehicle:	Acceleration in G's
Downward	1.70
Upward	0.50
Lateral	0.30
Longitudinal	1.80

History: 1954 ACS 94, p. 174, Eff. Jan. 5, 1978.

R 460.16461 Securement systems.

Rule 461. (1) This rule applies to tiedown assemblies, including chains, cables, steel straps, and fiber webbing, other securement devices, and attachment or fastening devices used in conjunction therewith, which are used to secure cargo to motor vehicles in transit. All devices which are used to secure cargo to a motor vehicle in transit pursuant to R 460.16460 to R 460.16463 shall conform to the requirements of this rule.

(2) Except for integral securement devices of containers designed for the transportation of containerized, intermodal cargo which conform to the requirements of R 460.16460(6), the aggregate static breaking strength of the tiedown assemblies used to secure an article against movement in any direction shall be not less than 1¼ times the weight of that article. Chains used as a component of a tiedown assembly shall conform to the requirements of the August, 1961, edition of the national association of chain manufacturers' welded chain specifications applicable to all types of chain. Steel strapping used as a component of a tiedown assembly shall conform to the requirements of federal specification no. QQ-S-781 (1969). Steel strapping that is 1 inch wide or wider shall have not less than 2 pairs of crimps in each seal and, when end-over-end lap joints are formed, shall be sealed with not less than 2 seals.

(3) The strength of load binders and hardware that are part of, or used in conjunction with, a tiedown assembly shall be equal to, or greater than, the minimum strength specified for that tiedown assembly in subrule (2).

(4) The hook, bolt, weld, or other connector by which a tiedown assembly is attached to a vehicle, and the mounting place and means of mounting the connector, shall be at least as strong as the tiedown assembly when that connector is loaded in any direction in which the tiedown assembly may load it.

(5) The anchorages of a winch or other fastening device mounted on a vehicle and used in conjunction with a tiedown assembly shall have a combined tensile strength equal to, or greater than, the strength of the tiedown assembly.

(6) A tiedown assembly and its associated connectors and attachment devices shall be designed, constructed, and maintained so that the driver of an in-transit vehicle can tighten them. However, this subrule does not apply to a securement system in which the tiedown assembly consists of steel strapping, or to a tiedown assembly which is not required by this rule.

History: 1954 ACS 94, p. 177, Eff. Jan. 5, 1978.

R 460.16462 Blocking and bracing.

Rule 462. (1) Protection against longitudinal movement shall be provided pursuant to this subrule. When a motor vehicle carries cargo that is not firmly braced against a front-end structure that conforms to the requirements of R 460.16463, the cargo shall be secured so that, when the vehicle decelerates at a rate of 20 feet per second, the cargo remains on the vehicle and does not penetrate the vehicle's front-end structure.

(2) Protection against lateral movement shall be provided pursuant to this subrule. When a vehicle carries cargo that may shift sideways in transit, the cargo shall either be securely blocked or braced against the side, sideboards, or stakes of the vehicle, or shall be secured by devices that conform to the requirements of subrule (2)(b) to (d) of R 460.16460.

History: 1954 ACS 94, p. 177, Eff. Jan. 5, 1978.

R 460.16463 Front-end structure.

Rule 463. (1) Except as provided in subrule (7), a cargo-carrying motor vehicle shall be equipped with a headerboard, or similar device, of sufficient strength to prevent load shifting and penetration or crushing of the driver's compartment.

(2) The front-end structure shall be located between the vehicle's cargo and the vehicle's driver.

(3) The front-end structure shall extend either to a height of 4 feet above the floor of the vehicle or to a height at which it blocks forward movement of any item of cargo being carried on the vehicle, whichever is lower. The front-end structure shall have a width which is at least equal to the width of the vehicle or which blocks forward movement of any item of cargo being transported on the vehicle, whichever is narrower.

(4) The front-end structure shall be capable of withstanding the horizontal forward static load specified in either of the following:

(a) For a front-end structure less than 6 feet in height, it shall be able to withstand a horizontal forward static load equal to ½ of the weight of the cargo being transported on the vehicle, uniformly distributed over the entire portion of the front-end structure that is within 4 feet above the vehicle's floor, or that is at or below a height above the vehicle's floor at which it blocks forward movement of any item of the vehicle's cargo, whichever is less.

(b) For a front-end structure 6 feet in height or higher, it shall be able to withstand a horizontal forward static load equal to ⅘ of the weight of the cargo being transported on the vehicle, uniformly distributed over the entire front-end structure.

(5) The front-end structure shall be designed, constructed, and maintained so that it is capable of resisting penetration by any item of cargo that contacts it when the vehicle decelerates at a rate of 20 feet per second per second. The front-end structure shall not have an aperture large enough to permit any item of cargo in contact with the structure to pass through it.

(6) The requirements of this rule may be met by the use of devices performing the same functions as a front-end structure, if the devices are at least as strong as, and provide protection against shifting cargo at least equal to, a front-end structure which conforms to these requirements.

(7) The following motor vehicles are exempt from the requirements of this rule:

(a) A vehicle which is designed and used exclusively to transport other vehicles, if each vehicle it transports is securely tied down by devices that conform to the requirements of R 460.16461.

(b) A pole trailer or semitrailer being towed by a truck tractor that is equipped with a front-end structure that conforms to the provisions in this rule.

(c) A full trailer being towed by a vehicle that is equipped with a front-end structure that conforms to the requirements of this rule for a front-end structure.

(d) A full trailer being towed by a vehicle that is loaded in such a manner that the cargo on the towing vehicle conforms to the requirements of this rule for a front-end structure.

(e) A motor vehicle manufactured before January 1, 1974, relative to the requirements of subrules (4) and (5).

History: 1954 ACS 94, p. 177, Eff. Jan. 5, 1978.

PART 5. NOTIFICATION, REPORTING, AND RECORDING OF ACCIDENTS

R 460.16501 Purpose and scope of rules.

Rule 501. (1) The rules in this part establish duties of motor carriers to make reports and keep records of accidents which occur during their operations.

(2) The rules in this part apply to all motor carriers of property involved in interstate, foreign, or intrastate commerce.

History: 1954 ACS 94, p. 178, Eff. Jan. 5, 1978.

R 460.16510 "Reportable accident" defined.

Rule 510. (1) As used in this part, "reportable accident," except as provided in subrule (2), means any occurrence involving a motor vehicle engaged in the interstate, foreign, or intrastate operations of a motor carrier which results in 1 of the following:

(a) The death of a human being.

(b) Bodily injury to a person who, as a result, receives medical treatment away from the scene of the accident.

(c) Total damage to all property aggregating $3,500.00 or more, based on actual costs or reliable estimates.

(2) "Reportable accident" does not include:

(a) An occurrence involving only boarding and alighting from a stationary motor vehicle.

(b) An occurrence involving only the loading or unloading of cargo.

(c) An occurrence in the course of the operation of a passenger car by a motor carrier which is not transporting passengers for hire or hazardous materials of a type and quantity that requires the vehicle to be marked or placarded pursuant to 49 C.F.R. 177.823.

History: 1954 ACS 94, p. 178, Eff. Jan. 5, 1978.

R 460.16515 Reporting of accidents.

Rule 515. (1) Within 15 days after a reportable accident occurs, the motor carrier shall file a copy of the accident report with the public service commission on department of transportation form MCS 50-T.

Digitized by Google

(2) The motor carrier shall fill in the report form completely and accurately with the most reliable information available to it at the time the report is filed.

History: 1954 ACS 94, p. 178, Eff. Jan. 5, 1978.

R 460.16520 Notice of death after filing report.

Rule 520. (1) If, within 30 days after a reportable accident occurs, a person dies as a result of the accident after a motor carrier has filed its report pursuant to R 460.16515, the motor carrier shall, as soon as possible after the death, and not later than the time specified in subrule (2), give written notice of the death to the public service commission.

(2) The notice of death required by subrule (1) shall be dispatched before the close of the first business day following the day on which the motor carrier learns of the death.

(3) The notice of death required by subrule (1) shall include the following information:

(a) The date and location of the accident.

(b) The name of the decedent.

(c) The name and address of the motor carrier.

History: 1954 ACS 94, p. 179, Eff. Jan. 5, 1978.

R 460.16525 Accident register.

Rule 525. (1) A motor carrier shall currently maintain an accident register in its files at its principal place of business. The accident register shall contain the following information with respect to each reportable accident in the motor carrier's operations:

(a) Accident claim number or carrier's file number.

(b) Date and time of accident.

(c) Location of accident, including city or town, and state.

(d) Name of driver.

(e) Number of persons killed and injured.

(f) Amount, in dollars, of damage to property.

(g) Nature of the accident, such as "collision," "overturn," "fire," or "cargo damage."

(h) Whether the accident occurred during an interstate, foreign, intrastate, or intracity operation.

(2) The file in which the accident register is maintained shall also include a copy of each report that the carrier has filed, pursuant to R 460.16515, with a state agency or with an insurer, with respect to any reportable accident entered in the accident register. The reports shall be arranged or annotated in a manner which permits them to be identified with specific entries in the accident register.

(3) A motor carrier shall keep the entries in the accident register pertaining to a reportable accident, and the information specified in subrule (2) pertaining to that accident, in its files for not less than 3 years after the date of the accident.

History: 1954 ACS 94, p. 179, Eff. Jan. 5, 1978.

R 460.16530 Assistance in investigations and special studies.

Rule 530. (1) A motor carrier shall make all records and information pertaining to any accident available to an authorized representative of the Michigan public service commission, upon his request. A motor carrier shall give an authorized representative of the public service commission all reasonable assistance in the investigation of an accident.

(2) If the Michigan public service commission makes an inquiry to a motor carrier in connection with a study of accidents, the motor carrier shall:

(a) Respond to the inquiry within 15 days after its receipt or within such other time as the inquiry may specify.

(b) Provide a full, true, and correct answer to any question included in the inquiry.

History: 1954 ACS 94, p. 179. Eff. Jan. 5, 1978

PART 6. HOURS OF SERVICE OF DRIVERS

R 460.16601 Compliance and familiarity with rules.

Rule 601. A motor carrier and its officers, drivers, agents, employees, and representatives shall comply with the rules in this part, and a motor carrier shall require that its officers, drivers, agents, employees, and representatives be conversant with the rules in this part.

History: 1954 ACS 94, p. 179. Eff. Jan. 5, 1978

R 460.16605 Definitions.

Rule 605. As used in this part, "driving time" or "drive time" means all time spent at the driving controls of a motor vehicle in operation. All stops made in any 1 village, town, or city may be computed as 1 stop.

History: 1954 ACS 94, p. 180. Eff. Jan. 5, 1978

R 460.16625 Driver's daily log.

Rule 625. (1) A motor carrier shall require that a driver's daily log, form MCS-59, shall be made in duplicate by every driver used by him or it, and every driver who operates a motor vehicle shall make such a log. Failure to make logs, failure to make required entries therein, falsification of entries, or failure to preserve logs shall make both the driver and carrier liable to prosecution. Driver's logs shall be prepared and retained pursuant to subrules (2) to (18).

(2) After making his initial entry upon commencement of duty, the driver or operator shall record his activities in the log, and the record of activities shall not be more than 4 hours behind the driver's current duty status.

(3) Except that the name and principal place of business address of the carrier may be printed, all entries shall be made by the driver in his own handwriting.

(4) The month, day, and year for each calendar day on or off duty shall be entered in the log.

(5) Total mileage entered shall be that mileage traveled while driving on duty during the day covered by the log.

(6) The carrier's vehicle number or numbers or the state and license number or numbers of each vehicle or unit of a combination operated during the calendar day shall be entered.

(7) The name or names of the carrier or carriers shall be that or those for which duty is performed. When work is performed for more than 1 carrier on the same calendar day, the beginning and finishing time, showing a.m. or p.m. worked for each carrier shall be shown after each carrier name. Drivers of leased vehicles shall show the name of the carrier performing the transportation.

(8) The driver shall certify to the correctness of the log by signing his first name and last name in full and his middle name or middle initial, if any. Below the driver's signature, he shall list the initials and last name of each co-driver.

Digitized by Google

(9) The driver's home terminal address shown shall be that at which he normally reports for duty.

(10) Except for time spent resting in a sleeper berth, a continuous line shall be drawn between the appropriate time markers to record the period or periods of time when the driver is not on duty, not required to be in readiness to work, or is not under any responsibility for performing work.

(11) A continuous line shall be drawn between the appropriate time markers to record the period or periods of time off duty resting in a sleeper berth.

(12) A continuous line shall be drawn between the appropriate time markers to record the period or periods of time on duty driving a motor vehicle.

(13) A continuous line shall be drawn between the appropriate time markers to record the period or periods of time on duty, but not driving.

(14) The appropriate time marker and the name of the city, town, or village, with state abbreviation, or place at or near which each change of duty occurs, shall be recorded, such as the place of reporting for work, starting to drive, on duty not driving, and where released from work. The reason resulting in hours exceeding those permitted by Act No. 181 of the Public Acts of 1963, as amended, shall be explained. The document number or numbers, or name of a shipper and commodity shall be included.

(15) The total hours in each duty status shall be entered. Off duty other than in a sleeper berth; off duty in a sleeper berth; driving; and on duty not driving shall be entered, the total of which entries shall equal 24 hours.

(16) The name of the place where a trip begins and the final destination or farthest turnaround point shall be shown at the bottom of the log. If a driver departs from and returns to the same place on any day, the destination shall be indicated by entering the farthest point reached, followed by the words "and return."

(17) Daily logs for each calendar month may be retained at the driver's home terminal until the twentieth day of the succeeding calendar month, and shall then be forwarded to the carrier's principal place of business, where they shall be retained for 12 months from date of receipt. The driver shall retain a copy of each daily log for 30 days, which shall be in his possession while on duty.

(18) This rule does not apply to the driver of a lightweight vehicle as defined in R 460.16101, of 10,000 pounds or less, unless that vehicle is either:

(a) Used to transport hazardous materials of a type or quantity that requires the vehicle to be marked or placarded pursuant to 49 C.F.R. 177.823, or

(b) Operated without cargo under conditions that require the vehicle to be marked or placarded in accordance with 49 C.F.R. 177.823.

History: 1954 ACS 94, p. 180, Eff. Jan. 5, 1978.

R 460.16630 Adverse driving conditions.

Rule 630. (1) Except as provided in subrule (2), a driver who encounters adverse driving conditions and cannot, because of those conditions, safely complete the run within the 10-hour maximum driving time permitted, may drive, and be permitted or required to drive, a motor vehicle for not more than 2 additional hours in order to complete that run or to reach a place offering safety for vehicle occupants and security for the vehicle and its cargo. However, that driver may not drive, or be permitted or required to drive, for more than 12 hours in the aggregate following 8 consecutive hours off duty, or may not be permitted or required to drive after he has been on duty 15 hours following 8 consecutive hours off duty.

(2) As used in this rule, "adverse highway conditions" means snow, sleet, fog, other adverse weather conditions, a highway covered with snow or ice, or unusual road and traffic conditions, none of which were apparent on the basis of information known to the person dispatching the run at the time it was begun.

History: 1954 ACS 94, p. 181, Eff. Jan. 5, 1978.

R 460.16635 Emergency conditions.

Rule 635. In case of an emergency, a driver may complete his run, without being in violation of these rules, if the run could reasonably have been completed without such violations.

History: 1954 ACS 94, p. 181, Eff. Jan. 5, 1978.

R 460.16640 Exemption from rules.

Rule 640. These rules do not apply to a carrier when transporting property to or from any section of the country with the object of providing relief in case of earthquake, flood, fire, famine, drought, epidemic, pestilence, or other calamitous visitation or disaster.

History: 1954 ACS 94, p. 181, Eff. Jan. 5, 1978.

R 460.16645 Drivers declared "out-of-service."

Rule 645. (1) Every motor carrier officer of the public service commission is authorized to declare a driver out-of-service, and to notify the motor carrier of that declaration, if that officer finds, at the time and place of examination, that the driver has driven or has been on duty immediately prior to the examination longer than the maximum period permitted by Act No. 181 of the Public Acts of 1963, as amended.

(2) A motor carrier shall not require or permit a driver who has been declared out-of-service to drive or operate a motor vehicle until that driver may lawfully do so under provisions of Act No. 181 of the Public Acts of 1963, as amended.

(3) A driver who has been declared out-of-service shall not drive or operate a motor vehicle until he may lawfully do so under provisions of Act No. 181 of the Public Acts of 1963, as amended.

History: 1954 ACS 94, p. 181, Eff. Jan. 5, 1978.

PART 7. INSPECTION AND MAINTENANCE

R 460.16701 Compliance and familiarity with rules.

Rule 701. A motor carrier or its officers, drivers, agents, representatives, and employees, directly concerned with the inspection or maintenance of motor vehicles, shall comply and be conversant with the rules in this part.

History: 1954 ACS 94, p. 181, Eff. Jan. 5, 1978.

R 460.16705 Inspection and maintenance generally.

Rule 705. A motor carrier shall systematically inspect and maintain, or cause to be systematically maintained, all motor vehicles subject to its control, as well as the accessories required by part 4 of these rules to be mounted thereon, to insure that the motor vehicles and accessories are in safe and proper operating condition. A systematic inspection and maintenance for the period during which the vehicle is subject to the motor carrier's control shall include not less than the following:

(a) An identification of the vehicle, including make, model, and serial number, and including the number of tires, their size, and the number of ply.

(b) A record of inspection and repairs, indicating their date and nature.

(c) A lubrication record.

(d) A systematic means for indicating, for each vehicle, the nature and due date of the various inspection and maintenance operations to be performed.

(e) If leased or otherwise contracted for, such records shall also include an identification of the lessor or contractor furnishing the motor vehicle. Recommended procedure and forms are set forth in R 460.16740.

History: 1954 ACS 94, p. 181, Eff. Jan. 5, 1978.

R 460.16710 Lubrication.

Rule 710. A motor carrier shall institute such procedures as may be necessary to insure that motor vehicles are properly lubricated; that proper action is taken to correct oil and grease leaks; and that undue accumulations of grease and oil are investigated, removed, and the cause thereof corrected.

History: 1954 ACS 94, p. 182, Eff. Jan. 5, 1978.

R 460.16715 Unsafe operations prohibited.

Rule 715. A motor carrier shall not permit or require a driver to drive a motor vehicle revealed by inspection or operation to be in such condition that its operation would be hazardous or likely to result in a breakdown of the vehicle. A driver shall not drive a motor vehicle which, by reason of its mechanical condition, is so imminently hazardous to operate as to be likely to cause an accident or a breakdown of the vehicle. If, while a motor vehicle is being operated on a highway, it is discovered to be in such unsafe condition, it shall be continued in operation only to the nearest place where repairs can safely be effected, and even that operation shall be conducted only if it is less hazardous to the public than permitting the vehicle to remain on the highway.

History: 1954 ACS 94, p. 182, Eff. Jan. 5, 1978.

R 460.16720 Inspection of motor vehicles in operation.

Rule 720. (1) Every motor carrier officer of the public service commission shall enter upon and perform inspections of motor carriers' vehicles in operation.

(2) Authorized officers shall declare "out-of-service" any motor vehicle which, by reason of its mechanical condition or loading, is so imminently hazardous to operate as to be likely to cause an accident or a breakdown.

(3) A motor carrier shall not require or permit a person to operate a motor vehicle declared out-of-service until all the repairs required by the out-of-service notice are satisfactorily completed. The term "operate," as used in this rule, includes towing the vehicle. However, vehicles declared out-of-service may be towed away by means of a vehicle using a crane or hoist if the vehicle combination, consisting of the emergency towing vehicle and the out-of-service vehicle, meets the performance requirements of R 460.16436.

History: 1954 ACS 94, p. 182, Eff. Jan. 5, 1978.

R 460.16725 Damaged vehicles; inspection.

Rule 725. A motor carrier shall not permit or require a driver to drive, and a driver shall not drive, a motor vehicle which is damaged in an accident or by other cause until inspection is made by a person qualified to ascertain the nature and extent of the damage and the relationship of the damage to the safe operation of the motor vehicle, and the motor vehicle shall not be operated until such person determines it to be in safe operating condition.

History: 1954 ACS 94, p. 182, Eff. Jan. 5, 1978.

R 460.16730 Report of vehicle defect or deficiency by driver.

Rule 730. Except for the driver of a lightweight vehicle, and except as provided for driveaway-towaway operations in R 460.16735, a motor carrier operating more than 1 motor vehicle shall require its drivers to report, and a driver shall prepare a report in writing at the completion of his day's work or tour of duty, which report shall list any defect or deficiency of the motor vehicle discovered by the driver or reported to him as is likely to affect the safety of operation of the motor vehicle or result in its mechanical breakdown, or shall indicate that no such defect or deficiencies were discovered by, or reported to, him.

History: 1954 ACS 94, p. 182, Eff. Jan. 5, 1978.

R 460.16735 Driveaway-towaway operations; inspections.

Rule 735. A motor carrier, with respect to motor vehicles engaged in driveaway-towaway operations, shall comply with this rule in addition to R 460.16701 to R 460.16725, except that the driver's "vehicle condition report" required by R 460.16730 and the maintenance records required by R 460.16705 shall not be required for a vehicle which is part of the shipment being delivered. Before the beginning of a driveaway-towaway operation of motor vehicles in combination, the motor carrier shall make a careful inspection and test to ascertain that the tow-bar or saddle-mount connections are properly secured to the towed and towing vehicles, that they function adequately without cramping or binding of any of the parts, and that the towed motor vehicle follows substantially in the path of the towing vehicle without whipping or swerving. Every motor carrier shall maintain practices to insure that following completion of a trip in a driveaway-towaway operation of motor vehicles in combination, and before they are used again, the tow-bars and saddle-mounts are disassembled and inspected for worn, bent, cracked, broken, or missing parts. Before reuse, suitable repair or replacement shall be made of any defective parts, and the devices shall be properly reassembled.

History: 1954 ACS 94, p. 182, Eff. Jan. 5, 1978.

R 460.16740 Recommended practices and forms.

Rule 740. The following practices and forms are recommended to motor carriers for consideration as one means of establishing the inspection and maintenance practices which are required by R 460.16705 to R 460.16730:

(a) As a convenient means of providing for the report required by R 460.16730, the driver's vehicle condition report at the end of this subdivision is suggested. The items are arranged in a logical order of inspection. While the rules do not require a written report of the inspection prior to driving, the form may be adapted for such a report by duplicating the text of the following form and using an appropriate heading. Changes may be made to suit the particular carrier's operations, such as by providing for the recording of more than 1 inspection on a single form.

DRIVER'S VEHICLE CONDITION REPORT

(b) R 460.16705 requires that motor carriers maintain systematic inspection and maintenance records, but the rules do not require any particular type or form of records. As a convenient means for providing the systematic inspection and maintenance records required by R 460.16705, the following forms are suggested. Other systems recommended by the vehicle manufacturers are suggested as alternative methods. It is recommended that a cardboard check sheet for each inspection period for each vehicle be placed at a convenient point in the garage. Under the suggested system, when the four 1,000-mile inspections have been completed, the mechanic knows that he should perform the 5,000-mile inspection in accordance with the 5,000-mile inspection card. These forms, especially the mileage intervals, are suitable for the average over-the-road operator, but changes may be made to adapt them to the individual operation. The items listed may be too numerous for some operations and, in such cases, carriers may select items applicable to their own operations. Carriers may alter the recommended mileage figures to suit their needs, or inspection periods may be determined on other than a mileage basis, such as time or fuel consumption. The fundamental requirement is that there be a systematic inspection and maintenance system.

PART 8. TRANSPORTATION OF HAZARDOUS MATERIALS; DRIVING AND PARKING RULES

R 460.16801 Application of rules.

Rule 801. The rules in this part apply to a motor carrier engaged in the transportation of hazardous materials by a motor vehicle which shall be marked or placarded pursuant to 49 C.F.R. 177.823, as well as to each officer or employee of the carrier who performs supervisory duties related to the transportation of hazardous materials and to each person who operates, or who is in charge of, a motor vehicle containing hazardous materials. Each person designated in this rule shall know and obey the rules in this part.

History: 1954 ACS 94, p. 185, Eff. Jan. 5, 1978.

R 460.16810 Compliance with rules.

Rule 810. A motor carrier or other person to whom this part is applicable shall comply with the rules in parts 1 to 8 when he or it is transporting hazardous materials by a motor vehicle which is marked or placarded pursuant to 49 C.F.R. 177.823.

History: 1954 ACS 94, p. 186, Eff. Jan. 5, 1978.

R 460.16815 Compliance with laws, ordinances, and regulations.

Rule 815. A motor vehicle containing hazardous materials shall be driven and parked in compliance with the laws, ordinances, and regulations of the jurisdiction in which it is being operated, unless they are at variance with requirements of these rules which impose a more stringent obligation or restraint.

History: 1954 ACS 94, p. 186, Eff. Jan. 5, 1978.

R 460.16820 Motor vehicle to be attended.

Rule 820. (1) Except as provided in subrule (2), a motor vehicle which contains class A or class B explosives shall be attended at all times by its driver or a qualified representative of the motor carrier that operates it.

(2) Subrule (1) does not apply to a motor vehicle which contains class A or class B explosives if all the following conditions exist:

(a) The vehicle is located on the property of the motor carrier, on the property of a shipper or consignee of the explosives, in a safe haven, or in the case of a

vehicle containing 50 pounds or less of either class A or class B explosives, on a construction or survey site.

(b) The lawful bailee of the explosives is aware of the nature of the explosive which the vehicle contains, and has been instructed in the procedures he shall follow in emergencies.

(c) The vehicle is within the bailee's unobstructed field of view or is located in a safe haven.

(3) A motor vehicle which contains hazardous materials other than class A or class B explosives, and which is located on a public street or highway or the shoulder of a public highway, shall be attended by its driver. However, the vehicle need not be attended while its driver is performing duties which are incident and necessary to his duties as the operator of the vehicle.

(4) For the purpose of this rule:

(a) A motor vehicle is attended when the person in charge of the vehicle is on the vehicle, awake, and not in a sleeper berth, or is within 100 feet of the vehicle and has it within his unobstructed field of view.

(b) A qualified representative of a motor carrier is a person who meets all of the following criteria:

(i) Has been designated by the carrier to attend the vehicle.

(ii) Is aware of the nature of the hazardous materials contained in the vehicle he attends.

(iii) Has been instructed on the procedures he shall follow in emergencies.

(iv) Is authorized to move the vehicle, and has the means and ability to do so.

(c) A safe haven is an area specifically approved in writing by local, state, or federal governmental authorities for the parking of unattended vehicles containing class A or class B explosives.

(5) This rule does not relieve a driver from an obligation imposed by law relative to the placing of warning devices when a motor vehicle is stopped on a public street or highway.

History: 1954 ACS 94, p. 186, Eff. Jan. 5, 1978.

R 460.16825 Parking.

Rule 825. (1) A motor vehicle which contains class A or class B explosives shall not be parked:

(a) On or within 5 feet of the traveled portion of a public street or highway.

(b) On private property, including premises of a fueling or eating facility, without the knowledge and consent of the person who is in charge of the property and unless that person is aware of the nature of the hazardous materials the vehicle contains.

(c) Within 300 feet of a bridge, tunnel, dwelling, building, or place where people work, congregate, or assemble, except for brief periods when the necessities of operation require the vehicle to be parked and made it impracticable to park the vehicle in any other place.

(2) A motor vehicle which contains hazardous materials other than class A or class B explosives shall not be parked on or within 5 feet of the traveled portion of a public street or highway, except for brief periods when the necessities of operation require the vehicle to be parked and make it impracticable to park the vehicle in any other place.

History: 1954 ACS 94, p. 186, Eff. Jan. 5, 1978.

R 460.16830 Routes.

Rule 830. (1) Unless there is no practicable alternative, a motor vehicle which contains hazardous materials shall be operated over routes which do not go

through or near heavily populated areas, places where crowds are assembled, tunnels, narrow streets, or alleys. Operating convenience is not a basis for determining whether it is practicable to operate a motor vehicle pursuant to this subrule.

(2) Before a motor carrier requires or permits a motor vehicle containing class A or class B explosives to be operated, it shall prepare a written plan of route that complies with the rules in subrule (1) for that vehicle, and shall furnish a copy of the written plan to the driver. However, the driver may prepare the written plan as agent for the motor carrier when the driver begins his trip at a location other than the carrier's terminal.

History: 1954 ACS 94, p. 187, Eff. Jan. 5, 1978.

R 460.16835 Fires.

Rule 835. (1) A motor vehicle containing hazardous materials shall not be operated near an open fire unless its driver has first taken precautions to ascertain that the vehicle can safely pass the fire without stopping.

(2) A motor vehicle containing hazardous materials shall not be parked within 300 feet of an open fire.

History: 1954 ACS 94, p. 187, Eff. Jan. 5, 1978.

R 460.16840 Smoking.

Rule 840. A person may not smoke or carry a lighted cigarette, cigar, or pipe on or within 25 feet of:

(a) A motor vehicle which contains explosives, oxidizing materials, or flammable materials.

(b) An empty tank motor vehicle which has been used to transport flammable liquids or gases and which, when so used, was required to be marked or placarded pursuant to the rules in 49 C.F.R. 177.823.

History: 1954 ACS 94, p. 187, Eff. Jan. 5, 1978.

R 460.16845 Fueling.

Rule 845. When a motor vehicle which contains hazardous materials is being fueled its engine shall not be operating, and a person shall be in control of the fueling process at the point where the fuel tank is filled.

History: 1954 ACS 94, p. 187, Eff. Jan. 5, 1978.

R 460.16850 Tires.

Rule 850. (1) If a motor vehicle which contains hazardous materials is equipped with dual tires on any axle, its driver shall stop the vehicle in a safe location at least once during each 2 hours or 100 miles of travel, whichever is less, and shall examine its tires. The driver shall also examine the vehicle's tires at the beginning of each trip and each time the vehicle is parked.

(2) If, as the result of an examination pursuant to subrule (1) or otherwise, a tire is found to be flat, leaking, or improperly inflated, the driver shall cause the tire to be repaired, replaced, or properly inflated before the vehicle is driven. However, the vehicle may be driven to the nearest safe place to perform the required repair, replacement, or inflation.

(3) If, as the result of an examination pursuant to subrule (1) or otherwise, a tire is found to be overheated, the driver shall immediately cause the overheated tire to be removed and placed at a safe distance from the vehicle. The driver shall not operate the vehicle until the cause of the overheating is corrected.

(4) Compliance with this rule does not relieve a driver of the duty to comply with R 460.16820 and R 460.16825.

History: 1954 ACS 94, p. 187, Eff. Jan. 5, 1978.

R 460.16855 Driver to be furnished rules, documents, and instructions.

Rule 855. (1) A motor carrier that transports any hazardous materials shall furnish the driver of each motor vehicle in which the hazardous materials are transported with a copy of the rules in this part and a document containing instructions on procedures to be followed in the event of accident or delay. The documents shall include the names and telephone numbers of persons, including representatives of carriers or shippers, to be contacted, the nature of the hazardous materials being transported, and the precautions to be taken in emergencies, such as fires, accidents, or leakages.

(2) A driver who receives documents pursuant to subrule (1) shall sign a receipt for them. The carrier shall retain the receipt in its files for 1 year at its principal place of business.

(3) A driver of a motor vehicle which contains class A or class B explosives shall have in his possession and be familiar with:

(a) The documents specified in subrule (1).

(b) The documents specified in 49 C.F.R. 177.817.

(c) The written route plan specified in R 460.16830(2).

History: 1954 ACS 94, p. 187, Eff. Jan. 5, 1978.

R 460.16860 Marking of vehicles.

Rule 860. (1) A motor vehicle shall be marked as specified in subrules (2) and (3) if that vehicle is transporting hazardous material of a kind or quantity which requires the vehicle to be marked or placarded pursuant to 49 C.F.R. 177.823, and if that vehicle is operating under its own power, either alone or in combination.

(2) The marking shall display the following information:

(a) The name or trade name of the private carrier operating the vehicle.

(b) The city or community in which the carrier maintains its principal office or in which the vehicle is customarily based.

(c) The words "operated by" immediately preceding the information required by subdivisions (a) and (b) if the name of a person other than the operating carrier appears on the vehicle.

(d) Other identifying information may be displayed on the vehicle if it is not inconsistent with the information required by this paragraph.

(3) The marking shall:

(a) Appear on both sides of the vehicle.

(b) Be in letters that contrast sharply in color with the background.

(c) Be readily legible during daylight hours from a distance of 50 feet while the vehicle is stationary.

(d) Be kept and maintained in a manner that retains the legibility required by subdivision (c). The marking may consist of a removable device if that device meets the identification and legibility requirements of this rule.

History: 1954 ACS 94, p. 188, Eff. Jan. 5, 1978.

R 460.16865 Department of transportation regulations governing transportation of hazardous materials; incorporation by reference.

SMALL LOAN LICENSEES

(By authority of Act No. 21 of the Public Acts of 1939, as amended, being §493.1 et seq. of the Michigan Compiled Laws)

R 487.71 Records.

Rule 1. (1) Each licensee shall maintain a general ledger showing in full detail the assets and liabilities of the business conducted in the office of the licensee. The general ledger shall be posted at least monthly and shall be maintained so that the assets, liabilities, income and expenses may be readily segregated from the business of other offices operated by the licensee. A trial balance or a balance sheet and profit and loss statement shall be prepared within 20 days after the close of every monthly period. This trial balance or balance sheet and the profit and loss statement shall be available to the examiner for each month covering a period of at least 2 years prior to the examination.

Licensed companies operating more than 1 licensed office may maintain the general ledger at their home office, providing the trial balance or balance sheet and profit and loss statement of the licensed office are available to the examiner at the licensed office within 20 days after the close of the monthly period and are retained there for at least 2 years prior to the examination.

The department reserves the right to demand that the general ledger maintained at the home office be produced within 10 days after notice to the licensee.

(2) Any charge made to any licensed office by the home office to cover any item of expense must be in such detail as to show the nature of the expense.

(3) Each licensee shall keep a book or daily report, either bound or loose-leaf, cash book or cash book journal type, which book shall be a record of original entry in which all transactions of the licensee entailing either the receipt or disbursement of any amount whatsoever, whether for principal, charges or filing fees, shall be entered. Special columns must be provided for amounts received as payments on principal and charges. The record must be posted and balanced daily and shall show sufficient descriptive matter to identify each transaction.

(4) Loans made shall be listed numerically on the cash book, the record to show the name of the borrower and the amounts actually paid out. If so desired, a licensee may maintain a loan register supplying the required information, only the aggregate amount of loans made being shown on the cash book.

(5) An individual account shall be kept for each borrower, such account, hereafter referred to as a ledger card to be kept on a card system or in a loose-leaf binder. Each ledger card shall plainly show on its face the name and address of the borrower, loan number, actual amount of the loan, date of loan, rate of charge, terms of repayment, description of security, names of endorsers, co-makers, or sureties, if any, and the amount of filing or discharge fee collected from the borrower. The ledger card shall also show the amount received or withheld from the borrower as a premium for insurance, if any, written on behalf of the borrower in connection with the loan, and the period covered by such insurance policy or policies.

(6) Ledger cards shall be filed in alphabetical order and shall show the actual date and amounts of all entries pertaining to receipt and disbursements of cash, including amounts disbursed as court costs.

(7) Ledger cards shall provide separate columns for the date of payment of principal and charges and shall be kept in such manner as to show at once, on inspection, the balance due on principal and the date to which charges are paid.

(8) If an error is made on the ledger card a line shall be drawn in ink through the improper entry and the correct entry made on the following line. The entries

on ledger cards must correspond with the receipts given the borrower. No erasures shall be made on the face of the ledger cards.

(9) A licensee shall keep a separate record filed in alphabetical order of the liability of each person as co-maker, surety, guarantor or endorser, which record shall show the date, loan number, name of borrower, and original amount of all currently unliquidated loans. When any loan is paid it shall be promptly indicated upon this record.

(10) When a note has been reduced to judgment the following rules must be observed:

(a) The face of the ledger card must be stamped in bold type with the words "Judgment Account." Thereafter all payments received must be applied on the judgment and properly identified.

(b) A record shall be maintained of all accounts on which court action has been taken, such record to be in sufficient detail as to permit identification of the account.

(c) The files of the licensee must contain statements (signed by the justice of the peace, or clerk of the court) setting forth the following items:

(i) Date of judgment.

(ii) Name of licensee.

(iii) Judgment debtor's name.

(iv) Date suit was filed.

(v) Nature of the suit.

(vi) Name and location of the court.

(vii) Amount of the judgment, showing the separate items comprised in the judgment as follows:

(A) Principal.

(B) Charges.

(C) Court costs.

(D) Total amount of judgment, (aggregate of (A), (B), and (C)).

(viii) Judgment by:

(A) Default.

(B) Confession.

(C) Contested suit.

(ix) Disposition of the case.

(Signed)

Justice, or Clerk of Court

(d) Court costs charged to the borrower must be itemized and verified by receipted bills.

(e) Where property is sold pursuant to any judgment or judicial process, the file must contain a copy of the officer's return of execution issued under such judgment.

(11) Sale of security: When mortgaged property is taken in accordance with the terms of a chattel mortgage or by judicial process or abandonment, the following regulations shall be observed:

(a) The face of the ledger card must be stamped in bold type with the words "Foreclosure Account" and disclose the following information:

(i) How possession of the security was obtained and when.

(ii) The proceeds of the sale thereof, properly identified.

(b) The files of the licensee must contain the following:

(i) A copy of any agreement entered into with the mortgagor with respect to terms of surrender.

(ii) A copy of the notice of sale, together with evidence of mailing or personal delivery.

(iii) An inventory of the property taken, unless same appears in detail on the notice of sale.

(iv) Signed statement from the purchasers (or from the auctioneer if the sale was public) describing the chattels purchased, showing the amounts paid for same and the name of the borrower who executed the mortgage. The statement form is to be substantially as follows:

State_____ Date_____

City _____.

This is to acknowledge that the undersigned did purchase for the sum of $_____ from _____, mortgagee, under the terms of a certain chattel mortgage executed by _____ and _____ on the _____ day of _____, 19____, the following described goods and chattels: (enumerate articles)

_____

Signature of purchaser

(v) Evidence that sale was held on date set forth in notice of sale, including record of any bids received.

(vi) Copy of detailed statement of final accounting setting forth the disposition of the proceeds of the sale and the principal balance due on the account, if any, original of which must have been sent to the borrower after the sale.

(c) When the property is abandoned and the address of the borrower is uncertain or unknown, a notice of sale and statement of final accounting shall be sent to the last known address by registered mail, return receipt requested, and copies thereof retained in the files.

(d) A record shall be maintained of all accounts on which goods have been taken under the terms of a chattel mortgage, such record to be in sufficient detail as to permit identification of the account.

History: 1944 AC, p. 106; 1944 ACS 1, p. 6; 1944 ACS 35, p. 5; 1954 AC, p. 6818; 1954 ACS 14, p. 22, Eff. May 14, 1958.

R 487.81 Miscellaneous.

Rule 11. (1) The place of business designated in the license shall be open during customary hours of each business day (holidays excepted) with a clerk in attendance to receive payments from borrowers; provided, that closing on Saturdays of the place of business designated in the license shall be optional with the licensee. In the event the place of business will be closed on Saturdays, a sign announcing this fact shall be conspicuously displayed in such place of business.

(2) Licensees shall furnish each borrower with a satisfactory detailed receipt for any sums which are deducted from the principal amount of the loan or are received by the lender independent of the loan for the purpose of paying insurance premiums, filing fees and fees to the secretary of state for recording encumbrances on titles to motor vehicles. A carbon copy of such receipt must be available for inspection.

(3) When a licensee obtains insurance on behalf of the borrower in connection with the loan, wherein the premium is paid by the borrower, a policy or certificate of insurance properly executed shall be furnished to the borrower within 15 days of the date of the loan. Such policy or certificate shall show clearly the name of the insurance company, the nature of the insurance, the extent of the coverage, the amount of the premium, and the effective date and expiration of the policy. Insurance which the licensee obtains either directly or indirectly on behalf of the borrower shall be written by and through an agent licensed by the state of Michigan to write insurance in Michigan, and by an insurance company licensed to conduct business in Michigan. The licensee shall retain on file in his office a specimen copy of any master policy, blanket policy, individual policy, or

certificate of insurance used in connection with any such insurance. The licensee shall also retain in his office a schedule of rates charged on such insurance.

Rates charged a borrower for insurance shall not exceed standard rates as published by the Michigan inspection bureau or charges promulgated by the conference of automobile insurance companies for coverage of a like nature and amount.

(4) Licensees shall furnish to the borrower, upon request, an accurate copy of any note, assignment or other document evidencing indebtedness or constituting security which the borrower is required to sign.

(5) When an additional loan is made to a borrower who has a loan outstanding, the unpaid balance of the existing loan and the additional loan shall be consolidated into the new loan.

(6) An envelope or other file shall be maintained for each account in which shall be filed all the original notes (or copies thereof), chattel mortgages, wage assignments, or other evidence of indebtedness or security which have been signed by the borrower.

(7) The schedule of charges and method of computing same, required to be displayed by section 14, must be imprinted on a white background in letters not less than ¼ inch in height and must be prominently displayed in the customer's lobby of the licensed place of business.

History: 1944 AC, p. 108; 1944 ACS 1, p. 8; 1944 ACS 35, p. 7; 1954 AC, p. 6820; 1954 ACS 14, p. 23, Eff. May 14, 1958.

R 487.91 Advertising and solicitation of business.

Rule 21. (1) In determining whether advertising matter is false, misleading or deceptive, such factors as sizes of type, arrangement of copy, spacing, color, prominence of position and other general considerations shall be taken into account. If the general impression or natural inference to be drawn from an advertisement is false, misleading, or deceptive, the advertisement shall be considered to violate section 12 of the law.

(2) A scrap book or other record must be maintained of all advertising material of any nature used by a licensee with the date of use indicated thereon, same to be available at the licensed office for inspection by representatives of this department. Any licensed company operating 2 or more licensed offices in any city may, upon arrangement with this department, maintain 1 scrap book or other record in a centrally located office for the benefit of all offices of the licensed company in that city.

(3) No licensee shall advertise any size of loan, security required for loans, rate of charge or other condition of lending except with the full intent of making loans at such rates or lower rates and under such conditions to all applicants who meet the standards or qualifications prescribed.

(4) Rates of charges when stated must be stated as a percentage per month on unpaid balances.

(5) Licensees advertising aggregate, combination, or graduated rates must state first the higher rate applicable to a portion of the loan and give the highest rate equal prominence with the lower rate applicable to the remainder of the loan.

(6) Licensees advertising flat payments or average payments on loans which include principal and charges shall specify the total number of payments required to pay the obligation and the monthly rate of charge as a percentage of the unpaid principal balances, which statement of rate, if in print, must be set forth in type at least ½ the size of the type setting forth the cost of such loan as stated in dollars.

(7) If the licensee applies different rates for the various types or classes of loans, the highest rate applied to any loan must be stated as provided in subrule (4) and (5) of this rule.

(8) No address shall be carried in any advertisement except that of a licensed office or the home office of the licensee.

(9) A licensee may not advertise "new reduced rates," "new low rates," "reduced rates," or the like for more than 60 days after such changed rates become effective.

(10) A licensee may not advertise "lowest rates," "lowest rates in the city," or the like unless such rates are actually lower than those of any other lender.

(11) No licensee shall pay any individual, co-partnership or corporation for loan applications or recommendations.

(12) Licensees advertising the cost of a loan for any period shall also state such cost as a percent per month on balances, such statement of rate, if in print, to be set forth in type at least ½ the size of the type setting forth the cost of such loan as otherwise stated.

HEARINGS

(By authority of Act No. 197 of the Public Acts of 1952, being §24.101 et seq. of the Michigan Compiled Laws)

R 487.121 Definitions.

Rule 1. (1) Whenever the word "person" is used it shall mean an individual, firm, partnership, co-partnership, corporation, bank, industrial bank, trust company, credit union, safe and collateral deposit company, or installment seller or sales finance company doing business under the motor vehicle sales finance act.

(2) "Commissioner" shall mean the commissioner of banking.

(3) "Hearing" shall mean any contested case being heard by the commissioner of banking.

History: 1944 ACS 35, p. 16; 1954 AC, p. 6832.

R 487.122 Notice of hearing.

Rule 2. Notification of any hearing before the commissioner of banking will be by registered mail, and will state the date, time and place the hearing is to be held and the reasons for holding such hearing. Such notice will be mailed at least 20 days prior to said hearing. Unless indicated otherwise, all hearings will be held in the commissioner's office in Lansing.

History: 1944 ACS 35, p. 16; 1954 AC, p. 6832.

R 487.123 Appearance.

Rule 3. When an appearance is made at a hearing, it shall be made either in person, by a duly authorized agent, or by counsel.

History: 1944 ACS 35, p. 16; 1954 AC, p. 6832.

R 487.124 Answer; statement on charges.

Rule 4. The person or persons who have been served with a notice of hearing may, at his option, file a written answer thereto prior to the date set for hearing, or at said hearing may appear and present an oral or written statement on the charges contained in the notice of hearing.

History: 1944 ACS 35, p. 16; 1954 AC, p. 6832.

R 487.125 Failure to appear.

Rule 5. If the person or persons who have been previously served with a notice of hearing fail to appear at a noticed hearing, the commissioner may proceed with a hearing of the cases brought before him and may, on the evidence presented, make his decision.

History: 1944 ACS 35, p. 16; 1954 AC, p. 6832.

R 487.126 Statement of pertinent information; evidence.

Rule 6. At the contested hearing there shall be presented a fair and accurate statement of the information pertinent to the contested case and the whole or any part thereof may be offered at said hearing as evidence on behalf of the state banking department.

History: 1944 ACS 35, p. 16; 1954 AC, p. 6832.

APPLICATION PROCEDURE FOR CHARTER, LICENSE, AND OTHER GRANTS OF AUTHORITY

(By authority of Act No. 88 of the Public Acts of 1943, as amended, Act No. 307 of the Public Acts of 1925, as amended, Act No. 341 of the Public Acts of 1937, as amended, Act No. 21 of the Public Acts of 1939, as amended, Act No. 27 of the Public Acts of the Extra Session of 1950, as amended, and Act No. 197 of the Public Acts of 1952, as amended, being §24.71 et seq., §492.1 et seq., §487.1 et seq., §493.1 et seq., §492.101 et seq., and §24.101 et seq. of the Michigan Compiled Laws)

R 487.201 General rules.

Rule 1. (1) Throughout these rules, the word "applicant" may extend to and embrace the plural number.

(2) Applications filed with the commission may be amended with the approval of the commission.

(3) All remittances are to be made to the favor of the state banking department.

(4) Appeal from any determination or order rendered by the commissioner must be made as provided by law.

History: 1944 ACS 37, p. 8; 1954 AC, p. 6833.

R 487.202 Application to establish a bank or trust company.

Rule 2. (1) Duplicate application forms will be supplied on request.

(2) No more than 1 application for permission to establish a bank or trust company will be accepted from any party at any one time. A submitted application must be formally withdrawn by written request or allowed to proceed to a decision before any further application for the same purpose will be officially recognized.

(3) Priority rights of any applicant will be determined by the date on which the properly completed application form, together with any required fees, bonds and accompanying documents, is received at the offices of the state banking department. Receipt by the commission of the application will set in motion the time limit of 60 days within which action on the application must be taken by the commission.

(4) After filing an application, an applicant must publish notice of application as prescribed by the statute and, within 30 days after the date of filing, furnish the commission with proof of same.

(5) Within 60 days of receipt of application, the commissioner will approve or disapprove the application and, by letter, notify the applicant of his determination.

(6) If the application is approved, the applicant will be given a specified period of time within which the institution must be established and in operation. If the time requirement specified is not met, unless extended in writing by the commissioner, the approval and application will become void.

(7) In the event of disapproval of application for permission to establish a bank or trust company, the reason for the refusal will be stated in the letter notifying the applicant of the refusal. Disapproval of application for the establishment of a bank or trust company, for any reason, shall preclude a renewal of application by the same applicant, or a majority thereof, until the expiration of 1 year from the date of such refusal.

History: 1944 ACS 37, p. 9; 1954 AC, p. 6833.

R 487.203 Application for permission to establish a bank branch.

Rule 3. (1) Duplicate application forms will be supplied on request.

(2) Priority rights of any applicant will be determined by the date on which the properly completed application form, together with any required fees, bonds and accompanying documents, is received at the offices of the state banking department. Receipt by the commission of the application will set in motion the time limit of 60 days within which action on the application must be taken by the commission.

(3) Within 60 days of receipt of application, the commissioner will approve or disapprove the application and, by letter, notify the applicant of his determination.

(4) If the application is approved, the applicant will be given a specified period of time within which the institution must be established and in operation. If the time requirement specified is not met, unless extended in writing by the commissioner, the approval and application will become void.

(5) In the event of disapproval of application for a bank branch, the reason for the refusal will be stated in the letter notifying the applicant of the refusal.

History: 1944 ACS 37, p. 9; 1954 AC, p. 6834.

R 487.204 Application for additional corporate powers by a bank.

Rule 4. (1) Duplicate application forms will be supplied on request.

(2) Within 60 days of receipt of a properly completed application, together with any required fees, bonds, and accompanying documents, the commissioner will approve or disapprove the application and, by letter, notify the applicant of his determination.

(3) In the event of disapproval of an application for additional corporate powers, the reasons for the refusal will be stated in the letter notifying the applicant of the commissioner's determination.

History: 1944 ACS 37, p. 10; 1954 AC, p. 6834.

R 487.205 Application for a small loan license.

Rule 5. (1) Duplicate application forms will be supplied on request.

(2) No more than 1 application for permission to establish a small loan business will be accepted from any party at any one time. A submitted application must be formally withdrawn by written request or allowed to proceed to a decision before any further applications for the same purpose will be officially recognized.

(3) Priority rights of any applicant will be determined by the date on which the properly completed application form, together with any required fees, bonds and accompanying documents, is received at the offices of the state banking depart-

ment. Receipt by the commission of the application will set in motion the time limit of 60 days within which action on the application must be taken by the commission.

(4) Within 60 days of receipt of application, the commissioner will approve or disapprove the application and, by letter, notify the applicant of his determination. An application of a de facto corporation, which is otherwise eligible for approval, will not be approved unless proof that it has become a de jure corporation is filed with the commission within the 60-day period during which action on the application must be taken.

(5) If the application is approved, the applicant will be given a specified period of time within which the institution must be established and in operation. If the time requirement specified is not met, unless extended in writing by the commissioner, the approval and application will become void.

(6) In the event of disapproval of application for a small loan license, a letter will be sent notifying the applicant of the refusal. Within 20 days after the commissioner's determination and notification of the applicant, a written transcript supporting the denial will be served on the applicant as provided by law.

History: 1944 ACS 37, p. 10; 1954 AC, p. 6834.

R 487.206 Application to establish a safe and collateral deposit company.

Rule 6. (1) Persons or institutions desiring to establish a safe and collateral deposit operation shall execute, in quadruplicate, original articles of incorporation containing such information as is required by chapter VI of the Michigan financial institutions act, Act No. 341 of the Public Acts of 1937, as amended. Each copy of the articles should be properly acknowledged and delivered to the offices of the state banking department.

(2) In addition to the information required in subrule (1), the commission may require that the applicant meet any other provisions consistent with the laws of Michigan for the conduct of the affairs of any safe and collateral deposit company.

(3) Within 60 days of receipt of quadruplicate, properly completed articles of incorporation, together with any required fees, bonds and accompanying documents, the commissioner will approve or disapprove the application and, by letter, notify the applicant of his determination. If the application is approved, the applicant will be granted a specified period of time within which the applicant is to establish and place a safe and collateral deposit operation into effect. If the time requirement specified is not met, unless extended in writing by the commissioner, the approval and application will become void. If the application is refused, the reasons for the refusal will be stated in the letter notifying the applicant of the commissioner's determination.

History: 1944 ACS 37, p. 10; 1954 AC, p. 6835.

R 487.207 Application to establish a credit union.

Rule 7. (1) Upon the written application of any 7 residents of the state of Michigan, specimen bylaws and certificates of organization will be supplied by this commission.

(2) Within 30 days of the receipt of duplicate bylaws and certificates of organization, the commissioner shall determine whether they conform with the provisions of the act, and whether the organization of the credit union would benefit the members and be consistent with law. The commissioner will thereupon notify the applicants of his decision. If the application is approved, the commission shall issue a certificate of approval, attached to the duplicate

certificate of organization and return the same, together with the duplicate bylaws, to the applicant. If the application is refused, the applicants will be formally notified as to the reasons therefor.

History: 1944 ACS 37, p. 11; 1954 AC, p. 6835.

R 487.208 Application for motor vehicle sales finance license.

Rule 8. (1) Duplicate application forms will be supplied on request.

(2) Within 30 days of receipt of properly completed application form, together with any required fees, bonds and accompanying documents, at the offices of the state banking department, the commissioner will approve or disapprove the application, and by letter, notify the applicant of his determination. If the application is approved, the license will be issued. If the application is refused, the letter of notification to the applicant will set forth the reasons for such refusal.

History: 1944 ACS 37, p. 11; 1954 AC, p. 6835.

R 487.209 Application to establish a finance company.

Rule 9. (1) Duplicate application forms will be supplied on request.

(2) Within 60 days of receipt of properly completed application form, together with any required fees, bonds and accompanying documents, at the offices of the state banking department, the commissioner will approve or disapprove the application and by letter, notify the applicant of his determination. If the application is approved, the license will be issued. If the application is refused, the letter of notification to the applicant will set forth the reasons for such refusal.

History: 1944 ACS 37, p. 11; 1954 AC, p. 6836.

COMMENT ON OR PETITION FOR PROMULGATION, AMENDMENT, OR RESCISSION OF RULES

(By authority of Act No. 197 of the Public Acts of 1952, as amended, being §24.101 et seq. of the Michigan Compiled Laws)

R 487.251 Definitions.

Rule 1. As used in these rules, an "interested person" is defined to be any person, co-partnership, association or corporation licensed or chartered by, and under the supervision of, the state banking department.

History: 1944 ACS 38, p. 22; 1954 AC, p. 6836.

R 487.252 Promulgation, amendment, or rescission requested by interested person.

Rule 2. Any interested person may petition the state banking department requesting the promulgation, amendment, or repeal of any rule. Each petition shall set forth the following information:

(a) A brief statement of what the petitioner wishes to accomplish, and the reasons therefor;

(b) A concise and clearly worded model rule or regulation which the petitioner wishes adopted;

(c) A citation as to the specific statutory authority for the adoption of such a rule; and

(d) The name, business address, and occupation of the petitioner.

History: 1944 ACS 38, p. 22; 1954 AC, p. 6836.

R 487.253 Promulgation, amendment, or rescission initiated by department.

Rule 3. Any interested person desiring to submit data or views orally or in writing as comment upon any proposed new rule or change in rules of this department must file written notice of such intention with this department within 20 days following the date of publication of notice or posting of written notice by mail.

(a) Publication of notice: Prior to the adoption of any rule authorized by law, or the amendment or repeal thereof, the state banking department shall so far as practicable, and in compliance with any other applicable statutory requirement, publish in appropriate trade journals or magazines notice of its intended action and shall send written notice to any persons who have previously requested, in writing, that the department notify them of any proposed new rule or change in rules.

(b) Formal comment: Within 30 days following the filing of such notice of intention, the interested person desiring to comment upon the proposed adoption of rules must file a formal written statement of comment with the department. Such comment must set forth a concise and clearly worded statement of the object to be accomplished and the reasons therefor. Any pertinent data supporting the comment should be included therewith. This 30-day period of limitation may be extended with permission of the commissioner of the department.

(c) Request for notice of proposed new rules or change in rules: Upon written request to this department any person will be furnished copies of any proposed new rules or changes in rules, as appropriate, as they become available.

History: 1944 ACS 38, p. 22, 1954 AC, p. 6836.

R 487.254 Form of petition or comment.

Rule 4. Petitions and statements of comment must be in printed or typewritten form and addressed to the Commissioner, State Banking Department, Lansing, Michigan. An original and 3 copies of each petition or statement of comment must be furnished to this department.

History: 1944 ACS 38, p. 22, 1954 AC, p. 6837.

R 487.255 Oral presentation.

Rule 5. Any interested person desiring to make an oral presentation should state that fact at the time of submitting a petition or statement of comment, as set forth in R 487.252 and R 487.253(b), respectively, above. A date for hearing will be set and appropriate notice given to the party concerned. Such hearing will be held within 20 days following the receipt of a petition or statement of comment by the department.

History: 1944 ACS 38, p. 22, 1954 AC, p. 6837.

R 487.256 Commissioner's consideration and disposition of petition or comment.

Rule 6. The commissioner will consider the merits of any petition or statement of comment and any oral presentations thereof, and, within 30 days following its submission will mail a written statement of his final disposition of the matter to the person concerned, setting forth the reasons therefor.

History: 1944 ACS 38, p. 22, 1954 AC, p. 6837.

BANKS

(By authority conferred on the commissioner of the financial institutions bureau by sections 19, 154, 186, and 211 of Act No. 319 of the Public Acts of 1969, being §§487.319, 487.454, 487.486, and 487.511 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 487.601 Definitions.

Rule 1. (1) The terms defined in the act, when used in these rules, have the same meaning as given in the act.

(2) "Act" means the banking code of 1969, being Act No. 319 of the Public Acts of 1969 being §§487.301 to 487.598 of the Michigan Compiled Laws.

History: 1954 ACS 84, p. 58, Eff. Aug. 1, 1970.

R 487.611 Branch banking.

Rule 11. Any systematic activity by a bank or 1 of its affiliates to in substance lend money, receive deposits, or pay checks by use of a physical facility, whether stationary or mobile, shall be construed as the establishment and operation of a branch within the meaning of section 5(d) of the act.

History: 1954 ACS 84, p. 75, Eff. Aug. 14, 1975.

R 487.619 Rescission.

Rule 19. The following rules of the state banking department are rescinded:

(a) No. I, entitled "Regulation Governing the Purchase of Investment Securities, and further defining the term 'investment securities' as used in section 33 of the Michigan Financial Institutions Act," being R 487.1 and R 487.2 of the Michigan Administrative Code, and appearing on pages 6801 to 6803 of the 1954 volume of the Code.

(b) No. II, entitled "Loans to Executive Officers and Employees of Michigan State Banks," being R 487.11 to 487.15 of the Michigan Administrative Code, and appearing on pages 6803 to 6805 of the 1954 volume of the Code.

(c) No. II, entitled "Loans to Bank Executive Officers," being R 487.11 to R 487.14 of the Michigan Administrative Code and appearing on pages 1074 and 1075 of the 1958 Annual Supplement to the Code.

(d) No. III, entitled "Reserves of Michigan State Banks Not Members of the Federal Reserve System," being R 487.21 to R 487.24 of the Michigan Administrative Code and appearing on pages 6806 to 6809 of the 1954 volume of the Code.

(e) No. IV, entitled "Payment of Deposits and Interest Thereon by Uninsured Nonmember Banks," being R 487.31 to R 487.35 of the Michigan Administrative Code and appearing on pages 6809 to 6814 of the 1954 volume of the Code.

(f) No. VI, entitled "Deposit of Securities With the Treasurer of the State of Michigan by Banks and Trust Companies as Security for Creditors," as amended, being R 487.51 to R 487.54 of the Michigan Administrative Code and appearing on page 3411 of the 1964-65 Annual Supplements to the Code.

(g) No. VII, entitled "Regulation, pursuant to Act No. 2 of the Public Acts of 1935, as amended, being §487.751 et seq. of the Michigan Compiled Laws, governing loans by state banks and industrial banks in accordance with national housing act, as amended," being R 487.61 to R 487.63 of the Michigan Administrative Code and appearing on pages 6817 and 6818 of the 1954 volume of the Code.

History: 1954 ACS 84, p. 58, Eff. Aug. 1, 1970.

PART 4. PURCHASE OF INVESTMENT SECURITIES

R 487.641 Definition of "investment security."

Rule 41. As used in this part, "investment security" means a marketable obligation in the form of a bond, note or debenture, commonly regarded as an investment security and which is salable under ordinary circumstances with reasonable promptness at a fair value.

History: 1954 ACS 64, p. 59, Eff. Aug. 1, 1970.

R 487.642 Purchases.

Rule 42. (1) A bank may purchase investment securities for its own account when in its prudent banking judgment, which may be based in part upon estimates which it believes to be reliable, it determines that there is adequate evidence that the obligor will be able to perform all that it undertakes to perform in connection with the securities, including all debt service requirements, and that the securities may be sold with reasonable promptness at a price which corresponds to their fair value.

(2) The purchase of investment securities in which the investment characteristics are considered distinctly or predominantly speculative, or the purchase of investment securities which are in default, whether as to principal or interest, is prohibited.

History: 1954 ACS 64, p. 59, Eff. Aug. 1, 1970.

R 487.643 Unlimited purchases.

Rule 43. In addition to the authority granted to banks in section 154 of the act, to hold without limit certain investment securities, a bank may purchase without limit the following:

(a) Obligations issued under authority of the federal farm loan act, as amended.

(b) Obligations issued by the 13 banks for cooperatives or any of them.

(c) Obligations issued by the federal home loan banks.

(d) Obligations insured by the secretary of housing and urban development, hereinafter referred to as the "secretary," under title XI of the national housing act.

(e) Obligations insured by the secretary, if the debentures to be issued in payment of such insured obligations are guaranteed as to principal and interest by the United States.

(f) Obligations, participations or other instruments of, or issued by, the federal national mortgage association or the government national mortgage association.

(g) Obligations of any local public agency, as defined in section 1460(h) of title 12, secured by an agreement between the local public agency and the secretary in which the local public agency agrees to borrow from the secretary and the secretary agrees to lend to the local public agency, monies in an aggregate amount which, together with any other monies irrevocably committed to the payment of interest on such obligations, will suffice to pay, when due, the interest on all installments, including the final installment, of the principal of such obligations, which monies under the terms of the agreement are required to be used for such payments.

(h) Obligations of a public housing agency, as defined in the United States housing act of 1937, as amended, secured by either of the following:

(i) An agreement between the public housing agency and the secretary in which the public housing agency agrees to borrow from the secretary, and the secretary agrees to lend to the public housing agency, before the maturity of such obligations, which obligations shall have a maturity of not more than 18 months,

monies in an amount which together with any other monies irrevocably committed to the payment of interest on such obligations will suffice to pay the principal of such obligations with interest to maturity thereon, which monies under the terms of the agreement are required to be used for the purpose of paying the principal of and the interest on such obligations at their maturity.

(ii) A pledge of annual contributions under an annual contributions contract between the public housing agency and the secretary if such contract contains the covenant by the secretary which is authorized by section 1421a(b) of title 42, and if the maximum period specified in such contract pursuant to section 1421a(b) of title 42, is not less than the annual amount and the period for payment which are requisite to provide for the payment when due of all installments of principal and interest on such obligations.

History: 1954 ACS 64, p. 59, Eff. Aug. 1, 1970

R 487.644 Limit on holdings.

Rule 44. (1) In all other cases the total amount of investment securities of any 1 obligor or maker, held by a bank for its own account, shall not exceed at any time 10% of its capital stock actually paid in and unimpaired, 10% of its unimpaired surplus, and 10% of its capital notes or debentures outstanding, except that this limitation shall not require a bank to dispose of any securities lawfully held by it on the effective date of the act.

(2) The statutory limitation on the amount of investment securities of any 1 obligor or maker which may be held by a bank shall be determined on the basis of the par or face value of the securities, and not on their market value.

(3) For purposes of this rule, capital notes or debentures shall not include capital notes or debentures issued to or held by the federal deposit insurance corporation.

History: 1954 ACS 64, p. 60, Eff. Aug. 1, 1970; 1954 ACS 95, p. 94, Eff. Mar. 22, 1978.

R 487.645 Evidence of prudent banking judgment.

Rule 45. A bank shall maintain in its credit files information adequate to demonstrate that it has exercised prudence in making the determinations and carrying out the transactions described in R 487.642.

History: 1954 ACS 64, p. 60, Eff. Aug. 1, 1970.

R 487.646 Underwriting of securities.

Rule 46. (1) Subject to the exercise of prudent banking judgment, a bank may engage in the underwriting of the following investment securities:

(a) Obligations of the United States.

(b) General obligations of any state of the United States or a political subdivision thereof.

(c) Obligations of the international bank for reconstruction and development.

(d) Obligations of the inter-American development bank.

(e) Obligations of the Asian development bank.

(f) Obligations of the Tennessee valley authority.

(g) Obligations issued by any state or political subdivision or agency of a state or political subdivision for housing, university, or dormitory purposes.

(h) Other obligations listed in R 487.643.

(2) For the purpose of underwriting, prudence shall require a consideration of the resources and obligations of the obligor and a determination that the obligor possesses resources sufficient to provide for all required payments in connection with the obligation.

History: 1954 ACS 64, p. 60, Eff. Aug. 1, 1970; 1954 ACS 84, p. 75, Eff. June 28, 1975.

R 487.647 Convertible securities.

Rule 47. When a bank purchases investment securities convertible into stock or with stock purchase warrants attached, entries shall be made by the bank at the time of purchase to write down the cost of such securities to an amount which represents the investment value of the securities considered independently of the conversion feature or attached stock purchase warrants. Purchase of investment securities convertible into stock at the option of the issuer is prohibited.

History: 1954 ACS 64, p. 60, Eff. Aug. 1, 1970.

R 487.648 Amortization of premiums.

Rule 48. When an investment security is purchased at a price exceeding par or face value, the bank shall do either of the following:

(a) Charge off the entire premium at the time of purchase.

(b) Provide for a program to amortize the premium paid or that portion of premium remaining after the write-down required under R 487.648 so that such premium or portion thereof shall be entirely extinguished at or before the maturity of the security.

History: 1954 ACS 64, p. 60, Eff. Aug. 1, 1970.

R 487.649 Purchase of securities under repurchase agreements.

Rule 49. A bank may purchase investment securities under a repurchase agreement, which shall be for a term not to exceed 120 days, at a price stated or at a price subject to determination under the terms of the agreement.

History: 1954 ACS 64, p. 60, Eff. Aug. 1, 1970; 1954 ACS 78, p. 119, Eff. Jan. 18, 1974.

R 487.650 Sale of securities under repurchase agreements.

Rule 50. A bank may sell investment securities under a repurchase agreement, which shall be for a term not to exceed 120 days, at a price stated or at a price subject to determination under the terms of the agreement.

History: 1954 ACS 64, p. 60, Eff. Aug. 1, 1970; 1954 ACS 78, p. 119, Eff. Jan. 18, 1974.

R 487.651 Exceptions.

Rule 51. The restrictions and limitations of this part do not apply to securities acquired through foreclosure on collateral, or acquired in good faith by way of compromise of a doubtful claim or to avoid a loss in connection with a debt previously contracted.

History: 1954 ACS 64, p. 61, Eff. Aug. 1, 1970.

PART 6. LOANS TO EXECUTIVE OFFICERS

R 487.671 Definitions.

Rule 71. As used in section 211 of the act:

(a) "Executive officers" means every officer of a bank who participates or has authority to participate, otherwise than in the capacity of a director, in major policy-making functions of the bank, regardless of whether he has an official title or whether his title contains a designation of assistant and regardless of whether he is serving without salary or other compensation. The chairman of the board, the president, every vice president and the cashier of a bank are assumed to be executive officers, unless, by resolution of the board of directors or by the bank's bylaws, any such officer is excluded from participation in major policy-making functions, otherwise than in the capacity of a director of the bank, and he does not actually participate therein.

(b) "Borrowing," "indebtedness," "loan," or "extension of credit" means the making of a loan or the extending of credit in any manner and includes:

(i) An advance by means of an overdraft, cash item, or otherwise.

(ii) The acquisition by discount, purchase, exchange or otherwise of a note, draft, bill of exchange or other evidence of indebtedness upon which an executive officer may be liable as maker, drawer, endorser, guarantor or surety.

(iii) An advance of unearned salary or other unearned compensation, for periods in excess of 30 days. Such terms do not include advances against accrued salary or other accrued compensation, or for the purpose of providing for the payment of authorized travel or other expenses incurred or to be incurred on behalf of the bank.

(c) "Borrow" or "become indebted" means a transaction by which an executive officer, directly or indirectly by any means, receives a loan or extension of credit.

History: 1954 ACS 64, p. 61, Eff. Aug. 1, 1970.

R 487.672 Approval of officer borrowings.

Rule 72. All officer borrowings, other than borrowings by executive officers, shall receive prior approval of a ⅔ majority of the entire board of directors. This approval may be given annually as a line of credit.

History: 1954 ACS 64, p. 61, Eff. Aug. 1, 1970.

R 487.673 Designation of chief executive officer.

Rule 73. The directors shall designate the bank's chief executive officer at the time of the annual meeting of the bank directors.

History: 1954 ACS 64, p. 61, Eff. Aug. 1, 1970.

R 487.674 Exemption.

Rule 74. The terms defined in subdivisions (b) and (c) of R 487.671 do not apply to indebtedness arising in accordance with subsection (4) of section 211 of the act.

History: 1954 ACS 64, p. 61, Eff. Aug. 1, 1970.

PART 8. DEPOSIT OF SECURITIES WITH STATE TREASURER AS SECURITY FOR TRUST CREDITORS

R 487.691 Time of deposit.

Rule 91. Before a bank commences exercising trust powers and within 30 days after being authorized by the commissioner to conduct trust activities, a bank shall deposit with the state treasurer securities required by section 184 of the act.

History: 1954 ACS 64, p. 61, Eff. Aug. 1, 1970.

R 487.692 Valuation of securities to be deposited.

Rule 92. Securities to be deposited with the state treasurer shall be valued as follows:

(a) Obligations of the United States, obligations which are guaranteed fully as to principal and interest by the United States, and general obligations of this state or of any political subdivision thereof shall be valued at par.

(b) Other securities approved by the commissioner under specific authorization of the commissioner shall be subject to special valuation by the commissioner upon request.

History: 1954 ACS 64, p. 62, Eff. Aug. 1, 1970.

COLLECTIVE INVESTMENT OF FIDUCIARY FUNDS

(By authority conferred on the commissioner of the financial institutions bureau by section 11 of Act No. 174 of the Public Acts of 1941 and sections 11, 12, and 186 of Act No. 319 of the Public Acts of 1969, being §§555.111, 487.311, 487.312, and 487.486 of the Michigan Compiled Laws)

R 487.901 Definitions.

Rule 1. As used in these rules:

(a) The terms defined in section 1 of Act No. 174 of the Public Acts of 1941, being §555.101 of the Michigan Compiled Laws, have the same meaning as prescribed in the act.

(b) "Commissioner" means the commissioner of the financial institutions bureau.

(c) "Managing agent" means the fiduciary relationship assumed by a financial institution upon the creation of an account which confers investment discretion on the financial institution and which imposes upon it the fiduciary responsibilities imposed upon executors, administrators, guardians or trustees under will or deed, but as to which the technical legal relationship is that of agent and principal.

History: 1954 ACS 67, p. 64, Eff. May 1, 1971.

R 487.902 Financial institutions' boards of directors and trust investment committees.

Rule 2. (1) The board of directors is responsible for the proper exercise of fiduciary powers by a financial institution. All matters pertinent thereto, including the determination of policies, the investment and disposition of property held in a fiduciary capacity, and the direction and review of the actions of all officers, employees and committees used by a financial institution in the exercise of its fiduciary powers, are the responsibility of the board. In discharging this responsibility, the board of directors may assign, by action duly entered in the minutes, the administration of such of the financial institution's fiduciary powers as it may consider proper to such directors, officers, employees or committees as it may designate.

(2) The board of directors of a financial institution which undertakes to administer a common trust fund shall appoint a trust investment committee composed of at least 3 members who shall be capable and experienced officers or directors of the institution.

History: 1954 ACS 67, p. 65, Eff. May 1, 1971.

R 487.903 Plans for common trust funds.

Rule 3. (1) A common trust fund shall be established and maintained in accordance with a written plan which shall be approved by a resolution of the financial institution's board of directors, approved in writing by competent legal

counsel for the bank, and filed with the commissioner. A plan shall not be put into operation or become effective until 15 days after the date a copy of the plan has been sent by registered mail to the commissioner. If the commissioner fails to disapprove the plan within this period, the commissioner is deemed to have approved the plan.

(2) The plan shall contain appropriate provisions not inconsistent with these rules as to the manner in which the fund is to be operated, including provisions relating to the investment powers of the financial institution with respect to the fund, the allocation of income, profits and losses, the terms and conditions governing the admission or withdrawal of participations in the fund, the auditing of accounts of the financial institution with respect to the fund, the basis and method of valuing assets in the fund, the minimum frequency for valuation of assets of the fund, the period following each such valuation date during which the valuation may be made, the basis upon which the fund may be terminated, and such other matters as may be necessary to prescribe clearly the rights of participants in the fund. Plans which have been established in conformance with prior regulations may continue to conform to such regulations rather than the requirements of this subrule, for a reasonable period.

(3) A copy of the plan shall be available at the principal office of the financial institution for inspection during all banking hours, and upon request a copy of the plan shall be furnished to any person.

History: 1954 ACS 67, p. 65, Eff. May 1, 1971.

R 487.904 General administration of common trust funds.

Rule 4. (1) The administration of a common trust fund as an investment trust for other than strictly fiduciary purposes is prohibited.

(2) Assets in a common trust fund shall be considered as assets held by the financial institution as fiduciary.

(3) A financial institution administering a common trust fund shall have the exclusive management thereof. The financial institution shall absorb the costs of establishing or reorganizing a common trust fund.

(4) A financial institution or person acting as fiduciary in the administration of a common trust fund shall not borrow money or otherwise encumber a common trust fund, except for the accrual of legitimate administrative costs of the common trust fund, or where it might become temporarily necessary in the simultaneous purchase and sale of securities.

History: 1954 ACS 67, p. 65, Eff. May 1, 1971.

R 487.905 Permissible investments in common trust funds.

Rule 5. Funds received or held by a financial institution as fiduciary may be invested collectively in common trust funds, established and maintained in accordance with the laws of this state and these rules as follows:

(a) In a common trust fund maintained by the financial institution exclusively for the collective investment and reinvestment of moneys contributed thereto by the financial institution in its capacity as executor, administrator, guardian, or trustee under a will or trustee under written agreement, declaration or instrument of trust.

(b) In a common trust fund consisting solely of assets of retirement, pension, profit sharing, stock bonus, or other trusts which are exempt from federal income taxation under the internal revenue code. Assets of retirement, pension, profit sharing, stock bonus, or other trusts which are exempt from federal income taxation under the internal revenue code and held by the financial institution, in

whatever capacity, may be invested in common trust funds established under this subdivision.

(c) In a common trust fund maintained by the financial institution exclusively for the collective investment and reinvestment of moneys contributed thereto by the financial institution in its capacity as managing agent, under a managing agency agreement. Moneys held by the financial institution in its capacity as managing agent shall not be invested in common trust funds established under subdivisions (a) or (b).

History: 1954 ACS 67, p. 65, Eff. May 1, 1971.

R 487.906 Prohibited investments and interests in common trust funds.

Rule 6. (1) The trust investment committee, or board of directors, of a financial institution administering a common trust fund shall not permit any funds of any trust to be invested in a common trust fund if it has reason to believe that such trust was not created or is not being used for fiduciary purposes.

(2) Such an institution shall not invest any of its own funds in the common trust fund. If a financial institution, because of a creditor relationship or any other reason, acquires any interest in a participation in a common trust fund under its administration, the participation shall be withdrawn on the first date on which such withdrawal can be effected in accordance with these rules. However, in no case shall an unsecured advance to an account holding a participation until the time of the next withdrawal be deemed to constitute the acquisition of an interest by the financial institution.

(3) Such an institution shall not have any interest in the assets held in the common trust fund, other than in its capacity as fiduciary, except to the extent permitted for a temporary period as provided in subrule (2) of this rule and subrule (4) of R 487.904. However, funds held by a financial institution as fiduciary as described in R 487.905(a) and (b) for its own employees may be invested in such a fund.

(4) Such an institution shall not make any loans on the security of a participation in such fund.

(5) Such an institution may purchase for its own account from a common trust fund any defaulted mortgage held by such fund, if in the judgment of the board of directors the cost of segregation of such mortgage would be greater than the difference between its market value and its principal amount plus interest and penalty charges due. If the financial institution elects to purchase the mortgage it shall do so at its market value or at the sum of principal, interest and penalty charges, whichever is greater.

(6) Except in the case of a common trust fund described in R 487.905(b), no funds or other property shall be invested in a participation in a common trust fund if as a result of such investment the participant would have an interest aggregating in excess of 10% of the then market value of the fund. In applying this limitation if 2 or more accounts are created by the same person or persons and as much as ½ of the income or principal of each account is payable or applicable to the use of the same person or persons, such accounts shall be considered as 1.

History: 1954 ACS 67, p. 66, Eff. May 1, 1971

R 487.907 Participations in common trust funds.

Rule 7. (1) Participations in a common trust fund shall be on the basis of a proportionate interest in all the assets. In order to determine whether the investment of funds received or held by a financial institution as fiduciary in a participation in a common trust fund is proper, the financial institution may

consider the common trust fund as a whole and shall not, for example, be prohibited from making such investment because any particular asset is non-income producing.

(2) A certificate of participation may be issued for each investment or participation in a common trust fund. The certificate shall state on its face that it is issued without guarantee by the issuing financial institution of the payment of either principal or interest, and that it will be paid only when funds become available out of the assets comprising the common trust fund. No such certificate shall be issued in any form which purports to be negotiable or assignable.

(3) When participations are withdrawn from a common trust fund, distributions may be made in cash or ratably in kind, or partly in cash and partly in kind, but all distributions as of any 1 valuation date shall be made on the same basis.

(4) If for any reason an investment is withdrawn in kind from a common trust fund for the benefit of all participants in the fund at the time of such withdrawal and such investment is not distributed ratably in kind, it shall be segregated and administered or realized upon for the benefit ratably of all participants in the common trust fund at the time of withdrawal.

(5) A financial institution administering a common trust fund shall maintain in cash and readily marketable investments such part of the assets of the fund deemed to be necessary to provide adequately for the needs of participants and to prevent inequities between such participants. If before any admissions to or withdrawals from a fund the financial institution determines that after effecting the admissions and withdrawals which are to be made less than 40% of the value of the remaining assets of the collective investment fund would be composed of cash and readily marketable investments, no admissions to or withdrawals from the fund shall be permitted as of the valuation date upon which such determination is made, however, ratable distribution upon all participations shall not be so prohibited in any case.

History: 1954 ACS 67, p. 66, Eff. May 1, 1971.

R 487.908 Investments by common trust funds.

Rule 8. (1) All investments of a common trust fund shall be made, retained or disposed of only with approval of the trust investment committee. The committee shall keep minutes and proceedings separate and distinct from any minutes, records of other procedings, or other activities of such institution, and the minutes and records shall show and record the disposition of all matters pertaining to such common trust fund considered and passed upon by it.

(2) Except in the case of common trust funds described in R 487.905(b):

(a) No investment for a common trust fund shall be made in stocks, bonds or other obligations of any 1 person, firm or corporation if as a result of such investment the total amount invested in stocks, bonds or other obligations issued or guaranteed by such person, firm or corporation would aggregate in excess of 10% of the then market value of the fund. This limitation does not apply to investments in direct obligations of the United States or other obligations fully guaranteed by the United States as to principal and interest.

(b) No investment for a common trust fund shall be made in any 1 class of shares of stock of any 1 corporation which would cause the total number of such shares held by the common trust fund to exceed 5% of the number of such shares outstanding. If the financial institution administers more than 1 common trust fund, no investment shall be made which would cause the aggregate investment for all such common trust funds in shares of stock of any 1 corporation to exceed such limitation.

R 487.909 Mortgage investments.

Rule 9. (1) The reasonable expenses incurred in servicing mortgages held by a common trust fund may be charged against the income account of the fund and paid to servicing agents, including the financial institution administering the fund.

(2) A financial institution may transfer up to 5% of the net income derived by a common trust fund from mortgages held by such fund during any regular accounting period to a reserve account. No such transfers shall be made which would cause the amount in such account to exceed 1% of the outstanding principal amount of all mortgages held in the fund. The amount of such reserve account, if established, shall be deducted from the assets of the fund in determining the fair market value of the fund for the purposes of admissions and withdrawals.

(3) At the end of each accounting period, all interest payments which are due but unpaid with respect to mortgages in the fund shall be charged against such reserve account to the extent available and credited to income distributed to participants. In the event of subsequent recovery of such interest payments by the fund, the reserve account shall be credited with that amount so recovered.

History: 1954 ACS 67, p. 67, Eff. May 1, 1971.

R 487.910 Quarterly valuations of assets and reports.

Rule 10. Not less frequently than once during each 3 months, a financial institution administering a common trust fund shall determine the value of the assets in the common trust fund as of the dates set for the valuation of assets and furnish the commissioner with a copy of such valuation. No participation shall be admitted to or withdrawn from the fund except (a) on the basis of such valuation and (b) on the date of the determination of such valuation. No participation shall be admitted to or withdrawn from the fund unless a written request for, or notice of intention of taking such action, has been entered on or before the valuation date in the fiduciary records of the financial institution and approved in such manner as the board of directors shall prescribe. No such request or notice may be cancelled or countermanded after the valuation date.

History: 1954 ACS 67, p. 67, Eff. May 1, 1971.

R 487.911 Annual audits and financial reports.

Rule 11. (1) A financial institution administering a common trust fund shall at least once during each 12 months cause an adequate audit to be made of the common trust fund by auditors responsible only to the board of directors of the financial institution. When such audit is performed by independent public accountants, the reasonable expenses of the audit may be charged to the common trust fund.

(2) A financial institution administering a common trust fund shall at least once during each 12 months prepare a financial report of the fund which shall be filed with the commissioner. This report, based on the audit provided for in subrule (1), shall contain a list of the investments in the fund showing the current market value of each investment, a statement for the period since the last report showing purchases, sales and any other investment changes, income and disbursements, and an appropriate notation as to any investment in default.

(3) The financial report may include a description of the fund's value on previous dates as well as its income and disbursements during the previous accounting periods. The report shall make no reference to the performance of funds other than those administered by the financial institution, and no predictions or representations as to future results.

(4) A copy of the financial report shall be furnished, or notice shall be given that a copy of such report is available and will be furnished without charge upon request, to each person to whom a regular periodic accounting would ordinarily be rendered with respect to each participating account. A copy of the report may also be furnished upon request to any person, and the fact of the availability of the report may be given publicity solely in connection with promotion of the fiduciary sevices of the financial institution. Except as herein provided, the financial institution shall not advertise or publicize its common trust funds. The cost of printing, publication and distribution of the report shall be borne by the financial institution.

History: 1954 ACS 67, p. 68, Eff. May 1, 1971.

R 487.915 Other collective investments.

Rule 15. In addition to the investments permitted under R 487.905, funds or other property received or held by a financial institution as fiduciary may be invested collectively, as follows:

(a) In shares of a mutual trust investment company, organized and operated pursuant to a statute that specifically authorizes the organization of such companies exclusively for the investment of funds held by corporate fiduciaries, commonly referred to as a bank fiduciary fund.

(b) In direct obligations of the United States, or in obligations fully guaranteed by the United States, if the financial institution owns no participation in the obligations and has no interest therein except in its capacity as fiduciary.

(c) In a single real estate mortgage loan, if the financial institution owns no participation in the loan or obligation and has no interest therein except in its capacity as fiduciary. A single real estate mortgage loan is deemed to be an obligation secured by real estate which, at the date of investment, is legal for investment of trust funds under the laws of this state and is of the kind which might be acquired by a financial institution under the provisions contained in subsection (1) of section 194 of Act No. 319 of the Public Acts of 1969, being §487.494 of the Michigan Compiled Laws.

(d) In an investment specifically authorized by court order or by the instrument creating the fiduciary relationship, if such investment is not made for the purpose of avoiding any other requirements of these rules.

History: 1954 ACS 67, p. 68, Eff. May 1, 1971.

R 487.919 Rescission.

Rule 19. The following rules are rescinded:

(a) The rules entitled "Collective Investment of Fiduciary Funds in Common Trust Funds," being R 487.101 to R 487.105 of the Michigan Administrative Code and appearing on pages 6822 to 6832 of the 1954 volume of the Code.

(b) The rules entitled "Collective Investment of Fiduciary Funds," being R 487.101 to R 487.104 of the Michigan Administrative Code and appearing on pages 2928 to 2933 of the 1963 Annual Supplement to the Code.

History: 1954 ACS 67, p. 69, Eff. May 1, 1971.

SAVINGS AND LOAN ASSOCIATIONS

(By authority conferred on the commissioner of the financial institutions bureau by section 421 of Act No. 156 of the Public Acts of 1964, as amended, and sections 9 and 234 of Act No. 380 of the Public Acts of 1965, as amended, being §§489.821, 16.109, and 16.334 of the Michigan Compiled Laws)

R 489.545 Lending areas.

Rule 145. "Lending area," as used in section 145 of Act No. 156 of the Public Acts of 1964, being §489.545 of the Michigan Compiled Laws, means the entire state of Michigan plus that area, if any, outside the state within a radius of 100 miles of the home office of the association. The lending area is applicable to all loans and contracts authorized by this act except:

(a) Real estate securing noninsured loans or contracts purchased shall be located within the state unless otherwise authorized by the supervisory authority.

(b) Real estate securing noninsured condominium loans shall be located within the state.

(c) Investments in uninsured mobile home loans shall be limited to loans secured by liens upon property located within the state.

(d) Loans and contracts insured or guaranteed, in whole or in part, as authorized by the act may be made, purchased or sold without regard to the lending area.

(e) Participation loans authorized by the act may be made, acquired or sold without regard to the lending area, if, the loans are insured or guaranteed in whole or in part as authorized by the act; or the loan participants are regulated lenders approved by the supervisory authority; or the savings accounts or deposits of the participants have insurance protection afforded by the federal savings and loan insurance corporation or the federal deposit insurance corporation. Property securing other participation loans shall be located within the state.

History: 1954 ACS 45, p. 36, Eff. Feb. 14, 1966; 1954 ACS 66, p. 56, Eff. Feb. 1, 1971.

R 489.781.1 Investments in service corporations; applications.

Rule 381.1. (1) A savings and loan association desiring to invest funds in a service corporation shall file with the supervisory authority an application on a form prescribed by the supervisory authority, with attached true copies of the articles of incorporation and bylaws of the service corporation, and secure his approval before investment of the funds. If the service corporation has not been incorporated, proposed articles of incorporation and bylaws shall be filed with the application.

(2) Before final approval of the application, the service corporation shall file true copies of its articles of incorporation and bylaws and a written agreement that:

(a) The supervisory authority or his designated representative may examine the books, records and operations of the service corporation, which examinations shall be at the expense of the service corporation.

(b) The supervisory authority may prescribe the manner in which the books and records of the service corporation shall be maintained.

History: 1954 ACS 76, p. 86, Eff. Sept. 15, 1973.

Editor's note: With respect to R 489.781.1 to R 489.781.7, it appears that the number between the 2 decimal points is intended to correspond to §489.781 of the Michigan Compiled Laws.

R 489.781.2 Investments in service corporations; conditions for approval.

Rule 381.2. (1) The supervisory authority shall approve the application if he is satisfied that:

(a) The service corporation is or will be incorporated under Act No. 327 of the Public Acts of 1931, as amended, or Act No. 284 of the Public Acts of 1972, being §§450.1 to 450.192 and 450.1101 to 450.2099 of the Michigan Compiled Laws.

(b) The entire capital stock of the service corporation is available for purchase only by 1 or more savings and loan associations chartered by this state or federal savings and loan associations whose principal offices are in this state.

(c) The service corporation is an organization that complies with the requirements of subsection (h) of section 381 of Act No. 156 of the Public Acts of 1964, as amended, being §489.781 of the Michigan Compiled Laws.

(d) The proposed investment by the association in the stock or investment certificates of the service corporation is not more than the limit prescribed by section 352 of Act No. 156 of the Public Acts of 1964, being §489.752 of the Michigan Compiled Laws.

(e) The total investment in the aggregate by the association in the investments described in subsections (f), (g), and (h) of section 381 of Act No. 156 of the Public Acts of 1964, as amended, is not more than the limit prescribed for such investments in section 381.

(f) The total investment in the aggregate by the association in all service corporations is not more than the limit prescribed by R 489.781.3.

History: 1954 ACS 76, p. 87, Eff. Sept. 15, 1973.

R 489.781.3 Investments in service corporations; limit and records.

Rule 381.3. (1) The total investment in the aggregate by an association in all service corporations shall be limited to 2% of the gross assets of the association.

"Investment" as used in this rule includes (a) an investment in the stock, bonds, debentures or investment certificates of a service corporation, (b) any other investment in or extension of credit to a service corporation, including but not limited to secured or unsecured loans granted by an association to a service corporation or to any joint venture of a service corporation, and (c) loans granted by a third person to a service corporation which are guaranteed in writing by the association.

(2) The supervisory authority may prescribe the manner in which the investment by an association in a service corporation shall be entered on the books of the association.

History: 1954 ACS 76, p. 87, Eff. Sept. 15, 1973.

R 489.781.4 Borrowings by service corporations.

Rule 381.4. (1) A borrowing by a service corporation from a person other than a parent association, except for a loan guaranteed in writing by an association which is subject to the investment limit of R 489.781.3 shall be supported by a written certification from the lender that no parent association is liable for the debt incurred by the service corporation.

(2) The total borrowings in the aggregate by a service corporation from persons other than a parent association, except for loans guaranteed in writing by an association which are subject to the investment limit of R 489.781.3 shall be limited to 5 times the total investment in the service corporation as determined by R 489.781.3.

History: 1954 ACS 76, p. 87, Eff. Sept. 15, 1973.

R 489.781.5 General operations of service corporations.

Rule 381.5. (1) A service corporation shall not amend its articles of incorporation or bylaws without prior written approval by the supervisory authority, and true copies of any amendment to its articles of incorporation or bylaws shall be filed with the supervisory authority.

(2) A service corporation shall not change the location of its office or add offices without prior written approval by the supervisory authority.

(3) The compensation of and other benefits to directors, officers and employees of a service corporation shall be reasonable and commensurate with their duties and responsibilities.

(4) Surety coverage in a form and amount approved by the supervisory authority shall be required of all directors, officers and employees of a service corporation.

(5) A service corporation shall make all loans and other investments in a prudent manner.

(6) An association shall not in any manner extend credit, lease or sell property of any kind, or furnish any service, or fix or vary the consideration therefor, on the condition or requirement that the customer obtains from or provides to a subsidiary service corporation of the association some additional credit, property or service.

(7) A service corporation shall file reports with the supervisory authority in such form and containing such information as the supervisory authority may direct.

(8) A subsidiary of a service corporation is deemed to be a service corporation and is subject to the provisions of R 489.781.1 to R 489.781.6 except subrule (1)(b) of R 489.781.2.

History: 1954 ACS 76, p. 87, Eff. Sept. 15, 1973.

R 489.781.6 Violations.

Rule 381.6. When (a) a service corporation engages in a business activity that the supervisory authority has not approved, (b) the investment limits of sections 352 or 381 of Act No. 156 of the Public Acts of 1964, as amended, are exceeded, (c) the investment limit of R 489.781.3 is exceeded, or (d) a service corporation violates any applicable statute or rule, an association with an investment in the service corporation shall dispose of its investment promptly unless, within 90 days after the date of mailing of written notice by the supervisory authority to the association, the unapproved business activity is discontinued, the investment limit is met or violation of the statute or rule is discontinued.

History: 1954 ACS 76, p. 88, Eff. Sept. 15, 1973.

R 489.781.7 Investment in corporate bonds or notes.

Rule 381.7. An investment by an association in corporate bonds or notes shall be limited to marketable obligations which have the 4 highest ratings assigned by a nationally recognized bond rating service.

History: 1954 ACS 88, p. 122, Eff. July 22, 1976.

R 489.810 Definition.

Rule 410. "Act" means Act No. 156 of the Public Acts of 1964, as amended, being §489.501 et seq. of the Michigan Compiled Laws.

History: 1954 ACS 88, p. 122, Eff. July 22, 1976.

R 489.811 Application for establishment of agency; authorized function of agencies; procedures; limitations.

Rule 411. (1) An association, not otherwise prohibited from establishing an agency by the rules and regulations of the federal savings and loan insurance corporation, may file an application with the financial institutions bureau for permission to establish an agency for the transaction of business under section 411 of the act.

(2) The association shall submit the following documents in support of its application for permission to establish an agency:

(a) A certified copy of a resolution by its board of directors authorizing an officer to file an application.

(b) An application letter in narrative form that names the proposed agent and provides biographical information which includes the agent's age, business experience, community activities, reputation for integrity, and present principal occupation. The application letter shall also include a description of the proposed agency location, facilities, and personnel.

(c) A credit report on the proposed agent in comprehensive form as issued by a recognized credit reporting organization.

(d) A copy of the agency agreement, executed by the proposed agent and officers of the association, providing for the services to be offered and the functions to be performed by the agent, the methods and procedures for reporting agency transactions, the basis for the computation of fees to be paid to the agent, and the association forms to be provided to the agent. The agency agreement shall also set forth the terms and conditions under which it may be terminated by either party.

(3) An agent may accept:

(a) A deposit to an existing savings account and record the addition to the savings account passbook or give other evidence of receipt as prescribed by the association.

(b) A withdrawal form and savings account passbook from an account holder for transmission to the main office or a branch office of the association for disbursement directly to the account holder by the association. An agent shall not honor a withdrawal request or disburse funds.

(c) Payment on a loan or on a land contract and issue evidence of receipt as prescribed by the association.

(4) An agent may solicit and accept:

(a) A new savings account. Signature cards may be obtained from the account holder by the agent, but passbooks may be issued only by the main office or a branch office of the association. An agent shall not possess an unissued or blank authenticated savings account passbook or certificate.

(b) An application for a loan or a land contract purchase. The application shall be submitted to the main office or a branch office of the association for processing, approval, and the disbursement of funds.

(5) The association shall establish a demand deposit account in a bank convenient to the agency to provide a depository for savings and loan payments. Accumulated funds in the depository shall be transferred only by a check drawn by a duly authorized officer of the association.

(6) An agent shall, at least semimonthly, transmit a report of funds received for the association, together with evidence of the deposit of the funds in the depository, to the association.

(7) An association shall not furnish working capital or operating funds in any form to an agent.

(8) The office of an agent or agency is not an office or a branch office of an association within the meaning of section 412 of the act, and shall not be referred to as a branch office by the association.

History: 1954 ACS 88, p. 122, Eff. July 22, 1976.

R 489.812 Branch offices; application procedures; notice; objections; written statement; oral argument, transcript; decision; formal hearing; costs.

Rule 412. (1) An application for permission to establish a branch office shall be submitted on a form provided by the supervisory authority. The supervisory authority may require, in a form it deems appropriate, additional or supplemental information from the applicant or from an objecting association.

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j

(2) Each application for permission to establish a branch office, accompanied by the requisite fee, shall be time stamped by the supervisory authority when filed, establishing the priority of filing. Within 10 days of the original filing date, the supervisory authority may return an application it deems materially incomplete, in which case the priority of filing and processing shall be forfeited.

(3) Written notice of an application for a branch office shall be mailed to all associations as required by section 412(1) of the act. An association having an approved, but unopened, office within 25 miles of the proposed branch office location shall be sent notice of the application and shall have standing to object.

(4) An application for a savings and loan branch office shall designate a specific site location, except that, with the approval of the supervisory authority, designation of a specific site may be delayed for 30 days following the filing of the application. An applicant shall provide the supervisory authority with written evidence to show that the proposed site has been secured by the applicant through purchase, a lease agreement, or a binding option for purchase or lease.

(5) An objecting association may, upon written request, obtain a photocopy of a branch application, except savings account information, loan penetration information, and land acquisition arrangements. The objecting association requesting a copy of a branch application shall pay those costs of reproduction and mailing which the supervisory authority shall from time to time determine.

(6) An association filing a written objection pursuant to section 412(2) of the act shall immediately furnish a copy of that written objection to the applicant.

(7) Within 30 days from the time notice of the application is sent by the supervisory authority pursuant to section 412(1) of the act, the objecting association shall file with the supervisory authority and the applicant a written statement setting forth the following information:

(a) A statement summarizing the reasons for the objection.

(b) A list of specific matters in the application to which the association objects, together with the reasons for each objection.

(c) A statement of the facts supporting the objection, including relevant economic and financial data.

(d) A statement of adverse effects on the objecting association which may result from approval of the application.

(e) Whether the objecting association desires an opportunity for oral argument as hereafter provided.

(8) Within 10 days following the filing of the written statement of objections pursuant to subrule (7), the applicant may file additional written material in response to an objection, and may file a request for an opportunity for an oral argument as hereafter provided.

(9) If the applicant or an objecting association has requested, or if desired by the supervisory authority, an oral argument on the merits of the application may be heard by any person designated by the supervisory authority. If oral argument is to be held, the supervisory authority shall, within 7 days of receipt of a request for oral argument pursuant to subrule (7) or (8), mail a notice to the applicant and to the objecting associations fixing the time and place for the oral argument. The oral arguments shall be scheduled not less than 10 days nor more than 20 days after the mailing of notice.

The oral argument with respect to any application may be made in person or by authorized representatives, but the oral argument should be based on written information which has been filed in connection with the application. Unless otherwise agreed by the parties, not less than 1 hour shall be allowed for all oral argument against an application and not less than 1 hour shall be allowed for all

oral argument in favor of an application. A transcript shall be made of any oral argument at the expense of the party or parties requesting oral argument. If the oral argument is at the request of the supervisory authority, the transcript shall be made at the pro rata expense of the objecting association or associations and the applicant. The transcript shall be included in the application file. After the oral argument, if held, the supervisory authority shall make its decision as provided in section 412(2) of the act.

(10) Within 10 days following the date of decision, the applicant or an objecting association may request a formal hearing to reconsider the decision. After receipt of this request in writing, the supervisory authority may, at its discretion, set the matter for a formal hearing. A formal hearing shall be conducted pursuant to Act No. 306 of the Public Acts of 1969, as amended, being §24.201 et seq. of the Michigan Compiled Laws.

(11) If a formal hearing is conducted, the cost of transcripts, court reporter, and extraordinary expenses shall be borne by the party requesting the hearing, other than the supervisory authority, or as otherwise mutually agreed by the parties. For purposes of this subrule, "extraordinary expenses" means the additional expense of conducting a hearing at a place other than the hearing room then currently reserved for the financial institutions bureau, and includes only the cost of transportation and lodging for the hearing officer and rental charges for the hearing room, if applicable.

CREDIT UNIONS

(By authority conferred on the commissioner of the financial institutions bureau by sections 17a and 27 of Act No. 285 of the Public Acts of 1925, as amended, being §§490.17a and 490.27 of the Michigan Compiled Laws)

R 490.1 Definitions.

Rule 1. (1) "Act" means Act No. 285 of the Public Acts of 1925, as amended, being §§490.1 to 490.31 of the Michigan Compiled Laws.

(2) The terms defined in the act have the same meaning when used in these rules.

History: 1954 ACS 78, p. 120, Eff. Jan. 4, 1974.

R 490.5 Annual review; minutes; contents.

Rule 5. (1) Annually the board of directors shall conduct a full and complete review of the operations of the credit union.

(2) The board shall record in its minutes consideration of at least the following items of business:

(a) Loan policies including:
(i) Dollar limits for unsecured loans.
(ii) Dollar limits for secured loans.
(iii) Maturity limits for each type of loan.
(iv) Interest rates for each type of loan.
(b) All bond coverages.
(c) All insurance coverages.
(d) Bank depository designations.
(e) General investment policy.
(f) Interest paid on deposits, if applicable.
(g) Personnel policy including compensation.
(h) Designation of membership officer.

R 490.11 Thrift accounts; approval.

Rule 11. (1) A credit union may establish a class of thrift accounts if the commissioner has approved an application filed on a form supplied by him establishing its terms, conditions and restrictions.

(2) A thrift account which automatically terminates within a 12-month period, including but not limited to a Christmas club or vacation account, and which pays an interest or dividend rate of not more than the last dividend rate paid or declared on regular share accounts shall be deemed approved by the commissioner upon receipt of the application and a bylaw is not required.

History: 1954 ACS 78, p. 120, Eff. Jan. 4, 1974.

R 490.15 Class of share accounts; approval; dividends.

Rule 15. (1) A credit union may establish a class of share accounts paying a dividend rate different from the rate it pays on regular share accounts if the commissioner has approved an application filed on a form supplied by him establishing the terms, conditions and restrictions on any additional class of share accounts.

(2) Dividends shall not be paid on either the additional class of shares or the regular shares unless dividends are paid on both.

History: 1954 ACS 78, p. 120, Eff. Jan. 4, 1974.

R 490.21 Line of credit loans; application to commissioner.

Rule 21. (1) A credit union may establish a line of credit loan plan if the commissioner has approved an application filed on a form supplied by him.

(2) A credit union shall not designate a loan plan as a line of credit loan plan without the approval of the commissioner.

History: 1954 ACS 78, p. 120, Eff. Jan. 4, 1974.

R 490.22 Line of credit loans; approval by credit committee; annual review.

Rule 22. The credit committee shall approve each line of credit loan prior to any advance to the member by the credit union under that loan, and this approval shall not be delegated to a loan officer. The credit committee shall review each line of credit loan at least once annually.

History: 1954 ACS 78, p. 120, Eff. Jan. 4, 1974.

R 490.23 Line of credit loans; limitations.

Rule 23. A credit union shall not make a line of credit loan that exceeds the stated sum or specified period of time approved by the commissioner for that credit union.

History: 1954 ACS 78, p. 121, Eff. Jan. 4, 1974.

R 490.24 Rescinded.

History: 1954 ACS 78, p. 121, Eff. Jan. 4, 1974; rescinded 1954 ACS 99, p. 154, Eff. May 3, 1979.

R 490.25 Special savings draft liquidity reserve fund; records and reports.

Rule 25. (1) A credit union shall maintain for a period of 1 month, beginning on the seventh day of each month, a special savings draft liquidity reserve fund which, when averaged over the days during that month on which savings drafts were paid, shall equal not less than 125% of the aggregate amount paid on savings drafts during the preceding calendar month divided by the number of days on which savings drafts were paid during that month.

(2) The special savings draft liquidity reserve fund shall consist of cash on hand, deposits in insured depository financial institutions, deposits in a credit union whose assets consist primarily of funds from other credit unions and in which such deposits are specifically authorized by the board of directors of the credit union making the deposit, or direct U.S. government obligations, provided that any investment included as a portion of this reserve shall be redeemable within 60 days and have a maturity not in excess of 90 days. Not more than 20% of the required special savings draft liquidity reserve shall be in direct U.S. government obligations.

(3) The credit union shall keep current records of the aggregate savings draft account balances, clearings, and reserves required by this rule. The commissioner may require periodic or special reports based on these records.

History: 1954 ACS 99, p. 154, Eff. May 3, 1979.

R 490.31 Open end revolving credit loans.

Rule 31. (1) Under an open end revolving credit loan plan, the credit union shall have the unconditional right to disapprove an advance at any time for any reason.

(2) The credit union shall include this express condition in any detailed written or oral representations and in conspicuous print in any documentation that constitutes the open end revolving credit agreement and disclosure.

(3) Prior to making an advance to a member under an open end revolving credit loan, the credit union shall have on file an application for the advance:

(a) Stating the purpose for the advance.

(b) Signed by or at the direction of the member seeking the advance.

(c) Approved by a loan officer.

History: 1954 ACS 78, p. 121, Eff. Jan. 4, 1974.

R 490.41 Overdrafts.

Rule 41. A credit union shall not issue a check on a bank in excess of the balance of its demand deposit account in that bank then shown on the books of the credit union unless:

(a) The excess is not greater than the unused portion of a current line of credit agreement between the credit union and the bank.

(b) The line of credit agreement expressly provides that it will apply to cover overdrafts by the credit union.

(c) The line of credit agreement has been approved by the board of directors of the credit union.

History: 1954 ACS 78, p. 121, Eff. Jan. 4, 1974.

R 490.51 Delinquent loans.

Rule 51. (1) "Delinquent loan" means that the aggregate of payments made on the loan by the borrower is less than the aggregate of principal and interest which has become due under the terms of the loan.

(2) "Months delinquent" means the number of whole months that have elapsed since a payment or partial payment has become due and remains unpaid. All payments or partial payments made shall apply successively to the first occurring payment that has become due and remains unpaid.

(3) The application of proceeds from a liquidation of collateral to a delinquent loan by a credit union shall reduce the balance due, but not the months delinquent, of that loan.

History: 1954 ACS 78, p. 121, Eff. Jan. 4, 1974.

R 490.52 Special reserve for delinquent loans.

Rule 52. (1) The regular reserve of each credit union shall be supplemented by a special reserve to be known as the special reserve for delinquent loans, which shall be equal to the excess of the sum of 10% of the unpaid balances of loans delinquent more than 2 months and less than 6 months, plus 25% of the unpaid balances of loans delinquent from 6 months to less than 12 months, and plus 80% of the unpaid balances of loans delinquent 12 months or more over the balance in the regular reserve. In the event it is necessary to supplement the regular reserve by a special reserve for delinquent loans, the transfer to the special reserve for delinquent loans shall be made as of the last day of any dividend period from undivided earnings before any distribution of dividends. The maintenance of a special reserve for delinquent loans shall not eliminate the necessity for transferring net earnings as of the end of each dividend period to the regular reserve as required by section 17a of the act. In the event the required transfer exceeds the balance of undivided earnings, only the balance of undivided earnings shall be transferred to the special reserve for delinquent loans.

(2) When, as of the end of any dividend period, the amount in the special reserve for delinquent loans exceeds the amount required by subrule (1), the board of directors of the credit union may authorize the transfer of the excess to undivided earnings.

(3) Upon written application by the board of directors of a credit union, the commissioner may waive for cause in whole or in part, the requirement for the maintenance of the special reserve for delinquent loans contained in subrule (1).

History: 1954 ACS 78, p. 121, Eff. Jan. 4, 1974.

R 490.81 Access to records.

Rule 81. A credit union may not purchase or receive recordkeeping services from an outside party unless both the credit union and the outside party, including any subcontractor, furnish the commissioner with an assurance in writing that the performance of these services will be subject to examination and regulation to the same extent as if the services were performed by the credit union on its own premises.

History: 1954 ACS 78, p. 122, Eff. Jan. 4, 1974.

R 490.82 Availability of records.

Rule 82. The books and records of a credit union shall be available for examination by the commissioner or his appointed agent. Every credit union shall:

(a) Notify and keep the commissioner current on the hours it is open.

(b) Designate a person who can provide prompt access to the credit union records.

(c) Furnish and keep current with the commissioner the names, addresses, and telephone numbers of the persons designated under subdivision (b) and of substitutes during vacations or absences.

History: 1954 ACS 78, p. 122, Eff. Jan. 4, 1974.

INSURANCE BUREAU

ELECTRONIC DATA PROCESSING EQUIPMENT DEFINITION

(By authority of section 933 of Act No. 218 of the Public Acts of 1956, being §500.933 of the Michigan Compiled Laws)

R 500.401 "Electronic data processing equipment" defined.

Rule 401. "Electronic data processing equipment," within the meaning of

section 933 of Act No. 218 of the Public Acts of 1956, as added by Act No. 117 of the Public Acts of 1961, is defined as equipment of an electronic system comprised of 1 or more components, which utilize storage and processing mechanization and which has a direct automatic means of input and output.

The admitted asset value of such equipment, provided it is purchased by an insurance company for use regularly in the normal course of business, shall be the original cost of the equipment, not exceeding 2% of the admitted assets of the company and such cost shall be amortized in full over a period not to exceed 10 calendar years.

History: 1954 ACS 34, p 15, Eff. May 15, 1963.

GENERAL RULES

(By authority conferred on the commissioner of insurance by sections 210, 901, 925, 2047, 4000, 4424, and 5289 of Act No. 218 of the Public Acts of 1956, as amended, being §§500.210, 500.901, 500.925, 500.2047, 500.4000, 500.4424, and 500.5289 of the Michigan Compiled Laws)

R 500.402 Admission of balances due from reinsurers.

Rule 402. (1) Balances due from reinsurers and credits for reinsurance shall be admitted in determining the financial condition of a ceding insurer other than a life insurer only to the extent such balances and credits:

(a) Have been verified in statements filed by reinsurers authorized to transact insurance in this state as being available for the payment of claims.

(b) Are offset by deposits by or funds withheld from the reinsurers and are determined to be available for the payment of claims.

(c) Have been otherwise verified to the satisfaction of the commissioner, and further, that insurers owing such balances are determined to be financially solvent based on the standards used for authorized insurers.

(2) In determining the amount of deposits by or funds withheld from reinsurance to be allowed as an offset to balances due from the reinsurers to a ceding insurer other than a life insurer, no credit shall be allowed for a letter of credit except a letter of credit which:

(a) Is issued by a banking institution, not affiliated with either insurer, of financial standing satisfactory to the commissioner.

(b) Is designated as a clean and irrevocable credit for a given amount under which the bank, solely in its own name, agrees to honor the insurer's sight draft if received at the bank's office before 1 year from the date of the issuance of the letter of credit.

(c) Contains a clear expression to the effect that it is not subject to any condition or qualification whatsoever, except as stated therein, and the only condition stated therein is the limitation of time within which a draft is to be honored.

(d) Is reported in schedule F, part 2, column 5 of the insurer's annual statement as a separate item bearing a footnote that includes the expiration date of the letter of credit and states that the deposit represents the unused balance of a letter of credit meeting the requirements of this rule.

(3) For purposes of determining compliance with the requirements of section 901 of the insurance code of 1956, an insurer authorized to transact life insurance in this state may reduce the reserves required by sections 830, 831, 832, 834, and 8055 of the insurance code of 1956 by an amount equal to a reasonable actuarial reserve calculation for the reinsurance ceded to an insurer authorized to transact life insurance in any state or the District of Columbia, if the assumption of the

PROXIES, CONSENTS, AND AUTHORIZATIONS OF DOMESTIC STOCK COMPANIES

R 500.451 Applicability of rules.

Rule 451. R 500.451 to R 500.466 apply to each domestic stock insurer which has any class of equity security held of record by 100 or more persons. They do not apply to any insurer if 95% or more of its equity securities is owned or controlled by a parent or an affiliated insurer and the remaining securities are held of record by less than 500 persons. A domestic stock insurer which files with the securities and exchange commission forms of proxies, consents, and authorizations complying with the requirements of the securities and exchange act of 1934, as amended, and the applicable regulations promulgated thereunder, is exempt from the provisions of R 500.451 to R 500.466 with respect to any class of securities subject to securities and exchange commission jurisdiction.

History: 1954 ACS 47, p. 29, Eff. Aug. 14, 1966; 1954 ACS 65, p. 45, Eff. Dec. 1, 1970.

R 500.452 Proxies, consents, and authorizations.

Rule 452. No domestic stock insurer, or any director, officer or employee of such insurer subject to R 500.451, or any other person, shall solicit, or permit the use of his name to solicit, by mail or otherwise, any proxy, consent, or authorization in respect of any class of equity security of such insurer held of record by 100 or more persons in contravention of R 500.451 to R 500.466 and schedules A and B hereto annexed and made a part of R 500.451 to R 500.466.

History: 1954 ACS 47, p. 29, Eff. Aug. 14, 1966; 1954 ACS 65, p. 45, Eff. Dec. 1, 1970.

R 500.453 Disclosure of equivalent information.

Rule 453. Unless proxies, consents, or authorizations in respect of any class of equity security of a domestic insurer subject to R 500.451 are solicited by or on behalf of the management of the insurer from the holders of record of such security prior to any annual meeting of such security holders, the insurer, in accordance with R 500.451 to R 500.466 and such further rules as the commissioner may adopt, shall file with the commissioner and transmit to all security holders of record information substantially equivalent to the information which would be required to be transmitted if a solicitation were made. The insurer shall transmit a written information statement containing the information specified in R 500.455(4) to every security holder who is entitled to vote in regard to any matter to be acted upon at the meeting and from whom a proxy is not solicited on behalf of the management of the insurer. In the case of a class of securities in unregistered or bearer form such statement need be transmitted only to those security holders whose names and addresses are known to the insurer.

History: 1954 ACS 47, p. 29, Eff. Aug. 14, 1966; 1954 ACS 65, p. 46, Eff. Dec. 1, 1970.

R 500.454 Definitions of "solicit" and "solicitation."

Rule 454. (1) The terms "solicit" and "solicitation" include:

(a) Any request for a proxy, whether or not accompanied by or included in a form of proxy.

(b) Any request to execute or not to execute, or to revoke, a proxy.

(c) The furnishing of a proxy or other communication to security holders under circumstances reasonably calculated to result in the procurement, withholding, or revocation of a proxy.

(2) The terms "solicit" and "solicitation" do not include:

(a) Any solicitation by a person in respect of securities of which he is the beneficial owner.

(b) Action by a broker or other person in respect to securities carried in his name or in the name of his nominee in forwarding to the beneficial owner of the securities soliciting material received from the company, or impartially instructing the beneficial owner to forward a proxy to the person, if any, to whom the beneficial owner desires to give a proxy, or impartially requesting instructions from the beneficial owner with respect to the authority to be conferred by the proxy and stating that a proxy will be given if the instructions are received by a certain date.

(c) The furnishing of a form of proxy to a security holder upon the unsolicited request of the security holder or the performance by any person of ministerial acts on behalf of a person soliciting a proxy.

History: 1954 ACS 47, p. 30, Eff. Aug. 14, 1966; 1954 ACS 65, p. 46, Eff. Dec. 1, 1970.

R 500.455 Information to be furnished security holders.

Rule 455. (1) No solicitation subject to R 500.451 to R 500.466 shall be made unless each person solicited is concurrently furnished or has previously been furnished with a written proxy statement containing the information specified in schedule A.

(2) If the solicitation is made on behalf of the management of the insurer and relates to an annual meeting of security holders at which directors are to be elected, each proxy statement shall be accompanied or preceded by an annual report, in preliminary or final form, to the security holders containing such financial statements for the last fiscal year as are referred to in schedule SIS under the heading "financial reporting to stockholders." Subject to the foregoing requirements with respect to financial statements, the annual report to security holders may be in any form deemed suitable by the management.

(3) Two copies of each report sent to the security holders pursuant to this rule shall be mailed to the commissioner not later than the date on which the report is first sent or given to security holders or the date on which preliminary copies of solicitation material are filed with the commissioner pursuant to R 500.457(1), whichever date is later.

(4) If no solicitation is being made by management of the insurer with respect to any annual or other meeting, the insurer shall mail to every security holder of record at least 20 days prior to the meeting date, an information statement as required by subrule (3), containing the information called for by all of the items of schedule A, other than items 1, 3, and 4, which would be applicable to any matter to be acted upon at the meeting if proxies were to be solicited in connection with the meeting. If the information statement relates to an annual meeting at which directors are to be elected, it shall be accompanied by an annual report to the security holders in the form provided in subrule (2).

History: 1954 ACS 47, p. 30, Eff. Aug. 14, 1966; 1954 ACS 65, p. 46, Eff. Dec. 1, 1970.

Departmental note: SIS is the stockholders information supplement to the annual statement of domestic stock insurance companies required to be filed with the commissioner of insurance.

R 500.456 Proxy and information statement contents.

Rule 456. (1) The form of proxy (a) shall indicate in boldface type whether or not the proxy is solicited on behalf of the management, (b) shall provide a

specifically designated blank space for dating the proxy, and (c) shall identify clearly and impartially each matter or group of related matters intended to be acted upon, whether proposed by the management or security holders. No reference need be made to proposals as to which discretionary authority is conferred pursuant to subrule (3).

(2) Means shall be provided in the proxy for the person solicited to specify by ballot a choice between approval or disapproval for each matter or group of related matters referred to therein, other than elections to office. A proxy may confer discretionary authority with respect to matters as to which a choice is not so specified if the form of the proxy states in boldface type how it is intended to vote the shares or authorization represented by the proxy in each such case.

(3) A form of proxy which provides both for elections to office and for action on other specified matters shall be prepared so as to clearly provide, by a box or otherwise, means by which the security holder may withhold authority to vote for elections to office. Any such form of proxy which is executed by the security holder in such manner as not to withhold authority to vote for elections to office shall be deemed to grant such authority if the form of proxy so states in boldface type.

(4) A proxy may confer discretionary authority with respect to other matters which may come before the meeting if the persons on whose behalf the solicitation is made are not aware a reasonable time prior to the time the solicitation is made that any other matters are to be presented for action at the meeting and a specific statement to that effect is made in the proxy statement or in the form of proxy.

(5) No proxy shall confer authority (a) to vote for the election of any person to any office for which a bona fide nominee is not named in the proxy statement, or (b) to vote at any annual meeting other than the next annual meeting, or any adjournment thereof, to be held after the date on which the proxy statement and form of proxy are first sent or given to security holders.

(6) The proxy statement or form of proxy shall provide, subject to reasonable specified conditions, that the proxy will be voted and that where the person solicited specifies by means of ballot provided pursuant to subrule (2) or (3) a choice with respect to any matter to be acted upon, the vote will be in accordance with the specifications so made.

(7) The information included in the proxy statement or information statement shall be clearly presented and the statements made shall be divided into groups according to subject matter, with appropriate headings. All printed proxy statements shall be clearly and legibly presented.

History: 1954 ACS 47, p. 30, Eff. Aug. 14, 1968; 1954 ACS 65, p. 47, Eff. Dec. 1, 1970.

R 500.457 Material to be filed.

Rule 457. (1) Two preliminary copies of the proxy statement and form of proxy and any other soliciting material to be furnished to security holders concurrently therewith shall be filed with the commissioner at least 10 days prior to the date definitive copies of the material are first sent or given to security holders or such shorter period prior to that date as the commissioner may authorize upon a showing of good cause therefor.

(2) Two preliminary copies of any additional soliciting material relating to the same meeting or subject matter to be furnished to security holders subsequent to the proxy statements shall be filed with the commissioner at least 2 days exclusive of Saturdays, Sundays or holidays prior to the date copies of this material are first sent or given to security holders or a shorter period prior to that date as the commissioner may authorize upon a showing of good cause therefor.

(3) Two definitive copies of the proxy statement, form of proxy and all other soliciting material, in the form in which this material is furnished to security holders shall be filed with, or mailed for filing to, the commissioner not later than the date the material is first sent or given to the security holders.

(4) Where any proxy statement, form of proxy or other material filed pursuant to these rules is amended or revised, 2 of the copies shall be marked to clearly show such changes.

(5) Copies of replies to inquiries from security holders requesting further information and copies of communications which do no more than request that forms of proxy theretofore solicited be signed and returned need not be filed pursuant to this rule.

(6) Notwithstanding the provisions of subrules (1) and (2) and of R 500.465, copies of soliciting material in the form of speeches, press releases and radio or television scripts may, but need not, be filed with the commissioner prior to use or publication. Definitive copies shall be filed with or mailed for filing to the commissioner as required by subrule (3) not later than the date the material is used or published. The provisions of subrules (1) and (2) shall apply to any reprints or reproductions of all or any part of such material.

History: 1954 ACS 47, p. 31, Eff. Aug. 14, 1966; 1954 ACS 65, p. 47, Eff. Dec. 1, 1970.

R 500.459 False or misleading statements.

Rule 459. No proxy statement, form of proxy, notice of meeting, information statement, or other communication, written or oral, subject to R 500.451 to R 500.466 shall contain any statement, which at the time and in the light of the circumstances under which it is made, is false or misleading with respect to any material fact, or which omits to state any material fact necessary in order to make the statements therein not false or misleading or necessary to correct any statement in any earlier communication with respect to the solicitation of a proxy for the same meeting or subject matter which has become false or misleading.

History: 1954 ACS 47, p. 31, Eff. Aug. 14, 1966; 1954 ACS 65, p. 48, Eff. Dec. 1, 1970.

R 500.460 Undated, postdated and subsequent dated proxies.

Rule 460. No person making a solicitation which is subject to R 500.451 to R 500.466 shall solicit any undated or postdated proxy or any proxy which provides that it shall be deemed to be dated as of any date subsequent to the date on which it is signed by the security holders.

History: 1954 ACS 47, p. 31, Eff. Aug. 14, 1966; 1954 ACS 65, p. 48, Eff. Dec. 1, 1970.

R 500.461 Special provisions applicable to election contests.

Rule 461. R 500.461 to R 500.466 apply to any solicitation subject to R 500.451 to R 500.466 by any person or group for the purpose of opposing a solicitation subject to R 500.451 to R 500.466 by any other person or group with respect to the election or removal of directors at any annual or special meeting of security holders.

History: 1954 ACS 47, p. 32, Eff. Aug. 14, 1966; 1954 ACS 65, p. 48, Eff. Dec. 1, 1970.

R 500.462 Definitions of "participant" and "participant in a solicitation."

Rule 462. (1) For purposes of R 500.461 to R 500.466 the terms "participant" and "participant in a solicitation" include (a) the insurer; (b) any director of the insurer, and any nominee for whose election as a director proxies are solicited; or (c) any other person, acting alone or with 1 or more other persons, committees or groups, in organizing, directing or financing the solicitation.

(2) For the purposes of R 500.461 to R 500.466 the terms "participant" and "participant in a solicitation" do not include (a) a bank, broker or dealer who, in the ordinary course of business, lends money or executes orders for the purchase or sale of securities and who is not otherwise a participant; (b) any person or organization retained or employed by a participant to solicit security holders or any person who merely transmits proxy soliciting material or performs ministerial or clerical duties; (c) any person employed in the capacity of attorney, accountant, or advertising, public relations or financial adviser, and whose activities are limited to the performance of his duties in the course of such employment; (d) any person regularly employed as an officer or employee of the insurer or any of its subsidiaries or affiliates who is not otherwise a participant; or (e) any officer or director of, or any person regularly employed by, any other participant, if such officer, director or employee is not otherwise a participant.

History: 1954 ACS 47, p. 32, Eff. Aug. 14, 1966; 1954 ACS 65, p. 48, Eff. Dec. 1, 1970.

R 500.463 Filing of information specified by schedule B.

Rule 463. (1) No solicitation subject to R 500.461 to R 500.466 shall be made by any person other than the management of an insurer unless at least 5 business days prior thereto, or such shorter period as the commissioner authorized upon a showing of good cause therefor, there has been filed, with the commissioner by or on behalf of each participant in the solicitation, a statement in duplicate containing the information specified by schedule B and a copy of any material proposed to be distributed to security holders in furtherance of the solicitation. Where preliminary copies of any materials are filed, distribution to security holders shall be deferred until the commissioner's comments have been received and complied with.

(2) Within 5 business days after a solicitation subject to R 500.461 to R 500.466 is made by the management of an insurer, or such longer period as the commissioner may authorize upon a showing of good cause therefor, there shall be filed with the commissioner by or on behalf of each participant in the solicitation, other than the insurer, and by or on behalf of each management nominee for director, a statement in duplicate containing the information specified by schedule B.

(3) If any solicitation on behalf of management or any other person has been made, or if proxy material is ready for distribution, prior to a solicitation subject to R 500.461 to R 500.466 in opposition thereto, a statement in duplicate containing the information specified in schedule B shall be filed with the commissioner by or on behalf of each participant in the prior solicitation, other than the insurer, as soon as reasonably practicable after the commencement of the solicitation in opposition thereto.

(4) If, subsequent to the filing of the statements required by subrules (1), (2) and (3), additional persons become the participants in a solicitation subject to R 500.461 to R 500.466, there shall be filed with the commissioner by or on behalf of each such person, a statement in duplicate containing the information specified by schedule B, within 3 business days after the person becomes a participant, or such longer period as the commissioner may authorize upon a showing of good cause therefor.

(5) If any material change occurs in the facts reported in any statement filed by or on behalf of any participant, an appropriate amendment to the statement shall be filed promptly with the commissioner.

(6) Each statement and amendment thereto filed pursuant to this rule shall be part of the public files of the commissioner.

History: 1954 ACS 47, p. 32, Eff. Aug. 14, 1966; 1954 ACS 65, p. 48, Eff. Dec. 1, 1970.

R 500.464 Solicitations before furnishing proxy statements.

Rule 464. Notwithstanding the provisions of R 500.455(1), a solicitation subject to R 500.461 to R 500.466 may be made prior to furnishing security holders a written proxy statement containing the information specified in schedule A with respect to such solicitation, if:

(a) The statements required by R 500.463 are filed by or on behalf of each participant in the solicitation.

(b) No form of proxy is furnished to security holders prior to the time the written proxy statement required by R 500.455(1) is furnished to such persons. This paragraph shall not apply where a proxy statement then meeting the requirements of schedule A has been furnished to security holders.

(c) At least the information specified in subrules (2) and (3) of the statements required by R 500.463 to be filed by each participant, or an appropriate summary thereof, are included in each communication sent or given to security holders in connection with the solicitation.

(d) A written proxy statement containing the information specified in schedule A with respect to a solicitation is sent or given security holders at the earliest practicable date.

History: 1954 ACS 47, p. 33, Eff. Aug. 14, 1966; 1954 ACS 65, p. 49, Eff. Dec. 1, 1970.

R 500.465 Solicitations before furnishing proxy statements; filing.

Rule 465. Two copies of any soliciting material proposed to be sent or given to security holders prior to the furnishing of the written proxy statement required by R 500.455(1) shall be filed with the commissioner in preliminary form at least 5 business days prior to the date definitive copies of the material are first sent or given to such persons, or such shorter period as the commissioner may authorize upon a showing of good cause therefor.

History: 1954 ACS 47, p. 33, Eff. Aug. 14, 1966; 1954 ACS 65, p. 49, Eff. Dec. 1, 1970.

R 500.466 Solicitation comments and references in annual reports; filing.

Rule 466. Notwithstanding the provisions of R 500.455(2) and (3), 2 copies of any portion of the report referred to in R 500.455(2) which comments upon or refers to any solicitation subject to R 500.461 to R 500.466, or to any participant in the solicitation, other than the solicitation by the management, shall be filed with the commissioner as proxy material subject to R 500.451 to R 500.466. Such portion of the report shall be filed with the commissioner in preliminary form at least 5 business days prior to the date copies of the report are first sent or given to security holders.

History: 1954 ACS 47, p. 33, Eff. Aug. 14, 1966; 1954 ACS 65, p. 49, Eff. Dec. 1, 1970.

SCHEDULE A

Information Required in Proxy Statements

Item 1. Revocability of proxy.

State whether or not the person giving the proxy has the power to revoke it. If the right of revocation before the proxy is exercised is limited, or is subject to compliance with any formal procedure, briefly describe such limitation or procedure.

Item 2. Dissenters' rights of appraisal.

Outline briefly the rights of appraisal or similar rights of dissenting security holders with respect to any matter to be acted upon and indicate any statutory

procedure required to be followed by such security holders in order to perfect their rights. Where such rights may be exercised only within a limited time after the date of the adoption of a proposal, the filing of a charter amendment, or other similar act, state whether the person solicited will be notified of such date.

Item 3. Persons making solicitations not subject to R 500.461 to R 500.466.

(1) If the solicitation is made by the management of the insurer, so state. Give the name of any director of the insurer who has informed the management in writing that he intends to oppose any action intended to be taken by the management and indicate the action which he intends to oppose.

(2) If the solicitation is made otherwise than by the management of the insurer, state the names and addresses of the persons by whom and on whose behalf it is made and the names and addresses of the persons by whom the cost of solicitation has been or will be borne, directly or indirectly.

(3) If the solicitation is to be made by specially engaged employees or paid solicitors, state: (a) the material features of any contract or arrangement for such solicitation and identify the parties; (b) the cost or anticipated cost thereof.

Item 4. Interest of certain persons in matters to be acted upon.

Describe briefly any substantial interest, direct or indirect, by security holdings or otherwise, of any director, nominee for election for director, officer and, if the solicitation is made otherwise than on behalf of management, each person on whose behalf the solicitation is made, in any matter to be acted upon other than elections to office.

Item 5. Voting securities.

(1) State, as to each class of voting securities of the insurer entitled to be voted at the meeting, the number of shares outstanding and the number of votes to which each class is entitled.

(2) Give the date as of which the record list of security holders entitled to vote at the meeting will be determined. If the right to vote is not limited to security holders of record on that date, indicate the conditions under which other security holders may be entitled to vote.

(3) If action is to be taken with respect to the election of directors and if the persons solicited have cumulative voting rights, make a statement that they have such rights and state briefly the conditions precedent to the exercise thereof.

Item 6. Nominees and directors.

If action is to be taken with respect to the election of directors, furnish the following information in tabular form to the extent practicable, with respect to each person nominated for election as a director and each other person whose term of office as a director will continue after the meeting:

(a) Name each such person, state when his term of office or the term of office for which he is a nominee will expire, and all other positions and offices with the insurer presently held by him, and indicate which persons are nominees for election as directors at the meeting.

(b) State his present principal occupation or employment and give the name and principal business of any corporation or other organization in which such employment is carried on. Furnish similar information as to all of his principal occupations or employments during the last 5 years, unless he is now a director and was elected to his present term of office by a vote of security holders at a meeting for which proxies were solicited under this regulation.

(c) If he is or has previously been a director of the insurer, state the period or periods during which he has served as such.

(d) State, as of the most recent practicable date, the approximate amount of each class of equity securities of the insurer or any of its parents, subsidiaries or affiliates other than directors' qualifying shares, beneficially owned directly or indirectly by him. If he is not the beneficial owner of any such securities make a statement to that effect.

Item 7. Remuneration and transactions with management and others.

Furnish the information reported or required in item 1 of schedule SIS under the heading "Information Regarding Management and Directors" if action is to be taken with respect to: (a) the election of directors; (b) any remuneration plan, contract or arrangement in which any director, nominee for election as a director, or officer of the insurer will participate; (c) any pension or retirement plan in which any such person will participate; or (d) the granting of extension to any such person of any options, warrants or rights to purchase any securities other than warrants or rights issued to security holders as such, on a pro rata basis. If the solicitation is made on behalf of persons other than the management, information shall be furnished only as to item IA of the aforesaid heading of schedule SIS.

Departmental note: SIS is the stockholders information supplement to the annual statement of domestic stock insurance companies required to be filed with the commissioner of insurance.

Item 8. Bonus, profit sharing, and other remuneration plans.

If action is to be taken with respect to any bonus, profit sharing, or other remuneration plan of the insurer, furnish the following information:

(a) A brief description of the material features of the plan, each class of persons who will participate therein, the approximate number of persons in each such class, and the basis of such participation.

(b) The amounts which would have been distributable under the plan during the last calendar year to: (1) each person named in item 7 of this schedule; (2) directors and officers as a group; and (3) to all other employees as a group, if the plan had been in effect.

(c) If the plan to be acted upon may be amended (other than by a vote of stockholders) in a manner which would materially increase the cost thereof to the insurer or materially alter the allocation of the benefits as between the groups specified in paragraph (b) of this item, the nature of such amendments should be specified.

Item 9. Pension and retirement plans.

If action is to be taken with respect to any pension or retirement plan of the insurer, furnish the following information:

(a) A brief description of the material features of the plan, each class of persons who will participate therein, the approximate number of persons in each such class, and the basis of such participation.

(b) State (1) the approximate total amount necessary to fund the plan with respect to past services, the period over which such amount is to be paid, and the estimated annual payments necessary to pay the total amount over such period; (2) the estimated annual payment to be made with respect to current services; and (3) the amount of such annual payments to be made for the benefit of (i) each person named in item 7 of this schedule, (ii) directors and officers as a group, and (iii) employees as a group.

(c) If the plan to be acted upon may be amended (other than by a vote of security holders) in a manner which would materially increase the cost thereof to the insurer or to materially alter the allocation of the benefits as between the groups specified in subparagraph (b)(3) of this item, the nature of such amendments should be specified.

Item 10. Options, warrants, or rights.

If action is to be taken with respect to the granting or extension of any options, warrants, or rights (all referred to herein as "warrants") to purchase securities of the insurer or any subsidiary or affiliate other than warrants issued to all security holders on a pro rata basis, furnish the following information:

(a) The title and amount of securities called for or to be called for, the prices, expiration dates and other material conditions upon which the warrants may be exercised, the consideration received or to be received by the insurer, subsidiary or affiliate for the granting or extension of the warrants, and the market value of the securities called for or to be called for by the warrants as of the latest practicable date.

(b) If known, state separately the amount of securities called for or to be called for by warrants received or to be received by the following persons, naming each such person: (1) each person named in item 7 of this schedule and (2) each other person who will be entitled to acquire 5% or more of the securities called for or to be called for by such warrants.

(c) If known, state also the total amount of securities called for or to be called for by such warrants, received or to be received by all directors and officers of the company as a group and all employees, without naming them.

Item 11. Authorization or issuance of securities.

(1) If action is to be taken with respect to the authorization or issuance of any securities of the insurer, furnish the title, amount and description of the securities to be authorized or issued.

(2) If the securities are other than additional shares of common stock of a class outstanding, furnish a brief summary of the following, if applicable: dividend, voting, liquidation, pre-emptive and conversion rights, redemption and sinking fund provisions, interest rate and date of maturity.

(3) If the securities to be authorized or issued are other than additional shares of common stock of a class outstanding, the commissioner may require financial statements comparable to those contained in the annual report.

Item 12. Mergers, consolidations, acquisitions, and similar matters.

(1) If action is to be taken with respect to a merger, consolidation, acquisition, or similar matter, furnish in brief outline the following information:

(a) The rights of appraisal or similar rights of dissenters with respect to any matters to be acted upon. Indicate any procedure required to be followed by dissenting security holders in order to perfect such rights.

(b) The material features of the plan or agreement.

(c) The business done by the company to be acquired or whose assets are being acquired.

(d) If available, the high and low sales prices for each quarterly period within 2 years.

(e) The percentage of outstanding shares which must approve the transaction before it is consummated.

(2) For each company involved in a merger, consolidation or acquisition, the following financial statements should be furnished:

(a) A comparative balance sheet as of the close of the last 2 fiscal years.

(b) A comparative statement of operating income and expenses for each of the last 2 fiscal years and, as a continuation of each statement, a statement of earnings per share after related taxes and cash dividends paid per share.

(c) A pro forma combined balance sheet and income and expenses statement for the last fiscal year giving effect to the necessary adjustments with respect to the resulting company.

Item 13. Restatement of accounts.

If action is to be taken with respect to the restatement of any asset, capital, or surplus of the insurer, furnish the following information:

(a) State the nature of the restatement and the date as of which it is to be effective.

(b) Outline briefly the reasons for the restatement and for the selection of the particular effective date.

(c) State the name and amount of each account affected by the restatement and the effect of the restatement thereon.

Item 14. Matters not required to be submitted to security holders.

If action is to be taken with respect to any matter which is not required to be submitted to a vote of security holders, state the nature of such matter, the reason for submitting it to a vote of security holders and what action is intended to be taken by the management in the event of a negative vote on the matter by the security holders.

Item 15. Amendments of charter, bylaws, or other documents.

If action is to be taken with respect to any amendment of the insurer's charter, bylaws, or other documents as to which information is not required above, state briefly the reasons for and general effect of such amendment and the vote needed for its approval.

SCHEDULE B

Information To Be Included in Statements Filed By or On Behalf of a Participant (Other Than the Insured) in a Proxy Solicitation in an Election Contest

Item 1. Insurer.

State the name and address of the insurer.

Item 2. Identity and background.

(a) State the following:

(1) Your name and business address.

(2) Your present principal occupation or employment and the name, principal business and address of any corporation or other organization in which such employment is carried on.

(b) State the following:

(1) Your residence address.

(2) Information as to all material occupations, positions, offices or employments during the last 10 years, giving starting and ending dates of each and the name, principal business and address of any business, corporation or other business organization in which each such occupation, position, office or employment was carried on.

(c) State whether or not you are or have been a participant in any other proxy contest involving this company or other companies within the past 10 years. If so, identify the principals, the subject matter and your relationship to the parties and the outcome.

(d) State whether or not, during the past 10 years, you have been convicted in a criminal proceeding (excluding traffic violations or similar misdemeanors) and, if so, give dates, nature of conviction, name and location of court, and penalty imposed or other disposition of the case. A negative answer to this sub-item need not be included in the proxy statement or other proxy soliciting material.

Item 3. Interest in securities of the insurer.

(a) State the amount of each class of securities of the insurer which you own beneficially, directly or indirectly.

(b) State the amount of each class of securities of the insurer which you own of record but not beneficially.

(c) State with respect to all securities of the insurer purchased or sold within the past 2 years, the dates on which they were purchased or sold and the amount purchased or sold on each date.

(d) If any part of the purchase price or market value of any of the securities specified in paragraph (c) is represented by funds borrowed or otherwise obtained for the purpose of acquiring or holding such securities, so state and indicate the amount of the indebtedness as of the latest practicable date. If such funds were borrowed or obtained otherwise than pursuant to a margin account or bank loan in the regular course of business of a bank, broker or dealer, briefly describe the transaction, and state the names of the parties.

(e) State whether or not you are a party to any contracts, arrangements or understandings with any person with respect to any securities of the insurer, including but not limited to joint ventures, loan or option arrangements, puts or calls, guarantees against loss or guarantees of profits, division of losses or profits, or the giving or withholding of proxies. If so, name the persons with whom such contracts, arrangements or understandings exist and give the details thereof.

(f) State the amount of securities of the insurer owned beneficially, directly or indirectly, by each of your associates and the name and address of each such associate.

(g) State the amount of each class of securities of any parent, subsidiary or affiliate of the insurer which you own beneficially, directly or indirectly.

Item 4. Interest in solicitation and transactions.

(a) Describe the time and circumstances under which you became a participant in the solicitation and state the nature and extent of your activities or proposed activities as a participant.

(b) Describe briefly, and where practicable state the approximate amount of, any material interest, direct or indirect, of yourself and of each of your associates in any material transactions since the beginning of the company's last fiscal year, or in any material proposed transactions, to which the company or any of its subsidiaries or affiliates was or is to be a party.

(c) State whether or not you or any of your associates have any arrangement or understanding with any person:

(1) With respect to any future employment by the insurer or its subsidiaries or affiliates; or

(2) With respect to any future transactions to which the insurer or any of its subsidiaries or affiliates will or may be a party.

If so, describe such arrangement or understanding and state the names of the parties thereto.

Item 5. Signature.

The statement shall be dated and signed in the following manner:

I certify that the statements made in this statement are true, complete and correct, to the best of my knowledge and belief.

(Date) (Signature of participant or authorized representative)

INSIDER TRADING OF EQUITY SECURITIES OF DOMESTIC STOCK INSURANCE COMPANIES

GENERAL PROVISIONS

R 500.501 Definitions.

Rule 501. As used in these rules:

(a) "Act" means Act No. 218 of the Public Acts of 1956, as amended.

(b) "Insurer" means any domestic stock insurance company, with an equity security subject to the provisions of sections 5282 to 5289 of the act and not exempt thereunder.

(c) "Officer" means a president, vice president, treasurer, actuary, secretary, controller and any other person who performs for the insurer functions corresponding to those performed by the foregoing officers.

(d) "Equity security" means any stock or similar security; or any voting trust certificate or certificate of deposit for such a security; or any security convertible, with or without consideration into such a security, or carrying any warrant or right to subscribe to or purchase such a security; or any such warrant or right.

(e) "Class" means all securities of an insurer which are of substantially similar character and the holders of which enjoy substantially similar rights and privileges.

History: 1954 ACS 47, p. 38, Eff. Aug. 14, 1966

R 500.502 Securities "held of record."

Rule 502. (1) For the purpose of determining whether the equity securities of an insurer are held of record by 100 or more persons, securities shall be deemed to be "held of record" by each person who is identified as the owner of the securities on records of security holders maintained by or on behalf of the insurer, subject to the following:

(a) Where the records of security holders have not been maintained in accordance with accepted practice, any additional person who would be identified as an owner on the records if they had been maintained in accordance with accepted practice shall be included as a holder of record.

(b) Securities identified as held of record by a corporation, a partnership, a trust, whether or not the trustees are named, or other organization shall be included as so held by 1 person.

(c) Securities identified as held of record by 1 or more persons as trustees, executors, guardians, custodians or in other fiduciary capacities with respect to a single trust, estate or account shall be included as held of record by 1 person.

(d) Securities held by 2 or more persons as co-owners shall be included as held by 1 person.

(e) Each outstanding unregistered or bearer certificate shall be included as held of record by a separate person, except to the extent that the insurer can establish that, if such securities were registered, they would be held of record, under the provisions of this rule, by a lesser number of persons.

(f) Securities registered in substantially similar names where the insurer has reason to believe because of the address or other indications that the names represent the same person, may be included as held of record by 1 person.

(2) Notwithstanding subrule (1):

(a) Securities held, to the knowledge of the insurer, subject to a voting trust, deposit agreement or similar arrangement shall be included as held of record by the record holders of the voting trust certificates, certificates of deposit, receipts or similar evidences of interest in such securities. The insurer may rely in good

faith on such information as is received in response to its request from a nonaffiliated insurer of the certificates or evidences of interest.

(b) If the insurer knows or has reason to know that the form of holding securities of record is used primarily to circumvent the provisions of the act, the beneficial owners of such securities shall be deemed to be the record owners thereof.

History: 1954 ACS 47, p. 38, Eff. Aug. 14, 1966.

R 500.505 Transactions exempt from section 5283 of the act.

Rule 505. Any acquisition or disposition of any equity security by a director or officer of an insurer within 6 months prior to the date on which the act shall first become applicable with respect to the equity securities of such insurer is not subject to the operation of section 5283 of the act.

History: 1954 ACS 47, p. 39, Eff. Aug. 14, 1966.

REGULATIONS UNDER SECTION 5282 OF THE ACT

R 500.511 Filing of statements.

Rule 511. Initial statements of beneficial ownership of equity securities required by section 5282 of the act shall be filed on forms as prescribed by the commissioner. Statements of changes in such beneficial ownership required by section 5282 shall be filed on forms as prescribed by the commissioner. All statements shall be prepared and filed in accordance with the requirements of the applicable form.

History: 1954 ACS 47, p. 39, Eff. Aug. 14, 1966.

REGULATIONS UNDER SECTION 5282 OF THE ACT

R 500.512 Ownership of more than 10% of an equity security.

Rule 512. (1) In determining, for the purpose of section 5282 of the act, whether a person is the beneficial owner, directly or indirectly, of more than 10% of any class of any equity security, the class shall be deemed to consist of the total amount of the class outstanding, exclusive of any securities of the class held by or for the account of the insurer or a subsidiary of the insurer; except that for the purpose of determining percentage ownership of voting trust certificates or certificates of deposit for equity securities, the class of voting trust certificates or certificates of deposit shall be deemed to consist of the amount of voting trust certificates or certificates of deposit issuable with respect to the total amount of outstanding equity securities of the class which may be deposited under the voting trust agreement or deposit agreement in question, whether or not all of such outstanding securities have been so deposited. For the purpose of this section a person acting in good faith may rely on the information contained in the latest convention form statement filed with the commissioner with respect to the amount of securities of a class outstanding or in the case of voting trust certificates or certificates of deposit the amount thereof issuable.

(2) In determining, for the purpose of section 5282 of the act, whether a person is the beneficial owner, directly or indirectly, of more than 10% of any class of equity securities, such person shall be deemed to be the beneficial owner of securities of the class which the person has the right to acquire through the exercise of presently exercisable options, warrants or rights or through the conversion of presently convertible securities. The securities subject to options, warrants, rights or conversion privileges held by a person shall be deemed to be outstanding for the purpose of computing, in accordance with subrule (1), the

percentage of outstanding securities of the class owned by the person but shall not be deemed outstanding for the purpose of computing the percentage of the class owned by any other person. This subrule shall not be construed to relieve any person of any duty to comply with section 5282 of the act with respect to any equity securities consisting of options, warrants, rights or convertible securities which are otherwise subject as a class to section 5282 of the act.

History: 1954 ACS 47, p. 39, Eff. Aug. 14, 1966. 1954 ACS 65, p. 54, Eff. Dec. 1, 1970.

R 500.513 Disclaimer of beneficial ownership.

Rule 513. Any person filing a statement may expressly declare therein that the filing of such statement shall not be construed as an admission that the person is, for the purpose of the act, the beneficial owner of any equity securities covered by the statement.

History: 1954 ACS 47, p. 39, Eff. Aug. 14, 1966.

R 500.514 Exemptions from sections 5282 and 5283 of the act.

Rule 514. (1) During the period of 12 months following their appointment and qualification, securities held by the following persons are exempt from sections 5282 and 5283 of the act:

(a) Executors or administrators of the estate of a decedent.

(b) Guardians or committees for an incompetent.

(c) Receivers, trustees in bankruptcy, assignees for benefit of creditors, conservators, liquidating agents, and other similar persons duly authorized by law to administer the estate or assets of other persons.

(2) After the 12-month period following their appointment or qualification the foregoing persons shall be required to file reports under section 5282 of the act with respect to the securities held by the estates which they administer and shall be liable for profits realized from trading in such securities pursuant to section 5283 of the act only when the estate being administered is a beneficial owner of more than 10% of any class of equity security of an insurer subject to the act.

(3) Securities reacquired by or for the account of an insurer and held by it for its account are exempt from sections 5282 and 5283 during the time they are held by the insurer.

History: 1954 ACS 47, p. 39, Eff. Aug. 14, 1966.

R 500.515 Exemption of securities purchased or sold by odd-lot dealers.

Rule 515. Securities purchased or sold by an odd-lot dealer in odd lots so far as reasonably necessary to carry on odd-lot transactions or in round lots to offset odd-lot transactions previously or simultaneously executed or reasonably anticipated in the usual course of business, are exempt from the provisions of the act with respect to participation by such odd-lot dealer in such transactions.

History: 1954 ACS 47, p. 39, Eff. Aug. 14, 1966.

R 500.516 Transactions subject to section 5282 of the act.

Rule 516. The acquisition or disposition of any transferable option, put, call, spread or straddle shall be deemed such a change in the beneficial ownership of the security to which such privilege relates as to require the filing of a statement reflecting the acquisition or disposition of such privilege. Nothing in this rule exempts any person from filing the statements required upon the exercise of such option, put, call, spread or straddle.

History: 1954 ACS 47, p. 40, Eff. Aug. 14, 1966.

R 500.517 Ownership of securities held in trust.

Rule 517. (1) Beneficial ownership of a security for the purpose of section 5282 includes:

(a) The ownership of securities as a trustee where either the trustee or members of his immediate family have a vested interest in the income or corpus of the trust.

(b) The ownership of a vested beneficial interest in a trust.

(c) The ownership of securities as a settlor of a trust in which the settlor has the power to revoke the trust without obtaining the consent of all the beneficiaries.

(2) Except as provided in subrule (1), beneficial ownership of securities solely as a settlor or beneficiary of a trust shall be exempt from the provisions of section 5282 where less than 20% in market value of the securities having a readily ascertainable market value held by such trust determined as of the end of the preceding fiscal year of the trust, consists of equity securities with respect to which reports would otherwise be required. Exemption is likewise accorded from section 5282 with respect to any obligation which would otherwise be imposed solely by reason of ownership as settlor or beneficiary of securities held in trust, where the ownership, acquisition or disposition of such securities by the trust is made without prior approval by the settlor or beneficiary. No exemption pursuant to this subrule shall be acquired or lost solely as a result of changes in the value of the trust assets during any fiscal year or during any time when there is no transaction by the trust in the securities otherwise subject to the reporting requirements of section 5282.

(3) If 10% of any class of any equity security of an insurer is held in a trust, that trust and the trustees thereof as such shall be deemed a person required to file the reports specified in section 5282.

(4) Not more than 1 report need be filed to report any holdings or with respect to any transaction in securities held by a trust, regardless of the number of officers, directors or 10% stockholders who are either trustees, settlors or beneficiaries of a trust, if the report filed discloses the names of all trustees, settlors and beneficiaries who are officers, directors or 10% stockholders. A person having an interest only as a beneficiary of a trust shall not be required to file any such report so long as he relies in good faith upon an understanding that the trustee of the trust will file whatever reports might otherwise be required of the beneficiary.

(5) As used in this rule the "immediate family" of a trustee means:

(a) A son or daughter of the trustee, or a descendant of either.

(b) A stepson or stepdaughter of the trustee.

(c) The father or mother of the trustee, or an ancestor of either.

(d) A stepfather or stepmother of the trustee.

(e) A spouse of the trustee.

For the purpose of determining whether any of the foregoing relations exist, a legally adopted child of a person shall be considered a child of such person by blood.

(6) In determining, for the purposes of section 5282, whether a person is the beneficial owner directly or indirectly, of more than 10% of any class of any equity security, the interest of such person in the remainder of the trust shall be excluded from the computation.

(7) No report shall be required by any person, whether or not otherwise subject to the requirement of filing reports under section 5282, with respect to his indirect interest in portfolio securities held by a pension or retirement plan holding

securities of an insurer whose employees generally are the beneficiaries of the plan or a business trust with over 25 beneficiaries.

(8) Nothing in this rule imposes any duties or liabilities with respect to reporting any transaction or holding prior to its effective date.

History: 1954 ACS 47, p. 40, Eff. Aug. 14, 1966.

R 500.518 Exemption for small transactions.

Rule 518. (1) Any acquisition of securities is exempt from section 5282 where the person effecting the acquisition does not within 6 months thereafter effect any disposition, otherwise than by way of gift, of securities of the same class, and the person effecting the acquisition does not participate in acquisitions or in dispositions of securities of the same class having a total market value in excess of $3,000.00 for any 6 months' period during which the acquisition occurs.

(2) Any acquisition or disposition of securities by way of gift, where the total amount of such gifts does not exceed $3,000.00 in market value for any 6 months' period, is exempt from section 5282 and may be excluded from the computations prescribed in subrule (1).

(3) Any person exempted by subrule (1) or (2) shall include in the first report filed by him after a transaction within the exemption a statement showing his acquisitions and dispositions for each 6 months' period or portion thereof which has elapsed since his last filing.

History: 1954 ACS 47, p. 41, Eff. Aug. 14, 1966.

R 500.519 Exemption of certain transactions.

Rule 519. Any transaction which is exempt from the requirements of section 5282 of the act, insofar as it is otherwise subject to the provisions of section 5283, is exempt from section 5283.

History: 1954 ACS 47, p. 41, Eff. Aug. 14, 1966.

REGULATIONS UNDER SECTION 5283 OF THE ACT

R 500.521 Exemption of transactions in connection with a distribution.

Rule 521. (1) Any transaction of purchase and sale, or sale and purchase of a security which is effected in connection with the distribution of a substantial block of securities is exempt from the provisions of section 5283 of the act to the extent specified in this rule as not comprehended within the purpose of section 5283, upon the following conditions:

(a) The person effecting the transaction is engaged in the business of distributing securities and is participating in good faith, in the ordinary course of such business, in the distribution of such block of securities.

(b) The security involved in the transaction is a part of such block of securities and is acquired by the person effecting the transaction, with a view to the distribution thereof, from the insurer or other person on whose behalf such securities are being distributed or from a person who is participating in good faith in the distribution of such block of securities or a security purchased in good faith by or for the account of the person effecting the transaction for the purpose of stabilizing the market price of securities of the class being distributed or to cover an over-allotment or other short position created in connection with such distribution.

(c) Other persons not within the purview of section 5283 of the act are participating in the distribution of such block of securities on terms at least as favorable as those on which the person is participating and to an extent at least

equal to the aggregate participation of all persons exempted from the provisions of section 5283 of the act by this rule. The performance of the functions of manager of a distributing group and the receipt of a bona fide payment for performing such functions shall not preclude an exemption which would otherwise be available under this rule.

(2) The exemption of a transaction pursuant to this rule with respect to the participation therein of 1 party thereto shall not render the transaction exempt with respect to participation of any other party therein unless the other party also meets the conditions of this rule.

History: 1954 ACS 47, p. 41, Eff. Aug. 14, 1966.

R 500.522 Exemption of acquisition under certain stock plans.

Rule 522. Any acquisition of shares of stock, other than stock acquired upon the exercise of an option, warrant or right, pursuant to a stock bonus, profit sharing, retirement, incentive, thrift, savings or similar plan, or any acquisition of a qualified or a restricted stock option pursuant to a qualified or a restricted stock option plan, or a stock option pursuant to an employee stock purchase plan, by a director or officer of an insurer issuing the stock or stock option is exempt from the operation of section 5283 of the act if the plan meets the conditions of R 500.523 and R 500.526.

History: 1954 ACS 47, p. 41, Eff. Aug. 14, 1966.

R 500.523 Approval of plans; proxies.

Rule 523. The plan has been approved, directly or indirectly, by the affirmative votes of the holders of a majority of the securities of such insurer present, or represented, and entitled to a vote at a meeting duly held in accordance with the applicable laws of the state or by the written consent of the holders of a majority of the securities of the insurer entitled to vote. If the vote or written consent was not solicited substantially in accordance with the proxy rules and regulations prescribed by the commissioner in effect at the time of the vote or written consent, the insurer shall furnish in writing to the holders of record of the securities entitled to vote for the plan substantially the same information concerning the plan which would be required by such rules and regulations in effect at the time the information is furnished, if proxies to be voted with respect to the approval or disapproval of the plan were then being solicited, on or prior to the date of the first annual meeting of security holders held subsequent to the later of the date the act first applies to the insurer, or the acquisition of an equity security for which exemption is claimed. The written information may be furnished by mail to the last known address of the security holders of record within 30 days prior to the date of mailing. Four copies of the written information shall be filed with the commissioner not later than the date on which it is first sent or given to security holders of the insurer. For the purposes of this rule, the term "insurer" includes a predecessor corporation if the plan or obligations to participate thereunder were assumed by the insurer in connection with the succession.

History: 1954 ACS 47, p. 42, Eff. Aug. 14, 1966.

R 500.524 Selection of participants in plan.

Rule 524. (1) If the selection of any director or officer of the insurer to whom stock may be allocated or to whom qualified, restricted or employee stock purchase plan stock options may be granted pursuant to the plan, or the determination of the number or maximum number of shares of stock which may be allocated to any director or officer or which may be covered by qualified,

restricted or employee stock purchase plan stock options granted to any director or officer, is subject to the discretion of any person, then such discretion shall be exercised only as prescribed in this rule.

(2) With respect to the participation of directors:

(a) By the board of directors of the insurer, a majority of which board and a majority of the directors acting in the matter are disinterested persons.

(b) By, or only in accordance with the recommendations of, a committee of 3 or more persons having full authority to act in the matter, all of the members of which committee are disinterested persons.

(c) In accordance with the plan, if it specifies the number or maximum number of shares of stock which directors may acquire or which may be subject to qualified, restricted or employee stock purchase plan stock options granted to directors and the terms upon which, and the times at which, or the periods within which, such stock may be acquired or such options may be acquired and exercised; or sets forth, by formula or otherwise, effective and determinable limitations with respect to the foregoing based upon earnings of the insurer, dividends paid, compensation received by participants, option prices, market value of shares, outstanding shares or percentages thereof outstanding from time to time, or similar factors.

(3) With respect to the participation of officers who are not directors:

(a) By the board of directors of the insurer or a committee of 3 or more directors.

(b) By, or only in accordance with the recommendations of, a committee of 3 or more persons having full authority to act in the matter, all of the members of which committee are disinterested persons.

(4) For the purpose of this rule, a director or committee member shall be deemed to be a disinterested person only if he is not eligible at the time the discretion is exercised and has not been eligible at any time within 1 year prior thereto for selection as a person to whom stock may be allocated or to whom qualified, restricted or employee stock purchase plan stock options may be granted pursuant to the plan or any other plan of the insurer or any of its affiliates entitling the participants therein to acquire stock or qualified, restricted or employee stock purchase plan stock options of the insurer or any of its affiliates.

(5) The provisions of this rule shall not apply with respect to any option granted, or other equity security acquired, prior to the date that sections 5282, 5283 and 5284 of the act first become applicable with respect to any class of equity securities of any insurer.

History: 1954 ACS 47, p. 42, Eff. Aug. 14, 1966.

R 500.525 Limitations required in plans.

Rule 525. As to each participant or as to all participants the plan effectively limits the aggregate dollar amount or the aggregate number of shares of stock which may be allocated or which may be subject to qualified, restricted or employee stock purchase plan stock options granted pursuant to the plan. The limitations may be established on an annual basis, or for the duration of the plan, whether or not the plan has a fixed termination date; and may be determined either by fixed or maximum dollar amounts or fixed or maximum numbers of shares or by formulas based upon earnings of the insurer, dividends paid, compensation received by participants, option prices, market value of shares, outstanding shares or percentages thereof outstanding from time to time or similar factors which will result in an effective and determinable limitation. Such limitations may be subject to any provisions for adjustment of the plan or of stock

allocable or options outstanding thereunder to prevent dilution or enlargement of rights.

History: 1954 ACS 47, p. 43, Eff. Aug. 14, 1966.

REGULATIONS UNDER SECTION 5283 OF THE ACT

R 500.526 Definitions for R 500.522 to R 500.526.

Rule 526. Unless the context otherwise requires, all terms used in R 500.522 to R 500.526 shall have the same meaning as in the act or elsewhere in these rules. In addition, the following definitions apply:

(a) "Plan" includes any plan, whether or not set forth in any formal written document or documents and whether or not approved in its entirety at 1 time.

(b) The definition of the terms "qualified stock option" and "employee stock purchase plan" that are set forth in sections 422 and 423 of the internal revenue code of 1954, as amended, are to be applied to those terms where used in R 500.523 to R 500.526. The term "restricted stock option" as defined in section 424(b) of the internal revenue code of 1954, as amended, shall be applied to that term as used in R 500.523 to R 500.526, but an option which meets all of the conditions of section 424(b), other than the date of issuance shall be deemed to be a "restricted stock option."

(c) The term "exercise of an option, warrant or right" contained in R 500.522 shall not include (i) the making of any election to receive under any plan and award of compensation in the form of stock or credits therefor if the election is made prior to the making of the award and if the election is irrevocable until at least 6 months after termination of employment; (ii) the subsequent crediting of the stock; (iii) the making of any election as to time for delivery of the stock after termination of employment if the election is made at least 6 months prior to any delivery; (iv) the fulfillment of any condition to the absolute right to receive stock; or (v) the acceptance of certificates for shares of stock.

History: 1954 ACS 47, p. 43, Eff. Aug. 14, 1966, 1954 ACS 65, p. 55, Eff. Dec. 1, 1970.

R 500.527 Exemption of transactions in which securities are received by redemption.

Rule 527. Any acquisition of an equity security, other than a convertible security or right to purchase a security, by a director or officer of the insurer issuing such security is exempt from the operation of section 5283 of the act upon condition that:

(a) The equity security is acquired by way of redemption of another security of an insurer substantially all of whose assets other than cash or government bonds consist of securities of the insurer issuing the equity security so acquired, and which:

(i) Represented substantially and in practical effect a stated or readily ascertainable amount of the equity security;

(ii) Had a value which was substantially determined by the value of such equity security; and

(iii) Conferred upon the holder the right to receive such equity security without the payment of any consideration other than the security redeemed.

(b) No security of the same class as the security redeemed was acquired by the director or officer within 6 months prior to the redemption or is acquired within 6 months after the redemption.

(c) The insurer issuing the equity security acquired has recognized the applicability of subdivision (a) of this rule by appropriate corporate action.

History: 1954 ACS 47, p. 43, Eff. Aug. 14, 1966.

R 500.528 Exemption of long-term profits incident to sales within 6 months of the exercise of an option.

Rule 528. (1) To the extent specified in subrule (2) of this rule, the commissioner exempts as not comprehended within the purposes of section 5283 of the act any transaction or transactions involving the purchase and sale, or sale and purchase, of any equity security where such purchase is pursuant to the exercise of an option or similar right either acquired more than 6 months before its exercise, or acquired pursuant to the terms of an employment contract entered into more than 6 months before its exercise.

(2) In respect of transactions specified in subrule (1) the profits inuring to the insurer shall not exceed the difference between the proceeds of sale and the lowest market price of any security of the same class within 6 months before or after the date of sale. Nothing in this section shall be deemed to enlarge the amount of profit which would inure to the insurer in the absence of this rule.

(3) The commissioner also exempts, as not comprehended within the purposes of section 5283 of the act, the disposition of a security, purchased in a transaction specified in subrule (1) of this rule, pursuant to a plan or agreement for merger or consolidation, or reclassification of the insurer's securities, or for the exchange of its securities for the securities of another person which has acquired its assets, or which is in control, as defined in section 368(c) of the internal revenue code of 1954, of a person which has acquired its assets, where the terms of the plan or agreement are binding upon all stockholders of the insurer except to the extent that dissenting stockholders may be entitled, under statutory provisions or provisions contained in the certificate of incorporation, to receive the appraised or fair value of their holdings.

(4) The exemptions provided by this rule shall not apply to any transaction made unlawful by section 5284 of the act or by any rules thereunder.

(5) The burden of establishing market price of a security for the purpose of this rule rests upon the person claiming the exemption.

History: 1954 ACS 47, p. 43, Eff. Aug. 14, 1966.

R 500.529 Exemption of transactions pursuant to mergers or consolidations.

Rule 529. (1) The following transactions are exempt from the provisions of section 5283 of the act as not comprehended within the purpose of the section:

(a) The acquisition of a security of an insurer, pursuant to a merger or consolidation, in exchange for a security of a company which, prior to the merger or consolidation, owned 85% or more of the equity securities of all other companies involved in the merger or consolidation except, in the case of consolidation, the resulting company.

(b) The disposition of a security, pursuant to a merger or consolidation of an insurer which, prior to the merger or consolidation, owned 85% or more of the equity securities of all other companies involved in the merger or consolidation except, in the case of consolidation, the resulting company.

(c) The acquisition of a security of an insurer, pursuant to a merger or consolidation, in exchange for a security of a company which, prior to the merger or consolidation, held over 85% of the combined assets of all the companies undergoing merger or consolidation, computed according to their book values prior to the merger or consolidation, as determined by reference to their most recent available financial statements for a 12-month period prior to the merger or consolidation.

(d) The disposition of a security, pursuant to a merger or consolidation, of an insurer which, prior to the merger or consolidation, held over 85% of the combined

assets of all the companies undergoing merger or consolidation, computed according to their book values prior to merger or consolidation, as determined by reference to their most recent available financial statements for a 12-month period prior to the merger or consolidation.

(2) A merger within the meaning of this rule includes the sale or purchase of substantially all the assets of 1 insurer by another in exchange for stock which is then distributed to the security holders of the insurer which sold its assets.

(3) Notwithstanding the provisions of subrules (1) and (2), if an officer, director or stockholder makes any purchase, other than a purchase exempted by this rule, of a security in any company involved in the merger or consolidation and any sale, other than a sale exempted by this rule, of a security in any other company involved in the merger or consolidation within any period of less than 6 months during which the merger or consolidation took place, the exemption provided by this rule is unavailable to the officer, director or stockholder to the extent of the purchase and sale.

History: 1954 ACS 47, p. 44, Eff. Aug. 14, 1966; 1954 ACS 65, p. 55, Eff. Dec. 1, 1970.

R 500.530 Exemption of transactions in securities under voting trusts or deposit agreements.

Rule 530. Any acquisition or disposition of an equity security involved in the deposit of the security under, or the withdrawal of the security from, a voting trust or deposit agreement, and the acquisition or disposition in connection therewith of the certificate representing the security, is exempt from the operation of section 5283 of the act if substantially all of the assets held under the voting trust or deposit agreement immediately after the deposit or immediately prior to the withdrawal, consisted of equity securities of the same class as the security deposited or withdrawn. This rule shall not apply to the extent that there have been either (a) a purchase of an equity security of the class deposited and a sale of any certificate representing an equity security of that class, or (b) a sale of an equity security of the class deposited and purchase of any certificate representing an equity security of that class, otherwise than in a transaction involved in the deposit or withdrawal or in a transaction exempted by any other provision of R 500.521 to R 500.531, within a period of less than 6 months which includes the date of the deposit or withdrawal.

History: 1954 ACS 47, p. 44, Eff. Aug. 14, 1966; 1954 ACS 65, p. 56, Eff. Dec. 1, 1970.

R 500.531 Exemption of transactions involving conversion of equity securities.

Rule 531. (1) Any acquisition or disposition of an equity security involved in the conversion of an equity security which, by its terms or pursuant to the terms of the insurer's charter or other governing instruments, is convertible immediately or after a stated period of time into another equity security of the same insurer, is exempt from the operation of section 5283 of the act. This rule shall not apply to the extent that there shall have been either (a) a purchase of any equity security of the class convertible, including any acquisition of or change in a conversion privilege, and a sale of any equity security of the class issuable upon conversion, or (b) a sale of any equity security of the class convertible and any purchase of any equity security issuable upon conversion, otherwise than in a transaction involved in the conversion or in a transaction exempted by any other provision of R 500.521 to R 500.531, within a period of less than 6 months which includes the date of conversion.

(2) For the purpose of this rule, an equity security shall not be deemed to be acquired or disposed of upon conversion of an equity security if the terms of the

R 500.532 Exemption of transactions involving sale of subscription rights.

Rule 532. (1) Any sale of a subscription right to acquire any subject security of the same insurer is exempt from the provisions of section 5283 of the act, to the extent prescribed in this rule, as not comprehended within the purpose of section 5283 of the act, if all the following occur:

(a) The subscription right is acquired, directly or indirectly, from the insurer without the payment of consideration.

(b) The subscription right by its terms expires within 45 days after the issuance thereof.

(c) The subscription right by its terms is issued on a pro rata basis to all holders of the beneficiary security of the insurer.

(d) A registration statement under the securities act of 1933 is in effect as to each subject security or the applicable terms of any exemption from such registration have been met in respect to each subject security.

(2) When used in this rule:

(a) "Subscription right" means any warrant or certificate evidencing a right to subscribe to or otherwise acquire an equity security.

(b) "Beneficiary security" means a security registered pursuant to section 12 of the securities exchange act, to the holders of which a subscription right is granted.

(c) "Subject security" means a security which is the subject of a subscription right.

(3) Notwithstanding any provision of this rule, if a person purchases subscription rights for cash or other consideration, a sale by that person of subscription rights otherwise exempted by this rule will not be so exempted to the extent of such purchases within the 6-month period preceding or following the sale.

History: 1954 ACS 65, p. 56, Eff. Dec. 1, 1970.

REGULATIONS UNDER SECTION 5284 OF THE ACT

R 500.541 Exemption of certain securities.

Rule 541. Any security is exempt from the operation of section 5284 of the act to the extent necessary to render lawful under section 5284 the execution by a broker of an order for an account in which he has no direct or indirect interest.

History: 1954 ACS 47, p. 45, Eff. Aug. 14, 1966.

R 500.542 Exemption of transactions in connection with a distribution.

Rule 542. Any security is exempt from the operation of section 5284 of the act to the extent necessary to render lawful under section 5284 any sale made by or on behalf of a dealer in connection with a distribution of a substantial block of securities, upon the following conditions:

(a) The sale is represented by an over-allotment in which the dealer is participating as a member of an underwriting group, or the dealer or a person acting on his behalf intends in good faith to offset such sale with a security to be

acquired by or on behalf of the dealer as a participant in an underwriting, selling or soliciting-dealer group of which the dealer is a member at the time of the sale, whether or not the security to be so acquired is subject to a prior offering to existing security holders or some other class of persons; and

(b) Other persons not within the purview of section 5284 of the act are participating in the distribution of the block of securities on terms at least as favorable as those on which the dealer is participating and to an extent at least equal to the aggregate participation of all persons exempted from the provisions of section 5284 of the act by this rule. The performance of the functions of manager of a distributing group and the receipt of a bona fide payment for performing such functions shall not preclude an exemption which would otherwise be available under this rule.

History: 1954 ACS 47, p. 45, Eff. Aug. 14, 1966

R 500.543 Exemption of sales of securities to be acquired.

Rule 543. (1) Whenever any person is entitled, as an incident to his ownership of an issued security and without the payment of consideration, to receive another security "when issued" or "when distributed," the security to be acquired is exempt from the operation of section 5284 if:

(a) The sale is made subject to the same conditions as those attaching to the right of acquisition; and

(b) The person exercises reasonable diligence to deliver the security to the purchaser promptly after his right of acquisition matures; and

(c) The person reports the sale on the appropriate form for reporting transactions by persons subject to section 5282 of the act.

(2) This rule shall not be construed as exempting transactions involving both a sale of a security "when issued" or "when distributed" and a sale of the security by virtue of which the seller expects to receive the "when-issued" or "when-distributed" security, if the 2 transactions combined result in a sale of more units than the aggregate of those owned by the seller plus those to be received by him pursuant to his right of acquisition.

History: 1954 ACS 47, p. 46, Eff. Aug. 14, 1966.

REGULATION UNDER SECTION 5286 OF THE ACT

R 500.545 Arbitrage transactions.

Rule 545. It is unlawful for any director or officer of an insurer to effect any foreign or domestic arbitrage transaction in any equity security of the insurer, unless he includes the transaction in the statements required by section 5282 of the act and accounts to the insurer for the profits arising from the transaction, as provided in section 5283. The provisions of section 5284 do not apply to such arbitrage transactions. The provisions of the act do not apply to any bona fide foreign or domestic arbitrage transaction insofar as it is effected by any person other than a director or officer of the insurer.

History: 1954 ACS 47, p. 46, Eff. Aug. 14, 1966

REPLACEMENT OF LIFE INSURANCE POLICIES

R 500.601 Definitions.

Rule 601. (1) In R 500.601 to R 500.606, "life insurance" does not include fixed or variable annuity contracts or contracts of variable life insurance.

(2) In R 500.601 to R 500.606, "replacement of life insurance" includes any transaction in which life insurance is to be purchased and, as part of the transaction, existing life insurance has been or is to be:

(a) Lapsed or surrendered.

(b) Converted into paid-up insurance, or continued as extended term insurance or under another form of nonforfeiture benefit.

(c) Converted so as to effect a reduction in the amount of existing life insurance or a reduction in the period of time the existing life insurance will continue in force.

(d) Reissued with such a reduction in amount that substantial cash values are released. Substantial cash values are released if an amount in excess of 50% of the tabular cash value is released on 1 or more of the existing policies.

(e) Assigned as collateral for a loan.

(f) Subjected to substantial borrowing of loan values whether in a single loan or under a schedule of borrowing over a period of time. Substantial borrowing occurs if an amount in excess of 50% of the tabular cash value is borrowed on 1 or more existing policies.

History: 1954 ACS 67, p. 70, Eff. June 1, 1971

R 500.602 Duties of agents.

Rule 602. (1) A life insurance agent shall obtain with or as a part of each application for life insurance a statement signed by the applicant as to whether the insurance for which application is made will replace existing life insurance.

(2) A life insurance agent shall submit to the insurer, in connection with each application for life insurance, a statement as to whether, to the best of his knowledge, replacement is involved in the transaction.

(3) If replacement is involved in a transaction, the life insurance agent shall do all of the following:

(a) Obtain with or as a part of each application a list of all existing life insurance policies proposed to be replaced.

(b) Present to the applicant, not later than at the time of taking the application, a completed "information statement" signed by the agent and a "notice to applicants regarding replacement of life insurance," in such forms as are prescribed by the commissioner and leave the forms with the applicant for his records.

(c) Have the applicant acknowledge receipt of the completed "information statement" and the "notice to applicants regarding replacement of life insurance."

(d) Submit with the application to the insurer a copy of any proposal used, the completed "information statement" and the name of each insurer which issued any life insurance proposed to be replaced.

History: 1954 ACS 67, p. 70, Eff. June 1, 1971.

R 500.603 Duties of insurers.

Rule 603. (1) A life insurer shall inform its field representatives of the requirements of R 500.601 to R 500.606.

(2) A life insurer shall require with or as a part of each application for life insurance a statement signed by the applicant as to whether the insurance for which application is made will replace existing life insurance.

(3) A life insurer shall require in connection with each application for life insurance a statement signed by the agent as to whether, to the best of his knowledge, replacement is involved in the transaction.

History: 1954 ACS 67, p. 70, Eff. June 1, 1971.

R 500.604 Duties where replacement involved; notice; filing.

Rule 604. (1) If a replacement is involved in a transaction, the life insurer shall:

(a) Require with or as a part of each application a list prepared by the agent

representing, to the best of his knowledge, all of the existing life insurance policies proposed to be replaced.

(b) Obtain a copy of any proposal used, the completed "information statement," proof of the receipt by the applicant of the "information statement" and the "notice to applicants regarding replacement of life insurance," and the name of each insurer which issued any life insurance being replaced.

(c) Immediately notify an insurer which issued any life insurance being replaced and upon request promptly furnish a copy of any proposal used and a copy of the completed "information statement."

(d) Examine any proposal used and the completed "information statement" and ascertain that the "information statement" meets the requirements of R 500.601 to R 500.606.

(e) Maintain copies of any proposal used, the completed "information statement," proof of receipt by the applicant of the "information statement" and the "notice to applicants regarding replacement of life insurance," and the applicant's signed statement with respect to replacement, in its home office for at least 3 years or until the conclusion of the next succeeding regular examination by the insurance regulatory authority of its state of domicile, whichever is later.

(2) A life insurer which receives notice that its existing life insurance may be replaced shall maintain a copy of the notification on its premises, indexed by insurer notifying it of such replacement, for 3 years or until the conclusion of the next regular examination conducted by the insurance regulatory authority of its state of domicile, whichever is later.

History: 1954 ACS 67, p. 70, Eff. June 1, 1971.

R 500.605 Exceptions.

Rule 605. (1) R 500.602, R 500.603, and R 500.604 do not apply to transactions in which the application for the new life insurance is made to the same insurer that issued the existing life insurance, if a contractual policy change or a conversion privilege is being exercised.

(2) R 500.602, R 500.603, and R 500.604 do not apply to transactions in which the new life insurance is to be provided under any of the following plans, if full and complete disclosure of all material facts is made to the administrator of any plan to be replaced:

(a) A group term life insurance policy.

(b) Policies covering employees of an employer, debtors of a creditor or members of an association or other eligible organization, which policies are distributed on a mass merchandising basis and which do not involve direct contact between the covered person and the agent.

(c) Life insurance policies issued in connection with a pension, profit sharing or other benefit plan qualifying for tax-deductibility of premiums.

(3) R 500.602, R 500.603, and R 500.604 do not apply to transactions in which the existing life insurance is a nonconvertible term policy which cannot be renewed and which would expire within 5 years after the initiation of the transaction.

History: 1954 ACS 67, p. 71, Eff. June 1, 1971.

R 500.606 Penalties.

Rule 606. An agent who fails to comply with R 500.601, R 500.602, and R 500.605 is rebuttably presumed to have given cause for revocation or suspension of his license or for imposition of a civil penalty for each such failure within the meaning of section 1448 of the insurance code of 1956.

History: 1954 ACS 67, p. 71, Eff. June 1, 1971.

DISCRETIONARY GROUP LIFE INSURANCE AND GROUP LIFE INSURANCE

R 500.611 Discretionary group life insurance; procedures.

Rule 611. (1) A group life insurance policy shall not be issued under section 4424 of the insurance code of 1956 until the commissioner has issued a certificate of authority to purchase discretionary group life insurance to the applicant group and has given written notice of issuance of the certificate of authority to the insurer which is to provide the group life insurance.

(2) Application for a certificate of authority shall be made to the commissioner on forms prescribed by the commissioner by the person who is to serve as policyholder for the proposed discretionary group. If a trustee is to serve as policyholder, he shall submit with the application written evidence of his authority to act as trustee. If the applicant group is party to or results from a trust agreement or a bargaining agreement, a copy of the agreement shall be submitted with the application. If the applicant group has a constitution or bylaws, or both, a certified copy of each such document shall be submitted with the application.

(3) If the commissioner determines, based upon representations made in the application and in the documents accompanying it, that granting permission to the group to purchase group life insurance would be consonant with the dictates of public policy as expressed in section 4424, he shall issue a preliminary certificate of eligibility, which certificate indicates that the group is qualified to negotiate with insurers for group life insurance coverage.

(4) The policies, certificates and schedule of rates which an insurer proposes to use in providing insurance coverage for a group holding a certificate of eligibility shall be submitted to the commissioner by the insurer. If the commissioner determines, after review of the materials submitted, that the proposed plan of insurance meets the requirements of the insurance code of 1956, he shall issue a certificate of authority to the group and notify the insurer in writing that the certificate has been issued.

(5) A group holding a certificate of authority shall not make any material change in the composition or size of the group nor shall any material change be made in the plan of insurance approved by the commissioner, until the commissioner has approved the changes in writing. If a change is made without the prior written approval of the commissioner, the certificate of authority may be terminated.

(6) The commissioner may require that each discretionary group holding a certificate of authority file a report with the commissioner at the conclusion of each policy year, on a form prescribed by the commissioner.

History: 1954 ACS 67, p. 71, Eff. Mar. 26, 1971.

R 500.612 Grounds of eligibility.

Rule 612. (1) In determining whether to issue a certificate of eligibility, the commissioner shall view section 4424 as a remedial measure designed to permit group life insurance only for those groups which are logically analogous in character and composition to the groups authorized by sections 4404, 4408, 4412, 4416, 4418, and 4420 but which because of special circumstances do not qualify under those sections.

(2) The commissioner shall not issue a certificate of eligibility to a group having no logical reason for existence except to fraction or partition a risk.

(3) The commissioner shall not issue a certificate of authority in the following instances:

(a) If the insurance is not to be offered to all members of the group or, where the premium is to be paid in full by the policyholder, if all eligible members of the group are not to be insured.

(b) If the insurance is to be for the benefit of the policyholder.

(c) If the benefits provided by the policy are not equitably graded.

History: 1954 ACS 67, p. 72, Eff. Mar. 26, 1971.

R 500.615 Group term life insurance; contributions of certificate holders.

Rule 615. Whenever the insurance code of 1956 or a rule issued pursuant thereto requires that premiums on group term life insurance be paid jointly by the certificate holder and some other person, the contract of insurance shall limit the contributions of the certificate holders so that the contributions do not exceed 75% of the total premium for the coverage, and do not exceed the amounts specified in the following schedule:

Rate at Which Policy Is Written	Maximum Contribution to Life Premium From Certificate Holder Per Thousand of Life Insurance	
	Monthly	Weekly
Standard	60¢	14¢
Standard plus $1.00	70¢	16¢
Standard plus $2.00	75¢	17¢
Standard plus $3.00 or more	80¢	18¢

History: 1954 ACS 67, p. 72, Eff. Mar. 26, 1971.

VARIABLE CONTRACTS

R 500.621 Contracts on a variable basis; authorization.

Rule 621. A contract on a variable basis authorized by section 925 of the insurance code of 1956 shall not be delivered or issued for delivery in this state unless the insurer is acting under a certificate of authority which specifically provides for issuance of contracts on a variable basis, and the insurer has filed with the commissioner, within 30 days after adoption, the latest resolution of its board of directors governing the separate account which is to be used in connection with the contract on a variable basis.

History: 1954 ACS 67, p. 72, Eff. Mar. 26, 1971.

R 500.622 Certificates of authority; applications.

Rule 622. Application for a certificate of authority which specifically provides for issuance of contracts on a variable basis shall be made to the commissioner in writing and shall be accompanied by all of the following:

(a) A certified copy of the resolution of the insurer's board of directors establishing the separate account.

(b) A written general description of the kinds of variable contracts the insurer intends to issue.

(c) A written general description of the program the insurer intends to use to market the contracts.

History: 1954 ACS 67, p. 73, Eff. Mar. 26, 1971.

R 500.623 Certificates of authority; issuance.

Rule 623. (1) The commissioner shall not issue a certificate of authority which specifically provides for issuance of contracts on a variable basis to an insurer unless all of the following are true:

(a) The insurer possesses capital and surplus, if a stock insurer, or surplus, if a mutual insurer, of at least $1,500,000.00.

(b) The insurer, if an alien insurer, has established a separate trust account for contracts on a variable basis under a trust indenture approved by the commissioner.

(c) The commissioner is satisfied that the insurer's condition or method of operation in connection with the issuance of contracts on a variable basis will not render its operation hazardous to its policyholders or the public.

(2) In determining whether to issue a certificate of authority which specifically provides for issuance of contracts on a variable basis, the commissioner will consider, among other relevant matters, the history and financial condition of the insurer; the character, responsibility and fitness of the officers, directors and employees of the insurer and any affiliation by common management or ownership of the insurer with an insurer authorized to transact life insurance in this state.

History: 1954 ACS 67, p. 73, Eff. Mar. 26, 1971

R 500.624 Separate accounts.

Rule 624. (1) An insurer issuing contracts on a variable basis shall not use the same separate account for both annuity contracts on a variable basis and contracts of life insurance on a variable basis.

(2) An insurer issuing contracts on a variable basis shall maintain in each separate account assets having a value equal to the reserves and other reasonable liabilities and obligations with respect to the account. If the securities and exchange commission requires that an account have a minimum balance before solicitation is permitted, the insurer may participate in the separate account in order to comply with the requirement but the initial value of the amount so invested shall not exceed by more than 25% the amount required by the securities and exchange commission, and the insurer shall redeem the units so purchased within 6 months after the account acquires other assets sufficient to satisfy the requirements of the securities and exchange commission. Any surplus or deficit which occurs in a separate account because of mortality experience guaranteed by the insurer shall be adjusted at least annually at the end of each calendar year by withdrawals from or additions to the separate account so that the assets of the account equal the liabilities.

(3) A separate account shall not be charged with liabilities arising out of other separate accounts or out of other business of the insurer unless the liabilities have a specific and determinable relation to or dependence upon the separate account.

(4) Assets allocated to a separate account shall be valued at their market value on the date of valuation. Where possible, market values of common stocks shall be established by quotations of securities exchanges located in the United States or Canada or by credible over-the-counter market quotations. Where such quotations are not available, the assets shall be valued in accordance with reasonable rules applicable to the separate account or if there are no reasonable rules to be applicable, in accordance with reasonable valuation procedures prescribed by the commissioner.

History: 1954 ACS 67, p. 73, Eff. Mar. 26, 1971.

R 500.625 Separate account committees.

Rule 625. Any provisions of the insurance code of 1956 or of rules promulgated pursuant thereto which concern conflicts of interest of officers or directors of insurers are equally applicable to members of any separate account's committee,

board or other similar body. An officer, director or trustee of an insurer or any member of the board of managers, board of trustees, or board of directors of a separate account shall not receive, either directly or indirectly, any commission or other forms of emolument which is related to the purchase or disposal of assets of the insurer or of any of its separate accounts.

History: 1954 ACS 67, p. 73, Eff. Mar. 26, 1971.

R 500.626 Insurance law applicable.

Rule 626. Provisions of the insurance code of 1956 which apply to contracts of life insurance or to annuity contracts also apply to similar contracts on a variable basis but computation of reserves and cash values and other nonforfeiture benefits shall be in accordance with actuarial procedures that recognize the variable nature of the contract. Section 4070 of the insurance code of 1956 does not apply to contracts for annuities on a variable basis.

History: 1954 ACS 67, p. 74, Eff. Mar. 26, 1971.

R 500.627 Approvals required.

Rule 627. A contract on a variable basis shall not be delivered or issued for delivery in this state and an application for such a contract or a group certificate in connection with any such contract shall not be delivered or issued for delivery in this state, unless it has been approved by the commissioner pursuant to section 2236 of the insurance code of 1956.

History: 1954 ACS 67, p. 74, Eff. Mar. 26, 1971.

R 500.628 Contracts and certificates; contents.

Rule 628. A contract on a variable basis shall not be delivered or issued for delivery in this state and a group certificate in connection with any such contract shall not be delivered or issued for delivery in this state, unless:

(a) It contains a statement of the essential procedures to be followed by the insurer in determining the dollar amount of variable benefits or other contractual payments or values under the contract.

(b) It contains on its first page, in a prominent position, a clear statement that the benefits or other contractual payments of values are on a variable basis and will decrease or increase to reflect investment experience.

History: 1954 ACS 67, p. 74, Eff. Mar. 26, 1971.

R 500.629 Variable annuity; contract requirements.

Rule 629. (1) A contract for an annuity on a variable basis shall not be delivered in this state unless it stipulates the investment increment factors to be used in computing the dollar amount of variable benefits or other variable contractual payments or values thereunder. An individual contract for an annuity on a variable basis shall not be delivered or issued for delivery in this state, unless:

(a) It contains a provision specifying the options available in the event of default in a periodic stipulated payment which options may include an option to surrender the contract for a cash value as determined by the contract and shall include an option to receive a paid-up annuity if the contract is not surrendered for cash.

(b) It stipulates the expense and mortality components used in determining the factor which is used in calculating the first annuity payment. Expense may exclude some or all taxes as may be provided by the contract.

(c) The annual net investment increment assumption does not exceed 5%, except with the approval of the commissioner.

(d) The mortality factor is determined from an annuity mortality table authorized by section 835 of the insurance code of 1956, as amended, being §500.835 of the Michigan Compiled Laws, or any modification of that table approved by the commissioner, or any other table so approved.

(2) The charges against variable annuity contracts for investment management expenses, other than reasonable investment management expenses relating to real estate or mortgage investments under group annuity contracts, including internal costs attributable to the investment management of assets of the separate account, shall not exceed the following percentages, on an annual basis, of the average net asset value of the separate account:

(a) Seventy-five hundredths of 1% of that portion of separate account assets valued at or under $75,000,000.00;

(b) One-half of 1% of that portion of separate account assets valued in excess of $75,000,000.00 but less than $150,000,000.00;

(c) Four-tenths of 1% of that portion of separate account assets valued in excess of $150,000,000.00 but less than $400,000,000.00;

(d) Thirty-five hundredths of 1% of that portion of separate account assets valued in excess of $400,000,000.00 but less than $800,000,000.00; and

(e) Three-tenths of 1% of that portion of separate account assets valued in excess of $800,000,000.00.

History: 1954 ACS 67, p. 74, Eff. Mar. 26, 1971; 1954 ACS 98, p. 132, Eff. Dec. 23, 1978.

R 500.630 Rescinded.

History: 1954 ACS 67, p. 74, Eff. Mar. 26, 1971; rescinded 1954 ACS 98, p. 132, Eff. Dec. 23, 1978.

R 500.631 Advertising and illustrations.

Rule 631. (1) Except as exempted in writing by the commissioner, an insurer which delivers or issues for delivery contracts on a variable basis shall file with the commissioner at least 30 days prior to use copies of advertising, illustrations and other printed materials to be used in connection with the sale of individual contracts on a variable basis in this state.

(2) Advertising, illustrations, and other disseminations of information concerning contracts on a variable basis are subject to the provisions of sections 2005 and 2007 of the insurance code of 1956. An illustration of benefits under a contract on a variable basis violates those provisions if it includes projections of past investment experience into the future or attempted predictions of future investment experience. However, those provisions do not prohibit the use of hypothetical assumed rates of interest to illustrate possible levels of benefits.

(3) Advertising, illustrations, and other disseminations of information concerning group variable annuity contracts on a variable basis satisfy the provisions of sections 2005 and 2007 of the insurance code of 1956 if they are subject to review by the securities and exchange commission of the United States government or by the national association of securities dealers and the review has not resulted in disapproval.

History: 1954 ACS 67, p. 75, Eff. Mar. 26, 1971; 1954 ACS 98, p. 133, Eff. Dec. 23, 1978.

R 500.632 Statements.

Rule 632. (1) An insurer shall mail to each of its holders of an annuity contract on a variable basis, at least once in each contract year after the first at his last address known to the insurer, a statement reporting the investments held in the separate annuity account (S), in a form acceptable to the commissioner.

(2) An insurer shall mail to each of its holders of an annuity contract on a variable basis under which payments have not yet begun, at least once in each

contract year after the first at his last address known to the insurer, a statement reporting the number of accumulation units credited to the contract and the dollar value of a unit or a statement reporting the value of the contract holder's account, as of a date not more than 4 months prior to the date of mailing.

(3) Annually an insurer issuing contracts on a variable basis shall submit to the commissioner a statement of the business of its separate accounts in the form prescribed by the commissioner.

History: 1954 ACS 67, p. 75, Eff. Mar. 26, 1971; 1954 ACS 98, p. 133, Eff. Dec. 23, 1978.

R 500.633 Licensing of agents.

Rule 633. (1) A person shall not act as an agent in the solicitations or sale of contracts on a variable basis unless he is a licensed agent of a life insurer whose certificate of authority specifically provides for the issuance of contracts on a variable basis and unless his life insurance agent's license has been extended to permit him to solicit and sell variable contracts. A licensed agent of a life insurer may solicit and sell contracts on a variable basis without extension of his life insurance agent's license if the contract is based on an account which is excluded from the definition of investment company by section 3(c)11 of the investment company act of 1940.

(2) A licensed agent of a life insurer whose certificate of authority specifically provides for the issuance of contracts on a variable basis may apply for extension of his license to permit the solicitation and sale of variable contracts by a letter request directed to the commissioner through the home office of the life insurer. Letter requests may be for 1 or more of the life insurer's licensed agents.

(3) The licensing procedures prescribed by R 500.633 to R 500.636 shall not apply to the solicitation or sale of life insurance contracts on a variable basis as defined by R 500.841.

History: 1954 ACS 67, p. 76, Eff. Mar. 26, 1971; 1954 ACS 69, p. 55, Eff. June 22, 1971; 1954 ACS 98, p. 134, Eff. Dec. 23, 1978.

R 500.634 Examinations for agents.

Rule 634. (1) The commissioner shall schedule an examination and notify the agent of the date, time and place of the examination. The examination fee may be submitted with the letter request or may be paid at the time of examination.

(2) The examination has 2 parts. Part 1 deals with securities in general. Part 2 deals with the history, purpose, regulation and sale of variable contracts. An examinee shall achieve a grade of at least 70% in each part in order to pass the examination. Certain sales supervisory and home office employees shall achieve a grade of at least 80% in part 1.

History: 1954 ACS 67, p. 76, Eff. Mar. 26, 1971.

R 500.635 Waiver of examination; alternatives; nonresidents.

Rule 635. (1) The commissioner shall waive part 1 of the examination for any agent who applies for extension of his license if the letter request from the insurer is accompanied by evidence that the agent has passed an acceptable alternative examination, that the agent currently is registered with the securities and exchange commission as a broker-dealer or that the agent currently is associated with a broker-dealer and has met the qualification requirements for such association. The following examinations are acceptable alternative examinations:

(a) Any state securities sales examination accepted by the securities and exchange commission.

(b) The national association of securities dealers' examination for principals, or its examination for qualification as a registered representative.

(c) The various securities examinations required by the New York stock exchange, the American stock exchange, the Pacific stock exchange, or any other registered national securities exchange.

(d) The securities and exchange commission test given pursuant to section 15(b)(8) of the securities and exchange act of 1934.

(e) The examination recommended for the testing of variable contract agents by the national association of insurance commissioners, when adopted by the insurance department of any state or territory of the United States and approved for use by such department by the securities and exchange commission.

(2) The commissioner shall waive the examination for a licensed nonresident agent if the insurance regulatory authority in the state in which the agent resides certifies to the commissioner that the agent is licensed to solicit and sell contracts on a variable basis in that state.

History: 1954 ACS 67, p. 76, Eff. Mar. 26, 1971.

R 500.636 Rewriting and passing examinations; termination of agents' authority.

Rule 636. (1) An agent who fails to pass part 1 of the examination may rewrite it after a waiting period in accordance with securities and exchange commission requirements but the waiting period shall be not less than 20 days. An agent who fails to pass part 2 of the examination may rewrite it after a waiting period of not less than 20 days.

(2) When an agent successfully completes the examination, the commissioner shall notify the sponsoring insurer and instruct the insurer to return the agent's license to be amended. Amending a license consists of adding the designation including variable contracts to the license and making the appropriate notations on the agent's control card in the commissioner's files. There is no additional charge to the sponsoring insurer for amending a license.

(3) If an insurer terminates the authority of an agent to solicit and sell contracts on a variable basis but maintains the agent's authority to act as a life insurance agent for the company, the insurer shall notify the commissioner immediately and return the license to the commissioner for deletion of the including variable contracts designation.

History: 1954 ACS 67, p. 76, Eff. Mar. 26, 1971.

R 500.637 Waivers of compliance with rules.

Rule 637. (1) If the statutes or rules of the place of domicile of an insurer prevent compliance with part of these rules, the insurer may advise the commissioner in writing. If the insurer demonstrates that the statute or rules of the place of domicile provide protection to the policyholders and the public which is substantially equal to that provided by these rules, the commissioner may waive compliance with these rules to the extent necessary to remove the conflict.

(2) If an insurer domiciled in this state or an alien insurer entered in this state is prohibited from transacting a variable contract business in another jurisdiction because a conflict exists between these rules and the rules or laws or both of that jurisdiction, the insurer may advise the commissioner in writing. The commissioner may waive compliance with these rules to the extent necessary to remove the conflict if he determines that the waiver will not substantially reduce the protection to the policyholders and the public provided by these rules.

ACCIDENT AND SICKNESS INSURANCE ADVERTISING

(By authority conferred on the commissioner of insurance by sections 210 and 2007 of Act No. 218 of the Public Acts of 1956, being §§500.210 and 500.2007 of the Michigan Compiled Laws)

R 500.651 Definitions.

Rule 1. (1) "Accident and sickness insurance" means disability insurance as defined in section 606 of the code and credit accident and health insurance as defined in section 3 of Act No. 173 of the Public Acts of 1958, being §550.603 of the Michigan Compiled Laws.

(2) "Advertisement" means all of the following:

(a) Printed and published material, audiovisual material, and descriptive literature of an insurer used in direct mail, newspaper, magazines, radio scripts, television scripts, billboards, and similar displays.

(b) Descriptive literature and sales aids of all kinds issued by an insurer or agent for presentation to members of the insurance buying public, including circulars, leaflets, booklets, depictions, illustrations, and form letters.

(c) Prepared sales talks, presentations, and material for use by agents and solicitors.

(3) "Bureau" means the insurance bureau of the department of commerce.

(4) "Code" means Act No. 218 of the Public Acts of 1956, as amended, being §500.101 et seq. of the Michigan Compiled Laws.

(5) "Exception" means a provision in a policy whereby coverage for a specified hazard is entirely eliminated; it is a statement of a risk not assumed under the policy.

(6) "Institutional advertisement" means an advertisement having as its sole purpose the promotion of the reader's or viewer's interest in the concept of accident and sickness insurance or the promotion of the insurer.

(7) "Insurer" means an entity which is defined as an insurer in the code and is engaged in the advertisement of a policy.

(8) "Invitation to contract" means an advertisement which is neither an invitation to inquire nor an institutional advertisement.

(9) "Invitation to inquire" means an advertisement having as its objective the creation of a desire to inquire further about the product and which is limited to a brief description of the loss for which the benefit is payable, and which may contain either or both the dollar amount of benefit payable or the period of time during which the benefit is payable, but does not refer to cost. An advertisement which specifies either the dollar amount of benefit payable or the period of time during which the benefit is payable shall contain a provision in effect as follows:

> "For costs and further details of the coverage, including exclusions, any reductions or limitations and the terms under which the policy may be continued in force, see your agent or write to the company."

The manner in which a company will respond to an inquiry shall be evident in the advertisement.

(10) "Limitation" means a provision which restricts coverage under the policy other than an exception or a reduction.

(11) "Policy" means a policy, plan, certificate, contract, agreement, statement of coverage, rider, or endorsement which provides accident or sickness benefits or medical, surgical, or hospital expense benefits, whether on an indemnity or reimbursement basis, except when issued in connection with another kind of insurance other than life and except disability, waiver of premium, and double indemnity benefits included in life and annuity contracts.

(12) "Reduction" means a provision which reduces the amount of the benefit; a risk of loss is assumed but payments upon the occurrence of the loss are limited to some amount or period less than would be otherwise payable had the reduction not been used.

History: 1954 ACS 84, p. 76, Eff. Aug. 22, 1975.

R 500.652 Purpose and applicability.

Rule 2. (1) These rules shall be construed to assure truthful and adequate disclosure of all material and relevant information in the advertising of accident and sickness insurance.

(2) Unless otherwise specified, these rules apply to any accident and sickness insurance advertisement intended for presentation, distribution, or dissemination in this state, either directly or indirectly by or on behalf of an insurer, agent, or solicitor as defined in the code and these rules.

(3) Every advertisement covered by these rules shall be presumed to have been caused, directly or indirectly, to be made, published, disseminated, circulated, or placed before the public by the insurer whose policy or policies are the subject of the advertisement, except that advertisements written, created, or designed by an agent shall be the responsibility of the insurer only if the agent has acted within the scope of the agency authority.

History: 1954 ACS 84, p. 77, Eff. Aug. 22, 1975.

R 500.653 Method of disclosure of required information.

Rule 3. Information required to be disclosed by these rules shall be set out conspicuously and in close conjunction with the statements to which the information relates or under appropriate captions of such prominence that it shall not be minimized, rendered obscure, presented in an ambiguous fashion, or intermingled with the context of the advertisement so as to be confusing or misleading.

History: 1954 ACS 84, p. 77, Eff. Aug. 22, 1975.

R 500.654 Form and content of advertisements.

Rule 4. (1) The format and content of an advertisement of an accident or sickness insurance policy shall be sufficiently complete and clear to avoid deception or the capacity or tendency to mislead or deceive. Whether an advertisement has a capacity or tendency to mislead or deceive shall be determined by the commissioner from the overall impression that the advertisement may be reasonably expected to create upon a person of average education or intelligence, within the segment of the public to which it is directed.

(2) An advertisement shall be truthful and not misleading in fact or in implication. Words or phrases, the meaning of which is clear only by implication or by familiarity with insurance terminology, shall not be used.

History: 1954 ACS 84, p. 77, Eff. Aug. 22, 1975.

R 500.655 Deceptive words, phrases, or illustrations prohibited.

Rule 5. (1) An advertisement shall not omit information or use words, phrases, statements, references, or illustrations if the omission of the information or use of the words, phrases, statements, references, or illustrations has the capacity, tendency, or effect of misleading or deceiving purchasers or prospective purchasers as to the nature or extent of a policy benefit payable, loss covered, or premium payable. The fact that the policy offered is made available to a prospective insured for inspection prior to consummation of the sale or an offer is made to refund the premium if the purchaser is not satisfied, does not remedy misleading statements.

(2) An advertisement shall not contain or use words or phrases in a manner which exaggerates benefits beyond the terms of the policy. As an example, the description of a policy as "comprehensive," "complete," or "unlimited" when the policy gives limited coverage would be misleading.

(3) An advertisement shall not contain a description of a policy limitation, exception, or reduction, worded in a positive manner to imply that it is a benefit, such as describing a waiting period as a "benefit builder," or stating "even preexisting conditions are covered after 2 years." Words and phrases used in an advertisement to describe these policy limitations, exceptions, and reductions shall fairly and accurately describe the negative features of the limitations, exceptions, and reduction of the policy offered.

(4) An advertisement of a benefit for which payment is conditional upon confinement in a hospital or similar facility shall not use language which has the tendency or capacity to lead a potential insured to believe that the policy's purpose is to enable him to make a net profit from being hospitalized or confined.

(5) An advertisement of a hospital or other similar facility confinement benefit shall not advertise that the amount of the benefit is payable on a monthly or weekly basis when, in fact, the amount of the benefit payable is based upon a daily pro rata basis relating to the number of days of confinement, unless the daily amount is emphasized and precedes the weekly or monthly benefit amounts. When the policy contains a limit on the number of days of coverage provided, the limit shall appear in the advertisement.

(6) An advertisement of a policy covering only 1 disease or a list of specified diseases shall not imply coverage beyond the terms of the policy. Synonymous terms shall not be used to refer to any single disease so as to imply broader coverage than is the fact.

(7) An advertisement for a policy providing benefits for specified illnesses only, such as cancer or for specified accidents only, such as automobile accidents, shall clearly and in type which is at least 2 points larger than the type in the body of the advertisement, state the limited nature of the policy. The statement shall be worded in language identical to, or substantially similar to, the following: "THIS IS A LIMITED POLICY," "THIS IS A CANCER ONLY POLICY," "THIS IS AN AUTOMOBILE ACCIDENT ONLY POLICY."

(8) An advertisement may not contain a claim stating or implying that acquisition and servicing costs for the plan advertised are lower than equivalent costs for other generally used means of marketing similar insurance, unless that is the fact. An example of a misleading phrase is: "We deal directly with you so our costs are lower," when the acquisition and servicing costs for the advertised plan are actually not lower than equivalent costs for other similar plans.

History: 1954 ACS 84, p. 77, Eff. Aug. 22, 1975.

R 500.656 Exceptions, reductions, and limitations.

Rule 6. (1) When an advertisement which is an invitation to contract refers to a dollar amount, a period of time for which a benefit is payable, the cost of the policy, specific policy benefit, or the loss for which the benefit is payable, it shall also disclose those exceptions, reductions, and limitations affecting the basic provisions of the policy without which the advertisement would have the capacity or tendency to mislead or deceive.

(2) When a policy contains a waiting, elimination, probationary, or similar time period between the effective date of the policy and the effective date of coverage under the policy at a time period between the date a loss occurs and the date

benefits begin to accrue for the loss, an advertisement which is subject to the requirements of subrule (1) shall disclose the existence of the periods.

(3) The use of words or phrases in a context which understates the extent of the policy's exceptions, reductions, or limitations is considered misleading.

History: 1954 ACS 84, p. 78, Eff. Aug. 22, 1975.

R 500.657 Preexisting conditions.

Rule 7. (1) An advertisement which is subject to the requirements of R 500.656 shall disclose, in negative terms, the extent to which a loss is not covered if the cause of the loss is traceable to a condition existing prior to the effective date of the policy. The term "preexisting condition," without an appropriate definition or description, shall not be used.

(2) When a policy does not cover losses resulting from a preexisting condition, it is considered misleading if an advertisement of the policy states or implies that the applicant's physical condition or medical history will not affect the issuance of the policy or payment of a claim thereunder. Within this context the use of the phrase "no medical examination required" and phrases of similar import are considered misleading. This rule does not prohibit explaining "automatic issue." If an insurer requires a medical examination for a specified policy, the advertisement, if it is an invitation to contract, shall disclose that a medical examination is required.

(3) When an advertisement contains an application form to be completed by the applicant and returned by mail for a direct response insurance product, the application form shall contain a question or statement appearing in upper case type or contrasting color which reflects the preexisting condition provisions of the policy immediately preceding the blank space for the applicant's signature. An application form shall contain a question or statement substantially as follows:

> Do you understand that this policy will not pay benefits during the first _____ year(s) after the issue date for a disease or physical condition which you now have or have had in the past? ☐ YES

Or substantially the following statement:

> I understand that the policy applied for will not pay benefits for any loss incurred during the first _____ year(s) after the issue date on account of disease or physical condition which I now have or have had in the past.

History: 1954 ACS 84, p. 78, Eff. Aug. 22, 1975.

R 500.658 Disclosure of renewability, cancellability, and termination.

Rule 8. When an advertisement which is an invitation to contract refers to either a dollar amount or a period of time for which a benefit is payable, or the cost of the policy or specific policy benefit, or the loss for which the benefit is payable, it shall disclose the provisions relating to renewability, cancellability, termination and a modification of benefits, losses covered, or premiums because of age or for other reasons, in a manner which shall not minimize or render obscure the qualifying conditions.

History: 1954 ACS 84, p. 79, Eff. Aug. 22, 1975.

R 500.659 Testimonials or endorsements by third parties.

Rule 9. (1) Testimonials used in advertisements shall be applicable to the policy advertised and be accurately reproduced. The insurer, in using a testimo-

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

nial, makes as its own all of the statements contained therein, and the advertisement, including the statement, is subject to these rules.

(2) If the person making a testimonial, an endorsement, and an appraisal is being compensated or has a financial interest in the insurer or a related entity as a stockholder, director, officer, employee, or otherwise, this fact shall be disclosed in the advertisement by language substantially as follows: "Paid Endorsement." This rule does not require disclosure of union scale wages required by union rules if the payment is actually for the scale for television or radio performances. The payment of substantial amounts, directly or indirectly, for travel and entertainment for filming or recording of television or radio advertisements remove the filing or recording from the category of an unsolicited testimonial and require disclosure of the compensation.

(3) An advertisement shall not state or imply that an insurer or a policy has been approved or indorsed by an individual group of individuals, society, association, or other organizations, unless that is the fact, and unless any proprietary relationship between an organization and the insurer is disclosed. If the entity making the indorsement or testimonial has been formed or is owned or controlled by the insurer of the person or persons who own or control the insurer, the fact shall be disclosed in the advertisement.

(4) When a testimonial refers to benefits received under a policy, the specific claim data, including claim number, date of loss, and other pertinent information shall be retained by the insurer for inspection until the filing of the next regular report on examination of the insurer.

History: 1954 ACS 84, p. 79, Eff. Aug. 22, 1975.

R 500.660 Use of statistics.

Rule 10. (1) An advertisement relating to the dollar amounts of claims paid, the number of persons insured, or similar statistical information relating to an insurer or policy shall not be used unless it accurately reflects all material facts necessary to fairly apprise potential purchasers of the significance of the statistics. An advertisement shall not imply that statistics are derived solely from the policy advertised unless that is the fact, and when applicable to other policies or plans shall specifically so state.

(2) An advertisement shall not represent or imply that a claim settlement by the insurer is "liberal" or "generous" or use words of similar import, or that a claim settlement is or will be beyond the actual terms of the contract. An unusual amount paid for a unique claim for the policy advertised is misleading and shall not be used.

(3) The source of statistics used in an advertisement shall be identified in the advertisement.

History: 1954 ACS 84, p. 79, Eff. Aug. 22, 1975.

R 500.661 Identification of plan or number of policies.

Rule 11. (1) When a choice of the amount of benefits is referred to, an advertisement which is an invitation to contract shall disclose that the amount of benefits provided depends upon the plan selected and that the premium will vary with the amount of the benefits selected.

(2) When an advertisement which is an invitation to contract refers to various benefits which may be contained in 2 or more policies, other than group master policies, the advertisement shall disclose that the benefits are provided only through a combination of the policies.

R 500.662 Disparaging comparisons and statements.

Rule 12. An advertisement shall not directly or indirectly make unfair or incomplete comparisons of policies or benefits or comparisons of noncomparable policies of other insurers, and shall not disparage competitors, their policies, services, or business methods, and shall not disparage or unfairly minimize competing methods of marketing business.

History: 1954 ACS 84, p. 80, Eff. Aug. 22, 1975.

R 500.663 Jurisdictional licensing and status of insurer.

Rule 13. (1) An advertisement which is intended to be seen or heard beyond the limits of the jurisdiction in which the insurer is licensed shall not imply licensing beyond those limits.

(2) An advertisement shall not create the impression directly or indirectly that the insurer, its financial condition or status, or the payment of its claims, or the merits, desirability, or advisability of its policy forms or kinds or plans of insurance are approved, endorsed or accredited by a division or agency of this state or the federal government.

History: 1954 ACS 84, p. 80, Eff. Aug. 22, 1975.

R 500.664 Identity of insurer.

Rule 14. (1) The name of the actual insurer shall be stated in all of its advertisements. The form number of the policy advertised shall be stated in an advertisement which is an invitation to contract. An advertisement shall not use a trade name, an insurance group designation, name of the parent company of the insurer, name of a particular division of the insurer, service mark, slogan, symbol, or other device which without disclosing the name of the actual insurer would have the capacity and tendency to mislead or deceive as to the true identity of the insurer.

(2) An advertisement shall not use a combination of words, symbols, or physical material which by their content, phraseology, shape, color, or other characteristics are so similar to combinations of words, symbols or physical materials used by agencies of the federal government or of this state, or otherwise appear to be of such a nature that it tends to confuse or mislead prospective insureds into believing that the solicitation is in some manner connected with an agency of the municipal, state, or federal government.

History: 1954 ACS 84, p. 80, Eff. Aug. 22, 1975.

R 500.665 Group or quasi-group implications.

Rule 15. An advertisement of a particular policy shall not state or imply that prospective insureds become group or quasi-group members covered under a group policy and as such enjoy special rates or underwriting privileges, unless that is the fact.

History: 1954 ACS 84, p. 80, Eff. Aug. 22, 1975.

R 500.666 Introductory, initial, or special offers.

Rule 16. (1) An advertisement of an individual policy shall not directly or by implication represent that a contract or combination of contracts is an introductory, initial, or special offer, or that applicants will receive substantial advantages not available at a later date, or that the offer is available only to a specified group of individuals, unless that is the fact. An advertisement shall not contain phrases describing an enrollment period as "special," "limited," or similar words or phrases when the insurer uses the enrollment periods as the usual method

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

of advertising accident and sickness insurance. These phrases are permissible if the enrollment periods for a policy are separated by not less than 3 months.

(2) An enrollment period during which a particular insurance product may be purchased on an individual basis shall not be offered within this state unless there has been a lapse of not less than 3 months between the close of the immediately preceding enrollment period for the same product and the opening of the new enrollment period with not more than 2 enrollment periods in 1 calendar year for a particular insurance product. The advertisement shall indicate the date by which the applicant shall mail the application, which shall be not less than 10 days and not more than 40 days from the date that the enrollment period is advertised for the first time. This rule applies to all advertising media by any insurer. It is inapplicable to solicitations of employees or members of a particular group or association which otherwise would be eligible under specific provisions of the code for group, blanket, or franchise insurance. The phrase "any insurer" includes all the affiliated companies of a group of insurance companies under common management or control.

(3) This rule prohibits a statement or implication to the effect that only a specific number of policies will be sold, or that a time is fixed for the discontinuance of the sale of the particular policy advertised because of special advantages available in the policy, unless that is the fact.

(4) The phrase "a particular insurance product" in subrule (2) means an insurance policy which provides substantially different benefits than those contained in any other policy. Different terms of renewability; an increase or decrease in the dollar amounts of benefits; an increase or decrease in an elimination period or waiting period from those available during an enrollment period for another policy shall not be sufficient to constitute the product being offered as a different product eligible for concurrent or overlapping enrollment periods.

(5) Special awards, such as a "safe drivers' award," shall not be used in connection with advertisements of accident or accident and sickness insurance unless all material facts, including methods and probability of selection, relating to the awards are disclosed.

History: 1954 ACS 84, p. 80, Eff. Aug. 22, 1975.

R 500.667 Statements about insurer.

Rule 17. An advertisement shall not contain a statement which is untrue, in fact, or by implication misleading with respect to the assets, corporate structure, financial standing, age, or relative position of the insurer in the insurance business. An advertisement shall not contain a recommendation of a commercial rating organization unless the limitations of the scope and extent of the recommendation are fully explained.

History: 1954 ACS 84, p. 81, Eff. Aug. 22, 1975.

R 500.668 Enforcement.

Rule 18. (1) Each insurer shall maintain at its home or principal office a complete file containing every printed, published, or prepared advertisement of its individual policies and typical printed, published, or prepared advertisements of its blanket, franchise, and group policies hereafter disseminated in this state, with a notation attached to each advertisement which indicates the manner and the extent of distribution, and the form number of any policy advertised. The files shall be made available for periodic inspection by the bureau. All advertisements shall be maintained in the file for a period from the previous regular report on

examination through the next report on examination. Following the completion of a regular report on examination, noncurrent advertising material may be removed from the file.

(2) Each insurer required to file an annual statement which is now or which hereafter becomes subject to these rules shall file with the bureau, with its annual statement, a certificate of compliance executed by an authorized officer of the insurer wherein it is stated that, to the best of his knowledge, information, and belief, the advertisements which were disseminated by the insurer during the preceding statement year complied or were made to comply in all respects with these rules and the insurance laws of this state.

(3) National advertising intended for use in this state which does not meet the standards of these rules, shall contain a disclaimer for the state.

History: 1954 ACS 84, p. 81, Eff. Aug. 22, 1975.

R 500.669 Filing for prior review.

Rule 19. After written notification to the insurer, the commissioner may require the filing with the bureau of accident and health insurance advertising material. The advertising material shall be filed by the insurer not less than 45 days before the date the insurer desires to use the advertising.

History: 1954 ACS 84, p. 81, Eff. Aug. 22, 1975.

HOLDING COMPANIES

(By authority conferred on the commissioner of insurance by sections 210 and 1361 of Act No. 218 of the Public Acts of 1956, as amended, being §§500.210 and 500.1361 of the Michigan Compiled Laws)

R 500.701 Definitions.

Rule 701. As used in these rules:

(a) "Code" means the insurance code of 1956, Act No. 218 of the Public Acts of 1956, as amended, being §500.100 et seq. of the Michigan Compiled Laws.

(b) "Dividend or distribution," as used in section 1343 of the code, includes sums paid by an insurer for the purchase or redemption of its own stock.

(c) "Domicile," as used in section 1324 of the code, means the state of entry of an alien insurer.

(d) "Executive officer" means an individual charged with the active executive management and control of a person, whether incorporated or not.

(e) "Ultimate controlling person" means a controlling person who is not controlled by any other person.

(f) Unless the context otherwise requires, other terms found in these rules are used as defined in section 1301 of the code.

History: 1954 ACS 84, p. 82, Eff. July 18, 1975.

R 500.710 Acquisition of control; form 1311; contents.

Rule 710. A statement filed pursuant to section 1311 of the code shall be prepared according to form 1311 and the instructions attached thereto. The bureau shall supply form 1311 and the instructions upon request. Form 1311 shall contain the items detailed in R 500.711 to R 500.723.

History: 1954 ACS 84, p. 82, Eff. July 18, 1975.

R 500.711 Insurer and method of acquisition.

Rule 711. The statement shall contain the name and address of the domestic insurer to be acquired and a brief description of how control is to be acquired.

History: 1954 ACS 84, p. 82, Eff. July 18, 1975.

R 500.712 Identity and background of applicant.

Rule 712. (1) The statement shall contain the name and address of the applicant seeking to acquire control of the insurer.

(2) If the applicant is not an individual, the statement shall state the nature of its business operations for the past 5 years or for the lesser period which the person and any predecessors thereof shall have been in existence.

(3) The statement shall contain a chart or listing clearly presenting the identities of and interrelationships among the applicant and its affiliates. An affiliate need not be identified if its total assets are equal to less than ½ of 1% of the total assets of the ultimate controlling person affiliated with the applicant. The chart or listing shall indicate the percentage of voting securities of each such person which is owned or controlled by the applicant or by another such person. If control of a person is maintained other than by the ownership or control of voting securities the chart or listing shall indicate the basis of the control. The chart or listing shall indicate the type of organization including but not limited to corporation, trust, partnership, and the state or other jurisdiction of domicile or each person specified. If court proceedings which may result in a reorganization or liquidation are pending with respect to such a person, the chart or listing shall indicate which person, and set forth the title of the court, nature of proceedings and the date when commenced.

History: 1954 ACS 84, p. 82. Eff. July 18, 1975

R 500.713 Identity and background of individuals associated with applicant.

Rule 713. The statement shall state the following with respect to the applicant, if he is an individual, or all persons who are directors, executive officers or owners of 10% or more of the voting securities of the applicant, if the applicant is not an individual:

(a) Name and business address.

(b) Present principal business activity, occupation or employment including position and office held, and the name, principal business and address of any corporation or other organization in which the employment is carried on.

(c) Material occupations, positions, offices or employments during the last 5 years, giving the starting and ending dates of each and the name, principal business and address of any business corporation or other organization in which each occupation, position, office or employment required licensing by or registration with any federal, state or municipal governmental agency, the statement shall indicate such fact, the current status of the licensing or registration and an explanation of any surrender, revocation, suspension or disciplinary proceedings in connection therewith.

(d) Whether or not the person has ever been convicted in a criminal proceeding, excluding minor traffic violations, during the last 10 years and the date, the nature of conviction, the name and location of the court and the penalty imposed or other disposition of the case.

History: 1954 ACS 84, p. 82. Eff. July 18, 1975

R 500.714 Nature, source, and amount of consideration.

Rule 714. (1) The statement shall describe the nature, source, and amount of funds or other consideration used or to be used in effecting the merger or other acquisition of control. If a part is represented or is to be represented by funds or other consideration borrowed or otherwise obtained for the purpose of acquiring, holding, or trading securities, the statement shall furnish a description of the transaction, the names of the parties thereto, the relationship between the

borrower and the lender, the amounts borrowed or to be borrowed and copies of all agreements, promissory notes and security arrangements relating thereto.

(2) The statement shall explain the criteria used in determining the nature and amount of the consideration.

(3) If the source of the consideration is a loan made in the lender's ordinary course of business and if the applicant wishes the identity to remain confidential, he shall specifically request that the identity be kept confidential.

History: 1954 ACS 84, p. 83, Eff. July 18, 1975.

R 500.715 Future plans for insurer.

Rule 715. The statement shall describe any plans or proposals which the applicant may have to declare an extraordinary dividend, to liquidate the insurer, to sell its assets to or merge it with any person or persons or to make any other material change in its business operations or corporate structure or management.

History: 1954 ACS 84, p. 83, Eff. July 18, 1975.

R 500.716 Voting securities to be acquired.

Rule 716. The statement shall state the number of shares of the insurer's voting securities which the applicant, its affiliates and any person listed in R 500.713 plan to acquire, the terms of or proposed terms of the offer, request, invitation, agreement or acquisition, and a statement as to the method by which the fairness of the proposal was arrived at.

History: 1954 ACS 84, p. 83, Eff. July 18, 1975.

R 500.717 Ownership of voting securities.

Rule 717. The statement shall state the amount of each class of a voting security of the insurer which is beneficially owned or concerning which there is a right to acquire beneficial ownership by the applicant, its affiliates, or any person listed in R 500.713.

History: 1954 ACS 84, p. 83, Eff. July 18, 1975.

R 500.718 Agreements with respect to insurer's voting securities.

Rule 718. The statement shall give a full description of any contracts, arrangements or understandings with respect to a voting security of the insurer in which the applicant, its affiliates, or any person listed in R 500.713 is involved, including but not limited to the transfer of any of the securities, joint ventures, loan or option arrangements, puts or calls, guarantees of loans, guarantees against loss or guarantees of profits, division of losses or profits or the giving or withholding of proxies. This description shall identify the persons with whom the contracts, arrangements or understandings have been entered into.

History: 1954 ACS 84, p. 83, Eff. July 18, 1975.

R 500.719 Recent purchases of voting securities.

Rule 719. The statement shall describe the purchase of any voting securities of the insurer by the applicant, its affiliates, or any person listed in R 500.713 during the 12 calendar months preceding the filing of this statement. The description shall include the dates of purchase, the names of the purchasers, the consideration paid or agreed to be paid therefor, and whether any shares so purchased are hypothecated.

History: 1954 ACS 84, p. 83, Eff. July 18, 1975.

R 500.720 Recent recommendations to purchase.

Rule 720. The statement shall describe any recommendations to purchase a voting security of the insurer made by the applicant, its affiliates, or any person listed in R 500.713, or by another based upon interviews or at the suggestion of the applicant, its affiliates, or any person listed in R 500.713 during the 12 calendar months preceding the filing of this statement.

History: 1954 ACS 84, p. 83, Eff. July 18, 1975.

R 500.721 Agreements with broker-dealers.

Rule 721. The statement shall describe the terms of any agreement, contract or understanding made with a broker-dealer as to solicitation of voting securities of the insurer for tender, and the amount of fees, commissions, or other compensation to be paid to broker-dealers with regard thereto.

History: 1954 ACS 84, p. 83, Eff. July 18, 1975.

R 500.722 Financial statements and exhibits.

Rule 722. (1) Financial statements and exhibits shall be attached to the statement as an appendix. The applicant shall list under this item the financial statements and exhibits so attached.

(2) The financial statements shall include the annual financial statements of the persons identified in subrule (4) of R 500.712 for the preceding 5 fiscal years, or for such lesser period as such applicant and its affiliates and any predecessors thereof shall have been in existence, and similar information covering the period from the end of the person's last fiscal year to a date not earlier than 90 days before the filing of the statement. These statements may be prepared on either an individual basis, or, unless the commissioner otherwise requires, on a consolidated basis if consolidated statements are prepared in the usual course of business.

(3) The annual financial statements of the applicant shall be accompanied by an independent public accountant's certificate that the statements present fairly the financial position of the applicant and the results of its operations for the year then ended, in conformity with generally accepted accounting principles or with requirements of insurance or other accounting principles prescribed or permitted under law. If the applicant is an insurer actively engaged in the business of insurance, the financial statements need not be certified if they are based on the annual statement of the person filed with the insurance department of the person's domiciliary state and are in accordance with the requirements of insurance or other accounting principles prescribed or permitted under the law and regulations of the state.

(4) Copies shall be attached to the statement of all tender offers for, requests or invitations for, tenders of, exchange offers for, and agreements to acquire or exchange any voting securities of the insurer and, if distributed, of additional soliciting material relating thereto; proposed employment, consultation, or advisory or management contracts concerning the insurer; and annual reports to the stockholders of the insurer and the applicant for the last 2 fiscal years. Any additional documents or papers required by form 1311 or the instructions thereto shall be filed as exhibits.

History: 1954 ACS 84, p. 84, Eff. July 18, 1975.

R 500.724 Additional information and exhibits.

Rule 724. In addition to the information expressly required in form 1311, the applicant shall add any further material information necessary to prevent the statement from being misleading. The applicant may also file exhibits in addition

to those expressly required by the statement. These exhibits shall be marked to indicate clearly the subject matters to which they refer.

History: 1954 ACS 84, p. 84, Eff. July 18, 1975.

R 500.725 Amendments of information.

Rule 725. The applicant shall promptly advise the commissioner of any changes in the information included in form 1311 arising after the date of filing but before the commissioner's disposition of the application.

History: 1954 ACS 84, p. 84, Eff. July 18, 1975.

R 500.740 Registration of insurers; form 1325; contents.

Rule 740. A statement filed pursuant to section 1325 of the code shall be prepared according to form 1325 and the instructions attached thereto. The bureau shall supply form 1325 and the instructions upon request detailed in R 500.741 to R 500.748.

History: 1954 ACS 84, p. 84, Eff. July 18, 1975.

R 500.741 Identity and control of registrant.

Rule 741. The statement shall furnish the exact name of each insurer registering or being registered, hereinafter called "the registrant," the home office address and principal executive offices of each; the date on which each registrant became part of the insurance holding company system; and the method by which control of each registrant was acquired and is maintained.

History: 1954 ACS 84, p. 84, Eff. July 18, 1975.

R 500.742 Organizational chart.

Rule 742. The statement shall furnish a chart or listing clearly presenting the identities of and interrelationships among all affiliated persons within the insurance holding company system. An affiliate need not be shown if its total assets are equal to less than ½ of 1% of the total assets of the ultimate controlling person within the insurance holding company system. The chart or listing should show the percentage of each class of voting securities of each affiliate which is owned, directly or indirectly, by another affiliate. If control of a person within the system is maintained other than by the ownership or control of voting securities, the basis of such control shall be indicated. The statement shall indicate the type of organization of each person specified, including but not limited to corporation, trust, partnership, and the state or other jurisdiction of domicile.

History: 1954 ACS 84, p. 84, Eff. July 18, 1975.

R 500.743 Ultimate controlling person.

Rule 743. The statement shall furnish the following information on the ultimate controlling person in the insurance holding company system:

(a) Name.

(b) Home office address.

(c) Principal executive office address.

(d) The organizational structure of the person; that is, if a corporation, partnership, individual, trust, or otherwise.

(e) The principal business of the person.

(f) The name and address of each person who holds or owns 10% or more of any class of voting security, the class of such security, the number of shares held of record or known to be beneficially owned, and the percentage of class so held or owned.

(g) If court proceedings which may result in a reorganization or liquidation are pending, the statement shall indicate the title and location of the court, the nature of proceedings, and the date when commenced.

History: 1954 ACS 84, p. 85, Eff. July 18, 1975.

R 500.744 Biographical information.

Rule 744. The statement shall furnish the following information on the directors and executive officers of the ultimate controlling person:

(a) The individual's name and address.

(b) His principal occupation and all offices and positions held during the past 5 years.

(c) Any conviction of crime other than minor traffic violations during the past 10 years.

History: 1954 ACS 84, p. 85, Eff. July 18, 1975.

R 500.745 Transactions, relationships, and agreements.

Rule 745. (1) The statement shall briefly describe the following agreements in force, relationships subsisting, and transactions currently outstanding between the registrant and its affiliates:

(a) Loans, other investments, or purchases, sales or exchanges of securities of the affiliates by the registrant or of the registrant by its affiliates.

(b) Purchases, sales, or exchanges of assets.

(c) Transactions not in the ordinary course of business.

(d) Guarantees or undertakings for the benefit of an affiliate which result in an actual contingent exposure of the registrant's assets to liability, other than insurance contracts entered into in the ordinary course of the registrant's business.

(e) Management and service contracts and cost-sharing arrangements, other than cost allocation arrangements based upon generally accepted accounting principles.

(f) Reinsurance agreements covering all or substantially all of 1 or more lines of insurance of the ceding company.

(2) Information need not be disclosed if it is not material. Sales, purchases, exchanges, loans or extensions or credit or investments involving ½ of 1% or less of the registrant's admitted assets as of December 31 next preceding shall not be deemed material.

(3) The description shall be in a manner to permit its proper evaluation by the commissioner, and shall include at least the following:

(a) The nature and purpose of the transaction.

(b) The nature and amounts of any payments or transfers of assets between the parties.

(c) The identity of all parties to the transaction.

(d) The relationship of the affiliated parties to the registrant.

History: 1954 ACS 84, p. 85, Eff. July 18, 1975.

R 500.746 Litigation or administrative proceedings.

Rule 746. The statement shall contain:

(1) A brief description of any litigation or administrative proceedings of the following types, either then pending or concluded within the preceding fiscal year, to which the ultimate controlling person or any of its directors or executive officers was a party or of which the property of any such person is or was the subject:

(a) Criminal prosecutions or administrative proceedings by a government agency or authority which may be relevant to the trustworthiness of a party thereto.

(b) Proceedings which may have a material effect upon the solvency of capital structure of the ultimate holding company, including but not limited to bankruptcy, receivership or corporate reorganizations.

(2) The names of the parties and the court or agency in which the litigation or proceeding is or was pending.

History: 1954 ACS 84, p. 85, Eff. July 18, 1975.

R 500.747 Financial statements and exhibits.

Rule 747. (1) Financial statements and exhibits should be attached to this statement as an appendix. The registrant shall list under this item the financial statements and exhibits so attached.

(2) The registrant shall include the annual financial statements of the ultimate controlling person in the insurance holding company system as of the end of the person's latest fiscal year.

(3) If the annual financial statements for the latest fiscal year are not available at the time of the initial registration, annual statements for the previous fiscal year may be filed and similar financial information shall be filed for any subsequent period to the extent the information is available. These financial statements may be prepared on either an individual basis, or unless the commissioner otherwise requires, on a consolidated basis if consolidated statements are prepared in the usual course of business.

(4) Unless the commissioner otherwise permits, the annual financial statements shall be accompanied by an independent public accountant's certificate that the statements present fairly the financial position of the ultimate controlling person and the results of its operations for the year then ended, in conformity with generally accepted accounting principles or with requirements of insurance or other accounting principles prescribed or permitted under law. If the ultimate controlling person is an insurer actively engaged in the business of insurance, the annual financial statements need not be certified, if they are based on the annual statement of the insurer filed with the insurance department of the insurer's domiciliary state and are in accordance with requirements of insurance or other accounting principles prescribed or permitted under the law and regulations of the state.

(5) Exhibits shall include copies of the latest annual reports to shareholders of the ultimate controlling person and proxy material used by the ultimate controlling person. Additional documents or papers required by form 1325 or the instructions thereto shall be filed as exhibits.

History: 1954 ACS 84, p. 86, Eff. July 18, 1975.

R 500.748 Additional information and exhibits.

Rule 748. In addition to the information expressly required in form 1325, the registrant shall add further material information necessary to prevent the statement from being misleading. The registrant may also file exhibits in addition to those expressly required by the statement. These exhibits shall be marked to indicate clearly the subject matters to which they refer.

History: 1954 ACS 84, p. 86, Eff. July 18, 1975.

R 500.751 Initial registration.

Rule 751. The initial registration filed by an insurer may be dated as of the end of the most recent calendar year or as of the end of the most recent fiscal year of

the ultimate controlling person of the insurance holding company system, if amendments are simultaneously filed for any intervening changes for which an amendment would have been required under R 500.740.

History: 1954 ACS 84, p. 86, Eff. July 18, 1975.

R 500.752 Amendments.

Rule 752. (1) An amendment to form 1325 shall be filed within 15 days after the end of any month in which 1 of the following occurs:

(a) There is a change in the control of the registrant, in which case the entire form 1325 shall be made current.

(b) There is a material change in the information given in item 5 or item 6.

(2) An amendment to form 1325 shall be filed within 120 days after the end of each fiscal year of the ultimate controlling person of the insurance holding company system. This amendment shall make current all information in form 1325.

History: 1954 ACS 84, p. 86, Eff. July 18, 1975.

R 500.755 Consolidated registration statements; section 1329.

Rule 755. An affiliated insurer may file the consolidated statement and reports provided in section 1329 of the code without the prior approval of the commissioner, except as the commissioner may otherwise require under R 500.762.

History: 1954 ACS 84, p. 87, Eff. July 18, 1975.

R 500.761 Filing on behalf of affiliated insurer.

Rule 761. (1) Except as the commissioner may otherwise require under R 500.762, an authorized insurer may file a registration statement on behalf of an affiliated insurer or insurers which are required to register under section 1324 of the code. A registration statement may include information regarding any insurer in the insurance holding company system even if that insurer is not authorized to do business in this state.

(2) In lieu of filing a registration statement on form 1325, the authorized insurer may file a copy of the registration statement or similar report which it is required to file in its state of domicile, if:

(a) The statement or report contains information substantially similar to that required to be furnished on form 1325.

(b) The filing insurer is the principal insurance company in the insurance holding company system.

(c) Insurers domiciled in this state are not required to register in the registrant's state of domicile or are permitted to satisfy the registration requirements by filing copies of materials required to be filed in this state under the code.

(3) The question whether the statement or report filed in the state of domicile contains substantially the same information required on form 1325 shall be determined by the commissioner. The commissioner may require the filing of form 1325 if he determines that the information is not substantially the same.

(4) The question whether the filing insurer is the principal insurance company in the insurance holding company system is a question of fact and an insurer filing a registration statement or report in lieu of form 1325 on behalf of an affiliated insurer shall set forth a simple statement of facts which will substantiate the filing insurer's claim that it is the principal insurer in the insurance holding company system.

R 500.762 Individual filings.

Rule 762. Notwithstanding R 500.755 and R 500.761, the commissioner may require individual filings if he finds it necessary for the sake of clarity, ease of administration or the public good.

History: 1954 ACS 84, p. 87, Eff. July 18, 1975.

R 500.781 Exemption; filing by unauthorized insurer.

Rule 781. With the prior approval of the commissioner, an unauthorized insurer may follow any of the procedures which could be done by an authorized insurer pursuant to R 500.761.

History: 1954 ACS 84, p. 87, Eff. July 18, 1975.

R 500.782 Exemption; foreign insurers.

Rule 782. A foreign insurer otherwise subject to section 1324 of the code is not required to register until July 1, 1971.

History: 1954 ACS 84, p. 87, Eff. July 18, 1975.

R 500.783 Applications for exemptions.

Rule 783. An insurer not otherwise exempted from section 1324 may apply for an exemption by submitting a statement to the commissioner setting forth its reasons for claiming exemption.

History: 1954 ACS 84, p. 87, Eff. July 18, 1975.

R 500.787 Disclaimers of registration.

Rule 787. A disclaimer of affiliation or a request for termination of registration claiming that a person does not, or will not, upon the taking of some proposed action, control another person, hereinafter referred to as the "subject," shall contain the following information:

(a) The number of authorized, issued, and outstanding voting securities of the subject.

(b) With respect to the person whose control is denied and all affiliates of the person, the number and percentage of shares of the subject's voting securities which are held of record or known to be beneficially owned, and the number of shares concerning which there is a right to acquire, directly or indirectly.

(c) All material relationships and bases for affiliation between the subject and the person whose control is denied and all affiliates of the person.

(d) An explanation why the person should not be deemed to control the subject.

History: 1954 ACS 84, p. 87, Eff. July 18, 1975.

R 500.791 Extraordinary dividends and other distributions.

Rule 791. (1) Notices of extraordinary dividends or extraordinary distributions to shareholders, or requests for the approval of such dividends or distributions, shall include the following:

(a) The date established for payment of the dividend.

(b) A statement as to whether the dividend is to be in cash or other property and, if in property, a description of its cost, and its fair market value together with an explanation of the basis for valuation.

(c) The amounts and dates of all dividends, including regular dividends paid within the period of 12 consecutive months ending on the date fixed for payment of the proposed dividend for which approval is sought and commencing on the day after the same day of the same month in the last preceding year.

(d) A balance sheet and statement of income for the period intervening from the last annual statement filed with the commissioner and the end of the month preceding the month in which the request for dividend approval is submitted.

(e) A brief statement of the effect of the proposed dividend upon the insurer's surplus and the reasonableness of the surplus in relation to the insurer's outstanding liabilities and the adequacy of the surplus relative to the insurer's financial needs.

(2) The payment of an extraordinary dividend by an insurer whose total liabilities, as calculated for annual statement purposes, are less than 10% of its assets both before and after payment thereof is deemed automatically approved. The insurer shall give written notice to the commissioner of the declaration pursuant to section 1327 of the code.

LOSS RATIOS APPLICABLE TO INDIVIDUAL OR FAMILY EXPENSE COVERAGE

(By authority conferred on the commissioner of insurance by sections 210 and 2242 of Act No. 218 of the Public Acts of 1956, as amended, being §§500.210 and 500.2242 of the Michigan Compiled Laws)

R 500.801 Applicability.

Rule 1. These rules apply to individual policies of disability insurance as defined in section 3400 of the act and family expense insurance policies as defined in section 3620 of the act. These rules do not apply to credit accident and health policies as defined in section 3 of Act No. 173 of the Public Acts of 1958, being §550.603 of the Michigan Compiled Laws, or a policy of insurance with an annual premium of $7.50 or less. Where a policy covers a contingency for a period of coverage less than a year, the premium for that period is considered the annual premium.

History: 1954 ACS 80, p. 75, Eff. Aug. 16, 1974.

R 500.802 Definitions.

Rule 2. (1) "Act" means Act No. 218 of the Public Acts of 1956, as amended, being §§500.100 to 500.8302 of the Michigan Compiled Laws.

(2) "Anticipated loss ratio" means the ratio at the time of policy filing, or at a time of subsequent rate revisions, of the present value of all expected future benefits, excluding dividends, to the present value of all future premiums, less dividends, based on a credible premium volume over a reasonable period of time with proper weight given to trends and other relevant factors. Statistical data relating to expected future benefits shall be obtained from policies of insurance sold or to be sold in this state when available.

(3) "Collectively renewable insurance" means all insurance which is made available on an individual basis under mass enrollment procedures to groups of persons under a plan sponsored by an employer, an association or a union or affiliated associations or unions or a group of individuals supplying materials to a central point of collection or handling a common product or commodity, under which the insurer has agreed that renewal will not be refused, subject to any specified age limit, while the insured remains a member of the group specified in the agreement unless the insurer simultaneously refuses renewal to all other policies in the same group, or all policies bearing the same form number.

(4) "Guaranteed renewable insurance" means all individual insurance which grants an insured the right to continue the policy in force by the timely payment of premiums until at least age 50, or in the case of a policy issued after age 44, for at

least 5 years from the date of issue of the policy, during which period the insurer has no right to make unilaterally any change in any provision of the policy while the policy is in force, except that the insurer may make changes in premium rates by classes.

(5) "Individual accident insurance" means all insurance which covers such losses as are due to accident only.

(6) "Noncancellable insurance" or "noncancellable and guaranteed renewable insurance" means all insurance which gives the insured the right to continue the insurance in force by the timely payment of premiums set forth in the policy until at least age 50, or in the case of a policy issued after age 44, for at least 5 years from its date of issue, during which period the insurer has no right to make unilaterally any change in any provision of the policy while it is in force.

(7) "Nonrenewable for stated reasons only insurance" means all individual insurance which limits the insurer's right of nonrenewal to stated reasons other than deterioration of health.

(8) "Optionally renewable insurance" means all individual insurance which allows the insurer unhampered right of nonrenewal.

(9) "Rated by age insurance" means all individual insurance where the issue age is 65 years or more.

History: 1954 ACS 80, p. 76, Eff. Aug. 16, 1974.

R 500.803 Benefits unreasonable in relation to premiums.

Rule 3. (1) The policy or rate filings shall include an actuarial certification that the benefits provided are reasonable in relation to the premium charged and shall show the anticipated loss ratio. The benefits provided are presumed unreasonable in relation to the premiums charged if the anticipated loss ratio does not equal or exceed the following standards:

(a) Sixty-five percent for rated by age insurance.

(b) Sixty percent for collectively renewable insurance or optionally renewable insurance.

(c) Fifty-five percent for guaranteed renewable insurance or nonrenewable for stated reasons only insurance.

(d) Fifty percent for noncancellable insurance, noncancellable and guaranteed renewable insurance or individual accident insurance.

(e) Fifty-five percent for all other insurance.

(2) The presumption of unreasonableness which exists where anticipated loss ratios are lower than those indicated in subrule (1) may be rebutted pursuant to the provisions of R 500.805.

History: 1954 ACS 80, p. 76, Eff. Aug. 16, 1974.

R 500.804 Actuarial certification.

Rule 4. The actuarial certification shall include a description of the gross premiums, the anticipated loss ratios and certification that, to the best of the actuary's knowledge and belief, the benefits provided are reasonable in relation to the premiums charged. The information used to support the certification should include the following and shall be available on request:

(a) The specific formula and assumptions used in calculating gross premiums.

(b) The expected claim costs.

(c) Identification of morbidity and mortality tables or experience studies used, sufficient explanation for evaluation of their validity, including copies of such tables if they are not currently published.

(d) The experience of the insurer on similar coverages or on the same policy if the policy is in effect on the date these rules take effect.

(e) The applicability of the filing to in-force business on substantially similar forms.

(f) Lapse rate experience.

History: 1954 ACS 80, p. 77, Eff. Aug. 16, 1974.

R 500.805 Withdrawal and withholding of approval.

Rule 5. (1) Approval is withdrawn on September 30, 1974, from policies of individual insurance which bear an approval date prior to the effective date of these rules, where the anticipated loss ratio percentage of such insurance policies does not satisfy requirements stated in R 500.804 or where the anticipated loss ratio percentage of such insurance policies satisfy the requirement stated in R 500.804 but the loss ratio experience indicates to the insurance bureau that the minimum anticipated loss ratio required by R 500.804 will not be achieved.

(2) Approval will not be granted for new policies of individual insurance which are submitted to the insurance bureau for approval after the effective date of these rules where the anticipated loss ratio percentage of the policies is not at least equal to the minimum loss ratio percentage stated in R 500.804.

(3) Approval shall be withdrawn from such policies of insurance which are submitted to the insurance bureau for approval after the effective date of these rules where experience data show the insurance does not appear capable of developing the anticipated loss ratio projected in the actuarial certification filed.

(4) Approval shall not be withdrawn or withheld where it has been demonstrated to the satisfaction of the insurance bureau that the benefits of the insurance are reasonable in relation to the premiums charged even though the anticipated loss ratio for the insurance does not equal the minimum loss ratio percentage stated in R 500.804. The insurance bureau's decision to withdraw or withhold approval may be contested pursuant to the administrative procedures act, being Act No. 306 of the Public Acts of 1969, as amended, being §§24.201 to 24.315 of the Michigan Compiled Laws.

History: 1954 ACS 80, p. 77, Eff. Aug. 16, 1974.

R 500.806 Identification of policies.

Rule 6. To record whether or not approval has been withdrawn by these rules each insurer shall identify for the insurance bureau before September 30, 1974, all policies of individual insurance which have been previously approved by the insurance bureau and which meet the standards set forth in R 500.804 and shall furnish the bureau with an actuarial certification and experience data for all such policies. Experience data shall relate to policies of insurance in force in this state when possible.

History: 1954 ACS 80, p. 77, Eff. Aug. 16, 1974.

PERSONAL PROTECTION INSURANCE

(By authority conferred on the commissioner of insurance by section 3107 of Act No. 218 of the Public Acts of 1956, as amended, being §500.3107 of the Michigan Compiled Laws)

R 500.811 Work loss benefit; annual adjustment.

Rule 1. Annually the commissioner shall adjust the maximum work loss benefit prescribed in subdivision (b) of section 3107 of the insurance code by the ratio of

SALVAGE AND SUBROGATION RECOVERIES

(By authority conferred on the commissioner of insurance by section 210 of Act No. 218 of the Public Acts of 1956, as amended, being §500.210 of the Michigan Compiled Laws)

R 500.831 Salvage and subrogation recoveries.

Rule 1. In confirmation of the longstanding policy of the Michigan insurance bureau, no insurer in any annual statement or interim statement filed with the commissioner pursuant to section 438 of Act No. 218 of the Public Acts of 1956, as amended, being §500.438 of the Michigan Compiled Laws and known as the insurance code of 1956, shall take credit for salvage or subrogation recoveries until such recoveries are reduced to cash or its equivalent. Salvage or subrogation recoveries reduced to cash or its equivalent shall be accounted for as an offset to losses paid, in accordance with existing practices.

History: 1954 ACS 98, p. 134, Eff. Jan. 11, 1979.

LIFE INSURANCE CONTRACTS ON VARIABLE BASIS

(By authority conferred on the commissioner of insurance by sections 210, 925, and 4000 of Act No. 218 of the Public Acts of 1956, as amended, being §§500.210, 500.925, and 500.4000 of the Michigan Compiled Laws)

R 500.841 Definitions.

Rule 1. As used in these rules:

(a) "Affiliate" of an insurer means either of the following:

(i) Any person, directly or indirectly, controlling, controlled by, or under common control with, such insurer.

(ii) Any person who regularly furnishes investment advice to an insurer with respect to its variable life insurance separate accounts for which a specific fee or commission is charged.

(iii) Any person who is a director, officer, partner or employee, or a member of the immediate family of any person who is a director, officer, partner or employee of any person described in (i) or (ii).

(b) "Agent" means any person, corporation, partnership, or other legal entity which is licensed by this state as a life insurance agent.

(c) "Assumed investment rate" means the rate of investment return which would be required to be credited to a variable life insurance policy, after deduction of charges for taxes, investment expenses, and mortality and expense guarantees, to maintain the variable death benefit equal, at all times, to the amount of the death benefit, other than incidental insurance benefits, which would be payable under the plan of insurance if the death benefit did not vary according to the investment experience of the separate account.

(d) "Benefit base" means the amount, not less than the amount specified under subdivision (b) of R 500.855, specified by the terms of the variable life insurance

policy to which the difference between the net investment return and the assumed investment rate is applied in determining the variable benefits of the policy.

(e) "Control," including the terms "controlled by" and "under common control with," means the possession, direct or indirect, of the power to direct, or cause the direction of, the management and policies of a person, whether through the ownership of voting securities, by contract other than a commercial contract for goods or nonmanagement services, or otherwise, unless the power is the result of an official position with, or corporate office held by, the person. Control shall be presumed to exist if any person, directly or indirectly, owns, controls, holds with the power to vote, or holds proxies representing more than 10% of the voting securities of any other person. This presumption may be rebutted by a showing made to the satisfaction of the commissioner that control does not exist in fact. The commissioner may determine, after furnishing all persons in interest notice and opportunity to be heard and making specific findings of fact to support such determination, that control exists in fact, notwithstanding the absence of a presumption to that effect.

(f) "General account" means all assets of the insurer other than assets in separate accounts established pursuant to section 925 of the insurance code of 1956, as amended, being §500.925 of the Michigan Compiled Laws, or pursuant to the corresponding section of the insurance law of the state of domicile of a foreign or alien insurer, whether or not for variable life insurance.

(g) "Incidental insurance benefit" means all insurance benefits in a variable life insurance policy, other than the variable death benefit and the minimum death benefit, including, but not limited to, accidental death and dismemberment benefits, disability income benefits, guaranteed insurability options, family income, or fixed benefit term riders.

(h) "Minimum death benefit" means the amount of the guaranteed death benefit, other than incidental insurance benefits, payable under a variable life insurance policy regardless of the investment performance of the separate account.

(i) "Net investment return" means the rate of investment return actually credited to a variable life insurance policy, after deduction of charges for taxes, investment expenses, and mortality and expense guarantees in accordance with the terms of the policy.

(j) "Separate account" means a separate account for variable life insurance established under section 925 of the insurance code of 1956, as amended, being §500.925 of the Michigan Compiled Laws, or pursuant to the corresponding section of the insurance law of the state of domicile of a foreign or alien insurer.

(k) "Variable death benefit" means the amount of the death benefit, other than incidental insurance benefits, payable under a variable life insurance policy dependent on the investment performance of the separate account, which the insurer would have to pay in the absence of the minimum death benefit.

(l) "Variable life insurance policy" means any individual policy which provides for life insurance which varies according to the investment experience of any separate account or accounts established and maintained by the insurer as to such policy, as provided for in section 925 of the insurance code of 1956, as amended, being §500.925 of the Michigan Compiled Laws, or pursuant to the corresponding section of the insurance law of the state of domicile of a foreign or alien insurer.

R 500.843 Qualification of insurer to issue life insurance contracts on variable basis.

Rule 3. The following requirements are applicable to all insurers either seeking authority to issue variable life insurance in this state or which have authority to issue variable life insurance in this state:

(a) An insurer shall not deliver or issue for delivery in this state any variable life insurance policy unless both of the following requirements are satisfied:

(i) The insurer has a certificate of authority to engage in the life insurance business in this state.

(ii) The insurer has obtained the written approval of the commissioner for the issuance of variable life insurance policies in this state.

(b) The commissioner shall grant written approval for the issuance of variable life insurance only after he has found that all of the following requirements are satisfied:

(i) The plan of operation for the issuance of variable life insurance policies is not unsound.

(ii) The general character, reputation, and experience of the management and those persons or firms proposed to supply consulting, investment, administrative, or custodial services to the insurer are such as to reasonably assure competent operation of the variable life insurance business of the insurer in this state.

(iii) The present and foreseeable future financial condition of the insurer and its method of operation in connection with the issuance of such policies are not likely to render its operation hazardous to the public or its policyholders in this state. The commissioner shall consider all of the following:

(A) The history of operation and financial condition of the insurer.

(B) The qualifications, fitness, character, responsibility, reputation, and experience of the officers and directors and other management of the insurer and those persons or firms proposed to supply consulting, investment, administrative, or custodial services to the insurer.

(C) The applicable law and regulations under which the insurer is authorized in its state of domicile to issue variable life insurance policies. The state of entry of an alien insurer shall be deemed its state of domicile for this purpose.

(D) If the insurer is a subsidiary of, or is affiliated by common management or ownership with, another company, its relationship to such other company and the degree to which the requesting insurer, as well as the other company, meet these standards.

(E) Other relevant information.

(c) Before any insurer shall deliver or issue for delivery any variable life insurance policy in this state, it shall submit the following information for the consideration of the commissioner in making the determination required by subdivision (b) of R 500.843:

(i) Copies of, and a general description of, the variable life insurance policies it intends to issue.

(ii) A general description of the methods of operation of the variable life insurance business of the insurer, including the names of those persons or firms proposed to supply consulting, investment, administrative, or custodial services to the insurer.

(iii) With respect to any separate account maintained by an insurer for any variable life insurance policy, a statement of the investment policy the insurer intends to follow for the investment of the assets held in such separate account. The statement shall include a description of the investment objective and orientation intended for the separate account.

(iv) A description of any investment advisory services contemplated as required by R 500.862.

(v) If requested by the commissioner, a copy of the statutes and regulations of the state of domicile of the insurer under which it is authorized to issue variable life insurance policies.

(vi) A certification by the domiciliary regulatory authority that the insurer is in compliance with the laws and regulations applicable to variable life insurance.

(vii) If requested by the commissioner, biographical data, with respect to officers and directors of the insurer, on the national association of insurance commissioners uniform biographical data form.

(viii) A statement describing the procedures for changing the investment policy of any separate account maintained by an insurer for any variable life insurance policy.

(d) After the commissioner finds that the law or regulation in the place of domicile of a foreign company provides protection to the policyholders and the public which is substantially equal to that provided by these rules, the commissioner may determine that compliance with such law or regulation of the domiciliary constitutes compliance with these rules.

History: 1954 ACS 95, p. 95, Eff. Apr. 18, 1978.

R 500.844 Standards of suitability.

Rule 4. (1) Every insurer seeking approval to enter into the variable life insurance business in this state shall adopt by resolution of its board of directors and file with the commissioner a written statement specifying the standards of suitability to be used by the insurer and applicable to its officers, directors, employees, affiliates, and agents with respect to the suitability of variable life insurance for the applicant. Such standards of suitability shall be binding on the insurer, and those to whom it refers, and shall specify that no recommendation shall be made to an applicant to purchase a variable life insurance policy and that no variable life insurance policy shall be issued in the absence of reasonable grounds to believe that the purchase of such policy is suitable for such applicant on the basis of information furnished after reasonable inquiry of such applicant concerning the applicant's insurance and investment objectives, financial situation and needs, and any other information known to the insurer or to the agent making the recommendation.

(2) Lapse rates for variable life insurance within the first 2 policy years which are significantly higher than both those encountered by the insurer or an affiliate thereof for corresponding fixed benefit life insurance policies and lapse rates of other insurers issuing variable life insurance policies shall be considered by the commissioner in determining whether the standards of suitability adopted by the insurer are reasonable and also whether the insurer and its agents are engaging, as a general business practice, in the sale of variable life insurance to persons for whom it is unsuitable. For purposes of this subrule, conversions from variable life insurance to fixed benefit life insurance policies pursuant to this rule shall not be considered lapses.

History: 1954 ACS 95, p. 96, Eff. Apr. 18, 1978.

R 500.845 Sales and advertising material.

Rule 5. (1) An insurer authorized to transact variable life insurance business in this state shall not use any sales material, advertising material, or descriptive literature or other materials of any kind in connection with its variable life insurance business in this state which is false, misleading, deceptive, or inaccurate.

(2) All variable life insurance sales material, advertising material, and descriptive literature shall be filed 45 days prior to use with the commissioner who shall require an insurer not to use, or to cease the use of, any such materials upon finding that any such materials are false, misleading, deceptive, or inaccurate. Revised versions of such materials containing changes of substantial import from versions on file with the commissioner shall be filed with the commissioner.

(3) For purposes of this rule, variable life insurance sales material, advertising material, or descriptive literature shall include, but is not limited to, all of the following:

(a) Printed and published material, audiovisual material, and descriptive literature of an insurer used in direct mail, newspapers, magazines, radio scripts, television and film scripts, billboards, and similar displays for variable life insurance.

(b) Descriptive literature and sales aids of all kinds used to sell variable life insurance by, or on behalf of, an insurer or any person authorized to sell variable life insurance for presentation to members of the insurance-buying public, including, but not limited to, circulars, leaflets, booklets, depictions, illustrations, and form letters.

(c) Prepared sales talks, presentations, and material for use in the sale of variable life insurance by any person authorized to sell variable life insurance.

History: 1954 ACS 95, p. 97, Eff. Apr. 18, 1978.

R 500.846 Service contracts between insurer and supplier; requirements.

Rule 6. Any contract between an insurer and suppliers of consulting, investment, administrative, sales, marketing, custodial, or other services which are material with respect to variable life insurance operations shall be in writing and provide that the supplier of such services shall furnish the commissioner with any information or reports in connection with such services which the commissioner may request in order to ascertain whether the variable life insurance operations of the insurer are being conducted in a manner consistent with these rules and any other applicable law or regulations; shall be fair and equitable to all policyholders of the insurer in this state; shall not relieve the insurer from any responsibilities or obligations imposed upon the operations of its variable life insurance business by this rule or any law or regulation.

History: 1954 ACS 95, p. 97, Eff. Apr. 18, 1978.

R 500.847 Reports to the commissioner.

Rule 7. (1) Any insurer authorized to transact the business of variable life insurance in this state shall submit to the commissioner, in addition to any other materials which may be required by this rule or any other applicable laws or regulations, all of the following:

(a) An annual statement of the business of its variable life insurance separate account or accounts in such form as shall be prescribed by the commissioner.

(b) Prior to the use in this state, a copy of any information furnished to applicants as provided for in R 500.863.

(c) Prior to the use in this state, a copy of any of the forms required by subdivision (a) of R 500.865 and a copy of any of the reports to policyholders as used to satisfy subdivision (b) of R 500.865.

(d) Such additional information concerning its variable life insurance operations or its variable life insurance separate accounts as the commissioner shall deem necessary.

(2) Any material submitted to the commissioner under this rule shall be disapproved if it is found to be false, misleading, incomplete, deceptive, or

inaccurate in any material respect and, if previously distributed, the commissioner shall require the distribution of an amended report, which shall previously have been approved after submission pursuant to this subrule.

(3) Any material required to be filed with the commissioner, or approved by him, shall be subject to disapproval if at any time it is found by him not to comply with the standards established by this rule.

History: 1954 ACS 95, p. 97, Eff. Apr. 18, 1975.

R 500.848 Variable life insurance policies and related documents; forms; filing and approval; exception.

Rule 8. (1) All forms of variable life insurance policies, riders, endorsements, applications, and other related documents which are to be attached to, and made a part of, the policy shall be filed with the commissioner and approved by him in writing prior to delivery or issuance for delivery in this state. The procedures and requirements for filing and approval shall be, to the extent appropriate and not inconsistent with this rule, the same as those otherwise applicable to other life insurance policies.

(2) The commissioner may approve variable life insurance policies and related forms with provisions the commissioner deems to be not less favorable to the policyholder and the beneficiary than those required by this rule.

(3) The requirements of subdivision (a) of R 500.849 do not apply to variable life insurance policies and related forms issued in connection with corporate pension and profit-sharing plans and retirement income plans which are exempt pursuant to section 3(c)(11) of the investment company act of 1940, 15 U.S.C. §80a-3(c)(11), and, where applicable, other provisions of the federal securities laws because of their tax qualified status.

History: 1954 ACS 95, p. 98, Eff. Apr. 18, 1975.

R 500.849 Variable life insurance policy; benefit and design requirements.

Rule 9. Variable life insurance policies delivered or issued for delivery in this state shall comply with the following minimum requirements:

(a) The mortality and expense risk shall be borne by the insurer.

(b) Gross premiums for death benefits shall be a level amount for the duration of the premium payment period, but this subdivision shall not be construed to prohibit temporary or permanent additional premiums for incidental insurance benefits or substandard risks. This subdivision shall not be deemed to prohibit the use of fixed benefit preliminary term insurance for a period not to exceed 120 days from the date of the application for a variable life insurance policy. The premium rate for such preliminary term insurance shall be stated separately in the application or receipt.

(c) A minimum death benefit is provided in an amount at least equal to the initial face amount of the policy so long as premiums are paid when due, subject to the provisions of subdivision (b) of R 500.851.

(d) The policy shall provide that the variable death benefit shall reflect the investment experience of the variable life insurance separate account established and maintained by the insurer and that the excess, positive or negative, of the net investment return over the assumed investment rate, as applied to the benefit base of each variable life insurance policy, shall be used to provide 1 of the following:

(i) Fully paid-up variable life insurance providing coverage for the same period as the basic insurance under the policy or fully paid-up fixed benefit term insurance amounts, positive or negative, as the case may be, or a combination thereof.

(ii) Variable life insurance amounts, positive or negative, as the case may be, so that the reserve maintains the same percentage relationship to the variable death benefit as it would have on a corresponding fixed benefit policy.

(iii) Subject to the prior written approval of the commissioner, any other form of insurance benefit provided that the result is not materially less beneficial to the policyholders as (i) and (ii).

(e) Each variable life insurance policy shall be credited with the full amount of the net investment return applied to the benefit base. In determining the net investment return to be applied to the benefit base the insurer may deduct only the charges described in subdivisions (a)(i), (ii), (iv), and (v) of R 500.860.

(f) Changes in variable death benefits of each variable life insurance policy shall be determined at least annually.

(g) The cash value of each variable life insurance policy shall be determined at least monthly. The method of computation of cash values and other nonforfeiture benefits, as described either in the policy or in a statement filed with the commissioner, shall be in accordance with actuarial procedures that recognize the variable nature of the policy. The method of computation shall be such that, if the net investment return credited to the policy at all times from the date of issue should be equal to the assumed investment rate with premiums and benefits determined accordingly under the terms of the policy, then the resulting cash values and other nonforfeiture benefits shall be at least equal to the minimum values required by section 4060 of the insurance code of 1956, as amended, being §500.4060 of the Michigan Compiled Laws, for a fixed benefit policy with such premiums and benefits. The assumed investment rate shall not exceed the maximum interest rate permitted under the standard nonforfeiture law of this state. The method of computation may disregard incidental minimum guarantees as to the dollar amounts payable. Incidental minimum guarantees include, for example, but are not to be limited to, a guarantee that the amount payable at death or maturity shall be at least equal to the amount that otherwise would have been payable if the net investment return credited to the policy at all times from the date of issue had been equal to the assumed investment rate.

(i) If the gross premiums for any variable life insurance policy delivered or issued for delivery in this state produce an excess of A over B, as defined in (ii) below, the present value as of the date of issue of the adjusted premiums used in determining the minimum cash values required by subdivision (g) of R 500.849 shall be decreased by such excess by decreasing each adjusted premium by a uniform percentage.

(ii) The excess of A over B referred to in subparagraph (i) above shall be determined as of the date of issue on the basis of the mortality table and maximum rate of interest permitted by section 4060 of the insurance code of 1956, as amended, being §500.4060 of the Michigan Compiled Laws; and A is the present value of the gross premiums for the policy, decreased by $1.00 per $1,000.00 of equivalent uniform amount for policies with an equivalent uniform amount of less than $10,000.00 payable on an annual basis, exclusive of those portions of the gross premiums allocable to any incidental insurance benefits, by a person who meets standard underwriting requirements; and B is the product of (1) times (2), where (1) is the present value of the maximum premium rates per $1,000.00 of insurance payable at the beginning of each policy year to attained age 65 of the insured for issue ages below age 51, for 15 years for issue ages 51 to 70 and for life for issue ages above age 70 as shown in the table entitled "Table of Maximum Premium Rates" in subdivision (i) below; and (2) is the ratio of (A) the present value of the benefits under the policy to (B) the present value of a $1,000.00 life benefit.

(iii) For purposes of this subdivision (g), any portion of the premium set aside to support a guarantee that any surrender value shall not be less than a specified amount, or for any other benefit that the commissioner shall deem to be excludable, shall not be included.

(h) The computation of values required for each variable life insurance policy may be based upon such reasonable and necessary approximations as are

R 500.850 Variable life insurance policy; mandatory provisions.

Rule 10. Every variable life insurance policy filed for approval in this state shall contain at least the following:

(a) The cover page or pages corresponding to the cover page of each policy shall contain all of the following:

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j

(i) A prominent statement either in contrasting color or in boldface type not less than 4 points larger than the type size of the largest type used in the text of any provision on that page, that (A), the death benefit, may be variable or fixed under specified conditions; and that (B), cash values, may increase or decrease in accordance with the experience of the separate account, subject to any specified minimum guarantees.

(ii) A statement that the minimum death benefit shall be at least equal to the initial face amount at the date of issue if premiums are duly paid and if there are no outstanding policy loans, partial withdrawals, or partial surrenders.

(iii) The rule, or a reference to the policy provision, which describes the method for determining the variable amount of insurance payable at death.

(iv) A captioned provision which provides that the policyholder may return the variable life insurance policy to the insurer or agent within 45 days of the date of the execution of the application or within 10 days of receipt of the policy by the policyholder, whichever is later, and receive a refund of all premium payments for such policy.

(v) Such other items as are currently required for fixed benefit life insurance policies and which are not inconsistent with this rule.

(b) A provision for a grace period of not less than 31 days from the premium due date which shall provide that when the premium is paid within the grace period, policy values shall be the same, except for the deduction of any overdue premium, as if the premium were paid on or before the due date.

(c) A provision that the policy shall be reinstated at any time within 2 years from the date of default, unless the cash surrender value has been paid or the period of extended insurance has expired, upon the written application of the insured with evidence of insurability, including good health, satisfactory to the insurer, upon the payment of any outstanding indebtedness arising subsequent to the end of the grace period following the date of default together with accrued interest thereon to the date of reinstatement and payment of an amount not exceeding the greater of:

(i) All overdue premiums and any other indebtedness in effect at the end of the grace period following the date of default with interest at a rate not exceeding the rate charged on comparable fixed benefit policies; or

(ii) One hundred and ten percent of the increase in cash surrender value resulting from reinstatement.

(d) A full description of the benefit base and of the method of calculation and application of any factors used to adjust variable benefits under the policy.

(e) A provision designating the separate account to be used and stating the following:

(i) Such separate account shall be used to fund only variable life insurance benefits, except to the extent permitted by subdivision (c)(vi) of R 500.852.

(ii) The assets of such separate account shall be available to cover the liabilities of the general account of the insurer only to the extent that the assets of the separate account exceed the liabilities of the separate account arising under the variable life insurance policies supported by the separate account.

(iii) The assets of such separate account shall be valued as often as any policy benefits vary, but at least monthly.

(f) A provision that at any time during the first 18 months of the variable life insurance policy, so long as premiums are duly paid, the owner may exchange the policy for a policy of permanent fixed benefit life insurance on the life of the insured for the same initial amount of insurance as the variable life insurance policy, provided that the new policy:

(i) Shall bear the same date of issue and age as the original variable life insurance policy.

(ii) Is issued on a substantially comparable plan of permanent insurance offered in the state by the insurer or an affiliate on the date of issue and at the premium rates in effect on that date for the same class of insureds.

(iii) Includes such riders and incidental insurance benefits as were included in the original policy if such riders and incidental insurance benefits are issued with the fixed benefit policy.

(iv) Shall be issued subject to an equitable premium or cash value adjustment that takes appropriate account of the premiums and cash values under the original and new policies. A detailed statement of the method of computing such adjustment shall be filed with, and subject to the approval of, the commissioner.

(v) The insurer shall not require evidence of insurability for this exchange.

(g) A provision that the policy and any papers attached thereto by the insurer, including the application, if attached, constitute the entire insurance contract.

(h) A designation of the officers of the insurer who are empowered to make an agreement or representation on behalf of the insurer and an indication that statements by the insured, or on his behalf, shall be considered as representations and not as warranties.

(i) An identification of the owner of the insurance contract.

(j) A provision setting forth conditions or requirements as to the designation, or change of designation, of a beneficiary, and a provision for disbursement of benefits in the absence of a beneficiary designation.

(k) A statement of any conditions or requirements concerning the assignment of the policy.

(l) A description of any adjustments in policy values to be made in the event of misstatement of age or sex of the insured.

(m) A provision that the policy shall be incontestable by the insurer after it has been in force for 2 years during the lifetime of the insured.

(n) A provision stating that in the event of a material change of investment policy of the separate account, any policyholder who objects to such change shall have the option to convert, without providing evidence of insurability, to a fixed benefit life insurance policy, and that the insurer shall give proper notification of the options available to such objecting policyholder. The conversion options shall be equivalent to those provided by subdivision (f)(ii) of R 500.859.

(o) A provision that payment of variable death benefits in excess of the minimum death benefits, cash values, policy loans, or partial withdrawals, except when used to pay premiums, or partial surrenders may be deferred:

(i) For up to 6 months from the date of request if such payments are based on policy values which do not depend on the performance of the separate account; or otherwise.

(ii) For any period during which the New York stock exchange is closed for trading, except for normal holiday closing, or when the securities and exchange commission has determined that a state of emergency exists which may make such payment impractical.

(p) A description of the basis for computing the cash surrender value under the policy. Such surrender value may be expressed as either:

(i) A schedule of cash value amounts per $1,000.00 of variable face amount at each attained age or policy year for not less than 20 years from issue, or for the premium paying period, if less than 20 years; or

(ii) One cash value schedule, as described in subdivision (p)(i), for the death benefit, or for each $1,000.00 of death benefit, which would be in effect if the net

investment return is always equal to the assumed investment rate, and a second schedule applicable to any adjustments to the death benefit, disregarding the minimum death benefit guarantee and term insurance amounts, if the net investment return does not equal the assumed investment rate at each age for not less than 20 years from issue, or for the premium paying period if it is less than 20 years.

(q) Premiums for incidental insurance benefits shall be stated separately.

(r) Any other required provisions, including other items currently required for fixed benefit life insurance policies which are not inconsistent with this rule.

History: 1954 ACS 95, p. 100, Eff. Apr. 18, 1978.

R 500.851 Variable life insurance policy; nonforfeiture, partial withdrawal, policy loan, and partial surrender provisions.

Rule 11. Every variable life insurance policy delivered or issued for delivery in this state shall contain provisions which are not less favorable to the policyholder than the following:

(a) A provision for nonforfeiture insurance benefits, so that at least 1 such benefit is offered on a fixed basis from the due date of the premium in default. Variable extended term insurance may not be offered. A given nonforfeiture option need not be offered on both a fixed and a variable basis. The insurer may establish a reasonable minimum cash surrender value below which any nonforfeiture insurance options will not be available.

(b) A provision for policy loans, after 3 full years' premiums have been paid, which may, at the option of the insurer, be entitled and referred to as a partial withdrawal provision, not less favorable to the policyholder than the following:

(i) The policyholder may borrow up to 75% of the cash value if borrowed from the separate account, but if the loan is made from the general account not more than 90% of the policy's cash value may be borrowed.

(ii) The amount borrowed, or any repayment thereof, shall not affect the amount of the premium payable under the policy.

(iii) The amount borrowed shall bear interest at a rate not to exceed the rate charged on comparable fixed benefit policies.

(iv) Any indebtedness shall be deducted from the proceeds payable on death.

(v) Any indebtedness shall be deducted from the cash value upon surrender or in determining any nonforfeiture benefit.

(vi) Whenever the indebtedness exceeds the cash value, the insurer shall give notice of intent to cancel the policy if the excess indebtedness is not repaid within 31 days after the date of mailing of such notice by registered mail, return receipt requested, to the last known address of the policyholder.

(vii) The policy may provide that if, at any time, so long as premiums are duly paid, the variable death benefit is less than it would have been if no loan or withdrawal had ever been made, the policyholder may increase such variable death benefit up to what it would have been if there had been no loan or withdrawal by paying an amount not exceeding 110% of the corresponding increase in cash value and by furnishing such evidence of insurability as the insurer may request.

(viii) The policy may specify a reasonable minimum amount which may be borrowed at any time but such minimum shall not apply to any automatic premium loan provision.

(ix) No policy loan provision is required if the policy is under the extended insurance nonforfeiture option.

(x) In addition to the foregoing, the policy may contain a partial surrender provision; however, any such provision shall provide that the policyholder may

request part of the cash value and both the variable and minimum death benefits shall be reduced in proportion to the percentage of the cash value received by the policyholder and the premium for the remaining amount of insurance shall also be reduced to the appropriate rates for the reduced amount of insurance. The policy may provide that a partial surrender provision shall not require the insurer to reduce the amount of the minimum death benefit to less than the lowest amount of minimum death benefit which would have been issued to the insured under the insurance plans of the insurer at the time the policy was issued. The policy shall clearly provide that the policyholder has the option of electing to exercise the cash value privileges of the policy loan or partial withdrawal provision rather than the partial surrender provision.

(xi) All policy loan, partial withdrawal, or partial surrender provisions shall be constructed so that variable life insurance policyholders who have not exercised such provision are not disadvantaged by the exercise thereof.

(xii) Monies paid to the policyholders upon the exercise of any policy loan, partial withdrawal, or partial surrender provision shall be withdrawn from the separate account and shall be returned to the separate account upon repayment, except that a stock insurer may provide the monies for policy loans from the general account.

History: 1954 ACS 95, p. 102, Eff. Apr. 18, 1978.

R 500.852 Variable life insurance policy; suicide exclusion; incidental insurance benefits on fixed basis; dividends; election of automatic premium loan.

Rule 12. The following provisions may in substance be included in a variable life insurance policy or related form delivered or issued for delivery in this state:

(a) An exclusion for suicide committed within 2 years of the policy issue date.

(b) Incidental insurance benefits may be offered on a fixed basis only.

(c) Policies issued on a participating basis shall offer to pay dividend amounts in cash. In addition, such policies may offer the following dividend options:

(i) The amount of the dividend may be credited against premium payments.

(ii) The amount of the dividend may be applied to provide paid-up amounts of additional fixed benefit whole life insurance.

(iii) The amount of the dividend may be applied to provide paid-up amounts of additional variable life insurance.

(iv) The amount of the dividend may be deposited in the general account at a specified minimum rate of interest.

(v) The amount of the dividend may be applied to provide paid-up amounts of fixed benefit 1-year term insurance.

(vi) The amount of the dividend may be deposited as a variable deposit in the separate account if the separate account is exempt pursuant to section 3(c)(11) of the investment company act of 1940, 15 U.S.C. §80a-3(c)(11).

(d) A provision allowing the policyholder to elect, in writing, in the application for the policy, or thereafter, an automatic premium loan on a basis not less favorable than that required of policy loans or partial withdrawals under R 500.851, except that a restriction that no more than 2 consecutive premiums shall be paid under this provision may be imposed.

History: 1954 ACS 95, p. 103, Eff. April 18, 1978.

R 500.853 Reserve liabilities.

Rule 13. The following are applicable to reserve liabilities for variable life insurance:

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(a) Reserve liabilities for variable life insurance policies shall be established pursuant to section 834 of the insurance code of 1956, as amended, being §500.834 of the Michigan Compiled Laws, in accordance with actuarial procedures that recognize the variable nature of the benefits provided and any mortality guarantees.

(b) Reserve liabilities for the guaranteed minimum death benefit shall be the reserve needed to provide for the contingency of death occurring when the guaranteed minimum death benefit exceeds the death benefit that would be paid in the absence of the guarantee, and shall be maintained in the general account of the insurer and shall be not less than the greater of the following minimum reserves:

(i) The aggregate total of the term costs, if any, covering a period of 1 full year from the valuation date, of the guarantee on each variable life insurance contract, assuming an immediate ⅓ depreciation in the current value of the assets of the separate account followed by a net investment return equal to the assumed investment rate; or

(ii) The aggregate total of the attained age level reserves on each variable life insurance contract. The attained age level reserve on each variable life insurance contract shall not be less than zero and shall equal the residue, as described in subparagraph (A), of the prior year's attained age level reserve on the contract, with any such residue increased or decreased by a payment computed on an attained age basis as described in subparagraph (B) below.

(A) The residue of the prior year's attained age level reserve on each variable life insurance contract shall not be less than zero and shall be determined by adding interest at the valuation interest rate to such prior year's reserve, deducting the tabular claims based on the excess, if any, of the guaranteed minimum death benefit over the death benefit that would be payable in the absence of such guarantee, and dividing the net result by the tabular probability of survival. The excess referred to in the preceding sentence shall be based on the actual level of death benefits that would have been in effect during the preceding year in the absence of the guarantee, taking appropriate account of the reserve assumptions regarding the distribution of death claim payments over the year.

(B) The payment referred to in subdivision (b)(ii) of R 500.853 shall be computed so that the present value of a level payment of that amount each year over the future premium paying period of the contract is equal to A minus B minus C, where A is the present value of the future guaranteed minimum death benefits, B is the present value of the future death benefits that would be payable in the absence of such guarantee, and C is any residue, as described in subdivision (A), of the prior year's attained age level reserve on such variable life insurance contract. The amounts of future death benefits referred to in B shall be computed assuming a net investment return of the separate account, which may differ from the assumed investment rate or the valuation interest rate, or both, but in no event may exceed the maximum interest rate permitted for the valuation of life insurance contracts; provided, however, that if the contract is paid-up, the payment shall equal A minus B minus C.

(C) The valuation interest rate and mortality table used in computing the 2 minimum reserves described in subdivisions (b)(i) and (b)(ii) shall conform to permissible standards for the valuation of life insurance contracts. In determining such minimum reserve, the company may employ approximations and estimates acceptable to the commissioner, including, but not limited to, groupings and averages.

(D) Reserve liabilities for all fixed incidental insurance benefits shall be maintained in the general account in amounts determined in accordance with the actuarial procedures appropriate to such benefit.

History: 1954 ACS 95, p. 103, Eff. Apr. 18, 1978.

R 500.854 Separate accounts generally.

Rule 14. The following apply to separate accounts for variable life insurance:

(a) An insurer issuing variable life insurance in this state shall establish 1 or more separate accounts pursuant to section 925 of the insurance code of 1956, as amended, being §500.925 of the Michigan Compiled Laws.

(b) An insurer shall not, without the prior written approval of the commissioner, employ, in any material connection with the handling of separate account assets, any person, who:

(i) Within the last 10 years, has been convicted of any felony or a misdemeanor arising out of such person's conduct involving embezzlement, fraudulent conversion, or misappropriation of funds or securities or involving violation of 18 U.S.C. §§1341, 1342, or 1343; or

(ii) Within the last 10 years, has been found by any state regulatory authority to have violated, or has acknowledged violation of, any provision of any state insurance law involving fraud, deceit, or knowing misrepresentation; or

(iii) Within the last 10 years, has been found by federal or state regulatory authorities to have violated, or has acknowledged violation of, any provision of federal or state securities laws involving fraud, deceit, or knowing misrepresentation.

(c) If the commissioner determines not to grant prior written approval to any person described in subdivisions (b)(i), (ii), and (iii), that decision may be considered a decision not to license an individual, and a person so affected may exercise his right for an appropriate hearing pursuant to Act No. 306 of the Public Acts of 1969, as amended, being §24.201 et seq. of the Michigan Compiled Laws.

(d) All persons with access to the cash, securities, or other assets of the separate account shall be under bond in an amount of not less than $250,000.00 or ½ of 1% of assets, whichever is greater, but in any event not more than 100% of assets.

(e) If an insurer establishes more than 1 separate account for variable life insurance, justification for the establishment of each additional separate account shall also be filed with the commissioner and shall be subject to his approval. The creation of additional separate accounts to avoid lower maximum charges against the separate account is prohibited.

(f) The assets of separate accounts established for variable life insurance policies shall be valued as often as variable benefits are determined, but in any event at least monthly.

(g) A separate account exempt pursuant to section 3(c)(11) of the investment company act of 1940 because of the tax qualified status of the policies funded thereby shall not be used to fund other variable life insurance policies.

(h) Except for separate accounts exempt pursuant to section 3(c)(11) of the investment company act of 1940, variable life insurance separate accounts shall not be used for variable annuities or for the investment of funds corresponding to dividend accumulations or other policyholder liabilities not involving life contingencies.

History: 1954 ACS 95, p. 104, Eff. Apr. 18, 1978.

R 500.855 Separate accounts; assets.

Rule 15. The following apply to assets of separate accounts for variable life insurance:

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(a) The insurer shall maintain in each variable life insurance separate account assets with a fair market value at least equal to the greater of the valuation reserves for the variable portion of the variable life insurance policies or the benefit base for such policies.

(b) The benefit base of any variable life insurance policy, as of the beginning of any valuation period, shall not be less than the sum of the following factors after deducting amounts of any indebtedness pursuant to subdivision (b) of R 500.851:

(i) The valuation net premium for such period for the variable portion of the policy minus the discounted cost of term insurance for such period, based on the tabular mortality and interest rates used in determining valuation reserves.

(ii) The valuation terminal reserve, for the variable portion of the policy, at the end of the immediately preceding valuation period adjusted for the net investment return of such preceding period.

(c) In lieu of the minimum benefit base requirement specified in (b) above, an insurer may otherwise qualify under R 500.855 if it can be demonstrated, to the satisfaction of the commissioner, that the policy benefits obtained over a 20-year period from the date of issue by the use of the insurer's benefit base are at least substantially equivalent in value to the benefits obtained by the use of the minimum benefit base specified above. The commissioner may specify the range of net investment return to be used in this demonstration.

(d) Notwithstanding the actual reserve basis used for policies that do not meet standard underwriting requirements, the benefit base for such policies may be the same as for corresponding policies which do meet standard underwriting requirements.

History: 1954 ACS 95, p. 105, Eff. Apr. 18, 1978.

R 500.856 Separate accounts; investments.

Rule 16. The following apply to investments of separate accounts of variable life insurance:

(a) No sale, exchange, or other transfer of assets shall be made by an insurer, or any of its affiliates, between any of its separate accounts, or between any other investment account and 1 or more of its separate accounts, unless:

(i) In case of a transfer into a separate account, such transfer is made solely to establish the account or to support the operation of the policies with respect to the separate account to which the transfer is made.

(ii) Such transfer, whether into or from a separate account, is made by a transfer of cash; but other assets may be transferred if approved by the commissioner in advance.

(b) Assets allocated to a variable life insurance separate account shall be held in cash or investments having a reasonably ascertainable market price. For purposes of this subdivision, only the following shall be considered investments having a reasonably ascertainable market price:

(i) Liens in favor of the insurer against separate account policy reserves resulting from use by policyholders of cash values.

(ii) Securities listed and traded on the New York stock exchange, the American stock exchange, or regional stock exchanges or successors to such exchanges having the same or similar qualifications.

(iii) Securities listed on the NASDAQ system.

(iv) Shares of an investment company registered pursuant to the investment company act of 1940. Where such an investment company issues book shares in lieu of share certificates, such book shares shall be deemed to be adequate evidence of ownership.

(v) Obligations of, or guaranteed by, the United States government, the Canadian government, any state, or municipality or governmental subdivision of a state.

(vi) Commercial paper issued by business corporations when the total of such paper issued by the corporation does not exceed in value a guaranteed short line of credit by a bank.

(vii) Certificates of deposit issued by financial institutions the deposits of which are insured by the FDIC or FSLIC.

(viii) New bond or debt issues which may reasonably be expected to be listed on an exchange regulated by the securities exchange act of 1934, 15 U.S.C. §78a et seq.

(c) Notwithstanding any other provision of law or the provisions of subdivision (b) above, assets allocated to a variable life insurance separate account shall not be invested in any of the following:

(i) Commodities or commodity contracts.

(ii) Put and call options or combinations of such options.

(iii) Short sales.

(iv) Purchases on margin.

(v) Letter or restricted stock.

(vi) Units or other evidences of ownership or a separate account of another insurer, except those registered under the investment company act of 1940.

(vii) Real estate other than shares of a real estate investment trust listed as described in subdivision (b)(ii) above.

History: 1954 ACS 95, p. 105, Eff. Apr. 18, 1978

R 500.857 Separate accounts; limitations on ownership of securities.

Rule 17. The following apply to limitations on ownership by a separate account for variable life insurance:

(a) A variable life insurance separate account shall not purchase or otherwise acquire the securities of any issuer, other than securities issued or guaranteed as to principal and interest by the United States, if immediately after such purchase or acquisition the value of such investment, together with prior investments of such separate account in such security valued as required by these rules, would exceed 10% of the value of the assets of the separate account. The commissioner may waive this limitation in writing if he believes such waiver will not render the operation of the separate account hazardous to the public or the policyholders in this state.

(b) No separate account shall purchase or otherwise acquire the voting securities of any issuer if as a result of such acquisition the insurer and its separate accounts, in the aggregate, will own more than 10% of the total issued and outstanding voting securities of such issuer. The commissioner may waive this limitation in writing if he believes such waiver will not render the operation of the separate account hazardous to the public or the policyholders in this state or jeopardize the independent operation of the issuer of such securities.

(c) The percentage limitation specified in subdivision (a) of this rule shall not be construed to preclude the investment of the assets of separate accounts in shares of investment companies registered pursuant to the investment company act of 1940 if the investments and investment policies of such investment companies comply substantially with the provisions of R 500.856 and other applicable rules.

R 500.858 Separate accounts; valuation of assets.

Rule 18. The following apply to valuation of assets of a separate account for variable life insurance:

(a) Investments of the separate account shall be valued at their market value on the date of valuation. Market value for investments traded on the recognized exchanges means the last reported sale price on the date of valuation. If there has been no sale on that date, the market value means the last reported bid quotation on the date of valuation. Market value for investments listed on the NASDAQ system means the last representative bid quotation on the valuation date. If an investment ceases to be listed but continues to be traded over the counter, it shall be valued at the lowest bid quotation as it appears on the national quotation bureau sheets.

(b) If the valuation date referred to in subdivision (a) above is a day when the exchange or the NASDAQ system is not open for business, the valuation date shall be the last date when the exchange or the NASDAQ system was open for business.

(c) If an investment ceases to be traded, it shall be valued at fair value as determined in good faith by, or at the direction of, the committee of the separate account, or if there is no such committee, the board of directors of the insurer, but not in excess of the last reported bid quotation. Within 30 days notification of cessation of trading of any investment shall be reported by the insurer to the commissioner of the state of domicile of the insurer, who shall within a reasonable period of time determine the method of valuation or disposition of such investment.

History: 1954 ACS 95, p. 106, Eff. Apr. 18, 1978

R 500.859 Separate accounts; material change in investment policy.

Rule 19. The following apply to investment policies of a separate account for variable life insurance:

(a) No material change in the investment policy of a separate account operated by a domestic insurer or an alien insurer entering the United States through this state and filed under subdivision (c)(iii) of R 500.843 shall be made without the approval of the commissioner and the approval of the variable life insurance policyholders that may be required under the investment company act of 1940.

(b) No material change in the investment policy of a separate account operated by a foreign insurer or an alien insurer not entering the United States through this state, pursuant to the section of the insurance law of the insurer's state of domicile which corresponds to subdivision (c)(iii) of R 500.843, shall be made unless the insurer has filed such change with the commissioner not less than 60 days prior to the effective date of the change.

(c) An application for approval required in (a) above shall be submitted as an application for material change in investment policy of a separate account for variable life insurance. A filing of a notice required in (b) above shall be submitted as a notice of material change in investment policy of a separate account for variable life insurance.

(d) A material change in the investment policy shall be disapproved if the material change is deemed by the commissioner to be detrimental to the interests of the policyholders of the insurer or adverse to the operations of the insurer. If the material change is disapproved, the insurer shall be entitled, upon demand, to a hearing within 30 days of notice of disapproval, and after the hearing the commissioner shall make findings of fact and law, and either affirm, modify, or withdraw his original decision.

(e) For foreign insurers and alien insurers not entering through this state, if no action is taken by the commissioner within 60 days after the date of notice of material change in investment policy, then the action taken by the commissioner in the state of domicile shall apply in this state.

(f) If any policyholder objects to a proposed material change in the investment policy of a separate account, and the change becomes effective, the objecting policyholder shall be given the option of converting, within 60 days after the effective date of the change, or the receipt of a notice of the options available, whichever is later, without evidence of insurability, under 1 of the following options, to a fixed benefit life insurance policy issued by the insurer or an affiliate:

(i) If the policy is in force on a premium paying basis, either:

(A) A conversion as of the original issue age to a substantially comparable plan of insurance, based on the insurer's premium rates for fixed life insurance at the original issue age, for an amount of insurance not exceeding the death benefit of the variable life insurance policy on the date of conversion. If the cash value of the variable life insurance policy exceeds the cash value of the fixed life insurance policy, the difference shall be paid to the policyholder. If the cash value of the fixed life insurance policy exceeds the cash value of the variable life insurance policy, the difference shall be paid by the policyholder.

(B) Surrender of the variable life insurance policy and conversion as of the attained age to a substantially comparable plan of life insurance for an amount of insurance not exceeding the excess of the death benefit of the variable life insurance policy over its cash value on the date of conversion if the withdrawing policyholder elects the cash surrender value; or the death benefit payable under any paid-up insurance option if the withdrawing policyholder elects such option.

(ii) If the policy is in force as paid-up variable life insurance, then conversion shall be to a substantially comparable paid-up fixed benefit life insurance policy for an amount of insurance not exceeding the death benefit of the variable life insurance policy on the date of conversion.

History: 1954 ACS 85, p. 107, Eff. Apr. 18, 1978.

R 500.860 Separate accounts; allowable charges.

Rule 20. The following apply to allowable charges against a separate account for variable life insurance:

(a) The insurer may deduct only the following from the separate account:

(i) Taxes or reserves for taxes attributable to investment gains and income of the separate account.

(ii) Actual cost of reasonable brokerage fees and similar direct acquisition and sales costs incurred in the purchase or sale of separate account assets.

(iii) Actuarially determined costs of insurance (tabular costs) and the release of reserves and benefit base consistent with the release of separate account liabilities.

(iv) Charges for investment management expenses, including internal costs attributable to the investment management of assets of the separate account, not exceeding the following percentages, on an annual basis, of the average net asset value of the separate account as of the date of valuation under subdivision (f) of R 500.854:

(A) Three-quarters of 1% of that portion of separate account assets valued at or under $75,000,000.00.

(B) One-half of 1% of that portion of separate account assets valued in excess of $150,000,000.00 but less than $400,000,000.00.

(C) Four-tenths of 1% of that portion of separate account assets valued in excess of $150,000,000.00 but less than $400,000,000.00.

(D) Thirty-five hundredths of 1% of that portion of separate account assets valued in excess of $400,000,000.00 but less than $800,000,000.00.

(E) Three-tenths of 1% of that portion of separate account assets valued in excess of $800,000,000.00.

(v) A charge for mortality and expense guarantees, at a rate specified in the policy, not to exceed .50% per year of the average net asset value of the separate account as of date of valuation.

(vi) Any amount in excess of those required to be held in the separate account to the extent necessary to comply with the requirements of subdivision (e)(ii) of R 500.850.

(b) Any charges against the separate account made by either an affiliate of the insurer or an unaffiliated fund shall be considered part of the charges limited by subdivisions (a)(iv) and (v) above. Any charge against the separate account, excluding taxes, shall not vary in accordance with the difference between the investment performance of the separate account and any index of securities prices or other measure of investment performance.

R 500.861 Standards of conduct and conflicts of interest.

Rule 21. The following apply to standards of conduct and conflict of interest:

(a) Every insurer seeking approval to enter into the variable life insurance business in this state, shall adopt by formal action of its board of directors, and file with the commissioner, a written statement specifying the standards of conduct of the insurer, its officers, directors, employees, and affiliates with respect to investments of variable life insurance separate accounts and variable life insurance operations. Such standards of conduct shall be binding on the insurer and those to whom it refers and shall contain at a minimum the items contained in subdivision (c) of this rule.

(b) Rules under any provisions of the insurance laws of this state or any regulation applicable to the officers and directors of insurance companies with respect to conflicts of interest shall also apply to members of any separate account's committee or other similar body. No officer or director of such company nor any member of any managing committee or body of separate account shall receive, directly or indirectly, any commission or any other compensation with respect to the purchase or sale of assets of such separate account. The board of directors of the insurer is responsible for all acts concerning the separate account, except to the extent that authority must be exercised by a separate account committee established pursuant to section 925(3) of the insurance code of 1956, as amended, being §500.925(3) of the Michigan Compiled Laws.

(c) Unless otherwise approved in writing by the commissioner in advance of the transaction, with respect to variable life insurance separate accounts, an insurer or affiliate thereof shall not:

(i) Sell to, or purchase from, any such separate account established by the insurer any securities or other property, other than variable life insurance policies.

(ii) Purchase, or allow to be purchased, for any such separate account, any securities of which the insurer or an affiliate is the issuer.

(iii) Accept any compensation, other than a regular salary or wages from such insurer or affiliate, for the sale or purchase of securities to or from any such separate account other than as provided in subdivision (d)(iii) of R 500.861.

(iv) Engage in any joint transaction, participation, or common undertaking whereby such insurer or an affiliate participates with such a separate account in any transaction in which an insurer or any of its affiliates obtains an advantage in

the price or quality of the item purchased, in the service received, or in the cost of such service and the insurer or any of its other affiliates is disadvantaged in any of these respects by the same transaction.

(v) Borrow money or securities from any such separate account other than under a policy loan provision.

(d) No provision of this rule shall be construed to prohibit any of the following:

(i) The investment of separate account assets in securities issued by 1 or more investment companies registered pursuant to the investment company act of 1940 which is sponsored or managed by the insurer or an affiliate, and the payment of investment management or advisory fees on such assets.

(ii) The combination of orders for the purchase or sale of securities for the insurer, an affiliate thereof, any separate accounts, or any 1 or more of them, which is for their mutual benefit or convenience so long as any securities so purchased or the proceeds of any sale thereof are allocated among the participants on some predetermined basis expressed in writing which is designed to assure the equitable treatment of all participants.

(iii) An insurer or an affiliate to act as a broker or dealer in connection with the sale of securities to or by such separate account; however, any commission fee or remuneration charged therefor shall not exceed minimum broker's commission established for any such transaction by any national securities exchange through which such transaction could be effected or such charges prevailing for arm's length transactions in the ordinary course of business in the community where such transaction is effected.

(iv) The rendering of investment management or investment advisory services by an insurer or affiliate, for a fee, subject to the provisions of this rule and R 500.862.

(e) The commissioner may, upon the written request of an insurer or an affiliate, approve a particular transaction or series of proposed transactions which would otherwise be prohibited under subdivision (c) if he determines such transaction is not unfair or inequitable to persons affected under the circumstances of such transactions.

R 500.862 Investment advisory contracts.

Rule 22. (1) An insurer shall not enter into a contract under which any person undertakes, for a fee, to regularly furnish investment advice to such insurer with respect to its separate accounts maintained for variable life insurance policies unless:

(a) The person providing such advice is registered as an investment adviser under the investment advisors act of 1940;

(b) The person providing such advice is an investment manager under the employee retirement income security act of 1974, 88 Stat. 829, with respect to the assets of each employee benefit plan allocated to the separate account; or

(c) The insurer has filed with the commissioner and continues to file annually the following information and statements concerning the proposed adviser:

(i) The name and form of organization, state of organization, and its principal place of business.

(ii) The names and addresses of its partners, officers, directors, and persons performing similar functions or, if such an investment adviser be an individual, or such individual.

(iii) A written standard of conduct complying in substance with the requirements of subdivision (a) of R 500.861 which has been adopted by the investment

adviser and is applicable to the investment adviser, its officers, directors, and affiliates; and any other persons or entities performing similar functions.

(iv) A statement provided by the proposed adviser as to whether the adviser or any person associated therewith:

(A) Has been convicted within 10 years of any felony or misdemeanor arising out of such person's conduct as an employee, salesman, officer or director of an insurance company, a bank, an insurance agent, a securities broker, or an investment adviser; involving embezzlement, fraudulent conversion, or misappropriation of funds or securities, or involving the violation of 18 U.S.C. §§1341, 1342, and 1343.

(B) Has been permanently or temporarily enjoined by order, judgment, or decree of any court of competent jurisdiction from acting as an investment adviser, underwriter, broker, or dealer, or as an affiliated person or as an employee of any investment company, bank, or insurance company, or from engaging in, or continuing any conduct or practice in connection with, any such activity.

(C) Has been found by federal or state regulatory authorities to have willfully violated, or has acknowledged willful violation of, any provision of federal or state securities laws or state insurance laws or of any rule or regulation under any such laws.

(D) Has been censured, denied an investment adviser registration, had a registration as an investment adviser revoked or suspended from being associated with an investment adviser by order of federal or state regulatory authorities.

(2) Such investment advisory contract shall be in writing and provide that it may be terminated by the insurer without penalty to the insurer or the separate account upon not more than 60 days' written notice to the investment adviser.

(3) The commissioner, after notice and opportunity for hearing, may by order prohibit execution of such contract, or require such investment advisory contract to be terminated, if he deems continued operation thereunder to be hazardous to the public or the insurer's policyholders.

(4) If the commissioner finds that the public safety or welfare requires emergency action, and incorporates the finding in his orders, he may summarily suspend an investment advisory contract.

R 500.863 Information required to be delivered to policy applicant.

Rule 23. An insurer delivering or issuing for delivery in this state any variable life insurance policies shall deliver to the applicant for the policy, and obtain a written acknowledgement of receipt from such applicant coincident with, or prior to, the execution of the application, the following information; the requirements of this rule shall be deemed to have been satisfied by the delivery to the applicant of a prospectus included in a registration statement which satisfies the requirements of the securities act of 1933 and which was declared effective by the securities and exchange commission to the extent that the prospectus contains the information required by this rule:

(a) A summary explanation, in nontechnical terms, of the principal features of the policy, including a description of the manner in which the variable benefits will reflect the investment experience of the separate account and the factors which affect such variation. Such explanation shall include notices of the provisions required by subsections (a)(iv) and (f) of R 500.850.

(b) A statement of the investment policy of the separate account, including all of the following:

(i) A description of the investment objective and orientation intended for the separate account and the principal types of investments intended to be made as required by subdivision (c)(iii) of R 500.843.

(ii) Any restriction or limitations on the manner in which the operations of the separate account are intended to be conducted.

(c) A statement of the net investment return of the separate account for each of the last 10 years for which the separate account was in existence.

(d) A statement describing, as an approximate percentage of an annual gross premium for each year and for the life of the policy, all commissions or equivalent payments to be paid to all agents or other persons as a result of the proposed sale for each year of the policy for which such payments are to be made. As used in this section, "commissions" means all monies and other valuable consideration, including, but not limited to, prizes, bonuses paid, directly or indirectly, to, for, or on behalf of, the selling agent as compensation for services in the sale of variable life insurance.

(e) A statement of the annual taxes, brokerage fees, and all other costs, and the charges, expressed as an annual percentage, levied against the separate account during the previous year.

(f) A summary of the method to be used in valuing assets held by the separate account.

(g) A summary of the federal income tax liabilities of the policy applicable to the insured, the policy owner, and the beneficiary.

(h) If the applicant is furnished illustrations of benefits payable under any variable life insurance contract, such illustrations shall be prepared by the insurer and shall not include projections of past investment experience into the future or attempted predictions of future investment experience; provided that nothing contained herein shall be construed to prohibit use of hypothetical, assumed rates of return to illustrate possible levels of benefits subject to such illustrations containing, at a minimum, the following:

(i) A clear, concise statement that the assumed rates are hypothetical only.

(ii) An illustration of possible levels of benefits assuming hypothetical gross rates of investment return of 0%, 4%, and 8%, and shall illustrate expenses which will be charged against the gross rate of investment return to produce the net rate of investment return. The expenses shall include taxes, investment expenses, and mortality and expense guarantees.

(i) A prominent statement either in contrasting color or in boldface type not less than 4 points larger than the type size of the largest type used in the text of any provision on the page, stating in substance the following:

(i) The purpose of this variable life insurance policy is to provide insurance protection for the beneficiary named therein.

(ii) No claim is made that this variable life insurance policy is in any way similar or comparable to a systematic investment plan of a mutual fund.

History: 1954 ACS 95, p. 110, Eff. Apr. 18, 1978.

R 500.864 Policy application.

Rule 24. The application for a variable life insurance policy shall contain all of the following:

(a) A prominent statement that the death benefit may be variable or fixed under specified conditions.

(b) A prominent statement that cash values may increase or decrease in accordance with the experience of the separate account, subject to any specified minimum guarantees.

(c) Questions designed to elicit information which enables the insurer to determine the suitability of variable life insurance for the applicant.

History: 1954 ACS 95, p. 111, Eff. Apr. 18, 1978.

R 500.865 Reports to policyholders.

Rule 25. Any insurer delivering or issuing for delivery in this state any variable life insurance policies shall mail to each variable life insurance policyholder at his or her last known address the following reports:

(a) Within 30 days after each anniversary of the policy, a statement or statements of the cash surrender value, death benefit, any partial withdrawal or policy loan, any interest charge, and any optional payments allowed under the policy pursuant to R 500.851 computed as of the policy anniversary date; provided, however, that such statement may be furnished within 30 days after a specified date in each policy year so long as the information contained therein is computed as of a date not more than 45 days prior to the mailing of such notice. This statement shall state in contrasting color or distinctive type that, in accordance with the investment experience of the separate account, the cash values and the variable death benefit may increase or decrease, and shall prominently identify any value described therein which may be recomputed prior to the next statement required by this section. If the policy guarantees that the variable death benefit on the next policy anniversary date will not be less than the variable death benefit specified in such statement, the statement shall be modified to so indicate.

(b) Annually, a statement or statements including:

(i) A summary of the financial statement of the separate account based on the annual statement last filed with the commissioner.

(ii) The net investment return of the separate account for the most recent year and, for each year after the first, a comparison of the investment rate of the separate account during the most recent year with the investment rate during prior years, up to a total of 5 years when available.

(iii) A list of investments held by the separate account as of a date not earlier than the end of the last year for which an annual statement was filed with the commissioner.

(iv) Any charges, taxes, and brokerage fees determined on an accrual basis payable by the separate account during the previous year, each expressed as a dollar amount and a percentage and the total expressed as a dollar amount and as a percentage, of the assets of the separate account.

(v) A statement of the portfolio turnover rate, defined as follows, during the preceding fiscal year of investments allocated to the separate account:

(A) The rate shall be calculated by dividing the lesser of purchases or sales of portfolio securities for the particular fiscal year by the monthly average of the value of the portfolio securities owned by the separate account during the particular fiscal year. Such monthly average shall be calculated by totaling the values of the portfolio securities as of the beginning and end of the first month of the particular fiscal year and as of the end of each of the succeeding 11 months, and dividing the sum by 13, except that the average value of securities for which market quotations are not available may be based upon the value of such securities as of the end of the preceding fiscal quarters.

(B) For the purposes of this item, there shall be excluded from both the numerator and the denominator all U.S. government securities, short-term and long-term, and all other securities whose maturities at the time of acquisition were 1 year or less. Purchases shall include any cash paid upon the conversion of 1 portfolio security into another. Purchases shall also include the cost of rights or

warrants purchased. Sales shall include the net proceeds of the sale of rights or warrants. Sales shall also include the net proceeds of redemptions of portfolio securities by call or maturity.

(C) The insurer shall show, in addition to the calculated portfolio turnover rate, both the amount of the purchases and the amount of the sales, calculated as prescribed in subdivision (A) above, and the monthly average, but not the individual monthly figures, of the value of the portfolio securities owned by the separate account during the fiscal year.

(D) The insurer may, if it wishes, make any statement or explanation with respect to any significant variations in the portfolio turnover rate during the 3 fiscal years next preceding.

(vi) A statement of any change, since the last report, in the investment objective and orientation of the separate account, in any investment restriction or material quantitative or qualitative investment requirement applicable to the separate account, or in the investment adviser of the separate account.

(vii) The name of each broker or dealer handling portfolio transactions on behalf of the separate account in which the insurer or an affiliate has any material interest, directly or indirectly, and the nature of such transactions and the amount of compensation received by each such broker or dealer from business originating with the separate account during the preceding fiscal year.

(viii) The names and principal occupations of each principal executive officer and each director of the insurer.

(ix) The names of all parents of the insurer and the basis of control of the insurer, and the name of any person who is known to own, of record or beneficially, 10% or more of the outstanding voting securities of the company.

(c) Notwithstanding the requirements in (b) above, a notice of any change in investment policy of the separate account, pursuant to R 500.859 shall be provided not later than 6 months from the effective date of that change. This requirement shall be considered satisfied if an annual report containing such notice is provided not later than 6 months from the effective date of the change or if a substantially similar notice is made pursuant to any federal securities laws not later than 6 months from the effective date.

History: 1954 ACS 95, p. 111, Eff. Apr. 18, 1978.

R 500.866 Qualification of agents for the sale of variable life insurance.

Rule 26. The following apply to qualifications of agents for the sale of variable life insurance:

(a) No person shall sell or offer for sale in this state any variable life insurance policy unless such person is an agent and has filed with the commissioner, in a form satisfactory to the commissioner, evidence that such person holds any license or authorization which may be required for the solicitation or sale of variable life insurance by any federal or state securities law.

(b) Any examination conducted by the commissioner for the purpose of determining the eligibility of any person for licensing as an agent shall, after the effective date of these rules, include such questions concerning the history, purpose, regulation, and sale of variable life insurance as the commissioner deems appropriate.

(c) Any person qualified in this state under this rule to sell or offer to sell variable life insurance shall immediately report to the commissioner all of the following:

(i) Any suspension or revocation of his agent's license in any other state or territory of the United States.

(ii) The imposition of any disciplinary sanction, including suspension, or revocation of or denial of registration, imposed upon him by any national securities exchange, or national securities association, or any federal, state, or territorial agency with jurisdiction over securities or variable life insurance.

(iii) Any judgment or injunction entered against him on the basis of conduct deemed to have involved fraud, deceit, misrepresentation, or violation of any insurance or securities law or regulation.

(d) The commissioner may reject any application or suspend or revoke or refuse to renew any agent's qualification under this rule to sell or offer to sell variable life insurance upon any ground that would bar such applicant or such agent from being licensed to sell other life insurance contracts in this state. The rules governing any proceeding relating to the suspension or revocation of an agent's license shall also govern any proceeding for suspension or revocation of an agent's qualification to sell or offer to sell variable life insurance.

STANDARDS FOR RATE FILINGS FOR PHYSICIANS AND SURGEONS PROFESSIONAL LIABILITY INSURANCE

(By authority conferred on the commissioner of insurance by sections 210 and 2484 of Act No. 218 of the Public Acts of 1956, being §§500.210 and 500.2484 of the Michigan Compiled Laws)

R 500.901 Applicability of rules.

Rule 1. These rules shall apply to all rate filings for physicians and surgeons professional liability insurance filed pursuant to chapter 24 of Act No. 218 of the Public Acts of 1956, as amended, being §500.2400 et seq. of the Michigan Compiled Laws.

History: 1954 ACS 92, p. 47, Eff. Aug. 18, 1977.

R 500.902 Determining whether rates excessive, inadequate, or discriminatory; criteria; "net worth" defined.

Rule 2. (1) For all rate filings for physicians and surgeons professional liability insurance, in determining whether rates are excessive, inadequate, or unfairly discriminatory under §500.2400 of the Michigan Compiled Laws, consideration shall be given to:

(a) The net underwriting and investment income of the insurer in relation to the company's net worth, as defined in subrule (2).

(b) A comparison of the experience for the filing company's physicians and surgeons professional liability insurance in Michigan with its experience for the same line in other states.

(c) Other information deemed appropriate.

(2) "Net worth" means that proportion of policyholders surplus, plus net prepaid expenses, plus unauthorized reinsurance, plus excess of statutory over case reserves, plus net furniture, equipment, and supplies, minus tax reserves for unrealized capital gains, as Michigan physicians and surgeons professional liability direct written premiums are of total direct written premiums.

History: 1954 ACS 92, p. 47, Eff. Aug. 18, 1977.

R 500.903 Risk classification; supportive data; credibility standards.

Rule 3. (1) An insurer or rating organization submitting a rate filing for physicians and surgeons professional liability insurance shall include therein the

supportive data on which its various risk classifications and differentials between risk classifications are based.

(2) Rate filings shall include an actuarially sound method of assigning credibility levels to all supportive data used to establish risk classifications. Rate filings which do not employ credibility standards which are acceptable to the insurance commissioner shall not be allowed.

(3) Except as otherwise directed by the commissioner, partial credibility assigned according to the following formula is actuarially sound:

$$p = \sqrt{\frac{n}{4328}}$$

where p = the partial credibility and n = the number of claims.

History: 1954 ACS 92, p. 47, Eff. Aug. 18, 1977.

R 500.904 Statement of underwriting policy; contents; sworn statement; violations.

Rule 4. (1) All insurers and rating organizations submitting rate filings for physicians and surgeons professional liability insurance shall include with the filing a statement, in objective terms, of the underwriting policy used in the development of the rates filed. The statement shall be written so that a reasonable person in the exercise of ordinary intelligence and understanding can apply the policy consistently and accurately.

(2) For the purposes of subrule (1), the statement of underwriting policy shall contain a description of the standards of risk selection used in terms of the following elements:

(a) Territory or geography.

(b) Professional specialty or other classification of the type of practice engaged in.

(c) Nature of hospital affiliation and type of hospital with which the insured is affiliated, such as teaching hospital, governmental hospital, nonprofit hospital, or private hospital.

(d) Type of patient constituting the clientele of the insured.

(e) Professional training and claims history of the insured.

(f) Any other standard employed by the insurer or rating organization.

(3) An insurer writing physicians professional liability insurance or surgeons professional liability insurance, or both, in this state shall submit a sworn statement of its intention to provide insurance protection in conformity with the underwriting policy used in developing the rate filing on which its premiums are based.

(4) An insurer writing physicians professional liability insurance or surgeons professional liability insurance, or both, in this state shall not refuse to issue a policy, or cancel or decline to renew a policy, or discriminate in rate making or premium charges, on a basis which is not specified in the statement of underwriting policy required by subrule (1). A violation of this subrule is a violation of §500.2412 of the Michigan Compiled Laws.

History: 1954 ACS 92, p. 48, Eff. Aug. 18, 1977.

R 500.905 Expense items.

Rule 5. (1) An expense item contained in a rate filing for physicians and surgeons professional liability insurance shall not be expressed or derived from a

fixed percentage of premium charge unless the relationship is supported by evidence submitted with the rate filing. Any expense that is determined by the commissioner to be unreasonable, in view of the evidence presented, shall not be allowed.

(2) If all or any portion of an expense item contained in a rate filing for physicians and surgeons professional liability insurance is earmarked for acquisition expenses, the insurer or rating organization submitting the filing shall include with the filing a statement regarding the necessity and reasonableness of such acquisition expenses.

History: 1954 ACS 92, p. 48, Eff. Aug. 18, 1977.

R 500.906 Loss development factor; trend factor.

Rule 6. (1) If a rate filing for physicians and surgeons professional liability insurance includes a loss development factor, or equivalent actuarial device, to project the future dollar amount of claims on the basis of paid claims plus reserves for known unpaid claims, the insurer or rating organization submitting the filing shall include in the filing full actuarial support of that loss development factor including consideration of the effect of a determination of the effect of historical reserve inaccuracies on such loss development factors.

(2) In determining the reasonableness of a trend factor, or equivalent actuarial device, contained in a rate filing submitted by an insurer or rating organization for physicians and surgeons professional liability insurance, full justification of that factor shall be provided which would include due consideration given to new methods for claim resolution, such as arbitration, and to such other legal and social changes that may have a reasonable and predictable effect on the incidence and magnitude of medical malpractice claims and claim settlements in this state.

(3) In every rate filing submitted by an insurer or rating organization for physicians and surgeons professional liability insurance, the insurer or rating organization shall calculate any loss development or trend factor, or its equivalent, with the most recent statistics that are reported.

History: 1954 ACS 92, p. 48, Eff. Aug. 18, 1977.

R 500.907 Increased limits factor.

Rule 7. (1) Whenever an increased limits factor, or other premium multiplier, is used by the insurer or rating organization to calculate the premium for coverage in excess of the basic limits premium rates included in the rate filing, such insurer or rating organization shall submit to the commissioner, as a part of the rate filing, the data employed by the insurer or rating organization to derive the increased limits factor or other premium multiplier, plus a documentation of the methodology used in the calculation and a justification for the use of that methodology.

(2) A premium for physicians and surgeons professional liability insurance calculated with the use of an increased limits factor or other premium multiplier, to the extent that the increased limits factor or other premium multiplier is not supported by the data submitted to the commissioner as a part of the rate filing, shall not be allowed.

History: 1954 ACS 92, p. 48, Eff. Aug. 18, 1977.

R 500.908 Premium surcharge.

Rule 8. (1) A premium surcharge contained in a rate filing for physicians and surgeons professional liability insurance shall not be expressed or derived from a fixed percentage of another premium charge, unless the relationship is supported by evidence submitted with the rate filing.

(2) A premium surcharge that is found to be unreasonable in view of the evidence presented shall not be allowed.

History: 1954 ACS 92, p. 49, Eff. Aug. 18, 1977.

R 500.909 Contents of rate filing; effect of noncompliance.

Rule 9. (1) A rate filing for physicians and surgeons liability insurance shall include all of the following items:

(a) A cover letter describing the nature and extent of the filing and the reasons the filing is being made.

(b) A statement of underwriting policy, changes in the underwriting policy from previous filing, and a justification for such changes.

(c) Earned premiums, incurred losses, and incurred expenses by class and territory for the past 5 calendar years for this state.

(d) Rate level history for the past 5 calendar years.

(e) Justification of the credibility standards applied in the determination of all classification and territorial differentials.

(f) A calculation of anticipated return on net worth.

(g) A documentation of the methodology and data used to arrive at anticipated expense levels.

(h) A documentation of the methodology and data used, as well as a justification for their use, in arriving at loss development factors.

(i) A documentation of the methodology and data used, as well as a justification for their use, in arriving at trend factors.

(j) A documentation of the methodology and data used, as well as a justification for their use, in arriving at increased limits.

(k) A documentation of the methodology and data used to arrive at premium surcharges.

(l) A letter of certification, the language of which shall be supplied by the insurance bureau, stating that the filing is in compliance with all applicable laws and rules.

(m) All other factors which may subsequently be required or which are required by the insurance laws of this state.

(2) A filing not in compliance with the requirements in subrule (1) shall not be considered to be a filing under chapter 24 of the insurance code, being §500.2400 et seq. of the Michigan Compiled Laws, and shall be immediately returned to the filing company.

History: 1954 ACS 92, p. 49, Eff. Aug. 18, 1977.

GENERAL RULES

(By authority of Act No. 256 of the Public Acts of 1917, being §501.1 et seq. of the Michigan Compiled Laws)

R 501.1, R 501.2 Rescinded.

History: 1944 AC, p. 343; 1954 AC, p. 6901; rescinded 1954 ACS 67, p. 69, Eff. Mar. 26, 1971.

R 501.3 Adjusters for assured.

Rule 3. (1) An adjuster for the assured shall not employ any individual to aid directly or indirectly in the solicitation or adjustment of any loss and shall not offer nor pay any fee, commission nor any other valuable consideration to such individual unless such individual be licensed as an adjuster by the department of insurance and is further regularly employed by him as a solicitor.

(2) An adjuster for the assured must not represent himself to be an adjuster or representative of any insurance company, fire investigator or connected with the fire department or otherwise except as an adjuster for the assured. When soliciting a loss he must first identify himself to clients or prospective clients as an adjuster for the assured and must state the cost for his services.

(3) Every adjuster for the assured in the state of Michigan who is not a solicitor shall file with the insurance department the rates of commission for his service. Said commission shall not exceed 10% in any case and when such rates are filed every adjuster for the assured must adhere to the schedule of rates filed with the department of insurance.

(4) No licensed adjuster for the assured shall directly or indirectly act within this state as a public adjuster without first having entered into a contract in writing on a form approved by the insurance commissioner and executed in duplicate by the public adjuster and the assured or his duly licensed representative, 1 copy of which contract shall be kept on file by the public adjuster open at all times to inspection by the insurance commissioner or his authorized representative. No solicitor for a public adjuster shall use any form of contract other than that approved for the public adjuster for whom he is soliciting nor shall he make any agreement or contracts for himself or for the public adjuster other than such as is specified in the approved contract.

(5) Every licensed adjuster for the assured shall keep a full record of his transactions as an adjuster open at all times to the inspection of the insurance commissioner or his representative showing (a) the name of the assured (b) the date, location and amount of the loss (c) the name of the insurer, amount, expiration, date and number of each policy of insurance carried with respect to such loss (d) an itemized statement of all recoveries by the assured from all sources (e) the name or names and addresses of any person or persons soliciting the adjustment and the date and time when solicited (f) the total compensation received for adjustment and the amount of commission, salary or compensation paid to each employee and solicitor.

(6) An adjuster for the assured or his employees shall not directly or indirectly solicit losses between the hours of 8:00 p.m. and 7:00 a.m. on week days and under no circumstances solicit any loss on Sunday or holidays.

(7) An adjuster shall not attempt in any manner to solicit a loss during the progress of a fire nor while the fire department or any of its representatives are in any manner engaged at the damaged premises nor shall any such adjuster in any way interfere or obstruct an investigator of the fire marshal's division of this state or county or of the fire or police department of any city of this state.

(8) No adjuster for the assured or his solicitors shall advise any person from whom he is soliciting a loss or for whom he is adjusting a loss that the assured must pay any person a fee for an adjustment other than that fee specified in any adjuster's contract of employment.

(9) No adjuster for the assured shall advance any money or collateral of any nature to any assured pending the adjustment of any claim.

(10) No adjuster for the assured shall take any prospective client from the scene of the fire.

(11) No adjuster for the assured shall collect or attempt to collect from any contractor any fee or charge for obtaining the repair work for such contract. No adjuster for the assured shall, in making an inventory or estimate, pay the same or make any inventory or estimate other than that which is fair and honest and just claim of his assured and whenever any claim is presented to an adjuster or adjusters for a company the assured shall be present if possible.

R 501.4 Agents and solicitors.

Rule 4. (1) For the duration of the war, the department of insurance will no longer license as agents or solicitors those individuals working in essential war activities. This regulation will apply to those persons not licensed at the time of their engaging in essential war activities.

(2) In view of the insurance law which authorizes the commissioner of insurance to issue a license to an applicant as an insurance agent or solicitor, it has been established as a rule of this department that no person, firm or corporation can qualify for license to act as an insurance agent or solicitor for the purpose of writing insurance and obtaining commission on those risks within his control, and no license will be issued to an agent whose own business and that of his relatives, employers and business associates or affiliates, all combined, exceeds 15% of his total business written.

(3) Any person, firm or corporation to qualify as a proper person for license will be required to devote a substantial portion of his time to the active solicitation of insurance and comply with the insurance law. Such amount of time will be determined by the commissioner of insurance.

(4) If the application of this regulation appears impracticable when applied to cases in cities of 5,000 population or less, the same may be modified upon petition submitted to the commissioner of insurance with all facts relating thereto.

(5) No life insurance company shall pay to any authorized agent of its company any commission or other remuneration as compensation for insurance placed covering his life or that of his employer, partner in business, or relatives, unless there shall have been previously placed insurance amounting to at least $10,000.00 covering no less than 4 persons other than those mentioned and who are residents of Michigan.

History: 1944 AC, p. 344; 1954 AC, p. 6902.

R 501.5 Life insurance agents and solicitors.

Rule 5. (1) Life insurance companies will be responsible for the training of all new agents or solicitors by prescribing and giving him a course of instructions which has been accepted by the department of insurance of Michigan. Such person shall satisfactorily complete such course within 120 days from the issuance of license to him. Upon completion of such course the general agent or company official responsible for training such applicant, shall certify to the department of insurance that such person has satisfactorily completed such course.

(2) Whenever a license is issued to any person to act as an agent for a life insurance company, who has not previously been licensed to so act, or who has not been licensed in Michigan as a life insurance agent for a period of 5 years preceding the date of the said license, such license just issued shall be considered probationary, and shall be cancelled at the termination of 130 days, as required hereinbefore, unless certification has been received by the department of insurance by the time of the expiration of said 130 days or prior thereto.

(3) Whenever such agent fails to complete the training herein prescribed and such agent's license is cancelled for this reason, no further license shall be issued such person to act as an agent for any life insurance company until after a course of instruction as prescribed herein has been completed and certification as herein required has been filed with the department of insurance.

(4) During the probationary period herein set forth such agent shall not be granted any further license to represent any life insurance company, nor shall any further license be granted to such agent until the general agent or such company

R 501.6 Agents selling credit life insurance.

Rule 6. Licenses will be issued to employees of banks and other financial institutions for the purpose of taking applications and collecting premiums on individual policies of credit life insurance, which policies are issued coextensively with the making of the loan by the financial institution employing such licensee; provided that the authority of such licensee shall be limited to the sale of the form of insurance and in the manner above described; and provided, further, that such licensed employee of the financial institution shall receive no commissions or other remuneration for the taking of the applications and/or the collection of premiums nor shall any remuneration be paid to the financial institution employing the said licensee; and provided, further, that the said licensed employee of the financial institution shall be a subagent of a duly licensed resident agent of the company issuing the credit life insurance policies, which agent shall be devoting his full time to the insurance business.

History: 1944 AC, p. 345; 1954 AC, p. 6903.

R 501.7 Mortgage agencies.

Rule 7. Renewals of insurance policies written by an authorized agency shall not be interfered with or unnecessary demands made by mortgagees. Renewal policies properly delivered by an agent of record shall not be disturbed by so-called controlled agencies, such as F.H.A., banks, finance companies, or other loaning institutions.

History: 1944 AC, p. 345; 1954 AC, p. 6903.

R 501.8 Rescinded.

History: 1944 AC, p. 345; 1954 AC, p. 6903; rescinded 1954 ACS 17, p. 19, Eff. Feb. 14, 1959.

R 501.9 Casualty companies writing automobile insurance.

Rule 9. Automobile dealers and their representatives shall not be eligible to act as salesmen in the solicitation of public liability and property damage insurance on financed automobiles.

History: 1944 AC, p. 345; 1954 AC, p. 6903.

R 501.10 Furriers and fur storers.

Rule 10. (1) Marine or transportation policies may cover furriers' or fur storers' customers' policies covering specified garments the property of customers:

(a) Provided policies contain all of the provisions including amount of insurance, rate of premium, and premium charged therefor under which the coverage is accepted without reference to underlying policies.

(b) Provided policies are signed by duly licensed agents.

(c) Provided the form of policy issued is approved by the department before issuance.

(2) The basic contract between the insurer and furrier or fur storer shall specifically provide:

(a) That policies shall be countersigned by a duly licensed agent.

R 501.14 Michigan mutual insurance companies (farm mutuals).

Rule 14. All companies collecting an advance premium are required by law to include in their annual statements to the commissioner of insurance the total unearned premiums on all classes of unexpired risks. In order that the unearned premium shall be computed on a uniform basis, we are issuing the following ruling:

(a) The unearned premium reserve shall be computed on a monthly pro rata basis, i.e., a liability shall be set forth for the unearned monthly pro rata portion of the aggregate premiums on all unexpired risks.

(b) Companies collecting premiums once each year shall compute the amount unearned as of December 31 for the remainder of the current policy year. The current policy year shall be considered to begin on the final due date of the last previous assessment. All assessments shall be due and payable on or before the beginning of the period covered by the assessment.

History: 1944 AC, p. 347; 1954 AC, p. 6905.

R 501.15 Destruction of obsolete records.

Rule 15. (1) All correspondence shall be filed and preserved for each current year and for the previous 10 years.

(2) Annual statements of all insurance companies not domiciled in Michigan shall be filed and preserved for each current year and for the previous 10 years; provided that alien companies using Michigan as the state of entry into the United States shall be considered as domestic companies for purposes of preserving such annual statements.

(3) All applications for agents', solicitors', and adjusters' licenses, all insurance company requisitions for agents' licenses and all insurance agents' requisitions for solicitors' licenses shall be filed and preserved for each current year and for the previous 10 years.

(4) All books and records of the accounting division shall be preserved for the current 10 years. (Many of these records are duplicates of the records of the auditor general.)

(5) All receivership books and correspondence and other records shall be preserved for a period of 10 years after such receivership is closed, after which same shall be destroyed.

(6) Insurance policy forms, endorsements and riders, which for a period of 10 years have not been in force, or in effect, or in use in the state of Michigan.

(7) All state fire fund reports shall be filed and preserved for a period of 10 years.

(8) All requests in the form of affidavits from individuals, companies or associations that are unable to procure insurance in legally admitted companies in

WRITTEN EXAMINATION FOR HEALTH AND ACCIDENT AGENTS

(By authority of Act No. 256 of the Public Acts of 1917, being §501.1 et seq. of the Michigan Compiled Laws)

R 501.151 Probationary license.

Rule 1. Whenever a license is issued to any person to act as an agent for any insurer authorized to write accident and health and/or hospitalization insurance, which person has not previously been licensed for such lines in Michigan at some time during the 5 years immediately preceding his current application, the license issued shall be probationary, and shall be automatically cancelled at the termination of 130 days, unless the agent shall successfully have passed a written examination given by the Michigan department of insurance during the first 120 days of said probationary period, and shall have been notified that he has received a passing grade on said examination.

History: 1944 ACS 26, p. 7; 1954 AC, p. 6908.

R 501.152 Examinations; location; frequency.

Rule 2. Examinations will be given at the offices of the department of insurance at Lansing, Michigan, not less frequently than monthly; and candidates, upon request, shall be advised of the date and hour of such examinations. When practicable, examinations may be given at such other places, from time to time, as the commissioner of insurance may designate, for the greater convenience of applicants; but such designation shall be optional with the commissioner; and shall not excuse any candidate from the requirement of R 501.151 above.

History: 1944 ACS 26, p. 8; 1954 AC, p. 6908.

R 501.153 Failure to pass examination; permission to retake.

Rule 3. Whenever any agent shall fail to pass the examination, he shall be permitted to again take the examination after a waiting period of 30 days; but such permission shall not act as a stay of automatic termination specified in R 501.151 above.

History: 1944 ACS 26, p. 8; 1954 AC, p. 6908.

R 501.154 Cancellation of license; reissuance.

Rule 4. Whenever any agent's or solicitor's license shall have been cancelled for failure to pass the examination during the probationary period, no further license to write accident and health and/or hospitalization insurance shall be issued to such agent or former agent until such candidate shall have passed a written examination.

History: 1944 ACS 26, p. 8; 1954 AC, p. 6908.

R 501.155 Additional license.

Rule 5. Until he shall have passed the examination as hereinbefore set forth, the candidate agent shall not be granted any additional license to represent any insurer writing accident and health and/or hospitalization insurance.

History: 1944 ACS 26, p. 8; 1954 AC, p. 6909

R 501.156 Extension of probationary period.

Rule 6. Extension of time—Upon timely notice of illness or other urgent reason, the commissioner may extend the probationary period, not to exceed 30 days.

History: 1944 ACS 26, p. 8; 1954 AC, p. 6909.

R 501.157 Limited licenses.

Rule 7. Limited licenses—Upon proper showing, the department of insurance may issue limited licenses to agents, to write only specified types of insurance, instead of all the coverages which their insurer is certificated to undertake. In such cases, the agent may be licensed upon qualifying only for the type of license to be issued under such special arrangement appropriate to the coverage as may be prescribed by the commissioner of insurance. Where limited license is desired, the requisition of the insurer and the application of the prospective agent shall clearly so indicate by conspicuous notation in the captions of said requisition and application; and suitable explanation of the reason for the limitation shall be entered on the documents or the covering letter accompanying them. The insurer shall accept no business from such agent except such as is specified under his license. The commissioner may prescribe procedures in lieu of usual examination, for determining the fitness of applicants for limited licenses.

History: 1944 ACS 26, p. 8; 1954 AC, p. 6909.

R 501.158 Applicability of rules.

Rule 8. The preceding rules do not apply to the following:

(a) Any person who acts only as agent in reference to the issuance of accident insurance tickets primarily for the purpose of covering risks of travel and who is a ticket selling agent or representative of a common carrier.

(b) Any regular salaried officer or employee of a licensed insurer or agent who does not solicit or accept from the public applications for policies; nor to any regular salaried officer or employee of a licensed insurer who renders assistance to or on behalf of a licensed agent; provided that such salaried officer or employee

devotes substantially all of his time to activities other than the solicitation of applications for insurance and receives no commission or other compensation directly dependent upon the amount of business obtained.

History: 1944 ACS 26, p. 8, 1954 AC, p. 6809.

FARMERS' MUTUAL FIRE INSURANCE COMPANIES

(By authority of section 13 of chapter IV, part 4, of Act No. 256 of the Public Acts of 1917, being §534.13 of the Michigan Compiled Laws)

R 501.201 Membership fee.

Rule 1. On and after October 1, 1952, all farmers' mutual fire insurance companies doing business under section 2, chapter IV, of part 4 of the insurance code, as latest amended, will not charge a membership fee upon the issuance of a policy to a new member or upon the increase of a policy already in force.

History: 1944 ACS 31, p. 13, 1954 AC, p. 6809.

MARINE OR TRANSPORTATION POLICIES

(By authority of sections 2600 and 2674 of Act No. 218 of the Public Acts of 1956, being §§500.2600 and 500.2674 of the Michigan Compiled Laws)

R 501.251 Imports.

Rule 1. (1) Imports on consignment may be covered by marine or transportation policies, or both, wherever the property may be and without restriction as to time, provided the coverage of the issuing companies includes hazards of transportation. A shipment "on consignment" shall mean property consigned and intrusted to a factor or agent to be held in his care, or under his control for sale for account of another or for exhibit or trial or approval or auction, and if not disposed of, to be returned.

(2) Imports not on consignment in such places of storage as are usually employed by importers, provided the coverage of the issuing companies includes hazards of transportation. Such policies may also include the same coverage in respect to property purchased on C.I.F. terms or "spot" purchases for inclusion with or in substitution for bona fide importations. An import, as a proper subject of marine or transportation insurance, shall be deemed to maintain its character as such so long as the property remains segregated in the original form or package in such a way that it can be identified and has not become incorporated and mixed with the general mass of property in the United States, and shall be deemed to have been completed when such property has been:

(a) Sold and delivered by the importer, factor or consignee; or

(b) Removed from place of storage as described in subrule (2) and placed on sale as part of importer's stock in trade at a point of sale-distribution; or

(c) Delivered for manufacture, processing or change in form to premises of the importer or of another used for any such purposes.

History: 1944 ACS 36, p. 23, 1954 AC, p. 6910.

R 501.252 Exports.

Rule 2. (1) Exports may be covered by marine or transportation policies, or both, wherever the property may be without restriction as to time, provided the coverage of the issuing companies includes hazards of transportation.

(2) An export, as a proper subject of marine or transportation insurance, shall be deemed to acquire its character as such when designated or while being prepared for export and retain that character unless diverted for domestic trade, and when so diverted, the provisions of this ruling respecting domestic shipments shall apply; provided, however, that this provision shall not apply to long established methods of insuring certain commodities, e.g., cotton.

History: 1944 ACS 36, p. 23; 1954 AC, p. 6910.

R 501.253 Domestic shipments.

Rule 3. (1) Domestic shipments on consignment may be covered by marine or transportation policies, or both, provided the coverage of the issuing companies includes hazards of transportation.

(a) Property shipped on consignment for sale or distribution, while in transit and not exceeding 120 days after arrival at consignee's premises or other place of storage or deposit; and

(b) Property shipped on consignment for exhibit or trial or approval or auction, while in transit, while in the custody of others and while being returned.

(2) Domestic shipments not on consignment may be covered by marine or transportation policies, or both, provided the coverage of the issuing companies includes hazards of transportation, beginning and ending within the United States, provided that such shipments shall not be covered at manufacturing premises nor after arrival at premises owned, leased, or operated by assured or purchaser, nor for more than 90 days at other place of storage or deposit, except in premises of transportation companies or freight forwarders, when such storage is incident to transportation.

History: 1944 ACS 36, p. 24; 1954 AC, p. 6910.

R 501.254 Transportation and communication instrumentalities.

Rule 4. (1) Bridges, tunnels, and other instrumentalities of transportation and communication (excluding buildings, their furniture and furnishings, fixed contents and supplies held in storage) may be covered by marine or transportation policies, or both, unless fire, tornado, sprinkler leakage, hail, explosion, earthquake, riot, and/or civil commotion are the only hazards to be covered. Piers, wharves, docks, and slips, excluding the risks of fire, tornado, sprinkler leakage, hail, explosion, earthquake, riot, and/or civil commotion. Other aids to navigation and transportation, including dry docks and marine railways, against all risks.

(2) The foregoing includes:

(a) Bridges, tunnels, other similar instrumentalities, unless fire, lightning, windstorm, sprinkler leakage, hail, explosion, earthquake, riot, or civil commotion are the only perils to be covered.

(b) Piers, wharves, docks, and slips, but excluding the risks of fire, lightning, windstorm, sprinkler leakage, hail, explosion, earthquake, riot, or civil commotion.

(c) Pipelines, including on-line propulsion, regulating and other equipment appurtenant to such pipelines, but excluding all property at manufacturing, producing, refining, converting, treating, or conditioning plants.

(d) Power transmission and telephone and telegraph lines, excluding all property at generating, converting or transforming stations, substations, and exchanges.

(e) Radio and television communication equipment in commercial use as such, including towers and antennae with auxiliary equipment and appurtenant electrical operating and control apparatus, but excluding buildings, their improvements and betterments, furniture and furnishings, and supplies held in storage therein.

(f) Outdoor cranes, loading bridges, and similar equipment used to load, unload, and transport.

History: 1944 ACS 36, p. 24; 1954 AC, p. 6911.

R 501.255 Personal property floater risks.

Rule 5. (1) Covering individuals:

(a) Tourists floater, personal effects floater policies.

(b) The personal property floater.

(c) Government service floaters.

(d) Personal fur floaters.

(e) Personal jewelry floaters.

(f) Wedding present floaters for not exceeding 90 days after the date of the wedding.

(g) Silverware floaters.

(2) Covering individuals and/or generally:

(a) Fine arts floaters, stamp and coin floaters. To cover objects of art such as pictures, statuary, bronzes and antiques, rare manuscripts and books, articles of virtu, etc.

(b) Musical instrument floaters. Radios, televisions, record players, and combinations thereof are not deemed musical instruments.

(c) Radium floaters.

(d) Physicians' and surgeons' instrument floaters. Such policies may include coverage of such furniture, fixtures, and tenant assured's interest in such improvements and betterments of buildings as are located in that portion of the premises occupied by the assured in the practice of his profession.

(e) Pattern and die floaters, excluding coverage on the owner's premises.

(f) Theatrical floaters, excluding buildings and their improvments and betterments, and furniture and fixtures that do not travel about with theatrical troupes.

(g) Film floaters, including builders' risk during the production and coverage on completed negatives and positives and sound records.

(h) Salesmen's samples floaters.

(i) Jewelers' block policies, including tenant assured's interest in improvements and betterments of buildings, furniture, fixtures, tools, machinery, patterns, molds, and dies.

(j) Exhibition policies on property while on exhibition and in transit to or from such exhibitions.

(k) Live animal floaters, covering whatever animals, wagons, and mobile equipment may be.

(l) Installation risks, covering machinery and equipment including plumbing, heating, cooling, and electrical systems (as distinguished from building materials) while in transit to place of installation and during the period of installation and testing. Coverage must cease: (i) Where such property is insured for the account of the seller or installer, when the interest of such insured ceases; or (ii) in no case later than when such property has been accepted as satisfactory; whichever first occurs, as to (i) or (ii).

Building materials (e.g., structural steel, lumber, bricks, and mortar), while in transit to place of installation and after arrival thereat but such coverage must terminate when the materials are installed and have become a physical part of the realty or when the seller's interest ceases, whichever first occurs.

(m) Mobile articles, machinery and equipment floaters (excluding motor vehicles designed for highway use and auto homes, trailers, and semitrailers except when hauled by tractors not designed for highway use) covering identified

property of a mobile or floating nature, not on sale or consignment, or in course of manufacture, which has come into the custody or control of parties who intend to use such property for the purpose for which it was manufactured or created. Such policies shall not cover furniture and fixtures not customarily used away from premises where such property is usually kept.

(n) Property in transit to or from and in the custody of:

(i) Bleacheries, throwsters, fumigatories, dyers, cleaners, laundries, and similar bailees; such policies may include coverage on the personal property (not real property), excepting automobiles, of the designated bailees at their premises, provided such coverage is written at the rates and in accordance with the rules otherwise filed for such risks;

(ii) Needleworkers;

(iii) Other bailees (not owned, controlled or operated by the bailor) for the purpose of performing work thereon (as distinguished from the making of a complete article) including the treatment of, or assemblage of, property on the premises of bailees.

Such policies shall not cover bailee's property at his premises, except as provided in (i) above.

(o) Installment sales and leased property. Policies covering property sold under conditional contract of sale, partial payment contract, installment sales contract, or leased, but excluding motor vehicles designed for highway use. Such policies must cover in transit, but shall not extend beyond the termination of the seller's or lessor's interest. This section is not intended to include machinery and equipment under certain "lease-back" contracts.

(p) Garment contractors' floaters.

(q) Furrier's or fur store's customer's policies (i.e., policies under which certificates or receipts are issued by furriers or fur stores) covering specified articles the property of customers.

(r) Accounts receivable policies, valuable papers, and records policies.

(s) Cold storage locker plant policies, covering merchandise of customers consisting principally of meats, game, fish, poultry, fruit, vegetables, and property of a similar nature.

(t) Floor plan policies, covering property for sale while in possession of dealers under a floor plan or any similar plan under which the dealer borrows money from a bank or lending institution with which to pay the manufacturer, provided:

(i) Such merchandise is specifically identifiable as encumbered to the bank or lending institution.

(ii) The dealer's right to sell or otherwise dispose of such merchandise is conditioned upon its being released from encumbrance by the bank or lending institution.

(iii) That such policies cover in transit and do not extend beyond the termination of the dealers' interest.

Provided that such policies shall not cover automobiles or motor vehicles, merchandise for which the dealer's collateral is the stock or inventory as distinguished from merchandise specifically identifiable as encumbered to the lending institution.

(u) Sign and street clock policies, covering neon signs, automatic or mechanical signs, street clocks, while in use as such.

(v) The following policies covering property which, when sold to the ultimate purchaser, may be covered specifically, by the owner, under inland marine policies:

(i) Musical instrument dealers' policies, covering property consisting principally of musical instruments and their accessories. Radios, televisions, record players, and combinations thereof are not deemed musical instruments.

(ii) Camera dealers' policies, covering property consisting principally of cameras and their accessories.

(iii) Furrier's dealers' policies, covering property consisting principally of furs and fur garments.

(iv) Equipment dealers' policies, covering mobile equipment consisting of binders, reapers, tractors, harvesters, harrows, tedders, and other similar agricultural equipment and accessories therefor; construction equipment consisting of bulldozers, road scrapers, tractors, compressors, pneumatic tools, and similar equipment and accessories therefor; but excluding motor vehicles designed for highway use.

All such policies shall exclude coverage of moneys and securities. Musical instrument dealers', camera dealers', and equipment dealers' policies may include coverage of tenant assured's interest in improvements and betterments of buildings; also furniture, fixtures, tools, machinery, patterns, molds, and dies.

(w) Wool growers' floaters.

(x) Domestic bulk liquids policies, covering domestic bulk liquids stored in tanks, provided the risks of fire and inherent explosion, windstorm, sprinkler leakage, earthquake, hail, explosion, riot, or civil commotion are excluded therefrom.

(y) Furniture shipment policies, covering furniture, fixtures and equipment in bona fide course of shipment from 1 location to another location of the owner including in place of deposit incident to such transportation while awaiting determination or availability of final destination, in which event they must cover at time of issuance transportation to or from such place of deposit but may not cover after delivery at destination.

History: 1944 ACS 36, p. 24; 1954 AC, p. 6911; 1954 ACS 2, p. 13, Eff. May 13, 1955; 1954 ACS 22, p. 85, Eff. May 13, 1960.

Editor's note: This rule, amended by 1954 ACS 22, pp. 85-87, Eff. May 13, 1960, as R 500.255, should have been amended as R 501.255.

R 501.271 Construction.

Rule 11. Unless otherwise permitted, nothing in the foregoing shall be construed to permit marine or transportation policies to cover:

(a) Storage of assured's merchandise, except as hereinbefore provided.

(b) Merchandise in course of manufacture, the property of and on the premises of the manufacturer.

(c) Furniture and fixtures and improvements and betterments to buildings.

(d) Merchandise in permanent location, sold under partial payment, contract of sale, or installment sales contract, which involves protection of the purchaser's interest after seller's interest ceases.

(e) Monies and/or securities in safes, vaults, safety deposit vaults, bank, or assured's premises, except while in course of transportation.

(f) Risks of fire, windstorm, sprinkler leakage, earthquake, hail, explosion, riot, and/or civil commotion on buildings, structures, wharves, piers, docks, bulkheads and sheds, and other fixed real property on land and/or over water, except as hereinbefore provided.

History: 1944 ACS 36, p. 28; 1954 AC, p. 6913.

HEARINGS

(By authority of Act No. 197 of the Public Acts of 1952, as amended, being §24.101 et seq. of the Michigan Compiled Laws)

R 501.301 Notice of hearing.

Rule 1. Notification of any hearing before the commissioner of insurance will be by registered mail, and will state the date, time, place, issues involved, and reasons for holding said hearing. Such notice will be mailed at least 15 days prior to said hearing. Unless indicated otherwise, all hearings will be held in the commissioner's office, sixth floor of the Lewis Cass building in Lansing.

History: 1944 ACS 36, p. 27; 1944 ACS 39, p. 8; 1954 AC, p. 6913.

R 501.302 Appearance.

Rule 2. When an appearance is made at a hearing, it shall be made either in person or by a duly authorized representative, or by counsel.

History: 1944 ACS 36, p. 27; 1954 AC, p. 6914.

R 501.303 Written answer or oral statement on charges.

Rule 3. The person or persons who have been served with a notice of hearing may, at his option, file a written answer thereto prior to the date set for hearing, or at said hearing may appear and present an oral statement on the charges contained in the notice of hearing. When written briefs or arguments are presented, a copy shall be served upon the commissioner and opposite parties at least 5 days prior to the date set for the hearing.

History: 1944 ACS 36, p. 27; 1954 AC, p. 6914.

R 501.304 Failure to appear.

Rule 4. If the person or persons who have been previously served with a notice of hearing fail to appear at a noticed hearing, the commissioner, or the member of the insurance departmental staff authorized by law to conduct such hearings, may proceed with a hearing of the cases brought before him and may, on the evidence presented, make his decision.

History: 1944 ACS 36, p. 27; 1954 AC, p. 6914.

R 501.305 Statement of facts.

Rule 5. When a hearing is requested, the party requesting the hearing shall submit in writing a fair and accurate statement of the facts to the insurance department and all interested parties. The facts shall be accepted as evidence unless a written answer is filed denying said facts and stating new facts relied upon with the department of insurance and all interested parties.

History: 1944 ACS 36, p. 27; 1954 AC, p. 6914.

R 501.306 Adjournment or continuance.

Rule 6. No hearing shall be adjourned or continued, except upon an order of the commissioner or the department employee conducting the hearing. All motions and requests for an adjournment, or a continuance, shall be in writing, which instrument shall state concisely the reasons why an adjournment or continuance is necessary. No motion or request for an adjournment or a continuance will be considered unless the same be filed with the department of insurance at least 5 days prior to the date assigned for the hearing of the application, complaint or petition, except upon order of the department of insurance, which exception will be granted only upon a showing that for reasons not within the control of the person or party making the motion or request, the motion or request could not be filed within the time limited.

History: 1944 ACS 36, p. 27; 1954 AC, p. 6914.

R 501.307 Stipulation.

Rule 7. The parties to any hearing before the department of insurance may, by a stipulation in writing, filed with the department of insurance, agree upon the facts or any portion of the facts involved in the controversy, which stipulation shall be regarded and used as evidence in the hearing. Parties are requested to thus agree upon the facts whenever practicable.

History: 1944 ACS 36, p. 27; 1954 AC, p. 6914.

R 501.308 Depositions.

Rule 8. Depositions shall only be taken upon written authority of the department of insurance where it is proved in writing to the department of insurance that it is impractical or impossible to otherwise obtain the evidence. Where depositions are permitted, they shall be taken according to the rules for taking depositions in civil cases in the state of Michigan, being §617.6 et seq. of the Michigan Compiled Laws, with all parties given an opportunity to cross-examine the witness under oath.

History: 1944 ACS 36, p. 27; 1954 AC, p. 6914.

PETITION REQUESTING PROMULGATION, AMENDMENT, OR RESCISSION OF RULES

(By authority of Act No. 197 of the Public Acts of 1952, as amended, being §24.101 et seq. of the Michigan Compiled Laws)

R 501.351 Statement of facts and law.

Rule 1. Said petition shall state the facts and law upon which the petitioner relies in seeking promulgation, amendment, or rescission of any rule.

History: 1944 ACS 36, p. 28; 1954 AC, p. 6915.

R 501.352 Writing requirement.

Rule 2. Said petition shall be presented in writing to the department of insurance 30 days prior to a decision in the matter.

History: 1944 ACS 36, p. 28; 1954 AC, p. 6915.

R 501.353 Disposition of petition by decision.

Rule 3. The department of insurance shall consider the petition and dispose thereof by submitting in writing to the petitioner and his attorney of record, the department's decision and reasons therefor.

History: 1944 ACS 36, p. 28; 1954 AC, p. 6915.

R 501.354 Request for hearing.

Rule 4. In the event said ruling on the petition is contrary to the request of the petitioner, the petitioner shall have 30 days during which time he may request a hearing before the department of insurance in accordance with the rules previously filed with the secretary of state on December 18, 1953, pursuant to Act No. 197 of the Public Acts of 1952.

History: 1944 ACS 36, p. 28; 1954 AC, p. 6915.

NONPROFIT HOSPITAL SERVICE CORPORATION CONTRACT

(By authority conferred on the commissioner of insurance by section 9 of Act No. 380 of the Public Acts of 1965, as amended, by section 33 of Act No. 306 of the Public Acts of 1969, as amended, by section 210 of Act No. 218 of the Public Acts of 1956, as amended, and by Act No. 109 of the Public Acts of 1939, as amended, being §§16.109, 24.233, 500.210, and 550.501 et seq. of the Michigan Compiled Laws)

R 550.1 Definitions.

Rule 1. As used in these rules:

(a) "Act" means Act No. 109 of the Public Acts of 1939, as amended, being §550.501 et seq. of the Michigan Compiled Laws.

(b) "Corporation" means a nonprofit hospital service corporation established under Act No. 109 of the Public Acts of 1939, as amended.

(c) "Commissioner" means the commissioner of insurance.

(d) "Participating hospital" means a hospital that has contracted with the corporation to provide hospital services.

(e) "Contract" means the agreement between the corporation and the participating hospitals currently in effect.

(f) "Initial contract" means the contract between the corporation and the participating hospitals approved by the commissioner at the time of the corporation's incorporation.

History: 1954 ACS 94, p. 189, Eff. Jan. 18, 1978.

R 550.5 Approval of contract changes.

Rule 5. A corporation shall submit to the commissioner for his approval a replacement, revision, amendment, modification, or other change in the initial contract.

History: 1954 ACS 94, p. 189, Eff. Jan. 18, 1978.

R 550.10 Cost containment contract provisions.

Rule 10. The contract shall include provisions which require that both the participating hospitals and the corporation engage in programs designed to limit, control, and contain increases in rates charged to subscribers by the corporation.

History: 1954 ACS 94, p. 189, Eff. Jan. 18, 1978.

R 550.15 Cost containment provisions required by commissioner.

Rule 15. (1) The commissioner shall, whenever he determines that it is necessary to do so in order to assure that rates to be charged to subscribers are fair and reasonable and that rates of payment to participating hospitals are not excessive, require that a specific cost containment area be addressed and made part of the contract.

(2) The commissioner hereby requires that the contract include a provision that addresses itself to each of the 5 following cost containment areas: (a) number of hospital beds, (b) hospital utilization, (c) surgical screening, (d) laboratory and x-ray procedures, and (e) incorrect and false billing. With respect to each of these areas, the commissioner's intent is as follows:

(a) Number of hospital beds: The number of hospital beds in Michigan shall be reduced to, and maintained at, the number necessary to minimize cost per bed and assure adequate bed availability.

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(b) Hospital utilization: The incidence and duration of hospitalization shall be limited to that which is medically necessary or appropriate.

(c) Surgical screening: The incidence of surgery shall be limited to that which is medically necessary or appropriate.

(d) Laboratory and x-ray procedures: Laboratory and x-ray procedures shall not be routinely ordered or prescribed but shall be performed only when medically necessary or appropriate.

(e) Incorrect and false billing: A system to ascertain incorrect or false billing to the corporation shall be developed and implemented.

History: 1954 ACS 94, p. 189, Eff. Jan. 18, 1978.

R 550.20 Specification and implementation of cost containment provisions.

Rule 20. (1) The cost containment provisions required by R 550.10 and R 550.15 shall be specifically enunciated within the contract or shall be made part of the contract by specific reference.

(2) A cost containment provision required by R 550.10 or R 550.15 shall specify the financial penalty or incentive designed to effectuate its objective.

(3) Approval by the commissioner of the cost containment provisions required by R 550.10 and R 550.15 may be given conditional to the submission to him of periodic reports detailing the progress made in implementing the commissioner's intent. A failure to demonstrate satisfactory progress toward implementing the commissioner's intent shall constitute a presumption that (a) the rates charged to subscribers are not fair and reasonable and (b) the rates of payment to participating hospitals are excessive.

History: 1954 ACS 94, p. 189, Eff. Jan. 18, 1978.

R 550.25 Reimbursement materials.

Rule 25. All materials setting forth the policies, practices, or methods by which the corporation makes payments to the participating hospitals shall be considered as provisions of the contract made by reference.

History: 1954 ACS 94, p. 190, Eff. Jan. 18, 1978.

R 550.30 Procedures for the approval of contract provisions.

Rule 30. The procedures by which the commissioner shall approve a change in the initial contract, except as is provided in these rules, shall be in the same manner and by the same standards as is set forth in the act for the approval of the initial contract.

History: 1954 ACS 94, p. 190, Eff. Jan. 18, 1978.

DEPARTMENT OF NATURAL RESOURCES

OFFICE OF LAND USE

FARMLAND AND OPEN SPACE PRESERVATION

(By authority conferred on the department of natural resources by section 17 of Act No. 116 of the Public Acts of 1974, being §554.717 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 554.701 Definitions.

Rule 1. (1) "Act" means Act No. 116 of the Public Acts of 1974, being §§554.701 to 554.719 of the Michigan Compiled Laws.

(2) "Department" means the department of natural resources.

(3) "Clerk" means the clerk of the local governing body or the person fulfilling the duties of the clerk.

(4) "Designated open space" means those open space lands as defined by section 2(8)(a) of the act.

(5) "Gross annual income" means an average computed from 2 of the 3 tax years immediately preceding the year of application from the raising or harvesting of any agricultural commodities.

(6) "Has been devoted primarily to an agricultural use" means all land for which an application for a farmland development rights agreement has been filed shall have been under agricultural use for at least 1 year during the 36-month period immediately preceding filing the application. Land under the agricultural stabilization and conservation service, United States department of agriculture, is eligible for inclusion as part of the farm operation.

(7) "Local open space" means those open space lands as defined by section 2(8)(b) of the act.

(8) "Specialty farm" means those enterprises of 15 or more acres in size which meet the income requirements of section 2(6)(c) of the act, produce agricultural, horticultural or floricultural commodities or are engaged in the business of breeding or husbanding animals, rendering services or yielding products customarily associated with agricultural operations.

(9) "State" means a major state department or agency thereof in agreement with the state land use agency.

(10) "State land use agency" means the office of land use of the department.

(11) "Totally and permanently disabled" means the inability to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or has lasted or can be expected to last for a continuous period of not less than 12 months.

History: 1954 ACS 83, p. 51, Eff. Apr 12, 1975.

PART 2. ELIGIBLE LANDS

R 554.721 Farmland development rights agreement.

Rule 21. (1) The farmland cited in an application for a farmland development rights agreement means:

(a) A farm of 40 or more acres, in 1 ownership, which has been devoted primarily to an agricultural use.

(b) A farm of 5 acres or more in 1 ownership, but less than 40 acres, devoted primarily to an agricultural use, which has produced a gross annual income from agriculture of $200.00 per year or more per acre of cleared and tillable land.

(c) A farm designated by the department of agriculture as a specialty farm in 1 ownership which has produced a gross annual income from an agricultural use of $2,000.00 or more.

(d) Parcels of land in 1 ownership which are not contiguous but which constitute an integral part of the farming operation being conducted on land otherwise qualifying as farmland may be included in an application under this act.

History: 1954 ACS 83, p. 52, Eff. Apr. 12, 1975.

R 554.722 Designated open space development rights easement.

Rule 22. (1) The land cited in an application for designated open space shall be classified as historic open space, riverfront open space, or shoreland open space:

(a) Historic open space are those lands as defined in section 2(8)(a)(i) of the act.

(b) Riverfront open space shall be a contiguous area of undeveloped land which lies within ¼ mile of a river designated under Act No. 231 of the Public Acts of 1970, being §§281.761 to 281.776 of the Michigan Compiled Laws, and any part of which is within 400 feet of the river, or is within an area zoned by the applicable local unit of government pursuant to that act.

(c) Shorelands open space shall be those undeveloped lands designated by the director of the department as an environmental area pursuant to Act No. 245 of the Public Acts of 1970, being §§281.631 to 281.645 of the Michigan Compiled Laws.

History: 1954 ACS 83, p. 52, Eff. Apr. 12, 1975.

R 554.723 Local open space development rights easement.

Rule 23. (1) The land cited in an application for a local open space development rights easement means any other area approved by the local governing body, the preservation of which in its present condition would conserve natural or scenic resources, including the promotion of the conservation of soils, wetlands, and beaches; the enhancement of recreation opportunities; the preservation of historic sites; and idle potential farmland of not less than 40 acres which is substantially undeveloped and which because of its soil, terrain and location is capable of being devoted to agricultural uses as identified by the department of agriculture.

(2) An application for a local open space development rights easement shall be considered on appeal to the state land use agency if it meets all of the following:

(a) Is 15 acres or more in size.

(b) Does not contain any residential, commercial, or industrial structures.

(c) Is not operated as a commercial facility.

(d) Bears significant importance to the public interest of more than local concern as a valuable land resource.

History: 1954 ACS 83, p. 52, Eff. Apr. 12, 1975.

PART 3. APPLICATION FOR DEVELOPMENT RIGHTS AGREEMENT OR EASEMENT

R 554.731 Application.

Rule 31. (1) The application shall be made on forms prescribed by the department and contain all requested information.

Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(2) The application shall be submitted to the clerk of the local governing body with the jurisdictional responsibility for the property cited in the application except that in those townships not having a duly adopted zoning ordinance pursuant to Act No. 184 of the Public Acts of 1943, as amended, being §§125.271 to 125.701 of the Michigan Compiled Laws, the application shall be submitted to the clerk of the governing body of the county.

(3) The application shall contain a map which includes the following information:

(a) All significant natural features, including but not limited to swamps, bogs, marshes, lakes, ponds, rivers, streams, woodlots, known mineral deposits and formations and sand dunes.

(b) All physical improvements including but not limited to buildings, roads, feedlots or any improvements under construction at the time of application.

(c) All acreage under active agricultural use by type of use.

(4) A copy of the most recent property tax assessment notice or tax bill shall accompany the application along with a statement by the applicant certifying the name of the owner of record, the legal description of the property and all liens, covenants and other encumbrances affecting the title to the land.

History: 1954 ACS 83, p. 53, Eff. Apr. 12, 1975.

R 554.732 Certification and review.

Rule 32. (1) The clerk shall certify the date of receipt of the application if the application meets the requirements of R 554.731 and the information contained in the application is accurate, to the best of the clerk's knowledge.

(2) The clerk shall provide a copy of the certification to the applicant.

(3) The clerk shall forward copies of the application to the reviewing agencies as required under the act. Notification shall include the final date for the acceptance of comments which shall be 30 days from the date of receipt of the application by the clerk.

(4) The clerk shall present the application at the next scheduled meeting of the local governing body and shall certify the date of presentation on the application.

(5) The 45-day review period for the local governing body commences when the application is presented to that body by the clerk.

History: 1954 ACS 83, p. 53, Eff. Apr. 12, 1975.

R 554.733 Review.

Rule 33. (1) In reviewing an application for a farmland development rights agreement or a designated open space development rights easement, the local governing body shall consider first the ability of the land cited in the application to meet the eligibility requirements of R 554.721 and R 554.722. The local governing body may then take into consideration:

(a) The physical resource characteristics for agricultural or designated open space use.

(b) Any encumbrance on the property.

(c) The relationship of the property to the entire farm operation if the application is for only a portion of the farm operation.

(d) The percentage of the land cited in the application which actually meets the definition for farmland or designated open space.

(e) Any other criteria which the local governing body can demonstrate as being relevant to the application.

(2) In reviewing an application for a farmland development rights agreement or a designated open space development rights easement, the state land use

agency shall reject an application only if it is in nonconformance with the eligibility requirements in R 554.721 and R 554.722. In reviewing an application on appeal for a farmland development rights agreement or a designated open space development rights easement, the state land use agency shall consider the ability of the land cited in the application to meet the eligibility requirements of R 554.721 and R 554.722. The state land use agency may then take into consideration:

(a) The physical resource characteristics for agricultural or designated open space use.

(b) Any encumbrance on the property.

(c) The relationship of the property to the entire farm operation if the application is for only a portion of the farm operation.

(d) The percentage of the land cited in the application which actually meets the definition for farmland or designated open space.

(e) Any other criteria which the local governing body has demonstrated as being relevant to the application.

(3) In reviewing an application for a local open space development rights easement, the local governing body shall first consider the ability of the land cited in the application to meet the eligibility requirements of R 554.723. The local governing body may then take into consideration:

(a) The physical resource characteristics for open space use.

(b) Any encumbrance on the property.

(c) The percentage of the land cited in the application which actually meets the definition for local open space.

(d) Any other criteria which the local governing body can demonstrate as being relevant to the application.

(4) In reviewing an application for a local open space development rights easement on appeal, the state land use agency shall consider the ability of the land cited in the application to meet the eligibility requirements of R 554.723.

History: 1954 ACS 83, p. 53, Eff. Apr. 12, 1975.

R 554.734 Approval or rejection.

Rule 34. (1) Approval or rejection of an application shall be by vote of the local governing body.

(2) The vote may be taken at either a regularly scheduled meeting of the local governing body or a special meeting called for the purpose of acting on the application. In each case the applicant shall be notified in writing by the clerk at least 5 days before the meeting of the time and place of the meeting.

(3) The clerk shall certify the results and date of the vote on the application.

(4) Within 10 days of the date the vote was taken, the clerk shall notify the applicant of the local governing body's decision. If rejected, the local governing body shall provide the applicant with a written statement citing the reasons for rejection.

(5) A locally approved application for a farmland development rights agreement or for a designated open space development rights easement, together with supporting materials, shall be forwarded to the state land use agency within 10 days of the date of approval by the local governing body.

(6) A copy of a locally approved application for a local open space development rights easement, together with copies of the supporting materials, shall be forwarded to the state land use agency for informational purposes within 30 days of the date of approval by the local governing body.

(7) The 60-day review period as provided in sections 5 and 7 of the act begins with receipt of the application or appeal request by the state land use agency.

(8) The applicant shall be notified within 15 days of the date of approval or rejection by the state land use agency. If rejected, the state land use agency shall provide the applicant with a written statement citing the reasons for rejection.

(9) All open space development rights easement applications approved by the state land use agency shall be submitted within 30 days to the clerk of the house of representatives and secretary of the senate. Copies shall be forwarded to:

(a) Chairman of the house taxation committee and chairman of the senate taxation committee.

(b) Chairmen of the appropriations committees.

(c) Directors of the house fiscal agency and senate fiscal agency.

(10) Upon approval of a farmland development rights agreement by the state land use agency or designated open space development rights easement by the legislature, the applicant shall have 30 days from date of receipt of the agreement or easement to execute the agreement or easement unless an extension is granted in writing by the state land use agency.

(11) Upon approval of a local open space development rights easement by the local governing body, the applicant shall have 30 days from the date of receipt of the local open space development rights easement to execute the easement unless an extension is granted in writing by the local governing body.

History: 1954 ACS 83, p. 54, Eff. Apr. 12, 1975.

R 554.735 Appeals.

Rule 35. (1) The applicant has 30 days from the date of notification by the clerk within which to initiate an appeal of a rejection by the local governing body.

(2) The applicant's appeal request shall be by certified letter to the state land use agency with the application as presented to the local governing body, a copy of the reasons for rejection and all other materials as required under R 554.731.

(3) An applicant has 30 days to appeal a rejection by the state land use agency. An appeal of a rejection by the state land use agency shall be by certified letter to the director of the department.

History: 1954 ACS 83, p. 55, Eff. Apr. 12, 1975.

R 554.736 Reapplication.

Rule 36. The 1-year waiting period for reapplication as provided in sections 5 and 7 of the act shall be from the date of notification of the last rejection permitted under the act, or if the applicant chooses not to appeal, from the date of expiration of the appeal period.

History: 1954 ACS 83, p. 55, Eff. Apr. 12, 1975.

R 554.737 Assessments.

Rule 37. (1) A copy of the state tax commission appraisal under sections 5 and 6 of the act shall be transmitted to the local assessor for the basis of the first assessment for the land covered by a farmland development rights agreement or an open space development rights easement. Subsequent assessments shall be reviewed annually by the local assessor in the same manner as other real property assessments. A copy of the termination appraisal by the state tax commission shall be transmitted to the local assessor.

(2) Subsequent to the execution of a farmland development rights agreement, the local assessing officer shall specify the state equalized valuation and the ad valorem taxes levied on the description and shall forward such information to the state land use agency by February 15 of each year until the agreement is terminated.

(3) Subsequent to the approval of a local open space development rights easement application by the legislature and execution of the easement by the applicant, the local assessing officer shall specify the state equalized valuation of the description exclusive of open space development rights, the state equalized valuation of the open space development rights and the ad valorem taxes not paid on the open space development rights and shall forward such information to the state land use agency by February 15 of each year until the easement is terminated.

History: 1954 ACS 83, p. 55, Eff. Apr. 12, 1975.

PART 4. TERMINATION OF A DEVELOPMENT RIGHTS AGREEMENT OR EASEMENT

R 554.741 Application.

Rule 41. (1) The application shall be made on forms prescribed by the department and shall contain all requested information.

(2) The application shall be submitted to the clerk of the local governing body with the jurisdictional responsibility for the property cited in the application except that in those cases of townships not having a duly adopted zoning ordinance pursuant to Act No. 184 of the Public Acts of 1943, being §§125.271 to 125.301 of the Michigan Compiled Laws, the application shall be submitted to the clerk of the governing body of the county.

(3) The application shall contain a map which includes all significant changes to the natural features of the land cited in the original application.

(4) A land owner or his heirs qualifying under section 11(2) of the act, death or total and permanent disability, at his option, may request termination of a development rights agreement or easement. The request shall be made to the holder of the development rights by certified mail stating the reasons for termination request and shall include a doctor's statement of health or a copy of the death certificate.

History: 1954 ACS 83, p. 55, Eff. Apr. 12, 1975.

R 554.742 Certification and review.

Rule 42. (1) The clerk shall certify the date of receipt of the application if the application meets the requirements of R 554.741 and the information contained in the application is accurate to the best of the clerk's knowledge.

(2) The clerk shall provide a copy of the certification to the applicant.

(3) The clerk shall forward copies of the application to the reviewing agencies as required under section 5(2) for farmland and designated open space and section 7(2) for local open space of the act. Notification shall include the final date for the acceptance of comments, 30 days from the date of receipt of the application by the clerk.

(4) The clerk shall present the application at the next scheduled meeting of the local governing body and shall on the application certify the date of presentation.

(5) The 45-day review period for the local governing body shall commence when the application is presented to that body by the clerk.

History: 1954 ACS 83, p. 56, Eff. Apr. 12, 1975.

R 554.743 Review.

Rule 43. (1) In reviewing a termination application for a farmland development rights agreement or a designated open space development rights easement, the local governing body or the state land use agency shall consider:

(a) That the agreement or easement imposes continuing economic inviability causing hardships through the prevention of necessary improvements to the land.

Digitized by Google

Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

Economic inviability consists of continued uneconomic operation because of the restrictions in the agreement or easement and not merely the existence of uses of the land that allow higher returns.

(b) Surrounding conditions impose physical obstacles to the agricultural operation or prohibit essential agricultural practices.

(c) Significant natural physical changes in the land which are generally irreversible in nature and permanently affect the land.

(2) In reviewing a termination application for a local open space development rights easement, the local governing body shall consider:

(a) That the easement imposes continuing economic inviability causing hardships through the prevention of necessary improvements to the land. Economic inviability consists of continued uneconomic operation because of the restrictions in the easement and not merely the existence of uses of the land that allow higher returns.

(b) Surrounding conditions or significant natural physical changes in the land which are generally irreversible in nature and permanently affect the land.

(3) If a termination application is for a local open space development rights easement which was appealed to the state land use agency and concurred in by the legislature, the application shall be forwarded to the state land use agency for review and recommendation to the legislature for final determination. The state land use agency shall consider:

(a) That the easement imposes continuing economic inviability causing hardships through the prevention of necessary improvements to the land. Economic inviability consists of continued uneconomic operation because of the restrictions in the easement and not merely the existence of uses of the land that allow higher returns.

(b) Surrounding conditions or significant natural physical changes in the land which are generally irreversible in nature and permanently affect the land.

(c) That the property cited in the easement no longer bears significant importance to the public interest.

History: 1954 ACS 83, p. 56, Eff. Apr. 12, 1975.

R 554.744 Approval or rejection.

Rule 44. (1) Approval or rejection of a termination application shall be by vote of the local governing body.

(2) The vote may be taken at either a regularly scheduled meeting of the local governing body or a special meeting called for the purpose of acting on the application. In each case the applicant shall be notified in writing by the clerk at least 5 days prior to the meeting of the time and place of the meeting.

(3) The clerk shall certify the results and date of the vote on the application.

(4) Within 10 days of the date the vote was taken, the clerk shall notify the applicant of the local governing body's decision. If rejected the local governing body shall provide the applicant with a written statement citing the reasons for rejection.

(5) A locally approved termination application for a farmland development rights agreement or for a designated open space development rights easement, together with supporting materials, shall be forwarded to the state land use agency within 10 days of the date of approval by the local governing body.

(6) A copy of a locally approved termination application for a local open space development rights easement, together with copies of the supporting materials, shall be forwarded to the state land use agency for informational purposes within 30 days of the date of approval by the local governing body.

R 554.747 Public interest; development rights agreements and designated open space easements.

Rule 47. (1) At any time that the state, in agreement with the land owner, considers that the release of the land covered by a farmland development rights agreement or designated open space development rights easement is in the public interest, it shall notify in writing the local governing body and all reviewing agencies.

(2) At any time the local governing body, in agreement with the land owner, determines that the release of the land cited in a local open space development rights easement is in the public interest, it shall notify in writing all reviewing agencies and the state land use agency.

(3) If the land cited by the local governing body was originally approved on appeal by the state land use agency, as provided under R 554.723, the land shall not be released without the consent of the state land use agency concurred in by resolution of the legislature.

DEPARTMENT OF COMMERCE

CORPORATION AND SECURITIES BUREAU

CONDOMINIUMS

(By authority conferred on the corporation and securities bureau by section 142 of Act No. 59 of the Public Acts of 1978, being §559.242 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 559.101 Definition, explanation, and scope of terms.

Rule 101. (1) As used in the act and these rules:

(a) "A 100-year flood" means a flood which has a 1% chance of occurring or being exceeded in any given year.

(b) "Act" means Act No. 59 of the Public Acts of 1978, being §559.101 et seq. of the Michigan Compiled Laws.

(c) "Advertising material" means a prospectus, pamphlet, circular, form letter, fact sheet, sign, newspaper or magazine ad, or any other sales literature or advertising communication addressed to, or intended for distribution to, prospective purchasers.

(d) "Floodplain" means that area of land adjoining a lake, watercourse, or similar body of water which will be inundated by a 100-year flood.

(e) "Imposition." The existence of any of the following factors, among others, indicates an imposition on purchasers or the public under sections 88(1) and 154(c) of the act:

(i) Failure to comply with the act or these rules where such failure would endanger the viability of the project.

(ii) Failure to comply with local, state, or federal statutes, ordinances, regulations, or rules where such failure would endanger the viability of the project.

(iii) Financial or contractual arrangements which permit the developer to directly or indirectly convey, assign, or otherwise transfer the developer's responsibility to fulfill contractual obligations to the project or to the co-owners in derogation of section 137 of the act.

(iv) A finding of any of the conditions in section 93 of the act.

(v) Publishing written or oral false or misleading statements concerning a condominium project.

(f) "Land surveyor" means either a surveyor who is registered in this state as a land surveyor, or a civil engineer who is registered in this state as a professional engineer.

(g) "Major boundary corners" means those property corners which comprise the total proposed condominium development of a particular project.

(h) "Minor boundary corners" means those property corners which are created by an individual phase of the project as it is developed in stages and does not mean a major boundary corner.

(i) "Unreasonable risk." The existence of any of the following factors indicates that a project creates an "unreasonable risk" to prospective co-owners under section 154(c) of the act:

(i) A prospective co-owner is likely to lose the money deposited towards the purchase of a condominium unit.

Digitized by Google

(ii) A prospective co-owner would not receive marketable title to the condominium unit.

(iii) The common elements of a condominium project are not completed as advertised or stated in the master deed or disclosure statement.

(iv) The developer does not pay the developer's share of the monthly assessments as required by the master deed or other legal documents.

(v) The developer enters into loans with, or borrows money from, the association prior to the transitional control date.

(vi) The developer fails to keep adequate financial records of income and expenditures of the association of co-owners prior to the transitional control date.

(vii) The developer commingles funds of the co-owners association.

(viii) Other actions which materially endanger the public interest or the interest of condominium co-owners.

(2) Terms defined in the act have the same meaning when used in these rules.

History: 1954 ACS 100, p. 100, Eff. July 31, 1979.

R 559.102 Name of proposed condominium project; reservation.

Rule 102. The name of a proposed condominium project shall not be such as to confuse or mislead the public. A developer who desires to reserve a name shall make written request to the administrator stating the condominium project name the developer desires to reserve. If the administrator determines that the name requested is not similar or identical to that of another condominium project and is not likely to mislead the public, the administrator shall reserve the name for the use and benefit of the developer for 45 days after receipt of the request. If the administrator determines that the name might confuse or mislead the public, the administrator shall advise the developer within 10 business days after receipt of the written request.

History: 1954 ACS 100, p. 101, Eff. July 31, 1979.

R 559.103 Documents filed with administrator.

Rule 103. A document filed with the administrator shall be typewritten or in legible handwriting on 1 side of the paper only, with the exception of the disclosure statement, which may be typed on both sides of the paper. One copy of each exhibit or document shall be submitted; however, the administrator may require more than 1 copy of any given exhibit or document. All papers filed pursuant to these rules shall become part of the administrator's records.

History: 1954 ACS 100, p. 101, Eff. July 31, 1979.

R 559.104 Processing of condominium project.

Rule 104. (1) Processing a condominium project will ordinarily occur in the following steps:

(a) Submission of an application for a permit to take reservations with exhibits.

(b) Issuance of a permit to take reservations.

(c) Submission of an application for approval of master deed and permit to sell, and exhibits.

(d) Issuance of a certificate of approval of master deed.

(e) Recording of master deed and certificate of approval of master deed.

(f) Issuance of a permit to sell.

(g) Recording the permit to sell.

(2) Approvals or permits regarding a condominium project will be by written order and mailed to the developer or the developer's attorney at the address given in the application.

History: 1954 ACS 100, p. 101, Eff. July 31, 1979.

R 559.105 Successor developer or mortgagee; notification of change in ownership.

Rule 105. A successor developer or mortgagee who acquires title to units in a condominium project pursuant to section 135 or 136 of the act shall notify the administrator of the change in ownership on a form prescribed by the administrator within 20 days of acquisition.

History: 1954 ACS 100, p. 101, Eff. July 31, 1979.

R 559.106 Disclosure booklet.

Rule 106. (1) The disclosure booklet required by section 84(3) of the act, to be distributed to prospective purchasers, shall be "The Condominium Buyers Handbook," as published by the administrator.

(2) "The Condominium Buyers Handbook" shall be distributed to purchasers who sign a purchase agreement, 10 days before a purchase agreement becomes a binding agreement, pursuant to section 89 of the act.

History: 1954 ACS 100, p. 101, Eff. July 31, 1979.

R 559.107 Advertising, sales material, and other representations.

Rule 107. (1) Advertising, sales material, and oral representations shall be truthful and accurate and designed to fully inform the public about the project. Such materials shall not be presented in such a way as to create a false impression about the nature, status, quality, or cost of a proposed condominium project or its location.

(2) A developer or any agent shall not represent to any person that the administrator has inspected or approved the quality, value, or price of any unit.

History: 1954 ACS 100, p. 102, Eff. July 31, 1979.

R 559.108 Independent hearing officers.

Rule 108. (1) Pursuant to section 157(4)(b) of the act, independent hearing officers shall possess, at a minimum, the following qualifications:

(a) A juris doctor degree, a bachelor of law degree, or the equivalent.

(b) An expertise or working knowledge of the Michigan administrative procedures act.

(c) An expertise or working knowledge of the condominium act and rules promulgated thereunder.

(2) The procedures to be utilized in the compilation of a list of independent hearing officers shall be as follows:

(a) The American arbitration association shall distribute public notice of the availability of the position as an independent hearing officer. The notice shall set forth the qualifications necessary to obtain the position.

(b) The American arbitration association shall select qualified persons and compile a list of these individuals to be submitted to the administrator; such list to be updated by the American arbitration association each fiscal year.

(c) The administrator shall select, at random, an individual on the list to conduct a specified hearing on behalf of the administrator.

History: 1954 ACS 100, p. 102, Eff. July 31, 1979.

R 559.109 Termination of condominium project; notice to interested parties; proof of proper dissolution.

Rule 109. (1) Pursuant to sections 50 and 51 of the act, the administrator may require proof that notification of termination has been made to all parties interested in the project, including the following:

(a) Escrow agents.
(b) Land contract vendors.
(c) Project creditors.
(d) Project lienors.
(e) Prospective purchasers who have deposited funds.
(f) Any other person who holds an outstanding interest in the condominium property.

(2) Such notice shall be made by first class mail to the person's last known address.

(3) Upon the termination of a condominium project, the developer or the association of co-owners shall submit to the administrator proof of proper dissolution. Such proof may include a copy of the certificate of dissolution or other comparable documents issued by the state of incorporation.

History: 1954 ACS 100, p. 102, Eff. July 31, 1979.

R 559.110 Mobile home, marina, recreational condominiums.

Rule 110. (1) The developer of a mobile home condominium shall demonstrate to the administrator compliance with Act No. 419 of the Public Acts of 1976, being §125.1101 et seq. of the Michigan Compiled Laws and the rules promulgated thereunder.

(2) Existing mobile home parks which propose to convert to condominiums shall do both of the following:

(a) Meet the standards set for new mobile home parks, as set forth in Act No. 419 of the Public Acts of 1976 and the rules promulgated thereunder.

(b) Comply with the requirements imposed on conversion projects under the condominium act and these rules.

(3) If the developer demonstrates to the administrator that a specific standard or requirement should be waived and that a waiver is in the public interest, the administrator may waive the requirements in subrule (2)(a) and (b) above.

(4) A developer of a campground, marina, and recreational condominium shall demonstrate to the administrator, prior to obtaining a permit to sell, that the appropriate local, state, and federal statutes, laws, and ordinances have been complied with and that all necessary permits have been obtained.

History: 1954 ACS 100, p. 102, Eff. July 31, 1979.

R 559.111 Shared recreational facilities.

Rule 111. Pursuant to sections 36 and 134 of the act, a recreational facility which is to be enjoyed by condominium co-owners and third parties shall comply with at least the following:

(a) When the recreational facilities are owned by the condominium co-owners and are to be used by a third party, the following conditions shall be met:

(i) Disclosure shall be made to all prospective purchasers that the recreational facilities will be shared with a third party.

(ii) The master deed shall place a limit on the number of outside parties who can use the recreational facilities.

(iii) The master deed shall set forth, in detail, the financial obligations of all the parties involved.

(b) When recreational facilities are owned by a third party and condominium co-owners are obligated to help financially support the recreational facilities, the following conditions shall be met:

(i) Disclosure shall be made to prospective purchasers of their financial obligations and responsibilities as co-owners to support the recreational facilities.

Such disclosure shall include information regarding all fees charged and compensation paid.

(ii) The condominium co-owners shall have an equitable vote as to the operation and management of the recreational facilities, which is to be approved by the administrator.

(iii) An arbitration clause to settle disputes upon consent of the parties shall be included in the condominium legal documents.

(iv) The necessary easements shall be established.

(v) The books and records of the recreational facilities shall be kept separate from other operations and shall be made available for inspection by the co-owners.

History: 1954 ACS 100, p. 103, Eff. July 31, 1979.

R 559.112 Condominium project warranties.

Rule 112. Condominium project warranties, within the meaning of section 110 of the act, shall comply with state and federal law. The terms of any warranty offered in connection with the sale of a condominium unit shall be clearly disclosed. The name, address, and telephone number of the individual responsible for fulfilling warranty claims shall be stated in the warranty.

History: 1954 ACS 100, p. 103, Eff. July 31, 1979.

PART 2. PERMIT TO TAKE RESERVATIONS

R 559.201 Request for permit to take reservations.

Rule 201. (1) A request for a permit to take reservations shall include all of the following:

(a) An application for a permit to take reservations on the form prescribed by the administrator, properly and completely filled in and executed.

(b) A copy of the proposed reservation and subscription agreement.

(c) A copy of the executed escrow agreement which complies with R 559.801.

(d) Evidence that a written notice of intent to construct, pursuant to section 71 of the act, was provided to the appropriate authorities.

(e) If the project is not to be served by an existing municipal water and sewage system, the developer shall furnish to the administrator a proposal for the sewer or water system, or both.

(f) A statement of whether the proposed project abuts a lake, stream, channel, or 100-year floodplain.

(g) Evidence satisfactory to the administrator that the project is or will be, at the time of approval of the master deed, in compliance with local zoning requirements and that the local unit of government has or will issue a building permit for construction of the project.

(2) The reservation and subscription agreement and the escrow agreement may be integrated into 1 document.

(3) The reservation and subscription agreement shall prominently disclose all the conditions under which either party can vary the terms of the agreement.

(4) A copy of the approved signed escrow agreement shall be furnished to a purchaser at the time of signing a reservation and subscription agreement, or other agreement, approved by the administrator.

(5) The administrator shall attempt to issue a permit to take reservations or its intent to deny the order within 30 days after receipt by the administrator of an application for a permit to take reservations.

PART 3. CONTENTS OF A MASTER DEED

R 559.301 Minimum requirements.

Rule 301. (1) A master deed shall contain a statement referring to the condominium subdivision plan and the condominium bylaws, and shall incorporate them by reference.

(2) A master deed shall contain the mandatory provisions required by sections 8, 9, 37(3), and 69 of the act.

(3) Where applicable, a master deed shall contain the provisions in sections 31, 32, 33, 34(2), 35, 36, 37(1) and (2), 41, 45, 46, 47, 49, and 121 of the act.

(4) A master deed shall describe in detail all general and limited common elements. Pursuant to section 39 of the act, limited common elements shall be assigned in the master deed, unless the power to amend the master deed to make such assignments is reserved to the developer and the administrator approves it. The master deed shall designate the manner in which the common elements will be assessed.

(5) Pursuant to sections 35, 40, and 44 of the act, a master deed shall provide for the following easements:

(a) Reciprocal easements for a change of boundaries of units due to shifting, settling, or moving of a building in the condominium project.

(b) Easements for installation, maintenance, and service for all utilities, including light, heat, power, sewer, water, and communications.

(c) If the project is not served by an existing municipal water and sewage system, and any component of the system is not located on property to be owned by the condominium, an easement shall be obtained, or other suitable arrangement made, for the repair and maintenance of such components, so long as the system continues to be used by the project.

(d) Such other easements as may be necessary for continued use and enjoyment of the project.

History: 1954 ACS 100, p. 104, Eff. July 31, 1979.

PART 4. CONDOMINIUM SUBDIVISION PLAN

R 559.401 General requirements.

Rule 401. (1) The condominium subdivision plan shall be an exhibit to the master deed. The drawings which constitute the plan shall be prepared by an architect, land surveyor, or civil engineer, licensed to practice in this state. More than 1 such individual may prepare different segments of the same condominium subdivision plan.

(2) Submissions for review shall be reproductions of original drawings measuring 24 inches by 36 inches. Each sheet shall contain the name of the condominium, the name and address of the firm responsible for the preparation of that sheet, and shall bear a legible seal and signature of the individual responsible for the preparation of that sheet. A complete condominium subdivision plan shall be comprised of cover sheet, survey plan, site plan and utility plan, and building floor plan, sections and floodplain plan, where applicable. Where appropriate, individual plans may be combined, provided this does not impair legibility.

History: 1954 ACS 100, p. 104, Eff. July 31, 1979.

R 559.402 Contents.

Rule 402. A complete condominium subdivision plan shall be comprised of the following:

(a) A cover sheet, showing all of the following:

(i) The name and location of the condominium project.

(ii) Prescribed wording as indicated in section 66(3) of the act for assignment of a condominium subdivision plan number by the county register of deeds.

(iii) Prescribed wording stating the exhibit letter or number as used in the master deed.

(iv) The name and address of the developer.

(v) A complete and accurate written property description.

(vi) A comprehensive sheet index.

(b) A survey plan, showing all of the following:

(i) A surveyor's certificate prescribed as follows:

SURVEYOR'S CERTIFICATE

I, _____ (Name of Individual), registered land surveyor or registered civil engineer of the state of Michigan, hereby certify:

That the subdivision plan known as _____ (name) county condominium subdivision plan no. _____ , as shown on the accompanying drawings, represents a survey on the ground made under my direction (that there are no existing encroachments upon the lands and property herein described) or (that there are existing encroachments upon the lands and property described as shown).

That the required monuments and iron markers have been located in the ground as required by rules promulgated under section 142 of Act No. 59 of the Public Acts of 1978.

That the accuracy of this survey is within the limits required by the rules promulgated under section 142 of Act No. 59 of the Public Acts of 1978.

That the bearings, as shown, are noted on survey plan as required by the rules promulgated under section 142 of Act No. 59 of the Public Acts of 1978.

_____ (Date)

_____ (Signature)

Individual Name—Printed
Registered land surveyor or
Registered civil engineer
Registration No. _____ (fill in)
(Firm name—if any)
(Firm address)

(Seal)

(ii) All easements and encroachments, whether of benefit or burden, dimensioned and identified.

(iii) All property boundaries complete with bearings, distances, and curve data necessary to completely traverse the parcel or parcels.

(iv) All property corners monumented as prescribed in R 559.407(1)(a).

(v) A survey bench mark shown by symbol and described with its elevation referenced to an official bench mark of the national geodetic survey of the United States geological survey, which are based on the national geodetic vertical datum of 1929. If the bench mark is more than 200 feet from the total site, a permanent bench mark shall be established within that distance in accordance with the generally accepted standards for establishment of such a bench mark.

(vi) Identification of all contiguous properties or waterways.

(vii) In the case of expandable condominium projects, all land on which the balance of the project may be located shall be shown, complete with distances, bearings, and curve data, identified as proposed future development. This land shall be shown in relationship to the phase being currently submitted.

(viii) A location map of the project with its relationship to the surrounding area.

(c) A floodplain plan when the condominium lies within or abuts a floodplain area, showing all the following:

(i) The location of all condominium buildings and improvements.

(ii) The floodplain shall be shown within a contour line as established by the department of natural resources.

(iii) The floodplain contour line shall be shown to the point where it intersects with the boundaries of the condominium project or to its limits, whichever is greater, and be dimensioned to the nearest whole foot from the street or traverse line.

(iv) The contours over the entire project shown at 2-foot intervals.

(v) The floodplain area shall be clearly labeled with words "floodplain area." A common element or a condominium unit, other than a campsite or a marina unit, shall not be constructed where it may be reasonably anticipated that the structures will be damaged by flooding. Where the proposed condominium project is within a floodplain, the administrator may require a statement from a registered engineer that the subject property is not in apparent present or future danger of flooding, including herewith an explanation of the factors leading to that conclusion.

(d) A site plan showing all of the following:

(i) Specific locations of all property corners, condominium buildings or units, and improvements by a coordinate system established in the form of latitudes and departures in north-south and east-west directions from an established point, preferably a property corner.

(ii) All coordinate values referenced to either the Michigan coordinate system, prescribed by Act No. 9 of the Public Acts of 1964, being §§54.231 to 54.239 of the Michigan Compiled Laws, or to a city coordinate system, if one exists, or to a monument set during the survey, if such coordinate systems have not been established.

(iii) The relationship of the condominium units to the condominium property boundaries by either showing 2 coordinates on the same line, as prescribed in (ii) above, on 2 corners of the building or unit, or by 1 coordinate on the building or unit corner, and by a bearing related to the true meridian or a previously established meridian.

(iv) All general and limited common elements and approximate size.

(e) A utility plan showing all of the following:

(i) All utility lines for gas, electricity, water, steam, telephones, storm sewer, sanitary sewer, or services of a similar nature.

(ii) A legend stating the source from which the location information was obtained.

(iii) The location and identity of all utility meters.

(iv) The size of the various utility lines.

(f) Floor plans, when the use is intended for residential, office, industrial or business, or any other type, with the ownership contained within a building or buildings, showing all of the following:

(i) All structures and the specific location of each condominium unit in the project, which shall be by a system of dimensional descriptions and angle measurements.

(ii) Each floor of each building, including all general and limited common elements and approximate size.

(iii) Each unit's boundaries clearly distinguishable by a heavy black line.

(iv) The area of each condominium unit.

(v) A number assigned to each unit.

(g) Sections, when the use is intended for residential, office, industrial or business, or another type with the ownership contained within a building, or buildings, showing all of the following:

(i) The required number of views necessary to accurately identify the vertical boundaries of the condominium units.

(ii) Dimensioned all vertical boundaries as referenced to an elevation established at any floor, based on the national geodetic vertical datum of 1929.

(iii) All general and limited common elements.

(iv) All unit boundaries identified by a heavy black line.

History: 1954 ACS 100, p. 104, Eff. July 31, 1979.

R 559.403 Mobile home condominium subdivision plan; contents.

Rule 403. (1) A mobile home condominium subdivision plan shall be composed of a cover sheet, survey plan, floodplain plan, where applicable, utility plan, and site plan, complying with R 559.402(1)(a), (b), (c), (d), and (e).

(2) In addition to the aforementioned requirements, show all of the following:

(a) Sufficient dimensions and angle measurements to accurately identify the area of fee simple ownership contained within a given description on top of the mobile home pad.

(b) If basements are provided as part of a mobile home condominium unit, a section shall be provided, complying with R 559.402(1)(g), and floor plan of that basement area shown, complying with R 559.402(1)(f).

History: 1954 ACS 100, p. 106, Eff. July 31, 1979.

R 559.404 Campsite condominium subdivision plan; contents.

Rule 404. (1) A campsite condominium subdivision plan shall be composed of a cover sheet, survey plan, floodplain plan, where applicable, utility plan, and site plan, complying with R 559.402(1)(a), (b), (c), (d), and (e).

(2) In addition to the aforementioned requirements, show sufficient dimensions and angle measurements to accurately identify the area of fee simple ownership contained within a given description on top of the ground.

(3) The survey plan shall be shown complying with all requirements of R 559.402(1)(b), and each individual condominium campsite shall have its boundaries identified on site by setting iron or steel stakes ½ inch in diameter and 18 inches in length, at all corners of the campsite. These stakes shall be so identified on the survey plan.

History: 1954 ACS 100, p. 106, Eff. July 31, 1979.

R 559.405 Marina condominium subdivision plan; contents.

Rule 405. (1) A marina condominium subdivision plan shall be composed of a cover sheet, survey plan, floodplain plan, where applicable, utility plan, and site plan complying with R 559.402(1)(a), (b), (c), (d), and (e).

(2) In addition to the aforementioned requirements, show all of the following:

(a) Sufficient dimensions and angle measurements to accurately identify the area of fee simple ownership contained within a given description on top of the water and adjacent to a slip, dock, or similar structure.

(b) The elevation of the adjacent dock or docks referenced to a bench mark on the national geodetic datum of 1929.

(c) The all time high and low water elevations for the Great Lakes and high and low water elevations, of record, for inland lakes.

History: 1954 ACS 100, p. 107, Eff. July 31, 1979.

R 559.406 Recreational facilities.

Rule 406. A recreational facility which is part of the condominium shall be illustrated on the site plan in the actual location of the facility, or in the case of a proposed facility, the proposed location shall be shown and so identified. Actual floor plans of the facility, if it involves a structure, are not required until it is added to the project. When the facility is added to the condominium, it shall be shown on the site, floodplain, and utility plans. Floor plans of each recreational facility structure shall be shown as part of the condominium subdivision plan.

History: 1954 ACS 100, p. 107, Eff. July 31, 1979.

R 559.407 Survey requirements.

Rule 407. With respect to the minimum requirements for the survey of a proposed condominium project, monuments shall be located in the ground, according to the following requirements:

(a) Monuments consisting of iron or steel bars, or pipes not less than ½ inch in diameter and 36 inches in length, and completely encased in concrete not less than 4 inches in diameter, shall be placed at all major boundary corners.

(b) Monuments consisting of iron or steel bars, or pipes not less than ½ inch in diameter and 18 inches in length, or other approved markers shall be placed at all minor boundary corners.

(c) Monuments shall be located in the ground at all angles in the boundaries of the condominium project boundary; at all points of curvature, points of tangency, points of compound curvature, points of reverse curvature, and angle points in the side lines of streets and alleys, and at all angles of an intermediate traverse line.

History: 1954 ACS 100, p. 107, Eff. July 31, 1979.

R 559.408 Identification of a unit, common element, and amenity.

Rule 408. A unit, limited common element, and amenity shall be identified as follows:

(a) Each unit within a proposed condominium project shall be numbered consecutively, beginning with number 1, throughout the entire project.

(b) Units within a multi-phase development shall be numbered consecutively throughout all phases or amendments.

(c) The same unit number shall not be repeated for different units in the same project.

(d) A unit number shall be shown within the area of ownership for that unit on the condominium subdivision plan.

(e) A structure or improvement, other than those containing units to be conveyed, shall be identified by its title.

History: 1954 ACS 100, p. 107, Eff. July 31, 1979.

R 559.409 Superseding consolidated subdivision plan.

Rule 409. Upon completing and recording the last phase of a multi-phase project, whether the original plan submissions were done by amendment or separate phases, a superseding consolidated subdivision plan shall be prepared and submitted for approval. The superseding consolidated subdivision plan shall combine all previously recorded condominium subdivision plans in the following manner:

(a) For projects recorded by amendments:

(i) Eliminate all reference to replats, but retain the condominium subdivision plan number as originally assigned.

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j

(ii) Include prescribed wording, stating the exhibit number or letter as used in the consolidated master deed.

(iii) Eliminate all reference to amended sheets in the sheet index.

(iv) Redate each sheet.

(v) In all other aspects, these drawings shall be the same as the last submission for approval for that particular project.

(b) For projects recorded in separate phases:

(i) Eliminate all reference to phase, section, segment, and number.

(ii) Include prescribed wording, stating the exhibit number or letter as used in the consolidated master deed.

(iii) Redate each sheet.

(iv) Use the prescribed wording indicated as follows, for reference of the previously assigned condominium subdivision plan numbers: Replat No. _____ of _____ county condominium subdivision plans. Nos. _____, _____, _____, _____, _____, _____. (As previously assigned by the county register of deeds).

(v) Use the prescribed wording as indicated in section 66(3) of the act for assignment of a new condominium subdivision plan number for the consolidation.

(vi) Remove all boundaries on the site, survey, utility, and floodplain plans, which are now contiguous, due to the consolidation of properties.

(vii) Revise the property description to be 1 description of the consolidated property.

History: 1954 ACS 100, p. 107, Eff. July 31, 1979.

R 559.410 Amendments and replats.

Rule 410. (1) Each condominium subdivision may be amended to reflect changes in the boundaries of a condominium unit, or the addition or elimination of condominium units which are constituted as a replat, as specified in section 67 of the act. An amendment may also reflect changes in the boundaries of the land, correction of errors, as-built plans, and changes in common elements. All changes in the originally recorded condominium plans shall be made in accordance with the following requirements:

(a) Each sheet shall be redated.

(b) Only the revised sheets and cover sheet shall be submitted to the administrator for approval.

(c) The sheets being replaced and any new sheets shall be indicated in the sheet index.

(2) An amendment or a replat to an originally recorded condominium subdivision plan may be prepared by the original land surveyor, architect, or civil engineer, or any other such professional licensed to practice in Michigan. If another professional does prepare the amendment or replat, this does not exempt the original preparer from his or her signatures, if such signature reflects work of an earlier submission.

History: 1954 ACS 100, p. 108, Eff. July 31, 1979.

R 559.411 As-built condominium subdivision plans.

Rule 411. (1) As-built drawings are required if the drawings originally submitted were proposed and did not contain as-built data at the time of issuance of the order of approval of the master deed. Upon completion of construction of all buildings and improvements represented on the proposed condominium subdivision plans, the developer, in conjunction with the architect, engineer, or surveyor who prepared the plan, shall file an affidavit with the administrator certifying that

construction of the condominium is complete. Within 120 days of filing the affidavit, the developer shall submit as-built drawings to the administrator depicting the project as constructed. These plans shall contain as-built data of all the following:

(a) The coordinate values of the various buildings or units.
(b) All dimensions of the various buildings and units.
(c) The location of all permanent improvements.
(d) The relationship of the buildings to a true meridian.
(e) All general and limited common elements.
(f) Area of each unit.
(g) Floor elevations.

(2) Each sheet of the as-built condominium subdivision plan shall be labeled "AS-BUILT dated _____," and the notations representing the project as proposed shall be removed.

(3) A condominium subdivision plan, which is comprised entirely of existing buildings and where as-built data were used in the preparation of the plans, need not have as-built drawings submitted.

History: 1954 ACS 100, p. 108, Eff. July 31, 1979.

R 559.412 Correction of errors.

Rule 412. All correction of errors shall be made and reviewed by the administrator before approval may be issued. Where an error involves only the correction of certain pages of the condominium subdivision plan, insert pages shall be accepted.

History: 1954 ACS 100, p. 109, Eff. July 31, 1979.

R 559.413 Easements and dedicated thoroughfares.

Rule 413. A thoroughfare which is proposed to be dedicated to the municipality, county, or state shall be designated on the condominium subdivision plans as "proposed dedication." An easement providing adequate ingress and egress over the proposed dedication shall be provided and shown on the condominium subdivision plan in all cases, unless the road was dedicated prior to the issuance of the order of approval of the master deed. An easement required for establishment and operation of a condominium project, whether for benefit or burden, shall be recorded prior to the issuance of the order of approval of the master deed. Description of the easement may be made by reference to the liber and page number where it is recorded. However, the easement shall be drawn on the survey plan and shall conform to the description as recorded.

History: 1954 ACS 100, p. 109, Eff. July 31, 1979.

R 559.414 Availability of architectural plan, specifications, and survey data.

Rule 414. An architectural plan, specifications, and survey data, which were used to prepare the condominium subdivision plan, shall be available to the administrator upon request.

History: 1954 ACS 100, p. 109, Eff. July 31, 1979.

R 559.415 Recordation of the condominium subdivision plan.

Rule 415. A condominium subdivision plan shall be recorded in the county in which the project is located. If a project crosses county lines, it shall be recorded in both counties. The condominium subdivision plan number shall be assigned by the county in consecutive sequence, beginning with number 1, according to section 66(3) of the act. The county shall show the number which it has assigned in

the spaces provided in the master deed and condominium subdivision plan, and shall keep an accurate record of those numbers. The condominium subdivision plan shall be photographically reduced, by the developer, to approximately 8½ inches by 14 inches, and submitted for recording. The same condominium subdivision plan in a size measuring 24 inches by 36 inches shall be delivered to, and retained by, the county register of deeds office. Either plan which is retained by the county register of deeds office shall be available for inspection upon request.

History: 1954 ACS 100, p. 109. Eff. July 31, 1979.

PART 5. BYLAWS IN A MASTER DEED

R 559.501 Condominium bylaws generally.

Rule 501. (1) The condominium bylaws shall be attached to, and incorporated by reference in, the master deed.

(2) The condominium bylaws shall contain the mandatory provisions of section 54 of the act and as hereinafter set forth.

(3) An amendment to, or a change in, the condominium bylaws shall be approved by the administrator before it is effective and the master deed or bylaws shall so state.

(4) If the association of co-owners administering the affairs of the condominium project is a corporation, the corporation's bylaws are hereinafter designated corporate bylaws or association bylaws and shall not be confused with condominium bylaws, hereinafter referred to as bylaws.

(5) The bylaws shall state all of the following:

(a) The name and location of the condominium project.

(b) The purpose of the bylaws.

(c) Whether the project is a residential condominium, an industrial condominium, a commercial condominium, a professional condominium, a campsite condominium, a marina condominium, a mobile home condominium, or other type of condominium.

(d) Any restrictions affecting the use of individual units or common elements.

History: 1954 ACS 100, p. 109. Eff. July 31, 1979.

R 559.502 Administration and membership provisions.

Rule 502. (1) The bylaws shall designate the association of co-owners as responsible for the management and administration of the common elements, property, easements, and the affairs of the condominium project. The association of co-owners may form or organize an entity for managing the property, or otherwise provide for independent management of the project. The bylaws shall indicate the form of the association of co-owners; whether it was created and will operate as a profit or nonprofit corporation, a partnership, or an unincorporated association. Where the association is an entity other than a nonprofit corporation, the administrator may require specific disclosures to be set forth in the disclosure statement, indicating the liabilities, tax consequences, and other material information resulting from the form of the association of co-owners.

(2) The bylaws may provide reasonable provisions to facilitate the development and sale of the project by the developer until completion of the project.

(3) Pursuant to section 52 of the act, the bylaws or the master deed shall contain all of the following provisions:

(a) A definite date upon which the first annual meeting will be held, at which meeting the co-owners may vote for the election of the directors of the association

of co-owners. The date shall be set within a reasonable period of time after the recording of the original master deed.

(b) A date acceptable to the administrator when the developer shall establish an advisory committee of nondeveloper co-owners.

(4) The bylaws shall provide that membership in the association of co-owners shall be limited to persons who own 1 or more units in the condominium project and each co-owner shall be a member of the association of co-owners.

History: 1954 ACS 100, p. 110, Eff. July 31, 1979.

R 559.503 Meetings.

Rule 503. (1) The bylaws shall provide the following:

(a) An annual meeting of the members of the association of co-owners shall be held and other meetings may be provided for in the bylaws. A minimum of 10 days' notice shall be provided.

(b) The presence in person or by written consent of ⅓ of the co-owners in number and in value shall constitute a quorum for holding a meeting. The bylaws may provide that a greater number shall constitute a quorum. A quorum may act on all matters affecting the condominium except as to matters where the act, the master deed, or the bylaws require otherwise.

(c) The value of each vote may be equal to the total percentage of value assigned to the unit owned by such co-owner or, pursuant to section 54(7) of the act, each unit may have an equal number of votes. Voting shall be by value, except where it is required to be by number or by number and value. The bylaws shall provide that a co-owner is not entitled to vote at a meeting of the association of co-owners until evidence of ownership of a unit in the condominium project has been presented to the association. The vote of a co-owner may only be cast in person, by the individual representative designated by the co-owner as provided in subdivision (d), or by a proxy delivered to the secretary of the association before each meeting.

(d) A co-owner may file a written notice with the association of co-owners designating the individual who shall vote at meetings of the association of co-owners and receive notices and other communications from the association on behalf of such co-owner. The notice shall state the name and address of the individual representative designated, the number of the units owned by the co-owner, and the name and address of the persons, firm, corporation, partnership, association, trust, or other legal entity that is the co-owner. The notice shall be signed by the co-owner. The individual designated may be changed by the co-owner at any time by filing a new notice as required herein.

(2) The bylaws shall state the majority required for approval or disapproval of any matter brought up at any meeting of the association of co-owners.

History: 1954 ACS 100, p. 110, Eff. July 31, 1979.

R 559.504 Books; inspection; cost of annual audit.

Rule 504. The bylaws shall provide that the books shall be maintained in accordance with section 57 of the act. The cost of the annual audit shall be an expense of administration. The right of inspection of the books by co-owners may be limited to a reasonable time and place specified in the bylaws.

History: 1954 ACS 100, p. 111, Eff. July 31, 1979.

R 559.505 Copies of condominium documents; availability.

Rule 505. The bylaws shall provide that the association of co-owners shall keep current copies of the approved master deed and amendments and all other

condominium documents available for inspection in accordance with section 68 of the act.

History: 1954 ACS 100, p. 111, Eff. July 31, 1979.

R 559.506 Destruction or condemnation of property.

Rule 506. The bylaws shall set forth the rights of the co-owners and the procedures to be followed in case of partial or complete destruction, or partial or complete taking by condemnation.

History: 1954 ACS 100, p. 111, Eff. July 31, 1979.

R 559.507 Mortgages.

Rule 507. The bylaws shall provide that a co-owner who mortgages his or her unit shall notify the association of co-owners of the name and address of the mortgagee, and that the association of co-owners shall maintain such information in a book entitled, "Mortgages of Units." The association of co-owners may notify the mortgagee of unpaid assessments due from the co-owner of such unit. The association of co-owners shall furnish an individual mortgagee with complete information on all insurance carried by the association of co-owners.

History: 1954 ACS 100, p. 111, Eff. July 31, 1979.

R 559.508 Insurance.

Rule 508. The bylaws shall provide that the association of co-owners shall carry insurance for fire and extended coverage, vandalism and malicious mischief, and, if applicable, liability and workers' disability compensation, pertinent to the ownership, use, and maintenance of the premises and that all premiums for insurance carried by the association shall be an expense of administration. The association may carry other insurance coverage, including cross-coverage for damages done by 1 co-owner to another.

History: 1954 ACS 100, p. 111, Eff. July 31, 1979.

R 559.509 Structural repair or modification of unit; access to unit by designated person.

Rule 509. (1) The bylaws shall provide that a co-owner who desires to make a structural repair or modification of his or her unit shall first obtain written consent of the association of co-owners. The association shall not consent if such repair or modification may jeopardize or impair the structural soundness or safety, or both, of the project.

(2) The bylaws shall provide that any person designated by the association of co-owners shall have access to each unit as necessary during reasonable hours, upon notice to the occupant thereof, for maintenance, repair, or replacement of any of the common elements therein or accessible therefrom, and shall have access to each unit without notice for making emergency repairs necessary to prevent damage to other units or the common elements, or both.

History: 1954 ACS 100, p. 111, Eff. July 31, 1979.

R 559.510 Compliance with act, master deed and bylaws, the articles of association, and rules and regulations adopted by association.

Rule 510. The bylaws shall provide, in accordance with section 65 of the act, that all present and future co-owners, tenants, and any other persons or occupants using the facilities of the project in any manner are subject to, and shall comply

with, the act, the master deed and bylaws, and the articles of association, and rules and regulations adopted by the association of co-owners.

History: 1954 ACS 100, p. 111, Eff. July 31, 1979.

R 559.511 Reserve fund for major repairs and replacement of common elements.

Rule 511. (1) The bylaws shall provide that the association of co-owners shall maintain a reserve fund for major repairs and replacement of common elements in accordance with section 105 of the act. The co-owners association shall maintain a reserve fund which, at a minimum, shall be equal to 10% of the association's current annual budget on a noncumulative basis. The 10% minimum standard required by this rule may be modified upon application to the administrator for good cause.

(2) The funds contained in the reserve fund required to be established by section 105 of the act shall only be used for major repairs and replacement of common elements.

(3) There shall be set aside the amount of funds required by subrule (1) by the time of the transitional control date. The developer shall be liable for any deficiency in this amount at the transitional control date.

(4) The following statement shall be contained in the bylaws: "The minimum standard required by this section may prove to be inadequate for a particular project. The association of co-owners should carefully analyze their condominium project to determine if a greater amount should be set aside, or if additional reserve funds should be established for other purposes."

History: 1954 ACS 100, p. 111, Eff. July 31, 1979.

R 559.512 Resolution of disputes, claims, or grievances.

Rule 512. The bylaws shall provide for procedures, in accordance with sections 106 and 107 of the act, to resolve any dispute, claim, or grievance arising out of, or relating to, the interpretation or the application of the master deed, the bylaws, or the management agreement, if any. The bylaws may provide for arbitration or other methods of resolving disputes, claims, or grievances arising among or between co-owners or between co-owners and the association of co-owners or between the association and a management company. If arbitration is requested by the parties to such a dispute, claim, or grievance, the dispute, claim, or grievance may be submitted to arbitration and the parties shall accept the arbitrator's decision as final and binding. The bylaws may provide for the application of the commercial arbitration rules, as amended, of the American arbitration association.

History: 1954 ACS 100, p. 112, Eff. July 31, 1979.

R 559.513 Assessments.

Rule 513. The bylaws shall set forth detailed information concerning assessments. The method by which assessments are to be made shall be included and shall provide that the board of directors of the association shall establish an annual budget.

History: 1954 ACS 100, p. 112, Eff. July 31, 1979.

R 559.514 Liens.

Rule 514. (1) The bylaws may outline the procedures to be followed in the event of the attachment of a mechanic's lien, and shall make reference to the provisions of section 132 of the act.

(2) The bylaws shall outline the procedures to be followed when a co-owner's unpaid assessments owed to the association become a lien on the co-owner's unit and shall contain the provisions in sections 108 and 111 of the act.

History: 1954 ACS 100, p. 112, Eff. July 31, 1979.

R 559.515 Leasing.

Rule 515. The bylaws shall contain provisions for leasing condominium units and shall contain the provisions in section 112 of the act.

History: 1954 ACS 100, p. 112, Eff. July 31, 1979.

PART 6. APPROVAL OF A MASTER DEED

R 559.601 Application for approval of master deed.

Rule 601. A developer may apply for a certificate of approval of a master deed when the following are prepared and submitted in accordance with the act and these rules:

(a) The master deed, the condominium bylaws and the condominium subdivision plan, and the appropriate fee.

(b) The exhibits specified in these rules.

(c) Other material information as may be required, either on the application form prescribed by the administrator or otherwise.

History: 1954 ACS 100, p. 112, Eff. July 31, 1979.

R 559.602 Consent of mortgagees.

Rule 602. Pursuant to section 59 of the act, the written consent of mortgagees, or land contract vendors holding an interest in the property being submitted to the condominium project shall be obtained, and evidence thereof shall accompany the application. The consent shall state, or be accompanied by a statement setting forth, the manner in which any such interest will be released at or before the time of conveyance of title to a unit to a purchaser.

History: 1954 ACS 100, p. 112, Eff. July 31, 1979.

R 559.603 Evidence of title to property.

Rule 603. A developer shall furnish with the application for approval of a master deed a copy of the existing title policy on the land or an attorney's opinion letter showing merchantable title in the developer. If a developer does not have an insurable interest in the land, evidence demonstrating the ability to transfer merchantable title to unit purchasers shall be furnished to the administrator.

History: 1954 ACS 100, p. 112, Eff. July 31, 1979.

R 559.604 Advice from other agencies.

Rule 604. The administrator may request advice from other state agencies and may require that engineering reports, site reports, topographic and other maps, and other data be furnished to facilitate such review, including all of the following:

(a) Approval of the water system by the department of public health.

(b) Approval of the sewage system by the department of natural resources.

(c) If the proposed condominium project abuts a lake, stream, or channel, or lies wholly or in part within the floodplain of a lake, stream, or channel, the administrator shall notify the floodplain management and hydraulic review section, department of natural resources, and the appropriate local authority, who shall inform the administrator whether, in its opinion, adequate provision has been

made to protect the health, safety, and welfare of purchasers and the public, or what requirements are necessary to do so.

(d) If the proposed condominium project abuts a state highway or turnpike, the administrator shall notify the department of state highways and, if it abuts a county road, it shall give notice to the county road commission, which in each case shall inform the administrator whether, in its opinion, adequate provision has been made for the protection of the public.

History: 1954 ACS 100, p. 113, Eff. July 31, 1979.

R 559.605 Contracts for management or rental operation of condominium project.

Rule 605. Contracts for management or rental operation of the condominium project, including contracts for nonpublic water and sewer which are entered into prior to the transitional control date, shall be submitted to the administrator.

History: 1954 ACS 100, p. 113, Eff. July 31, 1979.

R 559.606 Conversion of existing building to condominium project.

Rule 606. Where a developer proposes to establish a condominium project by conversion of an existing building, and where more than 1 year has elapsed since construction of the building, the administrator shall require the developer to submit evidence of compliance with local building ordinances in effect at the time of conversion.

History: 1954 ACS 100, p. 113, Eff. July 31, 1979.

R 559.607 Approval of master deed.

Rule 607. Approval of a master deed shall be by a separate order, but shall not constitute a permit to sell.

History: 1954 ACS 100, p. 113, Eff. July 31, 1979.

PART 7. PERMIT TO SELL AND SALES

R 559.701 Permit to sell generally.

Rule 701. (1) A permit to sell enables a developer to enter into binding contracts of sale and to convey individual units. The form of such contracts of sale shall be approved by the administrator before use. After the approved master deed and exhibits have been recorded with the register of deeds in the county in which the project is located and a certified copy has been returned to the administrator, the developer may request a permit to sell.

(2) Before obtaining a permit to sell, a developer shall submit to the administrator all of the following:

(a) One complete set of the architectural plans with detail specifications on 35 millimeter microfilm aperture cards. The microfilm aperture cards shall be standard cards measuring approximately 3¼ inches by 7⅜ inches, with a window suitable for framing 1 frame of 35 millimeter film. Each card shall identify the name of the condominium, the file number, and what is on that particular frame. Each card shall also have the following wording along the top edge for filing purposes: Lot No. _____ Box No. _____. An affidavit from the architect, builder, or developer shall be submitted to the administrator, certifying that the prints are complete and correct, and a true copy of those used to construct the project. Where no architectural plans or specifications exist for a conversion project, these requirements may be waived.

(b) A disclosure statement pursuant to the disclosure statement rules in part 9 of these rules.

(c) Financial information as set forth in part 10 of these rules.

History: 1954 ACS 100, p. 113, Eff. July 31, 1979.

R 559.702 Conditional permit to sell.

Rule 702. A conditional permit to sell is a permit to sell containing such further conditions to be satisfied by the developer as the administrator may reasonably require. A conditional permit to sell, except as specifically provided therein, is effective as a permit to sell and allows the developer to convey completed units and enter into binding contracts of sale. The administrator may issue a conditional permit to sell before the actual completion of all units or the entire project. Such a permit may be issued only after completion of all aspects of the application for approval of the master deed, including approval and recording of the master deed and bylaws of the condominium and the condominium subdivision plan. If the condominium buildings have not been constructed when the plan is submitted, the structures shall be designated in the plan as "proposed."

History: 1954 ACS 100, p. 114, Eff. July 31, 1979.

R 559.703 Conditions contained in permit to sell.

Rule 703. A permit to sell may contain the following conditions, among others:

(a) That the developer, or its successor, submit to the administrator an affidavit indicating the date upon which the last unit in a project is sold.

(b) That a successor developer or mortgagee submit notice to the administrator of a change in ownership in the condominium project.

(c) That the developer, or its successor, submit to the administrator notice of a change in mortgagees.

(d) That the developer of an expandable or convertible project, or its successor, who intends to use the method of sale described in section 88(2) of the act, notify the administrator of the date such expansion or conversion is begun and the estimated date of completion.

History: 1954 ACS 100, p. 114, Eff. July 31, 1979.

R 559.704 Conveyance of title.

Rule 704. Title to a condominium unit shall not be tendered or conveyed by a developer until the unit is ready for occupancy and a certificate of occupancy, or a temporary certificate of occupancy where the administrator has assurance of the completion of the unit, is issued by the appropriate local authorities, and a permit to sell has been issued by the administrator.

History: 1954 ACS 100, p. 114, Eff. July 31, 1979.

PART 8. ESCROW

R 559.801 Escrow agreement; release of purchaser's funds placed in escrow.

Rule 801. (1) An escrow agreement pursuant to section 82 of the act means an agreement that is:

(a) Signed by a developer and an escrow agent and sets forth the terms of the escrow of a prospective purchaser's funds and the conditions on which the funds shall be paid over to the prospective purchaser or to the developer.

(b) Incorporated by reference into the reservation and subscription or other agreement between the prospective purchaser and the developer.

Digitized by Google

(c) Permits the escrow agent to require proof of the basis for any forfeiture and which may set forth a course of action to be taken by the escrow agent in case conflicting claims are made upon it.

(2) Purchaser's funds which have been placed into escrow in accordance with section 82 of the act may be released upon the following conditions:

(a) Upon conveyance of the condominium unit, the escrowed funds shall be released to the developer.

(b) Upon the purchaser's default or withdrawal prior to a binding agreement, the escrowed funds shall be refunded to the purchaser.

(c) Upon the purchaser's default, subsequent to a binding agreement, if the default continues for a period of 10 days after the purchaser receives written notice of the default, pursuant to the agreement between the developer and the purchaser, the developer may receive the escrowed funds in an amount not to exceed the liquidated damage amount.

(d) Upon other conditions set forth in the agreement as approved by the administrator.

(3) A developer who proposes to use purchaser's funds as part of the financing of the project shall submit a plan of financing to the administrator for review. Before the developer may use purchaser's deposits as part of the financing for the project, the developer shall deposit with an escrow agent, irrevocable letters of credit or other acceptable security, in the full amount of the purchaser's funds the developer desires to withdraw. The escrow agent shall release the purchaser's funds to the developer only up to the amount of the letters of credit. Letters of credit or other security shall be in a form approved by the administrator. Such arrangements shall be fully set forth in the escrow agreement and in the reservation and subscription agreement.

History: 1954 ACS 100, p. 114, Eff. July 31, 1979.

R 559.802 Escrow to cover cost of recreational facilities; determination of account.

Rule 802. (1) Where the developer has made plans to construct recreational facilities, or represents that such amenities will be built, a designated portion of the sales price of each condominium unit shall be placed into an escrow account pursuant to section 103 of the act, until the recreational facility is constructed. The amount to be placed into escrow shall be sufficient to cover the estimated cost of construction plus 10%. If the developer demonstrates that adequate financial arrangements have been made to fulfill obligations to provide recreational facilities, the administrator may waive the escrow requirements under this subrule if the waiver is in the public interest.

(2) The amount to be placed into escrow under R 559.802(1) may be determined by dividing the estimated cost of construction plus 10% as determined by a registered architect or engineer approved by the administrator, by the total number of units proposed in the project.

History: 1954 ACS 100, p. 115, Eff. July 31, 1979.

R 559.803 Alternatives to escrow.

Rule 803. (1) In lieu of any escrow imposed by the administrator, a developer may provide an irrevocable letter of credit or other acceptable security in the amount required by the administrator.

(2) Irrevocable letters of credit or other security shall be approved by the administrator, and shall continue in effect until the actual completion of construction or its minimum commitment.

(3) If the irrevocable letter of credit or other security expires or is cancelled and the developer is still under an obligation to provide recreational facilities, other common elements, or other commitment, the developer shall either post another irrevocable letter of credit or other acceptable security, or have an escrow imposed by the administrator equal to the originally required escrow amount. Until another surety bond or irrevocable letter of credit acceptable to the administrator is provided or escrow is imposed, the developer shall not make any new sales.

History: 1954 ACS 100, p. 115, Eff. July 31, 1979.

PART 9. DISCLOSURE STATEMENT

R 559.901 Disclosure statement generally.

Rule 901. (1) Pursuant to section 101 of the act, the developer shall prepare and submit 2 copies of a proposed disclosure statement to the administrator at the time of application for a permit to sell or at such other time as the administrator may reasonably require. A disclosure statement shall not be used unless it meets the requirements set forth in the act and these rules. A disclosure statement shall be amended prior to further use if there is a material change in the information contained therein. Any amendments to, or changes in, a disclosure statement which has been submitted to the administrator shall be reviewed by the administrator prior to use.

(2) Pursuant to section 89 of the act, the developer shall furnish a copy of a current, effective disclosure statement to a prospective condominium purchaser not less than 10 days prior to a binding purchase agreement.

History: 1954 ACS 100, p. 115, Eff. July 31, 1979.

R 559.902 Format.

Rule 902. (1) The disclosure statement shall be prepared in pamphlet form or in any similar form in which the pages are securely fastened together. Any typing, printing, or duplication process may be employed, provided that it produces clear and legible copies.

(2) The items required to be disclosed by the following rules shall, unless otherwise indicated, be disclosed under separate headings. The administrator may require that the items be disclosed in a particular order or that certain items be emphasized, or both.

(3) Without the approval of the administrator, no portion of the disclosure statement may be underscored, italicized, or printed in different color type than the remainder of the disclosure statement.

(4) The pages of the disclosure statement shall be consecutively numbered beginning after the cover page and the table of contents with page 1. All the pages shall be the same size.

History: 1954 ACS 100, p. 115, Eff. July 31, 1979.

R 559.903 Information to be included in the disclosure statement.

Rule 903. (1) The disclosure statement shall fully and accurately disclose those facts or characteristics about a condominium project and a developer which are deemed material by the administrator. "Material," as used in the preceding sentence, refers to those factors which might reasonably affect a prospective purchaser's decision to accept or reject the offer to purchase the condominium unit. Where material information is not known by the developer, such facts shall be stated with a brief explanation.

(2) The information presented in the disclosure statement shall not obscure the facts, encourage a misrepresentation of the facts, or otherwise mislead the reader. No information is to be incorporated by reference to an extrinsic source which is not readily available to an ordinary prospective purchaser.

(3) The language of the disclosure statement shall be readily understandable by a lay person. Legal phraseology, technical terms, and terms of art are to be avoided wherever possible.

(4) Brevity is desirable to the extent consistent with the purpose of the disclosure statement and the rules governing its preparation. Thus, the contents of the disclosure statement shall be limited to factual information.

(5) The disclosure statement shall contain a cover page and a table of contents which identifies the sections and subsections of the disclosure statement.

(6) Material information about the developer and the condominium project within the following categories shall be included in the disclosure statement, when applicable:

(a) Condominium project warranties.

(b) The size and scope of the condominium project.

(c) The condominium project budget and assessments.

(d) The condominium project recreational facilities.

(e) Condominium project restrictions.

(f) The developer's background and experience.

(g) Legal proceedings involving the condominium project or the developer.

(h) Condominium association management contracts.

(i) Other material information as will inform purchasers about the unique characteristics of the particular condominium project.

(7) Pursuant to section 101 of the act, the disclosure statement shall contain an explanation of the possible liability of co-owners under section 58 of the act. A statement similar to the following shall be included within the disclosure statement: "Co-owner liability. Section 58 of the Michigan condominium act provides: If the holder of a first mortgage or other purchaser of a condominium unit obtains title to that unit by foreclosing that mortgage, the holder of the first mortgage or other purchaser is not liable for unpaid assessments which are chargeable against that unit and which had become due prior to foreclosure. These unpaid assessments are common expenses which are collectable from all unit owners, including the holder of the first mortgage who has obtained title to the unit through foreclosure."

(8) If a project is a conversion condominium project, the developer shall disclose the following additional information:

(a) The year when construction was completed on the building or buildings in the project.

(b) A statement, if known, of the condition of the main components of the building, including the plumbing, heating, electrical, roofing, and structural components. If the condition of the components mentioned above is unknown, the developer shall fully disclose that fact.

History: 1954 ACS 100, p. 116, Eff. July 31, 1979.

PART 10. FINANCIAL INFORMATION

R 559.1001 Developer's financial obligations.

Rule 1001. Pursuant to section 87(2) of the act, the developer shall be required to establish to the administrator that the developer has the ability to fulfill its obligations to the condominium project, as stated in the condominium documents, which the developer seeks to develop.

History: 1954 ACS 100, p. 117, Eff. July 31, 1979.

R 559.1002 Determination of adequate financial resources.

Rule 1002. Pursuant to section 93(a) of the act, the administrator may refuse to issue a permit to take reservations or a permit to sell when the developer lacks adequate financial resources to fulfill its obligations in relation to the development of the condominium project and this condition would work, or tend to work, a fraud or deception on prospective co-owners in the project. Adequate financial resources and capacity to complete the project shall be determined by the developer's:

(a) Net worth in relation to the estimated cost of the project.

(b) Working capital in relation to the time frame for the development of the project contained in the pro forma financial plan.

(c) Demonstrated ability, as shown by previous experience, to complete projects similar to the one which the developer seeks to develop.

(d) Commitments to other projects which could threaten the successful completion of the project sought to be developed, as measured by the total work in process of the developer.

History: 1954 ACS 100, p 117, Eff. July 31, 1979

R 559.1003 Financial information to be filed.

Rule 1003. (1) To enable the administrator to determine the developer's probable ability to fulfill its financial and contractual obligations to the condominium project, the developer shall submit all of the following information in conjunction with an application for a permit to sell:

(a) Financial statements of the developer dated within 90 days of application.

(b) A schedule of the developer's work in process as of the date of the application. With respect to each project on the schedule, the following information shall be disclosed in summary form:

(i) Cost to complete.

(ii) Anticipated completion date.

(c) A pro forma financial plan for the project which sets forth the sources and timing of cash receipts and the anticipated amounts of cash needed throughout the duration of the project. The plan shall contain a statement of the assumptions and principles used to make the forecast, including an evaluation of the market for the proposed project and proof of financing. The number of reservations taken under a permit to take reservations may be accepted in lieu of other market information.

(d) A summary of the developer's previous experience in real estate projects within a 3-year period prior to the date of application. With respect to each project, the developer shall disclose the selling price of the project, the name of the project, whether the project was completed as originally scheduled, and whether the developer rented any portion of the project prior to completion.

(e) If the developer's inventory includes single family dwellings, the information requested in subrule (1)(b) and (d), relative to such single-family dwellings, may be consolidated and presented as if one project.

(f) The names, addresses, and telephone numbers of the principal officers of the developer; the names, addresses, and telephone numbers of the shareholders of the developer, if the developer is a closely held corporation; the names, addresses, and telephone numbers of general and limited partners, if the developer is a partnership.

(g) If the developer demonstrates to the administrator that it has adequate resources, or that adequate financing has been arranged and that the developer is able to fulfill its financial and contractual obligations to the project, the administrator may waive or modify any of the foregoing requirements.

(h) Any of the foregoing requirements may be waived or modified, including the date of the financial statements in subrule (1)(a), by the administrator for good cause, if such waiver or modification is in the public interest.

(2) As an alternative to the information required to be submitted by subrule (1), the administrator, upon application, may permit the developer to establish an escrow account acceptable to the administrator. An amount equal to the funds received from purchasers shall be placed in escrow by the developer when such funds are received. Necessary amounts shall remain in escrow until the developer has completed its minimum commitment to the project, as stated in the condominium documents. The administrator may authorize partial releases of the escrowed funds if the developer demonstrates to the administrator that it has completed part of its commitment to the project and the administrator has assurances the developer will fulfill its total minimum commitment.

History: 1954 ACS 100, p. 117, Eff. July 31, 1979.

R 559.1004 Accounting principles.

Rule 1004. The financing statements required to be filed by R 559.1003(1) shall consist of a balance sheet, notes to the balance sheet which fully explain the items on the balance sheet, and a cover letter signed by the developer attesting that the balance sheet accurately reflects the financial condition of the developer. All financial statements filed with the administrator, unless specifically exempted, shall be prepared in accordance with generally accepted accounting principles.

History: 1954 ACS 100, p. 118, Eff. July 31, 1979.

R 559.1005 Further financial requirements.

Rule 1005. If the information required to be submitted by R 559.1003(1) is inadequate to enable the administrator to determine the developer's probable ability to fulfill its obligations to the condominium project, the developer may further be required to submit any of the following:

(a) Audited financial statements for the developer's most recently completed fiscal year.

(b) The developer's financial statements for the 2 fiscal years immediately preceding its most recently completed fiscal year.

(c) A current Dun and Bradstreet report or a bureau of credits report on the developer and project contractors.

(d) Letters of reference from the financial institutions which are providing financing for the condominium project.

History: 1954 ACS 100, p. 118, Eff. July 31, 1979.

R 559.1006 Updating financial information.

Rule 1006. The information required to be submitted by R 559.1003 and, if necessary, by R 559.1005, may be required to be updated during the development of the condominium project to verify the accuracy of the developer's assumptions. Such information includes all of the following:

(a) Periodic reports of the actual project results in comparison to the pro forma financial plan.

(b) Periodic sales reports.

(c) Periodic interim financial statements of the developer.

History: 1954 ACS 100, p. 118, Eff. July 31, 1979.

DEPARTMENTS OF TREASURY, STATE HIGHWAYS, NATURAL RESOURCES, AND PUBLIC HEALTH

SUBDIVISIONS OF LAND

(By authority conferred on the departments of treasury, state highways, natural resources, and public health by section 105 of Act No. 288 of the Public Acts of 1967, and Executive Reorganization Order Nos. 1973-2 and 1973-2a, being §§560.105 and 299.11 of the Michigan Compiled Laws. Each part of these rules is promulgated separately by the department or commission whose name appears in the designation of that part)

PART 1. DEPARTMENT OF TREASURY

R 560.101 Definitions.

Rule 101. As used in these rules "act" means Act No. 288 of the Public Acts of 1967, being §§560.101 to 560.293 of the Michigan Compiled Laws.

History: 1954 ACS 53, p. 59, Eff. Feb. 14, 1968.

R 560.103 Site reports.

Rule 103. (1) The purpose of this rule is to require a uniform site report.

(2) The site report as referred to in any part of these rules shall consist of maps, drawings, elevations and other information needed to evaluate the conditions of the proposed subdivision. The site report shall contain the information prescribed by R 560.402. One copy of the site report shall accompany each copy of the preliminary plat, filed as required by sections 115 to 118 of the act.

History: 1954 ACS 53, p. 59, Eff. Feb. 14, 1968.

R 560.104 Plat material and copies.

Rule 104. (1) The purpose of this rule is to establish the specifications for approved material for plats as provided by section 132(b) of the act.

(2) When the surveyor has prepared the final plat, he shall have it reproduced on wash-off type photographic sensitized polyester film .003 to .005 in thickness or on wash-off type photographic sensitized linen, easily erasable. Wash-off requires that the gelatin or emulsion which is a part of the film be completely removed from the nonimage area. Easily erasable would permit erasures by means of a common rubber eraser.

(3) The film shall be thoroughly washed to insure archival permanency.

(4) The surveyor may have the required number of copies of the plat made and submitted for approval, or may submit 1 photographic reproduction with instructions for the state treasurer's office to arrange locally for reproduction of the necessary additional copies, with the cost to be billed to the surveyor by the reproduction source.

(5) To provide for the option in subrule (4) the state treasurer's office will arrange for a qualified reproduction source at the best available price and service.

History: 1954 ACS 53, p. 59, Eff. Feb. 14, 1968; 1954 ACS 64, p. 62, Eff. Nov. 6, 1970.

R 560.105 Proprietors' certificates; individuals and other than corporations.

Rule 105. (1) The purpose of this rule is to prescribe the form and content of the proprietor's certificate as required by section 144 of the act.

(2) A proprietor shall use the proprietor's certificate form number L-2507, which follows and which shall contain:

(a) Names of the owners who are required to sign the certificate as proprietors as defined in section 102(h) of the act.

(b) Reference to the plat streets, roads, alleys, parks and other facilities.

(c) Statement that the facilities in (b) are dedicated to public use or only to the use of lot owners, including lot owners in future contiguous subdivisions, if so intended.

(d) Statement that the plat includes all land to the water's edge when lots abut a lake, river or stream. If this is not the intent of the proprietor, the limits of the lots with respect to the water shall be indicated with an appropriate statement.

(e) Signatures of each proprietor, and his wife, exactly as their names appear in (a) and the legal address of each proprietor. This is required by section 1 of Act No. 103 of the Public Acts of 1937, as amended, being §565.201 of the Michigan Compiled Laws.

(f) Signatures of 2 disinterested witnesses to the signatures of each proprietor.

(3) All signatures on the original shall be executed in black ink.

Form L-2507

PROPRIETOR'S CERTIFICATE—
INDIVIDUALS AND OTHER THAN CORPORATIONS

I (we) as proprietor(s) certify that I (we) caused the land embraced in this plat to be surveyed, divided, mapped and dedicated as represented on this plat and that the _____(b)_____ are for the use of _____(c)_____; that the public utility easements are private easements and that all other easements are for the uses shown on the plat; and (d).

R 560.106 Proprietors' certificates; corporations.

Rule 106. (1) The purpose of this rule is to prescribe the form and content of the certificate required by section 144 of the act when the proprietor of a proposed subdivision is a corporation.

(2) A proprietor which is a corporation shall use certificate form L-2508, which follows and which shall contain:

(a) Name of the corporation.

(b) Names and titles of the officers authorized to sign the certificate.

(c) Reference to the plat streets, roads, alleys, parks and other facilities.

(d) Statement that the facilities in (c) are dedicated to public use or only to the use of lot owners, including lot owners in future contiguous subdivisions, if so intended.

(e) Statement that the plat includes all land to the water's edge, when lots front on a lake, river or stream. If this is not the intent of the proprietor, the limits of the lots with respect to the water shall be indicated with an appropriate statement.

R 560.111 Contents of plat legends.

Rule 111. (1) The purpose of this rule is to prescribe the contents of the legend.

(2) The surveyor or draftsman shall place a legend on the plat map which shall contain:

(a) A statement that the dimensions are in feet.

(b) A statement that the curvilinear measurements are arc or chord distances, as the case may be.

(c) A statement concerning the bearings, in accordance with section 126(3) of the act.

(d) The symbol "o" for the concrete monuments.

(e) A description of the type of lot markers used.

(f) A vicinity map or location sketch showing the location of the proposed subdivision in relation to the surrounding area.

History: 1954 ACS 53, p. 62, Eff. Feb. 14, 1968.

R 560.112 Minimum drafting standards.

Rule 112. (1) The purpose of this rule is to establish minimum standards for drafting of plat maps to insure their quality and legibility.

(2) When preparing a plat map, the surveyor shall:

(a) Use an engineer's scale in preparing the drawing.

(b) Use lettering no less than .08 inch high.

(c) Make the top and bottom either the 18- or the 24-inch length with the binding margin at the left, and all margins according to widths prescribed in section 132(a) of the act.

(d) Place the general direction "north" toward the top or left-hand side.

(e) Provide a space 3 inches by 7 inches for the recording data to be affixed by the department of treasury.

(f) Number each sheet sequentially, beginning with number 1, when more than 1 sheet is necessary.

(g) Place all necessary certificates on the map, according to the prescribed form.

(h) Place the diagram of scale on each sheet of the map which contains the drawing.

(i) Show the caption at the top of each sheet of the plat.

(j) Indicate all bearings and distances of boundary lines, showing them outside the boundary line.

(k) Show the boundary as a continuous line, dotted if desired, where it crosses streets, roads, and alleys.

(l) Not divide a lot by a street, road, alley, or another lot.

(m) Describe each excepted parcel by bearings and distances and shall label each "not included in this plat."

(n) Not include in 1 plat parcels not having a common border.

(o) Use match-lines when the plat is drawn on more than 1 sheet.

(3) All signatures on the original shall be executed in black ink.

History: 1954 ACS 53, p. 62, Eff. Feb. 14, 1968.

R 560.113 Approved markers for lot corners.

Rule 113. (1) The purpose of this rule is to specify approved markers for lot corners of materials additional to those specified in section 125 of the act.

(2) In addition to the lot markers and monuments described in section 125 of the act the surveyor may use an iron or steel stake of any shape but not less than 18 inches in length and weighing not less than 0.6 pounds per foot.

History: 1954 ACS 53, p. 62, Eff. Feb. 14, 1968.

R 560.114 Surveyors' certificates.

Rule 114. (1) The purpose of this rule is to prescribe the form and content of the surveyor's certificate on the plat, as required by section 143 of the act.

(2) The surveyor shall use certificate form number L-2510, which follows and shall contain:

(a) Name of surveyor who either personally performed or had direct charge of the survey and making of the plat map.

(b) Description of the land as follows:

(i) Name of plat.

(ii) Part of section or government lot number.

(iii) Section number.

(iv) Private claim number when applicable.

(v) Township and range when applicable.

(vi) Name of municipality.

(vii) Name of county.

(viii) State of Michigan.

(ix) Description of the exterior boundaries of the subdivision as required by section 134 of the act.

(c) Date of certification.

(d) Surveyor's hand written signature as printed in subdivision (a). If he is also a partner or principal officer, he shall so indicate below his signature.

(e) Michigan registration number and complete mailing address.

(f) Surveyor's seal (facsimile in black ink shall be used).

(3) If a firm of surveyors, a partner or principal officer shall also hand-sign the certificate and insert his registration number, unless he is the surveyor signing in subdivision (d).

(4) All signatures on the original shall be executed in black ink.

History: 1954 ACS 53, p. 62, Eff. Feb. 14, 1968; 1954 ACS 64, p. 62, Eff. Nov. 6, 1970.

R 560.121 Certificates of municipal approval.

Rule 121. (1) The purpose of this rule is to prescribe the form and content of the certificate of municipal approval as required by sections 142(g) and 148 of the act.

(2) The surveyor shall affix on the plat and the municipality shall use the certificate of municipal approval form L-2511, which follows and shall contain:

(a) Whether a township board, village council, or other municipal legislative body.

(b) Name of municipality.

(c) Date of final plat approval.

(d) Date of approval and name of health department when health department approval is required on a preliminary plat.

(e) A statement that public water and public sewer services have been installed and are ready for connection or that surety has been posted to insure the installation of public sewer and public water services.

(f) A statement that the municipality has adopted a subdivision control ordinance and waives the minimum lot size specified.

(g) A statement that the proprietors of the subdivision have been required by the municipality to comply with the provisions of section 192 of the act when there is no county drain commissioner.

(h) A statement that surety is posted and for what length of time if the posting of surety for the placement of monuments is permitted.

(i) Clerk's signature when approval is given and preceding paragraphs have been complied with.

(3) All signatures on the original shall be executed in black ink.

Form L-2511

CERTIFICATE OF MUNICIPAL APPROVAL

I certify that this plat was approved by the ____(a)____, of the ____(b)____, at a meeting held ____(c)____ and was reviewed and found to be in compliance with Act 288, P.A. of 1967. (d) or (e), (f), (g), and (h).

_____(i)_____
(Printed name) Clerk

Note: (a) through (i) refer to identically lettered subdivisions of the rule.

History: 1954 ACS 53, p. 63, Eff. Feb. 14, 1968; 1954 ACS 64, p. 63, Eff. Nov. 6, 1970.

R 560.126 Certificates of boards of county road commissioners.

Rule 126. (1) The purpose of this rule is to prescribe the form and content of the certificate required by section 147 of the act to be made on the plat by the board of county road commissioners.

(2) For approval of the plat, the board of county road commissioners shall use certificate form L-2512, which follows and which shall contain:

(a) Date of approval.

(b) Name of county in which the subdivision is located and in respect to which the board has jurisdiction over roads and streets.

(c) Signatures of a majority of the board, immediately above the printed name of each member signing.

Form L-2512

CERTIFICATE OF COUNTY ROAD COMMISSIONERS

Approved on _____(a)_____ as complying with Section 183 of Act 288, P.A. 1967, (Date)
and the applicable published rules and regulations of the Board of Road Commissioners of _____(b)_____ County.

_____(c)_____ (Printed name) Member

_____(c)_____ (Printed name) Member

_____(c)_____ (Printed name) Chairman

Note: (a) through (c) refer to identically lettered subdivisions of the rule.

History: 1954 ACS 53, p. 64, Eff. Feb. 14, 1968.

R 560.127 Certificates of county drain commissioners.

Rule 127. (1) The purpose of this rule is to prescribe the form and content of the certificate required by section 146 of the act to be made on the plat by the county drain commissioner.

(2) For approval of the plat, the county drain commissioner shall use certificate form L-2513, which follows and which shall contain:

(a) Date of approval.

(b) Name of county in which the subdivision is located and in respect to which the commissioner has jurisdiction over drains and drainage.

(c) Signature of the drain commissioner immediately above his printed name.

(3) All signatures on the original shall be executed in black ink.

Form L-2513

COUNTY DRAIN COMMISSIONER'S CERTIFICATE

Approved on _____(a)_____ as complying with Section 192 of Act 288, P.A. 1967, (Date)
and the applicable rules and regulations published by my office in the County of _____(b)_____.

_____(c)_____ (Printed name) Drain Commissioner

Note: (a) through (c) refer to identically lettered subdivisions of the rule.

History: 1954 ACS 53, p. 64, Eff. Feb. 14, 1968.

R 560.128 County and city treasurers' certificates.

Rule 128. (1) The purpose of this rule is to prescribe the form and content of the county and city treasurers' certificates required by section 145 of the act relating to taxes, as follows:

(a) The county treasurer shall use the county treasurer's form number L-2514, which follows, when certifying taxes on the final plat.

(b) The city treasurer shall use the same form but a separate certificate when the municipality does not return its delinquent taxes to the state.

(2) The county treasurer shall:

(a) Insert the date the certificate is signed.

(b) Sign the certificate.

(c) State the name of the county.

(3) The instructions in subrule (2) also apply to a separate certificate which shall be made by the city treasurer when required by subrule (1)(b).

(4) All signatures on the original shall be executed in black ink.

Form L-2514

COUNTY TREASURER'S CERTIFICATE

The records in my office show no unpaid taxes or special assessments for the five years preceding ____(a)____, involving the lands included in this plat.

____(b)____
(Printed name) County (or city) Treasurer

____(c)____
Name of county (or city)

Note: (a) through (c) refer to identically lettered subdivisions of the rule.

History: 1954 ACS 53, p. 65, Eff. Feb. 14, 1968.

R 560.129 County plat board certificates.

Rule 129. (1) The purpose of this rule is to prescribe the form and content of the certificate of approval by the county plat board as required by sections 142(h) and 149(i) of the act.

(2) For approval of the plat, the county plat board shall use certificate form L-2515, which follows and which shall contain:

(a) Name of the county.

(b) Date of final plat approval by the board.

(c) Signatures of the majority of the plat board approving the plat.

(d) Correct, printed name of the office of each signatory. If a county has a combined clerk-register, the chairman of the board of supervisors shall sign on the line indicated for the county clerk and the clerk-register shall sign on the line indicated for the register of deeds.

(e) Signature of each member of the board of auditors if the county has a board of auditors which has elected to serve on the plat board.

(3) All signatures on the original shall be executed in black ink.

Form L-2515

COUNTY PLAT BOARD CERTIFICATE

This plat has been reviewed and is approved by the ____(a)____ county plat board on ____(b)____ as being in compliance with all of the provisions of Act 288, P.A. 1967, and the plat board's applicable rules and regulations.
(County) (Date)

____(c) or (d)____
Register of Deeds

____(c) or (d)____
County Clerk

____(c)____
County Treasurer

•____(e)____
Member, Board of Auditors

••____
County Plat Engineer

•Use as many signature lines as necessary.

••To be used by county plat boards having a plat engineer (See Sec. 149).

Note: (a) through (e) refer to identically lettered subdivisions of the rule.

R 560.130 Register of deeds' certificates.

Rule 130. (1) The purpose of this rule is to prescribe the form and content of the recording certificate to be placed on the plat sheet as specified by section 172(a) of the act.

(2) The surveyor shall place form L-2516 on each plat which follows and shall contain blanks for:

(a) Name of county.

(b) Day, month, and year plat was recorded.

(c) Hour of recording.

(d) Liber and pages where the plat is to be found.

(e) Signature of the register of deeds.

(3) The register of deeds upon receipt of the plat shall complete and sign the form.

Form L-2516

RECORDING CERTIFICATE

State of Michigan } S.S.
___(a)___ County }

This plat was received for record on the ___(b)___ day of ___(b)___, 19___(b)___ at ___(c)___(c)__M, and recorded in Liber _____(d)_____ of plats on page __(d)__.

R 560.131 Assessors' certificates.

Rule 131. (1) The purpose of this rule is to prescribe the form of the assessor's certificate as required by section 213(2) of the act.

(2) The assessor of a municipality shall use certificate form L-2517, which follows and shall contain:

(a) Title as such supervisor or assessor.

(b) Name of the municipality and county.

(c) Statement that title to the streets, highways, alleys, and other public places shown on the plat has been acquired by reason of purchase, dedication, condemnation or adverse possession, for public use. If title has not been acquired, the extent of use shall be plainly stated.

(d) Assessing officer's signature, title, and complete mailing address.

(e) Signatures of 2 disinterested witnesses to the signature of the assessing officer.

(3) All signatures on the original shall be executed in black ink.

Form L-2517

ASSESSOR'S CERTIFICATE

I, as _____(a)_____, by virtue of the authority vested in Section 201(2), Act 288 of P.A. of 1967, having been duly authorized by the _____(b)_____ County, State of Michigan, have caused the land described in the annexed plat to be surveyed,

(ii) Part of section or government lot number.
(iii) Section number.
(iv) Private claim number when applicable.
(v) Township and range when applicable.
(vi) Name of the municipality.
(vii) Name of county.
(viii) State of Michigan.
(ix) Description of the exterior boundaries of the subdivision as required by section 134 of the act.
(c) Title of the approving body and name of municipality.
(d) Date on which plat was ordered made.
(e) Date of certification.
(f) Surveyor's handwritten signature as printed in subdivision (a). If he is also a partner or principal officer, he shall so indicate below his signature.
(g) Michigan registration number.
(h) Surveyor's seal (facsimile in black ink shall be used).
(3) If a firm of surveyors, a partner or principal officer shall also hand-sign the certificate and insert his registration number unless he is the surveyor signing in subdivision (f).
(4) All signatures on the original shall be executed in black ink.

Form L-2519

SURVEYOR'S CERTIFICATE ON ASSESSOR'S PLAT

I, _____(a)_____, surveyor, certify: _____
That I have surveyed, divided and mapped the land shown on this plat, described as follows: _____(b)_____
_____
_____.
That I have made such survey, land division and plat by the direction of _____
_____(c)_____, on _____(d)_____.
That such plat is a correct representation of all the exterior boundaries of the land surveyed and the subdivision of it.
That the required monuments and lot markers have been located in the ground.
That the accuracy of survey is within the limits required by section 126 of the act.
That the bearings shown on the plat are expressed as required by section 126(3) of the act and as explained in the legend.

PART 2. DEPARTMENT OF STATE HIGHWAYS

R 560.201 Submittal to state highway department.

Rule 201. A preliminary plat shall be submitted to the department of state highways when the proposed subdivision would do any of the following:

(a) Abut a state trunk line highway.

(b) Include proposed roads, streets or alleys any portion of which are located within state trunk line right-of-way or include roads, streets or alleys not now established as a public use that connect directly to a state trunk line highway.

(c) Include a portion of the proposed subdivision within the area shown by the plan on file to be required for the expansion of an existing state trunk line highway.

(d) Alter the existing drainage of a state trunk line highway.

History: 1954 ACS 53, p. 66, Eff. Feb 14, 1968.

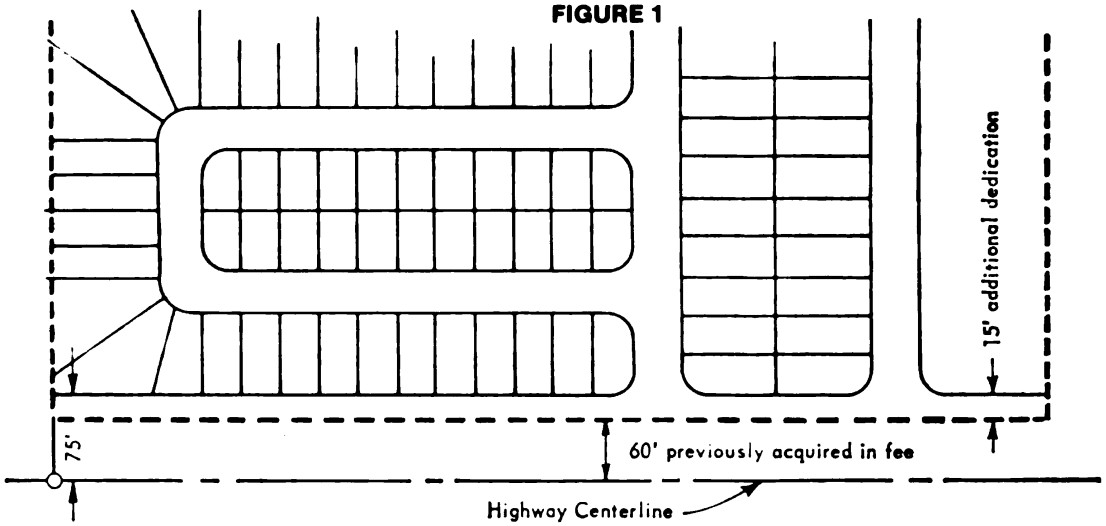
R 560.202 Streets, roads, and alleys.

Rule 202. (1) To protect the safety of the motoring public, subdivision streets, roads and alleys that connect to a state trunk line highway shall conform to the requirements and minimum standards in the department of state highways' manual entitled "Standard Specifications for Road and Bridge Construction" and current standard plans and standard guides. These requirements will be revised as necessary with the most recent dated sheets being applicable.

(2) Before approving a final plat and when construction of connecting streets is completed and the department has received written notice thereof, the department within 20 days shall inspect the construction and either approve or disapprove it giving written reasons in case of disapproval. In lieu of such construction, the department shall accept a certified check, irrevocable bank letter of credit or a surety bond acceptable to the department, whichever the proprietor selects.

History: 1954 ACS 53, p. 66, Eff. Feb. 14, 1968.

R 560.203 Future rights-of-way.



Rule 203. (1) To provide for expansion and improvement of state trunk line highways, when a plat abuts a state trunk line highway or any portion of the plat is within the area shown by the plan on file to be required for expansion of an existing state trunk line highway, it shall conform to the plan on file.

(2) The plan on file may be periodically revised in accordance with determined long-range trunk line highway needs.

(3) When a plat abuts a state truck line limited access highway, it shall include a notation that no access to or from the highway is permitted.

(4) When the future right-of-way required, as shown by the plan on file, is greater than the existing right-of-way it shall be dedicated to the public use and so designated on the plat. (See figure 1.)

FIGURE 1

EXAMPLE: Plat boundary has been tied to the center line of the state trunk line highway and additional 15 feet of right-of-way dedicated to conform with the plan on file requirement of 75 feet from the center line.

History: 1954 ACS 53, p. 66, Eff. Feb. 14, 1968.

R 560.204 Drainage.

Rule 204. (1) When a proposed plat would alter the existing drainage of a state trunk line highway, the department of state highways shall request in conjunction with the preliminary plat submittal, sufficient information to determine in what way the highway drainage would be affected and shall inform the proprietor, in writing, of the drainage requirements. Final plat approval shall be conditioned upon meeting these requirements. The drainage requirements shall be based upon the department of state highways' drainage policy and guide. These requirements will be revised as necessary with the most recent dated sheets being applicable.

(2) Before approving a final plat and when construction of drainage facilities is completed and the department has received written notice thereof, the department within 20 days shall inspect the construction and either approve or disapprove it giving written reasons in case of disapproval. In lieu of such construction, the department shall accept a certified check, irrevocable bank letter of credit, or a surety bond acceptable to the department, whichever the proprietor selects.

History: 1954 ACS 53, p. 67, Eff. Feb. 14, 1968.

R 560.205 Availability of manuals, plans, and policies.

Rule 205. The documents and material identified as the plan on file, standard specifications for road and bridge construction manual, standard plans and standard guides, and the drainage policy and guide shall be available at the department of state highways' main office and district offices.

History: 1954 ACS 53, p. 67, Eff. Feb. 14, 1968.

PART 3. DEPARTMENT OF NATURAL RESOURCES

R 560.301 Definitions.

Rule 301. As used in this part "watercourse" means an open conduit either naturally or artificially created which periodically or continuously contains moving water draining an area of at least 2 square miles.

History: 1954 ACS 53, p. 67, Eff. Feb. 14, 1968.

R 560.302 Field survey data.

Rule 302. (1) The purpose of this rule is to prescribe field survey data required before submittal of a preliminary plat.

(2) A proprietor shall furnish, on request by the department of natural resources, plotted valley cross-sections from a control point downstream of the proposed plat to the upstream limits of the plat for any watercourse through or adjacent to the area to be subdivided. The spacing between the cross-sections shall be frequent enough to define the changes in the hydraulic properties of the watercourse. The location of each cross-section shall be shown on a topographic map and elevations shall be at United States geological survey datum, United States coast and geodetic survey datum, or international Great Lakes datum. The required field surveys shall be conducted under supervision of an engineer or land surveyor registered in this state.

History: 1954 ACS 53, p. 67, Eff. Feb. 14, 1968; 1954 ACS 73, p. 60, Eff. Oct. 20, 1972; 1954 ACS 84, p. 89, Eff. July 16, 1975.

R 560.303 Flood plain limits.

Rule 303. (1) The purpose of this rule is to prescribe methods to be used to define flood plain limits.

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(2) If a local ordinance or regulation identifies the flood plain of a watercourse or inland lake, the limits established thereby shall be defined by a contour line. These limits are acceptable only when approved by the department of natural resources.

(3) If a local ordinance or regulation does not identify the flood plain of a watercourse or if a local ordinance or regulation is not acceptable to the department of natural resources, the department shall define the flood plain, within a contour line, by the limits established for a hypothetical flood having a recurrence frequency of once in about 100 years as determined by the following methods:

(a) Current flood plain information reports by the United States corps of engineers or flood hazard analysis studies by the United States soil conservation service, where available.

(b) Where current flood plain information reports or flood hazard analysis studies are not available, the 100-year frequency flood discharge will be determined by methods outlined in "A Uniform Technique for Determining Flood Flow Frequencies," December, 1967, Water Resources Council, Washington, D.C., where adequate annual peak discharge data is available. If the watercourse does not have adequate annual peak discharge data, the 100-year frequency flood discharge shall be determined using a method acceptable to the department of natural resources. Accepted engineering practices shall be used to define the corresponding flood stages.

(4) If a local ordinance or regulation does not identify the flood plain of an inland lake or if the ordinance is not acceptable to the department of natural resources, it shall determine the limits of the flood plain for the inland lake on the basis of field reconnaissance and United States geological survey surface water records where available.

(5) An appeal from a determination made by the department of natural resources with respect to subdivision (b) of subrule (3) and subrule (4) shall be made in accordance with chapter 6 of Act No. 306 of the Public Acts of 1969, as amended, being §§24.301 to 24.306 of the Michigan Compiled Laws.

History: 1954 ACS 53, p. 68, Eff. Feb. 14, 1968; 1954 ACS 73, p. 60, Eff. Oct. 20, 1972; 1954 ACS 84, p. 89, Eff. July 16, 1975.

R 560.304 Buildings within areas affected by flood plains.

Rule 304. (1) The purpose of this rule is to prescribe minimum standards for a new development for residential purposes and occupancy within or affected by a flood plain.

(2) A proprietor shall file and record with the final plat restrictive deed covenants that any building used or capable of being used for residential purposes and occupancy within or affected by the flood plain shall:

(a) Be located on a lot having a minimum buildable site of 3,000 square feet of its area at its natural grade above the elevation of the contour defining the flood plain limits. This requirement may be waived if the building is to be elevated on stilts or similar design to provide an open area above ground level and if the requirements of subdivision (c) of section 194 of the act and sections 2a, 3, 4, 5a, and 5b of Act No. 245 of the Public Acts of 1929, as amended, being §§323.2a, 323.3, 323.4, 323.5a, and 323.5b of the Michigan Compiled Laws, are met.

(b) Be served by streets within the proposed subdivision having surfaces not lower than 1 foot below the elevation of the contour defining the flood plain limits.

(c) Have lower floors, excluding basements, not lower than the elevation of the contour defining the flood plain limits.

Digitized by Google

(d) Have openings into the basement not lower than the elevation of the contour defining the flood plain limits.

(e) Have basement walls and floors, below the elevation of the contour defining the flood plain limits, watertight and designed to withstand hydrostatic pressures from a water level equal to the elevation of the contour defining the flood plain limits following methods and procedures outlined in chapter 5, type A construction and chapter 6 for class 1 loads found in "Flood Proofing Regulations," EP 1165 2 314 prepared by the Office of the Chief of Engineers, U.S. Army, Washington, D.C., June 1972. Figure 5, page 14.5 of the regulations, shows typical foundations drainage and waterproofing details. This document is available, at no cost, from the Department of Natural Resources' Hydrological Survey Division, Stevens T. Mason Building, Lansing, Michigan 48926, or Department of the Army, Corps of Engineers, Publications Depot, 890 S. Pickett, Alexandria, Virginia 22304.

(f) Be equipped with a positive means of preventing sewer backup from sewer lines and drains which serve the building.

(g) Be properly anchored to prevent flotation.

History: 1954 ACS 53, p. 68, Eff. Feb. 14, 1968; 1954 ACS 73, p. 61, Eff. Oct. 20 1972; 1954 ACS 84, p. 89, Eff. July 16, 1975.

PART 4. DEPARTMENT OF PUBLIC HEALTH

R 560.401 Definitions.

Rule 401. As used in this part:

(a) "Groundwater" means the water in the ground that is in the zone of saturation.

(b) "High groundwater elevation" means the elevation of the upper surface of the zone of saturation as may occur during the normally wet periods of the year.

(c) "Sewage" means liquid wastes including human excreta and wastes from a sink, lavatory, bathtub, shower, laundry, or any other waste of organic nature singly or in any combination thereof.

(d) "Surface water" means a body of water whose top surface is exposed to the atmosphere including a flowing body, a pond, or a lake.

History: 1954 ACS 53, p. 68, Eff. Feb. 14, 1968.

R 560.402 Site reports.

Rule 402. Each of the 2 copies of the preliminary plat submitted to the health department for review shall be accompanied by a copy of the site report compiled by a registered civil engineer or registered land surveyor. The site report shall contain the following information unless shown on the preliminary plat:

(a) Name and location of proposed plat.

(b) Names and addresses of the proprietor of the proposed plat and the registered civil engineer or registered land surveyor submitting the site report.

(c) Statement of intended use of the proposed plat, such as, residential—single family, 2-family and multiple housing; commercial; industrial; recreational; or agricultural.

(d) Statement of type of water and sewage system to be provided.

(e) Statement of existing use of adjacent property and intended use of adjacent undeveloped land, if known, including any adjacent public owned lands.

(f) Documented high surface water elevations in the case of waterfront property. On lakes where a legal level has been established, the legal level shall be shown.

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(g) Statement as to whether the high groundwater is less than or greater than 6 feet from either the existing or proposed finished ground surface. In those cases where the groundwater is less than 6 feet, the groundwater level shall be specified. A statement as to how and when the high groundwater level was established shall be included.

(h) The drawing shall indicate existing and proposed 5 foot contour intervals. In the case of waterfront property or where the high groundwater elevation is within 6 feet of existing or proposed finished ground surface, show existing and proposed 2 foot contour intervals. The health department may waive the requirements for contours when the lots in the subdivision exceed 1 acre. When extensive cutting or filling of land is anticipated that will affect building sites and sewage disposal facilities the areas involved shall be indicated. The source, if known, and the type of fill material to be used when filling is anticipated shall be specified.

(i) Location of flood plain areas, rivers, streams, creeks, lakes, county drains, lagoons, slips, waterways, bays, canals, and artificial impoundments, either existing or proposed, within or adjacent to the area to be platted.

(j) Location and results of all percolation tests and soil borings performed on the site. Percolation tests should be provided on the basis of at least 1 per acre or 1 per lot if lots exceed 1 acre in size. The health department may modify this requirement based on local conditions. As an example, a soil survey map prepared by a competent soil scientist with an indication of approximate percolation rates for certain categories of soils which have been determined to exist in the proposed plat area may be used to reduce the number of required percolation tests.

(k) When requested by the health department, a report of soil limitations based on site inspection carried out by a soil specialist qualified in the area of soil classification and mapping including soils information as may be obtained from a modern soil map which meets the standards of the national cooperative soil survey. The source of information shall be specified.

(l) Statement of the availability of water of good quality for domestic use on the land proposed to be subdivided. If questionable, the health department may require an estimate as to the availability of quality water prepared by and based upon a study by a registered civil engineer or hydrogeologist competent in the field of water supply.

(m) The location of existing facilities and structures, such as buildings, sewage systems, high tension towers, utility easements of record or in use, excavations, bridges, and culverts.

(n) Building set back lines from road or waterfront if such are established or proposed.

(o) The indication by arrows of the storm drainage flow direction from the platted area including any affected public or private road.

History: 1954 ACS 53, p. 69, Eff. Feb. 14, 1968.

R 560.403 Domestic water supply.

Rule 403. In determining availability of adequate and potable sources of water for domestic purposes, the following items shall be considered:

(a) The water quantity shall be sufficient to supply demands of the peak periods for domestic use based upon the nature, size and type of home or other type of establishments being proposed. The health department if deemed necessary may require well logs and pumping records from nearby developments and test wells and pumping tests in sufficient number to demonstrate that an adequate supply is available on each lot.

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(b) The chemical and bacteriological quality of the water shall be acceptable to the health department. In addition to being safe and palatable, the water shall not be excessively corrosive nor contain substances which would make it unfit for domestic uses unless such substances can be satisfactorily and economically removed. Chemical and bacteriological tests may be required.

(c) The source of individual water supplies shall be protected from possible pollution. Sufficient area shall be available on each lot to assure isolation distances from sources of pollution as provided under R 325.1451 to R 325.1461 and R 325.1601 to R 325.1722 of the Michigan Administrative Code. In addition, the minimum isolation distances may be increased where the depth to the aquifer or the nature of the overburden material is not sufficient to protect adequately the water from possible pollution.

History: 1954 ACS 53, p. 70, Eff. Feb. 14, 1968.

R 560.404 On-site sewage disposal.

Rule 404. (1) In determining suitability of the proposed subdivision for the disposal of sewage through systems dependent on subsurface disposal of liquid domestic wastes, the following items shall be considered:

(a) The high water table elevation, which is that elevation at which groundwater may be present during the normally wet periods of the year. Site evaluations shall include an evaluation of the soil profile characteristics to consider the soil drainage condition, soil color, mottling and organic matter, and such other profile features as may indicate the presence or absence of a fluctuating water table.

(b) Sufficient borings may be required to determine the depth to rock formations or other impervious strata where such are within 6 feet of the final grade in the proposed plat. Impervious strata shall be considered to be any ground condition or soil type where the percolation rate exceeds 60 minutes per inch.

(c) The relation of existing and proposed drainage areas or flood hazard zones.

(d) In conducting reviews of soil conditions to determine suitability of the soil for sewage disposal, factors such as swelling, clogging, topography, and seasonal hydrologic conditions shall be considered in addition to percolation tests. Percolation tests shall be conducted in accordance with procedures consistent with the department of public health's engineering division bulletin no. 2, "Questions and Answers About Home Sewage Disposal."

(e) The adequacy of lot sizes, each of which shall provide sufficient area of suitable soil for the building site and for present and future sewage disposal use in a location that will be properly isolated from streams, county drains or storm water drains, lakes, wells, property lines, embankments or other features which may adversely influence the operation and maintenance of the system or create a condition of hazard to the public health.

(2) Due to extenuating local circumstances the health department responsible for the enforcement of this rule may modify its provisions. The modifications shall be supported by local ordinance or rules and be made in writing to the proprietor with a copy to the director of the state department of public health either increasing or decreasing the requirements and the health department shall state the justification for each modification.

History: 1954 ACS 53, p. 70, Eff. Feb. 14, 1968.

R 560.405 Preliminary plat approvals or rejections.

Rule 405. Notice of approval or rejection of the preliminary plat shall be sent to the proprietor and the governing body within 30 days of receipt of the

preliminary plat and site report. A preliminary plat shall be rejected for 1 or more of the following reasons:

(a) Failure to provide for installation of public water and sanitary sewer facilities where they are available for immediate use for the subdivision or where the proposed subdivision is in a location for which water or sewer services are planned.

(b) When the site conditions are not suitable for on-site sewage or water systems where either is proposed.

(c) When information submitted is not sufficient to make a determination as to the suitability of ground conditions.

(d) When information submitted is determined to be in error.

(e) When conditions exist or may be created which may endanger public health.

DEPARTMENT OF PUBLIC HEALTH

CRIPPLED CHILDREN COMMISSION

PROCEDURE FOR CONDUCTING HEARINGS

(By authority of Act No. 197 of the Public Acts of 1952, as amended, being §24.101 et seq. of the Michigan Compiled Laws)

R 722.1 Notice of hearing.

Rule 1. Notification of any hearing before the Michigan crippled children commission will be by registered mail and will state the date, time, place, issues involved, and reasons for holding such hearing. Such notice will be mailed at least 30 days prior to date of said hearing.

History: 1954 ACS 30, p. 24, Eff. May 15, 1962.

R 722.2 Appearance.

Rule 2. When an appearance is made at a hearing it shall be made either in person or by a duly authorized representative, or by counsel.

History: 1954 ACS 30, p. 25, Eff. May 15, 1962.

R 722.3 Written answer or oral statement.

Rule 3. The person or persons who have been served with a notice of hearing may, at his option, file a written answer thereto prior to the date set for hearing, or at said hearing may appear and present an oral statement on the charges contained in the notice of hearing. When written briefs or arguments are presented, a copy shall be served upon the Michigan crippled children commission and opposite parties at least 5 days prior to the date set for the hearing.

History: 1954 ACS 30, p. 25, Eff. May 15, 1962.

R 722.4 Failure to appear.

Rule 4. If the person or persons who have been previously served with a notice of hearing fail to appear at a noticed hearing, the Michigan crippled children commission or its designated representative may proceed with a hearing of the case brought before it and may, on the evidence presented, make its decision.

History: 1954 ACS 30, p. 25, Eff. May 15, 1962.

R 722.5 Statement of facts.

Rule 5. When a hearing is requested, the party requesting the hearing shall submit in writing a fair and accurate statement of the facts to the Michigan crippled children commission and all interested parties. The facts shall be accepted as evidence unless a written answer is filed denying said facts and stating new facts relied upon with the Michigan crippled children commission and all interested parties.

History: 1954 ACS 30, p. 25, Eff. May 15, 1962.

R 722.6 Adjournment or continuance.

Rule 6. No hearing shall be adjourned or continued except upon an order of the Michigan crippled children commission or its designated representative

conducting the hearing. All motions and requests for an adjournment or a continuance shall be in writing, which instrument shall state concisely the reasons why an adjournment or continuance is necessary. No motion or request for an adjournment or continuance will be considered unless the same is filed with the Michigan crippled children commission at least 5 days prior to the date assigned for the hearing of the application, complaint or petition except upon order of the Michigan crippled children commission, which exception will be granted only upon a showing that for reasons not within the control of the person or party making the motion or request, the motion or request could not be filed within the time limited.

History: 1954 ACS 30, p. 25, Eff. May 15, 1962

R 722.7 Stipulation.

Rule 7. The parties to any hearing before the Michigan crippled children commission may, by a stipulation in writing filed with the Michigan crippled children commission, agree upon the facts or any portion of the facts involved in the controversy, which stipulation shall be regarded and used as evidence on the hearing. Parties are requested to thus agree upon the facts whenever practicable.

History: 1954 ACS 30, p. 25, Eff. May 15, 1962.

R 722.8 Depositions.

Rule 8. Depositions shall only be taken upon written authority of the Michigan crippled children commission where it is proved in writing to the Michigan crippled children commission that it is impractical or impossible to otherwise obtain the evidence. Where depositions are permitted, they shall be taken according to the rules for taking depositions in civil cases in the state of Michigan, being §617.6 et seq. of the Michigan Compiled Laws, with all parties given an opportunity to cross-examine the witness under oath.

History: 1954 ACS 30, p. 25, Eff. May 15, 1962.

HOSPITAL AND MEDICAL TREATMENT FOR CRIPPLED AND AFFLICTED CHILDREN

R 722.101—R 722.191 Rescinded.

History: 1954 ACS 44, pp. 58-63, Eff. Nov. 14, 1965; rescinded 1954 ACS 65, p. 57, Eff. Nov. 9, 1970.

R 722.201—R 722.565 Rescinded.

History: 1944 AC, pp. 206-221; 1944 ACS 2, p. 8; 1944 ACS 4, pp. 19-25; 1954 AC, pp. 7001-7024; rescinded 1954 ACS 44, p. 63, Eff. Nov. 14, 1965.

DIVISION OF SERVICES TO CRIPPLED CHILDREN

HOSPITAL AND MEDICAL TREATMENT FOR CRIPPLED CHILDREN

(By authority conferred on the department of public health by section 4 of Act No. 158 of the Public Acts of 1937 and section 432 of Act No. 380 of the Public Acts of 1965, being §§722.204 and 16.532 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 722.601 Purpose and interpretation.

Rule 1. (1) These rules are promulgated to implement the crippled children's act and to provide hospital and medical treatment services to crippled children under standards prescribed in the act.

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j

(2) Questions concerning the application or interpretation of these rules may be referred for consideration under the "Procedure for Conducting Hearings," being R 722.1 to R 722.8 of the Michigan Administrative Code.

History: 1954 ACS 65, p. 57, Eff. Nov. 9, 1970.

R 722.603 Definitions.

Rule 3. (1) "Application" means a request for financial assistance for care of a child under the crippled children's act, made to the department's designated representative by a parent, guardian or person acting in the place of a parent.

(2) "Authorization" means the department's agreement to pay providers for specified services to an individual child.

(3) "Crippled children's act" means Act No. 158 of the Public Acts of 1937, as amended, being §§722.201 to 722.244 of the Michigan Compiled Laws.

(4) "Crippling condition" means a health condition which is determined by the department to have caused a child to be crippled or which leads to crippling as defined in the crippled children's act.

(5) "Department" means the Michigan department of public health.

History: 1954 ACS 65, p. 57, Eff. Nov. 9, 1970.

R 722.619 Rescission.

Rule 19. The rules entitled "Hospital and Medical Care for Crippled and Afflicted Children," being R 722.101 to R 722.191 of the Michigan Administrative Code, and appearing on pages 3413 to 3419 of the 1964-65 Annual Supplements to the Code, are rescinded.

History: 1954 ACS 65, p. 57, Eff. Nov. 9, 1970.

PART 2. AUTHORIZATION OF CARE AND TREATMENT

R 722.621 Applications.

Rule 21. (1) An application for care shall be made to the department's designated interviewer by a parent, guardian or person acting in place of a parent.

(2) An application may be made by an emancipated, abandoned, neglected or deserted child in lieu of a parent, guardian or person acting in place of a parent. A minor's signature may be accepted for an agreement of repayment.

(3) The application process shall include medical certification by a licensed practitioner of the child's need.

History: 1954 ACS 65, p. 58, Eff. Nov. 9, 1970.

R 722.622 Economic investigations.

Rule 22. The interviewer shall investigate the parent's or guardian's ability to pay for the cost of a child's medical care and treatment. Information received shall be confidential.

History: 1954 ACS 65, p. 58, Eff. Nov. 9, 1970.

R 722.623 Recipients of categorical aid, social security, or pensions.

Rule 23. A parent, guardian or person acting in place of a parent, who is the recipient of aid to dependent children, old age assistance, aid to the blind, aid to the disabled, or whose primary source of income is social security or similar forms of retirement pension, shall qualify for crippled children services without further economic investigation.

History: 1954 ACS 65, p. 58, Eff. Nov. 9, 1970.

R 722.624 Children in state mental institutions.

Rule 24. Crippled children services shall be rendered to children in state mental institutions upon application without further investigation of the parents' or guardians' economic status or negotiation of an agreement to repay the state for such services.

History: 1954 ACS 65, p. 58, Eff. Nov. 9, 1970

R 722.625 Assignment of claims against third parties.

Rule 25. Under circumstances creating a claim of liability for a person other than the child, parent, guardian or person acting in place of a parent, for care and services rendered under the crippled children's act, an applicant shall assign his interests to the department to the extent of cost of treatment and care expended by the department. The assignment shall provide that the department is authorized to effect any adjustment with parents, guardians or other persons similarly interested in the cost of treatment, care or hospitalization of the child.

History: 1954 ACS 65, p. 58, Eff. Nov. 9, 1970

R 722.626 Repayments.

Rule 26. (1) If upon investigation it is determined that a family has the ability to repay in accordance with section 32 of the crippled children's act, the parent, guardian or person acting in place of a parent shall sign an agreement to pay a specified amount monthly for not more than 60 payments or until the amount paid by the department during the period of the authorization is paid in full.

(2) The terms of the agreement to repay may be appealed to the department by the parent, guardian or person acting in behalf of a parent at any time that meeting such terms appears to be working a hardship on the child or his family.

(3) If the reinvestigation indicated inability to repay, the parent or others shall not be required to sign an agreement to repay.

(4) Payments as specified in the repayment agreement shall be made to the department of treasury.

(5) The balance of a payment by a family or any other person in behalf of a family, which exceeds the amount paid for services by the department, shall be returned to the family.

History: 1954 ACS 65, p. 58, Eff. Nov. 9, 1970.

R 722.627 Authorizations of payments.

Rule 27. When a child is determined to be economically and medically eligible for services under the crippled children's act according to criteria established by the department, the department's designated representative shall issue a certificate of authorization to pay for treatment services within the scope of the crippled children's act for a period not to exceed 1 year, except under special circumstances as determined by the department for the parent's benefit.

History: 1954 ACS 65, p. 58, Eff. Nov. 9, 1970.

R 722.628 Renewal applications and repayment agreements.

Rule 28. (1) A parent, guardian or person acting in place of a parent shall reapply for services needed by a child beyond the expiration date of the original certificate of authorization, in the same manner as the original application was made.

(2) If, on reapplication, the investigation still indicates ability to repay, the parents, guardian or person acting in place of a parent shall sign a new agreement which shall supersede the previous agreement.

(3) If, on reapplication, the investigation indicates inability to repay, the parents, guardian or person acting in place of a parent shall not be required to sign a new agreement, and the previous agreement shall be appropriately modified.

History: 1954 ACS 65, p. 59, Eff. Nov. 9, 1970.

R 722.629 Renewal authorizations.

Rule 29. (1) A renewal certificate of authorization shall be issued by the department on the basis of reapplication, under the same criteria described in R 722.626.

(2) A renewal authorization is subject to medical certification of need, unless a child is under active treatment or has been examined during the previous 12-month period and further treatment is recommended.

History: 1954 ACS 65, p. 59, Eff. Nov. 9, 1970.

PART 3. HOSPITAL CARE AND TREATMENT

R 722.631 Hospital applications and approval.

Rule 31. (1) A hospital wishing to participate in the crippled children's program shall submit an application on a form provided by the department.

(2) A hospital participating in the crippled children's program shall signify full compliance with title VI of the civil rights act of 1964, so that no person, on the ground of race, color or national origin, shall be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity.

(3) Hospital care and treatment services shall be provided in hospitals approved by the department for care of crippled children.

History: 1954 ACS 65, p. 59, Eff. Nov. 9, 1970.

R 722.632 Admissions and readmissions to hospitals.

Rule 32. (1) An approved hospital shall accept and provide medical care and treatment for all children for which the department issues certificates of authorization for care.

(2) The certificate of authorization shall cover a maximum of 12 days of care for each admission. Payment for care beyond 12 days for a single admission shall be requested as described in R 722.634.

(3) A child may be readmitted for treatment during the valid term of the certificate of authorization. The hospital shall submit notification of readmission within 10 days after admission on a form provided by the department.

History: 1954 ACS 65, p. 59, Eff. Nov. 9, 1970.

R 722.633 Hospital admission and discharge reports.

Rule 33. (1) An approved hospital shall report an admission within 48 hours thereafter, on forms provided by the department, including the date of admission, the name of the approved attending physician or surgeon, and such other information as the department may require.

(2) A discharge report giving the date of discharge and such other information as the department may require shall be filed within 30 days after the date of discharge.

(3) The death of a patient shall be recorded on the discharge report and the date on which death occurred shall be regarded as the date of discharge.

History: 1954 ACS 65, p. 59, Eff. Nov. 9, 1970.

R 722.634 Long-term treatment reports.

Rule 34. An approved hospital shall report progress to the department on the treatment of crippled children remaining in the hospital in excess of 12 days, together with a request for the department's approval to pay for the necessary care beyond the 12 days. Forms for this purpose shall be provided by the department.

History: 1954 ACS 65, p. 59, Eff. Nov. 9, 1970.

R 722.635 Special nursing service and intensive care.

Rule 35. Special nursing service and intensive care will be authorized and given on the following conditions:

(a) A request for the service shall be made by the physician in charge of the case.

(b) Special nursing service shall be given by registered nurses or licensed practical nurses, on a full-time basis, unless otherwise approved by the medical coordinator.

(c) Treatment in intensive care units or by special nurses shall be on the basis of information supplied on the department's progress report form, for periods as approved by the department.

History: 1954 ACS 65, p. 59, Eff. Nov. 9, 1970.

R 722.636 Payments for care of newborn children.

Rule 36. Payment for hospital care of a newborn child may be authorized by the medical coordinator if the infant has a crippling condition which qualifies under the crippled children's program.

History: 1954 ACS 65, p. 60, Eff. Nov. 9, 1970.

R 722.637 Hospital and medical insurance or indemnity benefits.

Rule 37. (1) A hospital and parent, guardian or person acting in place of a parent shall decide whether an application to the department will be made when health insurance or indemnity benefits are involved.

(2) If application is made the hospital shall agree:

(a) To accept prepaid hospital insurance or indemnity plan benefits as a first resource, and the applicant shall make such resource available to the hospital. Cash indemnity hospital insurance payments payable directly to patients or their families shall be considered as cash resources of the patients or their families and shall be accepted by the hospital toward the payment for authorized care.

(b) To itemize charges and insurance credits on invoices where prepaid hospital insurance or indemnity plan benefits are involved.

(c) To make reasonable effort to collect the benefits from prepaid hospital insurance or indemnity contracts applicable to patients. Evidence of reasonable attempt to collect such benefits shall be rendered to the department upon request.

(d) To notify the department in case of delay in benefit recovery and upon request to authorize the department to make such recovery for the state.

(e) To take credit on the next billing or remit to the department by credit memo within 30 days after receipt, any benefits recovered at a date later than the date of billing.

(3) An adjustment shall be made so that benefits collected shall not exceed allowable billings.

History: 1954 ACS 65, p. 60, Eff. Nov. 9, 1970.

R 722.638 Payments to hospitals.

Rule 38. A hospital shall be reimbursed for services at rates agreed upon between the department and the hospital and on the basis of evidence of services maintained and invoices submitted as prescribed by the department under existing federal and state rules and regulations.

History: 1954 ACS 65, p. 60, Eff. Nov. 9, 1970.

PART 4. MEDICAL CARE AND TREATMENT

R 722.641 Payments.

Rule 41. (1) Payment for medical and surgical services rendered to children whose conditions qualify under the crippled children's act is limited to specialists who are approved by the department.

(2) Two physicians shall not be paid for attendance on the same case at the same time except where it can be demonstrated that supplementary care is required.

(3) Upon receipt of invoice and reports as required by the department, it shall pay for medical, surgical and other approved professional services rendered under the crippled children's program, at rates established by the department.

History: 1954 ACS 65, p. 60, Eff. Nov. 9, 1970.

R 722.642 Consultations.

Rule 42. (1) A request for consultation shall be made by the attending physician as prescribed by the department.

(2) A consultation shall be obtained from a board-certified specialist. However, if a specialist is not available in the area, consultation may be obtained from a physician with demonstrated competence in dealing with the particular problem.

(3) Payment for requested consultation shall be made upon receipt by the department of an invoice.

History: 1954 ACS 65, p. 60, Eff. Nov. 9, 1970.

CRIPPLED CHILDREN COMMISSION

PROGRAM OF MEDICAL CARE FOR PREVENTION OF BLINDNESS IN CHILDREN

R 722.701—R 722.706 Rescinded.

History: 1954 ACS 17, pp. 19-21, Eff. Feb. 14, 1959, rescinded 1954 ACS 44, p. 63, Eff. Nov. 14, 1965.

DEPARTMENT OF CORRECTIONS

BUREAU OF CORRECTIONAL FACILITIES

COUNTY JAILS

R 791.1—R 791.15 Rescinded.

History: 1944 ACS 36, pp. 11-14, 1954 AC, pp. 7101-7200, rescinded 1954 ACS 42, p. 100, Eff. May 15, 1965.

COUNTY JAILS

R 791.21—R 791.33 Rescinded.

History: 1954 ACS 42, pp. 97-100, Eff. May 15, 1965, rescinded 1954 ACS 62, p. 52, Eff. May 18, 1970.

JAILS AND LOCKUPS

R 791.101—R 791.113 Rescinded.

History: 1954 ACS 62, pp. 48-52, rescinded 1954 ACS 84, p. 90, Eff. Sept. 3, 1975.

PAROLE BOARD

PAROLES, PARDONS, REPRIEVES, AND COMMUTATION OF SENTENCES

R 791.301—R 791.351 Rescinded.

History: 1954 ACS 63, pp. 30-32, Eff. Aug. 14, 1970; rescinded 1954 ACS 93, p. 44, Eff. Nov. 30, 1977.

BUREAU OF CORRECTIONAL FACILITIES

JAILS, LOCKUPS, AND SECURITY CAMPS

(By authority conferred on the department of corrections by section 16a of chapter 13 of the Revised Statutes of 1846, as added, section 62 of Act No. 232 of the Public Acts of 1953, as amended, and section 277 of Act No. 380 of the Public Acts of 1965, being §§45.16a, 791.262, and 16.377 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 791.501 Definitions; A to D.

Rule 501. (1) "Administrator" means the sheriff, chief of police, facility administrator, or other duly authorized person responsible for the operation of a facility.

(2) "Capacity" means the number of persons a facility has been constructed to house under full, normal operation, excluding holding, detoxification and segregation cells, without the addition of extra beds.

(3) "Commission" means the corrections commission which administers the department of corrections or its formally delegated representatives.

(4) "Detoxification cell" means a cell used to temporarily hold 1 or more chemically impaired persons during the detoxification process until they can care for themselves and be moved to general housing areas.

(5) "Director" means the director of the department of corrections.

(6) "Dispensing" means the issuing of 1 or more doses in a suitable container, appropriately labeled for subsequent administration or use by a patient.

(7) "Drugs" means any prescribed medicine or controlled substance.

History: 1954 ACS 84, p. 90, Eff. Sept. 3, 1975.

R 791.502 Definitions; F to H.

Rule 502. (1) "Facility" means a jail, lockup, or security camp, including buildings and site.

(2) "Fire resistive" means a building having walls, ceilings, floors, partitions, and roofs of noncombustible materials and structural steel frames protected by a noncombustible material having a fire resistance rating of 1 hour. This does not prohibit the use of wood flooring, doors, frames, or trim in other than individual housing areas.

(3) "High security" means accommodations, secure against escape, for persons who cannot be allowed to mingle physically with other inmates without direct supervision and who will therefore be confined essentially full time to these accommodations, normally because of assaultive and aggressive behavior or high escape risk.

(4) "Holding cell" means a cell used to hold 1 or more persons temporarily while awaiting processing, booking, court appearance, or discharge.

History: 1954 ACS 84, p. 90, Eff. Sept. 3, 1975.

R 791.503 Definitions; I to L.

Rule 503. (1) "Inmate living area" means an individual cell or room or groups of cells or rooms which provide as a minimum sleeping accommodations, storage of approved personal effects, and personal hygiene accommodations.

(2) "Inmate occupied area" means that portion of a facility which could normally be occupied by inmates.

(3) "Jail" means a facility operated by a unit of local government for the physical detention and correction of persons charged with or convicted of criminal offenses.

(4) "Lockup" means a facility operated by a unit of local government used to detain persons charged with or convicted of criminal offenses for a period of less than 48 hours.

(5) "Low security" means accommodations for housing and group activities of inmates who are not considered dangerous or likely to escape.

History: 1954 ACS 84, p. 91, Eff. Sept. 3, 1975.

R 791.504 Definitions; M to S.

Rule 504. (1) "Medium security" means accommodations secure against escape and under direct staff supervision, but where inmates will be allowed to participate in group activities.

(2) "Security area" means a defined space whose physical boundaries have controlled access and egress.

(3) "Security camp" means a facility operated by a unit of local government for the housing and correction of inmates who are not considered dangerous or likely to escape.

(4) "Security door" means a door, equipped with the proper hardware, compatible with the security classification of the separation in which it is used.

(5) "Segregation cell" means a cell constructed for the temporary housing of a person whose behavior is disruptive.

(6) "Special problem category" means specific groups of inmates, including, but not limited to, the mentally ill, physically ill, suicide prone, high escape risks, substance abuse offenders, and assaultive, dangerous, or disruptive persons.

History: 1954 ACS 84, p. 91, Eff. Sept. 3, 1975

R 791.511 Variances.

Rule 511. (1) A facility shall comply with the requirements of these rules, except that the commission may grant a variance where it determines that:

(a) Strict compliance would cause unusual difficulties and hardships.

Digitized by Google

(b) The exception meets the intent of the rule and would not seriously affect the security, supervision of inmates, programs or the safe, healthful, or efficient operation of the facility.

(2) In previously existing facilities where specific rules cannot be complied with because of unusual difficulty or undue hardship, exception to specific physical plant provisions of the rules may be made if the intent of the rules is met and the security, supervision of inmates, programs or the safe, healthful, or efficient operation of the facility is not seriously affected.

(3) When an exception to a rule is desired for a specific facility, the responsible local authority shall submit a written request to the commission stating the justification for the requested exception and documenting the claim that the exception meets the intent of the rule and will not jeopardize the security, supervision of inmates, programs or the safe, healthful or efficient operation of the facility. An exception, if granted, shall apply only to the petitioner, for the specific situation or equipment cited and for the period of time specified.

History: 1954 ACS 84, p. 91, Eff. Sept. 3, 1975.

R 791.519 Rescission.

Rule 519. The rules of the department entitled, "Jails and Lockups," being R 791.101 to R 791.113 of the Michigan Administrative Code and appearing on pages 5879 to 5883 of the 1970-71 Annual Supplements to the Code, are rescinded.

History: 1954 ACS 84, p. 92, Eff. Sept. 3, 1975.

PART 2. PLANNING

R 791.521 Review of concepts.

Rule 521. (1) When the construction of a new facility, or the extensive remodeling of an existing facility is considered, the responsible local authority shall contact the commission for review and opinion of concepts.

(2) Information furnished to the commission at subsequent stages shall include, but not be limited to, the areas listed in R 791.522 to R 791.524.

History: 1954 ACS 84, p. 92, Eff. Sept. 3, 1975.

R 791.522 Objectives and analysis.

Rule 522. (1) A clear definition of functions and objectives for the proposed addition, renovation, or new facility shall be provided.

(2) Careful study shall be given to future needs and possible expansion.

(3) An analysis of facility population trends over a period of not less than 5 years should be made to determine anticipated capacity of facility components. Data should include, but not be limited to, differentiation by age, sex, crime (classification), and status (sentenced, unsentenced, juvenile, adult and other special problem categories).

(4) Different degrees of security housing shall be considered.

History: 1954 ACS 84, p. 92, Eff. Sept. 3, 1975.

R 791.523 Space allocations.

Rule 523. (1) Space shall be allocated for, but not limited to, the following functions where required by these rules and the needs of the facility:

(a) Inmate reception.
(b) Shakedown.
(c) Adequate separation of inmates.
(d) Attorney interviews.
(e) Guard stations.

(f) Food service.
(g) Storage.
(h) Visiting.
(i) Booking.
(j) Identification.
(k) Security garage.
(l) Interrogation.
(m) Show-up.
(n) Laundry.
(o) Inmate commissary.
(p) Inmate programming.
(q) Inmate activities.
(r) Counseling.
(s) Dressing in and out.
(t) Medical examination and treatment.

(2) Subdivisions (a) to (h) apply to all facilities; (i) to (l) apply to jails and lockups; (n) to (r) apply to jails and security camps; and (m), (s), and (t) apply only to jails.

(3) A separate classification—diagnostic area and infirmary—is desirable and should be provided in large jails.

History: 1954 ACS 84, p. 92, Eff. Sept. 3, 1975.

R 791.524 Sites.

Rule 524. (1) The site shall be of sufficient size to provide for expansion over the projected life of a facility, and to provide a buffer zone around the buildings.

(2) The responsible local authority shall consult with the local health department relative to the adequacies of the site for water, sewage, and solid waste disposal and the certification of adequacy shall be submitted to the commission before site acquisition.

History: 1954 ACS 84, p. 92, Eff. Sept. 3, 1975.

R 791.525 Plans and specifications.

Rule 525. (1) Plans and specifications shall be prepared by an architect or engineer registered in this state pursuant to Act No. 240 of the Public Acts of 1937, as amended, being §338.551 et seq. of the Michigan Compiled Laws, and submitted at the following stages in order to provide approval of plans for lockups or a carefully examined opinion regarding jails or security camps:

(a) At completion of design development phase.
(b) At completion of construction document phase.
(c) Consultation service at other stages will be available to the architect as desired.

(2) Two sets of preliminary documents and 2 sets of final documents shall be submitted to the commission for review of compliance with these rules and the rules for barrier free design requirements. One set of final documents shall be submitted directly to the county department of health having jurisdiction.

(3) The commission shall be consulted relative to any extensive changes in facility equipment which materially affect operations or management.

(4) Construction contracts shall not be awarded until the commission has given written opinion of the final contract documents. Revisions shall not be made to the documents except upon additional opinion by the commission. Final inspection of the completed facility before acceptance by the owner shall be made in conjunction with an on-site inspection by a designee of the commission.

History: 1954 ACS 84, p. 92, Eff. Sept. 3, 1975.

PART 3. CONSTRUCTION

R 791.531 Laws applicable.

Rule 531. A facility shall conform to the building, safety, and health requirements of the local authority. Standards for a facility which exceed those of a local authority shall take precedence.

History: 1954 ACS 84, p. 93, Eff. Sept. 3, 1975.

R 791.532 Safety and security.

Rule 532. (1) A facility shall provide safety for staff and inmates.

(2) A facility shall provide all necessary custodial security. These security features shall be compatible with modern design which stresses positive aspects rather than negative restraint.

(3) The design shall provide for the orderly flow of facility traffic through strategically located corridors, eliminating all unnecessary cross traffic and undesirable contacts between differently classified types of inmates. The design shall insure the security and efficiency of the facility operations. Particular consideration should be given to this when planning for rehabilitation or treatment areas within the jail complex.

(4) A facility shall be so designed that a section or area can be closed off for varied use to meet changing needs.

(5) A jail or lockup shall be of fire-resistive construction and not attached to a wooden building, except that for housing of low security day-parole inmates or for a multi-purpose room, a building of combustible construction may be attached to a jail if:

(a) The combustible building is constructed in compliance with the recommendations for relocatable classrooms of the fire marshal division, Michigan state police.

(b) A 2-hour noncombustible separation is maintained between the buildings with a 1½-hour fire door and no other openings allowed.

(c) An ionization type detection system is installed in the combustible building which activates an alarm within a control center in case of fire.

(6) A jail, lockup, or security camp shall be designed and maintained as a special security unit. When built in conjunction with other governmental functions, the integrity of the security perimeter shall not be compromised.

(7) A building of 2 stories or more shall have not less than 1 elevator large enough to accommodate a loaded ambulance cot. Closed-circuit television or other acceptable electronic monitoring devices may be used in a security elevator.

(8) Facility construction shall incorporate measures which protect against the entrance of vermin into the institution and the breeding or presence of vermin on the premises. Choice of materials and construction design shall enable satisfactory maintenance and housekeeping.

History: 1954 ACS 84, p. 93, Eff. Sept. 3, 1975.

R 791.533 Separations.

Rule 533. A separation between 2 security classifications shall be as secure as the higher classification but in no case less than medium security.

History: 1954 ACS 84, p. 93, Eff. Sept. 3, 1975.

R 791.534 Administrative section.

Rule 534. (1) A facility shall provide sufficient space for administrative and clerical personnel. Equipment, supplies, and storage space shall be provided

adequately to meet established and projected needs. These spaces shall be located outside the inmate occupied area.

(2) A jail shall have a conference area conveniently located for general facility use.

History: 1954 ACS 84, p. 94, Eff. Sept. 3, 1975.

R 791.535 Squad rooms.

Rule 535. In jails, locker space, water closets, lavatories, showers, and dressing areas should be provided for all uniformed personnel, and if provided shall be located outside the inmate occupied area.

History: 1954 ACS 84, p. 94, Eff. Sept. 3, 1975.

R 791.536 Public accommodations.

Rule 536. (1) Public areas of the facility shall be located outside the inmate occupied area and shall comply with the rules of the state fire marshal according to Act No. 207 of the Public Acts of 1941, as amended, being §29.1 et seq. of the Michigan Compiled Laws, and state barrier free design requirements promulgated pursuant to Act No. 1 of the Public Acts of 1966, as amended, being §125.1351 et seq. of the Michigan Compiled Laws.

(2) Public access to a building shall be through a main entrance. The public shall not have uncontrolled access to inmate occupied areas.

(3) A public lobby or waiting area should provide for the comfort and convenience of the public, including sufficient seating, water closets, lavatories, drinking fountains, and public telephones.

(4) A public lobby or waiting area shall be so situated that it does not interfere with general office routine.

History: 1954 ACS 84, p. 94, Eff. Sept. 3, 1975.

R 791.537 Visiting areas.

Rule 537. (1) A facility shall provide visiting accommodations inside the inmate occupied area near a control room or other guard station. The visiting area shall be designed to provide flexibility in the degree of physical security and supervision commensurate with security needs of variously classified inmates.

(2) Visiting space shall be provided for cases where maximum supervision is required in which visitors can be kept physically separate from inmates at all times.

(3) For all other cases, a common visiting area shall be provided for visits from law enforcement officers, attorneys, clergy, and probation and parole officers.

History: 1954 ACS 84, p. 94, Eff. Sept. 3, 1975.

R 791.538 Entrances.

Rule 538. (1) A jail or lockup shall be so designed that inmates may board or disembark from a transportation vehicle inside a security garage located inside or abutting on the building. Space shall be sufficient to accommodate anticipated transportation vehicles, including buses where applicable, and to insure the adequate handling of inmates in the security garage. Supplies, materials, equipment, and vehicles shall not be stored in a security garage.

(2) The inmate entrance shall be from the security garage through a safety vestibule into the processing area. This entrance shall allow for passage of a loaded ambulance cot between interlocking doors.

(3) A safety vestibule shall be designed and constructed to allow a corrections officer to observe and identify a person approaching the inmate entrance. Electronic surveillance equipment may be used.

(4) Separate secure storage space shall be provided for disposition of weapons at all entrances to the inmate occupied area.

History: 1954 ACS 84, p. 94, Eff. Sept. 3, 1975.

R 791.540 Processing areas.

Rule 540. (1) Jails and lockups shall have a processing area located inside the inmate occupied area, but away from the inmate living area.

(2) The processing area shall be designed to readily permit the booking, shakedown, identification and dressing of inmates.

(3) One or more holding cells shall be provided to temporarily detain inmates pending booking, court appearance, identification, housing assignment, or discharge.

(4) Space shall be provided for a thorough strip search of an inmate, a clothing inspection for contraband and fumigation if necessary, a shower, and delousing of an inmate. Some form of modesty panels shall be provided.

(5) Space shall be provided for photographing, fingerprinting, and carrying out identification procedures for inmates.

History: 1954 ACS 84, p. 94, Eff. Sept. 3, 1975.

R 791.541 Storage areas.

Rule 541. Processing storage areas based upon capacity shall be provided as follows:

(a) In a jail inmate property storage adjacent to the processing area in the amount of 2 cubic feet per inmate, excluding shelving, bins, and baskets.

(b) In a jail or lockup space for inmates' personal effects.

(c) Jail uniforms, towels, bedding, and linen in the amount of 3 cubic feet per inmate, excluding shelving, bins, and baskets.

(d) Off-floor storage for mattresses in the amount of 5.25 cubic feet per mattress for 25% of beds, excluding aisles.

History: 1954 ACS 84, p. 95, Eff. Sept. 3, 1975.

R 791.543 Medical treatment and infirmary.

Rule 543. (1) Space and equipment for medical examination, treatment, and convalescent care shall be provided in each jail or written protocol established and implemented with a recognized community health care facility for inmates of the jail.

(2) The construction of an infirmary should be considered for a jail having a capacity of 50 or more whenever it is anticipated that:

(a) Emergency services may have to be rendered frequently.

(b) There is a high frequency of cases where the jail physician deems it unnecessary to remove an inmate to an outside medical facility, but where recuperative or convalescent care is required.

(c) Convalescent care cannot be provided by utilization of vacant single cells or dormitory units.

(3) Where an infirmary is constructed, the following components shall apply:

(a) Nurses station.

(b) Locked medication station with storage for individually filled prescriptions.

(c) Separate clean utility room with sink, storage for nourishments, linen, and equipment.

(d) Soiled utility room with double tub sink and clinical service sink with flushing rim.

(e) Eighty square feet of floor space per bed; not more than 4 beds per ward.
(f) One hundred square feet of floor space for single room.
(g) Three-feet 8-inch door widths.
(h) Hand washing lavatory accessible to each ward. The lavatory shall have a gooseneck inlet with wrist controls.
(i) Janitor closet.
(j) Additional elements may be needed as dictated by the health care program carried out.

History: 1954 ACS 84, p. 95, Eff. Sept. 3, 1975.

R 791.544 Corridors and vestibules.

Rule 544. (1) A guard inspection corridor and inmate corridor shall be provided where needed. In a high security area, a corridor shall separate an inmate living area from any exterior wall in which openings occur.
(2) A corridor shall be not less than 5 feet wide and permit the free passage of all movable equipment within the facility.
(3) A safety vestibule of sufficient size to permit passage of a loaded ambulance cot between interlocking doors shall be provided at the entrance of each inmate living area designed to hold medium or maximum security inmates.
(4) A safety vestibule shall provide full visibility of the areas from which a person enters or leaves the vestibule.

History: 1954 ACS 84, p. 95, Eff. Sept. 3, 1975.

R 791.545 Laundries.

Rule 545. (1) A laundry or an acceptable vendor contract, or both, shall be maintained to provide clean clothing, bedding and supplies. When a laundry is maintained, space for soiled clothing storage, clean laundry storage, and laundry supply storage shall be provided. Where applicable, space shall be provided for washer, extractor, or dryer. Size of equipment and area required may be based on 20 pounds of wash per inmate per week at capacity.
(2) Equipment shall be commercial or heavy duty type.
(3) Where an inmate is used on laundry assignments, a hand washing lavatory and water closet shall be provided in or in close proximity to the laundry.

History: 1954 ACS 84, p. 95, Eff. Sept. 3, 1975.

R 791.546 Commissaries.

Rule 546. Space appropriate to capacity of the jail or security camp shall be provided for an inmate commissary.

History: 1954 ACS 84, p. 96, Eff. Sept. 3, 1975.

R 791.551 Arsenals.

Rule 551. An arsenal shall be provided in a jail or lockup for the issuance, storage, and care of weapons. It shall be located outside the inmate occupied areas and secure from access by unauthorized persons.

History: 1954 ACS 84, p. 96, Eff. Sept. 3, 1975.

R 791.552 Guard stations.

Rule 552. (1) Not less than 1 guard station shall be provided for a corrections officer on each floor.
(2) In a jail or lockup, 1 of the guard stations shall be a control center located outside the inmate occupied area. A control center shall be protected so as to be inaccessible to inmates and unauthorized persons under all foreseeable circumstances.

(3) Door openings of the inmate occupied area perimeter, except those operated by and at the security garage entrance, shall be controlled from the control center by manual or electrical locking devices or both. Strategic doors within a security area may also be remotely controlled from the control center.

History: 1954 ACS 84, p. 98, Eff. Sept. 3, 1975.

R 791.553 Monitoring, communication, and surveillance systems.

Rule 553. (1) In a jail or lockup, a security area shall have an electronic monitoring system built in so that activities can be checked by the corrections officer and so an inmate can advise the officer of emergency needs. Where applicable, closed-circuit television surveillance equipment may be used.

(2) Where closed-circuit television is not included but is planned or anticipated, space and conduits should be provided so that the equipment can be installed without need for alteration of the physical plant.

(3) Plans for the use of the equipment shall be submitted to the commission for review and approval before purchase and installation.

(4) Two-way communication capability shall be provided between any remotely controlled security gate or door and its control point.

(5) Outlets for multi-channel radio or television hookup for education and recreational purposes should be provided in an inmate-occupied area.

History: 1954 ACS 84, p. 98, Eff. Sept. 3, 1975.

R 791.554 Exits.

Rule 554. (1) Two separate means of evacuation shall be provided on each floor where inmates are confined.

(2) Two separate exits in multi-level buildings shall be provided by properly enclosed 1 hour rated stair shafts.

(3) An exit shall lead directly from the inmate occupied area to a hazard-free area at street grade where adequate supervision shall be provided. This stairway shall serve only the inmate occupied area.

History: 1954 ACS 84, p. 98, Eff. Sept. 3, 1975.

R 791.555 Detoxification cells.

Rule 555. (1) A jail or lockup shall provide 1 or more detoxification cells which shall be designed for detention of chemically impaired persons during the detoxification process only.

(2) The cell shall be equipped with a raised bunk slab 27 inches wide and not more than 8 inches high.

(3) The cell shall be provided with a prison-type combination water closet/lavatory/drinking fountain, angle jet type, for each 8 inmates or fraction thereof. One or more 4-inch flushing floor drains shall be provided. The floor shall be properly pitched to drains. A plumbing fixture shall have outside water shutoffs and controls, individually by cell.

(4) The size of a cell shall be determined by the anticipated maximum number of chemically impaired persons received at any 1 time but shall be at least 80 square feet in area.

(5) The cell shall have a minimum of 15 square feet of floor space, exclusive of bunk slab, for each inmate at maximum capacity of the detoxification cell.

(6) The cell shall have a floor and bunk slab covered with not less than a ¾-inch resilient surface which shall be durable and easily cleanable. A nonskid coating shall be applied to the surface or other methods exercised to minimize slippage. Edges and corners on projecting surfaces shall be rounded.

(7) The cell shall be located near a guard station in order to insure proper supervision. The cell shall be separate from an inmate living area.

(8) A detoxification cell shall be constructed to provide unhampered supervision of the entire detoxification cell area and to materially reduce noise.

History: 1954 ACS 84, p. 96, Eff. Sept. 3, 1975.

R 791.557 Holding cells.

Rule 557. (1) A jail or lockup shall provide 1 or more holding cells with not less than 150 square feet of floor space or not less than 15 square feet per inmate, excluding benches, at capacity of the holding cell.

(2) Seating shall be sufficient to provide not less than 24 linear inches per person at capacity. Corners and edges of benches shall be rounded.

(3) A prison-type water closet/lavatory/drinking fountain, angle jet type, shall be provided for each 8 inmates or fraction thereof. Permanent modesty panels shall be provided.

(4) A holding cell shall have 1 or more 4-inch, flushing floor drains. A plumbing fixture shall have outside water shut-offs, individually by cell. The floor shall be constructed of material which is durable and easily cleanable. A floor shall have a nonskid surface to minimize slippage.

(5) A holding cell shall be located near a guard station in order to insure proper supervision. A holding cell shall be separate from an inmate living area. It shall be constructed to provide unhampered supervision of the entire holding cell area and to materially reduce noise.

History: 1954 ACS 84, p. 97, Eff. Sept. 3, 1975.

R 791.558 Segregation cells.

Rule 558. (1) A jail shall have 1 or more segregation cells to temporarily house disruptive inmates, located within the inmate occupied area.

(2) The cell shall be a minimum of 80 square feet and shall contain a raised bunk slab 18 inches high by 24 inches wide by 8 feet long. Exposed surfaces of the floor and bunk slab shall be troweled concrete with surface hardener, terrazzo, or other approved finish. Corners and edges of the bunk shall be rounded.

(3) The cell shall have a 4-inch, flushing floor drain. The floor shall be properly pitched to the drain.

History: 1954 ACS 84, p. 97, Eff. Sept. 3, 1975.

R 791.559 Segregation cell interiors and vestibules.

Rule 559. (1) Walls and ceiling of the segregation cell shall be uncovered reinforced concrete. The cell shall be sufficiently sound isolated to materially reduce noise transmission to other parts of the jail.

(2) A cell door shall have a 12-inch by 4-inch food pass located 40 inches above the floor or other approved alternate.

(3) A security-type mattress shall be provided.

(4) A cell shall contain a prison-type combination water closet/lavatory/drinking fountain, angle jet type. A plumbing fixture shall have outside water shutoffs and controls, individually by cell.

(5) An entrance vestibule shall be located in front of a segregation cell. This vestibule shall be enclosed with an outer solid door with view plate. This door shall be not less than 5 feet removed from the cell door.

(6) A cell and its vestibule shall be separated by a solid wall from an adjacent cell.

History: 1954 ACS 84, p. 97, Eff. Sept. 3, 1975.

R 791.563 General cells and areas.

Rule 563. (1) Except for a holding or a detoxification cell, housing shall be constructed so that each inmate has an individual cell or room.

(2) Innovative architectural concepts and the use of new materials are encouraged to reduce problems of security, maintenance and sound reverberation while creating a practical, safe, and healthful environment for staff and inmates.

(3) Light, soft-toned, washable paint shall be used for untiled walls and metalwork in the facility.

(4) Inmate-occupied cells, rooms, activity and multi-purpose rooms or space should be decorated in varied light color shades to permit an introduction of human scale within the facility. This is particularly important in high security areas where inmate movement is restricted.

(5) A litter stretcher and storage therefor shall be provided on each floor for the transportation of the critically ill or injured.

History: 1954 ACS 84, p. 97, Eff. Sept. 3, 1975.

R 791.564 High security cells and areas.

Rule 564. (1) A high security cell shall have not less than 75 square feet of floor space, except for lockups where minimum size shall be 52 square feet.

(2) Minimum equipment for a high security cell shall include a prison-type combination water closet/lavatory/drinking fountain, angle jet type, a rigidly constructed perforated steel-bottomed metal bed or other approved alternate, small steel table and seat and a mirror. All equipment shall be securely fastened to the floor or wall.

(3) A shower head for each 15 cells or fraction thereof shall be provided in each high security area.

(4) A high security door shall be of sliding bar grillwork or other approved construction where maximum vision is required and of sliding or hinged 14 gauge reinforced hollow metal or ¼-inch minimum hinged steel plate elsewhere.

(5) Sliding doors shall have tracks and guides inaccessible to inmate living areas and shall be equipped with a locking device which permits them to be remotely opened and closed and locked and unlocked, either individually or collectively.

(6) A partition in a high security area shall be of reinforced concrete with a minimum of #4 bars at 12 inches O.C. each way, or other approved construction.

(7) A floor shall be of reinforced concrete and may be covered with terrazzo or other approved finish.

(8) Uncovered steel plate construction shall not be used for a floor, wall, or ceiling.

History: 1954 ACS 84, p. 98, Eff. Sept. 3, 1975.

R 791.565 Medium security cells and areas.

Rule 565. (1) A medium security cell shall have not less than 52 square feet of floor space when an activity area is available and directly accessible from the cell. If an activity area is not provided a medium security cell, excluding corridor, shall not have less than 75 square feet of floor space, except for lockups where minimum size may be 52 square feet.

(2) Minimum equipment for a medium security cell shall include an institutional water closet, lavatory, and drinking fountain, angle jet type, a fixed bunk, desk, shelf and hooks, mirror, and a chair or stool.

(3) A shower head for each 15 cells or fraction thereof shall be provided in each medium security area.

(4) A medium security door shall be of not less than 16 gauge reinforced hollow metal, side hinged or pivoted, hung in a 12 gauge specially reinforced hollow metal frame.

(5) Doors shall be equipped with a locking device which permits them to be remotely locked and unlocked, either individually or collectively.

(6) In a medium security area a partition shall be of minimally reinforced concrete or reinforced concrete masonry units with high strength mortar.

(7) A floor shall be of reinforced concrete and may be covered with terrazzo or other approved finish.

(8) Uncovered steel plate construction shall not be used for a floor, wall, or ceiling.

History: 1954 ACS 84, p. 98, Eff. Sept. 3, 1975.

R 791.566 Low security rooms and areas.

Rule 566. (1) A low security room shall have not less than 52 square feet of floor space when an activity area is available and directly accessible from the room. If an activity area is not provided a low security room, excluding corridor, shall not have less than 75 square feet of floor space.

(2) Minimum equipment for a low security room shall include a bed, writing surface, chair, mirror, a locker or hooks or hangers, and a shelf or drawer.

(3) Gang-type water closets and showers may be used. One shower head shall be provided for each 15 rooms or fraction thereof. One institutional water closet and lavatory shall be provided for each 8 rooms or fraction thereof. Some form of modesty panels shall be included.

(4) A low security door shall be of not less than 18 gauge reinforced hollow metal, or solid core laminated plastic, side hinged or pivoted, hung in a hollow metal frame of not less than 16 gauge steel.

(5) A partition shall be constructed of durable materials easily cleanable.

(6) A room floor shall be of reinforced concrete and may be covered with terrazzo or other approved finish.

(7) Uncovered steel plate construction shall not be used for a floor, wall, or ceiling.

History: 1954 ACS 84, p. 98, Eff. Sept. 3, 1975.

R 791.571 Exercise areas.

Rule 571. (1) A jail shall provide an inside and outside exercise area which meets the definition of a security area.

(2) The responsible local authority shall consult with the commission relative to design and approval of rooftop exercise areas.

History: 1954 ACS 84, p. 99, Eff. Sept. 3, 1975.

R 791.572 Outside exercise area fences.

Rule 572. (1) An outside exercise area shall be enclosed by double security fence 12-feet high or a single masonry-type wall 12-feet high. The outer perimeter fence shall be not less than 6 feet from the interior fence. Fencing shall be installed inside fence posts.

(2) Fencing shall be 2-inch mesh not less than 144 inches high, and shall provide visual privacy and security against escape and contraband.

(3) The footing of the fence shall be sufficiently secure to preclude tunneling or caching contraband. This may be achieved by construction of a 12-inch ratwall or similar barrier.

History: 1954 ACS 84, p. 99, Eff. Sept. 3, 1975.

R 791.573 Activity areas.

Rule 573. (1) When an activity area is required by R 791.565 or R 791.566, the area shall provide not less than 30 square feet of space per inmate at maximum usage. This shall be directly accessible from the cell or room.

(2) If the activity area is not directly accessible from the cell or room, group toilet facilities shall be provided consisting of a water closet, lavatory, and drinking fountain, angle jet type, for each 8 inmates or fraction thereof. Some form of modesty panel shall be provided in conjunction with a water closet.

History: 1954 ACS 84, p. 99, Eff. Sept. 3, 1975.

R 791.574 Multipurpose rooms.

Rule 574. (1) A jail with a capacity of 35 or less shall have, in addition to any activity area, a multipurpose room of not less than 200 square feet.

(2) A jail of more than 35 capacity shall have, in addition to any activity area, 1 or more multipurpose rooms for group assembly of inmates of not less than 600 square feet for each 100 inmates or fraction thereof.

(3) A multipurpose room shall be located outside the inmate living area.

History: 1954 ACS 84, p. 99, Eff. Sept. 3, 1975.

R 791.577 Kitchens.

Rule 577. (1) If food is to be prepared in a facility, a kitchen shall be provided.

(2) The kitchen shall be planned for efficient food preparation, receipt of supplies, storage and removal of waste without affecting security of the facility.

(3) The kitchen shall be designed so that it will not be used as a passageway for nonfood handling staff or the public.

(4) In designing a food preparation and service area, planning should allow space for the following operations: receiving, storage, processing, preparation, cooking and baking, serving, dishwashing, cleaning, menu preparation and record keeping, staff personal hygiene, and maintenance.

(5) Issue areas for fresh, dry, and frozen foods shall be adjacent to the kitchen.

(6) A kitchen floor shall be properly pitched to a floor drain. The junction between the floor and the wall shall be coved. The walls and ceilings shall be finished with smooth, washable, light-colored surfaces.

History: 1954 ACS 84, p. 99, Eff. Sept. 3, 1975.

R 791.578 Kitchen lighting, ventilation, and water.

Rule 578. (1) Adequate natural or artificial light shall be provided on work surfaces in the kitchen where food is prepared and cooking and eating utensils are washed.

(2) Food service rooms shall be adequately ventilated to control disagreeable odors and moisture and any opening to the outer air shall be effectively screened and barred.

(3) Adequate hot and cold running water under pressure shall be provided in the kitchen area. Hot water equipment shall be of sufficient size and capacity to meet the kitchen and other facility needs and consistent with public health standards.

History: 1954 ACS 84, p. 99, Eff. Sept. 3, 1975.

R 791.579 Kitchen equipment.

Rule 579. (1) A kitchen shall be provided with appropriate equipment for preparation and serving of meals, for refrigeration of perishable foods, storage of

dry and frozen foods, and for washing and sanitizing of silverware, dishes, and cooking utensils.

(2) A hand-washing lavatory shall be provided.

(3) Minimum kitchen equipment shall consist of 1 or more triple sinks with integral flanking drain boards, a refrigerator of commercial size, and a cooking range with not less than 6 burners or equivalent heating surface; ovens as required.

(4) A work table or counter top shall be constructed of impervious materials.

(5) Commercial dishwashing and sanitization equipment sized for the needs of the facility shall be provided.

History: 1954 ACS 84, p. 100, Eff. Sept. 3, 1975.

R 791.580 Feeding space.

Rule 580. In initial planning for new construction or remodeling of an existing facility, provision should be made for group feeding as well as segregated feeding. Group feeding should avoid an overly-large concentration of inmates.

History: 1954 ACS 84, p. 100, Eff. Sept. 3, 1975.

R 791.583 Electrical power and lighting.

Rule 583. (1) Electrical installation shall meet the requirements of Act No. 217 of the Public Acts of 1956, as amended, being §338.881 et seq. of the Michigan Compiled Laws. In pursuance of this act, a certificate of approval of electrical work may be issued by the state electrical administrative board or by any city, village, or township permitted by the act to adopt and ordinance providing standards for electrical work.

(2) In addition to the requirements of that act, a jail or lockup shall have:

(a) Light controls, and conduit and lighting fixtures out of reach of inmates in high security areas.

(b) Inmate living area interiors devoid of dark corners.

(c) Lighted entrances and exterior sufficient to observe a person approaching the entrance and exterior perimeter during hours of darkness.

(d) An emergency electrical power facility for quick recovery to maintain essential services, security, and safety. Emergency power shall supply electricity for entrance lighting, exit signs, guard and inmate corridors, fire alarm, electrically operated locks and gates, and the like to meet the fire safety statutory requirements of Act No. 207 of the Public Acts of 1941, as amended. Emergency power shall also provide electricity for the emergency ventilation unit if operable windows are not provided.

(e) Where heated food carts are used, appropriate electrical outlets shall be provided.

(3) Lighting shall be of sufficient intensity to clearly illuminate cells and corridors for supervision purposes at all times and to permit an inmate to read in his cell. Lighting should follow standards established by the illuminating engineers society.

History: 1954 ACS 84, p. 100, Eff. Sept. 3, 1975.

R 791.584 Heating and ventilation.

Rule 584. (1) Heating systems and all equipment shall be designed to provide a minimum temperature of 67 degrees Fahrenheit in all occupied areas with an outside design temperature of minus 10 degrees Fahrenheit below latitude 44°10′ and minus 20 degrees above that line.

(2) Controlled ventilation shall be provided in all occupied areas. Minimum outside air shall be 5 cubic feet per minute per occupant. The system shall be

designed to control odors, and to routinely provide temperatures within the normal comfort zone (67 degrees to 85 degress Fahrenheit).

History: 1954 ACS 84, p. 100, Eff. Sept. 3, 1975.

R 791.585 Plumbing and drainage.

Rule 585. (1) Plumbing work shall meet the requirements of Act No. 266 of the Public Acts of 1929, as amended, being §338.901 et seq. of the Michigan Compiled Laws, and Act No. 222 of the Public Acts of 1901, being §338.951 et seq. of the Michigan Compiled Laws. Water closets, showers, and lavatories used by inmates shall be of a type designed for jail or prison use. Both hot and cold water shall be available to each cell. Hot water shall not exceed 110 degrees Fahrenheit at a lavatory or shower in the inmate living area. A lavatory shall have a quick shutoff valve and no stopper.

(2) A drain shall be located to reduce the incidence of malicious tampering and flooding. Except where specified, a drain shall not be located in a cell but in a guard corridor.

(3) A drain cover shall be securely anchored to preclude an inmate using it as an assault weapon.

(4) A floor shall be properly pitched to a drain.

(5) Sufficient mop sinks shall be conveniently located to insure proper janitorial service within and outside a security area to preclude excessive passage through its perimeter.

(6) Plumbing space, or any other mechanical space, shall have a lockable access door.

(7) Hose bibbs shall be provided in plumbing access space or corridors out of reach of inmates.

History: 1954 ACS 84, p. 100, Eff. Sept. 3, 1975.

R 791.586 Windows.

Rule 586. (1) Windows in an inmate occupied area shall be architecturally treated to preclude direct vision into an inmate occupied area from the outside.

(2) A sufficient number of windows capable of being opened or an emergency mechanical ventilation unit shall be provided in order to allow for sufficient ventilation in case of a breakdown in the normal ventilation system or power failure.

(3) An operable window in an inmate occupied area shall be equipped with an insect and security screen.

History: 1954 ACS 84, p. 101, Eff. Sept. 3, 1975.

R 791.587 Hardware.

Rule 587. (1) All electric operated hardware shall provide for manual key override in an emergency. Electric hinges shall be equipped with concealed wires so that electric parts are not exposed when hinge is installed.

(2) All hardware in the inmate occupied area shall be attached with security type or tamperproof fasteners.

(3) Hardware for high security doors shall be of a type designed for prison or maximum security use.

(4) High security hinged doors shall be equipped with a lock, a door closer, and ball bearing fast-pin prison type hinges.

(5) Medium security doors shall be equipped with not less than a heavy duty mortise or unit lockset, a door closer and ball bearing fast-pin hinges or pivots.

(6) Low security doors shall be equipped with not less than a heavy duty mortise or unit lockset and ball bearing hinges or pivots.

History: 1954 ACS 84, p. 101, Eff. Sept. 3, 1975.

R 791.591 Security camps.

Rule 591. (1) A security camp or inmate work farm shall be designed and constructed to reflect low security objectives including durable housing and facilities which implement community-based work and rehabilitative programs.

(2) Construction standards for a security camp or work farm shall follow applicable standards for facilities prescribed elsewhere in these rules and consistent with the low security objectives and requirements.

(3) Inmate housing shall provide not less than 40 square feet of sleeping area floor space per person at capacity. Sleeping quarters shall be subdivided into units with not more than 20 beds per sleeping area.

(4) Activity and multipurpose space shall be provided consistent with low security objectives and program requirements.

(5) The kitchen, food storage and feeding space shall conform to R 791.577 to R 791.580, but shall be consistent with the size and type of the operation.

(6) Electrical, heating, plumbing, and lighting standards as prescribed in R 791.583, R 791.584(1), and R 791.585 shall apply, but shall also be consistent with low security requirements.

History: 1954 ACS 84, p. 101, Eff. Sept. 3, 1975.

PART 4. OPERATIONS

R 791.601 Administrative.

Rule 601. (1) A facility shall remain operational 24 hours a day with sufficient personnel on duty, fully dressed, awake and alert for an emergency to insure proper security and correctional control.

(2) The administrator shall supervise, schedule, and control personnel including maintenance employees working in the facility.

(3) Not less than 1 corrections officer shall be provided for each floor of security area and additional officers in sections of a floor wherever separations occur, if supervision by sight or sound cannot be made by 1 officer.

(4) Sufficient personnel shall be provided to perform ancillary functions such as transportation or court escort without jeopardizing security, supervision of inmates, programs, or the efficient operation of the facility.

(5) A facility shall not house juveniles, except as otherwise provided by statute.

(6) Under exceptional circumstances involving extreme hardship, privation, or act of God, a facility may be used temporarily as a house of refuge.

(7) The administrator shall initiate procedures which will effectively control the receipt, storage, and release of inmate property.

History: 1954 ACS 84, p. 101, Eff. Sept. 3, 1975.

R 791.602 Personnel standards.

Rule 602. (1) It is recommended that the selection, appointment, and promotion of corrections personnel should be made on the basis of demonstrated ability.

(2) It is recommended that officials responsible for selecting facility staff should apply standards requiring experience, aptitude, a minimum of a high school education or equivalent, training, maturity, psychological stability, and good character. It is recommended that there should be a probationary period before an appointment is made permanent.

(3) It is recommended that personnel assigned to correctional duties in the facility should meet physical standards to accomplish correctional objectives.

History: 1954 ACS 84, p. 102, Eff. Sept. 3, 1975.

R 791.603 Staff training.

Rule 603. (1) The commission shall recommend standards for correctional staff orientation and in-service training programs.

(2) It is recommended that the administrator should develop and implement a continuing orientation and in-service training program for correctional staff in conjunction with the standards recommended by the commission and training sponsored by the department of corrections.

History: 1954 ACS 84, p. 102, Eff. Sept. 3, 1975.

R 791.604 Work stations, post orders, and procedures.

Rule 604. (1) The administrator shall develop written policies, procedures, and regulations for the operation of a facility and establish methods to familiarize staff with these policies, procedures, and rules. Copies shall be available at the facility for commission inspection.

(2) The administrator shall prescribe the work stations of officers and describe their specific orders and duties. These descriptions shall include, but not be limited to, the following:

(a) Security checks of building and equipment.

(b) Inmate counts.

(c) Housekeeping or sanitation duties.

(d) Specific responsibilities in carrying out fire, disturbance, escape, or other emergency plans.

(3) Post orders and duties shall be available at the facility for review.

History: 1954 ACS 84, p. 102, Eff. Sept. 3, 1975.

R 791.605 Unusual occurrences.

Rule 605. (1) An unusual occurrence shall be reported within 72 hours to the department of corrections on forms provided by the commission.

(2) An unusual occurrence to be reported includes, but is not limited to:

(a) Suicide attempt.

(b) Suicide or death by violence.

(c) Escape by force or subterfuge.

(d) Riot or mass disturbance.

(e) Physical assault on personnel or inmate.

(f) Use of deadly force by staff.

History: 1954 ACS 84, p. 102, Eff. Sept. 3, 1975.

R 791.611 Kitchen administration.

Rule 611. (1) The administrator shall provide at least 3 meals or their equivalent daily, at regular times, with not more than a 15-hour span between a substantial evening meal and breakfast, unless a substantial snack is served after the evening meal when this time span may be increased to 16¾ hours excepting emergencies.

(2) Copies of menus used shall be available for commission inspection over the current 30-day period. Menus should include portion sizes of all items served where applicable.

(3) The kitchen staff shall prepare necessary special diet meals as prescribed by the designated medical authority.

(4) In-cell feeding shall be restricted to inmates in a high security area or who for other specific reasons cannot be given access to a central or other dining area.

History: 1954 ACS 84, p. 102, Eff. Sept. 3, 1975.

R 791.612 Kitchen furnishings and maintenance.

Rule 612. (1) Kitchen equipment and serving utensils shall be furnished by the responsible unit of local government and shall remain at the facility.

(2) Nonfunctioning or malfunctioning equipment shall be promptly repaired or replaced.

(3) Work table or counter top surfaces shall be free of checks or cracks.

(4) Dishes for inmate food service shall be approved for institutional use by the national sanitation foundation or other appropriate body. Dishes shall be resistant to damage or construction into weapons. Disposable dishes shall be flame resistant and utilized for single service only.

(5) Service of meals shall be consistent with public health standards regarding thermal and bacterial protection. All equipment utilized for transporting or holding meals shall be approved by the national sanitation foundation or other appropriate body.

(6) Dishes, flatware, utensils and other kitchen equipment including heated food carts shall be removed after feeding, and washed, rinsed, and sanitized consistent with public health standards.

History: 1954 ACS 84, p. 103, Eff. Sept. 3, 1975.

R 791.614 Food groups and calories.

Rule 614. (1) The basic food groups shall be used in establishing a minimum basic food ration for inmates. A minimum daily food ration, which supplies the fundamental elements of good nutrition, shall include selections from the following 7 basic food groups:

Group 1—green and yellow vegetables; raw, cooked, frozen, or canned.

Group 2—citrus fruits and tomatoes, raw cabbage, or salad greens.

Group 3—potatoes, root vegetables, and fruit other than citrus.

Group 4—milk and milk products, fluid, evaporated or dried milk, or cheese.

Group 5—meat, poultry, fish, or eggs supplemented by dried beans, peas, nuts, or peanut butter.

Group 6—cereals; natural, whole grain enriched.

Group 7—butter, fortified margerine, or oil.

(2) Minimum calorie requirements for inmates shall be 2,500 per day for sedentary inmates and 2,800 for inmates doing physical labor, including 60 to 70 grams of protein per person per day plus identifiable sources of vitamins A and C, and calcium.

History: 1954 ACS 84, p. 103, Eff. Sept. 3, 1975.

R 791.615 Food preparation and storage.

Rule 615. (1) Food while being stored, prepared or served shall be protected from contamination.

(2) Perishable food shall be stored at temperatures which will protect against spoilage. Frozen food shall be kept at a temperature so as to remain frozen, except when being thawed for preparation or use.

(3) Potentially hazardous foods shall be maintained at safe temperatures, 45 degrees Fahrenheit or below, or 140 degrees Fahrenheit or above, except during necessary periods of preparation.

(4) A cold storage unit for the storage of perishable food in a nonfrozen state shall be provided with an indicating thermometer accurate to ± 2 degrees Fahrenheit located in the warmest part of the unit in which food is stored, and of such type and so situated that the thermometer can be easily and readily observed for reading.

(5) Meats, canned goods and frozen foods shall be from government-inspected sources. Home canned foods shall not be served to inmates. Milk and milk products shall be pasteurized.

(6) Raw fruits and vegetables shall be washed before use.

History: 1954 ACS 84, p. 103, Eff. Sept. 3, 1975.

R 791.618 Food service, lockups, and security camps.

Rule 618. (1) A lockup or security camp shall submit to the commission and review and approval a plan for food service.

(2) R 791.577 to R 791.579 and R 791.611 to R 791.615 apply to a lockup or security camp having a kitchen or food preparation area, but shall be consistent with the size of the operation.

(3) All meals and foods prepared in other than a lockup or security camp kitchen shall meet the requirements of Act No. 269 of the Public Acts of 1968, being §325.801 et seq. of the Michigan Compiled Laws.

History: 1954 ACS 84, p. 104, Eff. Sept. 3, 1975.

R 791.621 Records.

Rule 621. (1) The administrator shall keep an accurate and complete set of facility records which shall remain the property of the unit of local government.

(2) A coordinated record system shall be adopted so that statistical information is readily available when needed. The administrator shall develop procedures which will determine:

(a) What records are initiated and filed.

(b) How long each record shall be kept to satisfy agency operating requirements.

(c) Legal, audit, and historical requirements for records retention.

(d) When records may be destroyed consistent with local and state requirements.

History: 1954 ACS 84, p. 104, Eff. Sept. 3, 1975.

R 791.622 Inmate records.

Rule 622. Records pertaining to inmates shall include:

(a) Personal and criminal history.

(b) Physical description.

(c) Medical and health records of inmates' physical condition on admission, during confinement and at discharge; unusual behavior within the facility and referrals for mental health services.

(d) Dates of commitment and discharge, and authority therefor, with the name and title of the officer delivering or receiving.

(e) Temporary absences from the facility and authority therefor.

(f) Escapes.

(g) Cash, valuables, and other personal items taken from inmates on commitment.

(h) Itemization of inmate expenditures and receipts while in custody.

(i) Visitors, with names, addresses, and dates of visits.

(j) Misconduct and disciplinary action taken during confinement. Dates of misconduct and disciplinary actions shall be documented.

History: 1954 ACS 84, p. 104, Eff. Sept. 3, 1975.

R 791.623 Management records and reports.

Rule 623. (1) Adequate records shall be maintained by the administrator including, but not limited to:

(a) Operating expenses.

(b) Population trends differentiated at least as to age, sex, crime (classification), status (sentenced, unsentenced, juvenile, adult and other special problem categories).

(c) An accurate and current account of individual inmate funds.

(2) The administrator at the end of each month shall furnish to the director information reasonably prescribed by the commission on forms furnished by the commission.

History: 1954 ACS 84, p. 104, Eff. Sept. 3, 1975.

R 791.626 Fingerprints.

Rule 626. An inmate admitted to a facility shall be fingerprinted and each facility shall keep on file a transcript of offense record for each inmate in lieu of additional sets of fingerprints in accordance with state and federal requirements.

History: 1954 ACS 84, p. 104, Eff. Sept. 3, 1975.

R 791.631 Security procedures.

Rule 631. (1) Security procedures shall be developed and prepared in written form and shall be available for inspection by the commission.

(2) The administrator shall develop a specific written plan to be employed in case of an emergency such as fire, escape, or riot. The administrator shall annually review these plans and update as necessary. The plan shall be available to the commission for review.

History: 1954 ACS 84, p. 104, Eff. Sept. 3, 1975.

R 791.632 Searches of inmates and facilities.

Rule 632. (1) Whether he has been previously searched or not by an arresting or transportation officer, upon admission, a thorough search of the body, clothing, and personal effects of a newly received inmate shall be made. A strip search shall be made as soon as possible, but in all cases before transfer to an inmate living area. An item which might be used by the inmate as a weapon or to harm himself such as a necktie, shoelace, or belt shall be removed from him.

(2) An inmate permitted to leave a facility under a work program shall be thoroughly searched before re-entering medium or high security areas of a facility.

(3) Frequent, but irregular, shakedowns of inmates shall be made.

(4) Inmate living areas, including those unoccupied, shall be systematically and routinely searched at irregular intervals for items of contraband and material which would serve as a weapon, means of self-destruction, or escape.

(5) An inmate shall not assist in a search of a cell or in other security inspection.

History: 1954 ACS 84, p. 104, Eff. Sept. 3, 1975.

R 791.633 Keys and locks.

Rule 633. (1) Facility keys shall be stored in a secure key locker when not in use and a record of all keys shall be kept. There shall be at least 2 sets of facility keys, 1 set in use, and 1 or more sets stored in a safe place accessible to facility personnel and kept for use in an emergency. Personnel shall be given instructions concerning the use of keys and held strictly accountable for keys assigned to them.

(2) Security keys shall not be handled by inmates.

(3) An unoccupied cell shall be kept locked at all times.

(4) An inmate living area door and all doors in a security area shall be kept locked, except when necessary to permit admission or exit of an inmate, visitor, or

employee. A door to a vacant unit or storage room shall be kept locked at all times.

(5) An inmate shall not be permitted to act as turnkey or be assigned work that requires access to or use of security keys, personnel records, or inmate records.

History: 1954 ACS 84, p. 105, Eff. Sept. 3, 1975.

R 791.634 Tools, equipment, and hazardous substances.

Rule 634. (1) Control and secure storage of tools and equipment which might be fashioned into weapons or instruments which could be a security threat shall be provided. After each use, tools and equipment shall be accounted for and returned to a designated secure storage area.

(2) An officer of the facility shall make a maintenance check twice each week, or more often, for the purpose of checking defective faucets, water closets, pipes, light fixtures, switches, sockets, and the interior and exterior perimeter of the facility including all bars, windows, locks, and doors.

(3) Damaged, nonfunctioning, or malfunctioning security equipment shall be promptly repaired or replaced.

(4) Provision shall be made for the safe storage of flammable materials, insecticides, rodenticides, and other toxic substances.

History: 1954 ACS 84, p. 105, Eff. Sept. 3, 1975.

R 791.635 Accounting for inmates.

Rule 635. (1) Visual supervision of each inmate shall be provided at least once every 60 minutes on a 24-hour basis and in high-risk areas on a more frequent basis.

(2) Provision shall be made to provide close visual supervision for an inmate who is potentially suicidal, mentally ill, or demonstrates unusual or bizarre behavior.

(3) Inmates shall be accounted for regularly by actual physical count taken by a facility employee at each shift change and as necessary.

History: 1954 ACS 84, p. 105, Eff. Sept. 3, 1975.

R 791.638 Female inmates.

Rule 638. (1) The administrator shall develop a plan for processing female inmates. The plan shall be available to the commission for inspection.

(2) The administrator shall provide 1 or more matrons on a part- or full-time basis as needs may require.

(3) Upon admission to the facility, a female inmate shall be under the immediate supervision and control of a matron.

(4) A female inmate shall be processed separately from males either in a separate processing area or by scheduling. A female inmate shall be confined separately from males.

(5) Whenever a female inmate is incarcerated, a matron shall be present in the facility at all times for the care and control of female inmates. A male shall not be permitted in occupied female quarters unless accompanied by a matron.

(6) A matron shall accompany a female inmate when she is presented in court, questioned by a law enforcement officer, or otherwise removed from the place of her confinement.

History: 1954 ACS 84, p. 105, Eff. Sept. 3, 1975.

R 791.641 Inmate separation.

Rule 641. A person arrested shall be confined or separated in a jail or lockup in the following manner:

(a) Groups of arrested persons shall be under direct staff supervision prior to and during processing into a jail or lockup.

(b) Following processing, housing separation shall be provided to reasonably preclude perilous influence and to assure the health and safety of the detainee.

(c) A person confined to a detoxification cell shall be moved to a general housing area as soon as he can properly care for himself.

(d) Housing separation shall permit effective management in the care and control of the special problem inmate; drug addict; sex deviate; mentally and physically ill; assaultive, dangerous or disruptive; escape risk; crime partners; recidivist; and unsophisticated.

(e) A first offender shall be housed separately; the misdemeanant from the felon, and the sentenced from the unsentenced.

(f) A material witness or other person detained for a noncriminal charge shall be housed separately and distinctly from a person charged with a criminal offense.

History: 1954 ACS 84, p. 108, Eff. Sept. 3, 1975.

R 791.642 Inmate classification.

Rule 642. (1) A facility administrator shall provide a basic plan for classifying inmates. The plan shall be available to the commission for review.

(2) Items to be considered in reference to classification of inmates are:

(a) Housing separation.

(b) Determination of the type and extent of security required for each classification of inmates.

(c) Determination of ability of inmate to benefit from treatment, rehabilitation, or other correctional services.

(d) Assignment to educational and vocational training classes.

(e) Assignment of work programs commensurate with physical and mental ability.

(f) Post release referrals to appropriate agencies for additional care and treatment.

History: 1954 ACS 84, p. 108, Eff. Sept. 3, 1975.

R 791.644 Inmate rules.

Rule 644. (1) The administrator shall provide complete printed rules for the guidance of an inmate which are approved by the circuit court judge and sheriff or chief of police.

(2) An inmate received in a facility shall be given the rules which will be a part of his regular issue. When the inmate leaves the facility, the rules shall be turned in and reissued if possible. An inmate who is illiterate shall have the rules read to him by a staff person. Some form of orientation to rules and institutional expectations shall be effected by a facility.

(3) A rule applying to an inmate shall be pertinent and necessary to the safety, security, or function of the facility or the harmony of the inmates. A capricious or redundant rule shall be avoided. An inmate shall have every opportunity to comply with the institutional rules and changes shall be announced in advance and well publicized.

(4) A copy of the rules shall be available to the commission.

History: 1954 ACS 84, p. 108, Eff. Sept. 3, 1975.

R 791.646 Inmate discipline.

Rule 646. The administrator shall develop and implement a plan for inmate disciplinary procedures. The plan shall be available for commission inspection. The administrator shall periodically review the plan and update it as necessary. The plan and its subsequent modifications shall comply with applicable state and federal law concerning administrative disciplinary procedures for inmates. Additionally the following requirements shall be met:

(a) An inmate shall not prescribe or administer disciplinary action.

(b) Corporal punishment is prohibited.

(c) An inmate shall not be confined in a segregation cell for more than 48 consecutive hours. Meals for an inmate in a segregation cell shall be the same as those served to other inmates in the jail and in amounts and at times prescribed in R 791.611(1) and R 791.614.

History: 1954 ACS 84, p. 106, Eff. Sept. 3, 1975.

R 791.648 Inmate treatment programs.

Rule 648. (1) Constructive inmate treatment programs shall be provided in each jail or security camp. All inmates shall be given every reasonable opportunity to participate. The programming may consist of work, education, self-help, vocational training, counseling, hobbycraft or recreation. Closed-circuit television may be used in conjunction with educational and recreation programs. Where security permits, treatment programs should be conducted in areas other than an inmate's cell or sleeping area. The nature of work or tasks performed by an inmate should be positive and constructive. While recreational activities and constructive leisure time pursuits are an important facet of rehabilitative activities, a purely recreational program is not considered adequate.

(2) Inmate treatment programming shall be made available to, but not required of, a nonsentenced inmate. A female shall receive equivalent opportunities for programming.

(3) Community resources should be sought for treatment programs in the jail or security camp and in the community for inmates eligible for such placement.

History: 1954 ACS 84, p. 107, Eff. Sept. 3, 1975.

R 791.649 Activities outside of cells.

Rule 649. (1) An inmate in a high security cell shall be allowed daily movement outside the cell, except when the administrator can document that the good order of the facility may be jeopardized. Reading, radio hookup, and cell study materials shall be available to the inmate. Closed-circuit television may be used to provide educational opportunities.

(2) Other inmates should be free to leave their cells to participate in recreation or treatment activities on a daily basis.

History: 1954 ACS 84, p. 107, Eff. Sept. 3, 1975.

R 791.651 Counseling and education.

Rule 651. (1) A system of counseling should be devised which provides the inmate with an opportunity to discuss his personal, family, and behavior problems with a qualified individual who may be able to provide a solution or guidance. Alcoholics anonymous, narcotics anonymous, psychotherapy, group counseling and the like, would be included in this area.

(2) Arrangements should be made with a local school system to provide educational self-improvement programs for inmates.

(3) Vocational and academic education should be interrelated. One objective is to improve the inmate's employability with supplemental academic education to remedy deficiencies. It is advisable that with an education program there be developed a referral procedure so that the inmate may continue in a similar program in the community upon release.

(4) The administrator should acquaint an inmate leaving his jurisdiction with programs and resources in the community relevant to the inmate's apparent problems, and upon request of the inmate make referrals to those programs and resources.

History: 1954 ACS 84, p. 107, Eff. Sept. 3, 1975.

R 791.652 Proposals and implementation of programs.

Rule 652. (1) It is recognized that immediate compliance with R 791.648 and R 791.649 will not be possible for many jurisdictions. Therefore, 12 months from the effective date of these rules is allowed for each jail to develop a plan for the implementation of inmate rehabilitative programming. Consideration should also be given to recommendations contained in R 791.651.

(2) The plan shall be placed on file with the commission and shall include a definite timetable for implementation which may be phased over a period of from 1 to 3 years.

(3) As a minimum, a plan should include an analysis of the jail or security camp population and their treatment needs, a survey of existing or projected resources or both, and a determination of program goals and objectives to meet the needs within each local jurisdiction. Program goals and objectives, inmate needs and program implementation shall be evaluated continually and updated as necessary. The department of corrections will provide consultation relative to rehabilitative program development if requested.

(4) The administrator may wish to combine resources with nearby jurisdictions to provide treatment programming on a regional basis. It is not expected that a jail or security camp with few inmates will provide the extensive programming which may be required for a larger jail or security camp.

History: 1954 ACS 84, p. 107, Eff. Sept. 3, 1975.

R 791.654 Inmate visitors.

Rule 654. (1) The administrator shall uniformly set the number of permissible visits for each inmate and the number of visitors permitted for each visit. Visits should be governed by administrative constraints and space availability.

(2) Visits shall be allowed for identified members of an inmate's immediate family, his counsel, clergyman, and in the case of an inmate awaiting trial, persons with whom he may need to confer in order to prepare the defense of his case. Where security permits, provision may be made for family members under 18 years of age and established friends to visit inmates.

(3) An inmate shall not be denied visits by properly identified clergy, counsel of his own choosing, or counsel appointed by the court. These conversations shall not be monitored.

(4) The administrator may deny a visit to an inmate when he has reasonable grounds to believe that the visit might endanger the good order or the security of the facility. Reasons for denial of a visit shall be in writing.

(5) A visitor shall register, giving his name, address, relationship and nature of business. Visits shall be under supervision.

(6) A visitor shall not be allowed inside an inmate living area.

History: 1954 ACS 84, p. 108, Eff. Sept. 3, 1975.

R 791.655 Inmate correspondence.

Rule 655. (1) An inmate shall be allowed to send uninspected correspondence to any person or organization, unless there are reasonable grounds to believe that 1 or more of the following exist:

(a) The correspondence contravenes law or postal regulations.

(b) The inmate is a suicidal risk.

(c) There is plotting against the good order and security of the facility.

(d) The correspondence concerns plans or schemes for criminal activity.

(e) There is a prior substantiated instance wherein 1 or more of the conditions enumerated above was present.

(2) Incoming mail shall be inspected for contraband.

(3) Properly identified incoming attorney and court mail for an inmate shall be opened only in the presence of the inmate and its confidentiality shall be maintained. An inmate shall be allowed to send unopened correspondence to public officials or counsel representing him.

History: 1954 ACS 84, p. 108, Eff. Sept. 3, 1975.

R 791.656 First aid.

Rule 656. The administrator shall insure that adequate first aid equipment and supplies are provided and maintained.

History: 1954 ACS 84, p. 108, Eff. Sept. 3, 1975.

R 791.657 Inmate health care.

Rule 657. (1) The administrator shall insure that appropriate medical screening and health care is provided to inmates. The administrator shall develop a plan for provision of medical and health services to inmates. The plan shall be available to the commission for inspection.

(2) Upon admission, provision shall be made to detect symptoms of narcotic addiction, diabetes, epilepsy, heart disease, chemical impairment, and the like. Immediate attention shall be given to persons in a stupor or comatose state.

(3) An inmate shall be examined by trained medical personnel within a reasonable period of time if an inmate is visibly ill, chronically ill, on medication, complains of illness, or whenever it is suspected that medical attention is necessary. The administrator may use either the inmate's personal physician or any trained medical person. The extent of the examination or the need for additional examinations shall be at the discretion of trained medical personnel.

(4) If a communicable disease is suspected or symptoms are observed, appropriate examinations, lab tests, and treatment shall be provided. A licensed physician shall be consulted in all cases involving an unexplained rash or discharge, chronic coughing, diarrhea, and the like. The extent of the examination shall be at the discretion of the physician. An inmate diagnosed as being contagious shall be removed from the facility, or quarantined in quarters well ventilated and separate from other inmates. In a case of suspected contagion, the administrator shall consult with the local health department.

(5) A physical disease or defect shall be noted in the inmate's record. The examining physician or dentist shall determine whether the disease or defect is to be treated or corrected during the period of incarceration.

(6) Provision shall be made for the prompt treatment of a case involving ectoparasites.

(7) If, in the opinion of a licensed physician, an inmate needs hospitalization, the administrator, as directed by the physician, shall deliver the inmate to the nearest hospital or to any hospital designated by the board of commissioners or the governing body of the municipality.

R 791.658 Inmate medicines and controlled substances.

Rule 658. (1) The administrator shall establish policies and procedures which shall insure compliance with applicable federal and state regulations governing the distribution, dispensing, prescribing, administration, or disposal of any controlled substance or prescribed medication affecting a facility inmate in accordance with Act No. 196 of the Public Acts of 1971, being §335.301 et seq. of the Michigan Compiled Laws and Act No. 151 of the Public Acts of 1962, as amended, being §338.1101 et seq. of the Michigan Compiled Laws. Where controlled substances and precribed medicines are stored in a facility, such storage shall be secure and total control by staff shall be assured. Procedures shall be established which will provide for a monthly audit of all drugs on the premises. The audit shall reconcile amount stored, and dispensed and disposed.

(2) Drugs may be dispensed for a patient only pursuant to the written orders of a practitioner licensed to prescribe in accordance with his professional practice act.

History: 1954 ACS 84, p. 109, Eff. Sept. 3, 1975.

R 791.659 Inmate hygiene.

Rule 659. (1) One shower per week shall be the minimum requirement and daily showers shall be permitted where possible. An inmate employed in food service capacities shall shower daily.

(2) Provisions shall be made for daily shaving and other appropriate personal hygiene.

History: 1954 ACS 84, p. 109, Eff. Sept. 3, 1975.

R 791.661 Inmate clothing and bedding.

Rule 661. (1) The administrator shall provide sufficient inmate clothing and bedding to meet needs at maximum inmate capacity.

(2) A jail shall issue standard clothing to all inmates held in areas other than processing, day parole, or other special programs. Standard clothing issue for an inmate shall consist of clean socks and suitable outer garments. An adequate supply of suitable undergarments for male and female inmates shall be maintained by the jail and issued to the inmates if they cannot provide their own. Clothing shall be exchanged at least once each week or more often as necessary. These garments shall remain the property of the local government.

(3) Clothing, bedding, or linen shall be laundered at county, township, or city expense. Laundered items shall be free of stains and processed for clean appearance.

(4) Standard bedding or linen shall be issued to an inmate with exception of those confined to holding and detoxification cells. The standard issue consists of a mattress, towel, 2 sheets or a mattress cover, and sufficient blankets to provide comfort under existing temperature conditions.

(5) Bedding items shall be issued in a clean condition, and washable items such as mattress covers, towels, and sheets shall be exchanged on a weekly basis and more often as necessary. Blankets shall be laundered before reissue and at least every 3 months and more often, if necessary, to maintain a satisfactory state of cleanliness.

(6) The collection, storage, and transfer of clean and soiled clothing, bedding, and linen shall be accomplished in a manner which will minimize the danger of disease transmission.

History: 1954 ACS 84, p. 109, Eff. Sept. 3, 1975.

R 791.663 Sanitation.

Rule 663. (1) Bars, walls, and other exposed surfaces shall be washed as often as necessary to be maintained clean and vermin free.

(2) An effective insect and rodent control procedure shall be implemented and maintained. A corridor shall be kept free from litter, and the facility shall be scrubbed thoroughly and frequently to maintain sanitary conditions.

(3) A floor shall be swept and mopped as often as necessary to be maintained in a clean condition. The use of disinfectants in mopping floors should be kept to a minimum to avoid unpleasant odors.

(4) Building finishes and fixtures shall be maintained in good condition and repair. Particular attention shall be given to floors and painted surfaces.

(5) The administrator shall inspect kitchens, refrigerators, food storage facilities, and plumbing units not less than once each week for the maintenance of proper sanitation.

(6) A nonself-flushing drain should be flushed out weekly to avoid unpleasant odors and the escape of sewer gas to adjoining rooms, as well as to eliminate the possibility of becoming a breeding or hiding place for vermin.

(7) A water closet, lavatory, sink, and bathing facility should be thoroughly cleaned not less than once each day.

(8) Suitable containers, easily cleanable with tight-fitting lids, shall be provided for the storage of solid waste materials to eliminate unpleasant odors, vermin, and insects.

(9) Disposal of solid waste materials shall meet local health department requirements.

History: 1954 ACS 84, p. 109, Eff. Sept. 3, 1975.

R 791.665 Safety.

Rule 665. (1) The administrator shall develop and implement safety standards which will protect the health and welfare of inmates and staff.

(2) The ultimate responsibility for keeping the facility clean and eliminating accident hazards shall not be delegated to inmates, but actual housekeeping tasks may be done by inmates under supervision.

(3) Noncombustible receptacles shall be provided for cigarette stubs and burned matches. Separate containers shall be provided for other refuse. These receptacles shall be emptied and cleaned not less than once each day.

(4) Equipment shall be maintained in good repair. Moving parts shall be protected.

(5) A slippery floor surface shall be avoided. Particular attention shall be given to potentially hazardous areas such as a shower drying area, kitchen, holding, detoxification, and segregation cells, corridors, and the like.

History: 1954 ACS 84, p. 110, Eff. Sept. 3, 1975.

COMMISSION OF CORRECTIONS

GENERAL RULES

(By authority conferred on the commission of corrections and the director of the department of corrections by sections 6, 23, 40a, 44, 64, and 65 of Act No. 232 of the Public Acts of 1953 and section 1 of Act No. 89 of the Public Acts of 1935, being §§791.206, 791.223, 791.240a, 791.244, 791.264, 791.265, and 798.101 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 791.1101 Definitions.

Rule 101. As used in these rules:

(a) "Client" means a person committed to the jurisdiction of the department.

Digitized by Google

(b) "Commission" means the corrections commission.

(c) "Department" means the department of corrections.

(d) "Director" means the director of the department of corrections.

(e) "Facility" means a camp, center, training unit, institution, or a part thereof maintained by the department.

(f) "Institution" means a facility under the administrative control of the bureau of correctional facilities. The camps are collectively considered to be 1 institution.

(g) "Ombudsman" or "corrections ombudsman" means the legislative corrections ombudsman created by Act No. 46 of the Public Acts of 1975, being §4.351 et seq. of the Michigan Compiled Laws.

(h) "Performance contract" means a formal and binding agreement between the resident, the department, and the parole board, which guarantees the resident's parole on a specified date, contingent on achievement of specified objectives set forth in the agreement.

(i) "Resident" or "prisoner" means a client assigned to a department facility.

History: 1954 ACS 93, p. 44, Eff. Nov. 30, 1977.

R 791.1105 Information as to practice and procedure.

Rule 105. (1) Information as to established practice or procedure under these rules shall be furnished to any person upon a request made to the director of the department.

(2) Communications shall be addressed to the Director, Department of Corrections, Lansing, Michigan.

History: 1954 ACS 93, p. 44, Eff. Nov. 30, 1977.

R 791.1110 Rescission.

Rule 110. Rules 1 to 51 of the parole board, being R 791.301 to R 791.351 of the Michigan Administrative Code and appearing on pages 5883 to 5887 of the 1970-71 Annual Supplements to the Code, are rescinded.

History: 1954 ACS 93, p. 44, Eff. Nov. 30, 1977.

R 791.1115 Declaratory rulings.

Rule 115. (1) Pursuant to section 63 of Act No. 306 of the Public Acts of 1969, being §24.263 of the Michigan Compiled Laws, an interested person may request a declaratory ruling from the department as to the applicability of a statute, rule, or order of the department to an actual state of facts.

(2) The request for declaratory ruling shall be submitted, in writing, to the Director, Department of Corrections, Stevens T. Mason Building, Lansing, Michigan 48913, and shall contain the following information:

(a) A complete account of facts which actually exist for which the declaratory ruling is sought.

(b) Specific reference to the statute, rule, or order in question.

(3) The director or his designate may, but is not required to, issue a declaratory ruling when properly requested. Lack of response within 30 days of receipt of the request shall be deemed a denial of the request for a declaratory ruling.

History: 1954 ACS 93, p. 45, Eff. Nov. 30, 1977.

PART 2. ORGANIZATION AND OPERATION OF DEPARTMENT

R 791.2201 Deputies; chairperson of the parole board; delegation of power and duties.

Rule 201. (1) The director shall appoint deputies to be in charge of correctional facilities, field services, administrative services, programs, and other areas as the need arises.

Digitized by Google

(2) The deputies designated under subrule (1) shall perform the duties and exercise the powers conferred by law, and such other powers and duties as may be assigned by the director, subject at all times to the director's control.

(3) The commission shall appoint the chairperson of the parole board who shall act pursuant to sections 32 to 44 of Act No. 232 of the Public Acts of 1953, as amended, being §§791.232 to 791.244 of the Michigan Compiled Laws.

(4) Except where contrary to law, the director may delegate any of the powers and duties conferred by the commission to members of the department staff.

History: 1954 ACS 93, p. 45, Eff. Nov. 30, 1977.

R 791.2205 Warden or superintendent; appointment; duties.

Rule 205. The director shall appoint a warden or superintendent at each institution who shall have the following responsibilities:

(a) Discipline, control, and governing of the institution.

(b) Organize and enforce procedures for security.

(c) Establish procedures to ensure regular inspection of all buildings, grounds, security equipment, fire fighting equipment, and maintenance equipment.

(d) Superintendence of the business concerns and moneys of the institution.

(e) Respond to resident grievances pursuant to R 791.325(4)(c).

(f) Designate a program classification committee to determine appropriate programs for residents pursuant to R 791.4430 and R 791.4435.

(g) Ensure the exercise of residents' rights set forth in R 791.6601 to R 791.6639, and implement the requirements of those rules.

(h) Ensure that the standards of safety, security, and humane treatment set forth in R 791.6641, R 791.6643, and R 791.6645 are met.

(i) Develop procedures for media access as required by R 791.2220, punitive segregation as required by R 791.5510, and periodic searches as required by R 791.2210.

History: 1954 ACS 93, p. 45, Eff. Nov. 30, 1977.

R 791.2210 Search and seizure.

Rule 210. (1) The department shall conduct periodic and spontaneous searches of housing units and other areas within all institutions and facilities.

(2) Searches shall be conducted for the following purposes:

(a) To maintain security.

(b) To preserve order and discipline.

(c) To ensure the safety of the facility.

(3) Contraband, stolen property, or other material possessed in violation of department rules shall be seized and recorded.

(4) The department shall conduct a body search of a resident whenever such search is warranted by the paramount interest of security, discipline, and order.

(5) A search shall not be conducted for the purpose of harassing or humiliating a resident.

(6) The head of each facility shall develop procedures for implementing this rule for the approval of the appropriate deputy director.

History: 1954 ACS 93, p. 45, Eff. Nov. 30, 1977.

R 791.2215 Duties of physician.

Rule 215. Each institutional physician shall ensure that:

(a) The medical services enumerated in R 791.6629(3)(a) to (f) are provided.

(b) Special diets are prescribed for prisoners where medically indicated.

(c) Prisoners who claim inability to fulfill work or school assignments are examined. Where disability exists, the physician shall so certify.

History: 1954 ACS 93, p. 46, Eff. Nov. 30, 1977.

R 791.2220 Business hours of facilities; tours; visits.

Rule 220. (1) The normal business hours of department facilities shall be from 8 a.m. to 4:30 p.m., Monday through Friday, excluding holidays.

(2) Persons desiring to conduct business in a particular facility during non-business hours shall request permission from the head of the facility.

(3) Professionals and college students in the areas of criminal justice and corrections may request permission to tour a particular facility from the head of that facility.

(4) Persons who wish to visit a departmental facility, but who do not meet the criteria of subrules (2) or (3), shall request permission from the director.

(5) Each facility shall establish procedures for news media representatives to have access to department facilities during business hours.

(6) Visits during disturbances may be permitted only with prior approval from the office of the director.

(7) All visitors inside walled or fenced facilities shall be escorted by facility staff.

(8) Visits with residents are governed by R 791.6607, R 791.6609, R 791.6611, and R 791.6613.

History: 1954 ACS 93, p. 46, Eff. Nov. 30, 1977.

R 791.2225 Research requests.

Rule 225. (1) Pharmaceutical research is governed by R 791.6631, R 791.6633, and R 791.6635.

(2) All nonpharmaceutical research requests shall be submitted to the director and shall specify all of the following:

(a) Purpose of the research.

(b) Hypotheses to be investigated.

(c) Size of the sample to be studied.

(d) Amount and nature of staff or client time required.

(e) Equipment, facilities, or costs involved.

(f) Method of collecting and analyzing the data.

(g) Uses to which the results of the research will be put.

(3) Approval of research requests shall be based upon:

(a) Relevance of the research to the issues of the corrections system.

(b) Degree of disruption to normal activities.

(c) Methodological merits of the proposed research.

(d) Probability of achieving the stated research aims.

(4) Research which is unprofessional in design or redundant, or which would seriously impede security, program, or administrative efficiency, shall not be approved.

(5) The department reserves the right to review reports or publications resulting from approved research requests for factual accuracy of descriptive statements concerning the department.

History: 1954 ACS 93, p. 46, Eff. Nov. 30, 1977.

R 791.2230 Resident orientation.

Rule 230. (1) The head of each facility shall develop an orientation program for newly arrived residents to describe the programs, procedures, and policies of the department and the facility.

(2) A resident shall receive the orientation within 1 week of his or her arrival at a facility.

(3) During orientation, each resident shall receive, in writing, rules regarding resident behavior. The rules, their rationale, and their implications shall be discussed during the orientation program.

(4) Rules shall be read to residents who are unable to read.

(5) All resident rule changes shall be announced prior to their taking effect, posted on facility bulletin boards, and publicized in appropriate resident publications.

History: 1954 ACS 93, p. 46, Eff. Nov. 30, 1977.

R 791.2235 Resident benefit fund.

Rule 235. (1) Each institution shall establish a resident benefit fund from specified profits of resident store sales, hobbycraft sales, employee club operations, approved resident fund-raising activities, contributions, and assets confiscated following a formal hearing. The director shall establish the percentages of profits to be paid into the resident benefit fund.

(2) Accounting and auditing procedures shall be consistent with the requirements for appropriated funds, and shall be approved by the director's authorized representatives.

(3) An equal number of resident representatives and institutional staff shall constitute the resident benefit fund council, and shall manage the facility's fund.

(4) All action of the council shall be by majority vote, and a summary report shall be made to the resident body.

(5) The council may authorize disbursement of funds for the following purposes:

(a) Recreation and entertainment.

(b) Institutionally approved self-help programs.

(c) Institutionally authorized resident services.

(d) Reimbursement of residents for lost property where the loss is confirmed and resident negligence is not involved.

Expenditures for these purposes may not include purchase or rental of equipment, contractual services, supplies and materials, employee and resident wages, special maintenance, and capital outlay.

(6) Resident benefit fund expenditures which are repaid or otherwise recovered shall be returned to the resident benefit fund.

History: 1954 ACS 93, p. 47, Eff. Nov. 30, 1977.

R 791.2240 Employee training.

Rule 240. (1) All new departmental employees shall receive training, relevant to their responsibilities, on the philosophy, objectives, and policies of the department; on corrections law; and on regulations and operation of the facility or bureau to which they are assigned.

(2) In addition to subrule (1), operating employees of facilities shall receive intensive, job-related training, including both classroom and supervised on-the-job experience.

(3) Training shall be developed by the departmental training officer in conjunction with the appropriate facility and bureau staff.

History: 1954 ACS 93, p. 47, Eff. Nov. 30, 1977.

R 791.2245 Employee conduct.

Rule 245. (1) An employee who violates the code of ethics for state employees and appointed officials is subject to disciplinary action under the rules of the civil service commission.

(2) An employee shall not accept gifts, loans, goods, services in the form of labor, or other arrangement for personal benefit from a corrections client, a client's relative, or any other person in connection with, or on behalf of, a client.

(3) An employee shall not keep private property or personal belongings at a facility without prior approval of the facility head.

(4) An employee shall not report to work while under the influence of alcohol or drugs.

(5) A full-time employee who wishes to engage in supplemental employment shall request prior written approval from the facility head, regional administrator, or deputy director. Requests shall be in writing and shall contain all of the following:

(a) The hours and extent of proposed employment.

(b) Type and place of employment.

(c) Employer's name and business.

(6) Requests for supplemental employment shall be approved if:

(a) The supplemental employment does not pose a conflict of interest.

(b) The employee's efficiency or required availability will not be adversely affected.

(c) The supplemental employment does not demean the employee's position with the department.

(d) The supplemental employment does not exceed 20 hours per calendar week or 4 hours of any regular work day. Denials of request for supplemental employment may be grieved pursuant to the rules of the civil service commission.

(7) An employee may not use, for personal benefit or gain, any state-owned or leased work materials, foodstuffs, clothing, tools, or other supplies or equipment.

(8) An employee shall not allow a corrections client file to be examined by a person not employed or authorized by the department.

History: 1954 ACS 93, p. 47, Eff. Nov. 30, 1977.

PART 3. CLIENT HEARING AND GRIEVANCE PROCEDURE

R 791.3301 Hearing officers; designation; powers.

Rule 301. (1) The department shall assign employees as hearing officers to conduct administrative hearings regarding corrections clients.

(2) A hearing officer shall:

(a) Insure that all parties are notified of the time and place of hearings.

(b) Regulate the course of a hearing.

(c) Insure that an adequate record or summary is made of the proceeding.

(d) Render a written decision or recommendation.

(e) Impose prescribed disciplinary sanctions pursuant to R 791.5505.

History: 1954 ACS 93, p. 48, Eff. Nov. 30, 1977.

R 791.3305 Administrative hearings; types; phases.

Rule 305. (1) Two types of administrative hearings shall be available to residents of the department: the fact-finding hearing and the formal hearing.

(2) Preliminary parole revocation hearings shall be conducted pursuant to R 791.7740, R 791.7745, and R 791.7750.

(3) Each hearing shall have the following 2 phases:

(a) The fact determination phase, at which the issue of guilt, violation, or commission of conduct warranting department intervention is established.

(b) The disposition phase, at which the appropriate action is determined.

History: 1954 ACS 93, p. 48, Eff. Nov. 30, 1977.

R 791.3310 Fact-finding hearing; notice; rights of resident; report; waiver.

Rule 310. (1) Sufficiently prior to a fact-finding hearing to allow preparation of a response, a resident shall receive written notice of the purpose of the hearing. A copy of any disciplinary report, or other information regarding circumstances giving rise to the hearing, shall accompany the notice.

(2) A resident has the following rights at a fact-finding hearing:

(a) To be present and speak on his or her own behalf.

(b) To receive a copy of any department document specifically relevant to the issue before the hearing officer.

(3) The hearing officer shall make a summary report of the hearing and decision or recommendation.

(4) A resident, before a designated staff person, may waive the right to a fact-finding hearing. If waiver is made before the officer reporting a minor misconduct, summary sanctions under R 791.5505 (3) may be imposed.

History: 1954 ACS 93, p. 48, Eff. Nov. 30, 1977.

R 791.3315 Formal hearing; notice; evidence; staff investigator; decision; waiver.

Rule 315. (1) Not less than 24 hours prior to a formal hearing, a resident shall receive written notice of the purpose of the hearing. A copy of any disciplinary report, charges of alleged violation, or description of the circumstances giving rise to the hearing shall accompany the notice. The resident shall indicate on the notice form:

(a) Necessary witnesses the resident wishes to call, if any.

(b) A request for department documents specifically relevant to the issue before the hearing officer, if any.

(c) Request for assistance of staff investigator, if necessary, to gather evidence or speak for the resident.

(2) A resident may waive the 24-hour notice requirement by signing the appropriate waiver form.

(3) A resident has the following rights at a formal hearing:

(a) To be present and speak or present written documents on his or her own behalf.

(b) To compel disclosure of department documents specifically relevant to the issue before the hearing officer, unless disclosure presents a threat to personal or institutional safety.

(c) To call necessary, relevant, and material witnesses, when to do so is not unduly hazardous to institutional or safety goals.

(d) To require the report of a staff investigator who interviewed and obtained statements from relevant witnesses, secured departmental documents subject to disclosure, and gathered other evidence.

(4) If the hearing officer denies a request made by a resident on the notice form provided under subrule (1), specific reasons for the denial shall be placed in the record. The presence of a witness is not necessary if the witness's testimony is repetitious or if the witness is able to provide the hearing officer or investigator with a complete written statement.

(5) A staff investigator shall be available when necessary to gather and present factual evidence orally or in writing, at the request of either the resident or the hearing officer. If the hearing officer determines that a resident appears to be incapable of speaking effectively for himself or herself, the hearing officer shall request the staff investigator to appear and present arguments on the resident's behalf. Failure of a staff investigator to present requested documents or statements is justifiable where to do so would be unduly hazardous to institutional or

safety goals or where the information is irrelevant or unnecessary to the particular case. The specific reason for such failure shall be placed in the record.

(6) The hearing officer shall render a written decision or recommendation in every case, which shall include: the reasons for the denial of a resident's request, if any; a statement of the facts found; the evidence relied upon in support thereof; and the reasons for the action taken. A copy of the decision shall be furnished to the resident, who shall be advised of the right to appeal.

(7) After being informed of the charges or circumstances giving rise to the hearing and his or her rights, a resident may make a written waiver before a designated staff person. This waives the resident's right to a hearing, but the resident shall be heard on the issue of appropriate disposition.

History: 1954 ACS 93, p. 48, Eff. Nov. 30, 1977.

R 791.3320 Appeals; notice; sanctions stayed; basis of review; permissible dispositions on appeal; finality.

Rule 320. (1) All determinations in administrative hearings, except those involving minor or major misconduct, may be appealed only through the grievance procedure of R 791.3325.

(2) Minor and major misconduct may be appealed to the officials designated in department policies and procedures.

(3) Oral notice of intent to appeal in misconduct cases shall be given by the resident at the conclusion of the hearing and shall be followed by a written basis for the appeal within 24 hours after receipt of the written decision pursuant to R 791.3315(6). Sanctions ordered by the hearing officer may be held in abeyance until the appeal is resolved.

(4) Appeals shall be reviewed on the basis of the written summary or record of the hearing, any documentary evidence submitted at the hearing, and the resident's written reason for appeal. The reviewing official may affirm or reverse a finding of guilt, or vacate the finding and remand for a new hearing.

History: 1954 ACS 93, p. 49, Eff. Nov. 30, 1977.

R 791.3325 Grievance procedure.

Rule 325. (1) All corrections clients shall follow the procedures contained in this rule to complain about an alleged violation of rights or unsatisfactory conditions of confinement or supervision due to an administrative action or failure to act by the department.

(2) A client shall not be penalized in any way for exercising his or her grievance right. Copies of grievances filed by clients shall not appear in their case reports or institutional files.

(3) A client may initiate a grievance, and may appeal to each of the levels set out below. The department shall provide forms for the filing of grievances and inform all clients of the availability of the grievance procedure, the forms, and any applicable time limitations.

(4) Recourse to the grievance procedure shall be in the following sequence:

(a) Verbal complaint to the department employee directly involved in the incident or condition.

(b) Written grievance to the appropriate supervisory staff.

(c) Grievance filed under subdivision (b) forwarded with decision to facility head, if the grievant is a resident.

(d) Grievance and decisions forwarded to appropriate deputy director.

(e) Grievance and decisions forwarded to director.

(f) Grievances and decisions forwarded to ombudsman.

(5) At each of the levels enumerated in subrule (4), the appropriate department employee shall, within the applicable time period, insure review of the grievance and return a written decision to the grievant. Such review may include interviews with the grievant, employees, and other clients where necessary.

(6) Notwithstanding the above provisions, charges of racial or ethnic discrimination, brutality, or corruption may be brought directly to the attention of the director.

History: 1954 ACS 93, p. 49, Eff. Nov. 30, 1977.

PART 4. RESIDENT CLASSIFICATION AND TRANSFER

R 791.4401 Security classification; criteria; security classification committee; levels of custody; additional criteria for certain classifications; right to hearing; reclassification; transfer; grievance.

Rule 401. (1) Each resident shall be classified according to his or her behavior, attitude, circumstances, and the likelihood that the trust implicit with the level of security prescribed will be honored. A security classification is not a punitive or disciplinary action on the part of the department. Residents shall be classified according to security requirements necessary for their protection, the safety of others, the protection of the general public, prevention of escape, and maintenance of control and order.

(2) Security classifications shall be determined at each institution by a committee authorized by the director.

(3) After examination by the classification committee of all information on the resident, the resident shall be assigned 1 of the following categories of security classification which is the least restrictive level of custody consistent with the requirements of subrule (1):

(a) Administrative segregation, subject to R 791.4405.

(b) Maximum custody.

(c) Close custody.

(d) Medium security.

(e) Minimum security.

(f) Community status, with the concurrence of the appropriate department official in charge of community programs and subject to R 791.4410, R 791.4415, R 791.4420, and R 791.4425.

(4) A resident under consideration for minimum security or community status classification shall receive psychological or psychiatric evaluation before the classification decision is made if the resident meets the requirements of subrule (1) and has a history of:

(a) Hospitalization for mental illness within the past 2 years.

(b) Predatory or assaultive sex offenses.

(c) Serious or persistent assaultiveness within the institution.

(5) A resident being considered for reclassification to a more restrictive level of security is entitled to an opportunity for a hearing pursuant to R 791.3310, except as provided in subrule (6).

(6) A resident is not entitled to a hearing where a more restrictive security classification is necessitated by an inter-facility transfer made for 1 of the following reasons:

(a) The transfer is part of the initial classification process.

(b) The transfer is necessary to prevent overcrowding.

(c) Appropriate medical treatment may not be obtained at the transferring facility.

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(d) The custody level of the facility is changed so that the security classification of the resident is inconsistent with that of the facility.

(e) The resident was placed in the facility in order to participate in programming for which that resident no longer qualifies.

(f) There is reliable evidence that the resident is in immediate physical danger, which may not be averted by a less burdensome alternative.

(g) The transfer is requested by the resident.

(h) The transfer is approved by a security classification committee or other designated authority after review of findings made at a misconduct hearing pursuant to R 791.3310 or R 791.3315.

(7) The head of a facility may order an immediate increase in security status on a temporary basis pending a hearing pursuant to R 791.3310. The hearing shall be held within 10 calendar days of the increased security, except that placement in administrative segregation is governed by R 791.4405.

(8) A resident who objects to being reclassified is entitled to file a grievance under R 791.3325.

History: 1954 ACS 93, p. 50, Eff. Nov. 30, 1977.

R 791.4405 Administrative segregation status; criteria for imposition; hearing; status review; monthly report; privileges; showers; daily inspection.

Rule 405. (1) Administrative segregation may be imposed only when:

(a) A resident demonstrates inability to be managed with group privileges.

(b) A resident needs protection from other prisoners.

(c) A resident is a serious threat to the physical safety of staff or other residents or to the good order of the facility.

(d) A resident is a serious escape threat.

(2) A resident shall be afforded an opportunity for a hearing pursuant to R 791.3315 before being classified to administrative segregation; however, a resident may be temporarily held in segregation status pending a hearing upon order of the institutional head, or at the resident's request. This temporary period may not exceed 4 weekdays.

(3) A resident classified to administrative segregation shall be interviewed and have his or her security status reviewed at least monthly. This review shall be written, and a copy shall be given to the resident and to the security classification committee. The interviewers may initiate a request for security reclassification at any time that it appears that administrative segregation is no longer required in light of all of the following:

(a) The resident's behavior and attitude in segregation.

(b) Reappraisal of the circumstances necessitating segregation.

(c) An evaluation of the resident's potential for honoring the trust implicit in a less restrictive status.

(4) In every instance where a resident is confined in administrative segregation longer than 60 days, a monthly report shall be submitted to the deputy director of the bureau of correctional facilities, which shall include the reasons for continued segregation, alternative solutions considered, the date classified to segregation, and prospects for reclassification in the immediate future.

(5) A resident placed in administrative segregation shall be afforded all privileges that are administratively feasible and which can be safely allowed, including, but not limited to, participation in educational, religious, and treatment activities.

(6) A resident in administrative segregation shall be afforded opportunity for at least weekly showers.

(7) Department staff shall daily inspect each administrative segregation unit and visit each resident so segregated. A record shall be maintained of all such inspections and visits.

History: 1954 ACS 93, p. 51, Eff. Nov. 30, 1977.

R 791.4410 Community status; eligibility criteria; procedures.

Rule 410. (1) A resident is eligible for consideration for community status when the head of the institution at which he or she is confined reasonably believes that the resident will honor this trust, that release would not undermine public confidence in the program, and that the resident meets all of the following criteria:

(a) Qualifies for minimum security status according to the bureau of correctional facilities standards, and is housed in a medium or minimum security facility.

(b) Evidences a background free from: patterns of assault; predatory, compulsive, or assaultive sexual offenses; recent, acute mental disturbance; or other behavior indicating an unwarranted risk to the public.

(c) Has no involvement in organized crime, professional criminal activities, or narcotics traffic. Residents with histories of substance abuse are eligible so long as there is no history of involvement in narcotics traffic beyond personal use and limited sale to support the resident's own addiction.

(d) Is within 180 days of the expiration of the minimum sentence, if serving for certain crimes of violence or assaultive crimes specified by the director.

(e) Has a physical and mental condition consistent with the demands of the program.

(f) Has a good institutional adjustment showing a willingness to conform to the rules and regulations of the program, including support of dependents receiving public assistance or for whom a judicial order for support has been entered.

(2) The procedures of R 791.4401 shall be followed in determining community status classification.

History: 1954 ACS 93, p. 51, Eff. Nov. 30, 1977.

R 791.4415 Community status; furlough; purposes; criteria; waiver; family furlough; medical examination on return.

Rule 415. (1) When all the criteria and procedures of R 791.4410 are met, a furlough may be authorized to permit:

(a) A visit to a critically ill relative.

(b) Attendance at the funeral of a relative.

(c) Obtaining medical services not otherwise available, with the approval of the facility head.

(d) Contacting prospective employers.

(e) Any other compelling reason consistent with the public interest.

(2) The eligibility criteria of R 791.4410(1) may be waived in the following circumstances:

(a) A furlough granted under subrule (1)(a) or (b), if the resident is escorted by a responsible public official or immediate family member.

(b) A furlough granted under subrule (1)(c), if the resident qualifies for minimum security status or is so incapacitated by infirmity as to be deemed harmless to society. Reasonable security measures shall be provided after medical recovery of dangerous residents.

(3) A furlough granted under subrule (1)(e) includes, but is not limited to, a family furlough to reestablish community ties and accept family responsibility. A resident is eligible for a family furlough if:

(a) The criteria of R 791.4410(1) are met.

(b) The applicant has strong family ties and temporary release is to the custody of an immediate family member.

(c) Destination and escort are approved by both the institution and the investigating field agent.

(4) Each resident returning from temporary release is to be examined by a physician or medical aide within 7 to 10 days after return.

History: 1954 ACS 93, p. 52, Eff. Nov. 30, 1977.

R 791.4420 Community status; work or study release; conditions.

Rule 420. (1) When all the criteria and procedures of R 791.4410 are met, a resident may be classified to community status to work at paid employment or to participate in a program of training or study.

(2) Each institution shall designate personnel responsible for screening, selection, and processing of work and study release applications.

(3) Work release employment shall not result in the displacement of employed persons. The pay scale shall meet minimum wage requirements for similar work in the community. The place of employment shall provide proof of workmen's compensation coverage and shall meet prevailing safety standards. The department shall maintain liaison with the employer and the appropriate Michigan employment security commission office.

History: 1954 ACS 93, p. 52, Eff. Nov. 30, 1977.

R 791.4425 Community status; residence; expenses; conditions; violation.

Rule 425. (1) A resident classified to community status may reside at any designated department facility. A resident classified to community status who meets the requirements of R 791.4415 may be furloughed from any designated department facility.

(2) Each resident classified to community status shall pay expenses as specified by the director. Appropriated funds in a specified amount may be used to pay for room and board, transportation, and necessary incidental expenses for a cumulative period established by the director through an authorized representative.

(3) Each resident classified to community status shall be subject to general and special conditions established by an authorized representative of the director. When a violation of a condition is alleged, which constitutes major or minor misconduct, the charged resident is entitled to an administrative hearing as provided for in R 791.3310 and R 791.3315.

History: 1954 ACS 93, p. 52, Eff. Nov. 30, 1977.

R 791.4430 Program classification; objectives; committee; basis; review; reclassification; procedure; grievance.

Rule 430. (1) Each institution shall provide programs for rehabilitation to provide residents the opportunity to emphasize their individual strengths and develop the ability to handle responsibility. Programs for rehabilitation shall include, but not be limited to, considerations of job readiness, educational preparedness, mental and physical health, substance abuse treatment, and socialization.

(2) All program classification and reclassification decisions shall be made by a program classification committee designated by the head of each institution.

(3) A resident shall be assigned a program classification on the basis of all of the following:

(a) The individual's needs.

(b) Background information.
(c) Institutional needs.
(d) Security requirements.
(e) Parole board recommendations.
(f) Reception and guidance center recommendations.
(g) Performance contract objectives.
(h) Anticipated length of stay.
(i) Demonstrated degree of responsibility.
(j) The resident's views regarding his or her needs and desires.
(k) Availability of programs.

(4) The department shall specify time periods within which each resident's program classification will automatically be reviewed.

(5) A resident may request consideration of reclassification at any time.

(6) Institutional staff may request consideration of reclassification at any time.

(7) Whenever classification review is made:

(a) The resident shall receive notice that his or her program classification is being reviewed.

(b) The reviewing official shall interview the resident and solicit the resident's views regarding reclassification.

(c) The reviewing official shall make a written report to the program classification committee, which shall include:

(i) The resident's viewpoint.
(ii) The reviewer's recommendation.
(iii) The rationale for the recommendation.

(d) The program classification committee shall make a decision based on the reviewer's report.

(8) A resident objecting to the classification decision is entitled to file a grievance pursuant to R 791.3325.

History: 1954 ACS 93, p. 53, Eff. Nov. 30, 1977.

R 791.4435 Program classification; work and school assignments; work availability; transfer; refusal to work; wage rates; profits; holidays; work day; grievances; suggestions.

Rule 435. (1) A resident's program classification shall include a work or school assignment whenever possible.

(2) Residents shall be informed of available work assignments and minimal qualifications for each assignment.

(3) The procedure and considerations of R 791.4430 shall be followed in determining and reviewing work and school assignments. As far as possible, the work provided shall be such as to maintain or increase the resident's ability to obtain gainful employment after release. Input from the resident regarding needs and reasonable desires shall be solicited and given full consideration.

(4) A request for a job transfer shall involve reclassification where the transfer is into, or out of, an assignment in prison industries.

(5) A resident who refuses a work assignment shall be confined to his or her cell during the working day unless another assignment is agreed to. If it is determined at a hearing that the refusal was unjustified, disciplinary action may also be taken against the resident.

(6) The department shall establish a wage schedule for full-time work assignments. Rates of pay above this schedule shall be determined by each facility, consistent with budgetary allotments and available work force. The range of pay shall reflect the relative difficulty of the job, the skills required, the working

conditions, and seniority whenever possible. The civil service compensation manual shall be used as a guide for establishing these ranges where applicable.

(7) Income generated from prison industries above the direct and indirect costs entailed in its operation shall be returned as bonuses to the residents in industry work assignments.

(8) All residents on work assignments shall be paid for the holidays designated by the civil service for departmental employees, with time off corresponding to that for institutional staff.

(9) The department shall establish a standard workday and each facility shall establish procedures for regulation of absences and tardiness.

(10) A resident objecting to working conditions or work-related decisions is entitled to file a grievance pursuant to R 791.3325.

(11) Residents shall be encouraged to submit written suggestions regarding methods by which work assignments may be operated more efficiently and safely. These suggestions may be made anonymously.

History: 1954 ACS 93, p. 53, Eff. Nov. 30, 1977.

R 791.4440 Program classification; job safety; accident and injury reporting and compensation.

Rule 440. (1) The department shall provide a safe working environment including full compliance with department of labor requirements for safety devices. Supervisors shall enforce the safety rules and require use of all safety devices. Each resident shall be instructed in the safe operation of equipment and tools. A resident who refuses to use safety devices, after being directed to do so, shall be removed from the assignment pending investigation of the advisability of disciplinary action.

(2) All accidents or injuries involving residents shall be reported according to procedures established by each facility.

(3) A resident injured on a job-related assignment, or a resident whose glasses or other prosthetics are irreparably damaged on a job-related assignment, shall be entitled to compensation if the injury or damage is not a result of deliberate negligence or malice on the part of the resident.

(4) The director shall establish procedures for determining the amount of compensation and conditions for the expiration of the compensation.

History: 1954 ACS 93, p. 54, Eff. Nov. 30, 1977.

PART 5. RESIDENT MISCONDUCT

R 791.5501 Major misconduct; minor misconduct; hearing; confiscation and disposition of contraband.

Rule 501. (1) An alleged violation of resident rules shall be classified as "major misconduct" or "minor misconduct" on the basis of the seriousness of the act and the punitive sanctions allowed.

(2) A resident alleged to have committed the following behavior shall be charged with major misconduct:

(a) Escape or attempt to escape.

(b) Behavior that constitutes a felony under state or federal law.

(c) Serious insubordination as defined in resident guide book.

(d) Assault or threat of violence.

(e) Repeated rule violations as defined in resident guide book.

(f) A violation of rules that clearly jeopardizes facility security or safety as defined in resident guide book.

(3) A resident charged with major misconduct has a right to a formal hearing as provided in R 791.3315. The hearing shall be held within 10 business days of notice of charges, except that a resident confined pending the hearing shall be accorded the hearing within 4 business days of placement in confinement. These time limits apply unless good cause for delay is contained in the written decision prepared pursuant to R 791.3315(6). Upon a finding of guilt, a resident shall be subjected to the punitive sanctions provided in R 791.5505(1).

(4) A resident charged with a violation of law or resident rules not enumerated in subrule (2) shall be charged with minor misconduct and has a right to a fact-finding hearing provided in R 791.3310. Upon finding of guilt, the resident shall be subjected to the punitive sanctions provided in R 791.5505(2).

(5) Property determined to be contraband at a misconduct hearing shall be confiscated and disposed of in accordance with departmental procedure.

History: 1954 ACS 93, p. 54, Eff. Nov. 30, 1977.

R 791.5505 Sanctions for major and minor misconduct; guilty plea; waiver.

Rule 505. (1) A hearing officer or committee shall impose 1 or more of the following sanctions upon a finding of guilt in major misconduct:

(a) Detention (punitive segregation), not to exceed 7 days, with the maximum range reserved for only the most serious or persistent violators.

(b) Confinement to quarters or top lock, not to exceed 5 days, but not to be combined with a detention sentence.

(c) Loss of privileges, not to exceed 30 days.

(d) Restitution for property damage.

(e) Recommendation to the institution head for forfeiture of good time or denial of special good time in accordance with guidelines established by the department.

(f) Suspended sentence, contingent upon no further misconduct, to be in effect not more than 6 months.

(2) A hearing officer or committee shall impose 1 or more of the following sanctions upon a finding of guilt in minor misconduct:

(a) Confinement to quarters or top lock, not to exceed 5 days (not applicable in minimum security or community classifications).

(b) Loss of privileges or assignment of extra duty, not to exceed 2 weeks.

(c) Suspended sentence, contingent upon no further misconduct, to be in effect not more than 90 days.

(d) Counselling and reprimand.

(3) If a resident wishes to plead guilty to a minor misconduct and waive a fact-finding hearing, the resident may sign a written waiver. If the reporting employee accepts the waiver, that employee may impose summary punishment, not to exceed 1 day top lock, 1 day extra duty, or 1 week loss of privilege. A record of this action shall be on file with the supervisory staff.

History: 1954 ACS 93, p. 55, Eff. Nov. 30, 1977.

R 791.5510 Punitive segregation; regulations and procedures; limitations; daily inspection; record.

Rule 510. (1) A resident shall not be placed in punitive segregation without prior examination and approval by the medical director or the psychiatric staff if the resident has a history of psychiatric problems or a significant medical problem.

(2) Each institution shall adopt specific regulations and establish procedures applying to punitive segregation, and shall provide copies of those regulations and procedures to residents so segregated.

(3) Sanctions imposed for punitive or disciplinary reasons shall not include deprivation of:

(a) Normal meals.

(b) Mattress and blanket.

(c) Clothing.

(d) Smoking materials.

(e) Adequate heat, light, and ventilation.

(f) Basic writing materials.

(g) Visits.

(h) Basic means of maintaining personal hygiene, including, but not limited to, soap, water, towel, toilet paper, and toothbrush.

(i) Mail privileges.

(j) Access to courts or legal materials.

(4) Punitive segregation shall not be imposed for a period of longer than 7 days.

(5) Supervisory staff shall daily inspect each punitive segregation unit and check each resident so detained. Visual supervision of each detainee shall be made at least once every 60 minutes on a 24-hour basis. A record shall be maintained of all such inspections.

History: 1954 ACS 93, p. 55, Eff. Nov. 30, 1977.

PART 6. RESIDENTS' RIGHTS

R 791.6601 Religions treated equally; attendance at worship; proselytizing; foods; literature; medals.

Rule 601. (1) All religions shall be given equal status and treatment at all institutions and facilities, unless to do so presents a danger to good order and security.

(2) Each institution or facility shall allow attendance at worship or meditation services, except to those prisoners who are so dangerous and disruptive, or so medically or psychologically infirm, as to require immobilization or close confinement.

(3) An agent of the department shall not proselytize, or permit others to proselytize, any corrections client without the consent of that client. However, chaplains shall serve prisoners of all denominations to the best of their ability.

(4) A resident shall be permitted to abstain from any foods which violate his or her religious tenents, and may substitute from other available food. Information about menus shall be available sufficiently in advance to permit residents to observe dietary restrictions. However, special or separate menus shall not be provided.

(5) A resident shall be permitted to receive religious literature through channels established in institutional procedures.

(6) A resident shall be permitted to carry on his or her person religious medals or symbols which cannot be formed into dangerous weapons or are not potentially disruptive.

History: 1954 ACS 93, p. 55, Eff. Nov. 30, 1977.

R 791.6603 Mail rights; writing materials and postage; incoming mail; inspection; limitations; legal correspondence; notice of rejection; violation of rules; hearing.

Rule 603. (1) A resident in general population status shall be permitted to send uncensored letters to any person or organization, subject to the limitations of subrules (5) to (8). Mail of a resident in segregation status shall be subject to inspection, except for correspondence to persons enumerated in R 791.6615(2).

(2) A resident shall be provided, at no individual expense, with a reasonable quantity of writing materials and postage. The department shall provide air, certified, registered, oversized, and overweight mail service for use at the resident's individual expense.

(3) There is no limit on the amount of incoming mail a resident may receive. Incoming mail from other correctional facilities may be read, and all incoming mail shall be opened and inspected for money and contraband prior to delivery to the addressee. The department shall follow the guidelines of the auditor general for receiving and safe handling of money and valuables confiscated from incoming mail. A resident may receive any book, periodical, or other publication which does not present a threat to the order or security of the institution or to resident rehabilitation.

(4) Pursuant to a specific written request by a resident, mail which is clearly identified as coming from the resident's designated attorney or the corrections ombudsman shall be opened and inspected for contraband in the resident's presence.

(5) The following shall be considered violations of the department's mail rules:

(a) Correspondence which contravenes federal or state law.

(b) Correspondence which violates postal regulations.

(c) Correspondence containing contraband.

(d) Correspondence containing a criminal plan or conspiracy.

(e) Threatening correspondence.

(f) Correspondence addressed to any party who expressly objects to receiving mail from a resident, if sent after the resident has been notified of the objection.

(6) The department may intercept, open, inspect, and refuse to transmit mail when there are reasonable grounds to believe the mail is being sent contrary to department mail rules. This provision shall not apply to clearly identified correspondence to courts, attorneys of record, public officials, the corrections ombudsman, and members of the department's central office staff.

(7) Whenever the department does not transmit first class mail, it shall notify the sender of the rejection, including the reasons therefor.

(8) A resident charged with violating department mail rules shall be afforded an appropriate hearing, pursuant to procedures established in R 791.3305, R 791.3310, and R 791.3315, before any disciplinary action is taken.

History: 1954 ACS 93, p. 56, Eff. Nov. 30, 1977.

R 791.6605 Access to the media, publishers, and interviews; suspension of right during emergencies.

Rule 605. (1) General population residents shall be allowed uncensored correspondence with, and telephone access to, media representatives, subject to reasonable regulation as to time and frequency.

(2) Residents may submit uncensored manuscripts to publishers, and may serve as literary reviewers for newspapers or other publications.

(3) Residents permitted outside an institution for rehabilitative or public service purposes may participate in news interviews when approached by media representatives.

(4) A resident shall not be interviewed, filmed, or photographed by the media in a department institution or facility without the resident's prior written consent. Both the department and the resident must consent to requests for personal interviews. The department shall grant requests for personal interviews of a resident if the number and duration of the interviews are reasonable and the granting of the request does not create a threat to security, order, or rehabilitation.

The department shall take appropriate steps in evaluating interview requests to insure that the resident is not coerced into consenting to an interview.

(5) The institutional head may temporarily suspend all resident access to the media during emergencies or disorders. Such suspension shall end with the return to normalcy.

History: 1954 ACS 93, p. 56, Eff. Nov. 30, 1977.

R 791.6607 Visitation; visiting hours; quotas; religious, legal, and official visits.

Rule 607. (1) Each institution shall establish reasonable visiting hours and uniform quotas for visits to residents for the purpose of promoting order and discipline in the institution and preventing interference with institutional routine and disruption of the resident's programming.

(2) Visits within established visiting hours shall be unlimited, and shall not be counted toward visiting quotas for:

(a) Qualified members of the clergy of the resident's designated religion, or clergy that the resident specifically requests to see.

(b) The resident's designated counsel or a legal paraprofessional or law clerk acting as an aide to counsel for the resident, if the visitor shows proof of authorization to represent the resident.

(c) Official representative of the legislative, judicial, or executive branch of government.

History: 1954 ACS 93, p. 57, Eff. Nov. 30, 1977.

R 791.6609 Limits on visitation.

Rule 609. (1) Except as otherwise provided in this section, any person not a resident may visit any resident if:

(a) The resident gives approval for the visit.

(b) The visit is within the allowable quota established by the institution.

(c) The visit does not constitute a threat to the resident's physical or mental well-being.

(d) The visit does not constitute a clear and present threat to the order and security of the institution.

(e) Allowing the visit is not clearly harmful to the resident's chance for rehabilitation.

(f) The purpose of the visit is not to commit an illegal act.

(2) A former resident who wishes to visit an institution shall request permission to visit from the institution head. Permission shall be granted if subrule (1) is met. Former residents on parole status shall also have the approval of their supervising field agent.

(3) Probationers may visit residents with the prior approval of their supervising field agents.

(4) Persons on furlough status from any department facility shall have a compelling reason to visit a resident and shall obtain permission from the heads of all facilities or institutions involved.

(5) Adult immediate family members may visit institutionally hospitalized residents whenever it is medically allowable.

(6) Visitors allowed inside the gates of maximum, close, and medium security institutions shall be provided with adequate protective escort.

History: 1954 ACS 93, p. 57, Eff. Nov. 30, 1977.

R 791.6611 Disapproved visitors list.

Rule 611. (1) A person may not visit a resident of a correctional institution if the visit is prohibited under R 791.6609 or if that person:

(a) Appears intoxicated or drugged.
(b) Refuses to submit to a reasonable search.
(c) Fails to produce valid and adequate identification.
(d) Intentionally makes a false statement with respect to the request to visit.

(2) Each institution shall maintain a disapproved visitor list. Disapproved visitors shall be listed according to the nature of restriction on visiting, including:
(a) Prohibition from visiting any resident at any time.
(b) Prohibition from visiting a specific resident or residents.
(c) Prohibition from visiting any resident except under prescribed conditions.

(3) Disapproved visitor lists shall contain a brief statement of the reason for placing each person on a disapproved status.

(4) A previously authorized visitor placed on the disapproved list shall be afforded an opportunity to challenge, in writing, the appropriateness of the decision.

History: 1954 ACS 93, p. 57, Eff. Nov. 30, 1977.

R 791.6613 Search of visitors and residents; rules for visits; violation of rules; hearing.

Rule 613. (1) All residents in maximum, close, and medium security institutions shall be searched following all visits. All persons visiting residents inside an institution shall be searched for contraband.

(2) Each institution shall prescribe and display reasonable rules of conduct for visits to preserve order and to prevent conduct offensive to other visitors or members of the public who may be present.

(3) Residents accused of violating any rules relating to resident visits shall be entitled to a hearing pursuant to R 791.3310 or R 791.3315. A visitor who violates the rules of conduct may be placed on an institution's disapproved visitors list pursuant to R 791.6611.

History: 1954 ACS 93, p. 58, Eff. Nov. 30, 1977.

R 791.6615 Access to courts; confidential communications.

Rule 615. (1) Residents shall have reasonable access to the courts for the resolution of legal grievances, including, but not limited to:
(a) Challenges to the legality of conviction or confinement.
(b) Suits for redress of allegedly illegal conditions of confinement or treatment while incarcerated or under correctional control.
(c) Suits in connection with civil legal problems.
(d) Asserting any other constitutional or statutory rights against a governmental authority.

(2) A communication between a resident and the following persons or agencies shall be confidential:
(a) Designated attorneys.
(b) Courts.
(c) Public officials.
(d) The director of the department of corrections.
(e) The corrections commission.
(f) The corrections ombudsman.

(3) A legal document filed in court by a resident shall not be included in the resident's case history files at any level.

(4) A resident shall not be punished in any way for exercising the right of access to the courts.

History: 1954 ACS 93, p. 58, Eff. Nov. 30, 1977.

R 791.6617 Legal assistance from other residents; written agreement; approval; grievance; violation.

Rule 617. (1) A resident may not directly or indirectly receive compensation in goods or services for providing legal assistance. However, residents may obtain legal assistance from other residents if an agreement for that assistance is in writing.

(2) A written agreement for legal assistance shall have prior written approval from the institution head or his designate, shall contain all the terms and conditions of the provision of assistance, and shall be signed by the residents involved.

(3) The institution head or his designate shall approve an agreement for legal assistance, unless:

(a) Either of the residents has violated subrule (1).

(b) The terms of the agreement would interfere with the normal institutional programming.

(4) A resident claiming to be aggrieved by a department violation of a valid agreement for the preparation of legal documents under this rule may seek redress through the grievance procedures established in R 791.3325.

(5) Willful violation of regulations for legal assistance shall be grounds for disciplinary action.

History: 1954 ACS 93, p. 58, Eff. Nov. 30, 1977.

R 791.6619 Law libraries; access to legal materials.

Rule 619. (1) Major institutions shall maintain adequate law libraries.

(2) Legal materials shall be made reasonably available to all residents, except that the department may restrict or revoke a resident's library privileges for misuse. A resident accused of misusing legal materials shall be entitled to a prior hearing pursuant to R 791.3310 before library privileges may be restricted or revoked.

(3) A resident shall be entitled to assignment to an institution where an adequate law library is available upon showing a need for access to legal materials in order to prepare legal communications regarding a matter cognizable under R 791.6615(1).

(4) A resident may keep personal legal materials in his or her cell.

History: 1954 ACS 93, p. 58, Eff. Nov. 30, 1977.

R 791.6621 Resident dress, grooming, and personal hygiene.

Rule 621. (1) Resident dress, grooming, and personal hygiene shall be consistent with reasonable standards of public health and the security of the institution.

(2) The department shall issue each resident adequate institutional clothing and items necessary to maintain personal hygiene. Special clothing necessitated by a resident's assignment or travel outside the institution shall also be provided.

(3) Any resident in general population status of a department facility may wear items of personal clothing instead of institutional clothing, if such attire meets the requirements of subrule (1), is modestly priced, and is suitable for institutional laundry facilities.

(4) The head of each institution or facility shall establish procedures by which residents may obtain personal clothing items.

History: 1954 ACS 93, p. 59, Eff. Nov. 30, 1977.

R 791.6623 "Resident publication" and "editor-in-chief" defined.

Rule 623. As used in R 791.6625 and R 791.6627:

(a) "Resident publication" means a newspaper or periodical published by residents under the administrative control and supervision of an institutional staff member.

(b) "Editor-in-chief" means the resident member of the resident publication staff, designated by the institution head, with responsibility for selecting the proposed content of the publication. Residents of major institutions shall be permitted a penal press for presentation of institutional news and resident self-expression, subject to R 791.6625.

History: 1954 ACS 93, p. 59, Eff. Nov. 30, 1977.

R 791.6625 Resident publication; procedures; contents; grievance.

Rule 625. (1) Each institution in which a resident publication is maintained shall establish procedures allowing publication staff reasonable access to events and persons in the institution for newsgathering purposes.

(2) The department may establish reasonable procedures for regulating and limiting the printing of resident opinions and editorial comments.

(3) A resident publication shall not contain material which is obscene; which constitutes a threat to institutional security or order; or which constitutes a personal attack or an attack upon any religious, racial, or ethnic group.

(4) Each issue of a resident publication shall contain a statement that material contained in the publication does not necessarily represent the viewpoint of the publication staff, institution, or department of corrections.

(5) A client claiming to have been aggrieved by a statement or omission in a resident publication may seek redress through the grievance procedure described in R 791.3325.

History: 1954 ACS 93, p. 59, Eff. Nov. 30, 1977.

R 791.6627 Resident publication; review; deletions and change; statement; rights of editor-in-chief.

Rule 627. (1) All material proposed for publication in a resident publication shall be submitted for review to the institution head, or the designated representative thereof, far enough in advance of the scheduled publication date to permit the review provided for herein.

(2) Material may be rejected for publication, or changes may be proposed, by the reviewing official whenever the material fails to conform to the restrictions contained in R 791.6625 or procedures issued thereunder. The reviewing official shall provide the editor-in-chief of the publication with a statement of reasons for deletions, or of suggestions for changes, in material proposed for publication. This statement shall be provided to allow the publication staff to conform to, or challenge, the deletions and proposed changes without impeding the timeliness of the publication. The statement shall be made prior to the scheduled publication date where the editor-in-chief complies with subrule (1).

(3) Upon notification of deletions and changes in material proposed for publication, the editor-in-chief may do either of the following:

(a) Alter the material so as to conform to the deletions and changes suggested.

(b) Challenge the deletions and changes through appropriate administrative channels set forth in institutional procedures. If this alternative is selected, the reviewing official shall put the reasons for changes or deletions in writing.

History: 1954 ACS 93, p. 59, Eff. Nov. 30, 1977.

R 791.6629 Health care system; examinations; procedures; grievances.

Rule 629. (1) The department shall maintain a health care system consistent with standards for non-correctional public institutions.

(2) All residents shall be given physical and mental examinations by qualified medical personnel upon initial commitment.

(3) Each facility shall establish procedures to ensure that:

(a) Medical attention is provided residents by qualified personnel in a reasonably prompt manner.

(b) Adequate first aid equipment and personnel trained in its use are available to all residents.

(c) Treatment ordered by health care professionals is administered as prescribed.

(d) Seriously ill or injured residents are taken to a suitable medical facility as soon as safely possible.

(e) Prescriptions can be filled in accordance with the requirements of the state board of pharmacy as needed.

(f) Emergency medical treatment is available on a 24-hour basis.

(g) The health care system is periodically reviewed and inspected by appropriate representatives of the medical and public health professions.

(4) Any resident claiming to be aggrieved through the operation of departmental or institutional health care policy may seek redress through the grievance procedure established in R 791.3325.

History: 1954 ACS 93, p. 60, Eff. Nov. 30, 1977.

R 791.6631 Pharmaceutical research projects; procedures; sponsors; protection committee; duties of sponsors; violation.

Rule 631. (1) The corrections commission shall adopt reasonable procedures by which pharmaceutical firms, medical schools, and research institutes may request permission to sponsor pharmaceutical research projects involving resident volunteers, and insure that such research projects conform to the principles expounded in the Nuremberg code, and the Helsinki resolutions; the guidelines of the department of health, education, and welfare; and the rules of the federal food and drug administration. Independent researchers who evaluate drugs on a contractual basis shall be ineligible as sponsors.

(2) The corrections commission shall appoint 1 or more protection committees to evaluate research proposals, supervise research projects, and establish regulations for their proper management. Sponsors shall reimburse the state for the reasonable compensation and expenses of these committees.

(3) Research under this rule may be conducted at any correctional institution and may involve resident volunteers, subject to reasonable regulation by the corrections commission to protect the resident's health and the security and good order of the institution.

(4) Eligible research sponsors shall provide all necessary equipment, supplies, materials, personnel, and facilities necessary to conduct the research project. Research shall not be conducted in a department medical facility.

(5) Sponsors shall maintain and provide the department with full clinical records of each volunteer's participation for a sufficient time to allow for discovery of delayed effects of the research.

(6) Sponsors shall agree to indemnify the state for all actual costs of treating illness or disability arising from participation in a research project. Disputes between the department and a sponsor shall be resolved by a committee appointed by the corrections commission.

(7) Violation of any of the regulations made pursuant to this rule or failure to comply with valid regulations made by any person or committee authorized by this rule shall be sufficient grounds for termination as a sponsor.

History: 1954 ACS 93, p. 60, Eff. Nov. 30, 1977.

R 791.6633 Pharmaceutical research; volunteers; notice; informed consent; withdrawal; termination; rejection; effect of participation or nonparticipation.

Rule 633. (1) The department shall establish reasonable procedures to determine the eligibility of resident volunteers for pharmaceutical research.

(2) Residents shall be provided with prior written notice of available research projects, which notice shall include a description of procedures for volunteering.

(3) A volunteer shall give his or her informed written consent to the terms of the research project prior to commencement of participation.

(4) A statement of consent shall not be considered informed consent unless both of the following conditions have been complied with:

(a) All the terms and conditions of participation in the project, including the nature of the procedure involved, the degree of risk, and all other factors affecting the resident's welfare, are explained to the resident in the presence of an employee of the department.

(b) The witnessing employee executes a written statement that a full explanation has been made and that the resident has given consent without evidence of coercion or undue influence.

(5) A volunteer may withdraw from pharmaceutical research at any time and for any reason. The department shall not impose adverse consequences on a resident for withdrawal. However, a future sponsor may reject a volunteer on the basis of past unreliable performance where the facts warrant.

(6) A sponsor may terminate a volunteer when the volunteer's performance or lack of performance endangers the validity of the research.

(7) A resident volunteer rejected as a participant in a research project shall be provided with a written statement of the reasons therefor, unless disclosure would be detrimental to the resident's physical or mental welfare. A resident claiming to be aggrieved by a rejection may seek redress through the grievance procedure established in R 791.3325.

(8) The fact of participation, or nonparticipation, in a research project shall not be included in a resident's institutional file. Prospective volunteers shall be informed that participation or nonparticipation in a research project shall not affect a resident's treatment program, parole eligibility, or security classification.

History: 1954 ACS 93, p. 61, Eff. Nov. 30, 1977.

R 791.6635 Pharmaceutical testing; volunteer compensation; amount; continuation; inducement prohibited.

Rule 635. (1) Volunteers in a pharmaceutical testing research project shall be compensated in a uniform manner.

(2) Compensation shall be provided by the sponsor of the project.

(3) The amount of compensation may be determined by the degree of discomfort or inconvenience suffered, but shall not reflect the amount of risk incurred.

(4) The compensation of a volunteer who incurs illness or disability as a result of participation in pharmaceutical research shall continue during care or treatment for such illness or disability.

(5) An inducement, monetary or otherwise, to resident participation in research projects is prohibited, except compensation as provided herein.

History: 1954 ACS 93, p. 61, Eff. Nov. 30, 1977.

R 791.6637 Right to be kept informed, transact personal business, marry, and hold personal property; recreation; freedom from discrimination; freedom of speech.

Rule 637. (1) A client shall be fully informed of his or her treatment planning, adjustment, and programs, except as limited by statute or professional privilege, if such information is not clearly detrimental to the resident's condition or treatment.

(2) A resident may bank or invest moneys and conduct legitimate personal business, subject to reasonable regulation to insure adequate funds for re-entry into the community and to insure the security and good order of the facility.

(3) A resident may marry if the law is complied with and there is no evidence of coercion or severe psychiatric incapacity.

(4) A resident may keep personal property in his or her housing unit, subject to reasonable regulations to safeguard the public health and the security, order, and housekeeping of the facility.

(5) Each resident with general population status shall be provided daily opportunity for indoor or outdoor recreation.

(6) A corrections client shall not be discriminated against, or penalized in any manner, because of his or her religious or political opinions or beliefs. A resident may express his or her opinions or beliefs if that expression does not present an immediate danger of serious disruption.

History: 1954 ACS 93, p. 61, Eff. Nov. 30, 1977.

R 791.6639 Resident accounts; accumulation and use of funds; institutional scrip; controls on spending; illegal funds; negative balance; authorized withdrawals; return of balance.

Rule 639. (1) The department shall allow each resident to have an account in which he or she may accumulate funds without limit, subject to regulation as to authorized sources of funds.

(2) Unless the funds are designated by the source for a specific purpose, they may be used by the resident for:

(a) Transfer to family members.

(b) Payment of authorized business or legal expenses.

(c) Transfer to approved savings account or purchase of savings bonds.

(d) Payment for authorized services or merchandise.

(3) Transfer of funds between residents is prohibited, except to purchase hobbycraft items to be sent from a facility as gifts.

(4) The department shall develop regulations regarding the purchase of institutional scrip by residents and visitors.

(5) Controls may be imposed on a resident's spending if it is established at a formal hearing, pursuant to R 791.3315, that the resident is:

(a) Incurring heavy indebtedness to other residents.

(b) A victim of extortion by other residents.

(c) Using scrip or store purchases to exploit or corrupt other prisoners.

(d) Setting up his or her own store.

(e) Stockpiling canteen merchandise in his or her cell so as to create housekeeping problems.

(6) Possession of money or scrip in violation of this rule, or in violation of regulations issued under this rule, constitutes possession of illegal funds. A resident alleged to be in possession of illegal funds shall be subject to disciplinary action. In addition to the sanctions authorized by R 791.5505, a resident found guilty of such misconduct shall have the illegal funds confiscated and placed in the inmate benefit fund.

(7) When a resident's account has a negative balance, collections on department debts shall be limited to ½ the resident's subsequent funds unless the resident consents in writing to a larger assessment.

(8) Funds shall not be taken from a resident's account except at the resident's request, unless justification is first established at a formal hearing pursuant to R 791.3315.

(9) A client released from sentence shall receive the balance of his or her account.

History: 1954 ACS 93, p. 62, Eff. Nov. 30, 1977.

R 791.6641 Housing and living standards.

Rule 641. A resident shall be housed in a living unit which meets accepted standards for institutional life in nonprison settings, including, as a minimum:

(a) Clean and orderly surroundings.

(b) Adequate toilet, bathing, laundry, and other personal hygiene facilities.

(c) Lighting, ventilation, and heating adequate for comfort.

(d) Compliance with state fire and occupational safety regulations.

(e) A wholesome and nutritionally adequate diet.

(f) Clothing.

(g) Mattress and blanket.

History: 1954 ACS 93, p. 62, Eff. Nov. 30, 1977.

R 791.6643 Protection of residents; master count system; suicide attempts; deaths.

Rule 643. (1) A resident shall have reasonable protection against the threat, or fact, of intimidation, assault, exploitation, and other abuse. The following safeguards shall apply:

(a) Institutional classification, cell or room assignment, and operating procedures shall be employed to provide reasonable safety from assault.

(b) Disciplinary action shall be taken for all acts of violence committed within the institution, and where these constitute felonies, criminal prosecution shall be sought.

(c) Corporal punishment is prohibited.

(d) Force shall be utilized by department staff only as a last resort and only to the extent necessary, as provided in R 791.6645.

(e) Infliction of mental distress, degradation, or humiliation, through language or action, is prohibited.

(f) Promises of leniency, rewards, or other encouragement for information, made to a corrections client whose lifestyle is to secure favorable treatment through incrimination of others, are prohibited.

(2) Each facility shall maintain a master count system and conduct frequent accurate resident counts to insure the positive verification of the whereabouts of each resident.

(3) All suicide attempts shall be treated as genuine until declared otherwise by medical or psychiatric staff.

(4) An autopsy shall be conducted in every death occurring in a department facility. All deaths from other than natural causes, and deaths not attended by a physician, shall be referred to the Michigan state police and the appropriate county medical examiner.

History: 1954 ACS 93, p. 62, Eff. Nov. 30, 1977.

R 791.6645 Use of force; tear gas; forcible removal from cell; reports, discharge of weapons.

Rule 645. (1) Force shall be used by department staff against a resident only after all other reasonable alternatives are exhausted. Only the force necessary in these circumstances shall be permitted.

(2) Prior authorization from the appropriate supervising official shall be obtained for the use of tear gas. When tear gas is used, each person affected shall be immediately examined and treated for possible burns or other injury.

(3) Forcible moving of a recalcitrant resident from his or her cell shall, whenever possible, be conducted during the institution's regular business hours. If, however, a resident destroys cell property, threatens self-destruction, or exhibits behavior clearly disruptive to the cell housing unit, the resident may be forcibly removed at any time with the prior authorization of the appropriate supervisory staff.

(4) A written report shall be made of each incident involving the use of force or tear gas.

(5) Lethal weapons shall be discharged in the conduct of duty only for the following purposes:

(a) To prevent the escape of a maximum or medium custody resident when lesser action is not effective.

(b) To protect an employee, resident, or other person from death or serious injury when there are reasonable grounds to believe that death or serious injury is imminent.

(c) With the authorization of the commanding officer, to control a mass disturbance.

(6) Gunfire shall be directed with the intent to disable only and, where the circumstances permit, shall be preceded by either an oral warning or a warning shot.

History: 1954 ACS 93, p. 63, Eff. Nov. 30, 1977.

PART 7. PAROLE, PARDON, REPRIEVE, AND COMMUTATION OF SENTENCE

R 791.7701 Parole release hearing; time; rights of resident.

Rule 701. (1) A resident shall appear before the parole board for parole consideration not less than 30 days before expiration of the minimum term of sentence, less regular and special good time allowances, except those subject to section 34 of Act No. 232 of the Public Acts of 1953, being §791.234 of the Michigan Compiled Laws.

(2) At the resident's parole release hearing, the resident shall be informed of the purpose of the hearing, including an explanation that the resident has the following rights:

(a) Presentation of a statement at the hearing, explaining to the board why release is proper or questioning any material considered by the board.

(b) Disclosure of any report or other written material used in making the board's determination, unless that written material:

(i) Is a diagnostic opinion, the disclosure of which might seriously disrupt a program of rehabilitation.

(ii) Reveals sources of information obtained on a promise of confidentiality.

(iii) Is unduly hazardous to persons or to institutional or safety goals.

(iv) Is information privileged by law.

R 791.7705 Parole release hearing; staff assistance.

Rule 705. (1) To facilitate a parole release hearing, a staff member shall be available to gather and present factual evidence in all cases at the request of either the resident or the parole board.

(2) Where the parole board determines that a resident appears to be incapable of speaking effectively for himself or herself, the board shall request the staff member to present arguments on the resident's behalf.

(3) A resident may object to a particular staff member making arguments on the resident's behalf if that staff member has recommended action adverse to the resident. Where objection is made, the board may designate another employee to speak in the resident's behalf.

History: 1954 ACS 93, p. 64, Eff. Nov. 30, 1977

R 791.7710 Parole release hearing; decision; denial; notice; early parole; mental health residents.

Rule 710. (1) Whenever possible, the decision to grant or deny parole shall be announced at the parole release hearing. A resident shall be given an opportunity to ask questions and request an explanation of the board's decision.

(2) If release is denied, the board shall furnish the resident written notice:

(a) Stating with particularity the grounds on which its determination is based.

(b) Including, wherever possible, a statement of what the resident should do to better qualify for parole.

(c) Except for those residents who are within 18 months of sentence expiration, setting a new hearing date, to be no more than 12 months from the minimum eligibility date or previous pass-over date.

(3) Notwithstanding R 791.701(1), a prisoner may receive a special early parole when R 791.715 and the provisions of §791.233(b) of the Michigan Compiled Laws are complied with.

(4) The director shall issue regulations for the parole consideration of eligible corrections clients committed to facilities of the department of mental health.

History: 1954 ACS 93, p. 64, Eff. Nov. 30, 1977.

R 791.7715 Factors considered in granting parole; psychological or psychiatric evaluations.

Rule 715. (1) The parole board shall evaluate the following factors with regard to the resident in determining whether parole is in the best interests of society and public safety:

(a) Potential for violence, as demonstrated by prior behavior or other objective criteria.

(b) Willingness to accept responsibility for prior behavior.

(c) Patterns or other information indicating a likelihood that the resident is a professional or career criminal.

(d) Pending prosecutions.

(e) Behavior under prior correctional supervision.

(f) Employment history.

(g) Job readiness.

(h) Resident's recognition of critical personal problem areas and progress in dealing with them.

(i) Family or community ties.

(j) Performance at work or school assignments.

(k) Need for further institutional program involvement to improve release readiness.

(l) Mental stability.

(m) Irreversible medical condition which reduces likelihood of further criminal acts.

(n) A suitable and realistic parole plan.

(2) A resident under consideration for parole, who is successfully evaluated under subrule (1), shall receive psychological or psychiatric evaluation before the release decision may be made if the resident has a history of:

(a) Hospitalization for mental illness within the past 2 years.

(b) Predatory or assaultive sex offenses.

(c) Serious or persistent assaultiveness within the institution.

History: 1954 ACS 93, p. 64, Eff. Nov. 30, 1977.

R 791.7720 Parole board action subsequent to hearing; rescission or annulment of parole.

Rule 720. (1) If new information, which may adversely affect the disposition, is received subsequent to the hearing but prior to parole release, the parole board may suspend the issuance of its parole order and review the case. If the parole board wishes to rescind the parole, the resident is entitled to a hearing in accordance with R 791.7701, R 791.7705, and R 791.7710.

(2) If new information is received after release on parole of behavior that occurred prior to release that would have adversely affected the disposition, the parole order shall be suspended, the client returned to an institution, and a new hearing held in accordance with R 791.7701, R 791.7705, and R 791.7710 to determine whether or not the parole should be annulled.

History: 1954 ACS 93, p. 64, Eff. Nov. 30, 1977.

R 791.7725 Performance contract; formulation; hearing; revision; withdrawal; termination; violation.

Rule 725. (1) Upon agreement of the parole board, bureau of field services, and bureau of correctional facilities, an eligible resident may enter into a performance contract with the parole board, guaranteeing an order of release on a specified date if all contract terms and objectives are successfully completed. Criteria for resident eligibility shall be developed by the director.

(2) A resident who participates in the performance contract program shall be actively involved in the formulation of a performance contract which shall be drawn specifically for that resident and containing only relevant and achievable terms and objectives.

(3) Once the proposed terms are agreed upon, the resident shall have a hearing before the parole board to formalize the contract. This hearing is deemed to fulfill the hearing requirement of §791.234 of the Michigan Compiled Laws for a resident paroled upon successful completion of a performance contract.

(4) A resident may request revision of his or her contract at any time. Approval by a majority of the parole board is required for revision.

(5) A resident may withdraw from contract consideration during negotiations, or may terminate a contract, without prejudice, at any time.

(6) A finding of guilty at a major misconduct hearing or an unjustified failure to meet a contract objective, established at a formal hearing under R 791.3315, constitutes a violation of a performance contract. When a violation is established, a majority of the board may continue, revise, or terminate the contract.

(7) Subrule (6) notwithstanding, the contract of a resident on escape status or who is convicted of a new crime may be terminated without a hearing.

(8) If a resident's performance contract is terminated, parole shall be considered under R 791.7701, R 791.7705, R 791.7710, and R 791.7715. The fact of violation and termination may properly be considered by the board in its release decision.

History: 1954 ACS 93, p. 65, Eff. Nov. 30, 1977.

R 791.7730 Conditions of parole.

Rule 730. (1) Each order of parole shall contain conditions of parole reasonably necessary to assist a parolee to lead a law abiding life. There shall be a reasonable relationship between parole conditions and both the prisoner's previous conduct and present capabilities. All conditions shall be sufficiently specific to guide both supervision and conduct.

(2) Parole may be conditioned on residence at a community correctional facility when the parole board determines this to be necessary to parole adjustment.

(3) Parole shall not be granted unless a resident agrees to all conditions prescribed by the parole board. A paroled prisoner shall also comply with subsequent conditions lawfully imposed by the board. A parole agreement which specifies the conditions of parole shall be signed by a resident at the time of release.

(4) All conditions of parole shall be provided to the parolee in writing.

History: 1954 ACS 93, p. 65, Eff. Nov. 30, 1977.

R 791.7735 Search of parolee's person or property.

Rule 735. (1) A parole agent may conduct a warrantless search of a parolee's person or property in the following circumstances:

(a) Incident to a lawful arrest pursuant to §791.239 of the Michigan Compiled Laws.

(b) A stop and frisk, if there is reasonable cause to believe that the parolee is presently involved in criminal conduct, has violated a condition of parole, or is carrying a weapon.

(c) Seizure of evidence or contraband in plain view.

(d) With the consent of the parolee or a third party having mutual control over the property to be searched.

(2) Where the circumstances of subrule (1) are not present and there is reasonable cause to believe that a violation of parole exists, a parole agent may conduct a search of a parolee's person or property, if, as soon as possible thereafter, the parole agent files a written report with his or her supervisor, setting forth the specific reasons or grounds for the search, describing the location or place searched, and describing the specific items seized.

History: 1954 ACS 93, p. 65, Eff. Nov. 30, 1977.

R 791.7740 Preliminary parole revocation hearing; time; place.

Rule 740. In all cases where an alleged parole violator is detained and formally charged with a parole violation, a preliminary parole revocation hearing, to determine whether there is probable cause to believe that the parolee has committed an act in violation of parole conditions, shall be conducted as promptly as possible at or near the place of the alleged parole violation or arrest, if: (a) it is likely there will be a substantial delay between the arrest of the parolee and the parole revocation hearing; or (b) the parolee is detained in a location distant from the site of the parole revocation hearing. This rule is inapplicable where a parolee is convicted, or has been bound over after a preliminary

examination within a reasonable time, on criminal charges which constitute the same conduct as the alleged parole violation.

History: 1954 ACS 93, p. 66, Eff. Nov. 30, 1977.

R 791.7745 Preliminary parole revocation hearing; rights of alleged violator.

Rule 745. In connection with a preliminary parole revocation hearing, the alleged violator shall be:

(a) Given written notice of the time, place, and purpose of the hearing and of the specific charge or charges of parole violation.

(b) Advised of the right to testify and present witnesses and documentary evidence that provide relevant information to the hearing officer.

(c) Informed of evidence used to substantiate the parole violation charges. The parolee shall also be advised of the right to confront and question all persons who have given adverse information regarding the alleged violation, unless the hearing officer determines that the person would be subjected to a risk of harm by disclosure of his or her identity.

(d) Advised of the right to retained or appointed counsel if he or she makes a timely and colorable claim of innocence, or that there are substantial reasons which justify or mitigate the violation, making revocation inappropriate, which reasons are complex or otherwise difficult to present. Counsel may also be provided if the accused is mentally unable to properly present a defense. In all cases where a request for counsel is denied, the grounds for refusal shall be stated in the record.

History: 1954 ACS 93, p. 66, Eff. Nov. 30, 1977.

R 791.7750 Preliminary parole revocation hearing; waiver; summary of hearing; sufficiency of evidence.

Rule 750. (1) An alleged parole violator may waive a preliminary parole revocation hearing or any of the rights specified in R 791.7745. A waiver shall be in writing and signed by the person charged.

(2) When a preliminary parole revocation hearing is held, the hearing officer shall make a written summary of the hearing, which shall include the substance of the statements and evidence in support of the parolee's position and the department's position, and the reasons for the hearing officer's decision.

(3) If the evidence presented at the hearing is insufficient to support a probable cause finding, a finding of no probable cause shall be entered and the parolee shall be released immediately. If the evidence presented at the hearing is sufficient to support a probable cause finding, the parolee shall be continued in custody pending the decision of the deputy director or designate regarding his or her return.

History: 1954 ACS 93, p. 66, Eff. Nov. 30, 1977.

R 791.7755 Parole revocation hearing; parolee's rights; postponement; decision.

Rule 755. (1) Pursuant to §791.240a of the Michigan Compiled Laws, a parolee shall have an opportunity for a hearing to determine whether a violation of parole was committed, and, if so, whether revocation is the appropriate disposition.

(2) The parolee shall have written notice of the time, place, and purpose of the hearing and the specific charge of parole violation. The parolee shall be advised that, at the hearing, he or she has the following rights:

(a) The opportunity to testify and present relevant witnesses and documentary evidence.

(b) Disclosure of the evidence against him or her.

(c) Confrontation and cross-examination of adverse witnesses, unless the parole board finds good cause for the denial of this right.

(d) Representation by retained or appointed counsel.

(3) A hearing may be postponed beyond the statutory time period at the written request of the parolee or parolee's counsel.

(4) The parole board shall make a written statement of the evidence relied on and reasons for the decision.

(5) When the evidence is insufficient to support the parole violation charge, the parolee shall be reinstated to parole status as soon as possible.

(6) When a parolee is found in violation of parole, the parole board may either revoke or reinstate parole or issue such order as may be appropriate in the discretion of the board.

History: 1954 ACS 93, p. 66, Eff. Nov. 30, 1977.

R 791.7760 Pardons, reprieves, and commutations.

Rule 760. (1) A current or past resident may apply for a pardon, reprieve, or commutation by filing a notarized copy of the appropriate application with the parole board. The application shall contain the following information:

(a) Date of conviction, and sentence imposed for the crime for which the person is seeking clemency.

(b) Personal history, including age, citizenship, marital status, number of dependents, and, if on parole or discharged from sentence, employment history and character references.

(c) Criminal record.

(d) Circumstances of crime for which the person is seeking clemency.

(e) Reasons for seeking clemency.

(f) Other relevant information requested by the parole board.

(2) Upon receipt of an application for pardon, reprieve, or commutation, the parole board shall handle such application pursuant to the procedures contained in §791.244 of the Michigan Compiled Laws.

(3) When a public hearing is to be held, notice shall be given to interested parties as required by §791.244(d) of the Michigan Compiled Laws. Notice shall also be made available to the public press prior to the hearing date. At the public hearing, the applicant may testify and present relevant witnesses, as well as oral and documentary evidence. The applicant may be represented by retained or appointed counsel. The public shall be represented by the attorney general. The presiding parole board members shall summarize all statements and documents presented both for and against the application for clemency.

History: 1954 ACS 93, p. 67, Eff. Nov. 30, 1977.

PART 8. YOUTHFUL TRAINEES

R 791.8801 Definitions.

Rule 801. As used in this part:

(a) "Committing court" means the court of record which has jurisdiction over a criminal offense allegedly committed by a youth and which assigns the youth to youthful trainee status.

(b) "Release with supervision" means release of a youthful trainee from a department facility to the supervision of the committing court.

(c) "Revocation" means the removal of a youth from youthful trainee status and the reinstatement of criminal proceedings.

(d) "Termination" means the removal of youthful trainee status by the committing court upon successful completion of the program outlined for the trainee.

(e) "Youthful trainee" means a person committed to the custody or supervision of the department pursuant to the provisions of §§762.11 to 762.15 of the Michigan Compiled Laws, commonly known as the "Holmes youthful trainee act."

History: 1954 ACS 93, p. 67, Eff. Nov. 30, 1977.

R 791.8810 Youthful trainees committed to department facilities; appointment and duties of supervisory committee; request for transfer.

Rule 810. (1) A youthful trainee committed to a facility which also houses adult offenders shall be bound by all rules and regulations governing that facility.

(2) A committee of not less than 3 department staff members, appointed by the director, shall supervise youthful trainees committed to a department facility. The supervisory committee shall:

(a) Establish standards for supervision of youthful trainees in facilities.

(b) Establish standards for the release, with supervision, of youthful trainees from department facilities.

(c) Review the records of youthful trainees committed to facilities, at intervals not longer than 6 months, to determine eligibility for release with supervision, termination, and revocation of youthful trainee status.

(d) Make appropriate recommendations to the committing court regarding release with supervision, termination, and revocation of youthful trainee status for those committed to facilities.

(3) Where the department facilities are inappropriate for the treatment and supervision of a youthful trainee, the supervising committee shall request admission of the youthful trainee to a facility of the department of social services.

History: 1954 ACS 93, p. 67, Eff. Nov. 30, 1977.

R 791.8820 Youthful trainees under supervision of committing court.

Rule 820. A youthful trainee under the supervision of the committing court shall be supervised pursuant to R 791.9920 and R 791.9930, unless the court provides otherwise.

History: 1954 ACS 93, p. 68, Eff. Nov. 30, 1977.

PART 9. PROBATION

R 791.9901 Definitions.

Rule 901. As used in this part:

(a) "Disposition" means a term of probation or imprisonment, or a fine, or any combination thereof, imposed upon the offender by the sentencing court.

(b) "Offender" means a person convicted of a felony or misdemeanor.

(c) "Presentence investigation" means an investigation of the antecedents, character, and circumstances of the offender and the offense, made by the presentence investigator for the purpose of preparing a presentence report.

(d) "Presentence investigator" means a probation agent responsible for conducting presentence investigations and preparing presentence reports.

(e) "Presentence report" means a written report, based on the presentence investigation, made by the presentence investigator to the sentencing court for the purpose of aiding the court in reaching a just and rational disposition of an offender's case.

(f) "Probation agent" means a member of the bureau of field services or a public employee certified by the corrections commission, who is responsible for

the preparation of presentence reports on offenders or for the supervision of probationers placed in his or her care by the sentencing court, or responsible for both such functions.

(g) "Probation plan" means a statement by the presentence investigator in the presentence report describing proposed terms and conditions of probation, the objectives to be achieved by probation, and the program of supervision proposed in order to achieve those objectives.

(h) "Probationer" means an offender who is placed on probation by the sentencing court.

(i) "Sentencing court" means the court with jurisdiction to pass or modify sentence on a particular offender's case, or a member of the bench of that court who has responsibility for sentencing, resentencing, or modifying the sentence of a particular offender.

(j) "Short form" means a brief presentence report which contains a summary of the data relating to the current offense, the offender's criminal and social history, and a recommended disposition.

History: 1954 ACS 93, p. 68, Eff. Nov. 30, 1977.

R 791.9910 Presentence report; contents; confidentiality of certain sources; submission of prior report.

Rule 910. (1) A presentence report shall contain at least the following information:

(a) An objective description of the offense, based on all the relevant information acquired by the probation agent during the presentence investigation.

(b) The offender's description of the current offense and the circumstances surrounding it.

(c) A full description of the prior criminal convictions and juvenile dispositions of the offender.

(d) A description and status of all criminal charges pending against the offender at the time of the presentence investigation.

(e) A personal profile of the offender, including:

(i) Educational background.

(ii) Employment qualifications, background, and status, including any military record.

(iii) Social history, including family relationships, marital status, personal habits, interests, activities, and residence history.

(iv) Medical history, including a psychiatric or psychological report when available and appropriate or when requested by the sentencing court.

(v) Economic situation.

(vi) Other information relevant to the offender's character and circumstances.

(f) A proposed plan, which shall include:

(i) An evaluation of the offender in terms of strengths, weaknesses, abilities, established behavior patterns, and readiness for change.

(ii) Information about resources available, including, but not limited to, treatment centers, residential facilities, vocational training services, special educational facilities, rehabilitative programs of various institutions to which the offender might be committed, special programs in the probation department, and other similar programs relevant to the particular offender's situation.

(iii) A probation plan, as defined in R 791.9901(g), if probation is a possible disposition.

(g) Recommended disposition, unless prohibited by the sentencing court.

(2) A source of information obtained on a promise of confidentiality, as well as a diagnostic opinion which might seriously disrupt a program of rehabilitation, shall be listed separately from the body of the report.

(3) When the sentencing court or probation office has, or can obtain, a presentence report prepared on an offender within 3 years of the present offense, that report may be submitted, if it is supplemented by a short form report documenting changes in the offender's status since the presentence report was prepared.

History: 1954 ACS 93, p. 68, Eff. Nov. 30, 1977.

R 791.9920 Supervision of probationer; notice of conditions; methods of supervision; modification of order.

Rule 920. (1) When an offender is placed on probation, the supervising probation agent shall provide the offender with a copy of the order and inform the offender of the statutory conditions, as well as all of the terms and conditions contained in the order, and the possible consequences of a failure to adhere to the conditions of probation.

(2) For the purpose of monitoring the probationer's adjustment while on probation, the probation agent may:

(a) Inquire into the probationer's employment status, including, but not limited to, the probationer's performance on the job, relationships with fellow employees, and relationships with supervisors.

(b) Conduct interviews with probationer, members of the probationer's family, and acquaintances.

(c) Make other reasonable inquiries to determine whether the objectives of probation are being met.

(3) Whenever it appears to the probation agent that a modification of the terms or conditions of probation is necessary to achieve the objectives of probation, the agent may petition the sentencing court for a modification of the probation order. The petition shall contain a clear statement of the requested modification and the reason for the change. The probation agent shall provide the probationer with a copy of the modified order of probation and shall explain the changes made by the modified order to the probationer.

History: 1954 ACS 93, p. 69, Eff. Nov. 30, 1977.

R 791.9930 Probation violations; reporting; petition for revocation hearing; notice; violation report.

Rule 930. (1) A probation agent shall inform the court when such agent has reason to believe that a violation has occurred. The agent shall petition the court for a probation revocation hearing when the alleged violation is serious.

(2) A petition for a probation revocation hearing shall contain a statement of the specific condition allegedly violated, and a brief description of the circumstances of the alleged violation.

(3) The probation agent shall provide the probationer with a copy of the petition at least 24 hours prior to the scheduled hearing.

(4) The probation agent shall file a probation violation report with the sentencing court within a reasonable time prior to the hearing. The report shall contain a full description of the alleged violation and the circumstances surrounding it, and a summary of the probationer's development and adjustment while on probation.

History: 1954 ACS 93, p. 69, Eff. Nov. 30, 1977.

PART 10. INTERSTATE COMPACT ON PAROLE AND PROBATION

R 791.10001 Adoption by reference.

Rule 1001. The rules, regulations and forms used under the parole and probation compact, being chapter 3 of the parole and probation compact administrators' manual (Spring, 1972), adopted by the parole and probation compact administrators' association, are adopted and incorporated herein by reference.

Copies of the adopted matter are available for inspection and distribution to the public at cost from the Department of Corrections, Lansing, Michigan.

History: 1954 ACS 93, p. 70, Eff. Nov. 30, 1977.
